Notes to Consolidated Financial Statements

September 30, 2014

(Amounts expressed in US dollars)

(Unaudited)

NOTE 1 – BUSINESS AND GOING CONCERN

Organization

Kallo Inc. ("Kallo" or the "Company") develops software designed to taking medical information from many sources, and then depositing it into a single source as an electronic medical record for each patient.

Going Concern

The accompanying unaudited consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The amounts of assets and liabilities in the consolidated financial statements do not purport to represent realizable or settlement values. The Company has incurred operating losses since inception and has an accumulated deficit of \$20,626,585 at September 30, 2014. The Company is expected to incur additional losses as it develops its products and marketing channels.

The Company has met its historical working capital requirements from the sale of common shares and related party loans. In order to not burden the Company, the officer/stockholder has agreed to provide funding to the Company to pay its annual audit fees, filing costs and legal fees as long as the board of directors deems it necessary. However, there can be no assurance that such financial support shall be ongoing or available on terms or conditions acceptable to the Company. This raises substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 – ACCOUNTING POLICIES AND OPERATIONS

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X related to smaller reporting companies. These unaudited consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements and notes, which are included as part of the Company's Form 10-K filed with the SEC for the year ended December 31, 2013.

Operating results for the periods presented are not necessarily indicative of the results that may be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited consolidated financial statements for fiscal year ended December 31, 2013 as reported in the 10-K have been omitted. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation, have been included in the accompanying unaudited consolidated financial statements.

Deposit – long term represents prepayments of rent due at the end of our new office lease (see Note 8).

Recently Adopted Accounting Pronouncements

The company has limited operations and is considered to be in the development stage. During the quarter ended March 31, 2014, the Company has elected to early adopt Accounting Standards Update No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements. The adoption of this ASU allows the Company to remove the inception to date information and all references to development stage.

Other than noted above, we do not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or cash flow.

## Notes to Consolidated Financial Statements

September 30, 2014

(Amounts expressed in US dollars)

(Unaudited)

## NOTE 3 – COMMON STOCK

On January 16, 2014, the holder of a promissory note converted the principal and interest outstanding of \$23,776 into 680,000 shares. The fair value of the stock issued was \$27,200 and therefore the Company experienced a loss on extinguishment of \$3,424. The Company also issued 6,335,000 shares valued at \$270,650 to various employees and a director as compensation for services rendered. During the nine months period ended September 30, 2014, the Company issued 26,319,353 shares for cash of \$1,315,967 (\$9,560 was collected prior to December 31, 2013).

On September 26, 2012, the Company entered into a investment agreement with Kodiak Capital Group, LLC whereby the company could issue 2,000,000 shares in exchange for an option to sell up to \$2,000,000 worth of Company shares at a price equal to 80% of the lowest daily preceding five days Volume Weighted Average Price at the time of exercise and expires six months from inception. The Company recorded a stock subscription receivable (included in equity) in the amount of \$100,000 which was determined to be the fair value of the option on September 26, 2012. On July 15, 2014, the Company and Kodiak extended the agreement through December 31, 2015. During the nine months period ended September 30, 2014, the Company put \$249,983 and 3,472,223 shares were issued pursuant to the above Agreement.

## NOTE 4 – WARRANTS

Warrant activity for the nine months ended September 30, 2014 is as follows:

	Number of Warrants	Weighted Average Exercise Price
Balance, December 31, 2013	1,580,000	\$ 0.50
Granted	-	-
Cancelled	-	-
Exercised	-	-
Balance, September 30, 2014 (unaudited)	1,580,000	\$ 0.50

Each warrant is exercisable for a period of one year from the effective date of a registration statement filed with the SEC. Such registration statement was declared effective on October 9, 2013.

## NOTE 5 – RELATED PARTY TRANSACTIONS

During the nine months period ended September 30, 2014, 5,000,000 shares were granted to a director and officer of the Company as stock-based compensation and were valued at \$200,000. 760,000 shares were granted to four other

employees as stock-based compensation and were valued, using the market closing price on the date of grant, at \$30,400. In addition, 4,304,633 shares were issued to a director of the Company for cash of \$215,232.

Included in short term loans payable is an amount due to a shareholder and director of the Company for the amount of \$1,450.

Included in accounts payable and accrued liabilities – other is an amount of \$24,032 due to and in other receivables is an amount of \$2,298 due from directors and officers of the Company as at September 30, 2014.

#### NOTE 6 – LOAN PAYABLE

As at September 30, 2014, a loan payable of \$58,124 to an unrelated party bears interest at 6% per annum, is unsecured and is payable in monthly installments of principal and interest in the amount of Canadian \$7,235, all due within the next 12 months.

## NOTE 7 – SHORT TERM LOANS PAYABLE

	September 30, 2014	December 31, 2013
Promissory note bearing interest at 10% per annum, due January 10, 2014	\$ -	\$ 25,664
Promissory note bearing interest at 10% per annum, due January 15, 2014	25,007	25,528
Non-interest bearing advances from director	1,450	1,450
Non-interest bearing short term funding from third parties	23,599	23,599
	\$ 50,056	\$ 76,241

On October 10, 2013, the Company issued a promissory note agreeing to pay the principal amount of Canadian \$25,000 plus interest at the rate of 10% per annum on January 10, 2014. Kallo did not pay on the due date and on January 16, 2014 the holder converted the principal and interest outstanding of \$23,776 into 680,000 common shares.

On October 15, 2013, the Company issued a promissory note agreeing to pay the principal amount of Canadian \$25,000 plus interest at the rate of 10% per annum on January 15, 2014. Kallo did not pay on the due date and the holder agreed to extend the due date by four additional periods of three months up to January 15, 2015. The amount outstanding as at September 30, 2014 was \$25,007, including interest.

As at September 30, 2014, the balance of \$1,450 represented an advance from a director which was non-interest bearing, unsecured and has no fixed repayment date.

As at September 30, 2014, the balance of \$23,599 represented short term funding provided by third parties which are non-interest bearing, unsecured and have no fixed repayment date.

## NOTE 8 – COMMITMENTS AND CONTINGENCIES

Sales commission agreement

On November 20, 2012, Kallo signed a memorandum of understanding with the Ministry of Health of the Republic of Ghana for the supply and implementation of a National Mobile Care program with Mobile Clinics and Clinical Command Centers integrated with the existing healthcare system and improve the healthcare delivery services to the rural and remote population of Ghana at large for a total project cost for National implementation and Maintenance support for five years of US\$158,500,000 (the "Ghana Project"). The Ministry of Health of the Republic of Ghana and Kallo Inc. have agreed that a contract for the implementation of the Mobile Care projects will be signed when a number of financing and other conditions have been satisfied.

In respect of the Ghana Project, the Company has agreed with two third parties to pay sales commissions equal to \$8,717,625 and 4.5% (subject to a maximum of \$7,162,375) of the contract price respectively for facilitating and securing the Contract with the Ministry of Health of the Republic of Ghana, payable within 7 to 14 business days of receipt of payment for the Project by Kallo in proportion to the payments received by Kallo.

On January 23, 2014, Kallo Inc. announced the signing of a US\$200,000,925 Supply Contract with the Ministry of Health and Public Hygiene of the Republic Of Guinea (the "Guinea Project").

Under the Supply Contract, Kallo will implement customized healthcare delivery solutions for the Republic of Guinea. The components of the solutions include, MobileCare, RuralCare, Hospital Information Systems, Telehealth Systems, Pharmacy Information, disaster management, air and surface patient transportation systems and clinical training.

NOTE 8 – COMMITMENTS AND CONTINGENCIES (continued)

Sales commission agreement (continued)

In respect of the Guinea Project, the Company has agreed with two third parties in Guinea to pay sales commissions for facilitating and securing the Contract with the Ministry of Health of the Republic of Guinea as follows:

\$20,000,000, payable as to an advance of \$300,000 immediately after the loan agreement for the Kallo MobileCare -and RuralCare program is signed by the Minister of Finance of the Republic of Guinea and the remainder within 7 to 14 business days of receipt of payment for the Project by Kallo in proportion to the payments received by Kallo.

\$4,000,000, payable within 7 to 14 business days of receipt of payment for the Project by Kallo in proportion to the -payments received by Kallo. In addition, a performance incentive payment of \$1,000,000 will be payable to three persons related to the third party in accordance to the same terms of payment described herein.

On March 8, 2014, the Company has agreed with a third party to pay sales commissions equal to \$25,000,000 for facilitating and securing the Contract with the Government of the Republic of Sierra Leone, payable within 7 to 14 business days of receipt of payment for the Project by Kallo in proportion to the payments received by Kallo. In addition, an incentive payment of \$7,000,000 will also be payable if the Government of Sierra Leone approve the Project on or before August 15, 2014 in accordance to the same terms of payment described above.

New lease

On June 27, 2014, the Company entered into a sublease agreement to lease office facilities under an operating lease for a term of two and a half years. The Company's future base and additional rental payment obligations under the lease commitments are as follows:

Year ending December 31, 2014	\$67,994
Year ending December 31, 2015	271,975
Year ending December 31, 2016	249,311
	589,280

NOTE 9 – SUBSEQUENT EVENTS

Share issuance

From October 1, 2014 through November 6, 2014, the Company has issued 13,048,564 shares for cash of \$652,428 and 100,000 shares to employees for services.

Table of Contents

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF  
2. OPERATIONS.

This section of the report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

There is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay out our bills. This is because we have not generated revenues from our operations during the last six years. We have been able to remain in business as a result of investments, in debt or equity securities, by our officers and directors and by other unrelated parties. We expect to incur operating losses in the foreseeable future and our ability to continue as a going concern is dependent upon our ability to raise additional money through investments by others and achieve profitable operations. There is no assurance that we will be able to raise additional money or that additional money or that additional financing will be available to us on satisfactory terms or that we will be able to achieve profitable operations. The consolidated financial statements were prepared under the assumption that the Company will continue as a going concern, however, there can be no assurance that such financial support shall be ongoing or available on terms or conditions acceptable to the Company. This raises substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

For the last four fiscal years, starting January 2010, our management and board of directors have raised funds through a personal and professional network of investors. This has enabled product and business development, continued operations, and generation of customer interest. In order to continue operations, management has contemplated several options to raise capital and sustain operations in the next 12 months. One of these options is an equity line of credit from Kodiak Capital Group LLC. Management's opinion is that this line of credit from Kodiak Capital Group LLC will enable continued operations for the next 12 months. During the nine months period ended September 30, 2014, Kallo has put and received \$249,983 under the equity line of credit from Kodiak. There is no assurance that Kodiak Capital Group LLC will continue to supply us with additional money. In the event we do not receive any funds from Kodiak, we will continue to borrow money from or sell restricted shares of our common stock to our officers and directors in order to maintain operations. Our officers and directors are under no legal duty to provide us with additional financing nor have our officers and directors committed to provide us with additional financing.

Analysis of our business acquisition and operations cost indicate a reasonable requirement of USD \$2,000,000 or less. We have entered into an agreement with Kodiak Capital Group, LLC., a Delaware limited liability company ("Kodiak") whereby we have the right to "put" to Kodiak up to \$2,000,000 in our shares of common stock. In connection therewith, we have filed a Form S-1 registration statement with the Securities and Exchange Commission registering for sale up to 50,000,000 shares of our common stock. Our previous arrangement with Kodiak expired in April 2014, but, on July 15, 2014, the Company and Kodiak Capital Group, LLC amended the investment agreement to extend the agreement through December 31, 2015. Based upon the current price of our common stock, we believe that if Kodiak purchases all 50,000,000 shares of common stock, we will only receive approximately \$2,000,000. The reasonable funding requirement of US\$2,000,000 is estimated to fund our operations and capital requirements over the next 12 months. Management believes that the Company can be generating revenue in the next 6 – 12 months, and therefore will not require additional funding.

Edgar Filing: Kallo Inc. - Form 10-Q/A

On November 20, 2012, we signed a memorandum of understanding with the Ministry of Health of the Republic of Ghana for the supply and implementation of a National Mobile Care program with Mobile Clinics and Clinical Command Centers integrated with the existing healthcare system and improve the healthcare delivery services to the rural and remote population of Ghana at large for a total project cost for National implementation and Maintenance support for five years of US\$158,500,000.

-11-

---

Table of Contents

A formal contract for the implementation of the Mobile Care projects will be signed upon the satisfaction of several conditions including approval of the related credit facilities, finalization and approval of the detailed technical specifications, successful completion of a "Value for Money" audit and other approvals required by different governmental bodies in Ghana.

To date, the Ministry of Health of the Republic of Ghana had approved the detailed technical specifications proposed by Kallo and the "Value for Money" audit has been completed. A financial institution has submitted a formal term sheet for the required credit facilities to the Ministry of Finance of Ghana. We expect the final approval by the Ministry of Finance and the Parliament of the Republic Ghana to come shortly.

On January 23, 2014, we announced the signing of a US\$200,000,925 (Two Hundred million nine hundred and twenty-five US dollars) Supply Contract with the Ministry of Health and Public Hygiene of the Republic Of Guinea.

Under the Supply Contract, Kallo will implement customized healthcare delivery solutions for the Republic of Guinea. The components of the solutions include, MobileCare, RuralCare, Hospital Information Systems, Telehealth Systems, Pharmacy Information, disaster management, air and surface patient transportation systems and clinical training.

Kallo and the Republic of Guinea have been working to conclude financing arrangements for the implementation of this contract. This process has taken much longer than originally anticipated due to the current challenges facing West Africa, which in particular has restricted travel to and from the region.

With financing arrangements now nearing completion, Kallo expects to begin production of the mobile clinics and specialist hospital in the first quarter of 2015. The first set of mobile clinics is expected to be delivered in the second and third quarters of 2015, with the entire program scheduled for completion in 24 months from first delivery.

Furthermore, in response to a request from the Ministry of Health Ghana, Kallo has consolidated a proposal for countrywide healthcare delivery programs that includes Kallo's MobileCare™, RuralCare™ and DialysisCare™. The Minister of Health of Ghana, Hon. Dr. Kwaku Agyeman Mensah in an official letter to Kallo Inc. has conveyed a confirmed acceptance and prioritization of Kallo MobileCare; Kallo RuralCare and Kallo DialysisCare programs for Ghana.

Kallo consolidated these three projects at the request of the Honorable Minister of Health, and we are very happy with this letter of acceptance and confirmation. The total value of these three projects is \$795,114,590.00 US dollars; the Health Minister of Ghana has further informed us that the procurement process will commence immediately upon the financing institution providing a term sheet. In view of this, both parties are now preparing to schedule a supply contract signing ceremony before the end of this year so as to enable Kallo to start the manufacturing process in Q1 2015.

Additionally, other West African countries have been in discussions with Kallo for the MobileCare™ and RuralCare™ programs. These countries include the Republic of Ghana, Sierra Leone and Nigeria.

MobileCare™ supply contract includes:

1. Mobile clinics - (10)
2. Clinical Command Centre - (1)
3. Administration Centre - (1)
4. Utility vehicles - (2)

5. User training - (5 years)

6. Professional and clinical training - (5 years)

7. Hardware and software maintenance - (5years)

-12-

---

## Table of Contents

8. Operations & management support - (5 years)
9. Maintenance and continued educational support - (5 years)
10. Supply chain management of medical equipment, consumables and spare parts - (5 years)
11. Advanced and integrated software systems, including telehealth - (1 full system)
12. Fixed Medical Hospital - (1)
13. Ambulances - (20)
14. Medical Helicopter - (1)

## Plan of Operation

The following Plan of Operation contains forward-looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth elsewhere in this document.

Kallo mobile Care implementation plan for Guinea and Ghana is based on the timelines of the Mobiles Clinic's delivery and training provided by Kallo.

Based on the delivery of our plan, there is a lead-time of six months for production and delivery of the first two mobile clinics in Guinea and Ghana from the time of confirmed purchase order along with payments through bank.

In this period of six months from the date of purchase order confirmation to us the following will be completed to go live of the Mobile Clinics.

1. Establish geographical coverage for Mobile Clinics based on hospitals to population ratio in specific rural areas of Guinea and Ghana
2. Establish the specialists support from teaching hospitals
3. Establish leadership for operational and administrative support
4. Establish governance councils for operations, education and training

Our mobile care program with mobile clinics, clinical and administrative command centers deployed in an integrated model with the current healthcare delivery services will produce demonstrable impact in the community in terms of improved healthcare delivery within 12 months of implementation that would contribute to the flagship achievement by the current government to its merit.

For the Ghana Project, as of the date of this report, the Kallo Mobile Care Program project-scope has been elevated to national discussions to include key stakeholders in healthcare delivery, National Disaster Management Organization (NADMO), National Security Agency (NSA), Ministry of Defence, Ministry of Health, Ghana Health Services (GHS), National Development Planning Commission (NDPC) and the local governments.

## New Business Developments in Ghana

As a result of the recent prioritization of Ministry Of Health Short and Medium-Long-Term Programmes of Work and Performance Targets and Agreements on Key Health Indicators from the Office of the President, on April 23, 2013, the Minister Of Health of Ghana Hon. Sherry Ayittey wrote to the Minister of Finance of Ghana that the Ministry of Health had received, considered and approved an unsolicited Offer/Proposal from Kallo Inc. for the provision of Fixed Facilities with funding from the Export-Import (EXIM) Bank of the USA. She stated in the letter that this Project deliverables are in line with policy and strategy guidelines and do reflect the aspirations of the Ministry.

A value for money (VFM) assessment conducted by the Ministry Of Health on our case development and deliverability has determined that the logic of the project, for the level of investment involved is clear and supported by evidence. She further states that the anticipated project solution represents a best value for money option.

-13-

---

Table of Contents

The total value of this approved project is US\$174,350,000 as confirmed by the Minister of Health in the approval letter.

In the letter the Minister of Health has requested the Minister of Finance to negotiate and conclude the funding arrangement and the respective financing terms and conditions ahead of a joint submission to the Cabinet for consideration and approval.

The Ministry has identified project sites for this project as follows:

	Polyclinic Urban	Polyclinic Rural	Total	CHIPS	CPD
Greater Accra	3	1	4	0	
Ashanti Region	2	1	3	0	
Central Region	2	1	3	2	
Northern Region	2	2	4	2	
Upper East Region	1	2	3	2	
Upper West Region	0	0	0	1	
Western Region	2	3	5	0	
Volta Region	1	1	2	2	
Eastern Region	1	1	2	0	
Brong-Ahafo Region	1	0	1	1	
	15	12	27	10	

Our plan and focus during the next twelve months include both, selling our existing product as well as developing and possibly selling new products. Since changing to our current business, we have not generated any revenues.

#### Costs Associated with the Plan of Operations

Currently under the Plan of Operations, we have expenses towards six full time resources, including engineers, applications specialist, and project and operations managers. We have completed the product development phase for Electronic Medical Records system, Mobile Clinics, and Clinical Command Centers. Our efforts are focused in commercializing these technologies and generating revenue. The current capital requirement caters only to the resources, infrastructure, and business development expenses for these technologies. Management analysis of our business acquisition and operations cost indicate a reasonable requirement of USD \$2,000,000 or less for the next 12-18 months of operations. We anticipate that this infusion of capital will generate revenue from sales of the above-mentioned technologies. This will in turn sustain our company and enable further development of our other owned copyrighted technologies.

#### Our Sales and Marketing Strategy for existing developed products

##### KALLO EMCURx (EMR)

As of the date of this report, we have achieved an EMR milestone for Specialists, by securing an accepted and signed installation order. Our specialist EMR product, EMCURx, is customized to satisfy the needs of specialists, regardless of their specialty. The software is being installed and an advance payment of \$24,990 has been received as of September 30, 2014. Revenue from this installation will be \$30,000 with an anticipated gross profit of \$20,000. An updated and more powerful version of the software will be available in 2014 and installation will be completed then. Clinical user and administrative training will be completed afterwards to ensure seamless transition to a paperless

digital medical clinic.

Our milestones during the next twelve months are:

-14-

---

## Table of Contents

1 – Developing our sales organization and marketing the third party products along with our software that brings the data from these products into an EMR system in the major metropolitan areas of Canada. We expect the cost to be \$300,000 and 12 months to complete this milestone.

2 – Simultaneously with the build-up of our sales organization, we will build a product support team that will provide installation, training and customer support. We expect the cost to be \$500,000 and 12 months to complete this milestone.

3 – Expanding our market from the larger metropolitan areas to the smaller rural and more distant medical facilities. We expect the cost to be \$250,000 and 12 months to complete this Milestone.

4 – Developing our Mobile Care business globally. We expect the cost to be \$ 700,000 and 12 months to complete the Milestone.

Within Canada, we will focus on having a direct sales force to market and sell EMR to walk-in clinics/doctor's offices, independent diagnostic centers /independent health facilities and hospitals. The revenue generation from EMR consists of product sales, implementation, integration, training, on-going maintenance, and professional services.

Outside Canada, we may establish commercial partnerships for all of our product candidates in order to accelerate development and marketing in those countries and further broaden our products' commercial potential.

## KALLO MOBILE CARE

We have successfully launched one of our copyrighted technologies "MOBILE CARE" - mobile clinics in November 2011, and have since then received several enquiries for this product from countries in Africa, Southeast Asia, North West Territories and Northern Ontario in Canada, USA, and the Middle East. We have not been contacted by Sudan, Syria, or Iran. If we were contacted by Sudan, Syria, or Iran, we would not do business with them or with any entity located within their geographical boundaries since they are designated by the U.S. Department of State as sponsors of terrorism and are subject to U.S. economic sanctions and export controls. Based on the levels of interest from the local Ministries of Health, we have selected companies with business and technical strengths as our local representatives for sales and support in the region. MOBILE CARE is a state of the art clinical setup in a vehicle equipped with the latest technology in healthcare. More than just a facility, MOBILE CARE can instantly connect the onboard physician with specialists for on-demand consultation via satellite through its Telehealth system. This is truly a holistic approach to delivering healthcare to the remotely located. For many rural communities, the nearest hospital, doctor or nurse may be hundreds of kilometers away. In many cases, this gap can be bridged using Telehealth technology that allows patients, nurses and doctors to talk as if they were in the same room. MOBILE CARE is not the same thing as EMR referred to herein.

We expect to see sales revenues from Kallo's Mobile Care business unit in the next twelve months. Our MOBILE CLINIC is equipped with necessary medical equipment as per regional healthcare requirements. We also install our copyrighted software and third party software as required. Revenue is generated by charging for medical equipment, software licenses, installation implementation and training. This generates an ongoing revenue stream for service, maintenance, spare-parts, and consumables.

## Our Development and Commercialization Strategy for new products

We intend to initiate sales of our products in our target commercial areas. Our target commercial areas are hospitals, clinics and doctors' offices. We expect to focus on marketing our current offering as well as completing product

development for our product candidates in order to increase our possibilities for current and future revenue generation.

-15-

---

## Table of Contents

Our forward-looking plan envisions applying our copyrighted design and technology to develop three additional products, to bring to market integrated computer systems that address today's critical health management needs in epidemic control, medical information flow across borders and provision of health care in rural and remote areas.

In addition to our EMR, which is ready for production, we have prioritized the following products for completion of development and are listing them in order of priority.

A.M.C. Telehealth – Mobile Clinic Telehealth System – Developed and launched in November 2011.

B.EMR Integration Engine – Electronic Medical Record Integration Engine - Under development.

C.C&ID-IMS – Communicable and Infectious Disease Information Management System - Under Development

D.CCG Technology – Clinical-Care Globalization technology – Under Development

We do not at this time have a definitive timetable as to when we will complete these intense development efforts.

The development and marketing of new medical software technology is capital intensive. We have funded operations to date either through the sale of our common stock or through advances made by our key shareholders.

We have utilized funds obtained to date for organizational purposes and to commence certain financial transactions. We require additional funding to complete these transactions (including the acquisition of a service-based, valued-business enterprise and related expenses), expand our marketing and sales efforts and increase the Company's revenue base.

Limited operating history; need for additional capital

There is limited historical financial information about us upon which to base an evaluation of our performance. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a business enterprise, including limited capital resources and possible cost overruns due to price increases in services and products.

To become profitable and competitive, we have to sell our products and services.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop, or expand our operations. Equity financing could result in additional dilution to existing shareholders.

Results of operations

Revenues

We did not generate any revenues during the nine months ended September 30, 2014 or 2013. We are in the process of completing the user training for our first installation of EMR for specialists and we expect to start generating revenues in 2014 or 2015.

## Table of Contents

### Expenses

During the three months ended September 30, 2014 we incurred total expenses of \$580,372, including \$309,459 in salaries and compensation, \$11,374 in depreciation, \$160,522 in professional fees, \$22,497 in selling and marketing expenses and \$76,520 as other expenses whereas during the three months ended September 30, 2013 we incurred total expenses of \$298,540, including \$143,135 in salaries and compensation, \$22,143 in depreciation, \$28,972 in professional fees, \$93,358 in selling and marketing expenses and \$81,029 in other expenses net of \$96 gain in change in fair value on convertible promissory note and \$70,001 gain on extinguishment of convertible promissory note. Our professional fees consist of legal, consulting, accounting and auditing fees. The increase in our total expenses for the three months ended September 30, 2014 from the comparative period is mainly due to the unrealized gain of \$70,097 on fair value changes and extinguishment in convertible promissory note in the previous quarter which was not present in the current quarter, an increase in salaries and compensation of \$166,324 and an increase of \$131,550 in professional fees. Otherwise, there is a decrease of \$10,769 in depreciation, \$70,861 in selling and marketing expenses and \$4,509 in other expenses. The increase in salaries and compensation was mainly due to the cost of new hires during the quarter and issuance of shares to employees as Kallo start gearing up for the supply contract with the Republic of Guinea. The increase in professional fees was mainly due to the cost of changing auditors on June 3, 2014 and having the audit work on the December 31, 2013 financial statements performed by two different firms as a result.

During the nine months ended September 30, 2014 we incurred total expenses of \$1,657,539, including \$829,359 in salaries and compensation, \$34,121 in depreciation, \$446,036 in professional fees, \$164,932 in selling and marketing expenses and \$183,091 as other expenses whereas during the nine months ended September 30, 2013 we incurred total expenses of \$1,326,297, including \$473,477 in salaries and compensation, \$66,427 in depreciation, \$419,453 in professional fees, \$267,426 in selling and marketing expenses and \$250,281 in other expenses net of \$34,099 gain in change in fair value of convertible promissory note and \$116,668 gain on extinguishment of convertible promissory note. Our professional fees consist of legal, consulting, accounting and auditing fees. Total expenses for the nine months ended September 30, 2014 increased compared with the comparative period. There was an increase of \$355,882 in salaries and compensation due to non cash stock based compensation of \$270,650 in 2014 to employees and the hiring of new employees as Kallo start gearing up for the supply contract with the Republic of Guinea. There was an unrealized gain of \$150,767 on fair value changes and extinguishment in convertible promissory note in the previous quarter which was not present in the current quarter. There was also an increase of \$26,583 in professional fees. Otherwise, there is a decrease of \$32,306 in depreciation, \$102,494 in selling and marketing expenses and \$67,190 in other expenses.

### Net Loss

During the three months ended September 30, 2014 we did not generate any revenues and incurred a net loss of \$580,372 compared to a net loss of \$298,540 during the same period in 2013. The main reasons were the unrealized gain of \$70,097 on fair value changes and extinguishment in convertible promissory note in the previous quarter and the increases in salaries and compensation and professional fees for the reasons discussed above.

During the nine months ended September 30, 2014 we did not generate any revenues and we incurred a net loss of \$1,657,539 in line with a net loss of \$1,326,297 during the same period in 2013.

### Liquidity and capital resources

As at September 30, 2014, the Company had current assets of \$157,297 and current liabilities of \$1,177,598, indicating working capital deficiency of \$1,020,301. As of September 30, 2014, our total assets were \$1,087,371 in cash, other receivables, prepaid expenses, copyrights, equipment and our total liabilities were \$1,177,598 comprised

Edgar Filing: Kallo Inc. - Form 10-Q/A

of \$1,024,428 in accounts payable and accrued liabilities, \$20,000 in accrued officer salaries, short term loans of \$50,056, deferred revenue of \$24,990 and loans payable of \$58,124.

-17-

---

Table of Contents

Cash used in operating activities amounted to \$1,514,443 during the nine months ended September 30, 2014, primarily as a result of the net loss adjusted for non-cash items and various changes in operating assets and liabilities.

There were no cash used in investing activities during the current nine months period ended September 30, 2014.

Cash provided by financing activities during the nine months ended September 30, 2014 amounted to \$1,556,390 and represented proceeds from sale of common stock.

The Company issued 26,319,353 shares of common stock for cash consideration of \$1,315,967 and obtained \$249,983 from the exercise of a put with Kodiak during the nine months period ended September 30, 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are not effective due to lack of segregation of duties in financial reporting and presence of adjusting journal entries during our last audit. There were no changes in our internal control over financial reporting during the quarter ended September 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

On July 29, 2011, Watt International Inc. ("Watt") commenced a third party claim against us concerning monies that Kallo allegedly owed to Watt for branding and internet services provided by Watt to Kallo. Watt is seeking damages in the amount of \$161,673.67 plus unspecified "special" damage. Management is of the opinion that Watt has charged Kallo for services that Watt did not perform, and that Watt has duplicated charges for work that it performed. We intend to defend this case vigorously. Management has recognized an accrual for the amount of the claim. An estimate could not be made of the unspecified "special" damages.

ITEM 1A. RISK FACTORS.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.
