Report of Independent Accountants

To the Board of Directors of
Ameren Corporation and the
Participants of the Ameren Corporation
Savings Investment Plan

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Ameren Corporation Savings Investment Plan (the "Plan") at December 31, 2000 and 1999, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and

Edgar Filing: AMEREN CORP - Form 11-K

evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. Description of the plan

General

The following is a brief summary of the various provisions of the Ameren Corporation (the Company) Savings Investment Plan (the Plan). Participants should refer to the Plan document for more complete information.

The Plan's purpose is to provide certain management and contract employees of the Company and its wholly-owned subsidiaries, the option to defer a portion of their annual base compensation for Federal income tax purposes in accordance with Section 401(k) of the Internal Revenue Code. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and to certain provisions of the Securities Exchange Commission.

The Company serves as sponsor of the Plan, and, consequently, has the authority to amend or terminate the Plan subject to certain restrictions. The Board of Directors of the Company has the authority and responsibility for the general administration of the Plan. The Northern Trust Company, as Trustee, has the authority and responsibility to hold and protect the assets of the Plan in accordance with Plan provisions and the separate Trust Agreement.

Participation

The Plan covers substantially all employees of the Company except contract employees covered by a collective bargaining agreement between either Local 702 IBEW or Local 148 IUOE and the Company. In 1998, the Plan was amended to remove the restrictions requiring one year of service and attainment of age 21 before becoming eligible to participate in the Plan. Participation by eligible employees is voluntary.

Contributions

Participants may contribute from 1% to 15% of their base compensation to the Plan through payroll deductions (basic contributions). For management employees, the Company makes a matching contribution equal to \$1.00 for each \$1.00 up to the first 3% of each participant's contribution (basic matching contribution). Additionally, the Company will contribute an additional \$.50 for each \$1.00 for the next 3% of a participant's contribution (additional matching contribution). A portion of Company matching contributions is invested in the Ameren Common Stock Fund. For contract employees, Company contributions are made based on specific agreements between the Company and the individual collective bargaining units. All Company contributions are made to the extent sufficient earnings are available.

Participants direct their basic contributions and the Company's basic matching contributions by electing that such contributions be placed in a single investment fund or allocated in increments of 1% to any combination of investment funds. Such fund allocation elections may be changed daily. Earnings derived from the assets of any investment fund are reinvested in the fund to which they relate. Participants may elect daily to reallocate all or in 1% increments, the value of their accounts between funds. Pending investment of the assets into any investment fund, the Trustee may temporarily make certain short-term investments.

Effective July 1, 1999, Company contributions vest immediately. Company contributions also vest upon retirement, total and permanent disability, death, termination of the Plan or complete discontinuance of Company contributions regardless of years of service. If the amount of the Company's contribution that is not vested with respect to any participant is forfeited upon termination of employment, it will be restored if the participant becomes an eligible employee prior to incurring five consecutive one-year breaks in service following termination and repayment of all amounts distributed is made by the participant within five years of re-employment. There were no forfeitures during the year ended December 31, 2000, with no amounts restored during the year. Forfeitures during the year ended December 31, 1999 approximated \$35,000, with no amounts restored during the year.

Distributions

The total vested amount of a participant's account shall be distributed to the participant according to one of the options as described in the Plan and as elected by the participant. A participant whose account balance is \$5,000 or greater may defer distribution until December 31 of the year they attain age 70 1/2 but no later than April 1 of the year following the participant's attaining age 70 1/2. Contributions to the Plan and investment income thereon are taxable to participants upon distribution pursuant to the rules provided for under the Plan and the Code.

Edgar Filing: AMEREN CORP - Form 11-K

The Plan also provides, to participants of the former Company Employee Stock Ownership Plan and at the discretion of the Company, for distribution prior to termination of employment of (a) all or a portion of a participant's account balance acquired at least 84 months prior to a distribution and (b) any portion of a participant's account balance acquired by dividends or other income.

Plan termination

The Company intends to continue the Plan indefinitely. However, the Company may at any time and for any reason, subject to ERISA and Internal Revenue Service regulations, suspend or terminate the Plan provided that such action does not retroactively adversely affect the rights of any participant under the Plan.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investments

All investments are presented at fair value as of December 31, 2000 and 1999. The fair value of the Ameren Common Stock Fund was determined using year-end published market prices. Investments in equity securities and bonds are valued at net asset market value including accrued income on the last business day of each year. Investments in the Northern Trust Company's Short-term Fund and the T. Rowe Price Stable Value Common Trust Fund are valued at cost plus accrued income, which approximates market. Participant loans are valued at cost which approximates fair market value.

Edgar Filing: AMEREN CORP - Form 11-K

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Income

Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Gains and losses on security transactions are recorded on the trade date. Net unrealized appreciation or depreciation for the year is reflected in Net appreciation (depreciation) of investments on the Statement of Changes in Net Assets Available for Benefits.

Expenses

Trustee fees incurred in administering the Plan are charged to the Plan.

Benefit payments

Benefit payments are recorded when paid.

Reclassifications

Certain reclassifications have been made to prior years' financial statements to conform with 2000 reporting.

6. Federal income tax status

The Plan, then known as the Union Electric Company Savings Investment Plan, obtained its latest determination letter in 1994, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended and merged since receiving the determination letter. The Company is currently restating the Plan document to reflect all changes and upon completion of the restatement, will request a new determination letter. The Company believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan continues to qualify under Section 401(a) and the related trust continues to be tax-exempt as of December 31, 2000. Therefore, no provision for income taxes has been included in the Plan's financial statements.
