HIBBETT SPORTS, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements

1. Basis of Presentation and Accounting Policies

The accompanying unaudited condensed consolidated financial statements of Hibbett Sports, Inc. and its wholly-owned subsidiaries (collectively, the “Company”) have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and are presented in accordance with the requirements of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the fiscal year ended January 31, 2009. In our opinion, the unaudited condensed consolidated financial statements included herein contain all adjustments considered necessary for a fair presentation of our financial position as of August 1, 2009 and January 31, 2009 and the results of our operations and cash flows for the periods presented. In accordance with Statement of Financial Accounting Standards (SFAS) No. 165, Subsequent Events, we performed an evaluation of subsequent events for the accompanying unaudited condensed consolidated financial statements through September 4, 2009, the date these financial statements were issued. We have concluded that no subsequent events have occurred that would require recognition in the unaudited condensed consolidated financial statements other than the renewal of our unsecured revolving credit facility with Regions Bank as described in Note 5 on page 5.

2. Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168, The FASB Accounting Standards CodificationTM (“Codification”) and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162. SFAS No. 168 establishes the Codification as the single official source of authoritative United States accounting and reporting standards for all non-governmental entities (other than guidance issued by the Securities and Exchange Commission). The Codification changes the referencing and organization of financial standards and is effective for interim and annual periods ending on or after September 15, 2009. As the Codification is not intended to change the existing accounting guidance, its adoption will not have an impact on our unaudited condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167 (Accounting Standards Codification [ASC] 810-10), Amendments to FASB Interpretation No. 46(R), which amends the consolidation guidance applicable to variable interest entities. This statement is effective for annual periods beginning after November 15, 2009, or our Fiscal 2010. We do not expect that the adoption of SFAS No. 167 will have a material effect on our unaudited condensed consolidated financial statements.

In May 2009, the FASB issued SFAS No. 165 (ASC 855-10-05), Subsequent Events. SFAS No. 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The standard also includes a new required disclosure of the date through which an entity has evaluated subsequent events. SFAS No. 165 is effective for interim and annual periods ending after June 15, 2009. Accordingly, we adopted SFAS No. 165 during our second quarter ended August 1, 2009 and have evaluated any subsequent events through the date of this filing as disclosed in Note 1. As SFAS No. 165 is not intended to significantly change the current practice of reporting subsequent events, the adoption of this standard did not affect our unaudited condensed consolidated financial statements.

3. Fair Value of Financial Instruments

FASB SFAS No. 157 (ASC 820-10-50), Fair Value Measurements, establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

- Level I – Quoted prices in active markets for identical assets or liabilities.
- Level II – Observable inputs other than quoted prices included in Level I.
- Level III – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The table below segregates all financial assets and liabilities that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value as of August 1, 2009 (in thousands):

	Level I	Level II	Level III	Total
Short-term investments	\$-	\$-	\$-	\$-
Long-term investments	218	-	-	218
Total investments	\$218	\$-	\$-	\$218

Long-term investments are reported in other assets on our unaudited condensed consolidated balance sheets.

4. Inventory Purchase Concentration

Our business is dependent to a significant degree upon close relationships with our vendors. Our largest vendor, Nike, represented approximately 52.5% and 53.6% of our purchases for the thirteen weeks ended August 1, 2009 and August 2, 2008, respectively. Our second largest vendor represented approximately 9.8% and 7.7% of our purchases while our third largest vendor represented approximately 6.2% and 8.3% of our purchases for the thirteen weeks ended August 1, 2009 and August 2, 2008, respectively.

For the twenty-six weeks ended August 1, 2009 and August 2, 2008, Nike, our largest vendor, represented approximately 52.1% and 51.9% of our purchases, respectively. Our second largest vendor represented approximately 8.3% and 7.1% of our purchases while our third largest vendor represented approximately 5.2% and 7.6% of our purchases for the twenty-six weeks ended August 1, 2009 and August 2, 2008, respectively.

5. Debt and Capital Lease Obligations

At August 1, 2009 and January 31, 2009, we had two unsecured revolving credit facilities, which are renewable in August and December 2009. The facilities allow for borrowings up to \$30.0 million and \$50.0 million, respectively, at a fixed rate, a rate based on prime or LIBOR plus 0.375%, at our election. Under the provisions of both facilities, we do not pay commitment fees and are not subject to covenant requirements. As of August 1, 2009 and January 31, 2009, we did not have any debt outstanding under either of these facilities.

We entered into a capital lease in March 2009 for certain technology hardware. At August 1, 2009, the total capital lease obligation was \$0.3 million, of which \$0.1 million was classified as short-term and included in other accrued expenses and \$0.2 million was classified as long-term and included in other liabilities on our unaudited condensed consolidated balance sheet. At January 31, 2009, we did not have any capital lease obligations.

Subsequent to August 1, 2009, we renewed our existing facility of \$30.0 million at a rate equal to the higher of the bank's prime rate, the Federal Funds Rate plus ½ of 1% or LIBOR. The renewal was effective August 27, 2009 and will expire on August 26, 2010. The facility is unsecured and does not require a commitment or agency fee nor are there any covenant restrictions.

6. Stock-Based Compensation

The compensation costs that have been charged against income for the thirteen and twenty-six weeks ended August 1, 2009 and August 2, 2008 were as follows (in thousands):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 1, 2009	August 2, 2008	August 1, 2009	August 2, 2008
Stock-based compensation expense by type:				
Stock options	\$291	\$591	\$1,354	\$1,343
Restricted stock awards	488	335	1,078	712
Employee stock purchase	22	22	61	45
Director deferred compensation	-	-	-	10
Total stock-based compensation expense	801	948	2,493	2,110
Income tax benefit recognized	57	256	391	571
Stock-based compensation expense, net of income tax	\$744	\$692	\$2,102	\$1,539

In the thirteen weeks ended August 1, 2009, we granted 2,525 stock options. Our employees purchased 5,064 shares of our common stock through our employee stock purchase plan. There were no awards of restricted stock units and no stock transactions or expense associated with director deferred compensation in the thirteen weeks ended August 1, 2009.

The weighted-average grant date fair value of stock options granted during the thirteen-week period ended August 1, 2009 was \$8.33 per share. The grant date fair value of shares of stock purchased through our employee stock purchase plan was \$4.71 and the price paid by our employees for shares of our common stock was \$15.30 during the thirteen weeks ended August 1, 2009. No shares were awarded associated with director deferred compensation.

In the twenty-six weeks ended August 1, 2009, we granted 80,158 stock options and 233,305 restricted stock units, of which 96,100 were performance-based awards to our named executive officers. Our employees purchased 14,425 shares of our common stock through our employee stock purchase plan. There were no stock transactions or expense associated with director deferred compensation.

The weighted-average grant date fair value of stock options granted during the twenty-six-week period ended August 1, 2009 was \$9.55 per share. The grant date fair value for restricted stock units granted during the twenty-six-week period ended August 1, 2009 was \$18.04. The weighted-average grant date fair value of shares of stock purchased through our employee stock purchase plan was \$4.33 and the average price paid by our employees for shares of our common stock was \$14.04 during the twenty-six weeks ended August 1, 2009. No shares were awarded associated with director deferred compensation. Total compensation costs, related to nonvested awards not yet recognized and the weighted-average period over which such awards are expected to be recognized at August 1, 2009 were as follows (in thousands):

	Stock Options	Restricted Stock Units
Unrecognized compensation cost (in thousands)	\$ 689	\$ 6,209
Expected weighted-average period of compensation cost to be recognized	0.75 years	2.90 years

7. Earnings Per Share

Basic earnings per share represents net earnings divided by the weighted-average number of common shares outstanding for the period. Diluted earnings per share represents net earnings divided by the weighted-average number of shares outstanding, inclusive of the dilutive impact of common equivalent shares outstanding during the period using the treasury stock method. The following table sets forth the weighted average common shares outstanding (in thousands):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 1, 2009	August 2, 2008	August 1, 2009	August 2, 2008
Weighted-average shares used in basic computations	28,633	28,453	28,600	28,580
Dilutive equity awards	430	486	417	430
Weighted-average shares used in diluted computations	29,063	28,939	29,017	29,010

For the thirteen and twenty-six-week periods ended August 1, 2009 and August 2, 2008, options for 325,754 and 428,524, respectively, of our shares were outstanding but were excluded from the computation of diluted weighted-average common shares and common share equivalents outstanding because their effect would have been anti-dilutive.

We also excluded 120,435 nonvested stock awards granted to certain employees from the computation of diluted weighted-average common shares and common shares equivalents outstanding, because they are subject to certain performance-based annual vesting conditions which had not been achieved by the end of the twenty-six-week period ended August 1, 2009. Assuming the performance-criteria had been achieved as of August 1, 2009, the incremental dilutive impact would have been 50,889 shares.

8. Stock Repurchase Program

In August 2004, our Board of Directors (the Board) authorized a plan to repurchase our common stock. The Board has subsequently authorized increases to this plan with a current authorization effective November 2007 of \$250.0 million. Stock repurchases may be made in the open market or in negotiated transactions until January 30, 2010, with the amount and timing of repurchases dependent on market conditions and at the discretion of our management.

We did not repurchase any shares of our common stock during the thirteen or twenty-six weeks ended August 1, 2009. As of August 1, 2009, we had repurchased a total of 7,761,813 shares of our common stock at an approximate cost of \$166.9 million. We have approximately \$83.1 million available under the Board authorization for stock repurchase as of August 1, 2009. We do not have plans to repurchase any of our common stock in the near future.

9. Properties

We currently operate 759 stores in 24 contiguous states. Of these stores, 213 are located in malls and 546 are located in strip centers which are generally the centers of commerce and which are usually influenced by a Wal-Mart store. Over the last several years, we have concentrated our store base growth in strip centers.

We currently lease all of our existing store locations and expect that our policy of leasing rather than owning will continue as we continue to expand. Our leases typically provide for terms of five to ten years with options on our part to extend. Most leases also contain a kick-out clause if projected sales levels are not met and an early termination/remedy option if co-tenancy and exclusivity provisions are violated. We believe this leasing strategy enhances our flexibility to pursue various expansion opportunities resulting from changing market conditions and to periodically re-evaluate store locations. Our ability to open new stores is contingent upon locating satisfactory sites, negotiating favorable leases, recruiting and training qualified management personnel and the availability of market relevant inventory.

As current leases expire, we believe we will either be able to obtain lease renewals for present store locations or to obtain leases for equivalent or better locations in the same general area. Historically, we have not experienced any significant difficulty in either renewing leases for existing locations or securing leases for suitable locations for new stores. However, we have recently experienced some difficulty in securing leases for new stores related to new construction due to the economic issues facing the commercial real estate market and landlords, thus reducing our ability to open stores at our historical rates. We believe that we maintain good relations with our landlords, that most of our leases are at approximate market rents and that generally we have been able to secure leases for suitable locations.

Our corporate offices and our retail distribution center are leased under an operating lease. We own the Team Sales' facility located in Birmingham, Alabama that warehouses inventory for educational institutions and youth associations. We believe our current distribution center is suitable and adequate to support our needs in the next few years.

10. Commitments and Contingencies

Lease Commitments.

During the thirteen weeks ended August 1, 2009, we increased our lease commitments by a net of six retail stores, each having initial lease termination dates between May 2014 and June 2019 as well as various office and transportation equipment. At August 1, 2009, the future minimum lease payments, excluding maintenance, insurance and real estate taxes, for our current operating leases and including the net six operating store leases added during the thirteen weeks ended August 1, 2009 were as follows (in thousands):

Remaining	
Fiscal 2010	\$20,929
Fiscal 2011	37,658
Fiscal 2012	31,902
Fiscal 2013	26,243
Fiscal 2014	19,342
Fiscal 2015	12,892
Thereafter	17,339
TOTAL	\$166,305

Included in the above table are future minimum lease payments on our distribution center which aggregate approximately \$4.9 million. The related lease expires in December 2014.

Annual Bonuses and Equity Incentive Awards.

Specified officers and corporate employees of our Company are entitled to annual bonuses, primarily based on measures of Company operating performance. At August 1, 2009 and January 31, 2009, there was \$1.1 million and \$2.9 million, respectively, of annual bonus related expense included in accrued expenses.

In addition, the Compensation Committee of the Board has placed performance criteria on awards of restricted stock units (PSAs) to our Named Executive Officers. The performance criteria are tied to performance targets with respect to future sales and operating income over a specified period of time. These PSAs are expensed under the provisions of SFAS No. 123R (ASC 718-10-10), Share-Based Payments, and are evaluated each quarter to determine the probability that the performance conditions set within will be met.

Legal Proceedings and Other Contingencies.

We are a party to various legal proceedings incidental to our business. We do not believe that any of these matters will, individually or in the aggregate, have a material adverse effect on our business or financial condition. We cannot give assurance, however, that one or more of these legal proceedings will not have a material adverse effect on our results of operations for the period in which they are resolved. At August 1, 2009 and January 31, 2009, we estimated that the liability related to these matters was approximately \$0.1 million and accordingly, accrued \$0.1 million as a current liability on our unaudited condensed consolidated balance sheets.

The estimates of our liability for pending and unasserted potential claims do not include litigation costs. It is our policy to accrue legal fees when it is probable that we will have to defend against known claims or allegations and we can reasonably estimate the amount of the anticipated expense.

From time to time, we enter into certain types of agreements that require us to indemnify parties against third party claims under certain circumstances. Generally, these agreements relate to: (a) agreements with vendors and suppliers under which we may provide customary indemnification to our vendors and suppliers in respect to actions they take at our request or otherwise on our behalf; (b) agreements to indemnify vendors against trademark and copyright infringement claims concerning merchandise manufactured specifically for or on behalf of the Company; (c) real estate leases, under which we may agree to indemnify the lessors from claims arising from our use of the property; and (d) agreements with our directors, officers and employees, under which we may agree to indemnify such persons for liabilities arising out of their relationship with us. We have director and officer liability insurance, which, subject to the policy's conditions, provides coverage for indemnification amounts payable by us with respect to our directors and officers up to specified limits and subject to certain deductibles.

If the Company believes that a loss is both probable and estimable for a particular matter, the loss is accrued in accordance with the requirements of SFAS No. 5 (ASC 450-20-50), Accounting for Contingencies. With respect to any matter, the Company could change its belief as to whether a loss is probable or estimable, or its estimate of loss, at any time. Even though the Company may not believe a loss is probable or estimable, it is reasonably possible that the Company could suffer a loss with respect to that matter in the future.

11. Income Taxes

Our effective tax rate is based on expected income, statutory tax rates and tax planning opportunities available in the various jurisdictions in which we operate. For interim financial reporting, we estimate the annual tax rate based on projected taxable income for the full year and record a quarterly income tax provision in accordance with the anticipated annual rate. We refine the estimates of the taxable income throughout the year as new information becomes available, including year-to-date financial results. This process often results in a change to our expected effective tax rate for the year. When this occurs, we adjust the income tax provision during the quarter in which the change in estimate occurs so that the year-to-date provision reflects the expected annual tax rate. Significant judgment is required in determining our effective tax rate and in evaluating our tax positions.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

IMPORTANT NOTICE REGARDING FORWARD-LOOKING STATEMENTS

This document contains "forward-looking statements" as that term is used in the Private Securities Litigation Reform Act of 1995. Forward-looking statements address future events, developments and results. They include statements preceded by, followed by or including words such as "believe," "anticipate," "expect," "intend," "plan," "target" or "estimate." For example, our forward-looking statements include statements regarding:

- our anticipated sales, including comparable store net sales changes, net sales growth and earnings;
- our growth, including our plans to add, expand or relocate stores and square footage growth, our markets' ability to support such growth and the suitability of our distribution facilities;
 - the possible effect of pending legal actions and other contingencies;
- our cash needs, including our ability to fund our future capital expenditures and working capital requirements;
 - our ability and plans to renew our revolving credit facilities;
- our seasonal sales patterns and assumptions concerning customer buying behavior;
 - our expectations regarding competition;
- our ability to renew or replace store leases satisfactorily;
- our estimates and assumptions as they relate to preferable tax and financial accounting methods, accruals, inventory valuations, dividends, carrying amount and liquidity of financial instruments and fair value of options and other stock-based compensation as well as our estimates of economic and useful lives of depreciable assets and leases;
 - our expectations concerning future stock-based award types;
- our expectations concerning employee stock option exercise behavior;
- the possible effect of inflation, market decline and other economic changes on our costs and profitability, including the impact of changes in fuel costs and a downturn in the retail industry or changes in levels of store traffic;
- the possible effects of continued volatility and further deterioration of the capital markets, the commercial and consumer credit environment and the continuation of lowered levels of consumer spending resulting from the global economic downturn, lowered levels of consumer confidence and higher levels of unemployment;
 - our analyses of trends as related to earnings performance;
- our target market presence and its expected impact on our sales growth;
- our expectations concerning vendor level purchases and related discounts;
- our estimates and assumptions related to income tax liabilities and uncertain tax positions;
- the future reliability of, and cost associated with, our sources of supply, particularly imported goods; and
 - the possible effect of recent accounting pronouncements.

For a discussion of the risks, uncertainties and assumptions that could affect our future events, developments or results, you should carefully consider the risk factors described from time to time in our other documents and reports, including the factors described under "Risk Factors," "Business" and "Properties" in our Form 10-K for the fiscal year ended January 31, 2009.

Our forward-looking statements could be wrong in light of these and other risks, uncertainties and assumptions. The future events, developments or results described in this report could turn out to be materially different. We have no obligation to publicly update or revise our forward-looking statements after the date of this report and you should not expect us to do so.

Investors should also be aware that while we do, from time to time, communicate with securities analysts and others, we do not, by policy, selectively disclose to them any material non-public information with any statement or report issued by any analyst regardless of the content of the statement or report. We do not, by policy, confirm forecasts or projections issued by others. Thus, to the extent that reports issued by securities analysts contain any projections,

forecasts or opinions, such reports are not our responsibility.

You should assume that the information appearing in this report is accurate only as of the date it was issued. Our business, financial condition, results of operations and prospects may have changed since that date.

INVESTOR ACCESS TO COMPANY FILINGS

We make available free of charge on our website, www.hibbett.com under the heading “Investor Information,” copies of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (“Securities Exchange Act”) as well as all Forms 4 and 5 filed by our executive officers and directors, as soon as the filings are made publicly available by the Securities and Exchange Commission on its EDGAR database at www.sec.gov. In addition to accessing copies of our reports online, you may request a copy of our Annual Report on Form 10-K for the fiscal year ended January 31, 2009, at no charge, by writing to: Investor Relations, Hibbett Sports, Inc., 451 Industrial Lane, Birmingham, Alabama 35211.

General Overview

Hibbett Sports, Inc. operates sporting goods stores in small and mid-sized markets, predominantly in the Southeast, Southwest, Mid-Atlantic and the lower Midwest. Our stores offer a broad assortment of quality athletic equipment, footwear and apparel with a high level of customer service. As of August 1, 2009, we operated a total of 759 retail stores composed of 738 Hibbett Sports stores, 17 Sports Additions athletic shoe stores and 4 Sports & Co. superstores in 24 states.

Our primary retail format and growth vehicle is Hibbett Sports, a 5,000-square-foot store located primarily in strip centers which are usually influenced by a Wal-Mart store and in enclosed malls. Over the last several years, we have concentrated and expect to continue our store base growth in strip centers versus enclosed malls. We believe Hibbett Sports stores are typically the primary sporting goods retailers in their markets due to the extensive selection of quality branded merchandise and a high level of customer service. We do not expect that the average size of our stores opening in Fiscal 2010 will vary significantly from the average size of stores opened in Fiscal 2009.

We operate on a 52- or 53-week fiscal year ending on the Saturday nearest to January 31 of each year. The consolidated statements of operations for fiscal years ended January 30, 2010 and January 31, 2009 will include 52 weeks of operations. We have operated as a public company and have been incorporated under the laws of the State of Delaware since October 6, 1996.

Comparable store net sales data for the period reflects sales for our traditional format Hibbett Sports and Sports Additions stores open throughout the period and the corresponding period of the prior fiscal year. If a store remodel or relocation results in the store being closed for a significant period of time, its sales are removed from the comparable store base until it has been open a full 12 months. Our four Sports & Co. stores are not and have never been included in the comparable store net sales comparison because we have not opened a superstore since September 1996 nor do we have plans to open additional superstores in the future.

Executive Summary

Unfavorable global economic conditions experienced in Fiscal 2009 have continued into and adversely affected us in the first half of Fiscal 2010. During the second quarter of Fiscal 2010, we saw lower retail store traffic and a significant decline in footwear sales. However, most other categories of merchandise performed within the expected range during the second quarter.

Net sales for the thirteen-week period ended August 1, 2009, decreased 5.5% to \$123.1 million compared with \$130.3 million for the thirteen-week period ended August 2, 2008. Comparable store sales decreased 10.5%. Operating income was 1.6% of net sales for the thirteen-week period ended August 1, 2009 compared to 6.0% for the thirteen-week period ended August 2, 2008. Net income decreased to \$1.1 million compared with \$4.8 million for the thirteen-week period ended August 2, 2008. Diluted earnings per share decreased to \$0.04 compared with \$0.17 for the thirteen-week period ended August 2, 2008.

Net sales for the twenty-six-week period ended August 1, 2009, increased 1.7% to \$280.8 million compared with \$276.1 million for the twenty-six-week period ended August 2, 2008. Comparable store sales decreased 3.6%. Operating income was 6.9% of net sales for the twenty-six-week period ended August 1, 2009 compared to 8.4% for the twenty-six-week period ended August 2, 2008. Net income decreased to \$12.0 million compared with \$14.2 million for the twenty-six-week period ended August 2, 2008. Diluted earnings per share decreased to \$0.41 compared with \$0.49 for the twenty-six-week period ended August 2, 2008.

During the second quarter, Hibbett opened nine new stores and closed three stores, bringing the store base to 759 in 24 states as of August 1, 2009. Inventory on a per store basis at August 1, 2009 decreased 1.3% compared to August 2, 2008. Hibbett ended the second quarter with \$15.6 million of available cash and cash equivalents on the unaudited condensed consolidated balance sheet and full availability under its \$80.0 million unsecured credit facilities.

Significant Accounting Estimates

The unaudited condensed consolidated financial statements are prepared in conformity with U.S. GAAP. The preparation of these financial statements requires the use of estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Actual results could differ from those estimates and assumptions. Our significant accounting policies and estimates are described more fully in the Annual Report on Form 10-K filed on March 31, 2009. There have been no changes in our accounting policies in the current period that had a material impact on our unaudited condensed consolidated financial statements.

Recent Accounting Pronouncements

See Note 2 of this Form 10-Q for the period ended August 1, 2009, for information regarding recent accounting pronouncements.

Results of Operations

Thirteen Weeks Ended August 1, 2009 Compared to Thirteen Weeks Ended August 2, 2008

Net sales. Net sales decreased \$7.2 million, or 5.5%, to \$123.1 million for the thirteen weeks ended August 1, 2009 from \$130.3 million for the comparable period in the prior year. Furthermore:

- We opened nine Hibbett Sports stores and closed three stores in the thirteen weeks ended August 1, 2009. New stores and stores not in the comparable store net sales calculation increased \$5.9 million during the thirteen-week period.
- We experienced a 10.5% decrease in comparable store net sales for the thirteen weeks ended August 1, 2009.

During the thirteen weeks ended August 1, 2009, 670 stores were included in the comparable store sales comparison. The decrease in comparable store sales was primarily attributable to a significant decline in footwear that we believe was the result of the lack of economic stimulus checks that were in the market one year ago and the shift of tax-free holidays from the second quarter last year to the third quarter this year. The most significant trend we experienced in the second quarter this year was a decline in footwear, while most other categories performed within the range we expected. The difficult macroeconomic environment and declining consumer confidence resulted in lower customer traffic in our stores. Strip center locations continue to outperform enclosed mall stores and non-urban stores continue to outperform urban locations. Strip center locations now comprise approximately 75% of our total store base.

Gross profit. Cost of goods sold includes the cost of inventory, occupancy costs for stores and occupancy and operating costs for the distribution center. Gross profit was \$36.8 million, or 29.9% of net sales, in the thirteen weeks ended August 1, 2009, compared with \$42.3 million, or 32.4% of net sales, in the same period of the prior fiscal year. Our decrease in gross profit percent was due primarily to the clearance of older inventory. Distribution expense as a rate to net sales decreased 17 basis points primarily due to savings from lower fuel costs over a year ago. Occupancy expense increased 133 basis points and saw its largest increase in rent expense as a percent to net sales resulting primarily from the de-leveraging of expenses.

Store operating, selling and administrative expenses. Store operating, selling and administrative expenses were \$31.3 million, or 25.4% of net sales, for the thirteen weeks ended August 1, 2009, compared to \$30.9 million, or 23.7% of net sales, for the comparable period a year ago. We attribute this increase to the following factors:

- Salary and benefit expenses increased 110 basis points at the retail level primarily as the result of the increase in minimum wages. We also saw a slight increase in salary and benefit expenses at the administrative level.
- An increase in credit card expenses accounted for an increase of 12 basis points due to increases in interchange rates and chargebacks. Net advertising and supply expenses both increased by 11 basis points.
- Somewhat offsetting the increases above were decreases in stock-based compensation due to the timing of the stock awards to our Chief Executive Officer between years and in store training expenses.

Depreciation and amortization. Depreciation and amortization as a percentage of net sales was 2.9% in the thirteen weeks ended August 1, 2009 compared to 2.8% for the comparable period a year ago. The weighted-average lease term of new store leases added during the thirteen weeks ended August 1, 2009 decreased to 6.1 years compared to those added during the thirteen weeks ended August 2, 2008 of 7.6 years. We believe we have been able to secure shorter leases as a result of the current economic environment for commercial real estate. We attribute the slight increase in depreciation expense as a percent to net sales to changes in estimates of useful lives of leasehold improvements in some underperforming stores offset by a decrease in the investment in leasehold improvements in recent years as more of the build-out work is being done by landlords.

Provision for income taxes. Provision for income taxes as a percentage of net sales was 0.7% in the thirteen weeks ended August 1, 2009, compared to 2.1% for the thirteen weeks ended August 2, 2008. The combined federal, state and local effective income tax rates as a percentage of pre-tax income were 41.8% and 36.6% for the thirteen weeks ended August 1, 2009 and August 2, 2008, respectively. The increase in rate over last year is primarily the result of state tax discrete items including revision of estimates resulting from changes in state apportionment recorded in the second quarter of Fiscal 2010. In the prior year, these entries were recorded in the third quarter.

Twenty-Six Weeks Ended August 1, 2009 Compared to Twenty-Six Weeks Ended August 2, 2008

Net sales. Net sales increased \$4.7 million, or 1.7%, to \$280.8 million for the twenty-six weeks ended August 1, 2009 from \$276.1 million for the comparable period in the prior year. Furthermore:

- We opened 23 Hibbett Sports stores and closed 9 stores in the twenty-six weeks ended August 1, 2009. New stores and stores not in the comparable store net sales calculation increased \$14.2 million during the twenty-six-week period.
- We experienced a 3.6% decrease in comparable store net sales for the twenty-six weeks ended August 1, 2009.

During the twenty-six weeks ended August 1, 2009, 670 stores were included in the comparable store sales comparison. The decrease in comparable store sales was primarily attributable to a significant decline in footwear in the second quarter that we believe was the result of the lack of economic stimulus checks that were in the market one year ago and the shift of tax-free holidays from the second quarter last year to the third quarter this year. The most significant trend we experienced in the twenty-six-week period was a decline in footwear, while most other categories performed within levels we expected. The difficult macroeconomic environment and declining consumer confidence resulted in lower customer traffic in our stores. Strip center locations continue to outperform enclosed mall stores and non-urban stores continue to outperform urban locations. Strip center locations now comprise approximately 75% of our total store base.

Gross profit. Cost of goods sold includes the cost of inventory, occupancy costs for stores and occupancy and operating costs for the distribution center. Gross profit was \$89.5 million, or 31.9% of net sales, in the twenty-six weeks ended August 1, 2009, compared with \$90.1 million, or 32.6% of net sales, in the same period of the prior fiscal year. Our decrease in gross profit percent was due primarily to markdowns of older inventory in the second quarter. Distribution expense as a rate to net sales decreased 24 basis points primarily due to savings from lower fuel costs. Occupancy expense increased 44 basis points and saw its largest increase in rent expense as a percent to net sales resulting primarily from the de-leveraging of these expenses. Occupancy expense on a per-store basis experienced a slight decrease.

Store operating, selling and administrative expenses. Store operating, selling and administrative expenses were \$63.2 million, or 22.5% of net sales, for the twenty-six weeks ended August 1, 2009, compared to \$60.0 million, or 21.7% of net sales, for the comparable period a year ago. We attribute this increase to the following factors:

- Salary and benefit expenses at the store level increased by 40 basis points primarily due to increases in minimum wage in the second quarter. Stock-based compensation expense increased by 13 basis points, resulting from higher fair values of equity awards in Fiscal 2010.
- Although credit card transactions are trending flat, an increase in credit card expenses accounted for an increase of 12 basis points. We also saw increases in supply expenses for our stores.
 - Somewhat offsetting the increases above was a decrease in store training expenses.

Depreciation and amortization. Depreciation and amortization as a percentage of net sales was 2.4% in the twenty-six weeks ended August 1, 2009 compared to 2.5% for the comparable period a year ago. The weighted-average lease term of new store leases added during the twenty-six weeks ended August 1, 2009 decreased to 6.0 years compared to those added during the twenty-six weeks ended August 2, 2008 of 7.1 years. We believe we have been able to secure shorter leases as a result of the current economic environment for commercial real estate. We attribute the slight decrease in depreciation expense as a percent to net sales to a decrease in the cost of leasehold improvements in recent years, as more of the build-out work is being done by landlords, offset by changes in estimates of useful lives of some underperforming stores.

Provision for income taxes. Provision for income taxes as a percentage of net sales was 2.7% in the twenty-six weeks ended August 1, 2009, compared to 3.2% for the twenty-six weeks ended August 2, 2008. The combined federal, state and local effective income tax rates as a percentage of pre-tax income were 38.2% and 38.1% for the twenty-six weeks ended August 1, 2009 and August 2, 2008, respectively.

Liquidity and Capital Resources

Our capital requirements relate primarily to new store openings, stock repurchases and working capital requirements. Our working capital requirements are somewhat seasonal in nature and typically reach their peak near the end of the third and the beginning of the fourth quarters of our fiscal year. Historically, we have funded our cash requirements

primarily through our cash flow from operations and occasionally from borrowings under our revolving credit facilities.

Our unaudited condensed consolidated statements of cash flows are summarized as follows (in thousands):

	Twenty-Six Weeks Ended	
	August 1, 2009	August 2, 2008
Net cash used in operating activities:	\$(1,557)	\$(4,105)
Net cash used in investing activities:	(4,532)	(5,485)
Net cash provided by financing activities:	1,007	12,962
Net (decrease) increase in cash and cash equivalents	\$(5,082)	\$3,372

Operating Activities.

Cash flow from operations is seasonal in our business. Typically, we use cash flow from operations to increase inventory in advance of peak selling seasons, such as holiday and back-to-school. Inventory levels are reduced in connection with higher sales during the peak selling seasons and this inventory reduction, combined with proportionately higher net income, typically produces a positive cash flow. In recent periods, we have experienced a trend of increasing free rent provisions in lieu of cash construction allowances in our leases. We believe this is primarily the result of the tightening of commercial credit on our landlords. Because of this, the non-cash portion of landlord allowances has also experienced increases.

Net cash used in operating activities was \$1.6 million for the twenty-six weeks ended August 1, 2009 compared with net cash used in operating activities of \$4.1 million for the twenty-six weeks ended August 2, 2008. The largest use of cash during the period was an increase in inventory. The largest source of cash during the period was an increase in accounts payable. At August 1, 2009, the inventory level on a per store basis decreased by 1.3% compared to August 2, 2008. We believe this is primarily a result of our more sophisticated replenishment system and prudent inventory management. Net income and non-cash charges, including depreciation and amortization expense and stock-based compensation expense also contributed to the increase in net cash used in operating activities.

Investing Activities.

Net cash used in investing activities in the twenty-six weeks ended August 1, 2009 totaled \$4.5 million compared with net cash used in investing activities of \$5.5 million in the twenty-six weeks ended August 2, 2008. Net redemptions of investments were \$0.1 million as of August 1, 2009 compared to net purchases of investments of \$0.1 million as of August 2, 2008. Capital expenditures used \$4.7 million and \$5.5 million of cash in the twenty-six weeks ended August 1, 2009 and August 2, 2008, respectively. We use cash in investing activities to open new stores and remodel or relocate existing stores. The reduction of capital expenditures over last year is due to a slowing of new store openings and a lower initial investment in leasehold improvements per new store. Furthermore, net cash used in investing activities includes purchases of information technology assets and expenditures for our distribution facility and corporate headquarters.

We opened 23 new stores and relocated or remodeled 8 existing store during the twenty-six weeks ended August 1, 2009 as compared to opening 28 new stores and relocating or remodeling 6 existing store during the twenty-six weeks ended August 2, 2008.

We estimate the cash outlay for capital expenditures in Fiscal 2010 will be approximately \$14.5 million, which relates to the opening of 50 to 52 new stores, remodeling of selected existing stores, information technology upgrades and enhancements and various improvements at our headquarters and distribution center. Of the total budgeted dollars for capital expenditures for Fiscal 2010, we anticipate that approximately 58% will be related to the opening of new stores and remodeling or relocating existing stores. Approximately 23% will be related to improvements in information technology and distribution with the remaining related primarily to loss prevention tools, office space improvements, equipment and automobiles.

Financing Activities.

Net cash provided by financing activities was \$1.0 million in the twenty-six weeks ended August 1, 2009 compared to net cash provided by financing activities of \$13.0 million in the prior year period. The cash fluctuation as compared to the same period last fiscal year was primarily due to the borrowings against our credit facilities to repurchase shares of our common stock and to finance our inventory position in preparation for the back-to-school and holiday selling seasons in the prior year. In the twenty-six weeks ended August 2, 2008, we expended \$16.9 million on repurchases of our common stock and did not repurchase any of our common stock in the twenty-six weeks ended August 1,

2009. Financing activities also consisted of proceeds from transactions in our common stock and the excess tax benefit from the exercise of incentive stock options. As stock options are exercised, we will continue to receive proceeds and expect a tax deduction; however, the amounts and timing cannot be predicted.

As of August 1, 2009, we had two unsecured revolving credit facilities that allow borrowings up to \$30.0 million and \$50.0 million, respectively, and which renew in August and December 2009, respectively. The facilities do not require a commitment or agency fee nor are there any covenant restrictions. We plan to renew these facilities as they expire and do not anticipate any problems in doing so; however, no assurance can be given that we will be granted a renewal or terms which are acceptable to us. As of August 1, 2009, we did not have any debt outstanding under either of these facilities.

Subsequent to August 1, 2009, we renewed our existing facility of \$30.0 million at a rate equal to the higher of the bank's prime rate, the Federal Funds Rate plus $\frac{1}{2}$ of 1% or LIBOR. The renewal was effective August 27, 2009 and will expire on August 26, 2010. The facility is unsecured and does not require a commitment or agency fee nor are there any covenant restrictions.

Based on our current operating and store opening plans and management's plans for the repurchase of our common stock, we believe that we can fund our cash needs for the foreseeable future through cash generated from operations and, if necessary, through periodic future borrowings against our credit facilities.

Off-Balance Sheet Arrangements.

We have not provided any financial guarantees as of August 1, 2009. All purchase obligations are cancelable. We have not created, and are not party to, any special-purpose or off-balance sheet entities for the purpose of raising capital, incurring debt or operating our business. We do not have any arrangements or relationships with entities that are not consolidated into the financial statements.

Quarterly and Seasonal Fluctuations

We experience seasonal fluctuations in our net sales and results of operations. Customer buying patterns around the spring sales period and the holiday season historically result in higher first and fourth quarter net sales. In addition, our quarterly results of operations may fluctuate significantly as a result of a variety of factors, including the timing of new store openings, the amount and timing of net sales contributed by new stores, merchandise mix and demand for apparel and accessories driven by local interest in sporting events.

Although our operations are influenced by general economic conditions, we do not believe that, historically, inflation has had a material impact on our results of operations as we are generally able to pass along inflationary increases in costs to our customers. However, in recent periods, we have experienced an impact on overall sales due to a consumer spending slowdown attributable to higher unemployment, falling equity and real estate values and the limited availability of credit.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk.

Our financial condition, results of operations and cash flows are subject to market risk from interest rate fluctuations on our credit facilities which bear an interest rate that varies with LIBOR, prime or fixed rates. We have cash and cash equivalents at financial institutions that are in excess of federally insured limits per institution. With the current financial environment and the instability of financial institutions, we cannot be assured that we will not experience losses on our deposits.

At August 1, 2009, the only indebtedness we had outstanding related to a capital lease obligation in the amount of \$0.3 million. At August 1, 2009, we had no borrowings outstanding under our credit facilities. There were 54 days and 81 days during the thirteen and twenty-six weeks ended August 1, 2009, respectively, where we incurred borrowings against our credit facilities for an average borrowing of \$8.9 million and \$7.7 million, respectively. The maximum borrowing was \$13.9 million for the thirteen and twenty-six weeks ended August 1, 2009, with a weighted-average interest rate of 1.70% and 1.67%, respectively.

At January 31, 2009, we had no borrowings outstanding under any credit facility, nor did we have any indebtedness related to capital lease obligations. There were 348 days during the fifty-two weeks ended January 31, 2009, where we incurred borrowings against our credit facilities for an average borrowing of \$23.2 million. During Fiscal 2009, the maximum amount outstanding against these agreements was \$47.1 million and the weighted average interest rate was 2.85%.

A 10% increase or decrease in market interest rates would not have a material impact on our financial condition, results of operations or cash flows. Our capital lease obligation would not be affected by any change in interest rates.

ITEM 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act) as of August 1, 2009. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were designed and functioning effectively to provide reasonable assurance that the information required to be disclosed in our Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting.

We have not identified any changes in our internal control over financial reporting that occurred during the period ended August 1, 2009, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings.

We are a party to various legal proceedings incidental to our business. We do not believe that any of these matters will, individually or in the aggregate, have a material adverse effect on our business or financial condition. We cannot give assurance, however, that one or more of these legal proceedings will not have a material adverse effect on our results of operations for the period in which they are resolved. At August 1, 2009 and January 31, 2009, we estimated that the liability related to these matters was approximately \$0.1 million and accordingly, accrued \$0.1 million as a current liability on our unaudited condensed consolidated balance sheets.

The estimates of our liability for pending and unasserted potential claims do not include litigation costs. It is our policy to accrue legal fees when it is probable that we will have to defend against known claims or allegations and we can reasonably estimate the amount of the anticipated expense.

From time to time, we enter into certain types of agreements that require us to indemnify parties against third party claims under certain circumstances. Generally, these agreements relate to: (a) agreements with vendors and suppliers under which we may provide customary indemnification to our vendors and suppliers in respect to actions they take at our request or otherwise on our behalf; (b) agreements to indemnify vendors against trademark and copyright infringement claims concerning merchandise manufactured specifically for or on behalf of the Company; (c) real estate leases, under which we may agree to indemnify the lessors from claims arising from our use of the property; and (d) agreements with our directors, officers and employees, under which we may agree to indemnify such persons for liabilities arising out of their relationship with us. We have director and officer liability insurance, which, subject to the policy's conditions, provides coverage for indemnification amounts payable by us with respect to our directors and officers up to specified limits and subject to certain deductibles.

If the Company believes that a loss is both probable and estimable for a particular matter, the loss is accrued in accordance with the requirements of SFAS No. 5 (ASC 450-20-50), Accounting for Contingencies. With respect to any matter, the Company could change its belief as to whether a loss is probable or estimable, or its estimate of loss, at any time. Even though the Company may not believe a loss is probable or estimable, it is reasonably possible that the Company could suffer a loss with respect to that matter in the future.

ITEM 1A. Risk Factors.

There were no material changes to the risk factors disclosed in our Form 10-K for the fiscal year ended January 31, 2009.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

ITEM 3. Defaults Upon Senior Securities.

None.

ITEM 4. Submission of Matters to a Vote of Security Holders.

At our Annual Meeting of Stockholders held on May 28, 2009, the stockholders elected nominees Terrance G. Finley and Alton E. Yother to the Board of Directors to serve a three-year term. Votes cast were as follows:

Terrance G. Finley	For:	25,767,257
	Withheld:	1,903,929
	Total Votes Cast:	27,671,186

Alton E. Yother	For:	27,542,977
	Withheld:	128,209
	Total Votes Cast:	27,671,186

The stockholders voted to select KPMG LLP as our independent registered public accounting firm for Fiscal 2010. Votes cast were as follows:

For:	27,643,726
Against:	24,485
Abstain:	2,975
Non Votes:	-
Total Votes Cast:	27,671,186

The stockholders voted to ratify an amendment to the 2005 Equity Incentive Plan to raise the annual award limit of stock unit awards, restricted stock awards, restricted stock unit awards and performance share awards that are intended to be performance-based compensation from 30,000 shares of stock to 75,000 shares of stock. Votes cast were as follows:

For:	26,072,203
Against:	595,933
Abstain:	82,232
Non Votes:	920,818
Total Votes Cast:	27,671,186

ITEM 5. Other Information.

None.

ITEM 6. Exhibits.

Exhibit No.	Description
