Centrue Financial Corporation Notes to Unaudited Consolidated Financial Statements (Table Amounts In Thousands, Except Share Data)

Note 1. Summary of Significant Accounting Policies

Centrue Financial Corporation is a bank holding company organized under the laws of the State of Delaware. When we use the terms "Centrue," the "Company," "we," "us," and "our," we mean Centrue Financial Corporation, a Delaw Corporation, and its consolidated subsidiaries. When we use the term the "Bank," we are referring to our wholly owned banking subsidiary, Centrue Bank. The Company and the Bank provide a full range of banking services to individual and corporate customers located in markets extending from the far western and southern suburbs of the Chicago metropolitan area across Central Illinois down to the metropolitan St. Louis area. These services include demand, time, and savings deposits; business and consumer lending; and mortgage banking. Additionally, brokerage, asset management, and trust services are provided to our customers on a referral basis to third party providers. The Company is subject to competition from other financial institutions and nonfinancial institutions providing financial services. Additionally, the Company and the Bank are subject to regulations of certain regulatory agencies and undergo periodic examinations by those regulatory agencies.

Basis of presentation

The accounting and reporting policies of the Company and its subsidiaries conform to U.S. generally accepted accounting principles ("GAAP") and general practice within the banking industry. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Material estimates which are particularly susceptible to significant change in the near term relate to the fair value of investment securities and other-than-temporary impairment of securities, the determination of the allowance for loan losses and valuation of other real estate owned.

For further information with respect to significant accounting policies followed by the Company in the preparation of its consolidated financial statements, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2010. The consolidated financial statements include the accounts of the Company and Centrue Bank. Intercompany balances and transactions have been eliminated in consolidation and certain 2010 amounts have been reclassified to conform to the 2011 presentation. The annualized results of operations during the three and six months ended June 30, 2011 are not necessarily indicative of the results expected for the year ending December 31, 2011. All financial information in the following tables is in thousands (000s), except share and per share data. In the opinion of management, all normal and recurring adjustments which are necessary to fairly present the results for the interim periods presented have been included.

Centrue Financial Corporation Notes to Unaudited Consolidated Financial Statements (Table Amounts In Thousands, Except Share Data)

Note 2. Earnings Per Share

Basic earnings per share for the three and six months ended June 30, 2011 and 2010 were computed by dividing net income by the weighted average number of shares outstanding. Diluted earnings per share for the same periods were computed by dividing net income by the weighted average number of shares outstanding, adjusted for the dilutive effect of the stock options and warrants. Computations for basic and diluted earnings per share are provided as follows:

	Three Mon June 30,	nths E	Ended		Six Month June 30,	is En	ded

Diluted earnings (loss) per common share	\$(0.48)	\$(0.73)	\$(1.14)	\$(1.84)

There were 496,738 options and 508,320 warrants outstanding for the three and six months ended June 30, 2011 and 628,569 options and 508,320 warrants outstanding for the three and six months ended June 30, 2010 that were not included in the computation of diluted earnings per share because the exercise price was greater than the average market price and therefore, were anti-dilutive. In addition, the Company's convertible preferred stock was not included in the computation of diluted earnings per share as it was anti-dilutive.

Note 3. Securities

The primary strategic objective related to the Company's securities portfolio is to assist with liquidity and interest rate risk management. The fair value of securities classified as available-for-sale was \$221.1 million at June 30, 2011 compared to \$219.5 million at December 31, 2010. The fair value of securities classified as restricted (Federal Reserve and Federal Home Loan Bank stock) was \$9.2 million at June 30, 2011 compared to \$10.5 million at December 31, 2010. The Company does not have any securities classified as trading or held-to-maturity.

The following tables represent the fair value of available-for-sale securities and the related, gross unrealized gains and losses recognized in accumulated other comprehensive income(loss) at June 30, 2011 and December 31, 2010:
