NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements prepared in accordance with instructions for Form 10-Q, include all adjustments (consisting only of normal recurring accruals) which are necessary for a fair presentation of the results for the periods presented. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the Company's Annual Report for the year ended December 31, 2011. The condensed consolidated balance sheet as of December 31, 2011 was derived from audited consolidated financial statements as of that date. The results of operations for the three and six months ended June 30, 2012 are not necessarily indicative of the results to be expected for the full year.

The condensed consolidated financial statements include the accounts of HMG/Courtland Properties, Inc. (the "Company") and entities in which the Company owns a majority voting interest or controlling financial interest. All material transactions and balances with consolidated and unconsolidated entities have been eliminated in consolidation or as required under the equity method.

2. RECENT ACCOUNTING PRONOUNCEMENTS

The Company does not believe that any recently issued, but not yet effective accounting standards, if currently adopted, will have a material effect on the Company's consolidated financial position, results of operations and cash flows.

3. RESULTS OF OPERATIONS FOR MONTY'S RESTAURANT, MARINA AND OFFICE/RETAIL PROPERTY, COCONUT GROVE, FLORIDA

4. INVESTMENTS IN MARKETABLE SECURITIES

Investments in marketable securities consist primarily of large capital corporate equity and debt securities in varying industries or issued by government agencies with readily determinable fair values. These securities are stated at market value, as determined by the most recent traded price of each security at the balance sheet date. Consistent with the Company's overall current investment objectives and activities its entire marketable securities portfolio is classified as trading.

Net realized and unrealized gain (loss) from investments in marketable securities for the three and six months ended June 30, 2012 and 2011 is summarized below:

Description	Three months ended		Six months ended	
	June 30, 2012	2011	June 30, 2012	2011
Net realized gain (loss) from sales of securities	\$18,000	\$(2,000)	\$68,000	\$78,000
Unrealized net (loss) gain in trading securities	(13,000)	(29,000)	29,000	(46,000)
Total net gain (loss) from investments in marketable securities	\$5,000	\$(31,000)	\$97,000	\$32,000

For the three and six months ended June 30, 2012, net unrealized (losses) gains from trading securities were (\$13,000) and \$29,000, respectively. This is compared to net unrealized (losses) of (\$29,000) and (\$46,000) for the three and six months ended June 30, 2011, respectively.

For the three months ended June 30, 2012, net realized gain from sales of marketable securities of approximately \$18,000, and consisted of approximately \$39,000 of gross gains net of \$21,000 of gross losses. For the six months ended June 30, 2012 net realized gain from sales of marketable securities of approximately \$68,000, and consisted of approximately \$104,000 of gross gains net of \$36,000 of gross losses.

For the three months ended June 30, 2011, net realized loss from sales of marketable securities of approximately \$2,000, and consisted of approximately \$10,000 of gross losses net of \$8,000 of gross gains. For the six months ended June 30, 2011, net realized gain from sales of marketable securities of approximately \$78,000, and consisted of approximately \$103,000 of gross gains net of \$25,000 of gross losses.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on marketable securities for any given period has no predictive value and variations in amount from period to period

have no practical analytical value.

5. OTHER INVESTMENTS

As of June 30, 2012, the Company's portfolio of other investments had an aggregate carrying value of approximately \$3.7 million. As of June 30, 2012, the Company has committed to fund approximately \$871,000 as required by agreements with the investees. The carrying value of these investments is equal to contributions less distributions and loss valuation adjustments. During the six months ended June 30, 2012, the Company contributed a total of \$168,000 in other investments. These contributions include one new investment in a medical technology related company for \$51,000 which was fully funded in January 2012 and follow on contributions totaling \$117,000 towards funding commitments in various other existing investments. Cash distributions received from other investments for the six months ended June 30, 2012 totaled approximately \$494,000. These distributions include approximately \$274,000 from real estate funds and \$200,000 from funds investing in diversified businesses.

Net income from other investments for the three and six months ended June 30, 2012 and 2011, is summarized below (excluding other than temporary impairment loss):

When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company's intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's amortized cost basis.

In accordance with ASC Topic 320-10-65, Recognition and Presentation of Other-Than-Temporary Impairments as of March 31, 2012 the Company recorded a loss of approximately \$28,000 from an investment in a partnership which operates and leases executive suites in Miami, Florida. The Company has funded \$120,000 to date in this investment and the losses incurred were associated with the initial start up of the venture in 2010. In June 2011 the Company recognized an impairment loss of approximately \$84,000 from this same investment. There were no OTTI impairment valuation adjustments for the three months ended June 30, 2012 and for the three months ended March 31, 2011.

6. INTEREST RATE SWAP CONTRACT

The Company is exposed to interest rate risk through its borrowing activities. In order to minimize the effect of changes in interest rates, the Company has entered into an interest rate swap contract under which the Company agrees to pay an amount equal to a specified rate of 7.57% times a notional principal approximating the outstanding loan balance, and to receive in return an amount equal to 2.45% plus the one-month LIBOR Rate times the same notional amount. The Company designated this interest rate swap contract as a cash flow hedge.

As of June 30, 2012 the fair value of this hedge was an unrealized loss of approximately \$2,059,000, as compared with an unrealized loss of \$1,975,000 as of December 31, 2011 which resulted in an unrealized loss of \$84,000 (or \$42,000, net of noncontrolling interest) for the six months ended June 30, 2012. This amount has been recorded as other comprehensive income and will be reclassified to interest expense over the life of the contract.

The following tables present the required disclosures in accordance with ASC Topic 815-10:

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with ASC Topic 820, the Company measures cash equivalents, marketable securities, other investments and interest rate swap contract at fair value. Our cash equivalents, marketable securities and interest rate swap contract are classified within Level 1 or Level 2. This is because our cash equivalents, marketable securities and interest rate swap are valued using quoted market prices or alternative pricing sources and models utilizing observable market inputs. Our other investments are classified within Level 3 because they are valued using valuation models which use some inputs that are unobservable and supported by little or no market activity and are significant.

Other investments measured at fair value on a non-recurring basis include investments in certain entities that calculate net asset value per share (or its equivalent such as member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed, "NAV"). This class primarily consists of private equity funds that have varying investment focus. These investments can never be redeemed with the funds. Instead, the nature of the investments in this class is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held it is estimated that the underlying assets of the fund would be liquidated over 5 to 10 years. As of June 30, 2012, it is probable that all of the investments in this class will be sold (a) at an amount different from the NAV of the Company's ownership interest in partners' capital. Therefore, the fair values of the investments in this class have been estimated using recent observable information such as audited financial statements and/or statements of partners' capital obtained directly from investees on a quarterly or other regular basis. During the six months ended June 30, 2012, the Company made contributions totaling \$168,000 in this type of other investments. These contributions include one new investment a medical technology related company for \$51,000 which was fully funded in January 2012 and follow on contributions totaling \$117,000 towards funding commitments in various other existing investments. As of June 30, 2012, the amount of the Company's unfunded commitments related to the aforementioned investments is approximately \$871,000.

Other investments above which are measured on a nonrecurring basis using Level 3 unobservable inputs consist of investments primarily in commercial real estate in Florida through private partnerships and two investments in the stock of private banks in Florida and Texas. The Company does not know when it will have the ability to redeem the investments and has categorized them as a Level 3 fair value measurement. The Level 3 real estate and related investments of approximately \$1 million primarily consist of one investment in a commercial building located near the Company's offices purchased in 2005. This investment is measured using primarily inputs provided by the (b) managing member of the partnerships with whom the Company has done similar transactions in the past and is well known to management. The fair values of these real estate investments have been estimated using the net asset value of the Company's ownership interest in partners' capital. The investments in private bank stocks include a private bank and trust located in Coral Gables, Florida in the amount of \$250,000 made in 2009, and a \$50,000 investment in a bank located in El Campo, Texas made in 2010. The fair values of these bank stock investments have been estimated using the cost method less distributions received and other than temporary impairments. This investment is valued using inputs provided by the management of the banks.

The following table includes a roll-forward of the investments classified within level 3 of the fair value hierarchy for the six months ended June 30, 2012:

	Level 3 Investments:
Balance at January 1, 2012	\$ 1,300,000

8. SEGMENT INFORMATION

The Company has three reportable segments: Real estate rentals; Food and Beverage sales; and Other investments and related income. The Real estate and rentals segment primarily includes the leasing of its Grove Isle property, marina dock rentals at both Monty's and Grove Isle marinas, and the leasing of office and retail space at its Monty's property. The Food and Beverage sales segment consists of the Monty's restaurant operation. Lastly, the other investment and related income segment includes all of the Company's other investments, marketable securities, loans, notes and other receivables and the Grove Isle spa operations which individually do not meet the criteria as a reportable segment.

9. INCOME TAXES

We adopted the provisions of ASC Topic 740-10, "Accounting for Uncertainty in Income Taxes" on January 1, 2007. This topic clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with ASC Topic 740, "Accounting for Income Taxes", and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Topic 740-10 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our consolidated financial statements. Our evaluation was performed for the tax years ended December 31, 2008, 2009, 2010 and 2011, the tax years which remain subject to examination by major tax jurisdictions as of June 30, 2012.

We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the consolidated financial statements as general and administrative expense.

Spa revenues for the three and six months ended June 30, 2012 as compared with the same period in 2011 increased by \$21,000 (or 22%) and \$30,000 (or 14%), respectively. This came at the expense of higher promotional costs which was the main reason Spa expenses for the three and six months ended June 30, 2012 as compared with the same period in 2011 increased by \$18,000 (or 17%) and \$40,000 (or 19%).

Net realized and unrealized gain (loss) from investments in marketable securities:

Net realized and unrealized gain from investments in marketable securities for the three and six months ended June 30, 2012 was approximately \$5,000 and \$97,000, respectively. This is as compared to net realized and unrealized (loss) gain from investments in marketable securities for the three and six months ended June 30, 2011 of approximately (\$30,000) and \$32,000, respectively. For further details refer to Note 4 to Condensed Consolidated Financial Statements (unaudited).

Net income from other investments:

Net income from other investments for the three and six months ended June 30, 2012 was approximately \$269,000 and \$316,000, respectively. This is as compared to net income from other investments for the three and six months ended June 30, 2011 of \$36,000 and \$45,000, respectively. For further details refer to Note 5 to Condensed Consolidated Financial Statements (unaudited).

Realized loss from interest rate swap contract:

In conjunction with amendment of the Bayshore bank loan in March 2011 the interest rate swap contract liability was paid down by \$198,400 (in the same proportion as the amount of the loan principal paid down). As a result, the Company reclassified a previously unrealized loss of \$198,400 from accumulated other comprehensive income to realized loss on interest rate swap contract within the condensed consolidated statements of comprehensive income for the three months ended March 31, 2011. There was no realized loss from the interest rate swap contract for the three and six months ended June 30, 2012.

Interest, dividend and other income:

Interest, dividend and other income for the six months ended June 30, 2012 was approximately \$69,000, as compared to income of approximately \$126,000 for the six months ended June 30, 2011. This decrease of \$57,000 (or 45%) was primarily due to a decrease of service related income from Courtland Houston of \$50,000.

EXPENSES

Expenses for rental and other properties for the three and six months ended June 30, 2012 were \$185,000 and \$300,000, respectively. This is as compared to the same expenses of approximately \$166,000 and \$348,000 for the three and six months ended June 30, 2011. The increase in the three month comparable periods of \$19,000 (or 11%) was due to increased rent expense from adjustments to Monty's rent due to the City of Miami which the Company is contesting. The decrease in the six month comparable periods of \$48,000 (or 14%) was primarily due to decreased repairs and maintenance expenses.

For comparisons of all food and beverage related expenses refer to Restaurant Operations (above) summarized statement of income for Monty's restaurant.

For comparisons of all marina related expenses refer to Marina Operations (above) for summarized and combined statements of income for marina operations.

For comparisons of all spa related expenses refer to Spa Operations (above) for summarized statements of income for spa operations.

Depreciation and amortization expense for the three and six months ended June 30, 2012 compared to the same periods in 2011 decreased by \$14,000 (or 6%) and \$172,000 (or 28%), respectively. The decrease in the six month comparable periods was primarily due to the non-recurring amortization of loan costs associated with the Monty's loan modification completed in March 2011.

General and administrative expense for the three and six months ended June 30, 2012 compared to the same periods in 2011 increased by approximately \$21,000 (or 26%) and \$17,000 (or 10%), respectively. This was primarily due to the abandonment and write off of land held for development with a cost basis of \$28,000.

Professional fees and expenses for the three and six months ended June 30, 2012 compared to the same periods in 2011 decreased by \$29,000 (or 27%) and \$70,000 (or 36%), respectively. These changes were primarily due to lower legal costs relating to ongoing Grove Isle litigation.

EFFECT OF INFLATION:

Inflation affects the costs of operating and maintaining the Company's investments. In addition, rentals under certain leases are based in part on the lessee's sales and tend to increase with inflation, and certain leases provide for periodic adjustments according to changes in predetermined price indices.

LIQUIDITY, CAPITAL EXPENDITURE REQUIREMENTS AND CAPITAL RESOURCES

The Company's material commitments primarily consist of maturities of debt obligations of approximately \$3.4 million in 2012 and contributions committed to other investments of approximately \$871,000 due upon demand. The funds necessary to meet these obligations are expected to come from the proceeds from the sales of properties or investments, bank loans, refinancing of existing bank loans, distributions from investments and available cash.

In June 2012 the Company renewed and modified the existing bank mortgage note payable on the Grove Isle property with the same lender. The renewal and modification extends the maturity date to June 30, 2016 and calls for the same monthly principal payments of \$10,000 plus interest calculated at the one-month LIBOR rate plus 3% with an interest rate floor 4.5%.

Included in the maturing debt obligations for 2012 is a note payable to the Company's 49% owned affiliate, T.G.I.F. Texas, Inc. ("TGIF") of approximately \$3.2 million due on demand. The obligation due to TGIF will be paid with funds available from distributions from its investment in TGIF and from available cash.

MATERIAL COMPONENTS OF CASH FLOWS

For the six months ended June 30, 2012, net cash provided by operating activities was approximately \$399,000. This was primarily from the cash flow provided by the Company's rental operations.

For the six months ended June 30, 2012, net cash provided by investing activities was approximately \$382,000. This consisted primarily of approximately \$700,000 in net proceeds from sales of marketable securities and distributions from other investment of \$495,000. These sources of funds were partially offset by purchases of marketable securities of \$513,000, contributions to other investments of \$169,000 and additions to fixed assets of \$127,000.

For the six months ended June 30, 2012, net cash used in financing activities was approximately \$228,000 consisting solely of loan principal repayments.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company was a co-defendant in two lawsuits in the circuit court in Miami Dade County Florida. These cases arose from claims by a condominium association and resident seeking a declaratory judgment regarding certain provisions of the declaration of condominium relating to the Grove Isle Club and the developer. The claim by the association has been dismissed as to all counts related to the Company; however the association has filed an appeal. The Company believes that the claims are without merit and intends to vigorously defend its position. The ultimate outcome of this litigation cannot presently be determined. However, in management's opinion the likelihood of a material adverse outcome is remote. Accordingly, adjustments, if any that might result from the resolution of this matter have not been reflected in the consolidated financial statements.
