**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION**

This report includes forward-looking statements that relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Words such as, but not limited to, “believe,” “expect,” “anticipate,” “estimate,” “intend,” “plan,” “targets,” “likely,” “aim,” “will,” “would,” “could,” and similar expressions identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and future events and financial trends that we believe may affect our financial condition, results of operation, business strategy and financial needs. Forward-looking statements include, but are not limited to, statements about our:

- ◊ limited operating history,
- ◊ ability to continue as a going concern,
- ◊ history of losses and need to raise additional capital,
- ◊ ability to retain and add merchants,
- ◊ ability to effectively compete,
- ◊ ability to manage the growth of our company,
- ◊ potential infringement of intellectual property rights of others,
- ◊ limited trading market for our common stock and the applicability of the penny stock rules, and
- ◊ ability to use the anti-takeover provisions of our articles and bylaws.

You should read thoroughly this report and the documents that we refer to herein with the understanding that our actual future results may be materially different from and/or worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements including those made in Item A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011 and our subsequent filings with the Securities and Exchange Commission. Other sections of this report include additional factors which could adversely impact our business and financial performance. Moreover, we operate in an evolving environment. New risk factors emerge from time to time and it is not possible for our management to predict all risk factors, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. These forward-looking statements speak only as of the date of this report, and you should not rely on these statements without also considering the risks and uncertainties associated with these statements and our business.

#### **OTHER PERTINENT INFORMATION**

Unless specifically set forth to the contrary, when used in this report the terms “SimplePons”, “we”, “our”, the “Company” and similar terms refer to SimplePons, Inc., a Delaware corporation, and our wholly-owned subsidiary SimplePons Operations, Inc., a Delaware corporation (“SimplePons Operations”). In addition, when used herein and unless specifically set forth to the contrary, “2011” refers to the year ended December 31, 2011 and “2012” refers to the year ending December 31, 2012.

**SIMPLEPONS, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**AS OF JUNE 30, 2012**

**(UNAUDITED)**

**1. Organization, Basis of Presentation and Nature of Operations**

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in The United States of America and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information necessary for a comprehensive presentation of financial position and results of operations. The interim results for the period ended June 30, 2012 are not necessarily indicative of results for the full fiscal year. It is management's opinion, however that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statements presentation.

Simplepons, Inc. is a Delaware Corporation formed on February 7, 2011. IFLI Acquisition Corp., formerly International Fight League, Inc. ("IFLI") was incorporated in the State of Delaware on May 8, 1992. On November 1, 2011 we closed on a share exchange agreement with IFLI Acquisition Corp. and exchanged all of our outstanding shares for 37,455,000 shares of IFLI Acquisition Corp, Inc. and warrants equal to and on the same terms as those outstanding at the date of the merger. Simplepons, Inc. was the accounting acquirer and IFLI Acquisition Corp. was the accounting acquiree in the transaction that was treated as a reverse merger and recapitalization. As part of the exchange agreement, IFLI Acquisition Corp. purchased 1,012,353 shares of common stock from the principal stockholder for \$335,000 and assumed net assets of \$83,309 resulting in a charge to equity upon recapitalization of \$251,691. The Company is deemed to have issued 2,030,870 common shares to the original shareholders of IFLI. Following the purchase, the shares were cancelled. Upon closing of the reverse merger, IFLI Acquisition Corp. was renamed Simplepons, Inc. and Simplepons, Inc. was renamed Simplepons Operations, Inc. Simplepons, Inc. and Simplepons Operations, Inc. are hereafter referred to as the "Company". At closing, Company's stockholders owned approximately 97% of IFLI outstanding common stock, giving effect to the stock repurchase.

The accompanying consolidated financial statements include the accounts of Simplepons, Inc. and its wholly owned subsidiary Simplepons Operations, Inc. for the three and six months ended June 30, 2012, for the three months ended June 30, 2011 and the period from February 7, 2011 (inception) to June 30, 2011. All intercompany accounts have been eliminated in the consolidation.

The Company is in the business of mobile coupon subscriptions that solves the problem of leaving your coupons at home. Their cost effective platform is designed for businesses to connect with new and existing customers.

**2. Summary of Significant Accounting Principles**

***(A) Going Concern***

As reflected in the accompanying unaudited condensed consolidated financial statement for the period ended June 30, 2012 has a net loss of \$1,428,540 and used cash in operations of \$605,037. These factors raise substantial doubt about the Company's ability to continue as a going concern. In addition there is a working capital deficiency of \$214,466 and a stockholders' deficit of \$52,977 as of June 30, 2012.

The Company's continued existence is dependent upon its ability to raise capital and to successfully market and sell its products. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

Management believes that actions presently being taken to obtain additional funding and implement its strategic plans provide for the opportunity for the Company to continue as a going concern.

**(B) Use of Estimates**

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported period. Actual results could differ from those estimates.

The most significant estimates include the valuation of stock based compensation, amortization period for intangible assets and deferred tax valuation allowance.

**(C) Cash and Cash Equivalents**

For purposes of the cash flow statements, the Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. The Company at times has cash in excess of FDIC insurance limits and places its temporary cash investments with high credit quality financial institutions. At December 31, 2011 and June 30, 2012 the Company had no balances that exceeded FDIC insurance limits.

***(D) Inventories***

The Company's inventories consist entirely of purchased finished goods. Inventories are stated at lower of cost or market. Cost is determined on the first-in, first-out basis. During the six months ended June 30, 2012, the Company recorded an impairment of inventory in the amount of \$12,492 which is also included in the cost of goods sold..

***(E) Property and Equipment***

The Company values property and equipment at cost and depreciates these assets using the straight-line method over their expected useful life. The Company uses a five year life for computer equipment and a three year life for software.

***(F) Impairment***

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification No. 360, *Property, Plant and Equipment*, the Company carries long-lived assets at the lower of the carrying amount or fair value. Impairment is evaluated by estimating future undiscounted cash flows expected to result from the use of the asset and its eventual disposition. If the sum of the expected undiscounted future cash flow is less than the carrying amount of the assets, an impairment loss is recognized.

Fair value, for purposes of calculating impairment, is measured based on estimated future cash flows, discounted at a market rate of interest.

**(G) Website Development**

The Company has adopted the provisions of FASB Accounting Standards Codification No. 350 *Intangible-Goodwill and Other* . Costs incurred in the planning stage of a website are expensed, while costs incurred in the development stage are capitalized and amortized over the estimated three year life of the asset. During the six months ended June 30, 2012 and as of December 31, 2011, the Company incurred \$40,820 and \$114,612 in website development costs, respectively. The website was placed into service on September 30, 2011. Amortization for the period ended June 30, 2012 was \$22,584.

#### (H) Stock-Based Compensation

The Company recognizes compensation costs to employees under FASB Accounting Standards Codification No. 718, *Compensation - Stock Compensation*. Under FASB Accounting Standards Codification No. 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share based compensation arrangements include stock options, restricted share plans, performance based awards, share appreciation rights and employee share purchase plans. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant.

Equity instruments issued to other than employees are recorded on the basis of the fair value of the instruments, as required by FASB Accounting Standards Codification No. 505, *Equity Based Payments to Non-Employees*. In general, the measurement date is when either (a) performance commitment, as defined, is reached or (b) the earlier of (i) the non-employee performance is complete or (ii) the instruments are vested. The measured value related to the instruments is recognized over a period based on the facts and circumstances of each particular grant as defined in the FASB Accounting Standards Codification.

#### (I) Loss Per Share

Basic and diluted net (loss) per common share is computed based upon the weighted average common shares outstanding as defined by FASB Accounting Standards Codification Topic 260, Earnings Per Share.” As of June 30, 2012 there were 8,150,000 options, 21,473,705 warrants and 400,000 common shares issuable upon conversion of convertible notes payable outstanding whose effect was anti-dilutive and not included in diluted net loss per share for the three and six months ended June 30, 2012. As of June 30, 2011 there were 50,000 warrants outstanding whose effect was anti-dilutive and not included in diluted net loss per share for the three months ended June 30, 2011 and the period February 7, 2011 to June 30, 2011. The options and warrants may dilute future earnings per share.

#### (J) Fair Value of Financial Instruments

##### Fair Value of Financial Instruments and Fair Value Measurements

The Company measures its financial and non-financial assets and liabilities, as well as makes related disclosures, in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures* (“ASC Topic 820”). For certain of our financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities, the carrying amounts approximate fair value due to their short maturities. Amounts recorded for convertible notes payable also approximate fair value because current interest rates available to us for debt with similar terms and maturities are substantially the same .

ASC Topic 820 provides guidance with respect to valuation techniques to be utilized in the determination of fair value of assets and liabilities. Approaches include, (i) the market approach (comparable market prices), (ii) the income approach (present value of future income or cash flow), and (iii) the cost approach (cost to replace the service capacity of an asset or replacement cost). ASC Topic 820 utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

**(L) Business Segments**

The Company operates in one segment and therefore segment information is not presented.

**(M) Revenue Recognition**

The Company recognizes revenue in accordance with FASB Accounting Standards Codification No. 605, Revenue Recognition. In all cases, revenue is recognized only when the price is fixed or determinable, persuasive evidence of an arrangement exists, Delivery has occurred and collectability is reasonably assured. This criteria is met when the deal books are delivered to our customers and collectability is reasonably assured. We record these sales net of any discounts provided to our customers.

**(N) Concentrations**

During the three and six months ended June 30, 2012 the Company had one customer who represented 15% of sales. There were no sales during the comparable periods in 2011.

**(O) Income Taxes**

The Company uses the asset and liability method in accounting for income taxes. Under this method, deferred income tax assets and liabilities are determined based on difference between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is provided to offset any net deferred tax assets for which management believes it is more likely than not that the net deferred asset will not be realized.

**(P) Recent Accounting Pronouncements**

In December 2011, FASB issued Accounting Standards Update 2011-11, Balance Sheet - Disclosures about Offsetting Assets and Liabilities” to enhance disclosure requirements relating to the offsetting of assets and liabilities on an entity’s balance sheet. The update requires enhanced disclosures regarding assets and liabilities that are presented net or gross in the statement of financial position when the right of offset exists, or that are subject to an enforceable master netting arrangement. The new disclosure requirements relating to this update are retrospective and effective for annual and interim periods beginning on or after January 1 2013. The update only requires additional disclosures, as such, we do not expect that the adoption of this standard will have a material impact on our results of operations, cash flows or financial condition.

In connection with a private placement in 2007, the Company issued 13,976,180 warrants with an exercise price of \$1.05 that expires on August 6, 2012. The exercise price and number of warrant shares issuable upon exercise of the

warrants are subject to adjustment from time to time for stock dividends and splits and fundamental transactions, which include a merger or consolidation or any sale of all or substantially all of the Company's assets, any tender offer or exchange offer is completed pursuant to which holders of the Company's common stock are permitted to tender or exchange their shares for other securities, cash or property, or any reclassification of the Company's common stock or any compulsory share exchange pursuant to which the Company's common stock is effectively converted into or exchanged for other securities, cash or property. The warrants also contain a cashless exercise provision. In the case of a fundamental transaction, the warrant holders will be entitled to rights equivalent to the common shareholders as if the warrant shares were issued immediately prior to the fundamental transaction. The investor warrants also provide that if the Company offers or sells stock in a subsequent equity sale at a price below the warrant exercise price then in effect, then the number of warrant shares issuable will be increased such that the aggregate exercise price of the warrants, after taking into account an equivalent price decrease, shall be equal to the aggregate exercise price prior to such adjustment ("reset provision"). Under ASC 815-40-15, the Company is required to account for warrants with reset provisions when the following three items are present (1) one or more underlying amounts or payments are required (2) no initial net investment or an initial net investment that is smaller than would be required for other types of contracts (3) its terms require or permit net settlement, it can be readily settled net by means outside the contract or it provides for delivery of an asset that puts the recipient in a position not substantially different from the net settlement. ASC 815-40-15 further defines the requirement that the assets are readily convertible to cash. Due to the lack of a public market for the Company's securities, the Company determined that the warrants were not readily convertible to cash and therefore no derivative liability has been recorded. As of June 30, 2012, the total warrants outstanding have reset to 681,140 shares with an exercise price of \$19.52 per share.

## **9. Subsequent Events**

Subsequent to June 30, 2012, the Company issued Units of its securities in a private placement to accredited investors. The price of these units was \$0.10 per unit. Each unit consists of one share of common stock and one three year Series D Warrant. Each Series D Warrant entitles the holder to purchase one share of common stock at an exercise price of \$0.25 per share. We received gross proceeds of \$255,000.

On July 23, 2012 the Company issued 900,000 shares of common stock valued

at \$90,000, (\$0.10 per share) based on contemporaneous stock sales to a consultant, as compensation for services to be rendered to it under the terms of a three year Advisory Agreement.

On August 1, 2012 the Company entered into an three year Advisory Agreement with Dr. David Greenfield pursuant to which it engaged him to provide various advisory services to us including, (i) brand advisory services to evaluate existing practices or establish new processes, (ii) corporate and product brand identity strategy development, (iii) corporate positioning, (iv) brand architecture analysis and system development, (v) advertising strategy development, (vi) creative and strategic resource identification and management, and (vii) new business support, as well as such additional related services as we may request from time to time. As compensation for these services, the Company issued him 450,000 shares of its common stock valued at \$45,000.

On August 6, 2012 the Company entered into an Investor Relations and Consulting Agreement with Acorn Management Partners, L.L.C. Under the terms of this six-month agreement, the Company engaged the firm to provide various consulting services to it and as compensation agreed to issue the firm and its designee an aggregate of 600,000 shares of our common stock valued at \$60,000 (\$.10 per share) based on contemporaneous stock sales and to reimburse the firm for its out of pocket expenses. After 90 days, the agreement may be terminated by the Company, in its sole discretion, upon seven days notice; however, in the event the Company should terminate it is not entitled to a refund of any of the compensation. The Company also granted the consultant piggy-back registration rights for the shares issued as compensation.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion of our financial condition and results of operations for three and six months ended June 30, 2012 and for the period from February 7, 2011 (inception) to June 30, 2011 should be read in conjunction with the financial statements and the notes to those statements that are included elsewhere in this report. Our discussion includes forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including those set forth under the Item 1A. Risk Factors, Cautionary Notice Regarding Forward-Looking Statements and Business sections in our Annual Report on Form 10-K for the year ended December 31, 2011 and our subsequent filings with the Securities and Exchange Commission. We use words such as "anticipate," "estimate," "plan," "project," "continuing," "ongoing," "expect," "believe," "intend," "may," "will," "should," "could," and similar expressions to identify forward-looking statements.

### Overview

SimplePons™ is a subscription-based e-commerce smartphone application (app), and savings book that offers consumers goods and services at substantially discounted prices, as well as buy one get one free offers ("BOGO") from local and national merchants. Using cutting-edge technology, we are committed to building valuable consumer-centric content on a social platform with the focus of enhancing consumer experience and developing profitable consumer acquisition partnerships with merchants. We believe there is a substantial market opportunity with \$4.6 billion in coupon savings realized in 2011 out of \$470 billion coupons distributed in just consumer products alone.

Our subscribers gain annual access to savings at participating merchants and businesses in specific geographic regions, which we refer to as "geo territories." SimplePons has established relationships with merchants in 18 geo-territories, including in Florida, South Carolina, Indiana, and Virginia with plans to expand nationwide.

As we grow, we plan to establish the following initiatives:

- building unique subscriber profiles for enhancing consumer experience,
- developing an e-commerce platform for customized savings,
- leveraging on the popularity of social networking to create consumer-focused content,
- using QR codes and relevant search/mobile technologies for e-coupon redemption and targeted marketing, and
- establishing focused corporate and institutional partnerships for more successful and effective subscriber acquisition.

We believe we offer our subscribers a unique value proposition in providing immediate savings with focused and relevant promotions. Our app subscribers enjoy the convenience of having their coupon book available through their

smartphones.

We believe in forming strong, long-term relationships with our merchant partner by providing a superior return on promotional investment to merchants than daily deal competitors as we neither share in the revenue nor charge a fee for participation. Given our emphasis on technology and building content, we will be able to assist our merchants in understanding their business and customers, resulting in strong year-over-year merchant retention and better promotions.

### **Going Concern**

We incurred net losses of \$2,260,130 from inception through June 30, 2012 and a net loss of \$1,428,540 for the six months ended June 30, 2012. The report of our independent registered public accounting firm on our financial statements for the period of inception (February 7, 2011) through December 31, 2011 contains an explanatory paragraph regarding our ability to continue as a going concern based upon our net loss and cash used in operations. These factors, among others, raise substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty. There are no assurances we will be successful in our efforts to generate revenues or report profitable operations or to continue as a going concern, in which event investors would lose their entire investment in our company.

## Results of Operations

Our revenues during the three and six months ended June 30, 2012 represent revenues from the sale of our discount coupon books. Our costs of good sold represents the costs of printing the books. During the three months ended June 30, 2012 we had a negative gross profit margin of 64% as compared to a gross margin of 18% for the six months ended June 30, 2012 and a gross profit margin of 85% for the first quarter of 2012. The decline in our gross margin in the second quarter of 2012 is attributable to an impairment for obsolete inventory of \$12,492. We anticipate our revenue will increase during the third and fourth quarters of 2012 as we launch our 2013 books in August 2012, based upon non-binding indications of purchase we have received from a number of organizations and companies who typically engage in fundraising activities in those periods.

Our total operating expenses for the three months and six months ended June 30, 2012 increased substantially from the comparable periods in 2011. The following factors were primarily attributable to this increase:

- Salary expense increased 457% and 1,108% in the three and six months ended June 30, 2012 from the comparable periods in 2011. We expect that our salary expense may increase in future periods depending on the degree to which we expand our business. At the end of June 2012 we eliminated 14 salaried employees and decreased our salary expense by approximately \$32,000 per month. We have begun to establish relationships with channel partners to market our products to their existing clients engaged in fundraising sales of similar and complimentary products within various organizations. We expect that we will pay a flat fee per book or app to the channel partner which will provide us with the opportunity to increase our sales while controlling our salary expense in future periods. We do, however, anticipate adding an additional software engineer and a director of sales and marketing in the future at a cost of approximately \$18,000 per month.
- Consulting expense increased 191% and 178% in the three and six months ended June 30, 2012 from the comparable periods in 2011. Consulting expense relates to agreements we entered into with a variety of consultants and which costs are being amortized over the term of the agreements.
- Selling, general and administrative expense principally includes rent, travel, commissions, professional fees, promotional, entertainment and advertising expenses, market research, fundraising expenses and other overhead expenses excluding salary expense. The principal increases in SG&A expenses in the three and six months ended June 30, 2012 from the comparable periods in 2011 included increases stock-based consulting expenses, option expense, travel and entertainment expenses, rent, and costs associated with books distributed as promotional materials.

We expect that our SG&A will continue to increase in future periods as our business expands although at this time we are not able to quantify the expected increase.

Depreciation and amortization expense increased for the three and six months ended June 30, 2012 as result of placing our website and mobile applications in service.

Total other income/(expense) for the three and six months ended June 30, 2012 includes \$14,800 of liquidated damages which we have accrued as a result of our failure to timely file a registration statement related to a private placement of our securities which closed during the second quarter of 2012.

### **Liquidity and Capital Resources**

Liquidity is the ability of a company to generate sufficient cash to satisfy its needs for cash. We do not have sufficient cash to satisfy our obligations as they become due. At June 30, 2012 we had working capital deficit of \$214,466 as compared to working capital of \$364,043 at December 31, 2011. Our decrease of working capital of approximately 159% is primarily attributable to decreases in cash, inventory and prepaid expenses and other current assets, offset by an increases in accounts payable and accrued expenses, accrued salary officers, liquidated damages and convertible notes payable – related party. The decrease in our inventory at June 30, 2012 from December 31, 2011 reflects the write off of obsolete inventory of \$12,492 and books that were given away for promotions purposes. We have begun receiving our new inventory in August 2012.

The increase in our accounts payable and accrued expenses and accrued officers salaries at June 30, 2012 is directly attributable to our lack of liquidity. We are delaying the payment of certain obligations to third parties and our executive officers which have accrued the bulk of the compensation due them under the terms of their employment agreements. In addition, during the second quarter of 2012 the lack of sufficient liquidity has adversely impacted our ability to implement our business plan. As discussed below, subsequent to June 30, 2012 we have raised additional capital which has alleviated to a degree our lack of liquidity. Subsequent to July 1, 2012 certain of our executive officers received \$52,000 of their accrued salary.

Net cash used in operating activities was approximately \$605,000 for the six months ended June 30, 2012 as compared to net cash used in operating activities of approximately \$86,600 for the period of February 7, 2011 (inception) to June 30, 2011. In the six months ended June 30, 2012 cash was used to fund our operating loss of \$1,428,540 which was partially offset by an increase in depreciation expense and amortization expense of \$24,538, impairment of inventory in the amount of \$12,492, stock compensation for common stock issued to consultants of \$275,000, stock option expense for options issued to employees and officers of \$164,070, decrease in accounts receivable of \$820, a decrease in prepaid expense of \$66,559 mainly from the amortization of prepaid insurance, a decrease in deposits of \$820, an increase in liquidated damages of \$14,800 for our failure to file a registration statement in a timely manner, an increase in accounts payable of \$92,008 mainly attributable to unpaid legal, professional and consulting bills, and an increase of \$156,743 for accrued salary owed to executive officers.

For the period of February 7, 2011 (inception) to June 30, 2011 cash was used to fund our loss from operations of \$167,150 which was partial offset by an increase in depreciation expense and amortization expense of \$6,250, stock compensation for common stock issued to consultants of \$80,156, an increase in prepaid expense of \$50,550, an increase in accounts payable of \$7,176 mainly attributable to unpaid legal, professional and consulting fees, and an increase of \$37,500 for accrued salary owed to executive officers.

Net cash used in investing activities was approximately \$47,500 for the six months ended June 30, 2012 as compared to approximately \$34,400 for the period of February 7, 2011 (inception) to June 30, 2011 reflects our website development investments and purchase of trademarks and additional equipment.

Net cash provided by financing activities for the six months ended June 30, 2012 was approximately \$549,000 and reflects proceeds from the sale of our securities and a note to a related party. Net cash provided by financing activities for the period of February 7, 2011 (inception) to June 30, 2011 was approximately \$482,000 and reflects proceeds from the sale of securities.

We do not have any commitments for capital expenditures during the next 12 months nor do we have any external sources of capital. Our working capital is not sufficient to fund our operations over the next 12 months and permit us to satisfy our obligations as they become due. During the first quarter of 2012 we expanded our workforce to help with our expansion into new geo territories. As a result of a our lack of liquidity and streamlining of our business

strategy, during the second quarter of 2012 we reallocated certain of our resources, and eliminated 14 positions. While we raised \$255,000 in net proceeds from the sale of our securities subsequent to June 30, 2012, our expenses are increasing even with these efforts to control our expenses. Even if we are successful in increasing our revenues from these expected sales, we will still need to raise additional working capital. We do not have any firm commitments to provide the additional capital which is needed and there are no assurances that we will be able to secure capital on terms acceptable to us, if at all. Our ability to significantly increase our revenues and successfully raise additional working capital is key to our ability to continue as a going concern. If we are not successful in both of these efforts, we may be forced to significantly curtail some or all of our operations.

## Critical Accounting Policies

### *Website Development*

We have adopted the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification No. 350 *Intangible-Goodwill and Other*. Costs incurred in the planning stage of a website are expensed, while costs incurred in the development stage are capitalized and amortized over the estimated three year life of the asset. During the six months ended June 30, 2012 and as of December 31, 2011 we incurred \$40,820 and \$114,612, respectively in website development costs. The website was put into service on September 30, 2011. Amortization for the six months ended June 30, 2012 was \$22,584.

### *Stock-Based Compensation*

We recognize compensation costs to employees under FASB Accounting Standards Codification No. 718, *Compensation – Stock Compensation*. Under FASB Accounting Standards Codification No. 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share based compensation arrangements include stock options, restricted share plans, performance based awards, share appreciation rights and employee share purchase plans. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant.

Equity instruments issued to other than employees are recorded on the basis of the fair value of the instruments, as required by FASB Accounting Standards Codification No. 505, *Equity Based Payments to Non-Employees*. In general, the measurement date is when either a (a) performance commitment, as defined, is reached or (b) the earlier of (i) the non-employee performance is complete or (ii) the instruments are vested. The measured value related to the instruments is recognized over a period based on the facts and circumstances of each particular grant as defined in the FASB Accounting Standards Codification.

## Recent Accounting Pronouncements

The recent accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

## **Off Balance Sheet Arrangements**

As of the date of this report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term “off-balance sheet arrangement” generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with us is a party, under which we have any obligation arising under a guarantee contract, derivative instrument or variable interest or a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

## **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

Not applicable for a smaller reporting company.

## **Item 4. Controls and Procedures.**

*Evaluation of Disclosure Controls and Procedures.* We maintain “disclosure controls and procedures” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934. In designing and evaluating our disclosure controls and procedures, our management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Based on their evaluations as of the end of the period covered by this report, our Chief Executive Officer and our Chief Financial Officer have concluded that our disclosure controls and procedures were effective such that the information relating to our company, required to be disclosed in our Securities and Exchange Commission reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

*Changes in Internal Control over Financial Reporting.* There have been no changes in our internal control over financial reporting during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **PART II - OTHER INFORMATION**

### **Item 1. Legal Proceedings.**

None.

### **Item 1A. Risk Factors.**

Not applicable for a smaller reporting company.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

As compensation for the services to be rendered to us under the terms of Investor Relations Agreement described in Item 5. below, on June 26, 2012 we issued American Capital Ventures, Inc. and its designee Maplehurst Investment Group, LLC an aggregate of 300,000 shares of our common stock valued at \$75,000 (\$.25 per share) based on contemporaneous stock sales in a private transaction exempt from registration under the Securities Act of 1933, as amended (the "Securities Act") in reliance on an exemption provided by Section 4(2) of that act. The recipients were accredited or otherwise sophisticated investors who had access to information concerning our company.

Between July 10, 2012 and August 8, 2012 we sold an aggregate of 2,550,000 units of our securities at an offering price of \$0.10 per unit to eight accredited investors in a private offering exempt from registration under the Securities Act in reliance on exemptions provided by Section 4(2) and Regulation D of that act. Each unit consisted of one share of our common stock and one Series D common stock purchase warrant. We received gross proceeds of \$255,000. We did not pay any commissions or finder's fees in this offering. We are using the net proceeds from this offering for general working capital. Each Series D Warrant is exercisable into one share of common stock for three years from issuance at an exercise price of \$0.25 per share. The exercise price of the warrants and the number of shares issuable upon the exercise of the warrants are subject to proportional adjustment in the event of stock splits, dividends, recapitalizations or similar transactions. We agreed to file a registration statement with the Securities and Exchange Commission within 90 days after the final closing of this offering registering for resale all of the shares underlying the warrants. The form of Series D common stock purchase warrant is filed as Exhibit 4.10 to this report. The description of the warrant is qualified in its entirety by reference to this exhibit.

As compensation for the services to be rendered to us under the terms of Advisory Agreement described in Item 5. below, on August 1, 2012 we agreed to issue Dr. David Greenfield 450,000 shares of our common stock valued at \$45,000 (\$.10 per share) based on contemporaneous stock sales in a private transaction exempt from registration under the Securities Act in reliance on an exemption provided by Section 4(2) of that act. The recipient was an accredited investor.

As compensation for the services to be rendered to us under the terms of Investor Relations and Consulting Agreement described in Item 5. below, on August 6, 2012 we agreed to issue Acorn Management Partners, L.L.C. 600,000 shares of our common stock valued at \$60,000 (\$.10 per share) based on contemporaneous stock sales in a private transaction exempt from registration under the Securities Act in reliance on an exemption provided by Section 4(2) of that act. The recipient was an accredited or otherwise sophisticated investor who had access to information concerning our company.

**Item 3. Defaults Upon Senior Securities.**

None.

**Item 4. Mine Safety Disclosures.**

Not applicable to our company's operations.

**Item 5. Other Information.**

On June 26, 2012 we entered into a 12 month Investor Relations Agreement with American Capital Ventures, Inc. Under the terms of this agreement, we engaged the firm to provide various consulting services to us and as compensation agreed to issue the firm and its designee an aggregate of 500,000 shares of our common stock valued at \$125,000 and to reimburse the firm for its out of pocket expenses. After 45 days, the agreement may be terminated by us, in our sole discretion, upon 15 days notice; however, the termination does not impact the consultant's right to any compensation which is earned prior to the termination date. A copy of the Investor Relations Agreement is filed as Exhibit 10.12 to this report. The description of the terms of the agreement is qualified in its entirety by reference to this exhibit.

On August 1, 2012 we appointed Dr. David Greenfield to the Advisory Board to our Board of Directors and in connection therewith we entered into an three year Advisory Agreement with Dr. Greenfield pursuant to which we engaged him to provide various advisory services to us including, (i) brand advisory services to evaluate existing practices or establish new processes, (ii) corporate and product brand identity strategy development, (iii) corporate positioning, (iv) brand architecture analysis and system development, (v) advertising strategy development, (vi) creative and strategic resource identification and management, and (vii) new business support, as well as such additional related services as we may request from time to time. As compensation for these services, we issued him 450,000 shares of our common stock valued at \$45,000. The agreement contains customary confidentiality and non-disclosure provisions. The description of terms and conditions of the Advisory Agreement is qualified in its entirety by reference to the agreement which is filed as Exhibit 10.14 to this report.

On August 6, 2012 we entered into an Investor Relations and Consulting Agreement with Acorn Management Partners, L.L.C.
