CRITICARE SYSTEMS, INC.

We design, manufacture and market vital signs and gas monitoring instruments and related noninvasive sensors used to monitor patients in many healthcare settings. Since a patient's oxygen, anesthetic gas and carbon dioxide levels can change dramatically within minutes, causing severe side effects or death, continuous monitoring of these parameters is increasing. Our monitoring equipment improves patient safety by delivering accurate, comprehensive and instantaneous patient information to physicians and other health service clinicians. Our products also allow hospitals to contain costs primarily by substituting cost-effective reusable pulse oximetry sensors for disposable sensors, controlling the use of costly anesthetics and increasing personnel productivity.

To meet the needs of end-users in a wide variety of patient settings, we have developed a broad line of patient monitors which combine one or more of our patented or other proprietary technologies, for monitoring:

- oxygen saturation;
- carbon dioxide; and
- anesthetic agents,

with standard monitoring technologies that provide:

- electrocardiogram;
- invasive and noninvasive blood pressure;
- temperature;
- heart rate; and
- respiration rate.

In addition, our VitalView telemetry system allows one nurse to monitor up to eight patients simultaneously from a convenient central location. This allows hospitals to move out of the intensive care unit those patients that require continuous monitoring, but do not need all of an intensive care unit's extensive and costly personnel and equipment resources.

3

RISK FACTORS

Before purchasing our stock, you should carefully consider the following risk factors and the other information contained in this prospectus.

WE FACE SIGNIFICANT COMPETITION IN OUR MARKETS. AS A RESULT, WE MAY NOT BE ABLE TO INCREASE OUR MARKET SHARE OR PROFIT MARGINS.

The markets for our products are highly competitive. Many of our competitors have greater:

- engineering resources;
- research and development resources;
- manufacturing resources;
- financial and marketing resources; and
- market presence and reputation.

We have historically experienced substantial price competition for our products and price competition is likely to continue.

OUR GROWING RELIANCE ON OFFSHORE CONTRACT MANUFACTURING MAKES OUR BUSINESS SUSCEPTIBLE TO NUMEROUS RISKS THAT COULD AFFECT OUR PROFITABILITY.

In response to pricing pressure, in fiscal 2001 we entered into agreements with two offshore contract manufacturing firms located in Ireland and Taiwan, respectively. We completed the transition of the production of substantially all of our established product lines to these manufacturing firms at the end of calendar 2001. Our reliance on offshore contract manufacturing will subject us to numerous risks, including the following:

- economic and political instability in the countries where the contract manufacturing firms are located;
- restrictive actions by foreign governments;
- the laws and policies of the United States affecting the importation of goods (including duties, quotas and taxes);
- production delays and cost overruns;
- quality control; and
- foreign trade and tax laws.

WE HAVE A HISTORY OF LOSSES. IF WE DO NOT ACHIEVE PROFITABILITY, OUR FINANCIAL CONDITION AND STOCK PRICE COULD SUFFER.

We had net losses of \$186,388 in fiscal 2000, \$178,232 in fiscal 2001 and \$1,111,106 in the first nine months of fiscal 2002. We cannot assure you that we will be able to achieve or sustain profitability in future periods.

OUR SUCCESS DEPENDS ON OUR ABILITY TO INTRODUCE NEW PRODUCTS.

Our future growth will depend in large part upon our ability to continue to conceive, design, and market new products and upon continuing market acceptance

Edgar Filing: CRITICARE SYSTEMS INC /DE/ - Form POS AM

of our existing and future products. Any significant delays in the introduction of, or the failure to introduce, new products or additions to our existing product lines or the failure of our existing or future products to maintain or receive market acceptance could have a material adverse effect on our business, results of operations or financial condition.

OUR SUCCESS DEPENDS ON OUR ABILITY TO PROTECT OUR INTELLECTUAL PROPERTY.

We rely on our patented and other proprietary technology including:

- our sensor technology;
- infrared specific anesthetic gas monitoring technology;
- UltraSync signal processing software; and
- disposable respiratory secretion filter system.

4

The actions taken by us to protect our proprietary rights may not be adequate to prevent imitation of our products, processes or technology. We can not assure you that:

- our proprietary information will not become known to competitors;
- others will not independently develop substantially equivalent or better products that do not infringe on our intellectual property rights; or
- others will not challenge or assert rights in, and ownership of, our patents and other proprietary rights.

Although none of our United States patents expire before 2004, to the extent competitors develop equivalent or superior non-infringing technology in these areas, or to the extent that we are unable to enforce our patents, our ability to market and sell our products could be harmed.

INTERNATIONAL SALES MAKE OUR BUSINESS SUSCEPTIBLE TO NUMEROUS INTERNATIONAL BUSINESS RISKS AND CHALLENGES THAT COULD AFFECT OUR PROFITABILITY.

International sales accounted for 41% of our total net sales for the 2001 fiscal year. We expect that international sales will continue to constitute a significant portion of our business. Although we sell our products in United States dollars and are not subject to significant currency risks, an increase in the value of the United States dollar relative to foreign currencies in our international markets could make our products less price competitive in such markets. Also, our international sales are subject to the risks inherent in doing business abroad, including:

- delays in shipments;
- increases in import duties and tariffs; and
- changes in foreign regulations and political climate.

WE OPERATE IN A HIGHLY REGULATED INDUSTRY.

Our products are subject to regulation by the United States Food and Drug Administration and comparable foreign governmental authorities. These regulations can be burdensome and may:

- substantially delay or prevent the introduction of new products;
- materially increase the costs of any new product introductions;
- interfere with or require cessation of product manufacturing and marketing; and
- result in product recalls.

Edgar Filing: CRITICARE SYSTEMS INC /DE/ - Form POS AM

Additionally, adoption of new regulations or modifications to applicable regulations could harm our business.

HEALTH CARE COST CONTAINMENT PROGRAMS COULD ADVERSELY AFFECT OUR DOMESTIC SALES.

The cost of a significant portion of medical care in the United States and in international markets is funded by government or other insurance programs. Additional limits imposed by such programs on health care cost reimbursements may further impair the ability of hospitals and other health care providers to purchase equipment such as our products and could reduce our domestic sales.

OUR BUSINESS IS SUBJECT TO POSSIBLE PRODUCT LIABILITY EXPOSURE.

As a manufacturer of medical diagnostic equipment, we could face product liability claims. We have had no product liability claims to date and maintain product liability insurance. However, we can make no assurance that our insurance coverage will be adequate to cover any product liability claims which arise in the future or that it will continue to be available at reasonable prices.

5

OUR STOCK PRICE MAY FLUCTUATE, INCREASING THE RISK TO INVESTORS IN OUR COMMON STOCK.

Market prices of securities of medical technology companies, including our common stock, have experienced significant volatility from time to time. There may be volatility in the market price of our common stock due to factors that may or may not relate to our performance. Various factors and events may have a significant impact on the market price of our common stock such as:

- announcements by us or our competitors concerning new product developments;
- governmental approvals, regulations or actions;
- developments or disputes relating to patent or proprietary rights;
- public concern over product liability; and
- general economic and market conditions.

In addition, our quarterly results have historically fluctuated.

6

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

We have made forward-looking statements in this document that are subject to risks and uncertainties. Without limitation, these forward-looking statements include statements:

- regarding new products we may introduce in the future;
- about our business strategy and plans;
- about the adequacy of our working capital and other financial resources; and
- that are not of an historical nature.

When we use words such as "believes," "expects," "anticipates," "will," "would," "projects" or similar expressions, we are making forward-looking statements. You should note that forward-looking statements rely on a number of assumptions concerning future events, and are subject to a number of uncertainties and other factors, many of which are outside of our control, that could cause actual results to differ materially from the statements made. These

Edgar Filing: CRITICARE SYSTEMS INC /DE/ - Form POS AM

factors include those discussed under the caption "Risk Factors" in this prospectus. Please note that we disclaim any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the shares by the selling stockholders.

SELLING STOCKHOLDERS

All of the shares of our common stock offered for sale by this prospectus are being offered by the selling stockholders. We issued 1,786,273 shares of our common stock to three of the selling stockholders, Oxford Bioscience Partners III, L.P., Oxford Bioscience Partners (Bermuda) III Limited Partnership and mRNA Fund L.P. on October 17, 2000 at a price of \$2.25 per share, as part of a private transaction between these selling stockholders and us. We appointed Jeffrey T. Barnes as one of our directors on October 17, 2000, in connection with the investment by these selling stockholders. These selling stockholders subsequently transferred a total of 133,970 shares of our common stock to one of their affiliates, Oxford Bioscience Partners (Adjunct) III L.P.

Information with respect to the shares of our common stock beneficially owned by the selling stockholders follows.

PLAN OF DISTRIBUTION

The selling stockholders may, without limitation and from time to time, sell all or a portion of their shares of our common stock being registered under this prospectus on any stock exchange, market or trading facility on which the common stock is traded, at market prices prevailing at the time of sale, fixed prices or at negotiated prices. The shares may, without limitation, be sold by the selling stockholders by one or more of the following methods:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer engaged by the selling stockholders will attempt to sell the shares as agent for the selling

Edgar Filing: CRITICARE SYSTEMS INC /DE/ - Form POS AM

stockholders but may position and resell a portion of the block as principal to facilitate the transaction;

- purchases by a broker-dealer as principal and resale by such broker-dealer for its account;
- privately negotiated transactions;
- in accordance with Rule 144 promulgated under the Securities Act of 1933, as amended, rather than pursuant to this prospectus;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

From time to time the selling stockholders may pledge their shares pursuant to the margin provisions of the selling stockholders' customer agreements with their brokers. Upon a default by the selling stockholders, the broker may, from time to time, offer and sell the pledged shares.

In effecting sales, brokers-dealers engaged by the selling stockholders may arrange for other broker-dealers to participate in such sales. Brokers-dealers may receive commissions or discounts from the selling stockholders (or, if any such broker-dealer acts as agent for the purchase of such shares, from such purchaser) in amounts to be negotiated which are not expected to exceed those customary in the types of transactions involved. Broker-dealers may agree with the selling stockholders to sell a specified number of shares of the common stock at a stipulated price per share, and, to the extent such broker-dealer is unable to do so acting as agent for the selling stockholders, to purchase as principal any unsold shares at the price required to fulfill the broker-dealer commitment to the selling stockholders.

The selling stockholders and any broker-dealers or agents that participate with the selling stockholders in sales of the shares may be deemed to be "underwriters" within the meaning of the Securities Act of 1933, as amended, in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act of 1933, as amended.

We are required to pay all fees and expenses incident to the registration of the selling stockholders' shares, other than the fees and disbursements of counsel to the selling stockholders and underwriting discounts or commissions, if any. Additionally, we have agreed to indemnify the selling stockholders from certain liabilities in connection with the offering, including liabilities under the federal securities laws.

EXPERTS

Total	\$50,000
	=====

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

The Company's By-Laws provide that the Company shall, to the fullest extent permitted by the Delaware General Corporation Law and other applicable laws, as in effect from time to time, indemnify any person who was or is a party or is threatened to be made a party to any formal or informal threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, including, without limitation, any action brought under federal or state securities laws, rules or regulations (collectively, "Actions"), other than in certain limited circumstances, because he is or was a director or officer of the Company, or because he is or was a director or officer of the Company and is or was serving at the request of the Company as a director, officer, employee, consultant or agent of another corporation or other enterprise or is or was serving at the request of the Company as a fiduciary of an employee benefit plan or as an employee or agent of the Company; provided, however, that no director or officer shall be entitled to indemnification unless, with respect to the conduct that is the subject of the Action, he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interest of the Company and, with respect to any criminal action or proceeding, he had no reasonable cause to believe his conduct was unlawful. This indemnification obligation mirrors the permissive indemnification provided under section 145 of the Delaware General Corporation Law. The determination of whether indemnification is proper under the circumstances, unless made by a court, shall be made (a) by arbitration; (b) by the Board of Directors by a majority vote of a quorum consisting of directors who are not parties to the

Edgar Filing: CRITICARE SYSTEMS INC /DE/ - Form POS AM

subject Action; (c) if such quorum is not obtainable or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion; or (d) by the affirmative vote of a majority of the shares entitled to vote thereon.

The Company's Certificate of Incorporation provides that a director will not be personally liable for monetary damages to the Company or its stockholders for or with respect to any acts or omissions in the performance of his or her duties as a director, except for liability (i) for any breach of the director's duty of loyalty to such corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve

II-1

intentional misconduct or a knowing violation of law, (iii) for paying a dividend or approving a stock repurchase in violation of section 174 of the Delaware General Corporation Law or (iv) with respect to any transaction from which the director derived an improper personal benefit.

Article VI, section 6.01 of the Company's Restated By-Laws provides that a director or officer is not liable to the Company for damages arising out of any action taken or omitted to be taken by such person if he exercised and used the same degree of care and skill as a prudent man would have exercised or used under the circumstances in the conduct of his own affairs or took or omitted to take such action in reliance on the advice of the Company's counsel or statements made or information furnished by officers or employees of the Company which he had reasonable grounds to believe were true.

The indemnification provided as set forth above is not exclusive of any other rights to which a director or an officer of the Company may be entitled.

The general effect of the foregoing provisions is to reduce the circumstances in which an officer or director may be required to bear the economic burdens of the foregoing liabilities and expenses.

ITEM 17. UNDERTAKINGS

The undersigned Registrant undertakes as follows:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(a) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(b) To reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement; Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement, and

(c) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement; provided, however, that paragraphs 1(a) and (b) will not apply if the information required to be included in a post effective amendment by those paragraphs is contained in periodic reports filed by the Registrant pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 and which are incorporated by reference in this Registration Statement.

2. That, for the purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

4. That, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

5. Insofar as indemnification for liabilities arising under the

Edgar Filing: CRITICARE SYSTEMS INC /DE/ - Form POS AM

Securities Act of 1933 may be permitted to directors, officers or persons controlling the Registrant pursuant to the foregoing provisions, the Registrant has been informed that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Waukesha, State of Wisconsin, on the 7th day of May, 2002.
