**Carbon Energy Corporation Announces Execution of Merger Agreement with  
Evergreen Resources, Inc.**

Carbon Energy Corporation (AMEX: CRB) today announced that it has entered into an Agreement and Plan of Reorganization with Evergreen Resources, Inc. ("Evergreen"). Under the agreement, Carbon will merge with a subsidiary of Evergreen, and Carbon shareholders will receive .2750 shares of Evergreen common stock for each outstanding share of Carbon common stock (and cash in lieu of any fractional shares). Based upon Evergreen's closing price of \$45.40 per share on March 28, 2003, the total value of stock to be issued is approximately \$84.4 million. As a result of the merger, Carbon will become a wholly owned subsidiary of Evergreen. The merger is intended to be a tax-free, stock-for-stock transaction.

The Board of Directors of Carbon and Evergreen each unanimously approved the merger agreement. At the time of execution of the agreement, each of Yorktown Energy Partners III, L.P., and Patrick R. McDonald, President and Chief Executive Officer of Carbon, who beneficially own approximately 73.2% and 6.0%, respectively, of Carbon's outstanding common stock, have executed an agreement with Evergreen obligating each of them to vote all shares over which it has voting control in favor of the merger.

RBC Capital Markets acted as the financial advisor to Carbon and issued a fairness opinion to the Board of Directors of Carbon.

Completion of the merger, which is subject to customary conditions, including approval by the shareholders of Carbon, is expected late in the second quarter or the third quarter of 2003. The merger agreement contains a potential \$2.5 million termination fee payable by Carbon if the merger agreement is terminated under certain circumstances.

Patrick R. McDonald, Carbon's Chief Executive Officer said, "Evergreen's skilled management and technical expertise in the development of conventional and unconventional gas resources, combined with its considerable larger capital budget and excellent long-term track record of adding value for shareholders, creates an opportunity for Carbon's shareholders and employees to benefit from the continuing development of Carbon's impressive inventory of exploration and development opportunities in the United States and Canada."

Carbon Energy is an independent energy company involved in the exploration and development of its extensive developed and undeveloped natural gas properties in the Rocky Mountain region of the United States and Canada, with particular emphasis on the Piceance and Uintah Basins of Colorado and Utah and the Carbon and Rowley areas of central Alberta.
