Delivery of Shareholder Documents. The Securities and Exchange Commission permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be househanded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

THE FUND

- Based on share price, Eaton Vance Tax-Advantaged Global Dividend Income Fund (the Fund), a closed-end fund traded on the New York Stock Exchange, had a total return of 10.11% for the period from inception on January 30, 2004, to December 31, 2004.(1) This return resulted from an increase in share price from \$19.10 (offering price, less all commissions and fees) on January 30, 2004, to \$19.79 on December 31, 2004, and the distribution of \$1.12 per share in dividend income. Based on the Fund's most recent dividend and a closing share price of \$19.79 on December 31, 2004, the Fund had a market yield of 11.07%.(2)
- Based on net asset value (NAV) per share of \$21.68 on December 31, 2004, and the distribution of \$1.12 per share in dividend income, the Fund had a total return of 20.63% for the 11 months ended December 31, 2004.(1)

MANAGEMENT DISCUSSION

- During the 11-month period ending December 31, 2004, U.S. equity markets extended their recent advance. Two continued drivers of equity market strength during the period were the growing U.S. economy and the more

favorable investment tax environment created by The Jobs and Growth Tax Relief Reconciliation Act of 2003. The new lower tax rates now being applied to long-term capital gains and to qualified equity dividend income are providing equity investors with a tax environment about as favorable as any we have known since the federal income tax was instituted in 1913.

- Based on the Fund's objective of providing a high level of after-tax total return, consisting primarily of tax-advantaged dividend income and capital appreciation, the Fund was primarily invested in securities that generated a relatively high level of qualifying dividend income (QDI) during the period. At the end of the period, the Fund had approximately 79% of total investments invested in common stocks, approximately 19% of total investments invested in preferred stocks and 2% of total investments in cash equivalents. Within the common stock portfolio, the Fund had 32% of total investments invested in utility and telecommunication stocks. An additional 37% of the Fund's total investments were invested in common stocks diversified across the consumer, industrial and financial sectors.
- The utility stocks owned by the Fund generally outperformed the overall markets throughout the 11-month period ending December 31, 2004. Utility stocks rose during this period, as long-term interest rates declined. Historically, utility and other higher-yielding stocks have tended to do well during periods of declining long-term interest rates. Also throughout this period, many of the utility companies owned by the Fund experienced strong free cash flow generation. This allowed many of the Fund's utility holdings to increase their regular quarterly, semi-annual, or annual dividend payments. In a number of cases, companies held in the Fund's portfolio also rewarded shareholders with special one-time dividend payments.
- In addition to the utility stocks mentioned above, the Fund also benefited from being invested in a broadly diversified basket of other dividend-paying common stocks. Consumer-related stocks held by the Fund generally moved higher during the period, as consumer spending benefited from tax rebates and strong new job creation. Growing demand and increasing commodity prices generally benefited the Fund's holdings in the energy and material sectors. As improving corporate earnings and free cash flow began to fuel a rebound in business spending, industrial stocks held by the Fund also generally benefited.

PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS. RETURNS ARE HISTORICAL AND ARE CALCULATED BY DETERMINING THE PERCENTAGE CHANGE IN SHARE PRICE OR NET ASSET VALUE WITH ALL DISTRIBUTIONS REINVESTED. THE RETURNS DO NOT INCLUDE DIVIDENDS DECLARED IN DECEMBER 2004 AND PAYABLE IN 2005. INVESTMENT RETURN AND MARKET PRICE WILL FLUCTUATE SO THAT SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. PERFORMANCE IS FOR THE STATED TIME PERIOD ONLY; DUE TO MARKET VOLATILITY, CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN QUOTED. FUND PERFORMANCE DURING CERTAIN PERIODS REFLECTS THE STRONG STOCK MARKET PERFORMANCE AND/OR THE STRONG PERFORMANCE OF STOCKS HELD DURING THOSE PERIODS. THIS PERFORMANCE IS NOT TYPICAL AND MAY NOT BE REPEATED.

- (1) PERFORMANCE RESULTS REFLECT THE EFFECT OF LEVERAGE RESULTING FROM THE FUND'S ISSUANCE OF AUCTION PREFERRED SHARES. SHARE PRICE AND NET ASSET VALUE ON 1/30/04 ARE CALCULATED ASSUMING A PURCHASE PRICE OF \$20.00 LESS THE SALES LOAD OF \$0.90 PER SHARE PAID BY THE SHAREHOLDER.
- (2) THE FUND'S MARKET YIELD IS CALCULATED BY DIVIDING THE MOST RECENT DIVIDEND PER SHARE BY THE SHARE PRICE AT THE END OF THE PERIOD AND ANNUALIZING THE RESULT. THE MOST RECENT DIVIDEND INCLUDED AN EXTRA \$0.07 PER SHARE.

FUND SHARES ARE NOT INSURED BY THE FDIC AND ARE NOT DEPOSITS OR OTHER

OBLIGATIONS OF, OR GUARANTEED BY, ANY DEPOSITORY INSTITUTION. SHARES ARE SUBJECT TO INVESTMENT RISKS, INCLUDING POSSIBLE LOSS OF PRINCIPAL INVESTED.

2

- During the period, preferred stocks owned by the Fund generated mid-single-digit returns. By comparison, preferred stock returns outpaced fully taxable investment grade bonds by approximately 0.5%. The performance of the Fund's preferred stock holdings generally followed fixed-income benchmarks during the period, posting positive returns during periods of stable or falling interest rates, and negative returns during periods when yields moved higher. During the last 11 months, the volatility associated with owning preferred stocks was greater than usual. The Fund's disciplined and research-intensive approach to managing its preferred portfolio helped allow it to navigate successfully through this period of unusual volatility.
- Since the Fund initially issued its Auction Preferred Shares (APS) leverage in April 2004, we have on a number of occasions moved to extend the maturities of these issues. As of December 31, 2004, the Fund's \$750 million in APS borrowings, which represented approximately 31% of the Fund's total assets, maintained a weighted average reset period of 200 days. This compares against a weighted average reset of 105 days when the leverage was first issued. By lengthening the maturity of the Fund's APS borrowings in this manner, the Fund has sought to lower its sensitivity to rising short-term interest rates. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of the common shares).
- The Fund has invested in non-U.S. securities in both its common and preferred portfolios. These investments have provided the Fund with international diversification and dividend yields often more attractive than the yields available on stocks issued by similar domestic corporations. As of December 31, 2004, approximately 33% of the Fund's total investments were invested in non-U.S. common stocks. In addition, approximately 16% of the Fund's total investments were invested in "Yankee" preferreds. Yankee preferreds are preferred stocks generally issued by large, highly rated, European financial institutions, but denominated in U.S. dollars.
- During the last 11 months, the Fund has twice announced increases in its monthly dividend. The first announcement was on September 15, 2004, when the Fund increased its monthly dividend from \$0.1025 to \$0.1075 per share, and the second announcement was on December 9, 2004, when the Fund increased its monthly dividend from \$0.1075 to \$0.1125 per share. Also, on December 9, 2004 the Fund announced a special dividend of \$0.0700 per share. The amount of monthly dividend distributions may vary, depending on a number of factors. As Portfolio and market conditions change, the rate of dividends on common shares could change.
- The Fund estimates that virtually all of the income declared by the Fund in calendar year 2004 will be considered QDI, subject to taxation at long-term capital gains rates no greater than 15%.
- The increases in the monthly dividend and the special dividend reflect both the effective implementation of the Fund's dividend capture strategy and the significant number of dividend increases announced by companies represented in the Fund's common stock portfolio.
- The Fund's dividend capture strategy is a trading strategy designed to

enhance the level of qualified, tax-advantaged dividend income earned by the Fund. By implementing its dividend capture strategy, the Fund has been able to collect a greater number of dividend payments over the last 11 months than it would have collected by simply adhering to a buy-and-hold strategy.

- The Fund's investment approach is to buy a diversified portfolio of dividend-paying stocks, whether common or preferred, of companies characterized by strong business franchises and solid balance sheets. For common stocks, we generally focus on companies that offer the potential for growth of income and capital appreciation over time. For preferred stocks, we take into consideration the interest rate sensitivity of the investment and our interest rate expectations. We will also maintain our discipline of buying shares in such companies only when we believe they are inexpensive or undervalued relative to the overall market.
- Given the historically low tax rates now applied to qualifying equity dividend income, more companies are paying dividends and many others are growing their dividends at an accelerated rate. This is providing a new concept of growth, a concept of dividend growth that we believe conservative investors are coming to appreciate more and more fully.

THE VIEWS EXPRESSED THROUGHOUT THIS REPORT ARE THOSE OF THE PORTFOLIO MANAGERS AND ARE CURRENT ONLY THROUGH THE END OF THE PERIOD OF THE REPORT AS STATED ON THE COVER. THESE VIEWS ARE SUBJECT TO CHANGE AT ANY TIME BASED UPON MARKET OR OTHER CONDITIONS, AND THE INVESTMENT ADVISER DISCLAIMS ANY RESPONSIBILITY TO UPDATE SUCH VIEWS. THESE VIEWS MAY NOT BE RELIED ON AS INVESTMENT ADVICE AND, BECAUSE INVESTMENT DECISIONS FOR A FUND ARE BASED ON MANY FACTORS, MAY NOT BE RELIED ON AS AN INDICATION OF TRADING INTENT ON BEHALF OF ANY EATON VANCE FUND.

EATON VANCE TAX-ADVANTAGED GLOBAL DIVIDEND INCOME FUND as of December 31, 2004
 NOTES TO FINANCIAL STATEMENTS

1 SIGNIFICANT ACCOUNTING POLICIES

Eaton Vance Tax-Advantaged Global Dividend Income Fund (the Fund) is registered under the Investment Company Act of 1940 (the 1940 Act), as amended, as a diversified, closed-end management investment company. The Fund was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated November 14, 2003. The Fund's investment objective is to provide a high level of after-tax total return consisting primarily of tax-advantaged dividend income and capital appreciation. The Fund seeks to achieve its objective by investing primarily in dividend-paying common and preferred stocks. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with

accounting principles generally accepted in the United States of America.

A INVESTMENT VALUATION -- Securities listed on a U.S. securities exchange generally are valued at the last sale price on the day of valuation or, if no sales took place on such date, at the mean between the closing bid and asked prices on the exchange where such securities are principally traded. Equity securities listed on NASDAQ National Market System generally are valued at the official NASDAQ closing price. Unlisted or listed securities for which closing sales prices or closing quotations are not available are valued at the mean between the latest available bid and asked prices or, in the case of preferred equity securities that are not listed or traded in the over-the-counter market, by an independent pricing service. The value of preferred equity securities that are valued by a pricing service on a bond basis will be adjusted by an income factor, to be determined by the investment adviser, to reflect the next anticipated regular dividend. Exchange-traded options are valued at the last sale price for the day of valuation as quoted on the principal exchange or board of trade on which the options are traded or, in the absence of sales on such date, at the mean between the latest bid and asked prices. Futures positions on securities and currencies generally are valued at closing settlement prices. Short-term debt securities with a remaining maturity of 60 days or less are valued at amortized cost. If short-term debt securities were acquired with a remaining maturity of more than 60 days, their amortized cost value will be based on their value on the sixty-first day prior to maturity. Other fixed income and debt securities, including listed securities and securities for which price quotations are available, will normally be valued on the basis of valuations furnished by a pricing service. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rate quotations supplied by an independent quotation service. The daily valuation of foreign securities generally is determined as of the close of trading on the principal exchange on which such securities trade. Events occurring after the close of trading on foreign exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. When valuing foreign equity securities that meet certain criteria, the Trustees have approved the use of a fair value service that values such securities to reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or other instruments that have a strong correlation to the securities held by the Fund. Investments held by the Fund for which valuations or market quotations are unavailable are valued at fair value using methods determined in good faith by or at the direction of the Trustees of the Fund considering relevant factors, data and information including the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded.

B INCOME -- Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. However, if the ex-dividend date has passed, certain dividends from foreign securities are recorded as the Fund is informed of the ex-dividend date. Interest income is recorded on the accrual basis.

C FEDERAL TAXES -- The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary. At December 31, 2004, the Fund, for federal income tax purposes, had a capital loss carryover of \$55,381,517, which will reduce the Fund's taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Code, and thus will reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal income tax. Such capital loss carryover will expire on December 31, 2012.

D OFFERING COSTS -- Costs incurred by the Fund in connection with the offering of the common shares and preferred shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

E WRITTEN OPTIONS -- Upon the writing of a call or a put option, an amount equal to the premium received by the Fund is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value

13

of the option written in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option.

F PURCHASED OPTIONS -- Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Fund's policies on investment valuations discussed above. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If a Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

G SWAP AGREEMENTS -- The Fund may enter into swap agreements to hedge against fluctuations in securities prices, interest rates or market conditions, to change the duration of the overall portfolio, to mitigate non-payment or default risk, or to gain exposure to particular securities, baskets of securities, indices or currencies. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) to be exchanged or swapped between the parties, which returns are calculated with respect to a notional amount (i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate or in a "basket" of securities representing a particular index). The Fund will enter into swaps on a net basis. If the other party to a swap defaults, the Fund's risk of loss consists of the net amount of payments that the Fund is contractually entitled to receive. The Fund will not enter into any swap unless the claims-paying ability of the other party thereto is considered to be investment grade by the Adviser. These instruments are traded in the over-the-counter market. If the Adviser is incorrect in its forecasts of market values, interest rates and other applicable factors, the investment performance of the Fund would be unfavorably affected.

H FOREIGN CURRENCY TRANSLATION -- Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Purchases

and sales of foreign investment securities and income and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Recognized gains or losses on investment transactions attributable to foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

I USE OF ESTIMATES -- The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

J INDEMNIFICATIONS -- Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund and shareholders are indemnified against personal liability for obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

K OTHER -- Investment transactions are accounted for on a trade date basis. Realized gains and losses are computed on the specific identification of the securities sold.

L EXPENSE REDUCTION -- Investors Bank & Trust Company (IBT) serves as custodian of the Fund. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Fund maintains with IBT. All credit balances used to reduce the Fund's custodian fees are reported as a reduction of total expenses in the Statement of Operations. For the period from the start of business on January 30, 2004 to December 31, 2004, \$705 credit balances were used to reduce the Fund's custodian fee.

2 AUCTION PREFERRED SHARES

The Fund issued 4,000 shares of Auction Preferred Shares (APS) Series A, 4,000 shares of APS Series B, 4,000 shares of APS Series C, 4,000 shares of APS Series D, 4,000 shares of APS Series E, 4,000 shares of APS Series F and 6,000 shares of APS Series G on April 12, 2004 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends of the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset by an auction based on the dividend period of each Series. Rates are reset weekly for Series A and Series B, approximately monthly for Series E, approximately semi-annually for Series F, and annually for Series C, Series D, and Series G. The reset period for Series C and Series D was changed after the initial public offering for each such series. Dividends are generally paid on the day following the end of the dividend period for Series A, Series B, and Series E. Series C, Series D, Series F and Series G pay accumulated dividends on the first business day of each month and on the day following the end of the dividend period.

Dividend rate ranges for the period from the commencement of the offering,

April 12, 2004 to December 31, 2004 are as indicated below:

SERIES	DIVIDEND RATE RANGES
Series A	1.08% - 2.50%

The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect to the APS as defined in the Fund's By-Laws and the 1940 Act. The Fund pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

3 DISTRIBUTION TO SHAREHOLDERS

The Fund intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding Auction Preferred Shares. In addition, at least annually, the Fund intends to distribute net capital gain, if any. Distributions are recorded on the ex-dividend date. The applicable dividend rates for APS on December 31, 2004 are listed below. For the period from the commencement of the offering, the amount of dividends each Series paid to Auction Preferred shareholders and average APS dividend rates for such period were as follows:

- (1) For the period from the commencement of offering, April 12, 2004, to December 31, 2004.

The Fund distinguishes between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital.

The tax character of the distributions declared for the year ended December 31, 2004 was as follows:

DISTRIBUTIONS DECLARED FROM:

Ordinary income	\$	111,751,037
-----------------	----	-------------

During the year ended December 31, 2004, accumulated undistributed net investment income was decreased by \$1,036,069, and accumulated net realized loss was

15

decreased by \$1,036,069 primarily due to differences between book and tax treatment of foreign currency gains and losses. This change had no effect on the net assets or the net asset value per share.

As of December 31, 2004, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed income	\$	20,748,877
Capital loss carryforwards	\$	55,381,517
Unrealized gain	\$	257,899,404
Other temporary differences	\$	(17,159,743)

4 INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The investment adviser fee is earned by Eaton Vance Management (EVM), as compensation for management and investment advisory services rendered to the Fund. Under the advisory agreement, EVM receives a monthly advisory fee in the amount equal to 0.85% annually of average daily gross assets of the Fund. For the period from the start of business, January 30, 2004 to December 31, 2004, the advisory fee amounted to \$16,061,162. EVM serves as the administrator of the Fund, but currently receives no compensation for providing administrative services to the Fund.

In addition, the Adviser has contractually agreed to reimburse the Fund for fees and other expenses in the amount of 0.20% of the average daily gross assets for the first five years of the Fund's operations, 0.15% of average daily gross assets in year six, 0.10% in year seven and 0.05% in year eight. For the period from the start of business on January 30, 2004 to December 31, 2004 the Investment Adviser waived \$3,780,567 of its advisory fee. The Advisor has also agreed to reduce the investment adviser fee by an amount equal to that portion of commissions paid to broker dealers in execution of

8 RISKS ASSOCIATED WITH FOREIGN INVESTMENTS

Investing in securities issued by companies whose principal business activities are outside the United States may involve significant risks not present in domestic investments. For example, there is generally less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting

16

requirements of the U.S. securities laws. Foreign issuers are generally not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitation on the removal of funds or other assets of the Fund, political or financial instability or diplomatic and other developments which could affect such investments. Foreign stock markets, while growing in volume and sophistication, are generally not as developed as those in the United States, and securities of some foreign issuers (particularly those in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. In general, there is less overall governmental supervision and regulation of foreign securities markets, broker-dealers, and issuers than in the United States.

9 FINANCIAL INSTRUMENTS

The Fund may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include written options, forward foreign currency exchange contracts, and financial futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. The Fund did not have any open obligations under these financial instruments at December 31, 2004.

EATON VANCE TAX-ADVANTAGED GLOBAL DIVIDEND INCOME FUND as of December 31, 2004
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE TRUSTEES AND SHAREHOLDERS OF EATON VANCE TAX-ADVANTAGED GLOBAL DIVIDEND
INCOME FUND:

We have audited the accompanying statement of assets and liabilities of Eaton Vance Tax-Advantaged Global Dividend Income Fund (the "Fund") including the portfolio of investments as of December 31, 2004, and the related statements of operations, changes in net assets, and the financial highlights for the period from January 30, 2004 (commencement of operations), to December 31, 2004. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2004, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Eaton Vance Tax-Advantaged Global Dividend Income Fund at December 31, 2004, the results of its operations, the changes in its net assets and the financial highlights from the period January 30, 2004 (commencement of operations), to December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

EATON VANCE TAX-ADVANTAGED GLOBAL DIVIDEND INCOME FUND DIVIDEND REINVESTMENT PLAN

The Fund offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have dividends and capital gains distributions automatically reinvested in common shares (the Shares) of the Fund. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as a dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Fund's transfer agent, PFPC, Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Fund. Each participant will be charged their pro rata share of broker age commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC, Inc.,

ITEM 6. SCHEDULE OF INVESTMENTS

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the "Fund Policy"), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the "Policies") which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board of the Fund except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally

support company management on proposals relating to environmental and social policy issues and on matters regarding the state of organization of the company. On all other matters, the investment adviser will take management's proposals under advisement but will consider each matter in light of the guidelines set forth in the Policies. Except in the instance of routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders (on which the investment adviser will routinely vote with management), the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies

guidelines when it believes the situation warrants such a deviation. The Policy includes voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the investment adviser's general counsel or chief equity investment officer. The general counsel or chief equity investment officer will determine if a conflict exists. If a conflict does exist, the proxy will either be voted strictly in accordance with the Policy or the investment adviser will seek instruction on how to vote from the Board.

Effective August 31, 2004, information on how the Fund voted proxies relating to portfolio securities during the 12 month period ended June 30, 2004 is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Shareholders shall be directed to

address any such recommendations IN WRITING to the attention of the Governance Committee, c/o the Secretary of the Fund. THE SECRETARY SHALL RETAIN COPIES OF ANY SHAREHOLDER RECOMMENDATIONS WHICH MEET THE FOREGOING REQUIREMENTS FOR A PERIOD OF NOT MORE THAN 12 MONTHS FOLLOWING RECEIPT. THE SECRETARY SHALL HAVE NO OBLIGATION TO ACKNOWLEDGE RECEIPT OF ANY SHAREHOLDER RECOMMENDATIONS

ITEM 10. CONTROLS AND PROCEDURES

(a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information
