ABOUT THIS PROSPECTUS SUPPLEMENT

This document has two parts, a prospectus supplement and an accompanying prospectus dated March 28, 2011. This prospectus supplement and the accompanying prospectus are part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission, or the "Commission," utilizing a "shelf" registration process. Under this shelf registration process, the selling stockholders named in a prospectus supplement over time may offer and sell our common stock in one or more offerings or resales. The accompanying prospectus provides you with a general description of our common stock, which the selling stockholders may offer pursuant to this prospectus supplement. This prospectus supplement, which describes certain matters relating to us and the specific terms of this offering of shares of our common stock, adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference herein. Any statement that we make in the accompanying prospectus will be modified or superseded by any inconsistent statement made by us in this prospectus supplement.

The rules of the Commission allow us to incorporate by reference information into this prospectus supplement. This information incorporated by reference is considered to be a part of this prospectus supplement, and information that we file later with the Commission, to the extent incorporated by reference, will automatically update and supersede this information. See "Incorporation by Reference." You should read both this prospectus supplement and the accompanying prospectus together with the additional information described under the headings "Incorporation by Reference" in this prospectus

supplement and "Where You Can Find Additional Information" in the accompanying prospectus before investing in our common stock.

We have not authorized anyone to give you any information or to make any representations about our common stock or any offers by our selling stockholders other than those contained in this prospectus supplement, the accompanying prospectus, or any free writing prospectus prepared by us or any other information to which we have expressly referred you. If you are given any information or representation about these matters that is not discussed in this prospectus supplement or the accompanying prospectus, you must not rely on that information. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell anywhere or to anyone where or to whom we are not permitted to offer to sell securities under applicable law.

You should not assume that the information incorporated by reference or provided in this prospectus supplement or the accompanying prospectus or any free writing prospectus prepared by us is accurate as of any date other than the date on the front cover of those documents. Our business, financial condition, results of operations and prospects may have changed since that date.

Unless the context otherwise requires, in this prospectus supplement, (i) "Hertz Holdings" means Hertz Global Holdings, Inc., our top-level holding company, (ii) "Hertz" means The Hertz Corporation, our primary operating company and a direct wholly-owned subsidiary of Hertz Investors, Inc., which is wholly-owned by Hertz Holdings, (iii) "we," "us" and "our" mean Hertz Holdings and its consolidated subsidiaries, including Hertz, (iv) "HERC" means Hertz Equipment Rental Corporation, Hertz's wholly-owned equipment rental subsidiary, together with our various other wholly-owned international subsidiaries that conduct our industrial, construction and material handling equipment rental business, (v) "cars" means cars, crossovers and light trucks (including sport utility vehicles and, outside North America, light commercial vehicles), (vi) "program cars" means cars purchased by car rental companies under repurchase or guaranteed depreciation programs with car manufacturers, (vii) "non-program cars" mean cars not purchased under repurchase or guaranteed depreciation programs for which the car rental company is exposed to residual risk and (viii) "equipment" means industrial, construction and material handling equipment.

Hertz Holdings was incorporated in Delaware in 2005 to serve as the top-level holding company for the consolidated Hertz business. Hertz was incorporated in Delaware in 1967. Hertz is a successor to corporations that have been engaged in the car and truck rental and leasing business since 1918 and the equipment rental business since 1965. Ford Motor Company acquired an ownership interest in Hertz in 1987. Prior to this, Hertz was a subsidiary of United Continental Holdings, Inc. (formerly Allegis Corporation), which acquired Hertz's outstanding capital stock from RCA Corporation in 1985.

On December 21, 2005, investment funds associated with or designated by:

Clayton, Dubilier & Rice, Inc., which was succeeded by Clayton, Dubilier & Rice, LLC, or "CD&R,"

The Carlyle Group, or "Carlyle," and

Merrill Lynch & Co., Inc., or "Merrill Lynch,"

acquired all of Hertz's common stock from Ford Holdings LLC. In January 2009, Bank of America Corporation, or "Bank of America," acquired Merrill Lynch. Accordingly, Bank of America is now an indirect beneficial owner of our common stock held by Merrill Lynch and certain other investment funds and affiliates of Merrill Lynch. We refer to CD&R, Carlyle and Merrill Lynch collectively as the "Sponsors." We refer to the acquisition of all of Hertz's common stock by the Sponsors as the "Acquisition."

After giving effect to our initial public offering in November 2006 and subsequent offerings, the Sponsors' holdings represent approximately 38% of the outstanding shares of common stock of Hertz Holdings on an undiluted basis as of November 30, 2012.

PROSPECTUS SUPPLEMENT SUMMARY

The following summary does not contain all the information that may be important to purchasers of our common stock. You should carefully read the entire prospectus supplement, including the "Risk Factors" section, the accompanying prospectus and other information incorporated by reference in this prospectus supplement before making any investment decision.

Our Company

Hertz operates its car rental business through the Hertz, Dollar and Thrifty brands from approximately 10,400 corporate, licensee and franchisee locations in North America, Europe, Latin America, Asia, Australia, Africa, the Middle East and New Zealand. Hertz is the largest worldwide airport general use car rental brand, operating from approximately 8,800 corporate and licensee locations in approximately 150 countries. Our Dollar and Thrifty brands have approximately 1,580 corporate and franchisee locations in approximately 80 countries. Our Hertz brand name is one of the most recognized in the world, signifying leadership in quality rental services and products. We are one of the only car rental companies that has an extensive network of company-operated rental locations both in the United States and in all major European markets. We believe that we maintain the leading airport car rental brand market share, by overall reported revenues, in the United States and at 111 major airports in Europe where we have company-operated locations and where data regarding car rental concessionaire activity is available. We believe that we also maintain the second largest market share, by revenues, in the off-airport car rental market in the United States. In our equipment rental business segment, we rent equipment through approximately 340 branches in the United States, Canada, France, Spain, China and Saudi Arabia, as well as through our international licensees. We and our predecessors have been in the car rental business since 1918 and in the equipment rental business since 1965. We also own Donlen Corporation, based in Northbrook, Illinois, which is a leader in providing fleet leasing and management services. We have a diversified revenue base and a highly variable cost structure and are able to dynamically manage fleet capacity, the most significant determinant of our costs. Our revenues have grown at a compound annual growth rate of 5.2% over the last 20 years, with year-over-year growth in 17 of those 20 years. For the year ended December 31, 2011 and the nine months ended September 30, 2012, we had total revenues of approximately \$8.3 billion and \$6.7 billion, respectively. We completed the acquisition of Dollar Thrifty on November 19, 2012. For the year ended December 31, 2011 and the nine months ended September 30, 2012, Dollar Thrifty had total revenues of approximately \$1.5 billion and \$1.2 billion, respectively.

Our Business Segments

Our business consists of two reportable segments: rental and leasing of cars, crossovers and light trucks, or "car rental," and rental of industrial, construction and material handling equipment, or "equipment rental."

Car Rental: Our "company-operated" rental locations are those through which we, or an agent of ours, rent cars that we own or lease. We maintain a substantial network of company-operated car rental locations both in the United States and internationally, and what we believe to be the largest number of company-operated airport car rental locations in the world, enabling us to provide consistent quality and service worldwide. Our licensees, franchisees and associates also operate rental locations in over 140 countries and jurisdictions, including most of the countries in which we have company-operated rental locations.

Equipment Rental: We believe, based on an article in Rental Equipment Register published in May 2012, that HERC is one of the largest equipment rental companies in the United States and Canada combined. HERC rents a broad range of earthmoving equipment, material handling equipment, aerial and electrical equipment, air compressors, generators, pumps, small tools, compaction

Table of Contents

equipment and construction-related trucks. HERC also derives revenues from the sale of new equipment and consumables, as well as through its Hertz Entertainment Services division.

Our Markets

We are engaged principally in the global car rental industry and in the equipment rental industry.

Worldwide Car Rental

We believe that the global car rental industry exceeds \$35 billion in annual revenues. According to Auto Rental News, car rental industry revenues in the United States are estimated to be approximately \$22 billion for 2011 and grew in 2011 by 8.8%. We believe car rental revenues in Europe account for approximately \$13 billion in annual revenues, with the airport portion of the industry comprising approximately 37% of the total. Within Europe, the largest markets are Germany, France, Spain, Italy and the United Kingdom. We believe total rental revenues for the car rental industry in Europe in 2011 were approximately \$10.6 billion in 10 countries: France, Italy, the United Kingdom, Germany, Spain, The Netherlands, Belgium, the Czech Republic, the Slovak Republic and Luxembourg, where we have company-operated rental locations and approximately \$2.6 billion in 11 other countries: Ireland, Portugal, Sweden, Greece, Austria, Denmark, Poland, Finland, Hungary, Malta and Romania, where our brand is present through our licensees.

We estimate that rentals by airline travelers at or near airports, or "airport rentals," will account for approximately one-half of the total market in the United States in 2012. This portion of the market is significantly influenced by developments in the travel industry and particularly in airline passenger traffic, or "enplanements," as well as the Gross Domestic Product, or "GDP." We believe domestic enplanements in 2012 will approximate 2011 levels, however, we expect it to increase by 1.8% in 2013. Current data suggests that U.S. GDP increased in the third quarter of 2012 at an annual rate of approximately 2.7%. The International Air Transport Association, or "IATA," projected in September 2012 that annual global enplanements would increase by 4.5% in 2013.

The off-airport portion of the industry has rental volume primarily driven by local business use, leisure travel and the replacement of cars being repaired. Because Europe has generally demonstrated a lower historical reliance on air travel, the European off-airport car rental market is significantly more developed than it is in the United States. However, we believe that in recent years, industry revenues from off-airport car rentals in the United States have grown faster than revenues from airport rentals.

We provide commercial fleet leasing and management services to national corporate customers throughout the U.S. and Canada through Donlen Corporation, or "Donlen," a wholly owned subsidiary. Donlen is a fully integrated fleet management services provider with a comprehensive suite of product offerings ranging from leasing and managing vehicle fleets to providing other fleet management services to reduce fleet operating costs.

Worldwide Equipment Rental

We estimate the size of the U.S. equipment rental industry, which is highly fragmented with few national competitors and many regional and local operators, increased from approximately \$28 billion in annual revenues for 2011 to approximately \$31 billion in annual revenues for 2012, but the part of the rental industry dealing with equipment of the type HERC rents is somewhat smaller than that. We believe that the industry is expected to grow at a 12.8% compound annual growth rate between 2013 and 2016. Other market data indicates that the equipment rental industries in France, Spain and China generate approximately \$4.5 billion, \$2.5 billion and \$5.1 billion in annual revenues, respectively, although the portions of those markets in which HERC competes are smaller.

The equipment rental industry serves a broad range of customers from small local contractors to large industrial national accounts and encompasses a wide range of rental equipment from small tools

Table of Contents

to heavy earthmoving equipment. We believe U.S. non-residential construction spending will decline at an annual rate of approximately 10% in 2012 but is projected to increase at an annual rate of 5% in 2013. We also believe that rental equipment will account for approximately 50% of all equipment sold into the U.S. construction industry in 2012, up from approximately 5% in 1993. In addition, we believe that the trend toward rental instead of ownership of equipment in the U.S. construction industry will continue and that as much as 50% of the equipment used in the industry could be rental equipment by 2015.

Recent Developments

Acquisition of Dollar Thrifty

On November 19, 2012, Hertz Holdings completed its acquisition of Dollar Thrifty pursuant to the terms of the Agreement and Plan of Merger, dated as of August 26, 2012 (the "Merger Agreement"), with Dollar Thrifty and HDTMS, Inc. ("Merger Sub"), a wholly-owned subsidiary of Hertz. In accordance with the terms of the Merger Agreement, Merger Sub completed a tender offer in which it purchased a majority of the shares of Dollar Thrifty common stock then outstanding at a price equal to \$87.50 per share in cash. Merger Sub subsequently acquired the remaining shares of Dollar Thrifty common stock by means of a short-form merger in which such shares were converted into the right to receive the same \$87.50 per share in cash paid in the tender offer. After taking into account Hertz Holdings' use of approximately \$400 million of cash and cash equivalents available from Dollar Thrifty, the purchase price for Dollar Thrifty's common stock was approximately \$2.1 billion. As a condition of the Merger Agreement, and pursuant to a divestiture agreement reached with the Federal Trade Commission, Hertz is required to (i) divest its Simply Wheelz subsidiary, which owns and operates the Advantage brand, (ii) secure for the buyer of Advantage, Adreca Holdings, Corp., a subsidiary of Macquarie Capital which is expected to be operated by Franchise Services of North America Inc. (the "Advantage Buyer"), certain on-airport car rental concessions, and (iii) secure for the Advantage Buyer or, in certain cases, one or more other Federal Trade Commission-approved buyers, certain additional on-airport car rental concessions. Dollar Thrifty is now a wholly-owned subsidiary of Hertz.

As of September 30, 2012, Dollar Thrifty had approximately 280 corporate locations in the United States and Canada, with approximately 5,900 employees located mainly in North America. In addition to its corporate operations, Dollar Thrifty had approximately 1,300 franchise locations in 82 countries. For the year ended December 31, 2011 and the nine months ended September 30, 2012, Dollar Thrifty had total revenues of approximately \$1.5 billion and \$1.2 billion, respectively.

On a pro forma basis after giving effect to (i) the acquisition of Donlen by Hertz in September 2011, (ii) the acquisition of Dollar Thrifty, (iii) the proposed sale of Advantage, certain Dollar Thrifty assets and certain on-airport car rental concessions to the Advantage Buyer, (iv) the proposed divestiture of certain additional on-airport car rental concessions to the Advantage Buyer or, in certain cases, one or more other Federal Trade Commission-approved buyers, and (v) the issuance of \$700 million of 2020 Notes (as defined below) and \$500 million of 2022 Notes (as defined below), and the incurrence of \$750 million in Incremental Term Loans (as defined below) to fund the acquisition of Dollar Thrifty, in each case, as if they had occurred on January 1, 2011, our estimated pro forma total combined revenues, combined net income and combined diluted earnings per share for the year ended December 31, 2011 would have been approximately \$9.8 billion, \$349.8 million and \$0.79 per share, respectively, and our estimated pro forma total combined revenues, combined net income and combined diluted earnings per share for the nine months ended September 30, 2012 would have been approximately \$7.7 billion, \$361.5 million and \$0.81 per share, respectively. On a pro forma basis after giving effect to (i) the acquisition of Dollar Thrifty, (ii) the proposed sale of Advantage, certain Dollar Thrifty assets and certain on-airport car rental concessions to the Advantage Buyer, (iii) the proposed divestiture of certain additional on-airport car rental concessions to the Advantage Buyer or, in certain cases, one or more other Federal Trade Commission-approved buyers, and (iv) the issuance of

Table of Contents

\$700 million of 2020 Notes and \$500 million of 2022 Notes, and the incurrence of \$750 million in Incremental Term Loans to fund the acquisition of Dollar Thrifty, in each case, as if they had occurred on September 30, 2012, our estimated pro forma total combined assets and total combined outstanding debt as of September 30, 2012 would have been approximately \$23.8 billion and \$16.2 billion, respectively.

The pro forma financial information above has been prepared using guidance in Article 11 of Regulation S-X under the Securities Exchange Act of 1934, as amended, and reflects the acquisition method of accounting under accounting principles generally accepted in the United States, and is subject to change and interpretation. Acquisition accounting is dependent upon certain valuations and other studies that have not yet begun or are not yet completed at the time of the preparation of this prospectus supplement. It is likely that the actual adjustments reflected in the final acquisition accounting, which will consider additional information as it becomes available, will differ from the pro forma adjustments used to prepare the pro forma financial information presented above and such differences could have a material impact on the pro forma financial information. The pro forma financial information also does not give effect to certain one-time charges that Hertz Holdings and Dollar Thrifty incurred or will incur in connection with the acquisition of Dollar Thrifty. Accordingly, the pro forma financial information set forth above has been presented for informational purposes only. The pro forma financial information is not necessarily indicative of what the combined company's financial position or results of operations actually would have been had the applicable transactions been completed as of the dates indicated. In addition, the pro forma financial information does not purport to project the future financial position or operating results of the combined company.

We derived the following information from Dollar Thrifty's audited consolidated financial statements as of and for the fiscal year ended December 31, 2011, and unaudited consolidated financial statements as of September 30, 2012 and for the nine months ended September 30, 2012. The summary consolidated statements of operations data for the nine months ended September 30, 2012, and the consolidated balance sheet data as of September 30, 2012, are unaudited but include, in the opinion of Dollar Thrifty's management, all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of such data. Results for the nine months ended September 30, 2012 are not necessarily indicative of the results that may be expected for any other interim periods or for the year as a whole.

Issuance of the 2020 Notes and the 2022 Notes

On October 16, 2012, HDTFS, Inc., a wholly owned subsidiary of Hertz (the "Escrow Issuer"), issued \$700 million in aggregate principal amount of 5.875% Senior Notes due 2020 (the "2020 Notes") and \$500 million in aggregate principal amount of 6.250% Senior Notes due 2022 (the "2022 Notes"), each in a private offering exempt from the registration requirements of the Securities Act of 1933, as amended. The proceeds from this issuance were placed in escrow pending consummation of the acquisition of Dollar Thrifty. Contemporaneously with the consummation of the acquisition of Dollar Thrifty, the proceeds from the issuance were released from escrow, the Escrow Issuer merged with and into Hertz, with Hertz continuing as the surviving entity, and Hertz assumed the Escrow Issuer's obligations under the 2020 Notes and the 2022 Notes. The proceeds of this issuance were used to: (i) finance a portion of the consideration in connection with the acquisition of Dollar Thrifty, (ii) pay off existing indebtedness and other obligations of Dollar Thrifty and its subsidiaries in connection with the acquisition of Dollar Thrifty and (iii) pay fees and other transaction expenses in connection with the acquisition of Dollar Thrifty and related financing transactions.

Incremental Term Loans

On October 9, 2012, Hertz entered into an Incremental Commitment Amendment to its March 2011 credit agreement, which had provided for a \$1,400.0 million secured term loan facility (the "Senior Term Facility"). The Incremental Commitment Amendment increased the amount available under the Senior Term Facility by providing for commitments for an additional \$750.0 million of incremental terms loans (the "Incremental Term Loans") under the Senior Term Facility. The Incremental Term Loans are secured by the same collateral and guaranteed by the same guarantors as the existing term loans under the Senior Term Facility. The Incremental Term Loans will, like the existing term loans under the Senior Term Facility, mature on March 11, 2018 and the interest rate per annum applicable thereto is the same as such existing term loans. Contemporaneously with the consummation of the acquisition of Dollar Thrifty, the Incremental Term Loans were fully drawn and the proceeds therefrom were used to: (i) finance a portion of the consideration in connection with the acquisition of Dollar Thrifty, (ii) pay off existing indebtedness and other obligations of Dollar Thrifty and its subsidiaries in connection with the acquisition of Dollar Thrifty and (iii) pay fees and other transaction expenses in connection with the acquisition of Dollar Thrifty and related financing transactions.

This offering will result in a substantial amount of previously unregistered shares of our common stock being registered, which may depress the market price of our common stock.

Of the 421,108,282 shares of our common stock issued and outstanding as of November 30, 2012, approximately 38% were held by the Sponsors. The remainder of our shares of issued and outstanding common stock are freely tradable on the New York Stock Exchange without restriction or further registration under the Securities Act of 1933, as amended (the "Securities Act"), unless purchased by our "affiliates" as that term is defined in Rule 144 under the Securities Act. The shares of common

stock being sold in this offering were not freely tradable on the New York Stock Exchange prior to the completion of this offering and the sale by the selling stockholders of the shares of common stock in this offering will increase the number of shares of our common stock eligible to be traded on the New York Stock Exchange, which could depress the market price of our common stock.

Sales of substantial amounts of our common stock, or the possibility of such sales, may adversely affect the price of our common stock.

As of November 30, 2012, there were 421,108,282 shares of our common stock issued and outstanding, of which the 242,885,000 shares sold in registered offerings prior to this offering and the 50,000,000 shares to be sold in this offering will be freely transferable without restriction or further registration under the Securities Act, unless acquired by our "affiliates" as that term is defined in Rule 144 under the Securities Act. In addition, all shares of common stock acquired upon exercise of stock options and other equity-based awards granted under our stock incentive plans will also be freely tradable under the Securities Act unless acquired by our affiliates. A total of 32.7 million shares of common stock are reserved for issuance under our stock incentive plans, some of which have been issued as of the date of this prospectus supplement. The remaining shares of common stock outstanding will be "restricted securities" within the meaning of Rule 144 under the Securities Act, but will be eligible for resale subject to applicable volume, manner of sale, holding period and other limitations of Rule 144 or pursuant to an exemption from registration under Rule 701 under the Securities Act.

In addition, as of September 30, 2012, approximately \$474.7 million in aggregate principal amount of our 5.25% Convertible Senior Notes due 2014 (the "Convertible Notes") were outstanding. The Convertible Notes are currently convertible into shares of our common stock and will continue to be convertible until December 31, 2012, and may be convertible thereafter, if one or more of the conversion conditions specified in the related indenture is satisfied during future measurement periods. Any shares of our common stock issued upon conversion of the Convertible Notes will also be freely tradable under the Securities Act unless acquired by our affiliates.

We and each of the funds associated with or designated by the Sponsors that currently owns shares of our common stock have agreed to a "lock-up," meaning that, subject to certain exceptions, neither we nor they will sell any shares without the prior consent of J.P. Morgan before January 25, 2013. Following the expiration of this 45-day lock-up period, all of these shares of our common stock will be eligible for future sale, subject to the applicable volume, manner of sale, holding period and other limitations of Rule 144. In addition, the Sponsors have the right under certain circumstances to require that we register their remaining shares for resale. As of December 10, 2012, these registration rights apply to the approximately 110 million shares of our outstanding common stock owned by the investment funds affiliated with or designated by the Sponsors that are not being sold in this offering. See the section entitled "Description of Capital Stock Registration Rights Agreement" in the accompanying prospectus for a description of the shares of common stock that may be sold into the public market in the future.

Our certificate of incorporation, by-laws and Delaware law may discourage takeovers and business combinations that our stockholders might consider in their best interests.

A number of provisions in our certificate of incorporation and by-laws, as well as anti-takeover provisions of Delaware law, may have the effect of delaying, deterring, preventing or rendering more difficult a change in control of Hertz Holdings that our stockholders might consider in their best interests. These provisions include:

establishment of a classified board of directors, with staggered terms;

Table of Contents

granting to the board of directors sole power to set the number of directors and to fill any vacancy on the board of directors, whether such vacancy occurs as a result of an increase in the number of directors or otherwise;

limitations on the ability of stockholders to remove directors;

the ability of our board of directors to designate and issue one or more series of preferred stock without stockholder approval, the terms of which may be determined at the sole discretion of the board of directors;

prohibition on stockholders from calling special meetings of stockholders;

establishment of advance notice requirements for stockholder proposals and nominations for election to the board of directors at stockholder meetings; and

prohibiting our stockholders from acting by written consent at times when investment funds affiliated with or designated by the Sponsors do not collectively hold a majority of our outstanding common stock (as is currently the case).

These provisions may prevent our stockholders from receiving the benefit from any premium to the market price of our common stock offered by a bidder in a takeover context. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our common stock if they are viewed as discouraging takeover attempts in the future.

Our certificate of incorporation and by-laws may also make it difficult for stockholders to replace or remove our management. These provisions may delay, deter, render more difficult or prevent a change in our control, which may not be in the best interests of our stockholders.

See "Description of Capital Stock" in the accompanying prospectus for additional information on the anti-takeover measures applicable to us.

Table of Contents**SELLING STOCKHOLDERS**

The following table sets forth information as of November 30, 2012 with respect to the beneficial ownership of the common stock of Hertz Holdings by the selling stockholders. The selling stockholders may under certain circumstances be deemed to be underwriters within the meaning of the Securities Act. The selling stockholders are selling all of the shares in this offering.

The amounts and percentages of shares beneficially owned are reported on the basis of Commission regulations governing the determination of beneficial ownership of securities. Under Commission rules, a person is deemed to be a "beneficial owner" of a security if that person has or shares voting power or investment power, which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has a right to acquire beneficial ownership within 60 days. Securities that can be so acquired are deemed to be outstanding for purposes of computing such person's ownership percentage, but not for purposes of computing any other person's percentage. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities and a person may be deemed to be a beneficial owner of securities as to which such person has no economic interest.

Except as otherwise indicated in the footnotes to this table, each of the beneficial owners listed has, to our knowledge, sole voting and investment power with respect to the indicated shares of common stock.

FOR NON-U.S. HOLDERS**

The following discussion is a summary of the material U.S. federal income and estate tax consequences of the acquisition, ownership and disposition of our common stock by a non-U.S. holder. As used in this summary, the term "non-U.S. holder" means a beneficial owner of our common stock that is not, for U.S. federal income tax purposes:

an individual who is a citizen or resident of the U.S.;

a corporation (or other entity taxable as a corporation) created or organized in or under the laws of the U.S. or of any political subdivision of the U.S.;

an estate whose income is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust, if (1) a U.S. court is able to exercise primary supervision over the trust's administration and one or more U.S. persons (within the meaning of the U.S. Internal Revenue Code of 1986, as amended (the "Code")) have the authority to control all of the trust's substantial decisions, or (2) the trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership or other pass-through entity (including an entity or arrangement treated as a partnership or other type of pass-through entity for U.S. federal income tax purposes) owns our common stock, the tax treatment of a partner or beneficial owner of the partnership or other pass-through entity may depend upon the status of the partner or beneficial owner, the activities of the partnership or other pass-through entity and certain determinations made at the partner or beneficial owner level. Partners and beneficial owners in partnerships or other pass-through entities that own our common stock should consult their tax advisors as to the particular U.S. federal income and estate tax consequences applicable to them.

This summary does not discuss all of the aspects of U.S. federal income and estate taxation that may be relevant to a non-U.S. holder in light of the non-U.S. holder's particular investment or other circumstances. In addition, this summary only applies to a non-U.S. holder that purchases our common stock in this offering and holds our common stock as a capital asset (generally, investment property). The discussion does not address:

special U.S. federal income tax rules that may apply to particular non-U.S. holders, such as financial institutions, insurance companies, tax-exempt organizations, and dealers and traders in stocks, securities or currencies;

non-U.S. holders holding our common stock as part of a conversion, constructive sale, wash sale or other integrated transaction or a hedge, straddle or synthetic security;

any U.S. state and local or non-U.S. income or other tax consequences;

the U.S. federal income or estate tax consequences for the beneficial owners of a non-U.S. holder; or

former citizens or residents of the U.S. subject to taxation as an expatriate.

This summary is based on provisions of the Code, applicable U.S. Treasury regulations and administrative and judicial interpretations, all as in effect or in existence on the date of this prospectus supplement. Subsequent developments in U.S. federal income or estate tax law, including changes in law or differing interpretations, which may be applied retroactively, could have a material effect on the U.S. federal income and estate tax consequences of purchasing, owning and disposing of our common stock as set forth in this summary. **Each non-U.S. holder**

should consult a tax advisor regarding the

U.S. federal, state, local and non-U.S. income and other tax consequences of acquiring, holding and disposing of our common stock.

Dividends

We do not intend to pay any cash distributions for the foreseeable future. See "Dividend Policy." If distributions are paid by us in respect of our common stock to non-U.S. holders, such distribution will constitute a dividend for U.S. federal income tax purposes to the extent the distribution is paid out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles.

In the event that we pay dividends on our common stock that are not effectively connected with a non-U.S. holder's conduct of a trade or business in the U.S., a U.S. federal withholding tax at a rate of 30%, or a lower rate under an applicable income tax treaty, will be withheld from the gross amount of the dividends paid to such non-U.S. holder. Non-U.S. holders should consult their own tax advisors regarding their entitlement to benefits under a relevant income tax treaty.

In order to claim the benefit of an applicable income tax treaty, a non-U.S. holder will be required to provide a properly executed U.S. Internal Revenue Service Form W-8BEN (or other applicable form) in accordance with the applicable certification and disclosure requirements. Special rules apply to partnerships and other pass-through entities and these certification and disclosure requirements also may apply to beneficial owners of partnerships and other pass-through entities that hold our common stock. A non-U.S. holder that is eligible for a reduced rate of U.S. federal withholding tax under an income tax treaty may generally obtain a refund of any excess amounts withheld by timely filing an appropriate claim for a refund with the U.S. Internal Revenue Service. Non-U.S. holders should consult their own tax advisors regarding their entitlement to benefits under a relevant income tax treaty and the manner of claiming the benefits.

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business in the U.S. and, if required by an applicable income tax treaty, are attributable to a permanent establishment maintained by the non-U.S. holder in the U.S., will generally be taxed on a net income basis at the regular graduated rates and in the manner applicable to U.S. persons. In that case, the U.S. federal withholding tax discussed above will not apply if the non-U.S. holder provides a properly executed U.S. Internal Revenue Service Form W-8ECI (or other applicable form) in accordance with the applicable certification and disclosure requirements. In addition, a "branch profits tax" may be imposed at a 30% rate, or a lower rate under an applicable income tax treaty, on dividends received by a foreign corporation that are effectively connected with the conduct of a trade or business in the U.S.

In general, distributions to a non-U.S. holder in excess of our current and accumulated earnings and profits will not be subject to U.S. federal income or withholding tax to the extent the amounts paid do not exceed the non-U.S. holder's adjusted basis in the shares of our common stock with respect to which the distributions are made. Such distributions will reduce the non-U.S. holder's adjusted basis in the applicable shares of common stock (but not below zero).

Distributions to a non-U.S. holder in excess of our current and accumulated earnings and profits will generally be treated in the same manner as gain described below in "Gain on Disposition of Our Common Stock" to the extent the amounts paid exceed the non-U.S. holder's adjusted basis in the shares of our common stock with respect to which the distributions are made.

Table of Contents

Gain on Disposition of Our Common Stock

A non-U.S. holder generally will not be taxed on any gain recognized on a disposition of our common stock unless:

the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the U.S. and, if required by an applicable income tax treaty, is attributable to a permanent establishment maintained by the non-U.S. holder in the U.S. In such cases, the gain will be capital gain subject to U.S. federal income tax (but not withholding tax) on a net basis at the rates applicable to U.S. persons (unless an applicable income tax treaty provides otherwise) and, if the non-U.S. holder is a foreign corporation, the "branch profits tax" described above may also apply;

the non-U.S. holder is an individual who holds our common stock as a capital asset, is present in the U.S. for more than 182 days in the taxable year of the disposition and meets other requirements (in which case, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by U.S. source capital losses recognized in the same taxable year, generally will be subject to a flat 30% U.S. federal income tax, even though the non-U.S. holder is not considered a resident alien under the Code); or

we are or have been a "U.S. real property holding corporation" for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the non-U.S. holder held our common stock.

Generally, a corporation is a "U.S. real property holding corporation" if the fair market value of its "U.S. real property interests" equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus its other assets used or held for use in a trade or business. The tax relating to stock in a U.S. real property holding corporation generally will not apply to a non-U.S. holder whose holdings, direct and indirect, at all times during the applicable period, constituted 5% or less of our common stock, provided that our common stock was regularly traded on an established securities market. We believe that we are not currently, and we do not anticipate becoming in the future, a U.S. real property holding corporation.

Federal Estate Tax

Our common stock that is owned or treated as owned by an individual who is not a U.S. citizen or resident of the U.S. (as specially defined for U.S. federal estate tax purposes) at the time of death will be included in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax or other treaty provides otherwise and, therefore, may be subject to U.S. federal estate tax.

Information Reporting and Backup Withholding

Dividends paid to a non-U.S. holder may be subject to U.S. information reporting and backup withholding. A non-U.S. holder will be exempt from backup withholding if the non-U.S. holder provides a properly executed U.S. Internal Revenue Service Form W-8BEN or otherwise meets documentary evidence requirements for establishing its status as a non-U.S. holder or otherwise establishes an exemption.

The gross proceeds from the disposition of our common stock may be subject to U.S. information reporting and backup withholding. If a non-U.S. holder sells our common stock outside the U.S. through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to the non-U.S. holder outside the U.S., then the U.S. backup withholding and information reporting requirements generally will not apply to that payment. However, U.S. information reporting, but not U.S. backup withholding, may apply to a payment of sales proceeds, even if that payment is made outside the U.S., if a non-U.S. holder sells our common stock through a non-U.S. office of a broker that is a U.S. person or has

Table of Contents

certain enumerated connections with the U.S., unless the broker has documentary evidence in its files that the non-U.S. holder is not a U.S. person and certain other conditions are met or the non-U.S. holder otherwise establishes an exemption.

If a non-U.S. holder receives payments of the proceeds of a sale of our common stock to or through a U.S. office of a broker, the payment is subject to both U.S. backup withholding and information reporting unless the non-U.S. holder provides a properly executed U.S. Internal Revenue Service Form W-8BEN certifying that the non-U.S. holder is not a U.S. person or the non-U.S. holder otherwise establishes an exemption. The amount of any backup withholding from a payment to a non-U.S. holder will be allowed as a credit against the non-U.S. holder's U.S. federal income tax liability and may entitle the non-U.S. holder to a refund, provided that the required information is timely furnished to the Internal Revenue Service.

Recent Withholding Legislation

The Foreign Account Tax Compliance Act imposes additional withholding requirements on certain types of payments made to certain non-U.S. entities. If applicable, withholding generally applies to payments of dividends after December 31, 2013, and payments of gross disposition proceeds from the sale of common stock after December 31, 2016. Under this legislation, the failure to comply with certification, information reporting and other specified requirements (that are different from, and in addition to, the certification requirements described above) could result in a 30% withholding tax being imposed on payments of dividends on, and sales proceeds of, U.S. common stock to certain non-U.S. holders. The requirements can be onerous if a non-U.S. holder is a foreign financial institution, and may include entering into an agreement with the IRS to provide certain information and to withhold on certain payments that such foreign financial institution makes.

Investors are encouraged to consult with their tax advisors regarding the possible implications of this legislation on their investment in our common stock.

UNDERWRITING

Hertz Holdings, the selling stockholders and J.P. Morgan Securities LLC (the "underwriter") have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, the underwriter has agreed to purchase an aggregate of 50,000,000 shares of our common stock.

The underwriter is committed to take and pay for all of the shares being offered, if any are taken.

The underwriter proposes to offer the shares of common stock from time to time for sale in one or more transactions on the New York Stock Exchange, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by it and subject to its right to reject any order in whole or in part. In connection with the sale of the shares of common stock offered hereby, the underwriter may be deemed to have received compensation in the form of underwriting discounts. The underwriter may effect such transactions by selling shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and/or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principal.

Hertz Holdings and the selling stockholders have agreed with the underwriter, subject to certain exceptions, not to dispose of or hedge any common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date 45 days after the date of this prospectus supplement (the "Restricted Period"), except with the prior written consent of the underwriter.

The Restricted Period will be automatically extended if: (1) during the last 17 days of the Restricted Period Hertz Holdings issues an earnings release or announces material news or a material event; or (2) prior to the expiration of the Restricted Period, Hertz Holdings announces that it will release earnings results during the 15-day period following the last day of the Restricted Period, in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event.

Our common stock is listed on the New York Stock Exchange under the symbol "HTZ."

In connection with the offering, the underwriter may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriter of a greater number of shares than it is required to purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriter in the open market prior to the completion of the offering.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriter for its own account, may have the effect of preventing or retarding a decline in the market price of our common stock or may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

Hertz Holdings will pay all of the expenses of the offering, excluding any underwriting discounts and commissions of the selling stockholders. Hertz Holdings estimates that its total expenses with respect to the offering, excluding underwriting discounts and commissions, will be approximately \$500,000.

Hertz Holdings and the selling stockholders have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act.

provided that no such offer of notes shall require Hertz Holdings or the selling stockholders to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Unless the context otherwise requires, in this prospectus, (i) "Hertz Holdings" means Hertz Global Holdings, Inc., our top-level holding company, (ii) "Hertz" means The Hertz Corporation, our primary operating company and a direct wholly-owned subsidiary of Hertz Investors, Inc., which is wholly-owned by Hertz Holdings, (iii) "we," "us" and "our" mean Hertz Holdings and its consolidated subsidiaries, including Hertz, (iv) "HERC" means Hertz Equipment Rental Corporation, Hertz's wholly-owned equipment rental subsidiary, together with our various other wholly-owned international subsidiaries that conduct our industrial, construction and material handling equipment rental business, (v) "cars" means cars, crossovers and light trucks (including sport utility vehicles and, outside North America, light commercial vehicles), (vi) "program cars" means cars purchased by car rental companies under repurchase or guaranteed depreciation programs with car manufacturers, (vii) "non-program cars" mean cars not purchased under repurchase or guaranteed depreciation programs for which the car rental company is exposed to residual risk and (viii) "equipment" means industrial, construction and material handling equipment.

Hertz Holdings was incorporated in Delaware in 2005 to serve as the top-level holding company for the consolidated Hertz business. Hertz was incorporated in Delaware in 1967. Hertz is a successor to corporations that have been engaged in the car and truck rental and leasing business since 1918 and the equipment rental business since 1965. Ford Motor Company, "Ford," acquired an ownership interest in Hertz in 1987. Prior to this, Hertz was a subsidiary of UAL Corporation (formerly Allegis Corporation), which acquired Hertz's outstanding capital stock from RCA Corporation in 1985.

PROSPECTUS SUMMARY

The following summary does not contain all the information that may be important to purchasers of our common stock. You should carefully read the entire prospectus and the financial statements, notes to financial statements and other information incorporated by reference in this prospectus before making any investment decision.

Our Company

We own what we believe is the largest worldwide airport general use car rental brand, operating from approximately 8,500 locations in 146 countries as of December 31, 2010. Our Hertz brand name is one of the most recognized in the world, signifying leadership in quality rental services and products. Hertz operates both corporate and licensee locations in cities and airports in North America, Europe, Latin America, Australia, Asia and New Zealand. In addition, we have licensee locations in cities and airports in Africa and the Middle East. We are the only car rental company that has an extensive network of company-operated rental locations both in the United States and in all major European markets. We believe that we maintain the leading airport car rental brand market share, by overall reported revenues, in the United States and at the 83 major airports in Europe where we have company-operated locations and where data regarding car rental concessionaire activity is available. We believe that we also maintain the second largest market share, by revenues, in the off-airport car rental market in the United States. In our equipment rental business segment, we rent equipment through approximately 320 branches in the United States, Canada, France, Spain, Italy and China, as well as through our international licensees. We and our predecessors have been in the car rental business since 1918 and in the equipment rental business since 1965. We have a diversified revenue base and a highly variable cost structure and are able to dynamically manage fleet capacity, the most significant determinant of our costs. Our revenues have grown at a compound annual growth rate of 4.7% over the last 20 years, with year-over-year growth in 16 of those 20 years.

Our Markets

We operate in the global car rental industry and in the equipment rental industry.

Worldwide Car Rental

We believe that the global car rental industry exceeds \$35 billion in annual revenues. According to Auto Rental News, car rental revenues in the United States are estimated to be approximately \$20 billion for 2010 and grew in 2010 by 2.5%. We believe car rental revenues in Europe account for approximately \$15 billion in annual revenues, with the airport portion of the industry comprising approximately 40% of the total. Within Europe, the largest markets are France, Germany, Italy, the United Kingdom and Spain. We believe total rental revenues for the car rental industry in Europe in 2010 were approximately \$11.8 billion in nine countries—France, Germany, Italy, the United Kingdom, Spain, The Netherlands, Switzerland, Belgium and Luxembourg—where we have company-operated rental locations and approximately \$2.6 billion in eight other countries—Greece, Ireland, Portugal, Sweden, Norway, Denmark, Austria and Finland—where our brand is present through our licensees.

We estimate that rentals by airline travelers at or near airports, or "airport rentals," accounted for approximately one-half of the total market in the United States in 2010. This portion of the market is significantly influenced by developments in the travel industry and particularly in airline passenger traffic, or "enplanements." We believe domestic enplanements increased in 2010 by approximately 0.4% and are expected to increase by 1.8% in 2011. The International Air Transport Association, or "IATA," projected in December 2010 that annual global enplanements would increase 5.2% in 2011.

The off-airport portion of the industry has rental volume primarily driven by local business use, leisure travel and the replacement of cars being repaired. Because Europe has generally demonstrated

Table of Contents

a lower historical reliance on air travel, the European off-airport car rental market is significantly more developed than it is in the United States. However, we believe that in recent years, industry revenues from off-airport car rentals in the United States have grown faster than revenues from airport rentals.

Worldwide Equipment Rental

We estimate the size of the U.S. equipment rental industry, which is highly fragmented with few national competitors and many regional and local operators, declined to approximately \$28 billion in annual revenues for 2010 from approximately \$29 billion in 2009, but the part of the rental industry dealing with equipment of the type HERC rents is somewhat smaller than that. We believe that the industry grew at a 1.7% compound annual growth rate between 2000 and 2010. Other market data indicates that the equipment rental industries in France, Spain, Italy and China generate approximately \$4.5 billion, \$2.5 billion, \$2.1 billion and \$5.1 billion in annual revenues, respectively, although the portions of those markets in which HERC competes are smaller.

The equipment rental industry serves a broad range of customers from small local contractors to large industrial national accounts and encompasses a wide range of rental equipment from small tools to heavy earthmoving equipment. We believe U.S. non-residential construction spending decreased at an annual rate of 10% in 2010 but is projected to increase at an annual rate of 4% in 2011. We also believe that rental equipment accounted for approximately 40% of all equipment sold into the U.S. construction industry in 2010, up from approximately 5% in 1993. In addition, we believe that the trend toward rental instead of ownership of equipment in the U.S. construction industry will continue and that as much as 50% of the equipment used in the industry could be rental equipment by 2014.

We will not receive any proceeds from the sale of any shares of our common stock offered by any selling stockholder.

PLAN OF DISTRIBUTION

The selling stockholders may sell the common stock covered by this prospectus from time to time in any of three ways (or in any combination):

to or through underwriters or dealers;

directly to one or more purchasers; or

through agents.

The selling stockholders may distribute the common stock from time to time in one or more transactions:

at a fixed price or prices, which may be changed from time to time;

at market prices prevailing at the time of sale;

at prices related to the prevailing market prices; or

at negotiated prices.

Each time the selling stockholders offer and sell shares of our common stock covered by this prospectus, we will provide a prospectus supplement that will describe the method of distribution and set forth the terms of the offering, including:

the name or names of the selling stockholders and the amounts to be sold by them;

the name or names of any underwriters, dealers or agents and the amounts of securities underwritten or purchased by each of them;

the public offering price of the common stock and the proceeds to the selling stockholders;

any over-allotment options under which underwriters may purchase additional common stock from the selling stockholders;

any underwriting discounts or commissions or agency fees and other items constituting underwriters' or agents' compensation;

terms and conditions of the offering;

any discounts, commissions or concessions allowed or reallocated or paid to dealers; and

Edgar Filing: HERTZ GLOBAL HOLDINGS INC - Form 424B3

any securities exchange or market on which the common stock may be listed.

Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time. The selling stockholders may determine the price or other terms of the common stock offered under this prospectus by use of an electronic auction. We will describe how any auction will determine the price or any other terms, how potential investors may participate in the auction and the nature of the obligations of the underwriter, dealer or agent in the applicable prospectus supplement.

Underwriters, dealers or any other third parties described above may offer and sell the offered common stock from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. If underwriters or dealers are used in the sale of any common stock, the common stock will be acquired by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions described above. The common stock may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters or dealers. Generally, the underwriters' or dealers' obligations to purchase the common stock will be subject to certain conditions precedent. The underwriters or dealers will be obligated to purchase all of the common stock if they

Table of Contents

purchase any of the common stock, unless otherwise specified in the prospectus supplement. The selling stockholders may use underwriters with whom we or the selling stockholders have a material relationship. We will describe the nature of any such relationship in the prospectus supplement, naming the underwriter.

The selling stockholders may sell the common stock through agents from time to time. The prospectus supplement will name any agent involved in the offer or sale of the common stock and any commissions paid to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment. The selling stockholders may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the common stock from the selling stockholders at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions paid for solicitation of these contracts.

Each underwriter, dealer and agent participating in the distribution of any offered securities that are issuable in bearer form will agree that it will not offer, sell, resell or deliver, directly or indirectly, offered securities in bearer form in the United States or to United States persons except as otherwise permitted by Treasury Regulations Section 1.163-5(c)(2)(i)(D).

Agents, dealers and underwriters may be entitled to indemnification by us or by selling stockholders against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the agents, dealers or underwriters may be required to make in respect thereof. Agents, dealers and underwriters may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

A prospectus supplement may be used for resales from time to time by any holder of our securities that may acquire such shares of common stock upon an in-kind distribution by any existing security holder of all or a portion of such existing security holder's shares to its limited and general partners. Such selling stockholders may include direct and indirect transferees, pledges, donees and successors of the selling stockholders. Further, a prospectus supplement may be used in connection with sales or resales by any general partner of a selling stockholder in connection with sales by such general partner for cash or subsequent transfers by such general partner to its limited partners of their ratable portion of the shares then owned by such general partner, together with resales of such shares by such limited partners.

Selling stockholders may enter into derivative or other hedging transactions involving the securities with third parties, or sell securities not covered by the prospectus to third parties in privately negotiated transactions. If selling stockholders so indicate in the applicable prospectus supplement, in connection with those derivative transactions, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions, or may lend securities in order to facilitate short sale transactions by others. If so, such third party may use securities pledged by selling stockholders or borrowed from selling stockholders or others to settle those sales or to close out any related open borrowings of securities, and may use securities received from selling stockholders in settlement of those derivative or hedging transactions to close out any related open borrowings of securities. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement (or a post-effective amendment to the registration statement of which this prospectus is a part).

Selling stockholders may effect sales of securities in connection with forward sale, option or other types of agreements with third parties. Any distribution of securities pursuant to any forward sale agreement may be effected from time to time in one or more transactions that may take place through a stock exchange, including block trades or ordinary broker's transactions, or through broker dealers acting either as principal or agent, or through privately negotiated transactions, or through an

Table of Contents

underwritten public offering, or through a combination of any such methods of sale, at market prices prevailing at the time of sale, at prices relating to such prevailing market prices or at negotiated or fixed prices.

Selling stockholders may loan or pledge securities to third parties that in turn may sell the securities using this prospectus and the applicable prospectus supplement or, if selling stockholders default in the case of a pledge, may offer and sell the securities from time to time using this prospectus and the applicable prospectus supplement. Such third parties may transfer their short positions to investors in our securities or in connection with a concurrent offering of other securities offered by this prospectus and the applicable prospectus supplement or otherwise.

Any underwriter may engage in any option to purchase additional securities, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. The option to purchase additional securities involves sales in excess of the offering size, which create a short position. This short sales position may involve either "covered" short sales or "naked" short sales. Covered short sales are short sales made in an amount not greater than the underwriters' option to purchase additional securities option to purchase additional shares in the offering described above. The underwriters may close out any covered short position either by exercising their option to purchase additional securities or by purchasing securities in the open market. To determine how they will close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market, as compared to the price at which they may purchase shares through the option to purchase additional securities. Naked short sales are short sales in excess of the option to purchase additional securities. The underwriters must close out any naked short position by purchasing securities in the open market. A naked short position is more likely to be created if the underwriters are concerned that, in the open market after pricing, there may be downward pressure on the price of the securities that could adversely affect investors who purchase securities in this offering. Stabilizing transactions permit bids to purchase the underlying security for the purpose of fixing the price of the security so long as the stabilizing bids do not exceed a specified maximum. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions.

Similar to other purchase transactions, an underwriter's purchase to cover syndicate short sales or to stabilize the market price of our common stock may have the effect of raising or maintaining the market price of our common stock or preventing or mitigating a decline in the market price of our common stock. As a result, the price of the shares of our common stock may be higher than the price that might otherwise exist in the open market. The imposition of a penalty bid might also have an effect on the price of the shares if it discourages resales of the shares.

In compliance with the guidelines of the Financial Industry Regulatory Authority ("FINRA"), the aggregate maximum discount, commission, agency fees, or other items constituting underwriting compensation to be received by any FINRA member or independent broker dealer will not exceed 8% of any offering pursuant to this prospectus and any applicable prospectus supplement; however, we anticipate that the maximum commission or discount to be received in any particular offering of securities will be significantly less than this amount.

If more than 10% of the net proceeds of any offering of securities made under this prospectus will be received by FINRA members participating in the offering or affiliates or associated persons of such FINRA members, the offering will be conducted in accordance with FINRA Rule 5110(h).

We, the selling stockholders and the underwriters make no representation or prediction as to the effect that the types of transactions described above may have on the price of the shares. If such transactions are commenced, they may be discontinued without notice at any time.

The specific terms of the lock-up provisions, if any, in respect of any given offering will be described in the applicable prospectus supplement.

DESCRIPTION OF CAPITAL STOCK

Overview

The amended and restated certificate of incorporation of Hertz Holdings, which we refer to in this prospectus as our "certificate of incorporation," authorizes 2,000,000,000 shares of common stock, par value \$0.01 per share. As of February 28, 2011, we had outstanding 413,873,148 shares of common stock. In addition, our certificate of incorporation authorizes 200,000,000 shares of preferred stock, par value \$0.01 per share, none of which has been issued or is outstanding. The following descriptions of our capital stock and provisions of our certificate of incorporation and by-laws are summaries of their material terms and provisions and are qualified by reference to our certificate of incorporation and by-laws, copies of which are filed as exhibits to our registration statement of which this prospectus is a part.

Common Stock

Each holder of our common stock is entitled to one vote per share on all matters to be voted on by stockholders. Accordingly, holders of a majority of the shares of common stock entitled to vote in any election of directors may elect all of the directors standing for election. Any director may be removed only for cause, upon the affirmative vote of the holders of at least a majority of the outstanding shares of our common stock entitled to vote for the election of the directors.

The holders of our common stock are entitled to receive any dividends and other distributions that may be declared by our board of directors, subject to any preferential dividend rights of outstanding preferred stock. In the event of our liquidation, dissolution or winding up, holders of common stock will be entitled to receive proportionately any of our assets remaining after the payment of liabilities and subject to the prior rights of any outstanding preferred stock. Our ability to pay dividends on our common stock is subject to our subsidiaries' ability to pay dividends to us, which is in turn subject to the restrictions set forth in the instruments governing our indebtedness.

Holders of our common stock have no preemptive, subscription, redemption or conversion rights. The outstanding shares of our common stock are fully paid and non-assessable. The rights and privileges of holders of our common stock are subject to any series of preferred stock that we may issue in the future, as described below.

Computershare Investor Services LLC is the transfer agent and registrar for our common stock.

Our common stock is listed on the New York Stock Exchange ("NYSE") under the symbol "HTZ".

Preferred Stock

Under our certificate of incorporation, our board of directors has the authority, without further vote or action by the stockholders, to issue up to 200,000,000 shares of preferred stock in one or more series and to fix the number of shares of any class or series of preferred stock and to determine its voting powers, designations, preferences or other rights and restrictions. The issuance of preferred stock could adversely affect the rights of holders of common stock. We have no present plan to issue any shares of preferred stock.

Corporate Opportunities

Our certificate of incorporation provides that our stockholders that are investment funds associated with or designated by the Sponsors have no obligation to offer us an opportunity to participate in business opportunities presented to the Sponsors or their respective officers, directors, agents, members, partners and affiliates even if the opportunity is one that we might reasonably have pursued, and that neither the Sponsors nor their respective officers, directors, agents, members, partners or

Table of Contents

affiliates will be liable to us or our stockholders for breach of any duty by reason of any such activities unless, in the case of any person who is a director or officer of our company, such business opportunity is expressly offered to such director or officer in writing solely in his or her capacity as an officer or director of our company. Stockholders will be deemed to have notice of and have consented to this provision of our certificate of incorporation.

Change of Control Related Provisions of Our Certificate of Incorporation and By-Laws and Delaware Law

A number of provisions in our certificate of incorporation and by-laws and under the Delaware General Corporation Law may make it more difficult to acquire control of us. These provisions may have the effect of discouraging a future takeover attempt not approved by our board of directors but which individual stockholders may deem to be in their best interests or in which stockholders may receive a substantial premium for their shares over then current market prices. As a result, stockholders who might desire to participate in such a transaction may not have an opportunity to do so. In addition, these provisions may adversely affect the prevailing market price of the common stock. These provisions are intended to:

enhance the likelihood of continuity and stability in the composition of our board of directors;

discourage some types of transactions that may involve an actual or threatened change in control of us;

discourage certain tactics that may be used in proxy fights;

ensure that our board of directors will have sufficient time to act in what the board believes to be in the best interests of us and our stockholders; and

encourage persons seeking to acquire control of us to consult first with our board to negotiate the terms of any proposed business combination or offer.

Unissued Shares of Capital Stock

Common Stock. The remaining shares of our authorized and unissued common stock will be available for future issuance without additional stockholder approval. While the additional shares are not designed to deter or prevent a change of control, under some circumstances we could use the additional shares to create voting impediments or to frustrate persons seeking to effect a takeover or otherwise gain control by, for example, issuing those shares in private placements to purchasers who might side with our board of directors in opposing a hostile takeover bid.

Preferred Stock. Our certificate of incorporation provides that our board of directors has the authority, without any further vote or action by our stockholders, to issue preferred stock in one or more series and to fix the number of shares constituting any such series and the preferences, limitations and relative rights, including dividend rights, dividend rate, voting rights, terms of redemption, redemption price or prices, conversion rights and liquidation preferences of the shares constituting any series. The existence of authorized but unissued preferred stock could reduce our attractiveness as a target for an unsolicited takeover bid since we could, for example, issue shares of preferred stock to parties who might oppose such a takeover bid or shares that contain terms the potential acquiror may find unattractive. This may have the effect of delaying or preventing a change of control, may discourage bids for the common stock at a premium over the market price of the common stock, and may adversely affect the market price of, and the voting and other rights of the holders of, common stock.

Classified Board of Directors; Vacancies and Removal of Directors

Our certificate of incorporation provides that our board of directors is divided into three classes whose members will serve three-year terms expiring in successive years. Any effort to obtain control of

Table of Contents

our board of directors by causing the election of a majority of the board of directors may require more time than would be required without a staggered election structure. Our certificate of incorporation provides that directors may be removed only for cause at a meeting of stockholders upon the affirmative vote of the holders of at least a majority of the outstanding shares of our common stock entitled to vote for the election of the director. Vacancies in our board of directors may be filled only by our board of directors. Any director elected to fill a vacancy will hold office for the remainder of the full term of the class of directors in which the vacancy occurred (including a vacancy created by increasing the size of the board) and until such director's successor shall have been duly elected and qualified. No decrease in the number of directors will shorten the term of any incumbent director. Our by-laws provide that the number of directors shall be fixed and increased or decreased from time to time by resolution of the board of directors.

These provisions may have the effect of slowing or impeding a third party from initiating a proxy contest, making a tender offer or otherwise attempting a change in the membership of our board of directors that would effect a change of control.

Advance Notice Requirements for Nomination of Directors and Presentation of New Business at Meetings of Stockholders; Calling Stockholder Meetings; Action by Written Consent

Our by-laws require advance notice for stockholder proposals and nominations for director. Generally, to be timely, notice must be received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the annual meeting for the preceding year. Also, special meetings of the stockholders may only be called by the board of directors.

In addition, our certificate of incorporation and our by-laws provide that action may be taken by written consent of stockholders only for so long as investment funds affiliated with or designated by the Sponsors collectively hold a majority of our outstanding common stock. If such funds no longer hold a majority of our outstanding common stock, any action taken by the stockholders must be effected at a duly called annual or special meeting, which may be called only by the board of directors. As of the date of this prospectus, the investment funds associated with or designated by the Sponsors hold approximately 51% of our outstanding common stock.

These provisions make it more procedurally difficult for a stockholder to place a proposal or nomination on the meeting agenda or to take action without a meeting, and therefore may reduce the likelihood that a stockholder will seek to take independent action to replace directors or seek a stockholder vote with respect to other matters that are not supported by management.

Limitation of Liability of Directors; Indemnification of Directors

Our certificate of incorporation provides that no director will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director, except to the extent that this limitation on or exemption from liability is not permitted by the Delaware General Corporation Law and any amendments to that law.

The principal effect of the limitation on liability provision is that a stockholder will be unable to prosecute an action for monetary damages against a director unless the stockholder can demonstrate a basis for liability for which indemnification is not available under the Delaware General Corporation Law. This provision, however, does not eliminate or limit director liability arising in connection with causes of action brought under the federal securities laws. Our certificate of incorporation does not eliminate our directors' duty of care. The inclusion of this provision in our certificate of incorporation may, however, discourage or deter stockholders or management from bringing a lawsuit against directors for a breach of their fiduciary duties, even though such an action, if successful, might otherwise have benefited us and our stockholders. This provision should not affect the availability of equitable remedies such as injunction or rescission based upon a director's breach of the duty of care.

Table of Contents

Our certificate of incorporation provides that we are required to indemnify and advance expenses to our directors to the fullest extent permitted by law, except in the case of a proceeding instituted by the director without the approval of our board of directors. Our by-laws provide that we are required to indemnify our directors and officers, to the fullest extent permitted by law, for all judgments, fines, settlements, legal fees and other expenses incurred in connection with pending or threatened legal proceedings because of the director's or officer's positions with us or another entity that the director or officer serves at our request, subject to various conditions, and to advance funds to our directors and officers to enable them to defend against such proceedings. To receive indemnification, the director or officer must have been successful in the legal proceeding or have acted in good faith and in what was reasonably believed to be a lawful manner in our best interest.

In connection with our initial public offering in November of 2006, we entered into indemnification agreements with each of our directors. The indemnification agreements, as amended, provide the directors with contractual rights to the indemnification and expense advancement rights provided under our by-laws, as well as contractual rights to additional indemnification as provided in the indemnification agreement.

Supermajority Voting Requirement for Amendment of Certain Provisions of our Certificate of Incorporation and By-Laws

The provisions of our certificate of incorporation governing, among other things, the removal of directors only for cause, the liability of directors, the elimination of stockholder actions by written consent upon investment funds affiliated with or designated by the Sponsors ceasing to collectively hold a majority of our outstanding common stock and the prohibition on the right of stockholders to call a special meeting may not be amended, altered or repealed unless the amendment is approved by the vote of holders of at least two-thirds of the shares then entitled to vote at an election of directors. This requirement exceeds the majority vote of the outstanding stock that would otherwise be required by the Delaware General Corporation Law for the repeal or amendment of such provisions of the certificate of incorporation. Certain provisions of our by-laws may be amended with the approval of the vote of holders of at least two-thirds of the shares then entitled to vote. These provisions make it more difficult for any person to remove or amend any provisions that may have an anti-takeover effect.

Delaware Takeover Statute

We have opted out of Section 203 of the Delaware General Corporation Law, which would have otherwise imposed additional requirements regarding mergers and other business combinations.

Stockholders Agreement

We are currently a "controlled company" within the meaning of the NYSE rules because investment funds associated with the Sponsors beneficially own over 50% of our outstanding common stock in the aggregate and are parties to the stockholders agreement with us. We are therefore not required to comply with certain corporate governance requirements of the NYSE. Under the stockholders agreement, these funds currently have the right to nominate all of our directors. The director nominees are to include three nominees of CD&R (one of whom shall serve as the Chairman or, if the Chief Executive Officer is the Chairman, the Lead Director), one nominee of Carlyle, one nominee of an affiliate of Carlyle and two nominees of ML Global Private Equity Fund, L.P. (a fund affiliated with BAMLCP), referred to as MLGPE, subject to adjustment in the case that the applicable investment fund sells more than a specified amount of its shareholdings in us, and up to six independent directors. In the event that we cease to be a controlled company, the stockholders agreement provides that if necessary to comply with NYSE rules, the director nominees of the investment funds associated with the Sponsors may be reduced, and additional independent directors will be elected by the board to fill resulting director vacancies, if any. In addition, under the NYSE

rules, we will be required to (1) have a majority of independent directors on our board of directors within one year following our ceasing to be a controlled company; (2) create a Nominating and Governance Committee of our board of directors composed entirely of independent directors within one year following our ceasing to be a controlled company; and (3) cause our Compensation Committee to be composed entirely of independent directors within the same time period. In addition, the NYSE transition rules will require us to have at least one independent director on each of our Compensation Committee and Nominating and Governance Committee once we cease to be a controlled company, and a majority of these committees to be comprised of independent directors within 90 days following such event. We expect to amend our by-laws to reflect these changes in committee composition at or before the time when we will be required to comply fully with the NYSE corporate governance rules.

The stockholders agreement also grants to CD&R, or to our board of directors with the approval of the majority of directors nominated by the investment funds associated with the Sponsors, the right to remove our Chief Executive Officer for so long as we remain a controlled company. Any replacement Chief Executive Officer requires the consent of CD&R as well as the approval of a majority of CD&R, Carlyle and MLGPE's director designees. In the event that we cease to be a controlled company, these funds have agreed under the stockholders' agreement to cause their director nominees to take or omit to take actions consistent with these rights, subject to compliance with such directors' fiduciary duties. The rights described above apply only for so long as the applicable funds maintain certain specified minimum levels of shareholdings. The stockholders agreement also includes tag-along rights, and restrictions on transfers of shares of our common stock owned by the investment funds associated with the Sponsors, in certain circumstances.

In addition, the stockholders agreement limits the rights of the investment funds associated with the Sponsors that have invested in our common stock and their affiliates, subject to several exceptions, to own, manage, operate or control any of our competitors (as defined in the stockholders agreement). The stockholders agreement may be amended from time to time in the future to eliminate or modify these restrictions without our consent.

Registration Rights Agreement

We are also party to the Registration Rights Agreement, dated as of December 21, 2005, as amended, with the investment funds associated with the Sponsors, referred to as the registration rights agreement. The registration rights agreement grants to certain of these funds the right to cause us, at our own expense, to use our best efforts to register shares of our common stock held by the investment funds associated with the Sponsors for public resale, subject to certain limitations. The exercise of this right is limited to three requests by the group of funds associated with each Sponsor, except for registrations effected pursuant to Form S-3, which are unlimited, subject to certain limitations, if we are eligible to use Form S-3. In the event we register for sale any of our common stock, these investment funds also have the right to require us to use our best efforts to include shares of our common stock held by them, subject to certain limitations, including as determined by the underwriters. The registration rights agreement also provides for us to indemnify the investment funds associated with the Sponsors and their affiliates in connection with the registration of our securities.

VALIDITY OF THE SHARES
