UNITED STATES
 SECURITIES AND EXCHANGE COMMISSION
 WASHINGTON, D.C. 20549
 FORM 10-Q

x Quarterly Report Pursuant To Section 13 or 15(d) of the Securities Exchange Act of 1934
 FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2017

OR
 Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

| Commission File Number | Exact name of registrant as specified in its charter and principal executive office address and telephone number | State of Incorporation | I.R.S. Employer ID. Number |
|------------------------|--|------------------------|----------------------------|
| 1-14514 | Consolidated Edison, Inc. 4 Irving Place, New York, New York 10003 (212) 460-4600 | New York | 13-3965100 |
| 1-1217 | Consolidated Edison Company of New York, Inc. 4 Irving Place, New York, New York 10003 (212) 460-4600 | New York | 13-5009340 |

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Consolidated Edison, Inc. (Con Edison) Yes No
 Consolidated Edison Company of New York, Inc. (CECONY) Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Con Edison Yes No
 CECONY Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Con Edison
 Large accelerated filer Accelerated filer Non-accelerated filer
 Smaller reporting company Emerging growth company
 CECONY
 Large accelerated filer Accelerated filer Non-accelerated filer
 Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
 Con Edison Yes No
 CECONY Yes No

Table of Contents

As of July 31, 2017, Con Edison had outstanding 305,674,488 Common Shares (\$.10 par value). All of the outstanding common equity of CECONY is held by Con Edison.

Filing Format

This Quarterly Report on Form 10-Q is a combined report being filed separately by two different registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY). CECONY is a wholly-owned subsidiary of Con Edison and, as such, the information in this report about CECONY also applies to Con Edison. As used in this report, the term the “Companies” refers to Con Edison and CECONY. However, CECONY makes no representation as to the information contained in this report relating to Con Edison or the subsidiaries of Con Edison other than itself.

Table of Contents

Glossary of Terms

The following is a glossary of abbreviations or acronyms that are used in the Companies' SEC reports:

Con Edison Companies

| | |
|-------------------------|--|
| Con Edison | Consolidated Edison, Inc. |
| CECONY | Consolidated Edison Company of New York, Inc. |
| Clean Energy Businesses | Con Edison Clean Energy Businesses, Inc., together with its subsidiaries |
| Con Edison Development | Consolidated Edison Development, Inc. |
| Con Edison Energy | Consolidated Edison Energy, Inc. |
| Con Edison Solutions | Consolidated Edison Solutions, Inc. |
| Con Edison Transmission | Con Edison Transmission, Inc., together with its subsidiaries |
| CET Electric | Consolidated Edison Transmission, LLC |
| CET Gas | Con Edison Gas Pipeline and Storage, LLC |
| O&R | Orange and Rockland Utilities, Inc. |
| RECO | Rockland Electric Company |
| The Companies | Con Edison and CECONY |
| The Utilities | CECONY and O&R |

Regulatory Agencies, Government Agencies and Other Organizations

FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements intended to qualify for the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

Forward-looking statements are statements of future expectation and not facts. Words such as “forecasts,” “expects,” “estimates,” “anticipates,” “intends,” “believes,” “plans,” “will” and similar expressions identify forward-looking statements.

Forward-looking statements are based on information available at the time the statements are made, and accordingly speak only as of that time. Actual results or developments might differ materially from those included in the forward-looking statements because of various factors including, but not limited to:

- the Companies are extensively regulated and are subject to penalties;
- the Utilities’ rate plans may not provide a reasonable return;
- the Companies may be adversely affected by changes to the Utilities’ rate plans;
- the intentional misconduct of employees or contractors could adversely affect the Companies;
- the failure of, or damage to, the Companies’ facilities could adversely affect the Companies;
- a cyber attack could adversely affect the Companies;
- the Companies are exposed to risks from the environmental consequences of their operations;
- a disruption in the wholesale energy markets or failure by an energy supplier could adversely affect the Companies;
- the Companies have substantial unfunded pension and other postretirement benefit liabilities;
- Con Edison’s ability to pay dividends or interest depends on dividends from its subsidiaries;
- the Companies require access to capital markets to satisfy funding requirements;
- changes to tax laws could adversely affect the Companies;
- the Companies’ strategies may not be effective to address changes in the external business environment; and
- the Companies also face other risks that are beyond their control.

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED)

General

These combined notes accompany and form an integral part of the separate consolidated financial statements of each of the two separate registrants: Consolidated Edison, Inc. and its subsidiaries (Con Edison) and Consolidated Edison Company of New York, Inc. and its subsidiaries (CECONY). CECONY is a subsidiary of Con Edison and as such its financial condition and results of operations and cash flows, which are presented separately in the CECONY consolidated financial statements, are also consolidated, along with those of Orange and Rockland Utilities, Inc. (O&R), Con Edison Clean Energy Businesses, Inc. (together with its subsidiaries, the Clean Energy Businesses) and Con Edison Transmission, Inc. (together with its subsidiaries, Con Edison Transmission) in Con Edison's consolidated financial statements. The term "Utilities" is used in these notes to refer to CECONY and O&R.

As used in these notes, the term "Companies" refers to Con Edison and CECONY and, except as otherwise noted, the information in these combined notes relates to each of the Companies. However, CECONY makes no representation as to information relating to Con Edison or the subsidiaries of Con Edison other than itself.

The separate interim consolidated financial statements of each of the Companies are unaudited but, in the opinion of their respective managements, reflect all adjustments (which include only normally recurring adjustments) necessary for a fair presentation of the results for the interim periods presented. The Companies' separate interim consolidated financial statements should be read together with their separate audited financial statements (including the combined notes thereto) included in Item 8 of their combined Annual Report on Form 10-K for the year ended December 31, 2016 and their separate unaudited financial statements (including the combined notes thereto) included in Part 1, Item 1 of their combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2017. Certain prior period amounts have been reclassified to conform to the current period presentation.

Con Edison has two regulated utility subsidiaries: CECONY and O&R. CECONY provides electric service and gas service in New York City and Westchester County. The company also provides steam service in parts of Manhattan. O&R, along with its regulated utility subsidiary, provides electric service in southeastern New York and northern New Jersey and gas service in southeastern New York. Con Edison Clean Energy Businesses, Inc. has three subsidiaries: Consolidated Edison Development, Inc. (Con Edison Development), a company that develops, owns and operates renewable and energy infrastructure projects; Consolidated Edison Energy, Inc. (Con Edison Energy), a company that provides energy-related products and services to wholesale customers; and Consolidated Edison Solutions, Inc. (Con Edison Solutions), a company that provides energy-related products and services to retail customers. Con Edison Transmission, Inc. invests in electric transmission facilities through its subsidiary, Consolidated Edison Transmission, LLC (CET Electric), and invests in gas pipeline and storage facilities through its subsidiary Con Edison Gas Pipeline and Storage, LLC (CET Gas).

Note A – Summary of Significant Accounting Policies

Earnings Per Common Share

Con Edison presents basic and diluted earnings per share on the face of its consolidated income statement. Basic earnings per share (EPS) are calculated by dividing earnings available to common shareholders ("Net income" on Con Edison's consolidated income statement) by the weighted average number of Con Edison common shares outstanding during the period. In the calculation of diluted EPS, weighted average shares outstanding are increased for additional shares that would be outstanding if potentially dilutive securities were converted to common stock.

Potentially dilutive securities for Con Edison consist of restricted stock units, deferred stock units and stock options for which the average market price of the common shares for the period was greater than the exercise price.

For the three and six months ended June 30, 2017 and 2016, basic and diluted EPS for Con Edison are calculated as follows:

Table of Contents

| | For the Three Months Ended June 30, | | For the Six Months Ended June 30, | |
|---|---|--------|--|--------|
| (Millions of Dollars, except per share amounts/Shares in Millions) | 2017 | 2016 | 2017 | 2016 |
| Net income | \$175 | \$232 | \$563 | \$542 |
| Weighted average common shares outstanding – basic | 305.4 | 299.1 | 305.3 | 296.7 |
| Add: Incremental shares attributable to effect of potentially dilutive securities | 1.4 | 1.3 | 1.4 | 1.3 |
| Adjusted weighted average common shares outstanding – diluted | 306.8 | 300.4 | 306.7 | 298.0 |
| Net Income per common share – basic | \$0.57 | \$0.78 | \$1.84 | \$1.83 |
| Net Income per common share – diluted | \$0.57 | \$0.77 | \$1.84 | \$1.82 |

The computation of diluted EPS for the six months ended June 30, 2016 excludes immaterial amounts of performance share awards that were not included because of their anti-dilutive effect.

Changes in Accumulated Other Comprehensive Income/(Loss) by Component

For the three and six months ended June 30, 2017 and 2016, changes to accumulated other comprehensive income/(loss) (OCI) for Con Edison and CECONY are as follows:

| | For the Three Months Ended June 30, | | | |
|---|--|--------|--------|-------|
| (Millions of Dollars) | Con Edison | | CECONY | |
| | 2017 | 2016 | 2017 | 2016 |
| Beginning balance, accumulated OCI, net of taxes (a) | \$(28) | \$(34) | \$(7) | \$(9) |
| Amounts reclassified from accumulated OCI related to pension plan liabilities, net of tax of \$(1) for Con Edison in 2017 and 2016 (a)(b) | 1 | 1 | — | 1 |
| Current period OCI, net of taxes | 1 | 1 | — | 1 |
| Ending balance, accumulated OCI, net of taxes | \$(27) | \$(33) | \$(7) | \$(8) |

| | For the Six Months Ended June 30, | | | |
|---|--------------------------------------|--------|--------|-------|
| (Millions of Dollars) | Con Edison | | CECONY | |
| | 2017 | 2016 | 2017 | 2016 |
| Beginning balance, accumulated OCI, net of taxes (a) | \$(27) | \$(34) | \$(7) | \$(9) |
| OCI before reclassifications, net of tax of \$1 for Con Edison in 2017 and 2016 | (2) | (1) | — | — |
| Amounts reclassified from accumulated OCI related to pension plan liabilities, net of tax of \$(2) for Con Edison in 2017 and 2016 (a)(b) | 2 | 2 | — | 1 |
| Current period OCI, net of taxes | — | 1 | — | 1 |
| Ending balance, accumulated OCI, net of taxes | \$(27) | \$(33) | \$(7) | \$(8) |

(a) Tax reclassified from accumulated OCI is reported in the income tax expense line item of the consolidated income statement.

(b) For the portion of unrecognized pension and other postretirement benefit costs relating to the Utilities, costs are recorded into, and amortized out of, regulatory assets instead of OCI. The net actuarial losses and prior service costs recognized during the period are included in the computation of total periodic pension and other postretirement benefit cost. See Notes E and F.

Note B — Regulatory Matters

Rate Plans

Rockland Electric Company (RECO)

In February 2017, the New Jersey Board of Public Utilities (NJBPU) approved a stipulation of settlement for a RECO electric rate plan commencing March 2017. The following table contains a summary of the electric rate plan.

RECO

| | |
|---|--|
| Effective period | March 2017 (a) |
| Base rate changes | Yr. 1 - \$1.7 million |
| Amortization to income of net regulatory (assets) and liabilities | \$0.2 million over three years and continuation of \$(25.6) million of deferred storm costs over four years expiring July 31, 2018 (b) |
| Recoverable energy costs | Current rate recovery of purchased power costs. |
| Cost reconciliations | None |
| Average rate base | Yr. 1 - \$178.7 million |
| Weighted average cost of capital (after-tax) | 7.47 percent |
| Authorized return on common equity | 9.6 percent |
| Cost of long-term debt | 5.37 percent |
| Common equity ratio | 49.7 percent |

(a) Effective until a new rate plan approved by the NJBPU goes into effect.

In January 2016, the NJBPU approved RECO's plan to spend \$15.7 million in capital over three years to harden its (b) electric system against storms, the costs of which RECO, beginning in 2017, is collecting through a customer surcharge.

In January 2017, RECO filed a request with FERC for an increase to its annual transmission revenue requirement from \$11.8 million to \$19.7 million. The filing reflects a return on common equity of 10.7 percent and a common equity ratio of 48 percent.

Other Regulatory Matters

At its August 2, 2017 meeting, the New York State Public Service Commission (NYSPSC) voted to issue an order in its proceeding investigating an April 21, 2017 Metropolitan Transportation Authority (MTA) subway power outage. The NYSPSC indicated that the outage resulted from a failure of CECONY's electricity supply to a subway station and led to a loss of the subway signals. The NYSPSC also indicated that the company's failure to document the rerouting of secondary services to the MTA facility significantly delayed repair. The company anticipates that, pursuant to the NYSPSC order, it will be required to take certain actions, including performing inspections of electrical equipment that serves the MTA system, analyzing power supply and power quality events affecting the MTA's signaling services, providing new monitoring and other equipment and filing monthly reports with the NYSPSC on all of the company's activities related to the MTA system. In July 2017, the Chairman of the NYSPSC notified the company that the April 21, 2017 subway power outage incident will likely result in a prudence review of the reasonableness of CECONY's actions and conduct. The company does not anticipate that the NYSPSC order will commence a prudence review or address cost recovery. The company is unable to estimate the amount or range of its possible costs related to this matter.

Table of Contents

Regulatory Assets and Liabilities

Regulatory assets and liabilities at June 30, 2017 and December 31, 2016 were comprised of the following items:

| (Millions of Dollars) | Con Edison | | CECONY | |

| Total Regulatory Liabilities | \$1,950 | \$2,033 | \$1,728 | \$1,802 |

Note C — Capitalization

In March 2017, Con Edison issued \$400 million aggregate principal amount of 2.00 percent debentures, due 2020, and prepaid the \$400 million variable rate term loan that was to mature in 2018. Also, in March 2017, a Con Edison Development subsidiary issued \$97 million aggregate principal amount of 4.45 percent senior notes, due 2042,

22

22

Table of Contents

secured by the company's Upton County Solar project. In June 2017, CECONY issued \$500 million aggregate principal amount of 3.875 percent debentures, due 2047.

The carrying amounts and fair values of long-term debt at June 30, 2017 and December 31, 2016 were:

| (Millions of Dollars) | 2017 | | 2016 | |
|--|--------------------|---------------|--------------------|---------------|
| | Carrying Amount | Fair Value | Carrying Amount | Fair Value |
| Long-Term Debt (including current portion) (a) | | | | |
| Con Edison | \$15,340 | \$17,052 | \$14,774 | \$16,093 |
| CECONY | \$12,570 | \$14,104 | \$12,073 | \$13,268 |

(a) Amounts shown are net of unamortized debt expense and unamortized debt discount of \$139 million and \$116 million for Con Edison and CECONY, respectively, as of June 30, 2017 and \$134 million and \$113 million for Con Edison and CECONY, respectively, as of December 31, 2016.

Fair values of long-term debt have been estimated primarily using available market information. For Con Edison, \$16,416 million and \$636 million of the fair value of long-term debt at June 30, 2017 are classified as Level 2 and Level 3, respectively. For CECONY, \$13,468 million and \$636 million of the fair value of long-term debt at June 30, 2017 are classified as Level 2 and Level 3, respectively (see Note L). The \$636 million of long-term debt classified as Level 3 is CECONY's tax-exempt, auction-rate securities for which the market is highly illiquid and there is a lack of observable inputs.

Note D — Short-Term Borrowing

At June 30, 2017, Con Edison had \$1,036 million of commercial paper outstanding of which \$750 million was outstanding under CECONY's program. The weighted average interest rate at June 30, 2017 was 1.3 percent for both Con Edison and CECONY. At December 31, 2016, Con Edison had \$1,054 million of commercial paper outstanding of which \$600 million was outstanding under CECONY's program. The weighted average interest rate at December 31, 2016 was 1.0 percent for both Con Edison and CECONY.

At June 30, 2017 and December 31, 2016, no loans were outstanding under the credit agreement (Credit Agreement). An immaterial amount and \$2 million (including \$2 million for CECONY) of letters of credit were outstanding under the Credit Agreement as of June 30, 2017 and December 31, 2016, respectively.

Note E — Pension Benefits**Total Periodic Benefit Cost**

The components of the Companies' total periodic benefit costs for the three and six months ended June 30, 2017 and 2016 were as follows:

| (Millions of Dollars) | For the Three Months Ended June 30, | | | |
|--|--|--------------|--------------|--------------|
| | Con Edison | | CECONY | |
| | 2017 | 2016 | 2017 | 2016 |
| Service cost – including administrative expenses | \$66 | \$69 | \$61 | \$65 |
| Interest cost on projected benefit obligation | 148 | 149 | 139 | 140 |
| Expected return on plan assets | (243) | (237) | (229) | (225) |
| Recognition of net actuarial loss | 149 | 149 | 141 | 141 |
| Recognition of prior service costs | (4) | 1 | (5) | — |
| TOTAL PERIODIC BENEFIT COST | \$116 | \$131 | \$107 | \$121 |
| Cost capitalized | (51) | (53) | (48) | (50) |
| Reconciliation to rate level | (3) | 13 | (5) | 14 |

| | | | | |
|------------------------------------|------|------|------|------|
| Cost charged to operating expenses | \$62 | \$91 | \$54 | \$85 |
|------------------------------------|------|------|------|------|

| Cost capitalized | (94) | (106) | (88) | (99) |
| Reconciliation to rate level | (14) | 26 | (16) | 26 |
| Cost charged to operating expenses | \$124 | \$182 | \$109 | \$170 |

Expected Contributions

Based on estimates as of June 30, 2017, the Companies expect to make contributions to the pension plans during 2017 of \$450 million (of which \$412 million is to be contributed by CECONY). The Companies' policy is to fund the total periodic benefit cost of the qualified plan to the extent tax deductible and to also contribute to the non-qualified supplemental plans. During the first six months of 2017, the Companies contributed \$283 million to the pension plans, nearly all of which was contributed by CECONY. CECONY also contributed \$14 million to its external trust supplemental plans.

Note F — Other Postretirement Benefits

Total Periodic Benefit Cost

The components of the Companies' total periodic other postretirement benefit costs for the three and six months ended June 30, 2017 and 2016 were as follows:

| (Millions of Dollars) | For the Three Months Ended June 30, | | | |
|--|--|--------------|--------------|--------------|
| | Con | | CECONY | |
| | Edison | | | |
| | 2017 | 2016 | 2017 | 2016 |

Table of Contents

Expected Contributions

Based on estimates as of June 30, 2017, Con Edison expects to make a contribution of \$16 million, of which \$8 million is to be contributed by CECONY, to the other postretirement benefit plans in 2017. The Companies' policy is to fund the total periodic benefit cost of the plans to the extent tax deductible.

Note G — Environmental Matters

Superfund Sites

Hazardous substances, such as asbestos, polychlorinated biphenyls (PCBs) and coal tar, have been used or generated in the course of operations of the Utilities and their predecessors and are present at sites and in facilities and equipment they currently or previously owned, including sites at which gas was manufactured or stored.

The Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes (Superfund) impose joint and several liability, regardless of fault, upon generators of hazardous substances for investigation and remediation costs (which include costs of demolition, removal, disposal, storage, replacement, containment and monitoring) and natural resource damages. Liability under these laws can be material and may be imposed for contamination from past acts, even though such past acts may have been lawful at the time they occurred. The sites at which the Utilities have been asserted to have liability under these laws, including their manufactured gas plant sites and any neighboring areas to which contamination may have migrated, are referred to herein as "Superfund Sites."

For Superfund Sites where there are other potentially responsible parties and the Utilities are not managing the site investigation and remediation, the accrued liability represents an estimate of the amount the Utilities will need to pay to investigate and, where determinable, discharge their related obligations. For Superfund Sites (including the manufactured gas plant sites) for which one of the Utilities is managing the investigation and remediation, the accrued liability represents an estimate of the company's share of the undiscounted cost to investigate the sites and, for sites that have been investigated in whole or in part, the cost to remediate the sites, if remediation is necessary and if a reasonable estimate of such cost can be made. Remediation costs are estimated in light of the information available, applicable remediation standards and experience with similar sites.

The accrued liabilities and regulatory assets related to Superfund Sites at June 30, 2017 and December 31, 2016 were as follows:

| | Con Edison | | CECONY | |
|------------------------------|------------|-------|--------|-------|
| (Millions of Dollars) | 2017 | 2016 | 2017 | 2016 |
| Accrued Liabilities: | | | | |
| Manufactured gas plant sites | \$659 | \$664 | \$565 | \$567 |
| Other Superfund Sites | 86 | 89 | 86 | 88 |
| Total | \$745 | \$753 | \$651 | \$655 |
| Regulatory assets | \$807 | \$823 | \$697 | \$711 |

Most of the accrued Superfund Site liability relates to sites that have been investigated, in whole or in part. However, for some of the sites, the extent and associated cost of the required remediation has not yet been determined. As investigations progress and information pertaining to the required remediation becomes available, the Utilities expect that additional liability may be accrued, the amount of which is not presently determinable but may be material. The Utilities are permitted to recover or defer as regulatory assets (for subsequent recovery through rates) prudently incurred site investigation and remediation costs.

Environmental remediation costs incurred related to Superfund Sites for the three and six months ended June 30, 2017 and 2016 were as follows:

| | For the Three Months Ended June 30, | | | |
|-----------------------|-------------------------------------|------|--------|------|
| | Con Edison | | CECONY | |
| (Millions of Dollars) | 2017 | 2016 | 2017 | 2016 |

Remediation costs incurred \$7 \$9 \$4 \$3

25

Table of Contents

| | For the Six Months Ended June 30, | | | |
|----------------------------|--------------------------------------|------|--------|------|
| | Con Edison | | CECONY | |
| (Millions of Dollars) | 2017 | 2016 | 2017 | 2016 |
| Remediation costs incurred | \$14 | \$12 | \$11 | \$5 |

Insurance recoveries received by Con Edison or CECONY were immaterial for the three and six months ended June 30, 2017. No insurance recoveries were received by Con Edison or CECONY for the three or six months ended June 30, 2016.

In 2016, Con Edison and CECONY estimated that for their manufactured gas plant sites (including CECONY's Astoria site), the aggregate undiscounted potential liability for the investigation and remediation of coal tar and/or other environmental contaminants could range up to \$2.8 billion and \$2.6 billion, respectively. These estimates were based on the assumption that there is contamination at all sites, including those that have not yet been fully investigated and additional assumptions about the extent of the contamination and the type and extent of the remediation that may be required. Actual experience may be materially different.

Asbestos Proceedings

Suits have been brought in New York State and federal courts against the Utilities and many other defendants, wherein a large number of plaintiffs sought large amounts of compensatory and punitive damages for deaths and injuries allegedly caused by exposure to asbestos at various premises of the Utilities. The suits that have been resolved, which are many, have been resolved without any payment by the Utilities, or for amounts that were not, in the aggregate, material to them. The amounts specified in all the remaining thousands of suits total billions of dollars; however, the Utilities believe that these amounts are greatly exaggerated, based on the disposition of previous claims. At June 30, 2017, Con Edison and CECONY have accrued their estimated aggregate undiscounted potential liabilities for these suits and additional suits that may be brought over the next 15 years as shown in the following table. These estimates were based upon a combination of modeling, historical data analysis and risk factor assessment. Courts have begun, and unless otherwise determined on appeal may continue, to apply different standards for determining liability in asbestos suits than the standard that applied historically. As a result, the Companies currently believe that there is a reasonable possibility of an exposure to loss in excess of the liability accrued for the suits. The Companies are unable to estimate the amount or range of such loss. In addition, certain current and former employees have claimed or are claiming workers' compensation benefits based on alleged disability from exposure to asbestos. CECONY is permitted to defer as regulatory assets (for subsequent recovery through rates) costs incurred for its asbestos lawsuits and workers' compensation claims.

The accrued liability for asbestos suits and workers' compensation proceedings (including those related to asbestos exposure) and the amounts deferred as regulatory assets for the Companies at June 30, 2017 and December 31, 2016 were as follows:

| | Con Edison | | CECONY | |
|---|------------|------|--------|------|
| (Millions of Dollars) | 2017 | 2016 | 2017 | 2016 |
| Accrued liability – asbestos suits | \$8 | \$8 | \$7 | \$7 |
| Regulatory assets – asbestos suits | \$8 | \$8 | \$7 | \$7 |
| Accrued liability – workers' compensation | \$89 | \$88 | \$85 | \$83 |
| Regulatory assets – workers' compensation | \$14 | \$13 | \$14 | \$13 |

Table of Contents

Note H — Other Material Contingencies

Manhattan Steam Main Rupture

In July 2007, a CECONY steam main located in midtown Manhattan ruptured. It has been reported that one person died and others were injured as a result of the incident. Several buildings in the area were damaged. Debris from the incident included dirt and mud containing asbestos. The response to the incident required the closing of several buildings and streets for various periods. Approximately forty-five suits are pending against the company seeking generally unspecified compensatory and, in some cases, punitive damages, for wrongful death, personal injury, property damage and business interruption. In July 2017, the company reached agreements to resolve most of these suits which, after payment by the company of agreed-upon settlement amounts, are expected to be discontinued. The company has notified its insurers of the incident and believes that the policies in force at the time of the incident will cover the company's costs to satisfy its liability to others in connection with the suits. In the company's estimation, there is not a reasonable possibility that an exposure to loss exists for the suits that is materially in excess of the estimated liability accrued. At June 30, 2017, the company has accrued its estimated liability for the suits of \$18 million and an insurance receivable of \$18 million.

Manhattan Explosion and Fire

On March 12, 2014, two multi-use five-story tall buildings located on Park Avenue between 116th and 117th Streets in Manhattan were destroyed by an explosion and fire. CECONY had delivered gas to the buildings through service lines from a distribution main located below ground on Park Avenue. Eight people died and more than 50 people were injured. Additional buildings were also damaged. The National Transportation Safety Board (NTSB) investigated. The parties to the investigation included the company, the City of New York, the Pipeline and Hazardous Materials Safety Administration and the NYSPSC. In June 2015, the NTSB issued a final report concerning the incident, its probable cause and safety recommendations. The NTSB determined that the probable cause of the incident was (1) the failure of a defective fusion joint at a service tee (which joined a plastic service line to a plastic distribution main) installed by the company that allowed gas to leak from the distribution main and migrate into a building where it ignited and (2) a breach in a City sewer line that allowed groundwater and soil to flow into the sewer, resulting in a loss of support for the distribution main, which caused it to sag and overstressed the defective fusion joint. The NTSB also made safety recommendations, including recommendations to the company that addressed its procedures for the preparation and examination of plastic fusions, training of its staff on conditions for notifications to the City's Fire Department and extension of its gas main isolation valve installation program. In February 2017, the NYSPSC approved a settlement agreement with the company related to the NYSPSC's investigations of the incident and the practices of qualifying persons to perform plastic fusions. Pursuant to the agreement, the company will not recover from customers \$126 million of costs it incurred for gas emergency response activities in 2014, 2015 and 2016 in excess of the amounts reflected in its gas rate plan and will provide \$27 million of future benefits to customers (for which it has accrued a regulatory liability, see Note B). Approximately eighty suits are pending against the company seeking generally unspecified damages and, in some cases, punitive damages, for wrongful death, personal injury, property damage and business interruption. The company has notified its insurers of the incident and believes that the policies in force at the time of the incident will cover the company's costs, in excess of a required retention (the amount of which is not material), to satisfy any liability it may have for damages in connection with the incident. The company is unable to estimate the amount or range of its possible loss for damages related to the incident. At June 30, 2017, the company had not accrued a liability for damages related to the incident.

Other Contingencies

See "Other Regulatory Matters" in Note B and "Uncertain Tax Positions" in Note I.

Guarantees

Con Edison and its subsidiaries enter into various agreements providing financial or performance assurance primarily to third parties on behalf of their subsidiaries. Maximum amounts guaranteed by Con Edison totaled \$2,329 million and \$2,370 million at June 30, 2017 and December 31, 2016, respectively.

Table of Contents

A summary, by type and term, of Con Edison's total guarantees at June 30, 2017 is as follows:

| Guarantee Type | 0 – 3 year | 4 – 10 year | > 10 years | Total |
|--|-----------------------|-------------|------------|---------|
| | (Millions of Dollars) | | | |
| Con Edison Transmission | \$643 | \$404 | \$— | \$1,047 |
| Energy transactions | 497 | 31 | 215 | 743 |
| Renewable electric production projects | 392 | — | 19 | 411 |
| Other | 128 | — | — | 128 |
| Total | \$1,660 | \$435 | \$234 | \$2,329 |

Con Edison Transmission — Con Edison has guaranteed payment by CET Electric of the contributions CET Electric agreed to make to New York Transco LLC (NY Transco). CET Electric acquired a 45.7 percent interest in NY Transco when it was formed in 2014. In May 2016, the transmission owners transferred certain projects to NY Transco, for which CET Electric made its required contributions. NY Transco has proposed other transmission projects in the New York Independent System Operator's competitive bidding process. These other projects are subject to certain authorizations from the NYSPSC, the FERC and, as applicable, other federal, state and local agencies. Guarantee amount shown is for the maximum possible required amount of CET Electric's contributions for these other projects as calculated based on the assumptions that the projects are completed at 175 percent of their estimated costs and NY Transco does not use any debt financing for the projects. Guarantee term shown is assumed as the selection of the projects and resulting timing of the contributions is not certain. Also included within the table above is a guarantee for \$25 million from Con Edison on behalf of CET Gas in relation to a proposed gas transmission project in West Virginia and Virginia.

Energy Transactions — Con Edison guarantees payments on behalf of the Clean Energy Businesses in order to facilitate physical and financial transactions in electricity, gas, pipeline capacity, transportation, oil, renewable energy credits and energy services. To the extent that liabilities exist under the contracts subject to these guarantees, such liabilities are included in Con Edison's consolidated balance sheet. Guarantee amounts shown above include \$21 million of guarantees provided by Con Edison on behalf of Con Edison Solutions that may continue in effect during the period in which Con Edison Solutions provides transition services in connection with the retail electric supply business it sold in September 2016. As part of the sale agreement, the purchaser has agreed to pay Con Edison Solutions for draws on such guarantees.

Renewable Electric Production Projects — Con Edison, Con Edison Development, and Con Edison Solutions guarantee payments on behalf of their wholly-owned subsidiaries associated with their investment in, or development for others of, solar and wind energy facilities.

Other — Other guarantees include \$70 million in guarantees provided by Con Edison to Travelers Insurance Company for indemnity agreements for surety bonds in connection with operation of solar energy facilities and energy service projects of Con Edison Development and Con Edison Solutions, respectively. Other guarantees also includes Con Edison's guarantee (subject to a \$53 million maximum amount) of certain obligations of Con Edison Solutions under the agreement pursuant to which it sold its retail electric supply business. In addition, Con Edison issued a guarantee estimated at \$5 million to the Public Utility Commission of Texas covering obligations of Con Edison Solutions as a retail electric provider. As part of the sale agreement for the retail electric supply business discussed above, the purchaser has agreed to pay Con Edison Solutions for draws on the guarantee to the Public Utility Commission of Texas.

Note I — Income Tax

Con Edison's income tax expense decreased to \$102 million for the three months ended June 30, 2017 from \$124 million for the three months ended June 30, 2016. Con Edison's effective tax rate for the three months ended June 30, 2017 and 2016 was 37 percent and 35 percent, respectively. The increase in Con Edison's effective tax rate is primarily due to a decrease in tax benefits for plant-related flow through items and higher reserves for injuries and damages, offset in part by lower state income taxes and bad debt expense.

CECONY's income tax expense increased to \$91 million for the three months ended June 30, 2017 from \$84 million for the three months ended June 30, 2016. CECONY's effective tax rate for the three months ended June 30, 2017 and 2016 was 39 percent and 34 percent, respectively. The increase in CECONY's effective tax rate is primarily due to a decrease in tax benefits for plant-related flow through items and higher reserves for injuries and damages, offset in part by lower state income taxes and bad debt expense.

28

28

Table of Contents

Con Edison's income tax expense increased to \$330 million for the six months ended June 30, 2017 from \$288 million for the six months ended June 30, 2016. Con Edison's effective tax rate for the six months ended June 30, 2017 and 2016 was 37 percent and 35 percent, respectively. The increase in Con Edison's effective tax rate is primarily due to a decrease in tax benefits for plant-related flow through items and higher reserves for injuries and damages, offset in part by lower state income taxes and bad debt expense.

CECONY's income tax expense increased to \$309 million for the six months ended June 30, 2017 from \$264 million for the six months ended June 30, 2016. CECONY's effective tax rate for the six months ended June 30, 2017 and 2016 was 39 percent and 36 percent, respectively. The increase in CECONY's effective tax rate is primarily due to a decrease in tax benefits for plant-related flow through items, lower research and development tax credits and higher reserve for injuries and damages, offset in part by lower state income taxes and bad debt expense.

Con Edison anticipates a federal consolidated net operating loss for 2017, primarily due to bonus depreciation. Con Edison expects to carryback a portion of its 2017 net operating loss to recover \$18 million of income tax. The remaining 2017 net operating loss, as well as general business tax credits generated in 2017, will be carried forward to future tax years. A deferred tax asset for these tax attribute carryforwards was recorded, and no valuation allowance has been provided, as it is more likely than not that the deferred tax asset will be realized.

Uncertain Tax Positions

At June 30, 2017, the estimated liability for uncertain tax positions for Con Edison was \$40 million (\$21 million for CECONY). Con Edison reasonably expects to resolve approximately \$33 million (\$23 million, net of federal taxes) of its uncertain tax positions within the next twelve months, including \$19 million (\$13 million, net of federal taxes), which, if recognized, would reduce Con Edison's effective tax rate. The amount related to CECONY is approximately \$17 million (\$12 million, net of federal taxes), including \$2 million, which, if recognized, would reduce CECONY's effective tax rate. The total amount of unrecognized tax benefits, if recognized, that would reduce Con Edison's effective tax rate is \$23 million (\$16 million, net of federal taxes).

The Companies recognize interest on liabilities for uncertain tax positions in interest expense and would recognize penalties, if any, in operating expenses in the Companies' consolidated income statements. In the three and six months ended June 30, 2017, the Companies recognized an immaterial amount of interest expense and no penalties for uncertain tax positions in their consolidated income statements. At June 30, 2017 and December 31, 2016, the Companies recognized an immaterial amount of accrued interest on their consolidated balance sheets.

Table of Contents

Note J — Financial Information by Business Segment

Con Edison's principal business segments are CECONY's regulated utility activities, O&R's regulated utility activities, the Clean Energy Businesses and Con Edison Transmission. CECONY's principal business segments are its regulated electric, gas and steam utility activities. The financial data for the business segments for the three and six months ended June 30, 2017 and 2016 were as follows:

| (Millions of Dollars) | For the Three Months Ended June 30, | | | | | | | |
|---------------------------|-------------------------------------|----------------|------------------------|------------|-------------------------------|--------------|-------------------------|--------------|
| | Operating revenues | | Inter-segment revenues | | Depreciation and amortization | | Operating income/(loss) | |

(a) Parent company and consolidation adjustments. Other does not represent a business segment.

Note K — Derivative Instruments and Hedging Activities

Con Edison's subsidiaries hedge market price fluctuations associated with physical purchases and sales of electricity, natural gas, steam and, to a lesser extent, refined fuels by using derivative instruments including futures, forwards, basis swaps, options, transmission congestion contracts and financial transmission rights contracts. Derivatives are recognized on the consolidated balance sheet at fair value (see Note L), unless an exception is available under the accounting rules for derivatives and hedging. Qualifying derivative contracts that have been designated as normal purchases or normal sales contracts are not reported at fair value under the accounting rules.

30

30

Table of Contents

The fair values of the Companies' commodity derivatives including the offsetting of assets and liabilities on the consolidated balance sheet at June 30, 2017 and December 31, 2016 were:

| (Millions of Dollars) Balance Sheet Location | 2017 | | Net Amounts of Assets/ (Liabilities) (a) | 2016 | | Net Amounts of Assets/ (Liabilities) (a) | |
|---|--|----------------------------|---|--|----------------------------|---|------------|
| | Gross Amounts of Recognized Assets/(Liabilities) | Gross Amounts Offset | | Gross Amounts of Recognized Assets/(Liabilities) | Gross Amounts Offset | | |
| Con Edison | | | | | | | |
| Fair value of derivative assets | | | | | | | |
| Current | \$93 | \$(78) | \$15 | (b)\$81 | \$(64) | \$17 | (b) |
| Noncurrent | 63 | (63) | — | 49 | (43) | 6 | |
| Total fair value of derivative assets | \$156 | \$(141) | \$15 | \$130 | \$(107) | \$23 | |
| Fair value of derivative liabilities | | | | | | | |
| Current | \$(153) | \$89 | \$(64) | \$(138) | \$61 | \$(77) | |
| Noncurrent | (136) | 62 | (74) | (91) | 52 | (39) | (c) |
| Total fair value of derivative liabilities | \$(289) | \$151 | \$(138) | \$(229) | \$113 | \$(116) | |
| Net fair value derivative assets/(liabilities) | \$(133) | \$10 | \$(123) | (b)\$99 | \$6 | \$(93) | (b) (c) |
| CECONY | | | | | | | |
| Fair value of derivative assets | | | | | | | |
| Current | \$52 | \$(48) | \$4 | (b)\$52 | \$(45) | \$7 | (b) |
| Noncurrent | 53 | (53) | — | 41 | (35) | 6 | |
| Total fair value of derivative assets | \$105 | \$(101) | \$4 | \$93 | \$(80) | \$13 | |
| Fair value of derivative liabilities | | | | | | | |
| Current | \$(105) | \$56 | \$(49) | \$(111) | \$45 | \$(66) | |
| Noncurrent | (119) | 53 | (66) | (77) | 44 | (33) | |
| Total fair value of derivative liabilities | \$(224) | \$109 | \$(115) | \$(188) | \$89 | \$(99) | |
| Net fair value derivative assets/(liabilities) | \$(119) | \$8 | \$(111) | (b)\$95 | \$9 | \$(86) | (b) |

Derivative instruments and collateral were offset on the consolidated balance sheet as applicable under the accounting rules. The Companies enter into master agreements for their commodity derivatives. These agreements (a) typically provide offset in the event of contract termination. In such case, generally the non-defaulting party's payable will be offset by the defaulting party's payable. The non-defaulting party will customarily notify the defaulting party within a specific time period and come to an agreement on the early termination amount.

At June 30, 2017 and December 31, 2016, margin deposits for Con Edison (\$7 million and \$7 million, respectively) and CECONY (\$7 million and \$7 million, respectively) were classified as derivative assets on the (b) consolidated balance sheet, but not included in the table. Margin is collateral, typically cash, that the holder of a derivative instrument is required to deposit in order to transact on an exchange and to cover its potential losses with its broker or the exchange.

(c) Does not include \$(1) million for interest rate swap.

The Utilities generally recover their prudently incurred fuel, purchased power and gas costs, including hedging gains and losses, in accordance with rate provisions approved by the applicable state utility regulators. In accordance with the accounting rules for regulated operations, the Utilities record a regulatory asset or liability to defer recognition of unrealized gains and losses on their electric and gas derivatives. As gains and losses are realized in future periods, they will be recognized as purchased power, gas and fuel costs in the Companies' consolidated income statements. The Clean Energy Businesses record realized and unrealized gains and losses on their derivative contracts in purchased power, gas purchased for resale and non-utility revenue in the reporting period in which they occur. Management believes that these derivative instruments represent economic hedges that mitigate exposure to fluctuations in commodity prices.

Table of Contents

The following table presents the realized and unrealized gains or losses on commodity derivatives that have been deferred or recognized in earnings for the three and six months ended June 30, 2017 and 2016:

| (Millions of Dollars) | Balance Sheet Location | For the Three Months Ended | | | |
|--|----------------------------|----------------------------|------|--------|------|
| | | June 30, | | CECONY | |
| | | Con Edison | | 2017 | 2016 |
| | | 2017 | 2016 | | |
| Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations: | | | | | |
| Current | Deferred derivative gains | \$(21) | \$10 | \$(17) | \$9 |
| Noncurrent | Deferred derivative gains | — | 1 | — | — |
| Total deferred gains/(losses) | | \$(21) | \$11 | \$(17) | \$9 |
| Current | Deferred derivative losses | \$22 | \$68 | \$20 | \$61 |
| Current | Recoverable energy costs | (40) | (52) | (39) | (47) |
| Noncurrent | Deferred derivative losses | (9) | 68 | (8) | 62 |
| Total deferred gains/(losses) | | \$(27) | \$84 | \$(27) | \$76 |

32

Table of Contents

The following table presents the hedged volume of Con Edison's and CECONY's derivative transactions at June 30, 2017:

| | Electric Energy (MWh) | Capacity (MW) (a)(b) | Natural Gas (Dt) (a)(b) | Refined Fuels (gallons) |
|------------|--------------------------|-------------------------|-------------------------------|----------------------------|
| Con Edison | 33,854,855 | 9,319 | 99,241,963 | 1,680,000 |
| CECONY | 31,442,175 | 4,500 | 91,970,000 | 1,680,000 |

(a) Volumes are reported net of long and short positions, except natural gas collars where the volumes of long positions are reported.

(b) Excludes electric congestion and gas basis swap contracts, which are associated with electric and gas contracts and hedged volumes.

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the Clean Energy Businesses. Credit risk relates to the loss that may result from a counterparty's nonperformance. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits, netting provisions within agreements, collateral or prepayment arrangements, credit insurance and credit default swaps. The Companies measure credit risk exposure as the replacement cost for open energy commodity and derivative positions plus amounts owed from counterparties for settled transactions. The replacement cost of open positions represents unrealized gains, net of any unrealized losses where the Companies have a legally enforceable right to offset.

At June 30, 2017, Con Edison and CECONY had \$70 million and \$9 million of credit exposure in connection with energy supply and hedging activities, net of collateral, respectively. Con Edison's net credit exposure consisted of \$23 million with investment-grade counterparties, \$21 million with non-investment grade/non-rated counterparties \$13 million with commodity exchange brokers, and \$13 million with independent system operators. CECONY's net credit exposure consisted of \$7 million with commodity exchange brokers and \$2 million with investment-grade counterparties.

The collateral requirements associated with, and settlement of, derivative transactions are included in net cash flows from operating activities in the Companies' consolidated statement of cash flows. Most derivative instrument contracts contain provisions that may require a party to provide collateral on its derivative instruments that are in a net liability position. The amount of collateral to be provided will depend on the fair value of the derivative instruments and the party's credit ratings.

The following table presents the aggregate fair value of the Companies' derivative instruments with credit-risk-related contingent features that are in a net liability position, the collateral posted for such positions and the additional collateral that would have been required to be posted had the lowest applicable credit rating been reduced one level and to below investment grade at June 30, 2017:

| (Millions of Dollars) | Con Edison (a) | CECONY (a) |
|--|----------------|------------|
| Aggregate fair value – net liabilities | \$128 | \$113 |
| Collateral posted | 41 | 41 |
| Additional collateral (b) (downgrade one level from current ratings) | 16 | 15 |
| Additional collateral (b) (downgrade to below investment grade from current ratings) | 99 | (c)84 |

(a) Non-derivative transactions for the purchase and sale of electricity and gas and qualifying derivative instruments, which have been designated as normal purchases or normal sales, are excluded from the table. These transactions primarily include purchases of electricity from independent system operators. In the event the Utilities and the Clean Energy Businesses were no longer extended unsecured credit for such purchases, the Companies would be required to post additional collateral of \$12 million at June 30, 2017. For certain other such non-derivative

transactions, the Companies could be required to post collateral under certain circumstances, including in the event counterparties had reasonable grounds for insecurity.

The Companies measure the collateral requirements by taking into consideration the fair value amounts of derivative instruments that contain credit-risk-related contingent features that are in a net liability position plus (b) amounts owed to counterparties for settled transactions and amounts required by counterparties for minimum financial security. The fair value amounts represent unrealized losses, net of any unrealized gains where the Companies have a legally enforceable right to offset.

Derivative instruments that are net assets have been excluded from the table. At June 30, 2017, if Con Edison had (c) been downgraded to below investment grade, it would have been required to post additional collateral for such derivative instruments of \$14 million.

Interest Rate Swap

In December 2016, the Clean Energy Businesses acquired Coram Wind project which holds an interest rate swap that terminates in June 2024, pursuant to which it pays a fixed-rate of 2.0855 percent and receives a LIBOR-based variable rate. The fair value of this interest rate swap was a liability of \$1 million as of June 30, 2017 and December 31, 2016 on Con Edison's consolidated balance sheet.

Table of Contents

Note L — Fair Value Measurements

The accounting rules for fair value measurements and disclosures define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or liabilities. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Companies often make certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, and the risks inherent in the inputs to valuation techniques. The Companies use valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

The accounting rules for fair value measurements and disclosures established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The rules require that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability, and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. The Companies classify fair value balances based on the fair value hierarchy defined by the accounting rules for fair value measurements and disclosures as follows:

Level 1 – Consists of assets or liabilities whose value is based on unadjusted quoted prices in active markets at the measurement date. An active market is one in which transactions for assets or liabilities occur with sufficient frequency and volume to provide pricing information on an ongoing basis. This category includes contracts traded on active exchange markets valued using unadjusted prices quoted directly from the exchange.

Level 2 – Consists of assets or liabilities valued using industry standard models and based on prices, other than quoted prices within Level 1, that are either directly or indirectly observable as of the measurement date. The industry standard models consider observable assumptions including time value, volatility factors and current market and contractual prices for the underlying commodities, in addition to other economic measures. This category includes contracts traded on active exchanges or in over-the-counter markets priced with industry standard models.

Level 3 – Consists of assets or liabilities whose fair value is estimated based on internally developed models or methodologies using inputs that are generally less readily observable and supported by little, if any, market activity at the measurement date. Unobservable inputs are developed based on the best available information and subject to cost benefit constraints. This category includes contracts priced using models that are internally developed and contracts placed in illiquid markets. It also includes contracts that expire after the period of time for which quoted prices are available and internal models are used to determine a significant portion of the value.

34

34

Table of Contents

Assets and liabilities measured at fair value on a recurring basis as of June 30, 2017 and December 31, 2016 are summarized below.

| (Millions of Dollars) | 2017 | | | 2016 | | | Total | |
|------------------------------|------------------|---------|--------------------------------------|---------|------------------|--------------------------------------|--------|-------|
| | Level 1 | Level 2 | Level 3 Netting Adjustment (e) | Level 1 | Level 2 | Level 3 Netting Adjustment (e) | | |
| Con Edison | | | | | | | | |
| Derivative assets: | | | | | | | | |
| Commodity (a)(b)(c) | \$67 | \$4 | \$(25) | \$22 | \$33 | \$7 | \$(24) | \$30 |
| Other (a)(b)(d) | 166 | — | — | 380 | 222 | — | — | 333 |
| Total assets | \$233 | \$4 | \$(25) | \$402 | \$234 | \$7 | \$(24) | \$363 |
| Derivative liabilities: | | | | | | | | |
| Commodity (a)(b)(c) | \$362 | \$14 | \$(42) | \$137 | \$444 | \$6 | \$(38) | \$116 |
| Interest Rate Swap (a)(b)(c) | 1 | — | — | 1 | 1 | — | — | 1 |
| Total liabilities | \$363 | \$14 | \$(42) | \$138 | \$445 | \$6 | \$(38) | \$117 |
| CECONY | | | | | | | | |
| Derivative assets: | | | | | | | | |
| Commodity (a)(b)(c) | \$3 | \$1 | \$2 | \$11 | \$10 | \$1 | \$(10) | \$20 |
| Other (a)(b)(d) | 241 | — | — | 352 | 206 | — | — | 306 |
| Total assets | \$244 | \$1 | \$2 | \$363 | \$216 | \$1 | \$(10) | \$326 |
| Derivative liabilities: | | | | | | | | |
| Commodity (a)(b)(c) | \$120 | \$7 | \$(13) | \$115 | \$124 | \$— | \$(26) | \$99 |

The Companies' policy is to review the fair value hierarchy and recognize transfers into and transfers out of the (a) levels at the end of each reporting period. There were no transfers between levels 1, 2 and 3 for the six months ended June 30, 2017 and for the year ended December 31, 2016.

Level 2 assets and liabilities include investments held in the deferred compensation plan and/or non-qualified retirement plans, exchange-traded contracts where there is insufficient market liquidity to warrant inclusion in (b) Level 1, certain over-the-counter derivative instruments for electricity, refined products and natural gas. Derivative instruments classified as Level 2 are valued using industry standard models that incorporate corroborated observable inputs; such as pricing services or prices from similar instruments that trade in liquid markets, time value and volatility factors.

The accounting rules for fair value measurements and disclosures require consideration of the impact of (c) nonperformance risk (including credit risk) from a market participant perspective in the measurement of the fair value of assets and liabilities. At June 30, 2017 and December 31, 2016, the Companies determined that nonperformance risk would have no material impact on their financial position or results of operations.

(d) Other assets are comprised of assets such as life insurance contracts within the deferred compensation plan and non-qualified retirement plans.

(e) Amounts represent the impact of legally-enforceable master netting agreements that allow the Companies to net gain and loss positions and cash collateral held or placed with the same counterparties.

The employees in the Companies' risk management group develop and maintain the Companies' valuation policies and procedures for, and verify pricing and fair value valuation of, commodity derivatives. Under the Companies' policies and procedures, multiple independent sources of information are obtained for forward price curves used to value commodity derivatives. Fair value and changes in fair value of commodity derivatives are reported on a monthly basis to the Companies' risk committees, comprised of officers and employees of the Companies that oversee energy hedging at the Utilities and the Clean Energy Businesses. The risk management group reports to the Companies' Vice President and Treasurer.

Table of Contents

| | Fair Value of Level 3 at June 30, 2017 (Millions of Dollars) | Valuation Techniques | Unobservable Inputs | Range |
|---|--|-------------------------|---|----------------------------|
| Con Edison – Commodity | | | | |
| Electricity | \$(11) | Discounted Cash Flow | Forward energy prices (a) | \$15.89-\$79.00 per MWh |
| | | Discounted Cash Flow | Forward capacity prices (a) | \$2.42-\$9.75 per kW-month |
| Transmission Congestion Contracts/Financial Transmission Rights | 1 | Discounted Cash Flow | Discount to adjust auction prices for inter-zonal forward price curves (b) | 50.0% |
| | | | Inter-zonal forward price curves adjusted for historical zonal losses (b) | \$0.50-\$9.30 per MWh |
| Total Con Edison—Commodity CECONY—Commodity | \$(10) | | | |
| Electricity | \$(7) | Discounted Cash Flow | Forward energy prices (a) | \$22.50-\$77.25 per MWh |
| | | | Discount to adjust auction prices for inter-zonal forward price curves (b) | 50.0% |
| Transmission Congestion Contracts | \$1 | Discounted Cash Flow | | |
| Total CECONY—Commodity | \$(6) | | | |

(a) Generally, increases/(decreases) in this input in isolation would result in a higher/(lower) fair value measurement.

(b) Generally, increases/(decreases) in this input in isolation would result in a lower/(higher) fair value measurement.

The table listed below provides a reconciliation of the beginning and ending net balances for assets and liabilities measured at fair value as of June 30, 2017 and 2016 and classified as Level 3 in the fair value hierarchy:

| (Millions of Dollars) | For the Three Months Ended June 30, | | | |
|---|--|-------|--------|------|
| | Con Edison | | CECONY | |
| | 2017 | 2016 | 2017 | 2016 |
| Beginning balance as of April 1, | \$3 | \$(4) | \$1 | \$2 |
| Included in earnings | 2 | 5 | 1 | — |
| Included in regulatory assets and liabilities | (11) | 1 | (7) | (1) |
| Purchases | — | 1 | — | 1 |
| Settlements | (4) | 2 | (1) | — |
| Ending balance as of June 30, | \$(10) | \$5 | \$(6) | \$2 |

| (Millions of Dollars) | For the Six Months Ended June 30, | | | |
|-----------------------|--------------------------------------|------|--------|------|
| | Con Edison | | CECONY | |
| | 2017 | 2016 | 2017 | 2016 |
| | | | | |

Edgar Filing: CONSOLIDATED EDISON INC - Form 10-Q

| | | | | |
|---|--------|-----|-------|-----|
| Beginning balance as of January 1, | \$1 | \$6 | \$1 | \$8 |
| Included in earnings | 1 | (2) | — | (1) |
| Included in regulatory assets and liabilities | (9) | (2) | (7) | (5) |
| Purchases | 1 | 1 | 1 | 1 |
| Settlements | (4) | 2 | (1) | (1) |
| Ending balance as of June 30, | \$(10) | \$5 | \$(6) | \$2 |

For the Utilities, realized gains and losses on Level 3 commodity derivative assets and liabilities are reported as part of purchased power, gas and fuel costs. The Utilities generally recover these costs in accordance with rate provisions approved by the applicable state public utilities regulators. Unrealized gains and losses for commodity derivatives are generally deferred on the consolidated balance sheet in accordance with the accounting rules for regulated operations. For the Clean Energy Businesses, realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (immaterial for both periods) and purchased power costs (\$1 million loss and \$5 million gain) on the consolidated income statement for the three months ended June 30, 2017 and 2016, respectively. Realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (immaterial for both periods) and purchased power costs (\$1 million loss and \$2 million loss) on the consolidated income statement for the six months ended June 30, 2017 and 2016, respectively. The change in fair value relating to Level 3 commodity derivative assets and liabilities held at June 30, 2017 and 2016 is included in non-utility revenues (immaterial for both periods) and purchased power costs (\$2 million loss and \$7 million gain) on the consolidated income statement for the three months ended June 30, 2017 and 2016, respectively. For the six months ended June 30, 2017 and 2016, the change in fair value relating to Level 3

36

36

Table of Contents

commodity derivative assets and liabilities is included in non-utility revenues (immaterial for both periods) and purchased power costs (\$2 million loss and \$3 million gain) on the consolidated income statement, respectively.

Note M — Variable Interest Entities

Con Edison enters into arrangements including leases, partnerships and electricity purchase agreements, with various entities. As a result of these arrangements, Con Edison retains or may retain a variable interest in these entities. CECONY has an ongoing long-term electricity purchase agreement with Brooklyn Navy Yard Cogeneration Partners, LP, a potential variable interest entity (VIE). In April 2017, CECONY's long-term electricity purchase agreement with Cogen Technologies Linden Venture, LP, another potential VIE, expired. In 2016, requests were made of these counterparties for information necessary to determine whether the entity was a VIE and whether CECONY is the primary beneficiary; however, the information was not made available. The payments for these contracts constitute CECONY's maximum exposure to loss with respect to the potential VIEs.

The following table summarizes the VIEs in which Con Edison Development has entered into as of June 30, 2017:

| Project Name (a) | Generating Capacity (b) (MW AC) | Power Purchase Agreement Term (in Years) | Year of Initial Investment | Location | Maximum Exposure to Loss (Millions of Dollars) (c) |
|-------------------------|---------------------------------|--|----------------------------|------------|--|
| Copper Mountain Solar 3 | 128 | 20 | 2014 | Nevada | \$176 |
| Mesquite Solar 1 | 83 | 20 | 2013 | Arizona | 102 |
| Copper Mountain Solar 2 | 75 | 25 | 2013 | Nevada | 83 |
| California Solar | 55 | 25 | 2012 | California | 62 |
| Broken Bow II | 38 | 25 | 2014 | Nebraska | 46 |
| Texas Solar 4 | 32 | 25 | 2014 | Texas | 47 |

(a) With the exception of Texas Solar 4, Con Edison's ownership interest is 50 percent and these projects are accounted for using the equity method of accounting. With the exception of Texas Solar 4, Con Edison is not the primary beneficiary since the power to direct the activities that most significantly impact the economics of the entities are shared equally between Con Edison Development and third parties. Con Edison's ownership interest in Texas Solar 4 is 80 percent and is consolidated in the financial statements. Con Edison is the primary beneficiary since the power to direct the activities that most significantly impact the economics of Texas Solar 4 is held by Con Edison Development.

(b) Represents Con Edison Development's ownership interest in the project.

(c) For investments accounted for under the equity method, maximum exposure is equal to the carrying value of the investment on the consolidated balance sheet. For consolidated investments, such as Texas Solar 4, maximum exposure is equal to the net assets of the project on the consolidated balance sheet less any applicable noncontrolling interest (\$7 million for Texas Solar 4). Con Edison did not provide any financial or other support during the three and six months ended June 30, 2017 that was not previously contractually required.

Note N — New Financial Accounting Standards

In May 2014, the Financial Accounting Standards Board (FASB) and the International Accounting Standards Board jointly issued a revenue recognition standard that will supersede the revenue recognition requirements within Accounting Standards Codification Topic 605, "Revenue Recognition," and most industry-specific guidance under the

Codification through Accounting Standards Update (ASU) No. 2014-09, “Revenue from Contracts with Customers (Topic 606).” The purpose of the new guidance is to create a consistent framework for revenue recognition. The guidance clarifies how to measure and recognize revenue arising from customer contracts to depict the transfer of goods or services in an amount that reflects the consideration the entity expects to receive. Amendments were issued subsequently to clarify key areas including principal/agent considerations, performance obligations, licensing, sales taxes, noncash consideration, and contracts. The new standard is effective for reporting periods beginning after December 15, 2017. Early adoption is permitted for reporting periods beginning after December 15, 2016, however, the Companies plan to adopt the new standard for reporting periods beginning after December 15, 2017.

Under the new standard, companies may use either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a modified retrospective approach with the cumulative effect of initially adopting ASU 2014-09 recognized at the date of adoption (which includes additional footnote disclosures). The Companies anticipate using the modified retrospective approach.

Table of Contents

The Companies are currently in the process of evaluating the impact of the new standard on their various revenue streams. The majority of the Companies' sales are derived from tariffs to provide electric, gas, and steam service to customers. For such tariffs, the Companies expect that the revenue from contracts with the customer under ASU 2014-09 will be equivalent to the electricity, gas, or steam supplied in that period which is consistent with current practice. Consequently, the Companies do not anticipate that the new standard will materially impact the amount and/or timing of such revenues. The Companies continue to review the potential impacts of other revenue at the Utilities and the Clean Energy Businesses on the Companies' financial position, results of operations and liquidity as well as the additional disclosures required under the new standard.

In February 2016, the FASB issued amendments on financial reporting of leasing transactions through ASU No. 2016-02, "Leases (Topic 842)." The amendments require lessees to recognize assets and liabilities on the balance sheet and disclose key information about leasing arrangements. Lessees will need to recognize a right-of-use asset and a lease liability for virtually all of their leases (other than leases that meet the definition of a short-term lease). Lessor accounting is similar to the current model, but updated to align with certain changes to the lessee model. For income statement purposes, the pattern of expense recognition will be dependent on whether transactions are designated as operating leases or finance leases. The amendments are effective for reporting periods beginning after December 15, 2018. Early adoption is permitted. The amendments must be adopted using a modified retrospective transition and provide for certain practical expedients. Based on the existing portfolio of leases at implementation, for leases currently classified as operating leases, the Companies expect to recognize on the statements of financial position right-of-use assets and lease liabilities. The Companies are in the process of evaluating the potential impact of the new guidance on the Companies' results of operations and liquidity.

In January 2017, the FASB issued amendments to the guidance for Business Combinations through ASU 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business." The amendments in this update clarify the definition of a business and provide guidance on evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. For public entities, the amendments are effective for reporting periods beginning after December 15, 2017. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In January 2017, the FASB issued amendments to the guidance for the subsequent measurement of goodwill through ASU 2017-04, "Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment." The amendments in this update simplify goodwill impairment testing by eliminating Step 2 of the goodwill impairment test wherein an entity has to compute the implied fair value of goodwill by performing procedures to determine the fair value of its assets and liabilities. Under the new guidance, an entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value up to the total amount of goodwill allocated to that reporting unit. For public entities, the amendments are effective for reporting periods beginning after December 15, 2019. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In February 2017, the FASB issued amendments to the guidance for other income through ASU 2017-05, "Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets." The amendments in this update clarify the scope of assets within Subtopic 610-20 and add guidance for partial sales of nonfinancial assets. The amendments are effective upon the adoption of ASU 2014-09, and therefore will be effective for reporting periods beginning after December 15, 2017. The Company is in the process of evaluating the potential impact of the new guidance on the Company's financial position, results of operations and liquidity.

In March 2017, the FASB issued amendments to the guidance for retirement benefits through ASU 2017-07, “Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost.” The amendments in this update modify the presentation of net benefit cost, where the service component must be disaggregated from the other components of net benefit cost and be presented in the same line item as current employee compensation costs. The remaining components of the net benefit cost should be presented outside of income from operations. Additionally, the update allows only the service cost component to be eligible for capitalization. For public entities, the amendments are effective for reporting periods beginning after December 15, 2017. Early adoption is permitted. The Companies are in the process of

38

38

Table of Contents

evaluating the potential impact of the new guidance on the Companies' financial position, results of operations and liquidity.

In March 2017, the FASB issued amendments to the guidance for debt securities through ASU 2017-08, "Receivables-Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities." The amendments in this update shorten the amortization period for certain callable debt securities held at a premium. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. For public entities, the amendments are effective for reporting periods beginning after December 15, 2018. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In May 2017, the FASB issued amendments to the guidance for stock compensation through ASU 2017-09, "Compensation-Stock Compensation (Topic 718): Scope of Modification Accounting." The amendments in this update specify that changes to value, vesting conditions, or classification of an existing share-based payment award require application of modification accounting in Topic 718. For public entities, the amendments are effective for reporting periods beginning after December 15, 2017. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

Note O — Dispositions
Upton 2

In May 2017, Con Edison Development sold Upton 2, a development stage solar electric production project, for \$11 million to Vistra Asset Co. and recorded a \$1 million gain on sale (\$0.7 million, net of taxes). In addition, Con Edison Development agreed to perform the engineering, procurement and construction for the 180 MW (AC) project, which is expected to be substantially completed in 2018.

Table of Contents

Item 2: Management’s Discussion and Analysis of Financial Condition and Results of Operations

This combined management’s discussion and analysis of financial condition and results of operations (MD&A) relates to the consolidated financial statements (the Second Quarter Financial Statements) included in this report of two separate registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY). As used in this report, the term the “Companies” refers to Con Edison and CECONY. CECONY is a subsidiary of Con Edison and, as such, information in this management’s discussion and analysis about CECONY applies to Con Edison.

This MD&A should be read in conjunction with the Second Quarter Financial Statements and the notes thereto, the MD&A in Item 7 of the Companies’ combined Annual Report on Form 10-K for the year ended December 31, 2016 (File Nos. 1-14514 and 1-1217, the Form 10-K) and the MD&A in Part 1, Item 2 of the Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2017 (File Nos. 1-14514 and 1-1217).

Information in any item of this report referred to in this discussion and analysis is incorporated by reference herein. The use of terms such as “see” or “refer to” shall be deemed to incorporate by reference into this discussion and analysis the information to which reference is made.

Con Edison, incorporated in New York State in 1997, is a holding company that owns all of the outstanding common stock of CECONY, Orange and Rockland Utilities, Inc. (O&R), Con Edison Clean Energy Businesses, Inc. and Con Edison Transmission, Inc. As used in this report, the term the “Utilities” refers to CECONY and O&R.

Con Edison’s principal business operations are those of CECONY, O&R, the Clean Energy Businesses and Con Edison Transmission. CECONY’s principal business operations are its regulated electric, gas and steam delivery businesses. O&R’s principal business operations are its regulated electric and gas delivery businesses. The Clean Energy Businesses develop, own and operate renewable and energy infrastructure projects and provide energy-related products and services to wholesale and retail customers. Con Edison Transmission invests in electric transmission facilities and gas pipeline and storage facilities.

Con Edison seeks to provide shareholder value through continued dividend growth, supported by earnings growth in regulated utilities and contracted assets. The company invests to provide reliable, resilient, safe and clean energy critical for New York City’s growing economy. The company is an industry leading owner and operator of contracted, large-scale solar generation in the United States. Con Edison is a responsible neighbor, helping the communities it serves become more sustainable.

40

40

Table of Contents

CECONY

Electric

CECONY provides electric service to approximately 3.4 million customers in all of New York City (except a part of Queens) and most of Westchester County, an approximately 660 square mile service area with a population of more than nine million.

CECONY's 2016 service area peak demand was 12,652 MW, including an estimated 4,541 MW for CECONY's full-service customers, 6,114 MW for customers participating in its electric retail choice program and 1,997 MW for NYPA's electric commodity customers and municipal electric agency customers. The company estimates that, under design weather conditions, the 2017 service area peak demand will be 13,470 MW, including an estimated 4,912 MW for its full-service customers, 6,402 MW for its electric retail choice customers and 2,156 MW for NYPA's customers and municipal electric agency customers.

Gas

CECONY delivers gas to approximately 1.1 million customers in Manhattan, the Bronx, parts of Queens and most of Westchester County.

In May 2017, the company decreased its five-year forecast of average annual growth of the peak gas demand in its service area at design conditions from approximately 2.3 percent (for 2017 to 2021) to 1.6 percent (for 2018 to 2022). The decrease reflects, among other things, that in rolling the forecast forward a year, another year of oil-to-gas conversions has been completed and fewer opportunities to convert remain.

Steam

CECONY operates the largest steam distribution system in the United States by producing and delivering approximately 20,000 MMlb of steam annually to approximately 1,650 customers in parts of Manhattan.

O&R

Electric

O&R and its utility subsidiary, Rockland Electric Company (RECO) (together referred to herein as O&R) provide electric service to approximately 0.3 million customers in southeastern New York and northern New Jersey, an approximately 1,300 square mile service area.

Gas

O&R delivers gas to over 0.1 million customers in southeastern New York.

Clean Energy Businesses

Con Edison Clean Energy Businesses, Inc. has three wholly-owned subsidiaries: Consolidated Edison Development, Inc. (Con Edison Development), Consolidated Edison Energy, Inc. (Con Edison Energy) and Consolidated Edison Solutions, Inc. (Con Edison Solutions). Con Edison Clean Energy Businesses, Inc., together with these subsidiaries (which were formerly referred to as the competitive energy businesses), are referred to in this report as the Clean Energy Businesses.

In September 2016, Con Edison sold the retail electric supply business of its Clean Energy Businesses to a subsidiary of Exelon Corporation for cash consideration of \$235 million. In addition, Con Edison received \$23 million in cash as a working capital adjustment in February 2017.

In May 2017, Con Edison Development sold a development-stage solar electric production project for \$11 million and agreed to perform engineering, procurement and construction for the project. See Note O to the Second Quarter Financial Statements.

Table of Contents

Con Edison Transmission

Con Edison Transmission, Inc. invests in electric and gas transmission projects through its wholly-owned subsidiaries, Consolidated Edison Transmission, LLC (CET Electric) and Con Edison Gas Pipeline and Storage, LLC (CET Gas). CET Electric owns a 45.7 percent interest in New York Transco LLC, which owns and is proposing to build additional electric transmission assets in New York. CET Gas owns, through subsidiaries, a 50 percent interest in a joint venture that owns, operates and will further develop an existing gas pipeline and storage business located in northern Pennsylvania and southern New York and a 71.2 percent interest in Honeoye Storage Corporation which operates a gas storage business in upstate New York. In addition, CET Gas owns a 12.5 percent interest in a company developing a proposed gas transmission project in West Virginia and Virginia. Con Edison Transmission, Inc., together with CET Electric and CET Gas, are referred to in this report as Con Edison Transmission.

Certain financial data of Con Edison's businesses are presented below:

| (Millions of Dollars, except percentages) | For the Three Months Ended June 30, 2017 | | | For the Six Months Ended June 30, 2017 | | | At June 30, 2017 | |
|---|--|-------|-------|--|-------|-------|------------------|-------|
| | Operating Revenue | | | Operating Revenue | | | Assets | |
| CECONY | \$2,292 | \$143 | 82 % | \$3,140 | \$482 | 86 % | \$41,548 | 85 % |
| O&R | 795 | 5 | 3 | 733 | 31 | 5 | 2,770 | 6 |
| Total Utilities | 2,488 | 148 | 85 | 3,582 | 513 | 91 | 44,318 | 91 |
| Clean Energy Businesses (a) | 646 | 21 | 12 | 383 | 28 | 5 | 2,773 | 6 |
| Con Edison Transmission | — | 9 | 5 | — | 16 | 3 | 1,170 | 2 |
| Other (b) | (4) | (3) | (2) | (4) | 6 | 1 | 838 | 1 |
| Total Con Edison | \$2,692 | \$175 | 100 % | \$3,861 | \$563 | 100 % | \$49,099 | 100 % |

Net income from the Clean Energy Businesses includes for the three and six months ended June 30, 2017 \$1 million net after-tax gain related to the sale of a development stage solar electric production project (see Note O to the Second Quarter Financial Statements). Also includes for the three and six months ended June 30, 2017 \$4 million and \$3 million of net after-tax mark-to-market losses, respectively.

(b) Other includes parent company and consolidation adjustments.

Results of Operations

Net income and earnings per share for the three and six months ended June 30, 2017 and 2016 were as follows:

| (Millions of Dollars, except per share amounts) | For the Three Months Ended June 30, 2017 | | | | For the Six Months Ended June 30, 2017 | | | |
|---|--|-------|--------------------|--------|--|-------|--------------------|--------|
| | Net Income | | Earnings per Share | | Net Income | | Earnings per Share | |
| CECONY | \$143 | \$161 | \$0.47 | \$0.54 | \$482 | \$472 | \$1.58 | \$1.59 |
| O&R | 5 | 2 | 0.01 | 0.01 | 31 | 28 | 0.10 | 0.10 |
| Clean Energy Businesses (a) | 21 | 72 | 0.07 | 0.24 | 28 | 42 | 0.09 | 0.14 |
| Con Edison Transmission | 9 | 1 | 0.03 | — | 16 | 1 | 0.05 | — |
| Other (b) | (3) | (4) | (0.01) | (0.01) | 6 | (1) | 0.02 | — |
| Con Edison (c) | \$175 | \$232 | \$0.57 | \$0.78 | \$563 | \$542 | \$1.84 | \$1.83 |

(a) Includes \$(4) million or \$(0.01) a share and \$58 million or \$0.20 a share of net after-tax mark-to-market gains/(losses) for the three months ended June 30, 2017 and 2016, respectively, and \$(3) million or \$(0.01) a share and \$20 million or \$0.07 a share of net after-tax mark-to-market gains/(losses) for the six months ended June 30, 2017 and 2016, respectively. Substantially all the mark-to-market effects in the 2016 periods related to the retail

electric supply business sold in September 2016. Also includes a \$1 million or \$0.00 a share net after-tax gain on the sale of a solar electric production project for the three and six months ended June 30, 2017 (see Note O to the Second Quarter Financial Statements) and a \$5 million or \$0.02 a share net after-tax loss related to the impairment of a solar electric production investment for the three and six months ended June 30, 2016.

(b) Other includes parent company and consolidation adjustments.

Earnings per share on a diluted basis were \$0.57 a share and \$0.77 a share for the three months ended

(c) June 30, 2017 and 2016, respectively, and \$1.84 a share and \$1.82 a share for the six months ended June 30, 2017 and 2016, respectively.

42

42

Table of Contents

The Companies' results of operations for the three and six months ended June 30, 2017, as compared with the 2016 periods, reflect changes in the Utilities' rate plans and regulatory charges and the impact of weather on steam revenues. The new electric rate plan of CECONY includes changes in the timing of recognition of annual revenues between quarters. Other operations and maintenance expenses for CECONY reflect lower costs for pensions and other postretirement benefits and lower regulatory assessments and fees that are collected in revenues from customers, offset in part by higher costs for municipal infrastructure support. The rate plans provide for revenues to cover expected changes in certain operating costs including depreciation, property taxes and other tax matters. The results of operations also include the impact of the net mark-to-market effects of the Clean Energy Businesses.

Table of Contents

The following table presents the estimated effect on earnings per share and net income for the three and six months ended June 30, 2017 period as compared with 2016 period, resulting from these and other major factors:

| (Millions of Dollars, except per share amounts) | Three Months | Six Months |
|--|------------------------------------|------------------------------------|
| | Variation | Variation |
| | Earnings per Share Variation | Earnings per Share Variation |
| CECONY (a) | | |
| Changes in rate plans and regulatory charges (b) | \$(0.05)(11) | \$0.8 6 |
| Weather impact on steam revenues | — (1) | 6.02 |
| Other operations and maintenance expenses (c) | 0.13 38 | 4.8 6 |
| Depreciation, property taxes and other tax matters (d) | (0.12)(38) | (0.2) 6 |
| Other (e) | (0.04)(6) | (0.3) 9 |
| Total CECONY | (0.07)(18) | (0.0) 1 |
| O&R (a) | | |
| Changes in rate plans and regulatory charges | 0.03 7 | 0.04 |
| Other operations and maintenance expenses (f) | (0.02)(4) | (0.0) 3 |
| Depreciation and property taxes | — — | (0.0) 1 |
| Other (e) | (0.01)— | 1— |
| Total O&R | — 3 | 3— |
| Clean Energy Businesses | | |
| Operating revenues less energy costs (g) | (0.15)(46) | (1) |
| Other operations and maintenance expenses | (0.02)(5) | (0.0) 2 |

| Net interest expense | — (2) | (0.0) 1 |
| Other (e) (h) | 0.02 7 | 0.02 |
| Total Clean Energy Businesses | (0.17)(51) | (0.0) 5 |
| Con Edison Transmission (e) (i) | 0.03 8 | 0.05 |
| Other, including parent company expenses (e) (j) | — 1 | 0.02 |
| Total variations | \$(0.25)(57) | \$0.0 1 |

- Under the revenue decoupling mechanisms in the Utilities' New York electric and gas rate plans and the weather-normalization clause applicable to their gas businesses, revenues are generally not affected by changes in
- (a) delivery volumes from levels assumed when rates were approved. In general, the Utilities recover on a current basis the fuel, gas purchased for resale and purchased power costs they incur in supplying energy to their full-service customers. Accordingly, such costs do not generally affect the Companies' results of operations. For the three months ended June 30, 2017 as compared to the 2016 period, reflects lower electric net base revenues of \$(0.05) a share, resulting from the timing of recognition of annual revenues between quarters under the company's new electric rate plan which reflected decreased assumed delivery volumes that offset increased base rates. For the six months ended June 30, 2017 as compared with the 2016 period, reflects higher electric net base revenues of \$0.02 a share, as over the six month period increased base rates offset decreased assumed delivery
- (b) volumes. Also, for the three and six months ended June 30, 2017 as compared with the 2016 periods, reflects higher gas net base revenues (\$0.05 a share and \$0.15 a share, respectively) and lower surcharges for assessments and fees that are collected in revenues from customers (\$(0.03) a share and \$(0.02) a share, respectively). For the six months ended June 30, 2017 as compared with the 2016 period, reflects growth in the number of gas customers of \$0.02 a share.
- (c) Reflects lower pension and other postretirement benefits costs of \$0.07 a share and \$0.15 a share as well as lower regulatory assessments and fees that are collected in revenues from customers of \$0.03 a share and \$0.02 a share for the three and six months ended June 30, 2017 as compared with the 2016 periods, offset, in part, by higher municipal infrastructure costs of \$(0.01) a share and \$(0.02) a share for the three and six months ended June 30,

2017 as compared with the 2016 periods.

Reflects higher depreciation and amortization expense of \$(0.04) a share and \$(0.09) a share, property taxes of (d) \$(0.04) a share and \$(0.09) a share, and income taxes of \$(0.04) a share and \$(0.08) a share for the three and six months ended June 30, 2017 as compared with the 2016 periods.

(e) Includes the impact of the dilutive effect of Con Edison's stock issuances.

Reflects higher pension costs of \$(0.01) a share and \$(0.01) a share for the three and six months ended June 30, (f) 2017 as compared with the 2016 periods. Also, for the six months ended June 30, 2017 as compared with the 2016 period, reflects higher regulatory assessments and fees that are collected from customers of \$(0.01) a share.

Reflects higher revenues from renewable electric production projects, offset by lower revenues from the retail electric supply business which was sold in September 2016. Includes \$(0.01) a share and \$0.20 a share of net (g) after-tax mark-to-market gains/(losses) for the three months ended June 30, 2017 and 2016, respectively, and \$(0.01) a share and \$0.07 a share of net after-tax mark-to-market gains/(losses) for the six months ended June 30, 2017 and 2016, respectively. Substantially all the mark-to-market effects in the 2016 periods related to the retail electric supply business sold in September 2016.

(h) Includes \$0.02 a share of net after-tax loss related to the impairment of a solar electric production investment for the three and six months ended June 30, 2016.

(i) Reflects income from equity investments.

(j) Reflects higher state income tax benefits.

Electric

CECONY's results of electric operations for the three months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Three Months Ended | | |
|----------------------------------|----------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$1,817 | \$1,892 | \$(75) |
| Purchased power | 358 | 364 | (6) |
| Fuel | 27 | 22 | 5 |
| Other operations and maintenance | 485 | 552 | (67) |
| Depreciation and amortization | 229 | 215 | 14 |
| Taxes, other than income taxes | 388 | 368 | 20 |
| Electric operating income | \$330 | \$371 | \$(41) |

CECONY's electric sales and deliveries for the three months ended June 30, 2017 compared with the 2016 period were:

| Description | Millions of kWh Delivered | | | | Revenues in Millions (a) | | | |
|---|-------------------------------|------------------|-----------|----------------------|-------------------------------|---------|-----------|----------------------|
| | For the Three Months Ended | | Variation | Percent Variation | For the Three Months Ended | | Variation | Percent Variation |
| June 30, 2017 | June 30, 2016 | June 30, 2017 | | | June 30, 2016 | | | |
| Residential/Religious (b) | 2,062 | 2,141 | (79) | (3.7) | \$546 | \$549 | \$(3) | (0.5) |
| Commercial/Industrial | 2,090 | 2,180 | (90) | (4.1) | 429 | 415 | 14 | 3.4 |
| Retail choice customers | 5,934 | 6,056 | (122) | (2.0) | 593 | 601 | (8) | (1.3) |
| NYPA, Municipal Agency and other sales | 2,330 | 2,377 | (47) | (2.0) | 146 | 139 | 7 | 5.0 |
| Other operating revenues (c) | — | — | — | — | 103 | 188 | (85) | (45.2) |
| Total | 12,416 | 12,754 | (338) | (2.7) | (d)\$1,817 | \$1,892 | \$(75) | (4.0) |

(a) Revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved.

(b) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

- (c) Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company's rate plans.
- (d) After adjusting for variations, primarily weather and billing days, electric delivery volumes in CECONY's service area decreased 0.9 percent in the three months ended June 30, 2017 compared with the 2016 period.

Table of Contents

Operating revenues decreased \$75 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to lower revenues from the electric rate plan (\$55 million) and lower purchased power expenses (\$6 million), offset in part by higher fuel expenses (\$5 million). The lower revenues included the timing of recognition of annual revenues between quarters under the new electric rate plan (\$23 million) and the decline in surcharges for assessments and fees that were collected in revenues from customers (\$15 million).

Purchased power expenses decreased \$6 million in the three months ended June 30, 2017 compared with the 2016 period due to lower purchased volumes (\$9 million), offset by higher unit costs (\$3 million).

Fuel expenses increased \$5 million in the three months ended June 30, 2017 compared with the 2016 period due to higher purchased volumes from the company's electric generating facilities (\$3 million) and higher unit costs (\$2 million).

Other operations and maintenance expenses decreased \$67 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to lower pension and other post employment benefits costs (\$38 million), surcharges for assessments and fees that are collected in revenues from customers (\$15 million) and uncollectible expense (\$6 million).

Depreciation and amortization increased \$14 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher electric utility plant balances.

Taxes, other than income taxes increased \$20 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes (\$16 million) and the absence in 2017 of a favorable state audit settlement in 2016 (\$5 million).

Gas
CECONY's results of gas operations for the three months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Three Months Ended | | |
|----------------------------------|----------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$388 | \$304 | \$84 |
| Gas purchased for resale | 84 | 51 | 33 |
| Other operations and maintenance | 107 | 101 | 6 |
| Depreciation and amortization | 45 | 39 | 6 |
| Taxes, other than income taxes | 69 | 65 | 4 |
| Gas operating income | \$83 | \$48 | \$35 |

CECONY's gas sales and deliveries, excluding off-system sales, for the three months ended June 30, 2017 compared with the 2016 period were:

| Residential | 10,303 | 9,692 | 611 | 6.3 % | \$171 | \$140 | \$31 | 22.1 % | |
| General | 6,503 | 6,014 | 489 | 8.1 | 74 | 56 | 18 | 32.1 | |
| Firm transportation | 14,771 | 14,409 | 362 | 2.5 | 102 | 88 | 14 | 15.9 | |
| Total firm sales and transportation | 31,577 | 30,115 | 1,462 | 4.9 | (b)347 | 284 | 63 | 22.2 | |
| Interruptible sales (c) | 2,109 | 1,815 | 294 | 16.2 | 9 | 5 | 4 | 80.0 | |
| NYPA | 10,493 | 11,062 | (569) | (5.1) | 1 | 1 | — | — | |
| Generation plants | 14,476 | 22,879 | (8,403) | (36.7) | 6 | 6 | — | — | |
| Other | 4,073 | 4,682 | (609) | (13.0) | 7 | 8 | (1) | (12.5) | |
| Other operating revenues (d) | — | — | — | — | 18 | — | 18 | — | |
| Total | 62,728 | 70,553 | (7,825) | (11.1 %) | \$388 | \$304 | \$84 | 27.6 % | |

Revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism, as a (a) result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

After adjusting for variations, primarily billing days, firm gas sales and transportation volumes in the company's (b) service area increased 2.2 percent in the three months ended June 30, 2017 compared with the 2016 period, reflecting primarily increased volumes attributable to the growth in the number of gas customers.

(c) Includes 1,217 thousands and 915 thousands of Dt for the 2017 and 2016 periods, respectively, which are also reflected in firm transportation and other.

(d) Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans.

Operating revenues increased \$84 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher revenues from the gas rate plan and growth in the number of customers (\$35 million) and higher gas purchased for resale expense (\$33 million).

Gas purchased for resale increased \$33 million in the three months ended June 30, 2017 compared with the 2016 period due to higher unit costs (\$42 million), offset by lower purchased volumes (\$9 million).

Other operations and maintenance expenses increased \$6 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher pension and other post employment benefits costs (\$4 million) and costs for maintenance of gas mains (\$1 million).

Depreciation and amortization increased \$6 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher gas utility plant balances.

Taxes, other than income taxes increased \$4 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes (\$3 million) and payroll taxes (\$1 million).

Steam

CECONY's results of steam operations for the three months ended June 30, 2017 compared with the 2016 period is as follows:

Edgar Filing: CONSOLIDATED EDISON INC - Form 10-Q

| Taxes, other than income taxes | 30 | 27 | 3 |
| Steam operating income | \$(26) | \$(27) | \$1 |

Table of Contents

CECONY's steam sales and deliveries for the three months ended June 30, 2017 compared with the 2016 period were:

| Description | Millions of Pounds Delivered For the Three Months Ended | | | | Revenues in Millions For the Three Months Ended | | | |
|--------------------------|---|------------------|-----------|----------------------|---|------------------|----------------------|--------|
| | June 30, 2017 | June 30, 2016 | Variation | Percent Variation | June 30, 2017 | June 30, 2016 | Percent Variation | |
| General | 58 | 68 | (10) | (14.7)% | \$4 | \$4 | \$— | % |
| Apartment house | 1,032 | 1,094 | (62) | (5.7) | 26 | 26 | — | |
| Annual power | 2,335 | 2,511 | (176) | (7.0) | 61 | 62 | (1.6) | |
| Other operating revenues | — | — | — | — | (3) | (7) | 4 | (57.1) |
| (a) | | | | | | | | |
| Total | 3,425 | 3,673 | (248) | (6.8)% | (b)\$88 | \$85 | \$3.5 | % |

(a) Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plan.

(b) After adjusting for variations, primarily weather and billing days, steam sales and deliveries decreased 2.6 percent in the three months ended June 30, 2017 compared with the 2016 period.

Operating revenues increased \$3 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher revenues from the steam rate plan.

Other operations and maintenance expenses decreased \$2 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to lower municipal infrastructure support costs.

Depreciation and amortization increased \$1 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher steam utility plant balances.

Taxes, other than income taxes increased \$3 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes.

Other Income (Deductions)

Other income (deductions) decreased \$1 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to an increase in other income deductions (\$3 million), offset by an increase in investment and other income (\$2 million).

Net Interest Expense

Net interest expense increased \$5 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher long-term debt balances in the 2017 period.

Income Tax Expense

Income taxes increased \$7 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to plant-related flow through items (\$11 million) and a higher reserve for injuries and damages (\$5 million), offset in part by lower income before income tax expense (\$4 million), a decrease in bad debt expense (\$3 million) and lower state income taxes (\$2 million).

Table of Contents

O&R

| (Millions of Dollars) | For the Three Months Ended June 30, 2017 | | | For the Three Months Ended June 30, 2016 | | | 2017-2016 Variation |
|----------------------------------|---|------|-------|---|-------|-------|------------------------|
| | Electric | Gas | Total | Electric | Gas | Total | |

Electric

O&R's results of electric operations for the three months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Three Months Ended | | |
|----------------------------------|----------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$148 | \$144 | \$4 |
| Purchased power | 46 | 45 | 1 |
| Other operations and maintenance | 62 | 60 | 2 |
| Depreciation and amortization | 13 | 13 | — |
| Taxes, other than income taxes | 13 | 12 | 1 |
| Electric operating income | \$14 | \$14 | \$— |

O&R's electric sales and deliveries for the three months ended June 30, 2017 compared with the 2016 period were:

| Description | Millions of kWh Delivered For the Three Months Ended | | | | Revenues in Millions (a) For the Three Months Ended | | | |
|------------------------------|--|------------------|-----------|----------------------|---|------------------|-----------|----------------------|
| | June 30, 2017 | June 30, 2016 | Variation | Percent Variation | June 30, 2017 | June 30, 2016 | Variation | Percent Variation |
| Residential/Religious (b) | 359 | 366 | (7) | (1.9)% | \$69 | \$66 | \$3 | 4.5% |
| Commercial/Industrial | 177 | 197 | (20) | (10.2)% | 27 | 28 | (1) | (3.6)% |
| Retail choice customers | 730 | 768 | (38) | (4.9)% | 48 | 50 | (2) | (4.0)% |
| Public authorities | 24 | 23 | 1 | 4.3% | 2 | 2 | — | — |
| Other operating revenues (c) | — | — | — | — | 2 | (2) | 4 | Large |
| Total | 1,290 | 1,354 | (64) | (4.7)% | (d)\$148 | \$144 | \$4 | 2.8% |

O&R's New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. O&R's electric sales in New Jersey are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact revenues.

- (b) “Residential/Religious” generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.
- (c) Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company’s electric rate plan.
- (d) After adjusting for weather and other variations, electric delivery volumes in O&R’s service area decreased 2.3 percent in the three months ended June 30, 2017 compared with the 2016 period.

Operating revenues increased \$4 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher revenues from the New York electric rate plan (\$3 million) and higher purchased power expenses (\$1 million).

Purchased power expenses increased \$1 million in the three months ended June 30, 2017 compared with the 2016 period due to higher purchased volumes (\$3 million), offset by lower unit costs (\$2 million).

Table of Contents

Other operations and maintenance expenses increased \$2 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to a higher reserve for injuries and damages, higher surcharges for assessments and fees that are collected in revenues from customers, and operating costs related to weather events in 2017.

Taxes, other than income taxes increased \$1 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes.

Gas

O&R's results of gas operations for the three months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Three Months Ended | | |
|----------------------------------|----------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$47 | \$31 | \$16 |
| Gas purchased for resale | 14 | 8 | 6 |
| Other operations and maintenance | 17 | 13 | 4 |
| Depreciation and amortization | 4 | 4 | — |
| Taxes, other than income taxes | 7 | 7 | — |
| Gas operating income | \$5 | \$(1) | \$6 |

O&R's gas sales and deliveries, excluding off-system sales, for the three months ended June 30, 2017 compared with the 2016 period were:

| Description | Thousands of Dt Delivered | | | | Revenues in Millions (a) | | | | |
|-------------------------------------|----------------------------|---------------|-----------|-------------------|----------------------------|------|-----------|-------------------|---|
| | For the Three Months Ended | | Variation | Percent Variation | For the Three Months Ended | | Variation | Percent Variation | |
| June 30, 2017 | June 30, 2016 | June 30, 2017 | | | June 30, 2016 | | | | |
| Residential | 1,092 | 1,150 | (58) | (5.0) | \$19 | \$12 | \$7 | 58.3 | % |
| General | 292 | 281 | 11 | 3.9 | 4 | 1 | 3 | Large | |
| Firm transportation | 1,457 | 1,722 | (265) | (15.4) | 13 | 12 | 1 | 8.3 | |
| Total firm sales and transportation | 2,841 | 3,153 | (312) | (9.9) | (b)36 | 25 | 11 | 44.0 | |
| Interruptible sales | 959 | 946 | 13 | 1.4 | 1 | 1 | — | — | |
| Generation plants | 1 | 11 | (10) | (90.9) | — | — | — | — | |
| Other | 118 | 132 | (14) | (10.6) | 1 | — | 1 | — | |
| Other gas revenues | — | — | — | — | 9 | 5 | 4 | 80.0 | |
| Total | 3,919 | 4,242 | (323) | (7.6) | \$47 | \$31 | \$16 | 51.6 | % |

Revenues from New York gas sales are subject to a weather normalization clause and a revenue decoupling (a) mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

(b) After adjusting for weather and other variations, total firm sales and transportation volumes decreased 0.5 percent in the three months ended June 30, 2017 compared with 2016 period.

Operating revenues increased \$16 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher revenues from the New York gas rate plan (\$9 million) and increased gas purchased for resale (\$6 million).

Gas purchased for resale increased \$6 million in the three months ended June 30, 2017 compared with the 2016 period due to higher purchased volumes (\$9 million), offset by lower unit costs (\$3 million).

Other operations and maintenance expenses increased \$4 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher pension costs.

Income Tax Expense

Income taxes increased \$3 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher income before income tax expense.

Table of Contents

Clean Energy Businesses

The Clean Energy Businesses' results of operations for the three months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Three Months Ended | | |
|---|----------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$146 | \$338 | \$(192) |
| Purchased power | — | 144 | (144) |
| Gas purchased for resale | 51 | 23 | 28 |
| Other operations and maintenance | 56 | 47 | 9 |
| Depreciation and amortization | 18 | 10 | 8 |
| Taxes, other than income taxes | 4 | 5 | (1) |
| Gain on sale of solar electric production project (a) | 1 | — | 1 |
| Operating income | \$18 | \$109 | \$(91) |

(a) See Note O to the Second Quarter Financial Statements.

Operating revenues decreased \$192 million in the three months ended June 30, 2017 compared with the 2016 period, due primarily to lower electric retail revenues of \$263 million from the sale of the retail electric supply business in September 2016. Renewable revenues increased \$36 million due primarily to an increase in renewable electric production projects in operation. See "Con Edison Development," below. Energy services revenues increased \$7 million. Wholesale revenues increased \$35 million due to higher sales volumes. Net mark-to-market values decreased \$104 million, due primarily to the sale of the retail electric supply business, of which \$97 million in losses are reflected in purchased power costs and \$7 million in losses are reflected in revenues.

Purchased power expenses decreased \$144 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to lower electric costs due to the sale of the retail electric supply business in September 2016 (\$240 million), offset by changes in mark-to-market values (\$96 million).

Gas purchased for resale increased \$28 million in the three months ended June 30, 2017 compared with the 2016 period due to higher purchased volumes.

Other operations and maintenance expenses increased \$9 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to an increase in energy services costs.

Depreciation and amortization increased \$8 million in the three months ended June 30, 2017 compared with the 2016 period due to an increase in solar electric production projects in operation during 2017.

Taxes, other than income taxes decreased \$1 million in the three months ended June 30, 2017 compared with the 2016 period primarily due to lower gross receipts tax from the sale of the retail electric supply business.

Other Income (Deductions)

Other income (deductions) increased \$7 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to the impairment of a solar electric production investment in 2016 of \$8 million.

Net Interest Expense

Net interest expense increased \$2 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to increased debt on solar electric production projects.

Income Tax Expense

Income taxes decreased \$35 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to lower income before income tax expense.

Table of Contents

Con Edison Transmission

Net Interest Expense

Net interest expense increased \$3 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to a new debt issuance in 2016.

Other Income (Deductions)

Other income (deductions) increased \$17 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to earnings from equity investments in Stagecoach Gas Services, LLC, substantially all of which were made in June 2016.

Income Tax Expense

Income taxes increased \$5 million in the three months ended June 30, 2017 compared with the 2016 period due primarily to higher income before income tax expense.

Other

For Con Edison, "Other" includes parent company and consolidation adjustments.

Electric

CECONY's results of electric operations for the six months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Six Months Ended | | |
|----------------------------------|--------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$3,610 | \$3,665 | \$(55) |
| Purchased power | 691 | 705 | (14) |
| Fuel | 70 | 60 | 10 |
| Other operations and maintenance | 982 | 1,081 | (99) |
| Depreciation and amortization | 458 | 428 | 30 |
| Taxes, other than income taxes | 787 | 746 | 41 |
| Electric operating income | \$622 | \$645 | \$(23) |

CECONY's electric sales and deliveries for the six months ended June 30, 2017 compared with the 2016 period were:

| Description | Millions of kWh Delivered | | | | Revenues in Millions (a) | | | |
|--|---------------------------|---------------|-----------|-------------------|--------------------------|---------------|-----------|-------------------|
| | For the Six Months Ended | | | | For the Six Months Ended | | | |
| | June 30, 2017 | June 30, 2016 | Variation | Percent Variation | June 30, 2017 | June 30, 2016 | Variation | Percent Variation |
| Residential/Religious (b) | 4,339 | 4,476 | (137) | (3.1)% | \$1,120 | \$1,134 | \$(14) | (1.2)% |
| Commercial/Industrial | 4,395 | 4,471 | (76) | (1.7)% | 859 | 830 | 29 | 3.5 |
| Retail choice customers | 12,238 | 12,269 | (31) | (0.3)% | 1,225 | 1,196 | 29 | 2.4 |
| NYPA, Municipal Agency and other sales | 4,843 | 4,877 | (34) | (0.7)% | 275 | 270 | 5 | 1.9 |
| Other operating revenues (c) | — | — | — | — | 131 | 235 | (104) | (44.3)% |
| Total | 25,815 | 26,093 | (278) | (1.1)% | (d)\$3,610 | \$3,665 | \$(55) | (1.5)% |

(a) Revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved.

(b) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

(c)

Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company's rate plans.

- (d) After adjusting for variations, primarily weather and billing days, electric delivery volumes in CECONY's service area decreased 0.6 percent in the six months ended June 30, 2017 compared with the 2016 period.

56

56

Table of Contents

Operating revenues decreased \$55 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to lower revenues from the electric rate plan (\$23 million) and lower purchased power costs (\$14 million), offset in part by higher fuel expenses (\$10 million). The lower revenues reflected the decline in surcharges for assessments and fees that were collected in revenues from customers (\$19 million).

Purchased power expenses decreased \$14 million in the six months ended June 30, 2017 compared with the 2016 period due to lower purchased volumes (\$24 million), offset by higher unit costs (\$10 million).

Fuel expenses increased \$10 million in the six months ended June 30, 2017 compared with the 2016 period due to higher unit costs (\$5 million) and purchased volumes from the company's electric generating facilities (\$5 million).

Other operations and maintenance expenses decreased \$99 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to lower pension and other post employment benefits costs (\$73 million) and surcharges for assessments and fees that are collected in revenues from customers (\$19 million).

Depreciation and amortization increased \$30 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher electric utility plant balances.

Taxes, other than income taxes increased \$41 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes (\$32 million), the absence in 2017 of a favorable state audit settlement in 2016 (\$5 million) and higher state and local taxes (\$1 million).

Gas
CECONY's results of gas operations for the six months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Six Months Ended | | |
|----------------------------------|--------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$1,153 | \$905 | \$248 |
| Gas purchased for resale | 314 | 183 | 131 |
| Other operations and maintenance | 225 | 204 | 21 |
| Depreciation and amortization | 90 | 78 | 12 |
| Taxes, other than income taxes | 150 | 139 | 11 |
| Gas operating income | \$374 | \$301 | \$73 |

CECONY's gas sales and deliveries, excluding off-system sales, for the six months ended June 30, 2017 compared with the 2016 period were:

| Description | Thousands of Dt Delivered For the Six Months Ended | | | | Revenues in Millions (a) For the Six Months Ended | | | |
|-------------------------------------|---|------------------|-----------|----------------------|--|------------------|----------------------|-------------------|
| | June 30, 2017 | June 30, 2016 | Variation | Percent Variation | June 30, 2017 | June 30, 2016 | Percent Variation | |
| Residential | 34,910 | 31,231 | 3,679 | 11.8 % | \$509 | \$417 | \$92 | 21.8 % |

| NYPA | 20,085 | 19,171 | 914 | 4.8 | 1 | 1 | — | |

Edgar Filing: CONSOLIDATED EDISON INC - Form 10-Q

| | | | | | | | |
|------------------------------|---------|---------|----------|---------|---------|-------|-------------------|
| Generation plants | 24,921 | 35,150 | (10,229) | (29.1) | 11 | 12 | (8)3) |
| Other | 12,269 | 11,467 | 802 | 7.0 | 18 | 19 | (5)3) |
| Other operating revenues (d) | — | — | — | — | 61 | (8) | 69arge |
| Total | 161,094 | 162,967 | (1,873) | (1.1)% | \$1,153 | \$905 | 2748 % |

Revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

Table of Contents

After adjusting for variations, primarily billing days, firm gas sales and transportation volumes in the company's (b) service area increased 6.4 percent in the six months ended June 30, 2017 compared with the 2016 period, reflecting primarily increased volumes attributable to the growth in the number of gas customers.

(c) Includes 2,027 thousands and 3,376 thousands of Dt for the 2017 and 2016 periods, respectively, which are also reflected in firm transportation and other.

(d) Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans.

Operating revenues increased \$248 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher gas purchased for resale expense (\$131 million) and higher revenues from the gas rate plan and growth in the number of customers (\$101 million).

Gas purchased for resale increased \$131 million in the six months ended June 30, 2017 compared with the 2016 period due to higher unit costs.

Other operations and maintenance expenses increased \$21 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher costs for maintenance of gas mains (\$5 million), pension and other post employment benefits costs (\$4 million), health and life expenses (\$4 million), and municipal infrastructure support (\$2 million).

Depreciation and amortization increased \$12 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher gas utility plant balances.

Taxes, other than income taxes increased \$11 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes (\$6 million), payroll taxes (\$2 million), and state and local taxes (\$2 million).

Steam

CECONY's results of steam operations for the six months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Six Months Ended | | |
|----------------------------------|--------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$386 | \$343 | \$43 |
| Purchased power | 19 | 16 | 3 |
| Fuel | 69 | 44 | 25 |
| Other operations and maintenance | 94 | 96 | (2) |
| Depreciation and amortization | 43 | 41 | 2 |
| Taxes, other than income taxes | 66 | 59 | 7 |
| Steam operating income | \$95 | \$87 | \$8 |

CECONY's steam sales and deliveries for the six months ended June 30, 2017 compared with the 2016 period were:

| Description | Millions of Pounds Delivered For the Six Months Ended | | | Revenues in Millions For the Six Months Ended | | | |
|-----------------|--|------------------|-----------------------------------|--|------------------|-----------|----------------------|
| | June 30, 2017 | June 30, 2016 | Variation Percent Variation | June 30, 2017 | June 30, 2016 | Variation | Percent Variation |

| Total | 11,485 | 11,500 | (15)(0.1)% | (b)\$386 | \$343 | \$43 | 12.5 % |

(a) Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plan.

(b) After adjusting for variations, primarily weather and billing days, steam sales and deliveries decreased 2.1 percent in the six months ended June 30, 2017 compared with the 2016 period.

58

58

Table of Contents

Operating revenues increased \$43 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher fuel expenses (\$25 million), the weather impact on revenues (\$8 million), higher purchased power costs (\$3 million), and higher revenues from the steam rate plan (\$2 million).

Purchased power expenses increased \$3 million in the six months ended June 30, 2017 compared with the 2016 period due to higher unit costs (\$6 million), offset by lower purchased volumes (\$3 million).

Fuel expenses increased \$25 million in the six months ended June 30, 2017 compared with the 2016 period due to higher unit costs (\$24 million) and purchased volumes from the company's steam generating facilities (\$1 million).

Other operations and maintenance expenses decreased \$2 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to lower surcharges for assessments and fees that are collected in revenues from customers.

Depreciation and amortization increased \$2 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher steam utility plant balances.

Taxes, other than income taxes increased \$7 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes (\$5 million) and state and local taxes (\$1 million).

Net Interest Expense

Net interest expense increased \$9 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher long-term debt balances in the 2017 period.

Income Tax Expense

Income taxes increased \$45 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher income before income tax expense (\$22 million), a decrease in tax benefits for plant-related flow through items (\$21 million), lower research and development tax credits (\$8 million) and a higher reserve for injuries and damages (\$6 million), offset in part by lower state income taxes (\$6 million) and a decrease in bad debt expense (\$4 million).

O&R

| (Millions of Dollars) | For the Six Months Ended June 30, 2017 | | | For the Six Months Ended June 30, 2016 | | | 2017-2016 Variation |

| Public authorities | 48 | 45 | 3 | 6.7 % | 4 | 4 | — | — |
| Other operating revenues (c) | — | — | — | — | 3 | (1) | 4 | Large |
| Total | 2,561 | 2,667 | (106) | (4.0 %) | (d) \$289 | \$284 | \$5 | 1.8 % |

O&R's New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. O&R's electric sales in New Jersey are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact revenues.

(a) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

(b) Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's electric rate plan.

(c) After adjusting for weather and other variations, electric delivery volumes in O&R's service area decreased 1.4 percent in the six months ended June 30, 2017 compared with the 2016 period.

Operating revenues increased \$5 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher revenues from the New York electric rate plan (\$4 million) and higher purchased power expense (\$3 million).

Purchased power expenses increased \$3 million in the six months ended June 30, 2017 compared with the 2016 period due to higher purchased volumes (\$4 million), offset by lower unit costs (\$1 million).

Other operations and maintenance expenses increased \$5 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher surcharges for assessments and fees that are collected in revenues from customers (\$2 million), operating costs related to weather events in 2017 (\$2 million), and a higher reserve for injuries and damages (\$1 million).

Depreciation and amortization increased \$1 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher electric utility plant balances.

Taxes, other than income taxes increased \$1 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher property taxes.

Gas
O&R's results of gas operations for the six months ended June 30, 2017 compared with the 2016 period is as follows:

60

60

| Other gas revenues | — | — | — | — | 15 | 9 | 66.7 % |
| Total | 14,536 | 14,704 | (168) | (1.1)% | \$144 | \$106 | \$38 % |

Revenues from New York gas sales are subject to a weather normalization clause and a revenue decoupling (a) mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

(b) After adjusting for weather and other variations, total firm sales and transportation volumes decreased 0.2 percent in the six months ended June 30, 2017 compared with 2016 period.

Operating revenues increased \$38 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to an increase in gas purchased for resale (\$19 million) and higher revenues from the New York gas rate plan (\$16 million).

Gas purchased for resale increased \$19 million in the six months ended June 30, 2017 compared with the 2016 period due to higher unit costs (\$10 million) and higher purchased volumes (\$9 million).

Other operations and maintenance expenses increased \$7 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher pension costs.

Depreciation and amortization increased \$1 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher gas utility plant balances.

Taxes, other than income taxes increased \$1 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher state and local taxes.

Income Tax Expense

Income taxes increased \$3 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher income before income tax expense.

Table of Contents

Clean Energy Businesses

The Clean Energy Businesses' results of operations for the six months ended June 30, 2017 compared with the 2016 period is as follows:

| (Millions of Dollars) | For the Six Months Ended | | |
|---|--------------------------|---------------|-----------|
| | June 30, 2017 | June 30, 2016 | Variation |
| Operating revenues | \$283 | \$648 | \$(365) |
| Purchased power | (2) | 443 | (445) |
| Gas purchased for resale | 114 | 33 | 81 |
| Other operations and maintenance | 94 | 84 | 10 |
| Depreciation and amortization | 36 | 19 | 17 |
| Taxes, other than income taxes | 8 | 11 | (3) |
| Gain on sale of solar electric production project (a) | 1 | — | 1 |
| Operating income | \$34 | \$58 | \$(24) |

(a) See Note O to the Second Quarter Financial Statements.

Operating revenues decreased \$365 million in the six months ended June 30, 2017 compared with the 2016 period, due primarily to lower electric retail revenues of \$525 million from the sale of the retail electric supply business in September 2016. Renewable revenues increased \$56 million due primarily to an increase in renewable electric production projects in operation. See "Con Edison Development," below. Energy services revenues increased \$12 million. Wholesale revenues increased \$95 million due to higher sales volumes. Net mark-to-market values increased \$38 million, due primarily to the sale of the retail electric supply business, of which \$35 million in losses are reflected in purchased power costs and \$3 million in losses are reflected in revenues.

Purchased power expenses decreased \$445 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to lower electric costs due to the sale of the retail electric supply business in September 2016 (\$480 million) offset by changes in mark-to-market values (\$35 million).

Gas purchased for resale increased \$81 million in the six months ended June 30, 2017 compared with the 2016 period due to higher purchased volumes.

Other operations and maintenance expenses increased \$10 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to an increase in energy services costs.

Depreciation and amortization increased \$17 million in the six months ended June 30, 2017 compared with the 2016 period due to an increase in solar electric production projects in operation during 2017.

Taxes, other than income taxes decreased \$3 million in the six months ended June 30, 2017 compared with the 2016 period due to lower gross receipts tax from the sale of the retail electric supply business in September 2016.

Other Income (Deductions)

Other income (deductions) increased \$6 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to the impairment of a solar electric production investment in 2016 of \$8 million.

Net Interest Expense

Net interest expense increased \$6 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to increased debt on solar electric production projects.

Income Tax Expense

Income taxes decreased \$10 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to lower income before income tax expense.

62

62

Table of Contents

Con Edison Transmission

Other Operations and Maintenance

Other operations and maintenance increased \$3 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to CET having no employees or other direct costs until January 1, 2017.

Net Interest Expense

Net interest expense increased \$7 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to a new debt issuance in 2016.

Other Income (Deductions)

Other income (deductions) increased \$36 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to earnings from equity investments in Stagecoach Gas Services, LLC, substantially all of which were made in June 2016.

Income Tax Expense

Income taxes increased \$11 million in the six months ended June 30, 2017 compared with the 2016 period due primarily to higher income before income tax expense.

Other

For Con Edison, "Other" includes parent company and consolidation adjustments.

Liquidity and Capital Resources

The Companies' liquidity reflects cash flows from operating, investing and financing activities, as shown on their respective consolidated statement of cash flows and as discussed below.

Changes in the Companies' cash and temporary cash investments resulting from operating, investing and financing activities for the six months ended June 30, 2017 and 2016 are summarized as follows:

| (Millions of Dollars) | For the Six Months Ended June 30, | | | | | |
|--------------------------------|-----------------------------------|---------|-----------|---------|---------|-----------|
| | Con Edison | | | CECONY | | |
| | 2017 | 2016 | Variation | 2017 | 2016 | Variation |
| Operating activities | \$1,574 | \$1,631 | \$(57) | \$1,234 | \$1,399 | \$(165) |
| Investing activities | (1,703) | (2,986) | 1,283 | (1,460) | (1,225) | (235) |
| Financing activities | 169 | 1,273 | (1,104) | 291 | (202) | 493 |
| Net change for the period | 40 | (82) | 122 | 65 | (28) | 93 |
| Balance at beginning of period | 776 | 944 | (168) | 702 | 843 | (141) |
| Balance at end of period | \$816 | \$862 | \$(46) | \$767 | \$815 | \$(48) |

Cash Flows from Operating Activities

The Utilities' cash flows from operating activities reflect primarily their energy sales and deliveries and cost of operations. The volume of energy sales and deliveries is affected primarily by factors external to the Utilities, such as growth of customer demand, weather, market prices for energy and economic conditions. Measures that promote distributed energy resources, such as distributed generation, demand reduction and energy efficiency, also affect the volume of energy sales and deliveries. Under the revenue decoupling mechanisms in the Utilities' New York electric and gas rate plans, changes in delivery volumes from levels assumed when rates were approved may affect the timing of cash flows but generally not net income. The prices at which the Utilities provide energy to their customers are determined in accordance with their rate plans. In general, changes in the Utilities' cost of purchased power, fuel and gas may affect the timing of cash flows but not net income because the costs are recovered in accordance with rate plans.

Net income is the result of cash and non-cash (or accrual) transactions. Only cash transactions affect the Companies' cash flows from operating activities. Principal non-cash charges or credits include depreciation, deferred income tax expense and amortizations of certain regulatory assets and liabilities. Non-cash charges or credits may also be accrued under the revenue decoupling and cost reconciliation mechanisms in the Utilities' New York electric and gas rate plans.

Table of Contents

Net cash flows from operating activities for the six months ended June 30, 2017 for Con Edison and CECONY were \$57 million and \$165 million lower, respectively, than in the 2016 period. The change in net cash flows for Con Edison and CECONY reflects primarily lower cash paid, net of refunds received, for income taxes in the 2017 period as compared with the 2016 period of \$107 million and \$203 million, respectively. The income tax refund received in 2016 reflected the extension of bonus depreciation in late 2015, resulting in a refund of the 2015 estimated federal tax payments. This was offset in part by a change in the other current assets balance associated with the revenue decoupling mechanism in the 2017 period as compared with the 2016 period of \$65 million and \$69 million for Con Edison and CECONY, respectively.

The change in net cash flows also reflects the timing of payments for and recovery of energy costs. This timing is reflected within changes to accounts receivable – customers, recoverable and refundable energy costs within other regulatory assets and liabilities and accounts payable balances.

The changes in regulatory assets primarily reflect changes in deferred pension costs in accordance with the accounting rules for retirement benefits.

Cash Flows Used in Investing Activities

Net cash flows used in investing activities for Con Edison and CECONY were \$1,283 million lower and \$235 million higher, respectively, for the six months ended June 30, 2017 compared with the 2016 period. The change for Con Edison reflects primarily no new investments in renewable electric production projects (\$1,170 million), a decrease in non-utility construction expenditures (\$106 million) and investments in electric and gas transmission projects (\$63 million), offset in part by increased utility construction expenditures in 2017 (\$81 million). The change for CECONY reflects primarily increased utility construction expenditures (\$73 million) and absence of proceeds from the transfer of assets to NY Transco in 2016 (\$122 million).

Cash Flows From Financing Activities

Net cash flows from financing activities for Con Edison and CECONY were \$1,104 million lower and \$493 million higher, respectively, in the six months ended June 30, 2017 compared with the 2016 period.

In June 2017, CECONY issued \$500 million aggregate principal amount of 3.875 percent debentures, due 2047, the net proceeds from the sale of which were used to repay short-term borrowings and for other general corporate purposes.

In March 2017, Con Edison issued \$400 million aggregate principal amount of 2.00 percent debentures, due 2020, and prepaid the June 2016 \$400 million variable rate term loan that was to mature in 2018.

Also, in March 2017, a Con Edison Development subsidiary issued \$97 million aggregate principal amount of 4.45 percent senior notes, due 2042, secured by the company's Upton County Solar project.

In May 2016, Con Edison issued approximately 10 million common shares resulting in net proceeds, after issuance expenses, of \$702 million and \$500 million aggregate principal amount of 2.00 percent debentures, due 2021, the net proceeds from the sale of which were used in connection with the acquisition by a CET Gas subsidiary of a 50 percent equity interest in a gas pipeline and storage joint venture (see Con Edison Transmission, below) and for general corporate purposes.

In June 2016, CECONY issued \$550 million aggregate principal amount of 3.85 percent debentures, due 2046, the net proceeds from the sale of which were used to repay short-term borrowings and for other general corporate purposes.

In June 2016, a Con Edison Solutions subsidiary borrowed \$2 million pursuant to a loan agreement with a New Jersey utility. The borrowing matures in 2026, bears interest of 11.18 percent and may be repaid in cash or project Solar Renewable Energy Certificates.

In May 2016, a Con Edison Development subsidiary issued \$95 million aggregate principal amount of 4.07 percent senior notes, due 2036, secured by the company's California Holdings 3 solar project.

In February 2016, a Con Edison Development subsidiary issued \$218 million aggregate principal amount of 4.21 percent senior notes, due 2041, secured by the company's Texas Solar 7 solar project.

64

64

Table of Contents

Con Edison's cash flows from financing for six months ended June 30, 2017 and 2016 also reflect the proceeds, and reduction in cash used for reinvested dividends, resulting from the issuance of common shares under the company's dividend reinvestment, stock purchase and long-term incentive plans of \$50 million and \$53 million, respectively.

Cash flows used in financing activities of the Companies also reflect commercial paper issuances and repayments. The commercial paper amounts outstanding at June 30, 2017 and 2016 and the average daily balances for the six months ended June 30, 2017 and 2016 for Con Edison and CECONY were as follows:

| (Millions of Dollars, except Weighted Average Yield) | 2017 | Daily average | 2016 | Daily average |
|--|-------------------------|------------------|----------------------------|------------------|
| | Outstanding at June 30, | | Outstanding at June 30, | |
| Con Edison | \$1,036 | \$699 | \$708 | \$992 |
| CECONY | \$750 | \$330 | \$608 | \$418 |
| Weighted average yield | 1.3% | 1.0% | 0.7% | 0.6% |

Capital Requirements and Resources

Con Edison has decreased its estimates for capital requirements for the retirement of long-term securities for 2018 from \$1,688 million to \$1,288 million. The decrease reflects the \$400 million prepayment of a variable rate term loan that was to mature in 2018. See Note C to the Second Quarter Financial Statements.

For each of the Companies, the ratio of earnings to fixed charges (Securities and Exchange Commission basis) for the six months ended June 30, 2017 and 2016 and the twelve months ended December 31, 2016 was:

| | Ratio of Earnings to Fixed Charges | | |
|------------|---|---|--|
| | For the Six Months Ended June 30, 2017 | For the Six Months Ended June 30, 2016 | For the Twelve Months Ended December 31, 2016 |
| Con Edison | 3.3 | 3.2 | 3.6 |
| CECONY | 3.4 | 3.3 | 3.6 |

For each of the Companies, the common equity ratio at June 30, 2017 and December 31, 2016 was:

| | Common Equity Ratio (Percent of total capitalization) | |
|------------|--|-------------------|
| | June 30, 2017 | December 31, 2016 |
| Con Edison | 49.6 | 49.3 |
| CECONY | 50.0 | 49.5 |

Other Changes in Assets and Liabilities

The following table shows changes in certain assets and liabilities at June 30, 2017, compared with December 31, 2016.

| (Millions of Dollars) | Con Edison | CECONY |
|--|----------------------------|----------------------------|
| | 2017 vs. 2016 Variation | 2017 vs. 2016 Variation |
| Assets | | |
| Regulatory asset - Unrecognized pension and other postretirement costs | \$(106) | \$(118) |
| Liabilities | | |

Edgar Filing: CONSOLIDATED EDISON INC - Form 10-Q

| | | |
|--|---------|---------|
| Pension and retiree benefits | \$(195) | \$(226) |
| Deferred income taxes and unamortized investment tax credits | 344 | 343 |
| System benefit charge | 132 | 120 |

65

Table of Contents

Regulatory Asset for Unrecognized Pension and Other Postretirement Costs and Liability for Pension and Retiree Benefits

The decrease in the regulatory asset for unrecognized pension and other postretirement costs and the liability for pension and retiree benefits reflects the final actuarial valuation of the pension and other retiree benefit plans as measured at December 31, 2016, in accordance with the accounting rules for retirement benefits. The change in the regulatory asset also reflects the year's amortization of accounting costs. The change in the liability for pension and retiree benefits reflects in part contributions to the plans made by the Utilities in 2017. See Notes E and F to the Second Quarter Financial Statements.

Deferred Income Taxes and Unamortized Investment Tax Credits

The increase in the liability for deferred income taxes and unamortized investment tax credits for Con Edison and CECONY reflects primarily bonus depreciation in 2017, partially offset by the increase in deferred income tax assets associated with the federal tax attribute carryforwards related to the net operating loss and general business tax credits. See Note I to the Second Quarter Financial Statements.

System Benefit Charge

The increase in the liability for the system benefit charge reflects amounts collected by the Utilities from their customers that will be required to be paid to NYSERDA.

Off-Balance Sheet Arrangements

None of the Companies' transactions, agreements or other contractual arrangements meets the SEC definition of off-balance sheet arrangements.

Regulatory Matters

In March 2017, the NYSPSC issued an order that changes the way distributed energy resources are compensated and begins to phase out net energy metering. In New York, net energy metering compensates kilowatt-hours exported to the electric distribution system at the full service rate (that is production plus delivery plus taxes and fees). To provide a gradual transition, the NYSPSC allowed all existing resources to keep their current rate treatment and will delay making significant changes to policies affecting new residential and small commercial rooftop solar until 2020. Larger installations, including new commercial and industrial projects and new community solar projects, will be paid for the value of their exports to the electricity distribution system. The new policy establishes a 2 percent limit on bill increases, reducing the shifting of avoided distribution costs to non-participating residential customers that would have occurred under net energy metering.

For additional information about the Utilities' regulatory matters, see Note B to the Second Quarter Financial Statements.

Environmental Matters

In May 2017, a transformer failure at a CECONY substation discharged thousands of gallons of transformer oil into the soil. Some of the transformer oil, which contained small amounts of polychlorinated biphenyls (PCBs), leaked into the East River. The company, the U.S. Coast Guard, the New York State Department of Environmental Conservation and other agencies responded to the incident. The company has replaced the transformer, and is continuing to remediate and monitor the site, the costs of which are not expected to have a material adverse effect on its financial condition, results of operations or liquidity. In connection with the incident, the company may incur monetary sanctions of more than \$0.1 million for violations of certain provisions regulating the discharge of materials into, and for the protection of, the environment.

In June 2017, CECONY received a notice of potential liability from the U.S. Environmental Protection Agency (EPA) with respect to the Newtown Creek site that was listed in 2010 on the EPA's National Priorities List of Superfund sites.

The EPA has identified fourteen potentially responsible parties (PRPs) with respect to the site, including CECONY, and has indicated that it will notify the company as additional PRPs are identified and notified by the EPA. Newtown Creek and its tributaries (collectively, Newtown Creek) form a 3.8 mile border between Brooklyn and Queens, New York. Currently, the predominant land use around Newtown Creek includes industrial, petroleum, recycling, manufacturing and distribution facilities and warehouses. Other uses include trucking, concrete manufacture, transportation infrastructure and a wastewater treatment plant. Newtown Creek is near several residential neighborhoods. Six PRPs, not including CECONY, pursuant to an administrative settlement agreement and order on consent the EPA issued to them in 2011, have been performing a remedial investigation of the site. The EPA indicated that sampling events have shown the sediments in Newtown Creek to be contaminated with a

66

66

Table of Contents

wide variety of hazardous substances including PCBs, metals, pesticides, polycyclic aromatic hydrocarbons and volatile organic contaminants. The EPA also indicated that it has reason to believe that hazardous substances have come to be released from CECONY facilities into Newtown Creek. The EPA's current schedule anticipates completion of a feasibility study for the site by late 2018 and issuance of its record of decision selecting a remedy for the site by late 2020. CECONY is unable to estimate its exposure to liability for the Newtown Creek site.

For additional information about the Companies' environmental matters, see Note G to the Second Quarter Financial Statements.

Con Edison Development

The following table provides information about the renewable electric production projects Con Edison Development owned at June 30, 2017:

| Project Name | Production Technology | Generating Capacity (a) (MW AC) | Purchased Power Agreement (PPA)/Term (In Years) (b) | Actual/Expected In-Service Date (c) | Location (State) |
|--------------------------------|-----------------------|------------------------------------|---|-------------------------------------|------------------|

Financial and Commodity Market Risks

The Companies are subject to various risks and uncertainties associated with financial and commodity markets. The most significant market risks include interest rate risk, commodity price risk, credit risk and investment risk.

Interest Rate Risk

The Companies' interest rate risk relates primarily to variable rate debt and to new debt financing needed to fund capital requirements, including the construction expenditures of the Utilities and maturing debt securities. Con Edison and its businesses manage interest rate risk through the issuance of mostly fixed-rate debt with varying maturities and through opportunistic refinancing of debt. Con Edison and CECONY estimate that at June 30, 2017, a 10 percent increase in interest rates applicable to its variable rate debt would result in an increase in annual interest expense of \$3 million. Under CECONY's current electric, gas and steam rate plans, variations in actual variable rate tax-exempt debt interest expense are reconciled to levels reflected in rates.

Commodity Price Risk

Con Edison's commodity price risk relates primarily to the purchase and sale of electricity, gas and related derivative instruments. The Utilities and the Clean Energy Businesses apply risk management strategies to mitigate their related exposures. See Note K to the Second Quarter Financial Statements.

Con Edison estimates that, as of June 30, 2017, a 10 percent decline in market prices would result in a decline in fair value of \$55 million for the derivative instruments used by the Utilities to hedge purchases of electricity and gas, of which \$48 million is for CECONY and \$7 million is for O&R. Con Edison expects that any such change in fair value would be largely offset by directionally opposite changes in the cost of the electricity and gas purchased. In accordance with provisions approved by state regulators, the Utilities generally recover from customers the costs they incur for energy purchased for their customers, including gains and losses on certain derivative instruments used to hedge energy purchased and related costs.

The Clean Energy Businesses use a value-at-risk (VaR) model to assess the market price risk of their portfolio of electricity and gas commodity fixed-price purchase and sales commitments, physical forward contracts, generating assets and commodity derivative instruments. VaR represents the potential change in fair value of the portfolio due to changes in market prices, for a specified time period and confidence level. These businesses estimate VaR across their portfolio using a delta-normal variance/covariance model with a 95 percent confidence level and compare the measured VaR results against performance due to actual prices and stress test the portfolio each quarter using an assumed 30 percent price change from forecast. Since the VaR calculation involves complex methodologies and estimates and assumptions that are based on past experience, it is not necessarily indicative of future results. VaR for the portfolio, assuming a one-day holding period, for the six months ended June 30, 2017 and the year ended December 31, 2016, respectively, was as follows:

| | | |
|--|------------------|-------------------|
| 95% Confidence Level, One-Day Holding Period | June 30, 2017 | December 31, 2016 |
|--|------------------|-------------------|

Table of Contents

Credit Risk

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the Clean Energy Businesses. See the discussion of credit exposure in Note K to the Second Quarter Financial Statements.

Investment Risk

The Companies' investment risk relates to the investment of plan assets for their pension and other postretirement benefit plans and to the investments of the Clean Energy Businesses and Con Edison Transmission that are accounted for under the equity method.

The Companies' current investment policy for pension plan assets includes investment targets of 53 to 63 percent equities and 35 to 49 percent fixed income and other securities. At June 30, 2017, the pension plan investments consisted of 58 percent equity and 42 percent fixed income and other securities.

For the Utilities' pension and other postretirement benefit plans, regulatory accounting treatment is generally applied in accordance with the accounting rules for regulated operations. In accordance with the Statement of Policy issued by the NYSPSC and its current electric, gas and steam rate plans, CECONY defers for payment to or recovery from customers the difference between the pension and other postretirement benefit expenses and the amounts for such expenses reflected in rates. Generally, O&R also defers such difference pursuant to its rate plans.

Material Contingencies

For information concerning potential liabilities arising from the Companies' material contingencies, see "Other Regulatory Matters" in Note B and Notes G and H to the Second Quarter Financial Statements.

Table of Contents

Item 3: Quantitative and Qualitative Disclosures About Market Risk

For information about the Companies' primary market risks associated with activities in derivative financial instruments, other financial instruments and derivative commodity instruments, see "Financial and Commodity Market Risks," in Part I, Item 2 of this report, which information is incorporated herein by reference.

Item 4: Controls and Procedures

The Companies maintain disclosure controls and procedures designed to provide reasonable assurance that the information required to be disclosed in the reports that they submit to the Securities and Exchange Commission (SEC) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. For each of the Companies, its management, with the participation of its principal executive officer and principal financial officer, has evaluated its disclosure controls and procedures as of the end of the period covered by this report and, based on such evaluation, has concluded that the controls and procedures are effective to provide such reasonable assurance. Reasonable assurance is not absolute assurance, however, and there can be no assurance that any design of controls or procedures would be effective under all potential future conditions, regardless of how remote.

There was no change in the Companies' internal control over financial reporting that occurred during the Companies' most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Companies' internal control over financial reporting.
