**1. Basis of Presentation**

These unaudited interim consolidated financial statements have been prepared by management following the same accounting policies and methods of computation as the audited consolidated financial statements for the year ended June 30, 2004. These interim financial statements should be read in conjunction with the Company's audited consolidated financial statements together with notes for the year ended June 30, 2004. The unaudited consolidated financial results for the three month period ending September 30, 2004 and 2003 include the accounts of the Company and its wholly owned subsidiaries M&M Engineering Limited ("M&M") and its wholly owned subsidiary M&M Offshore Limited ("MMO"), 10915 Newfoundland Limited, 11123 Newfoundland Limited, its partnership Liannu LLP ("Liannu") and the proportionate share of its interests in joint ventures whose business focus is construction mechanical contracting and steel fabrication in Newfoundland. Minority interest represents the net residual interest in the equity of the partnership that belongs to the Company's other partners in Liannu. Operating results for the three months ended September 30, 2004 are not indicative of the results that may be expected for the full year ending June 30, 2005.

These consolidated financial statements have been prepared on the basis of a going concern, which contemplates that the Company will be able to realize assets and discharge liabilities in the normal course of business.

The Company's ability to continue as a going concern is primarily dependent upon the enforceability of the Oakwell Claim (see Note 21 of the Company's Audited Annual Financial Statements). If the application of the Judgment becomes enforceable in Canada then there would be a material and adverse impact on the Company's financial condition.

These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company not be able to continue in the normal course of operations. If the "going concern" assumption is not appropriate for these consolidated financial statements then adjustments may be necessary to the carrying value of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used.

These consolidated financial statements have been prepared by management in accordance with accounting principles generally accepted in Canada.

**2. Segmented information**

The Company's operations are separated into two distinct segments; the Industrial & Offshore Division, consisting of the consolidated operations of M&M Engineering Limited, a wholly owned subsidiary, and the Oil & Gas Division performing oil and gas exploration and production. M&M is an industrial contracting company performing fabrication and installation of process piping, installation of production equipment, steel tank erection, specialized welding services and industrial maintenance. Results for the three month periods ending September 30, 2004 and September

30, 2003 are presented in the Consolidated Statements of Segmented Information below:
