cash. This transaction was a result of the merger of VoiceStream Wireless Corporation with a subsidiary of Deutsche Telekom.

A copy of the TDS news release is attached as an exhibit to this Current Report on Form 8-K/A.

As of March 31, 2001, TDS reported Gross Unrealized Holding Losses from Marketable Equity Securities of \$683.8 million in its Form 10-Q. Of this amount, \$588.9 million represented an unrealized holding loss on TDS's investment in VoiceStream as a result of a decline in the market price of VoiceStream common stock since TDS acquired such stock on May 4, 2000. This amount, net of taxes, was previously reflected in Accumulated Other Comprehensive Income (Loss) by TDS.

As of May 31, 2001, the pre-tax loss on TDS's investment in VoiceStream increased to \$644.9 million and was recognized as a component of income as a result of the conversion of VoiceStream shares to Deutsche Telekom shares and cash. The effect of the transaction will be to reduce TDS's net income for the quarter ended June 30, 2001 by approximately \$390 million.

This realization of loss for accounting purposes is a one-time, non-recurring event that has no effect on cash.
