**Notes to Consolidated Financial Statements (Unaudited)**

**1.**

**The Company and Significant Accounting Policies:**

These unaudited interim consolidated financial statements have been prepared by the management of New Jersey Mining Company (the Company) in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim consolidated financial statements have been included.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company's financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions, which could have a material effect on the reported amounts of the Company's financial position and results of operations. Operating results for the three and six month periods ended June 30, 2018 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2018.

For further information refer to the financial statements and footnotes thereto in the Company's audited financial statements for the year ended December 31, 2017 as filed with the Securities and Exchange Commission.

**Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned subsidiary, the New Jersey Mill Joint Venture ( NJMJV ). Intercompany accounts and transactions are eliminated. The portion of entities owned by other investors is presented as non-controlling interests on the consolidated balance sheets and statements of operations.

**Revenue Recognition**

Revenue is recognized when title and risk of ownership of metals or metal bearing concentrate have passed and collection is reasonably assured. Revenue from the sale of metals may be subject to adjustment upon final settlement of estimated metal prices, weights and assays, and are recorded as adjustments to revenue in the period of final settlement of prices, weights and assays; such adjustments are typically not material in relation to the initial invoice amounts. Revenues from mill operations and custom milling are recognized in the period in which the milling is completed, concentrates are shipped, and collection of payment is deemed probable.

### **Inventories**

Inventories are stated at the lower of full cost of production or estimated net realizable value based on current metal prices. Costs consist of mining, transportation, and milling costs including applicable overhead, depreciation, depletion and amortization relating to the operations. Costs are allocated based on the stage at which the ore is in the production process.

### **Fair Value Measurements**

When required to measure assets or liabilities at fair value, the Company uses a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used. The Company determines the level within the fair value hierarchy in which the fair value measurements in their entirety fall. The categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Level 1 uses quoted prices in active markets for identical assets or liabilities, Level 2 uses significant other observable inputs, and Level 3 uses significant unobservable inputs. The amount of the total gains or losses for the period that are included in earnings are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date.

At June 30, 2018 and December 31, 2017, the Company determined fair value on a recurring basis as follows:

<b>Liabilities</b>	June 30, 2018	December 31, 2017	Fair Value Hierarchy
Forward gold contracts (Note 12)	\$ 137,283	\$ 920,579	2

### **Reclassifications**

Certain prior period amounts have been reclassified to conform to the 2018 financial statement presentation. Reclassifications had no effect on net loss, stockholders' equity, or cash flows as previously reported.

**Notes to Consolidated Financial Statements (Unaudited)**

**New Accounting Pronouncement**

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09 Revenue Recognition. The new ASU establishes a new five step principles-based framework in an effort to significantly enhance comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets. In August 2015, the FASB issued ASU No. 2015-14 Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date. ASU No. 2015-14 deferred the effective date of ASU No. 2014-09 until annual and interim reporting periods beginning after December 15, 2017. We adopted ASU No. 2014-09 as of January 1, 2018 using the modified-retrospective transition approach.

We performed an assessment of the impact of implementation of ASU No. 2014-09, and concluded it did not change the timing of revenue recognition or amounts of revenue recognized compared to how we recognized revenue under our previous policies. Adoption of ASU No. 2014-09 requires additional disclosures, where applicable, on (i) contracts with customers, (ii) significant judgments and changes in judgments in determining the timing of satisfaction of performance obligations and the transaction price, and (iii) assets recognized for costs to obtain or fulfill contracts. See Note 3 for information on our sales of products.

In February 2016, the FASB issued ASU No. 2016-02 Leases (Topic 842). The update modifies the classification criteria and requires lessees to recognize the assets and liabilities on the balance sheet for most leases. The update is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the potential impact of implementing this update on the consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15 Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. The update provides guidance on classification for cash receipts and payments related to eight specific issues. The update is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. Adoption of the update on January 1, 2018 had no impact on the consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18 Statement of Cash Flows (Topic 230): Restricted Cash. The update requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. The update is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. Adoption of the update on January 1, 2018 had no impact on the consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-01 Business Combinations (Topic 805): Clarifying the Definition of a Business. The update clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The update is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company will apply the provisions of the update to potential future acquisitions occurring after the effective date.

Other accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

**Inventories**

At June 30, 2018 and December 31, 2017, the Company's inventories consisted of the following:

	June 30, 2018	December 31, 2017
Gold concentrate	\$ 142,748	\$ 219,660
Materials and supplies	19,662	25,494
Total	\$ 162,410	\$ 245,154

At June 30, 2018, gold concentrate inventory is carried at estimated net realizable value based on current metal prices as it was lower than allocated production costs.

**Sales of Products**

Our products consist of both gold floatation concentrates which we sell to a broker (H&H Metal), and an unrefined gold-silver product known as doré which we sell to a precious metal refinery. Revenue is recognized upon the completion of the performance obligations and transfer of control of the product to the customer, and the transaction price can be determined or reasonably estimated.

For gold floatation concentrate sales, the performance obligation is met when the transaction price can be reasonably estimated and revenue is recognized generally at the time when risk is transferred to H&H Metal based on contractual terms. Based on contractual terms, we have determined the performance obligation is met and title is transferred to H&H Metal when the Company receives its first provisional payment on the concentrate because, at that time, 1) legal title is transferred to the customer, 2) the customer has accepted the concentrate lot and obtained the ability to realize all of the benefits from the product, 3) the concentrate content specifications are known, have been communicated to H&H Metal, and H&H Metal has the significant risks and rewards of ownership to it, 4) it is very unlikely a concentrate will be rejected by H&H Metal upon physical receipt, and 5) we have the right to payment for the concentrate. Concentrates lots that have been sold are held at our mill from 30 to 60 days, until H&H Metal provides shipping instructions.

Judgment is required in identifying the performance obligations for our concentrate sales. We have determined that the individual performance obligation is satisfied at a point in time when control of the concentrate is transferred to H&H Metal which is when H&H Metal pays us the first provisional payment on the concentrate based on contractual terms.

Our concentrate sales sometimes involve variable consideration, as they can be subject to changes in metals prices between the time of shipment and their final settlement. However, we are able to reasonably estimate the transaction price for the concentrate sales at the time of shipment using forward prices for the estimated month of settlement, and previously recorded sales and accounts receivable are adjusted to estimated settlement metals prices until final settlement for financial reporting purposes. Also, it is unlikely a significant reversal of revenue for any one concentrate lot will occur. As such, we use the expected value method to price the concentrate until the final settlement date occurs, at which time the final transaction price is known. At June 30, 2018, metals contained in concentrates and exposed to future price changes totaled 1,398 ounces of gold.

Sales and accounts receivable for concentrate shipments are recorded net of charges for treatment and other charges negotiated by us with H&H Metal, which represent components of the transaction price. Charges are estimated by us upon transfer of risk of the concentrates based on contractual terms, and actual charges typically do not vary materially from our estimates. Costs charged by the customer include fixed treatment, refining and costs per ton of concentrate and may include penalty charges for lead and zinc content above a negotiated baseline as well as excessive moisture.

For sales of metals from doré, the performance obligation is met, the transaction price is known, and revenue is recognized at the time of transfer of control of the agreed-upon metal quantities to the customer. For sales of doré, the performance obligation is met, the transaction price is known, and revenue is recognized at the time of transfer of title and control of the doré containing the agreed-upon metal quantities to the customer.

Sales of products by metal for the three and six month periods ended June 30, 2018 and 2017 were as follows:

	June 30, 2018		June 30, 2017	
	Three Months	Six Months	Three Months	Six Months
Gold	\$ 576,713	\$ 1,783,134	\$ 1,320,966	\$ 2,048,474
Silver	4,011	7,985	7,720	11,305
Less: Smelter and refining charges	(91,169)	(200,173)	(65,996)	(107,771)
Total	\$ 489,555	\$ 1,590,946	\$ 1,262,690	\$ 1,952,008

**New Jersey Mining Company****Notes to Consolidated Financial Statements (Unaudited)**

Sales by significant product type for the three and six month periods ended June 30, 2018 and 2017 were as follows:

	June 30, 2018		June 30, 2017	
	Three Months	Six Months	Three Months	Six Months
Concentrate sales to H&H Metal	\$ 456,553	\$ 1,280,582	\$ 1,262,690	\$ 1,952,008
Dore sales to refinery	33,002	310,364	-	-
Total	\$ 489,555	\$ 1,590,946	\$ 1,262,690	\$ 1,952,008

At June 30, 2018 and December 31, 2017, our trade accounts receivable balance related to contracts with customers of \$36,465 and \$307,796, respectively, consist only of amounts due from H&H Metal. There is no allowance for doubtful accounts. At June 30, 2018, the Company has a payable due to H&H Metal of \$42,110 for final settlement of gold concentrate sales which is a result of recoveries being less than originally invoiced. The payable is included in accounts payable and accrued liabilities on the consolidated balance sheet.

We have determined our contracts do not include a significant financing component. For doré sales, payment is received at the time the performance obligation is satisfied. Consideration for concentrate sales is variable, and we receive payment for a significant portion of the estimated value of concentrate parcels at the time the performance obligation is satisfied.

We do not incur significant costs to obtain contracts, nor costs to fulfill contracts which are not addressed by other standards. Therefore, we have not recognized an asset for such costs as of June 30, 2018 or December 31, 2017.

The note bears interest at 6% and has monthly principal and interest payments of \$3,777 with a balloon payment of \$454,733 in February 2020. In May 2018 an additional payment of \$244,208 of the principal outstanding was paid to Ophir Holdings reducing the balloon payment to \$183,559.

On January 1, 2018, notes with Mr. Swallow were amended to extend the balloon payments on both notes to February 2020. In May 2018 both of these notes as well as accrued interest were paid in full.

In May 2018, the note payable to Margaret Bathgate and its associated accrued interest was paid in full.

**5.****Joint Ventures****New Jersey Mill Joint Venture Agreement**

The Company owns 65% of the New Jersey Mill Joint Venture and has significant influence in its operations. Thus the venture is included in the consolidated financial statements along with presentation of the non-controlling interest. At June 30, 2018 and December 31, 2017, an account receivable existed with Crescent Silver, LLC, the other joint venture participant ( Crescent ), for \$4,109 and \$4,682, respectively, for shared operating costs as defined in the JV

agreement. Crescent's non-controlling interest in the JV changed during the three and six months ended June 30, 2018 and 2017 as follows:

	Six months ended June 30,	
	2018	2017
Beginning balance	\$ 3,112,294	\$ 3,142,312

Ending balance	\$ 3,096,134	\$ 3,129,908

**Butte Highlands JV, LLC ( BHJV )**

On January 29, 2016, the Company purchased a 50% interest in Butte Highlands JV, LLC ( BHJV ) from Timberline Resources Corporation for \$225,000 in cash and 3,000,000 restricted shares of the Company's common stock valued at \$210,000 for a total consideration of \$435,000. Highland Mining, LLC ( Highland ) is the other 50% owner and manager of the joint venture. Under the agreement, Highland will fund all future project exploration and mine development costs. The agreement stipulates that Highland is manager of BHJV and will manage BHJV until such time as all mine development costs, less \$2 million are distributed to Highland out of the proceeds from future mine production. The Company has determined that because it does not currently have significant influence over the joint venture's activities, it accounts for its investment on a cost basis. The Company purchased the interest in the BHJV to provide additional opportunities for exploration and development and expand the Company's mineral property portfolio.

**New Jersey Mining Company****Notes to Consolidated Financial Statements (Unaudited)****6.****Earnings per Share**

Basic and diluted earnings (loss) per share are calculated by dividing net income (loss) by the weighted average number of common shares outstanding basic and diluted, respectively. The calculation of the weighted average number of common shares outstanding diluted includes the following common stock equivalents:

	June 30, 2018		June 30, 2017		
	Three Months	Six Months	Three Months	Six Months	
Stock options	7,321,665	7,491,141	3,250,000		-

During the six months ended June 30, 2018, stock options for 8,000 shares of common stock with an exercise rate of \$0.15 were exercised for total proceeds of \$1,200. The intrinsic value of the options on the date of exercise was \$640.

**12.****Forward Gold Contracts**

On July 13, 2016, the Company entered into a forward gold contract with Ophir Holdings LLC ("Ophir"), a company owned by three of the Company's officers, for net proceeds of \$467,500 to fund startup costs at the Golden Chest. The contract called for the Company to deliver a total of 500 ounces of gold to the purchasers with quarterly payments equivalent to \$25,000 in ounces starting February 1, 2017. The equivalent of 80.5 ounces were delivered to Ophir Holdings in 2017. On January 1, 2018 Ophir agreed to convert their Forward Gold Contract which at that time had an outstanding balance of 419.5 ounces with a fair value of \$492,783 to a conventional debt structure at 6% interest (see Note 4).

On July 29, 2016, the Company entered into forward gold contracts through GVC Capital LLC ( "GVC" ) for net proceeds of \$772,806 to fund startup costs at the Golden Chest. The agreement calls for the Company to deliver a total of 904 ounces of gold to the purchasers in quarterly payments starting December 1, 2016 for a period of two years as gold is produced from the Golden Chest Mine and New Jersey Mill. The December 1, 2016 payment, 4 payments in 2017, and two payment in 2018 were paid with an ounce equivalent of 793 ounces. At June 30, 2018, future gold deliveries of 111 ounces are due the remainder of 2018.

The gold to be delivered does not need to be produced from the Golden Chest property. In addition, the counterparties can request cash payment instead of gold ounces for each quarterly payment. The cash payments are based on average gold prices for the applicable quarter. The contracts are accounted for as derivatives requiring their value to be adjusted to fair value each period end. The change in balance for the forward gold contracts is as follows:

	Six months ended June 30,	
	2018	2017
Beginning balance	\$ 920,579	\$ 1,386,228
Conversion to note payable	(492,783)	-
Payments in cash	(126,287)	(175,828)
Payments in gold purchased by the Company	(172,113)	(157,887)
Change in fair value	7,887	141,596
Ending balance	\$ 137,283	\$ 1,194,109

The fair value was calculated using the market approach with Level 2 inputs for forward gold contract rates and a discount rate of 10%.

**New Jersey Mining Company****Notes to Consolidated Financial Statements (Unaudited)****13.****Asset Retirement Obligation**

The Company has established asset retirement obligations associated with the ultimate closing of its mineral properties where there has been or currently are operations. Activity for the six months ended June 30, 2018 and 2017 is as follows:

	Six Months Ended June 30,	
	2018	2017
Balance at beginning of period	\$ 121,560	\$ 72,218
Accretion expense	7,007	3,988
Revision of estimated reclamation costs	10,771	14,882
Balance at end of period	\$ 139,338	\$ 91,088

During the six period ended June 30, 2018, the estimated retirement obligation for the Golden Chest mineral property was revised in consideration of additional disturbance activity during the period. The estimated costs were discounted using credit adjusted, risk-free interest rate of 6.0% from the time the obligation was incurred to the time management expects to pay the retirement obligation.

**14.****Note Receivable**

On June 6, 2018, the Company loaned \$250,000 to West Materials, Inc. and William J. West (collectively West ) which bears interest at 8% and has a term of fifteen months. Five payments are due quarterly with the first payment due September 30, 2018. For each payment, the Company has the option of receiving payment in cash or 48.45 troy ounces of gold. The Company plans to opt for cash payment unless the price of gold increases to a level where it would be more beneficial. During the six months ended June 30, 2018, the Company purchased the Butte Potosi mineral property from West (see Note 8). The note receivable is collateralized by a mortgage on the Butte Potosi real property and a related net smelter royalty rights.

## **ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **Plan of Operation**

New Jersey Mining Company is a gold producer focused on diversifying and building its asset base and cash flows through a portfolio of mineral properties located in historic producing gold districts in Idaho and Montana.

The Company's plan of operation is to generate positive cash flow, while reducing debt and growing its production and asset base over time while being mindful of corporate overhead. The Company's management is focused on utilizing its in-house skillsets to build a portfolio of producing mines and milling operations with a primary focus on gold and secondary focus on silver and base metals.

The Company's properties include: the Golden Chest Mine (currently in production), the New Jersey Mill (majority ownership interest), and a 50% carried to production interest in the past producing Butte Highlands Mine located in Montana. In addition to its producing and near-term production projects, New Jersey Mining Company has additional exploration prospects, including the McKinley and Eastern Star located in Central Idaho, and additional holdings near the Golden Chest in the Murray Gold Belt.

### **Highlights during the second quarter of 2018 include:**

For the quarter ending June 30, 2018 approximately 8,140 dry metric tonnes (dmt) were processed at the Company's New Jersey mill at a head grade of 2.0 grams per tonne (gpt) with gold recovery of 90.3%. This resulted in production of 472 ounces contained in flotation concentrates.

Open pit mining progressed from the 1036 bench to the 1027 bench as we continued to advance through the low grade, high waste stripping ratio area in between shoots. Open pit mine production averaged 1,514 tonnes per day (mineralized material and waste). The on-site, footwall stockpile has increased and contains an estimated 43,000 tonnes at a grade of 0.65 gpt.

Underground mining in the 851 stope advanced to the north. During the quarter approximately 1250 tonnes of mineralized material were mined at an average grade of 6.3 gpt. The 851 north stope was completed in late June for a total mined tonnage of 1,830 tonnes at a gold grade 7.38 gpt. Subsequent to the end of the quarter, the Company completed the commissioning of its Cemented Rockfill (CRF) batch plant and commenced backfilling activity.

The Company began core drilling with a its newly acquired drill which was initially focused on exploring the Katie-Dora area of the Golden Chest for a possible expansion of the surface mining operation.

The Company expanded its land holdings in the Murray Gold Belt with the addition of the Butte Gulch and Potosi Gulch properties, adding 284 acres of patented mining claims.

Closed private placements during the first half of 2018 for net proceeds of \$1,107,571.

The Company completed the sale of its Little Baldy/Toboggan properties to Hecla Mining Company for \$3,000,000.

The Company's common shares were approved for listing on the Canadian Securities Exchange.

### **Results of Operations**

Our financial performance during the quarter and year to date is summarized below:

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

Total revenue from the three and six months period ending June 30 2018 was \$489,555 and \$1,590,946 compared to \$1,262,690 and \$1,952,008 for the same period in 2017. The decrease in revenue is the result of lower grade mineralized material in the second quarter of 2018 as the open pit progressed between shoots.

Lower grades mined between ore shoots in the open pit combined with seasonal conditions that impacted underground mining operations contributed to a gross loss in the three and six month periods ending June 30, 2018 of \$613,408 and \$606,796 compared to a gross profit of \$426,030 and \$587,664 in the same periods of 2017. The consolidated net loss for the first six months included non-cash charges as follows: depreciation and

amortization of \$145,564 (\$59,991 in 2017), amortization of discount on note payable, none in 2018, (\$26,274 in 2017), accretion of asset retirement obligation of \$7,007 (\$3,988 in 2017), stock based compensation of \$27,140 (\$73,137 in 2017), and change in fair value of forward gold contracts of \$7,887 (\$141,596 in 2017), and gain on sale of mineral property \$2,947,862 (none in 2017). Net income attributable to New Jersey Mining Company was \$2,005,986 and \$1,752,747 in the three and six months period ended June 30, 2018 respectively compared to a net income attributable to New Jersey Mining Company of \$200,672 in the three months ended June 30, 2017 and net loss attributable to New Jersey Mining Company of \$62,473 in the six months ended June 30, 2017.

### Financial Condition and Liquidity

Cash and cash equivalents, end of period	<b>\$ 1,301,521</b>	<b>\$ 320,075</b>

The Company is currently producing from the open-pit at the Golden Chest Mine and began underground operations in early November 2017. Since 2017, with the exception of the second quarter of 2018, production has generated positive cash flow from operations and planned production for the next 18 months indicates the trend should improve. The Company has also been successful in raising required capital to continue production and fund ongoing operations, completing a forward gold sale of \$1.2 million in 2016, common stock and warrants sales of \$1,391,000 in 2017, and an additional \$1,107,571 in common stock and warrant sales in the first half of 2018. The Company also sold mineral property in the second quarter of 2018 for proceeds of \$3,000,000. The Company has utilized the proceeds for acquisition of mineral properties, equipment purchase, and debt reduction.

As a result of its planned production, equity sales and ability to restructure debt, management believes cash flows from operations and existing cash are sufficient to conduct planned operations and meet contractual obligations for the next 12 months.

### ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required for small reporting companies.

**ITEM 4:**

**CONTROLS AND PROCEDURES**

**Disclosure Controls and Procedures**

At June 30, 2018, our President who also serves as our Chief Accounting Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) of the Securities Exchange Act of 1934 (the Exchange Act ), which disclosure controls and procedures are designed to insure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized, and reported within required time periods specified by the Securities & Exchange Commission rules and forms.

Based upon that evaluation, it was concluded that our disclosure controls were effective as of June 30, 2018, to ensure timely reporting with the Securities and Exchange Commission. Specifically, the Company s corporate governance and disclosure controls and procedures provided reasonable assurance that required reports were timely and accurately reported in our periodic reports filed with the Securities and Exchange Commission.

**Changes in internal control over financial reporting**

There was no material change in internal control over financial reporting in the quarter ended June 30, 2018.
