Announces Record Third Quarter Earnings Increase of 100.0%  
to \$0.18 per share after Lease Accounting Adjustments  
of \$0.03 per share**

BRISBANE, CALIF. April 21, 2005 bebe stores, inc. (Nasdaq:BEBE) today announced financial results for the third quarter ended April 2, 2005.

Net sales for the third quarter of fiscal 2005 were \$116.9 million, up 39.7% from \$83.6 million reported for the third quarter a year ago. As previously reported, same store sales for the quarter increased 28.5% compared to an increase of 16.7% in the prior year.

Gross profit as a percentage of net sales increased to 46.8% in the third quarter of fiscal 2005, compared to 46.3% in the third quarter of fiscal 2004. The increase in gross profit as a percentage of net sales from the prior year of 0.5% was primarily the result of favorable occupancy leverage as a result of higher comparable store sales offset by the impact of a cumulative, non-cash adjustment charged to cost of goods sold of approximately \$3.2 million (\$2.0 million after tax), or \$0.03 per share, related to lease accounting as described below.

SG&A expenses for the third quarter of fiscal 2005 were \$37.8 million, or 32.4% of net sales, compared to \$30.5 million, or 36.5% of net sales for the same period of the prior year. The decrease in SG&A expenses as a percent of sales is primarily due to increased leverage on compensation and fixed expenses as a result of higher comparable store sales.

Net earnings for the third quarter increased 103.7% to \$11.1 million, compared to \$5.5 million for the same period of the prior year. Diluted earnings per share for the third quarter increased 100.0% to \$0.18 based on 62.7 million weighted average shares outstanding versus \$0.09 based on 59.7 million weighted average shares outstanding in the same period of the prior year. Fiscal 2005 results include the \$0.03 per share impact of the lease accounting charge.

## Edgar Filing: BEBE STORES INC - Form 8-K

Net sales for the year-to-date period ended April 2, 2005 were \$372.6 million, up 33.4% from \$279.2 million reported for the year-to-date period ended March 31, 2004. As previously reported, same store sales for the year-to-date period beginning July 1, 2004 and ending April 2, 2005 increased 23.0% compared to an increase of 9.7% for the year-to-date period beginning July 1, 2003 and ending March 31, 2004.

Net earnings for the year-to-date period ended April 2, 2005 were \$46.8 million, an increase of 84.3% from \$25.4 million for the year-to-date period ended March 31, 2004. Diluted earnings per share for the year-to-date period ended April 2, 2005 were \$0.76 based on 61.9 million weighted average shares outstanding compared to \$0.43 based on 59.4 million weighted average shares outstanding for the year-to-date period ended March 31, 2004. Fiscal 2005 results include the \$0.03 per share impact of the lease accounting charge.

For the fourth quarter of fiscal 2005, the Company currently anticipates comparable store sales to be in the positive high teens range and diluted earnings per share in the range of \$0.17 to \$0.20 per share based on 62.8 million weighted average shares outstanding, versus \$0.14 based on 60.2 million weighted average shares outstanding in the fourth quarter of fiscal 2004.

During the fiscal year to date period ended April 2, 2005, the Company opened eleven stores which include five bebe stores and six BEBE SPORT stores and closed four stores which include two bebe stores and two BEBE SPORT stores. In addition, the Company incurred capital expenditures of approximately \$16 million. The Company anticipates opening 21 new stores in fiscal 2005, which include eleven bebe stores and ten BEBE SPORT stores, and closing five stores which include two bebe stores and three BEBE SPORT stores. For fiscal year 2005, the Company's planned capital expenditures are approximately \$20 million.

For fiscal 2006, the Company anticipates opening 25 new stores resulting in a square footage growth of approximately 10% and will seek board of director approval for additional stores subsequent to the release of fiscal 2005 actual results. The number of new stores is currently planned to be split evenly between bebe and BEBE SPORT stores and will include one new outlet store.

### Lease Accounting

On February 7, 2005, the Office of the Chief Accountant of the Securities and Exchange Commission ( SEC ) issued a letter to the American Institute of Certified Public Accountants expressing its views regarding certain operating lease accounting issues and their application under accounting principles generally accepted in the United States of America ( GAAP ). As a result of a review by the Company's management, the Company determined that in order to comply with Financial Accounting Standards Board ( FASB ) Statement No. 13 Accounting for Leases , FASB Technical Bulletin No. 85-3 Accounting for Operating Leases with Scheduled Rent Increases , and FASB Technical Bulletin No. 88-1 Issues Relating to Accounting for Leases , the Company would correct the manner in which it accounts for construction allowances and the period over which it recognizes rent expense. The Company has discussed these matters with its independent registered public accounting firm.

Historically, the Company has recognized straight line expense for leases beginning on the store opening date which had the effect of excluding the build-out period of its stores from the calculation of the period over which it expenses rent. The Company has corrected its lease accounting to begin recording rent expense when it takes possession of a store, which occurs approximately 90 days prior to the opening of the store.

Additionally, construction allowances related to store openings prior to September 2002 had been recorded as reductions of property and equipment and amortized as a reduction of depreciation expense. Construction allowances related to store openings prior to September 2002 have been appropriately reclassified as deferred rent and will be amortized as a reduction of rent expense. Construction allowances related to store openings beginning in September 2002 were appropriately recorded as deferred rent and amortized as a reduction of rent expense.

The cumulative impact of the lease accounting adjustments through April 2, 2005 results in an increase to total assets of \$5.4 million, an increase to total liabilities of \$8.6 million, and a reduction to net income before income taxes of \$3.2 million. The effect of the cumulative adjustment on net income after tax is \$2.0 million, or \$0.03 per diluted share. The Company has recorded this adjustment as a cumulative, non-cash charge in the third quarter ended April 2, 2005. Prior year financial results will not be restated due to the immateriality of this issue to the results of operations and financial position for the current year or any individual prior year. The adjustment will not affect historical or future cash flows or timing of payments under related leases. Furthermore, it is not expected to have any material impact on future earnings.

### Auction Rate Securities

The Company's management has recently reviewed its accounting for auction rate securities and determined that in accordance with Statement of Financial Accounting Standards ( SFAS ) No. 95, Statement of Cash Flows , SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities , and Accounting Research Bulletin No. 43, Chapter 3, Working Capital , investments in auction rate securities should be classified as short-term investments. This determination resulted in a reclassification from cash equivalents to short-term investments of \$150.4 million at March 31, 2004. This reclassification does not affect historic or future earnings or cash flows from operations.
