**NOTE 1 NATURE OF OPERATIONS AND BASIS OF PRESENTATION**

Alternet Systems Inc. ( Alternet or the Company ) is in the development stage of operations which includes the design, marketing and sale of proprietary software and hardware systems known as SchoolWeb and CommunityWeb . The Company's products provide high speed Internet access to schools and rural communities, in North America and internationally.

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB of Regulation S-B. They may not include all information and footnotes required by generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the financial statements for the year ended December 31, 2006 included in the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission. The interim unaudited financial statements should be read in conjunction with those financial statements included in the Form 10-KSB. In the opinion of Management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the nine months ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

The Company has incurred losses since inception and further losses are anticipated in the development of its products raising substantial doubt as to the Company's ability to continue as a going concern. The Company's continued operations are dependent on the successful implementation of its business plan, its ability to obtain additional financing as needed, continued support from creditors, settling its outstanding debts and ultimately attaining profitable operations. It is management's intention to continue to pursue market acceptance for its proprietary software and hardware systems technology, to settle its outstanding debts and to identify funding sources until such time that there is sufficient operating cash flow to fund operating requirements. Funding for continuing operations will be pursued on a private placement basis with qualified investors in applicable US States and Canada.

**Gross Profit**

Gross profit was nil in the nine months ended September 30, 2007 and \$3,604 for the nine months ended September 30, 2006. This was due to no new sales of the Company's products having occurred in the current period.

**Selling, General and Administrative Expenses**

For the nine months ended September 30 2007, the Company had office and general expenses of \$29,120, marketing expenses of \$642,832, management and consulting fees of \$228,970, professional fees of \$63,149 and rent of \$28,642.

For the corresponding period in 2006 the Company incurred office and general expenses of \$32,766; marketing expenses of \$263,069; management and consulting fees of \$331,020; \$35,946 in professional fees and \$26,647 in rent.

Office and general expenses decreased 9% compared to the corresponding period in 2006. Marketing expense increased 144% this period, compared to the corresponding period in 2006, and is a result of increased activity in marketing SchoolWeb, HealthWeb and CommunityWeb wireless broadband products internationally, and the Company hiring additional marketing personnel during the period.

---

Professional fees increased 75% in the current period compared to the corresponding period ending September 30 2006 due to increased costs of associated with the Company's potential merger with TekVoice, and annual and interim filings.

Management and consulting expense decreased 31% to for the nine months ended September 30 2007, compared to the corresponding period in 2006. The decrease was due to a reduction in management and consulting staff in the period.

The increased loss was due primarily to an increase in marketing expenses, which was partially offset by a reduction in management expense.

### **Interest and other expenses**

### **Liquidity and Capital Resources**

The Company had current assets including cash on hand of \$3,890 as at September 30, 2007. The Company also had a net loss of \$1,003,772 during the nine months ended September 30, 2007.

The Company had a working capital deficiency of \$174,627 at September 30 2007. Management of the Company has determined that the Company's ability to continue as a going concern is dependent on our officers, consultants and employees continuing to work for the Company for direct stock awards instead of cash, raising additional capital and achieving sales of its CommunityWeb, SchoolWeb and HealthWeb products.

Management can give no assurance that any sales will occur in the future and if they do occur, may not be enough to cover the Company's operating expenses or any other costs. Should this be the case, we would be forced, unless sufficient working capital can be raised, to suspend operations and possibly liquidate the assets and wind up and dissolve the Company.
