Board of Directors of  
Global Assets and Services, Inc.  
Tampa, FL

We have reviewed the accompanying balance sheet for Global Assets & Services, Inc. (a development stage company) for September 30, 2002 and the related statements of operations for the three and nine-months ended September 30, 2002 and 2001 and for the period from May 25, 1988 (inception) to September 30, 2002 and cash flows for the nine-months ended September 30, 2002 and 2001 and for the period from May 25, 1988 (inception) to September 30, 2002, included in the accompanying Securities and Exchange Commission 10-QSB for the period ended September 30, 2002. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are unaware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with auditing standards generally accepted in the United States, the balance sheet as of December 31, 2001, and the related statements of operations, stockholders' equity and cash flows for the year then ended (not presented herein). In our report dated April 18, 2002, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying balance sheet as of September 30, 2002 is fairly stated in all material respects in relation to the balance sheet from which it has been derived.
