**PALATIN TECHNOLOGIES, INC. ANNUAL
MEETING 2003
PROXY STATEMENT**

VOTING PROCEDURES AND SOLICITATION

YOUR VOTE IS IMPORTANT

Whether or not you plan to attend the meeting, please complete and return the enclosed proxy card. Your prompt voting may save us the expense of following up with a second mailing. We began sending out these proxy materials on approximately November 14, 2003.

METHODS OF VOTING

You may vote by signing and returning the enclosed proxy card or by voting in person at the meeting. If you send in a proxy card, and also attend the meeting in person, the proxy holders will vote your shares as you instructed on your proxy card, unless you inform the Secretary at the meeting that you wish to vote in person.

REVOKING A PROXY

You may revoke your proxy by:

signing and returning another proxy card at a later date;

sending written notice of revocation to the Secretary at our offices, 4C Cedar Brook Drive, Cranbury, New Jersey 08512; or

informing the Secretary and voting in person at the meeting.

To be effective, a later-dated proxy or written revocation must arrive at our corporate offices before the start of the meeting.

PROXY SOLICITATION

We are soliciting the enclosed proxy card on behalf of the board of directors, and we will pay all costs of preparing, assembling and mailing the proxy materials. In addition to mailing out proxy materials, our officers and employees may solicit proxies by telephone or fax, without receiving any additional compensation for their services. We have requested brokers, banks and other fiduciaries to forward proxy materials to the beneficial owners of our stock.

HOW PROXY CARDS ARE VOTED

The proxy holders named on the proxy card are Carl Spana, Ph.D., chief executive officer, president and a director,

and Stephen T. Wills, chief financial officer, executive vice president, secretary and treasurer. The proxy holders will vote shares according to the stockholder s

PROXY STATEMENT, PAGE 3

Table of Contents

instructions on the proxy card. If a signed proxy card does not contain instructions, then the proxy holders will vote the shares FOR the election of the director nominees listed on the card; FOR ratifying the appointment of KPMG LLP as our independent auditors for the fiscal year ending June 30, 2004; and in their discretion on any other business which may properly come before the meeting.

QUORUM AND VOTES REQUIRED

A majority of the votes of outstanding shares of common stock and Series A preferred stock, represented at the meeting in person or by proxy, constitutes a quorum. Abstentions and broker non-votes will count towards the quorum. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item, and has not received instructions from the beneficial owner. Common stock and Series A preferred stock will vote together as one class on the three items of business listed on the proxy card.

Directors are elected by a plurality of votes cast, so the seven nominees receiving the most votes will be elected. Stockholders who do not wish to vote for one or more of the individual nominees may withhold authority in the space provided on the proxy card. Abstentions and broker non-votes will count neither for nor against election.

Ratifying the appointment of the independent auditors for the fiscal year ending June 30, 2004 requires a majority of the votes cast. Abstentions and broker non- votes will count neither for nor against ratification.

VOTING RIGHTS, SHARES OUTSTANDING AND VOTES PER SHARE

Holders of common stock and of Series A preferred stock at the close of business on the record date of November 6, 2003, are entitled to vote at the meeting.

Common stock: 44,667,718 shares outstanding, one vote per share

Series A preferred stock: 12,947 shares outstanding, approximately 38.02 votes per share, a total of 492,266 votes

ITEM ONE: ELECTION OF DIRECTORS

We recommend voting FOR the seven nominees listed on the proxy card. At the meeting, the seven nominees who receive the most votes will be elected as directors to serve until the next annual meeting, or until their successors are elected and qualified. Each of the nominees is currently a director. If any of the nominees should become

unavailable to serve on the board, the proxy holders will vote your shares for a board-approved substitute, or the board may reduce the number of directors.

ITEM 2: RATIFICATION OF APPOINTMENT OF KPMG LLP AS INDEPENDENT AUDITORS

We recommend voting FOR the ratification of the appointment of KPMG LLP as our independent auditors for the fiscal year ending June 30, 2004. KPMG served as our independent auditors for the fiscal year ended June 30, 2003. We have requested that a representative of KPMG attend the meeting. The representative will have an opportunity to make a statement, if he or she desires, and will be available to respond to appropriate questions from stockholders.

Audit Fees. For the fiscal year ended June 30, 2003, KPMG billed us a total of \$69,928 for professional services rendered for the audit of our annual financial statements, review of financial statements in our Forms 10-Q and services provided in connection with regulatory filings. For the fiscal year ended June 30, 2002, the total was \$47,161.

Audit-Related Fees. During the fiscal years ended June 30, 2003 and 2002, KPMG did not perform or bill us for assurance and related services related to audit or review of our financial statements, other than as stated in the preceding paragraph.

Financial Information Systems Design and Implementation Fees. During the fiscal years ended June 30, 2003 and 2002, KPMG did not perform or bill us for financial information systems design and implementation.

Tax Fees. For the fiscal year ended June 30, 2003, we expect that KPMG will bill us a total of \$12,000 for professional services rendered for tax compliance, tax advice and tax planning. For the fiscal year ended June 30, 2002, the total was \$11,500.

All Other Fees. KPMG did not perform or bill us for any services other than those described above for the fiscal years ended June 30, 2003 and 2002.

Change of accountants. On August 8, 2002, upon the recommendation and approval of our Audit Committee, we dismissed Arthur Andersen LLP as our principal independent public accountants and engaged KPMG.

In connection with the audits for the two (2) years ended June 30, 2001 and 2000 and the subsequent interim period through the filing date of our Annual Report on Form 10-K for the fiscal year ended June 30, 2002, there were no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures which, if not resolved to the satisfaction of Andersen, would have caused Andersen to make reference to the subject matter of such disagreements in connection with their reports on our consolidated financial statements for such years; and there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

The reports of Andersen on our consolidated financial statements, as of and for the years ended June 30, 2001 and 2000, did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

We provided Andersen with the foregoing disclosures and requested Andersen to furnish a letter addressed to the Securities and Exchange Commission stating whether it agrees with the above statements. While we have received no information from Andersen that Andersen has a basis for disagreement with such statements, we have been unable to obtain such a letter due to

the fact that the personnel primarily responsible for our account (including the engagement partner and manager) have left Andersen.

During the years ended June 30, 2001 and 2000 and through the date we engaged KPMG, neither we nor someone on our behalf consulted KPMG regarding the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K under the Securities Act of 1993.

REPORT OF THE AUDIT COMMITTEE

We have reviewed and discussed the audited financial statements for the fiscal year ended June 30, 2003 with the company's management and have discussed with KPMG LLP the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees. In addition, we have received from KPMG the written disclosures and the letter required by the Independence Standards Board Standard No.1, Independence Discussions with Audit Committees, and we have discussed with KPMG their independence.

Based on these reviews and discussions, we recommended to the board of directors that the audited financial statements be included in the company's annual report on Form 10-K for the fiscal year ended June 30, 2003.

EMPLOYMENT AGREEMENTS

Carl Spana, Ph.D. and Stephen T. Wills. Dr. Spana and Mr. Wills each entered into an employment agreement with us for a two-year period commencing October 1, 2001. Each agreement automatically renewed for a one-year period unless terminated at least 30 days before the anniversary date. Dr. Spana is serving as chief executive officer and president at a salary of \$320,000 per year. Mr. Wills is serving as chief financial officer at a salary of \$260,000 per year. Each agreement also provides for:

annual bonus compensation, in an amount to be decided by the compensation committee and approved by the board, based on achievement of yearly objectives; and

participation in all benefit programs that we establish, to the extent the employee's position, tenure, salary, age, health and other qualifications make him eligible to participate.

Each agreement allows us or the employee to terminate the agreement upon written notice, and contains other provisions for termination by the company for cause, or by the employee for good reason or due to a change in control (as these terms are defined in the employment agreements). Early termination may, in some circumstances, result in severance pay at the salary then in effect, for a period of 24 months (Spana) or 18 months (Wills), plus continuation of medical and dental benefits then in effect for 18 months. Termination following a change in control will result in a lump sum payment of two times (Spana) or one and one-half times (Wills) the salary then in effect, continuation of medical and dental benefits then in effect for 18 months, and immediate vesting of all stock options. Each agreement includes non-competition, non-solicitation and confidentiality covenants.

New agreements with Dr. Spana and Mr. Wills. Effective October 1, 2003, Dr. Spana and Mr. Wills have each entered into a new employment agreement with us for a two year term. The terms of the new agreements are identical to the previous agreements described above, except that the new agreements do not have automatic renewal provisions.

Perry B. Molinoff, M.D. Dr. Molinoff entered into an employment agreement with us for a two-year period commencing September 4, 2001. His agreement automatically renewed for a one-year period unless terminated at least 30 days before the anniversary date. Dr. Molinoff served as executive vice president of research and development at a salary of \$265,000 per year. He resigned as an officer effective November 3, 2003, in order to accept appointment to the position of Vice Provost for Research at the University of Pennsylvania. He therefore no longer receives compensation or benefits under his employment agreement. His agreement also provided for:

annual bonus compensation, in an amount to be decided by the compensation committee and approved by the board, based on achievement of yearly objectives; and

participation in all benefit programs that we establish, to the extent the employee's position, tenure, salary, age, health and other qualifications make him eligible to participate.

The agreement allowed us or the employee to terminate the agreement upon written notice, and contained other provisions for termination by the company for cause, or by the employee for good reason or due to a change in control (as these terms were defined in the employment agreement). Early termination could, in some circumstances, result in severance pay at the salary then in effect, plus continuation of medical and dental benefits then in effect, for a period

of 12 months. Termination following a change in control would have resulted in severance payments at the salary then in effect for 12 months, continuation of medical and dental benefits then in effect for 12 months, employment search expense reimbursement up to \$25,000, and immediate vesting of all stock options. Dr. Molinoff's resignation did not trigger the early termination

provisions. The agreement included non-competition, non-solicitation and confidentiality covenants.

Shubh D. Sharma, Ph.D. When we merged with RhoMed Incorporated (now our wholly-owned subsidiary) in 1996, we assumed RhoMed's employment agreement with Dr. Sharma, which automatically renewed for one-year periods, unless terminated by either party at least six months before the anniversary date. Dr. Sharma is serving as a vice president and chief technical officer at a salary of \$185,000 per year. His agreement also provides for:

bonus compensation based on completion of proprietary peptide libraries, and discretionary incentive bonuses in an amount to be decided by the company; and

participation in all benefit programs that we establish, to the extent the employee's position, tenure, salary, age, health and other qualifications make him eligible to participate.

The agreement allows us or the employee to terminate the agreement upon written notice, and contains other provisions for termination by the company for cause (as defined in the agreement). Early termination may, in some circumstances, result in severance pay at the salary then in effect, for a period of six months. The agreement includes non-competition and confidentiality covenants.

New agreement with Dr. Sharma. Effective October 1, 2003, Dr. Sharma has entered into a new employment agreement with us for a two year term. The terms of the new agreement are identical to the previous agreement described above, except that the new agreement does not have automatic renewal provisions and provides for nine months, rather than six months, of severance pay in the event of early termination.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION IN COMPENSATION DECISIONS.

During the fiscal year ended June 30, 2003, Mr. Flannery, Mr. deVeer and Dr. Horovitz served on the compensation committee.

There are no compensation committee interlocks with other companies.

COMPENSATION COMMITTEE REPORT

The compensation committee of the board makes recommendations to the board about compensation of executive officers. The committee also administers the 1996 stock option plan and may grant options to

non-management employees and consultants, but it is the board's policy to have the full board review and approve all option grants which the committee recommends for executive officers and directors. The committee also reviews and makes recommendations to the board concerning proposed employment agreements with executive officers. The committee evaluates performance and determines compensation policies and levels for executive officers. The members of the compensation committee are not, and have never been, employees or executive officers of Palatin. Mr. deVeer has served on the committee since August 2000, and

PROXY STATEMENT, PAGE 16

Table of Contents

Dr. Horovitz has served on the committee since February 2001. Mr. Flannery served on the committee from August 2000 until his resignation as a director effective October 14, 2003.

Executive compensation policy. Competition for qualified senior management personnel in Palatin's industry is intense. In order to attract and retain qualified personnel, Palatin must offer compensation which is both comparable to similarly situated companies in current salary and benefits, and includes the potential for substantial rewards if Palatin is successful over the long term. Palatin's aim is to attract, retain and reward executive officers and other key employees who contribute to its long-term success and to motivate those individuals to enhance long-term stockholder value. It is Palatin's policy to enter into employment agreements with executive officers, preferably with an initial term of two years. To establish this relationship between executive compensation and creation of stockholder value, the board has adopted a total compensation package comprised of base salary, bonus and stock option awards. Key elements of the compensation philosophy are:

Palatin pays compensation at levels competitive with other biotechnology companies with which Palatin competes for talent.

Palatin maintains annual incentive opportunities sufficient to provide motivation to achieve specific operating goals and to generate rewards that bring total compensation to competitive levels.

Palatin provides significant equity-based incentives for executives and other key employees to ensure that they are motivated over the long-term to respond to Palatin's business challenges and opportunities as owners and not just as employees.

Determining executive compensation. The committee usually meets twice per year to review how well management compensation is serving Palatin's goals, to make recommendations to the board for any adjustments, and to recommend annual compensation for the coming year. Palatin's chief financial officer and human resources manager gather and report on information about compensation levels in comparable companies. We review the performance of each executive officer and the financial condition of the company. We then consider the following major components of executive compensation:

Base salary. The employment agreement with each executive sets an initial base salary, which is competitive in our industry, given the executive's experience and qualifications, at the time we enter into the agreement. The committee annually reviews each executive officer's base salary. Among the factors taken into consideration are (1) individual and corporate performance, (2) levels of responsibility, (3) prior experience, (4) breadth of knowledge of the industry, and (5) competitive pay practices. If salaries at comparable companies appear to have increased, we recommend similar increases, but only if each executive's historical performance warrants an increase and if the increase is prudent in view of Palatin's

financial condition.

Annual bonus. In addition to the competitive base salary, we intend to reward executives each year for the achievement of specific goals, which may be financial, operational or technological. We consider objectively measurable goals, such as obtaining new investment capital, negotiating valuable contracts, or meeting regulatory requirements, and more subjective goals, such as quality of management performance and consistency

PROXY STATEMENT, PAGE 17

Table of Contents

of effort. Palatin's objectives consist of operating, strategic and financial goals that the board considers to be critical to Palatin's overall goal: building stockholder value. Our recommendations for cash bonuses also take into account Palatin's liquidity and capital resources at the time. Until Palatin's operations generate substantial income, we may recommend bonuses which consist partly or mainly of stock options. Stock options granted as part of bonus compensation will usually be immediately exercisable, or will vest over a shorter time than other incentive options.

Long-term incentives. At present, Palatin's only long-term incentive program is its 1996 stock option plan. Palatin does not have a defined benefit pension plan, and contributions to executives' accounts under Palatin's 401K plan are limited by federal tax regulations. Through option grants, executives receive significant equity incentives to build long-term stockholder value. The exercise price of options granted under the plan is at least 100% of fair market value of the common stock on the date of grant. Employees receive value from these grants only if the common stock appreciates over the long-term. We determine the size of option grants based on competitive practices at leading companies in the biotechnology industry and Palatin's philosophy of significantly linking executive compensation with stockholder interests.

Fiscal year 2003 compensation. During the fiscal year ended June 30, 2003, we continued compensation under our employment agreements with Dr. Spana, Mr. Wills, Dr. Molinoff and Dr. Sharma, with no change in base salaries. The base salaries for these executive officers, as provided in their employment agreements, reflect comparable salary figures for the industry, necessary to engage and retain individuals with their skills. Stock option grants for the executive officers reflected achievement of corporate and development goals. Starting December of 2002, we have made the vesting of a majority of the options granted to our executive officers contingent on achievement of performance objectives. Due to insufficient liquidity and other factors, we did not grant cash bonuses to executive officers with respect to fiscal 2002. We have resumed the granting of cash bonuses with respect to fiscal 2003, but did not pay out these bonuses until the first quarter of fiscal 2004.

The base salary, bonus and grants of stock options for our CEO, Carl Spana, Ph.D., were determined in accordance with the criteria described above under Determining executive compensation. Dr. Spana's compensation reflects the board's subjective assessment of (1) his performance, (2) his skills in relation to other CEOs in Palatin's industry, and (3) the board's assessment of Palatin's performance. Considering these factors, the committee set Dr. Spana's base annual salary at \$290,000 when we entered into our employment agreement with him effective October 1, 2001.

Certain Tax Considerations. Section 162(m) of the Internal Revenue Code limits the company to a deduction for federal income tax purposes of not more than \$1 million of compensation paid to certain executive officers in a taxable year. Compensation above \$1 million may be deducted if it is performance-based compensation within the meaning of the Code.

The committee believes that at the present time it is unlikely that the compensation paid to any executive officer in a taxable year will exceed \$1 million. Therefore, the board has not

PROXY STATEMENT, PAGE 18

Table of Contents

established a policy for determining which forms of incentive compensation awarded to executive officers will be designed to qualify as performance based compensation.

The options would otherwise have expired 90 days after his resignation as an officer. In addition, as consideration for his services as a director and for continuing as a consultant, we agreed to grant him a stock option to purchase 50,000 shares of
