The enclosed Notice of Special Meeting and Proxy Statement explains the proposals and provides specific information concerning the Special Meeting. Please read these materials (including the annexes) carefully.

Your vote is very important, regardless of the number of shares you own. Under Section 30-29-1003 of the Idaho Business Corporation Act and Enviro Voraxial Technology's Articles of Incorporation, as amended, each proposal to amend the Articles of Incorporation must be approved by the affirmative vote of the holders of Enviro Voraxial Technology's common stock, par value \$0.001 (the "Common Stock"), representing a majority of the votes cast, in person or by proxy, at the meeting. Management of the Company has been informed by the executive officers and directors of the Company that they intend to vote all shares they beneficially hold with voting rights FOR the proposals, which represent approximately 13% of the votes eligible to be cast at the Special Meeting.

If you do not return your proxy card or attend the Special Meeting and vote in person, your shares will not be counted for purposes of determining quorum. Abstentions and broker non-votes, if any, will be counted for purposes of determining quorum, but will have no effect on the vote on the proposals. To vote your shares, you may return your proxy card or attend the Special Meeting and vote in person. Even if you plan to attend the Special Meeting, we urge you to

promptly submit a proxy for your shares by completing, signing, dating and returning the enclosed proxy card.

PROXY STATEMENT
FOR
SPECIAL MEETING OF SHAREHOLDERS

April __, 2017

INTRODUCTION

This Proxy Statement is being furnished in connection with the solicitation of proxies by the board of directors of Enviro Voraxial Technology, Inc. (hereinafter "we," "us," "our," the "Company" or "Enviro Voraxial Technology") for use at a Special Meeting of Shareholders to be held on [May 30, 2017] (the "Special Meeting") beginning at 10:00 a.m., local time, at 821 NW 57th Place, Fort Lauderdale, Florida 33309, and any postponements or adjournments thereof. This Proxy Statement was first made available to shareholders on or about April __, 2017.

At the Special Meeting, our shareholders will consider and act upon the following proposals:

1. Amend the Company's Articles of Incorporation, as amended, to change our company name to Enviro Technologies, Inc.;
2. To amend the Company's Articles of Incorporation, as amended, to increase the number of authorized shares of Common Stock from 42,750,000 shares to 250,000,000 shares; and
3. To approve our Technology Purchase Agreement, dated March 13, 2017 (the "Technology Agreement"), by and among Enviro Voraxial Technology, Inc. and Florida Precision Aerospace, Inc., as Sellers, and, Schlumberger Technology Corporation, a Texas corporation, Schlumberger Canada Limited, a Canadian entity, and Schlumberger B.V., an entity organized under the laws of the Netherlands (the "Buyer").

Only shareholders of record as of the "Record Date" will be entitled to vote at the Special Meeting and any postponements or adjournments thereof. As of that date, 33,514,497 shares of our Common Stock were outstanding and eligible to be voted. Each proposal to amend the Articles of Incorporation needs to be approved by a majority of the votes cast, in person or by proxy, at the Special Meeting. The Technology Purchase Agreement shall be approved if the votes cast at the Special Meeting approving the Technology Purchase Agreement exceed the votes cast in opposition of the action. Management of the Company has been informed by the executive officers and directors of the Company that such parties intend to vote all shares they beneficially hold with voting rights FOR each proposal. Together, such parties and proxies represent approximately 13% of the votes eligible to be cast at the Special Meeting.

Shareholders may vote in person or by proxy. Execution of a proxy will not in any way affect a shareholder's right to attend the Special Meeting and vote in person. Any proxy may be revoked by a shareholder at any time before it is exercised by delivery of a written revocation or a later executed proxy to the Secretary of Enviro Voraxial Technology

or by attending the Special Meeting and voting in person.

The costs of preparing, assembling and mailing this Proxy Statement and the other material enclosed and all clerical and other expenses of solicitation will be paid by Enviro Voraxial Technology. In addition to the solicitation of proxies by use of the mails, directors, officers and employees of Enviro Voraxial Technology, without receiving additional compensation, may solicit proxies by personal interview, mail, e-mail, telephone, facsimile or

other means of communication. Enviro Voraxial Technology also will request brokerage houses and other custodians, nominees and fiduciaries to forward soliciting material to the beneficial owners of Common Stock held of record by such custodians and will reimburse such custodians for their expenses in forwarding soliciting materials.

QUESTIONS AND ANSWERS ABOUT THE SPECIAL MEETING

The following are some questions that you, as a shareholder of the Company, may have regarding the Special Meeting and brief answers to such questions. We urge you to carefully read this entire Proxy Statement, the annexes to this Proxy Statement and the documents referred to in this Proxy Statement because the information in this section does not provide all the information that may be important to you as a shareholder of the Company.

A. Required Vote

Proposal 1: Change the name of our Company to Enviro Technologies, Inc.

The authorization of the amendment must be approved by the affirmative vote of a majority of the votes cast, in person or by proxy, at the meeting. The proposed name change removing "Voraxial" is a condition of the Technology Agreement.

Proposal 2: Approve the Amendment to Increase the Number of Authorized Shares of Common Stock from 42,750,000 Shares to 250,000,000 Shares.

The authorization of the amendment must be approved by the affirmative vote of a majority of the votes cast, in person or by proxy, at the meeting.

Proposal 3: Advisory Vote on the Technology Agreement.

Shareholder approval is not required under Idaho law for our board to approve the Technology Agreement. The board, however, believes that shareholder approval of the Technology Agreement is important. Under Section 30-29-725 of the Idaho Business Corporation Act and Enviro Voraxial Technology's Articles of Incorporation, as amended, the Technology Purchase Agreement shall be approved if the votes cast at the Special Meeting approving the Technology Purchase Agreement exceed the votes cast in opposition of the action. If the Technology Agreement is approved by our shareholders, the board intends to close the transactions contemplated by the Technology Agreement as soon as practicable following the receipt of such approval. If the proposal is not approved at the Special Meeting, the Technology Agreement will not be completed and the board will consider other alternatives to the Technology Agreement, although the board is not considering any other alternatives at this time.

Record Date

Holders of our Common Stock as of the close of business on April 20, 2017, the Record Date for the Special Meeting, are entitled to notice of, and to vote at, the Special Meeting and any postponements or adjournments of the Special Meeting. On the Record Date, there were 33,514,497 shares of Common Stock entitled to vote at the Special Meeting and any postponements or adjournments of the Special Meeting. No other shares of capital stock were outstanding on the Record Date.

Ownership of Directors and Executive Officers

As of the Record Date, our directors and executive officers beneficially held, in the aggregate, approximately 13% of the outstanding Common Stock entitled to vote at the Special Meeting. Management and our board of directors have elected not to exercise its stock options for the voting of this transaction. In connection with the proposals, management of the Company has been informed by the executive officers and directors of the Company that they intend to vote all shares they beneficially hold with voting rights FOR the proposals, which represent approximately 13% of the votes eligible to be cast at the Special Meeting.

Quorum and Voting

The presence in person or representation by proxy of the holders of at least a majority of the issued and outstanding shares of our Common Stock entitled to vote at the Special Meeting, is necessary to constitute a quorum. Each holder of Common Stock is entitled to one vote per share. If you do not vote by virtue of not being present in person or by proxy at the Special Meeting, your shares will not be counted for purposes of determining a quorum. Abstentions and broker non-votes, if any, will be counted for purposes of determining quorum, but will have no effect on the vote on the proposals.

Proxies; Revocation of Proxies

If you are unable to attend the Special Meeting, we urge you to submit your proxy by completing and returning the enclosed proxy card or submit your proxy via the Internet, facsimile or by telephone. If your shares of Common Stock

are held in "street name" (i.e., through a bank, broker or other nominee), you will receive instructions from your broker, bank or other nominee that you must follow in order to have your shares voted. If you elect

to vote in person at the Special Meeting and your shares are held by a broker, bank or other nominee, you must bring to the Special Meeting a legal proxy from the broker, bank or other nominee authorizing you to vote your shares of Common Stock.

Unless contrary instructions are indicated on the proxy card, all shares of Common Stock represented by valid proxies will be voted "FOR" each of the proposals being voted upon at the Special Meeting.

Furthermore, all shares of Common Stock represented by valid proxies will be voted at the discretion of the persons named as proxies in respect of such other business as may properly be brought before the Special Meeting. As of the date of this Proxy Statement, our board of directors knows of no other business that will be presented for consideration at the Special Meeting other than the proposals set forth in this Proxy Statement.

You may revoke your proxy and change your vote at any time before the polls close at the Special Meeting by:

- giving written, dated notice to the Corporate Secretary of Enviro Voraxial Technology stating that you would like to revoke your proxy;
- signing and returning to us in a timely manner another proxy card with a later date; or
- attending the Special Meeting in person and voting.

Simply attending the Special Meeting will not constitute a revocation of your proxy.

Adjournments

The Special Meeting may be adjourned by holders of a majority of the outstanding shares of Enviro Voraxial Technology's Common Stock entitled to vote at the Special Meeting for any purpose, including for the purpose of obtaining a quorum or soliciting additional proxies if there are insufficient votes to authorize the Technology Agreement, and adjourning the Special Meeting for the sole purpose of soliciting additional votes as to one proposal while closing the polls and registering the approval of the other proposal. Any adjournment may be made without notice (if the adjournment is not for more than 30 days and a new record date is not fixed for the adjourned meeting), other than by an announcement made at the Special Meeting of the time, date and place of the adjourned meeting. Any adjournment will allow our shareholders who have already sent in their proxies to revoke them at any time prior to their use at the Special Meeting as adjourned.

Broker Non-Votes

Broker non-votes occur when a broker holding stock in "street name" does not vote the shares on some or all matters. Brokers are permitted to vote on routine, non-controversial proposals in instances where they have not received voting instructions from the beneficial owner of the stock but are not permitted to vote on non-routine matters. Uncast votes on non-routine matters are referred to as "broker non-votes." Because the proposals are non-routine matters, shares of our Common Stock as to which brokers have not received any voting instructions will not be deemed present for these proposals at the Special Meeting.

The inspector of elections will treat broker non-votes as shares that are not present and entitled to vote for the purpose of determining the presence of a quorum. Broker non-votes will have no effect on the vote on the proposals.

Solicitation of Proxies

This proxy solicitation is being made and paid for by Enviro Voraxial Technology on behalf of its board of directors. In addition, we may engage an outside firm to assist in the solicitation. The cost is approximately \$50,000 plus reasonable out-of-pocket expenses for its assistance. Our directors, officers and employees may also solicit proxies by personal interview, mail, e-mail, telephone, facsimile or other means of communication. These persons will not be paid any additional compensation for their efforts. We will also request brokers and other fiduciaries to forward

proxy solicitation material to the beneficial owners of shares of our Common Stock that the brokers and fiduciaries hold of record. Upon request, we will reimburse them for their reasonable out-of-pocket expenses. In addition, we will indemnify any outside firm against any losses arising out of that firm's proxy soliciting services on our behalf.

Questions and Additional Information

If you have more questions about the matters to be voted upon at the Special Meeting or how to submit your proxy, or if you need additional copies of this Proxy Statement or the enclosed proxy card or voting instructions, please contact Investor Relations, Enviro Voraxial Technology, Inc., Attn: John Di Bella, Corporate Secretary, 821 NW 57th Place, Fort Lauderdale, Florida 33309, telephone number (954) 958-9968.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Proxy Statement contains forward-looking statements. Forward-looking statements represent our expectations or beliefs concerning future events, including any statements regarding the proposals; the satisfaction of certain closing conditions specified in the Technology Agreement, our ability to successfully close the Technology Agreement and the timing of such closing, the diversion of management's focus and attention pending the completion of the Technology Agreement, and our ability to continue as a going concern. Without limiting the foregoing, the words "believes," "intends," "projects," "plans," "expects," "anticipates," and similar expressions are intended to identify forward-looking statements. Actual events or results may differ materially from these projections. Please carefully consider these factors, as well as other information contained herein and in our periodic reports and documents filed with the SEC. The forward-looking statements included in this Proxy Statement are made only as of the date of this Proxy Statement. We do not undertake any obligation to update or supplement any forward-looking statements to reflect subsequent events or circumstances, except as required by law.

PROPOSAL 1: THE NAME CHANGE

General

You are being asked to vote on an amendment to the Company's Articles of Incorporation, as amended, to change the Company's corporate name to Enviro Technologies, Inc. The name change to remove "Voraxial" from our corporate name is a condition to the Technology Agreement.

Proposal 1 requires the affirmative vote of a majority of our voting securities that are present in person or by proxy and entitled to vote on the proposal at the meeting. By voting "FOR" this proposal, shareholders will be authorizing the amendment of the Articles of Incorporation to change our company name to Enviro Technologies, Inc. The name change to remove "Voraxial" from our corporate name is a condition to the Technology Agreement, as the "Voraxial" is intellectual property included in the Company assets we propose to sell the Buyer.

To effect the name change, we will file Articles of Amendment to our Articles of Incorporation, amended with the Secretary of State of Idaho, a copy of which is included as Annex A to this Proxy Statement

Because our Common Stock is currently quoted on the OTC Pink Tier of the OTC Markets, the name change will also require processing by the Financial Industry Regulatory Authority, Inc., or FINRA, pursuant to Rule 10b-17 of the Securities Exchange Act of 1934, as amended, in order for this action to be recognized in the market for trading purposes. We expect to receive FINRA's clearance within 30 days following the Special Meeting. Our Common Stock will be quoted on the OTC Markets under our new name following FINRA processing. We will file a Current Report on Form 8-K with the SEC disclosing the effective date of the name change, as well as our new trading symbol and CUSIP number, prior to such effective date.

Following the name change, the share certificates in bearing the current name and CUSIP number will continue to be valid. In the future, new share certificates will be issued reflecting the new name and new CUSIP number in due course as old certificates are tendered for exchange or transfer, but this in no way will effect the validity of your current share certificates. We request that shareholders do not send in any of their stock certificates at this time.

Vote Required

Approval of this proposal requires that votes cast in favor of the proposal exceed the votes cast against the proposal.

Recommendation of Board of Directors

Our board of directors recommends that the holders of our shares vote "FOR" the amendment. On March 13, 2017, the board unanimously approved this proposal by consent and without a meeting.

PROPOSAL 2: INCREASE IN AUTHORIZED COMMON STOCK

General

You are being asked to vote on an amendment to the Company's Articles of Incorporation to increase the authorized number of shares of Common Stock from 42,750,000 shares to 250,000,000 shares.

Proposal 2 requires the affirmative vote of a majority of our voting securities that are present in person or by proxy and entitled to vote on the proposal at the meeting. By voting "FOR" this proposal, shareholders will be authorizing the amendment of the Articles of Incorporation to increase the number of authorized shares. The reason for the proposal to increase the number of authorized shares is discussed below.

The increase in the number of authorized shares of our Common Stock contemplated in this Proposal 2 will both provide sufficient shares for the exercise of outstanding options and to provide shares which may be issued for future corporate purposes. The Company does not have available additional shares that may be necessary for future corporate purposes such as raising capital through the issuance of equity, mergers, acquisitions, and similar transactions, or in order to engage the services of any personnel for future services. While the Company has no present plans to raise capital through the issuance of equity, enter into any mergers or acquisitions with third parties or seek to hire any personnel except as otherwise defined herein, we contemplate that in the future, we may enter into transactions to pursue business opportunities with unidentified third parties. The issuance of additional shares will result in the dilution of the percentage equity interest of our existing shareholders. In connection with any future issuance of Common Stock (up to 250,000,000 shares), there will not be any additional shareholder approval required with respect to the additional shares. Further, under Idaho law, the Company may only issue shares to the extent that such shares have been authorized for issuance under the Company's Articles of Incorporation. As of the Record Date, 33,514,497 of our presently authorized 42,750,000 shares of Common Stock were issued and outstanding. The Company currently has issued and outstanding options exercisable to purchase up to 13,465,000 shares of Common Stock at an exercise price of \$0.01 per share. Options to purchase 7,700,000 shares of Common Stock are held by John Di Bella, the Company's Chief Executive Officer and director and options to purchase 1,000,000 shares of Common Stock are held by Raynard Veldman, our Director. Management and our board of directors have elected not to exercise their stock options for the voting on this proposal, or any other proposal under this Proxy Statement. However, we currently do not have sufficient authorized shares of Common Stock in the event that all of the issued and outstanding options are exercised. The complete text of the amendment is reflected under Annex B to this Proxy Statement.

Effects of the Amendment to the Articles of Incorporation

The board will not be required nor does it intend to solicit further shareholder approval prior to the issuance of any additional shares, if the shareholders approve the increase in the number of authorized shares at the meeting. Any additional shares may be issued in the future for services, including services as a director and officer, and may affect the voting control of the Company. The board may determine to issue and sell shares pursuant to the private placement exemption from registration under the Securities Act of 1933, as amended (the "Securities Act"), or seek to register shares for sale under the Securities Act. Shares may be issued in pursuing future business opportunities, for potential mergers, acquisitions and other corporate purposes, in compliance with applicable securities laws. The increase in authorized shares will not have any immediate effect on the rights of existing shareholders. To the extent that additional authorized shares are issued in the future, including, but not limited to issuances in the event outstanding options are exercised, they will decrease the existing shareholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the existing shareholders. Historically, there has been a limited trading market in the Company's shares. The holders of our shares have no preemptive rights and the board has no plans to grant such preemptive rights with respect to any such shares.

The increase in the authorized number of shares of Common Stock and the subsequent issuance of such shares could have the effect of delaying or preventing a change in control of the Company without further action by the shareholders. Shares of authorized and unissued Common Stock could, within the limits imposed by applicable law, be issued in one or more transactions which would make a change in control of the Company more difficult, and therefore less likely. Any such issuance of additional shares of Common Stock could have the effect of diluting the earnings per share, if any, and book value per share and such additional shares could be used to dilute the share ownership or voting rights of a person seeking to obtain control of the Company.

While the proposed amendment may have potential anti-takeover effects, this proposal is not prompted by any specific effort or takeover threat from any third parties currently perceived by the Company and the nominees for director. The additional common shares to be authorized will be non-assessable shares with the same rights as the existing common shares currently authorized and outstanding.

Following the effectiveness of the Articles of Amendment, our capitalization will change as follows as of April 18, 2017:

Capitalization Prior to the Articles of Amendment:

Common Stock:	
Authorized for Issuance	42,750,000
Outstanding:	33,514,497
Reserved for Issuance:	13,465,000
Available for Issuance(shortfall):	(4,229,497)

Capitalization Immediately Following the Articles of Amendment:

Common Stock:	
Authorized for Issuance:	250,000,000
Outstanding:	33,514,497
Reserved for Issuance under Outstanding Stock Options:	13,465,000
Available for Issuance:	203,020,503

The board of directors believes that the increase in the number of authorized shares of Common Stock is in the best interests of the Company and its shareholders.

Other than the potential exercise of outstanding options, the Company has no plans, proposals, or arrangements, written or otherwise, at this time to issue any of the newly available authorized shares of Common Stock.

Interest of Certain Persons in or Opposition to Matters to be Acted Upon

John Di Bella, the Company's sole officer and a member of the board of directors, owns options exercisable to purchase up to 7,700,000 shares of the Company's Common Stock, at \$0.01 per share, subject to adjustment. Raynard Veldman, a member of the board of directors, owns options to purchase up to 1,000,000 shares of the Company's Common Stock, at \$0.01 per share, subject to adjustment. Such persons may be deemed to have an interest in the amendment to increase the authorized shares of Common Stock.

Vote Required

Approval of this proposal requires that votes cast in favor of the proposal exceed the votes cast against the proposal.

Recommendation of Board of Directors

Our board of directors recommends that the holders of our shares vote "FOR" the amendment. On March 13, 2017, the board unanimously approved this proposal by consent and without a meeting.

PROPOSAL 3: APPROVAL OF THE TECHNOLOGY PURCHASE AGREEMENT

General

You are being asked to vote on a proposal to approve the Technology Agreement. Shareholder approval is not required under Idaho law for our board to approve the Technology Agreement; however, the board believes that shareholder approval of the Technology Agreement is important. Under Section 30-29-725 of the Idaho Business Corporation Act ("IBCA") and Enviro Voraxial Technology's Articles of Incorporation, as amended, the Technology Purchase Agreement shall be approved if the votes cast at the Special Meeting approving the Technology Purchase Agreement exceed the votes cast in opposition of the action. If the Technology Agreement is approved by our shareholders, the board intends to close the Technology Agreement as soon as practicable following the receipt of such approval. If the proposal is not approved, the Technology Agreement will not be completed and the board will consider other alternatives to the Technology Agreement, although the board is not considering any other alternatives at this time.

General Description of the Technology Agreement

On March 13, 2017, we entered into the Technology Agreement. Under the Technology Agreement, subject to conditions to closing, we shall sell our intellectual property (the "Intellectual Property" or the "Assets"), substantially consisting of our Voraxial patents, marks, software and copyrights, to the Buyer in consideration of up to four million dollars (\$4,000,000), of which three million dollars (\$3,000,000) is payable at closing and one million dollars (\$1,000,000) payable upon the completion of (1) the complete transfer of the Intellectually Property to the Buyer and 2) the provision by our company of transition information, assets and services to the Buyer, which is estimated to be approximately 12 months from the closing date. In addition, following the closing we shall receive a worldwide, royalty-free license from the Buyer, to make, use, sell, offer for sale, and import products and processes embodying the Intellectual Property outside the oil-and-gas market. Our company and the Buyer, upon the closing of the Technology Agreement, also intends to enter into a supply agreement for certain manufacturing rights which will provide our company the exclusive manufacturing rights to manufacture the Voraxial separator for the Buyer for a period of three years.

The Technology Agreement is subject to customary termination provisions and, in addition, may be terminated by our company or the Buyer if specified closing conditions have not been fulfilled by May 30, 2017, unless the terminating party has failed to comply with or perform its covenants and obligations in the Agreement at the time of such termination.

While we are seeking a vote of our shareholders to approve the Technology Agreement, consent of our shareholders is not required under Idaho law. Under the IBCA Section 30-29-1202 shareholder approval is only required for a sale of assets in the event the disposition would leave the corporation without a significant continuing business activity. Under the IBCA "If a corporation retains (1) a business activity that represented at least twenty-five percent (25%) of total assets at the end of the most recently completed fiscal year, and (2) twenty-five percent (25%) of either income from continuing operations before taxes or revenues from continuing operations for that fiscal year, in each case of the corporation and its subsidiaries on a consolidated basis, the corporation will conclusively be deemed to have retained a significant continuing business activity." Our board of directors has determined that upon closing of the Technology Agreement we will retain significant continuing business activities.

Under the Technology Agreement, we are retaining all of our manufacturing assets, inventory and raw material. Although we are selling the Intellectual Property, we are receiving a royalty-free license to the Intellectual Property in all industries outside of the oil and gas markets to manufacture and sell Voraxial products. In addition, within the oil and gas markets, we shall be the exclusive supplier of certain Voraxial products for the Buyer for a period of three years from the closing of the Technology Agreement pursuant to a supply agreement discussed below. The sale of the Intellectual Property has nominal effect on our total assets as of the end of our most recently completed fiscal year.

Substantially all of our assets shall be used for our continuing business activities, including, but not limited to manufacturing products pursuant to the royalty-free licenses, the supply agreement and other machining projects.

Our board does not anticipate our revenues decreasing following the closing of the Technology Agreement. Our revenues for the year ended December 31, 2015 were approximately \$1,100,000 and our revenues for year ended December 31, 2016 were approximately \$562,000. Our company is retaining rights to manufacture the Voraxial within the oil and gas market for the Buyer for a period of three years. We are also obtaining royalty-free licenses to the Intellectual Property for all other industries outside of the oil and gas markets and we intend to pursue sales of the Voraxial products in other markets. Additionally, as we are retaining our manufacturing equipment, we believe we will continue to increase our revenues from machining projects from customers outside of the Voraxial market. Therefore, our board of directors believes revenues under the Technology Agreement, supply agreement and other manufacturing opportunities will significantly exceed the annual revenues from each of the past three years.

Reasons for the Technology Agreement

In addition to the proceeds from the sale of our Intellectual Property, it is our belief that the Technology Agreement will provide for the potential increase of revenues through the sale of Voraxial Separators to Buyer while enabling us the opportunity to possibly leverage future increased sales in the oil and gas market to penetrate the sale and use of licensed Voraxial products to other industries, including, but not limited to mining, sewage and wastewater. We are also entering into the Technology Agreement because of the historical and current challenges we have experienced in introducing the Voraxial products to the oil and gas market. We have limited life remaining on our patents to penetrate the market and believe this is the best option to maximize shareholder value. Further, in our efforts to introduce this technology to the market, we have incurred net losses for the past five fiscal years, expect to continue to incur losses and have insufficient cash flow from operations to continue without raising additional capital from investors. It is our board's belief that we would need at least \$3.0 million in funds to continue operations through the next two years to support sales efforts and to withstand the continued uncertainty in the oil industry. Our inability to obtain financing on reasonable terms to continue to fund operations makes it difficult to enter the oil and gas market; and in the absence of the proposed Technology Agreement or a substantial and sustained improvement in an unfavorable oil industry economy, it was unlikely that we would have adequate liquidity to continue as a going concern which, taking into account all of the foregoing, would be reasonably likely to result in the insolvency, bankruptcy, or voluntary or involuntary liquidation of our company. We have been unable to find debt or equity financing on terms that our board believes were in the best interests of our shareholders, or a merger candidate or corporate transaction. We believe that our efforts to successfully grow our business were severely constrained and hampered by depressed oil and gas prices, low price expectations for oil, and a reduction in capital expenditures by our prospective customers in the oil industry. After considering the available alternatives, our board of directors determined that the Technology Agreement provides the best opportunity for the Company to receive value for the Intellectual Property and potentially increase future revenues.

U.S. Federal Income Tax Consequences of the Technology Agreement

The following discussion is a general summary of the anticipated U.S. federal income tax consequences of the Technology Agreement. The following discussion is based upon the Internal Revenue Code of 1986, as amended (the "Code"), its legislative history, currently applicable and proposed Treasury regulations under the Code and published rulings and decisions, all as currently in effect as of the date of this Proxy Statement, and all of which are subject to change, possibly with retroactive effect. Tax considerations under state, local and non-U.S. laws, or federal laws other than those pertaining to income tax, are not addressed in this Proxy Statement. The following discussion has no binding effect on the United States Internal Revenue Service or the courts.

The proposed Technology Agreement will be treated for U.S. federal income tax purposes as a sale of corporate assets by Enviro Voraxial Technology in exchange for cash. The proposed Technology Agreement will be a taxable transaction to Enviro Voraxial Technology for U.S. federal income tax purposes, and Enviro Voraxial Technology anticipates that it will recognize gain for U.S. federal income tax purposes as a result of the Technology Agreement. Enviro Voraxial Technology anticipates that its tax attributes will be available to offset at least a portion (or potentially all) of Enviro Voraxial Technology's U.S. federal income tax liability resulting from such gain. However, the determination of whether Enviro Voraxial Technology will recognize gain or loss on the proposed Technology Agreement and whether and to what extent Enviro Voraxial Technology's tax attributes will be available to offset U.S.

federal income tax liability from gain on the proposed Technology Agreement is highly complex and is based in part upon facts that will not be known until the completion of the proposed Technology Agreement. Therefore, it is possible that the proposed

Technology Agreement will generate a U.S. federal income tax liability to Enviro Voraxial Technology and, in this case, any such tax liability could reduce the cash available for distribution to Enviro Voraxial Technology's shareholders. Our estimate of our remaining net proceeds after the Technology Agreement includes an estimated federal income tax liability of approximately \$0 million.

There should be no U.S. federal income tax consequence to the shareholders of Enviro Voraxial Technology as a result of the proposed Technology Agreement, as the proposed Technology Agreement by Enviro Voraxial Technology is entirely a corporate action. As a result, our shareholders will not recognize any gain or loss for U.S. federal income tax purposes as a result of the proposed Technology Agreement.

Accounting Treatment of the Technology Agreement

The Technology Agreement will be accounted for as a "sale" by Enviro Voraxial Technology, as that term is used under accounting principles generally accepted in the United States, for accounting and financial reporting purposes.

Consequences of the Sale of Intellectual Property

Upon effective time of the sale of the Assets, the Company will dispose its intellectual property, specifically US Patent No. 5,904,840, No. 6,248,231, No. 7,727,386 and the Voraxial trademark, trademark No. 4036636 and US Trademark Serial No. 76704144, and continue to maintain and operate its manufacturing facility for the manufacturing, assembling and testing of the dispose intellectual property for the buyer in the oil and gas industry and for the Company in all other industries. The net proceeds of the Technology Agreement would be used to continue the operations of the Company, which may include working capital, capital investments, paying corporate debts and other liabilities, satisfying the costs of the Technology Agreement, accrued compensation to management (including our chief executive officer's accrued salary), lease payments, outstanding liabilities, vendor bills relating to costs of being a public company and ongoing operating costs.

Interests of Certain Persons in the Technology Agreement

As described below, members of our board of directors and our executive officer may have interests in the Technology Agreement that are different from, or are in addition to, the interests of our shareholders generally. Our board of directors was aware of these interests and considered them, among other matters, in approving the Technology Agreement.

The Company incurred salary expenses from John Di Bella, the Chief Executive Officer of the Company, of \$305,000 per year. The unpaid balance has been accrued and as of December 31, 2015 and December 31, 2016. The accrued salary is \$1,173,270 and \$1,464,761, respectively. As of December 31, 2016, the Company owes the estate of its former chief executive officer \$158,898. The Company has yet not determined when or how to repay the accrued salary. The options available to the Company may include but not limited to the following: paying the debt, offering to convert some or all of the accrued salary to options or stock or continue to carry the debt on its books.

Supply Agreement

Pursuant to the Technology Agreement we intend to enter into a supply agreement effective upon closing of the Technology Agreement. The supply agreement will provide our company the exclusive manufacturing rights to manufacture the Voraxial separator for Buyer for a period of 3 years. There will be no minimum purchase requirements by Buyer under the proposed agreement.

Non Compete and Non Disclosure Agreement

For a period of three years following the closing of the Technology Agreement, the Company and Raynard Veldman and John Di Bella shall not participate or cause participation in the oil-and-gas market in relation to phase or constituent sensing or separation which is defined as, liquid-liquid, liquid-solid or liquid-gas separation and gas or

liquid sensing, including all product lines and services related thereto and including the Voraxial product line and services, except to the extent necessary to: (i) repair or service, but not remanufacture, any goods we sold to third persons prior to closing;

(ii) fulfill, on or after closing, any customer obligation; or (iii) continue an existing business. In addition the Company shall take all reasonable measures to ensure the confidentiality and prevent the improper use of all trade secrets.

Consummation of the Technology Agreement

We expect to complete the Technology Agreement as promptly as practicable after our shareholders approve the proposal.

Recommendation of the Board of Directors

The board recommends that shareholders vote "FOR" the approval of the Technology Agreement. On March 13, 2017, the board unanimously approved this proposal by consent and without a meeting.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information, as of April __, 2017, with respect to beneficial ownership of our Common Stock by: (i) each person who, to our knowledge, beneficially owned more than 5% of the shares of our Common Stock outstanding as of such date; (ii) each of our directors; (iii) each of our executive officers; and (iv) all directors and executive officers as a group.

The percentage of shares of Common Stock outstanding is based on 33,514,497 shares of Common Stock outstanding as of April 20, 2017. In computing the number of shares beneficially owned by a person named in the following table and the percentage ownership of that person, shares of Common Stock that are subject to options held by that person that are currently exercisable or exercisable within 60 days of April 20, 2017 are deemed outstanding. These shares are not, however, deemed outstanding for the purpose of computing the percentage ownership of any other person.

HOUSEHOLDING OF PROXY STATEMENT

The rules promulgated by the SEC permit companies, brokers, banks or other intermediaries to deliver a single copy of our proxy materials to households at which two or more shareholders reside ("Householding"). Shareholders sharing an address who have been previously notified by their broker, bank or other intermediary and have consented to Householding, either affirmatively or implicitly by not objecting to Householding, received only one copy of our proxy materials. A shareholder who wishes to participate in Householding in the future must contact his or her broker, bank or other intermediary directly to make such request. Alternatively, a shareholder who wishes to revoke his or her consent to Householding and receive separate proxy materials for each shareholder sharing the same address must contact his or her broker, bank or other intermediary to revoke such consent. The execution and delivery of this Agreement, the Sellers Documents, and all transactions contemplated by the Agreement or the Sellers Documents have been duly authorized by all requisite corporate action on the part of Sellers prior to execution of such.

5.3 Conflicts; Consents of Third Parties. Execution and delivery by Sellers of this Agreement, the Sellers Documents, the consummation of the transactions contemplated by the Agreement and Sellers Documents, or compliance by Sellers with any of the provisions hereof or thereof will not, with respect to the Purchased Assets or conducting of the Business:

- (a) conflict with, or result in any violation of or default under, or give rise to a right of termination, cancellation or acceleration of any obligation or to a loss of a material benefit,
- (b) give rise to any obligation of Sellers to make any payment, or to the increased, additional, accelerated or guaranteed rights or entitlements of any Person,
- (c) result in the creation of any Liens, or

(d) otherwise breach or violate any contract, license, or agreement to which Sellers are bound.

(c) Except for any patents that have expired due to term, all of Sellers' rights in and to the Purchased Intellectual Property are valid and enforceable. No claims challenging or questioning the validity or enforceability of the Purchased Intellectual Property have been asserted, and there are no facts or circumstances that would reasonably form the basis for any claim challenging the ownership, use, validity or enforceability of the Purchased Intellectual Property.

(h) No employee, consultant, independent contractor or other third Person with an obligation of confidentiality to Sellers, as a result of or in the course of such employee's, consultant's or independent contractor's engagement by Sellers, is in default or breach of any material term of any employment agreement, non-disclosure agreement, assignment of invention agreement or similar agreement.

(i) The consummation of the transactions contemplated hereby will not result in the loss or impairment of Purchasers' right to own or use any of the Purchased Intellectual Property.

(j) Except as provided in Schedule 5.6(j) (which the parties may amend, upon agreement, via a written instrument), there are no contracts or other obligations related to the Purchased Intellectual Property or the Business (whether, for the sake of clarity, in the Oil-and-Gas Market or not) requiring purchases from or sales to a particular Person.

Sellers have not received any written or other notice of nor been charged with the violation of any Laws. 5.11 No Further Representations. EXCEPT FOR THE EXPRESS REPRESENTATIONS AND WARRANTIES CONTAINED IN THIS AGREEMENT AND NOTWITHSTANDING ANYTHING ELSE TO THE CONTRARY HEREIN, THE PARTIES AGREE THAT NEITHER PURCHASERS NOR SELLERS NOR ANY OF THEIR AFFILIATES OR REPRESENTATIVES HAVE MADE OR ARE MAKING ANY REPRESENTATION OR WARRANTY WHATSOEVER, EXPRESS OR IMPLIED, WRITTEN OR ORAL. FOR THE SAKE OF CLARITY AND, AGAIN, EXCEPT FOR THE REPRESENTATIONS AND WARRANTIES EXPRESSLY CONTAINED IN THIS AGREEMENT, SELLERS HAVE MADE NO IMPLIED REPRESENTATION OR WARRANTY TO PURCHASERS AS TO THE CONDITION, MERCHANTABILITY, USAGE, SUITABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE WITH RESPECT TO THE PURCHASED ASSETS.

And, in the event of such disclosure or use, using at least a reasonable degree of care, Sellers shall ensure the receiving Person shall and can maintain the secrecy, and police any improper use, of the disclosed Trade Secrets.

The covenants and undertakings contained in this Section 7.1 relate to matters which are of a special, unique and extraordinary character, and a violation or threatened violation of any of the terms of this Section 7.1 will cause irreparable injury to the Purchasers, the amount of which cannot be adequately compensated. The rights and remedies provided by this Section 7.1 are cumulative and in addition to any other rights and remedies which Purchasers may have hereunder or at law or in equity. If the indemnified party defends any (a) Claim, then the indemnifying party shall reimburse the indemnified party for the expenses of defending such Claim upon submission of periodic bills. The indemnifying party may participate, at his or its own expense, in the defense of such Claim. The parties hereto agree to cooperate fully with each other in connection with the defense, negotiation or settlement of any such Claim.

After any final judgment or award shall have been rendered by a Governmental Body of competent jurisdiction and the expiration of the time in which to appeal therefrom, or a settlement shall have been consummated, or the indemnified party and the indemnifying party shall have arrived at a mutually binding agreement with respect to a (a) Claim hereunder, the indemnified party shall forward to the indemnifying party notice of any sums due and owing by the indemnifying party pursuant to this Agreement with respect to such matter and the indemnifying party shall be required to pay all of the sums so due and owing to the indemnified party by wire transfer of immediately available funds within ten (10) business days after the date of such notice.

The failure of the indemnified party to give reasonably prompt notice of any Claim shall not release, waive or (b) otherwise affect the indemnifying party's obligations with respect thereto except to the extent that the indemnifying party can demonstrate actual loss and prejudice as a result of such failure.

ARTICLE 12

12.1 Taxes. Sellers shall (i) be responsible for (and shall indemnify and hold harmless Purchasers against) any and all Liabilities for any sales, use, stamp, documentary, filing, recording, transfer, stock transfer, gross receipts, registration, duty, securities transactions or similar fees or Taxes or governmental charges (together with any interest or penalty, addition to tax or additional amount imposed) as levied by any Taxing Authority in connection with the transactions contemplated by this Agreement (collectively, "Transfer Taxes"), regardless of the Person liable for such Transfer Taxes under applicable Law, and (ii) timely file or caused to be filed all necessary documents (including all tax returns) with respect to Transfer Taxes.

No action taken pursuant to this Agreement, including without limitation, any investigation by or on behalf of any party, shall be deemed to constitute a waiver by the party taking such action of compliance with any representation, warranty, covenant or agreement contained herein. The waiver by any party hereto of a breach of any provision of this Agreement shall not operate or be construed as a further or continuing waiver of such breach or as a waiver of any other or subsequent breach. No failure on the part of any party to exercise, and no delay in exercising, any right, power or remedy hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of such right, power or remedy by such party preclude any other or further exercise thereof or the exercise of any other right, power or remedy. All remedies hereunder are cumulative and are not exclusive of any other remedies provided by law.

13.4 Governing Law. This Agreement shall be governed, construed and enforced in accordance with the laws of the State of Delaware, without regard to Delaware's rules of conflicts of law.

13.6 Severability. If any term or other provision of this Agreement is invalid, illegal, or incapable of being enforced by any law or public policy, all other terms or provisions of this Agreement shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner materially adverse to any party. Upon such determination that any term or other provision is invalid, illegal, or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in an acceptable manner in order that the transactions contemplated hereby are consummated as originally contemplated to the greatest extent possible.

13.7 Binding Effect; Assignment. This Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns. Nothing in this Agreement shall create or be deemed to create any third party beneficiary rights in any person or entity not a party to this Agreement except as provided below. No assignment of this Agreement or of any rights or obligations hereunder may be made by either Sellers or Purchasers (by operation of law or otherwise) without the prior written consent of the other parties hereto and any attempted assignment without the required consents shall be void; except Purchasers may assign this Agreement and any or all rights or obligations hereunder (including, without limitation, Purchasers' rights to purchase the Purchased Assets and Purchasers' rights to seek indemnification hereunder) to any Affiliate of Purchasers.

13.8 Non-Recourse. No past, present or future director, officer, employee, incorporator, member, partner, stockholder, Affiliate, agent, attorney or representative of Purchasers shall have any liability for any obligations or liabilities of Purchasers under this Agreement or the Purchasers Documents of or for any claim based on, in respect of, or by reason of, the transactions contemplated hereby and thereby.

13.9 Counterparts. This Agreement may be executed in one or more counterparts, each of which will be deemed to be an original copy of this Agreement and all of which, when taken together, will be deemed to constitute one and the same agreement.
