## NOTE A - BASIS OF PRESENTATION

The accompanying un-audited condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10 and Item 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required for generally accepted accounting principles

for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six- and three-month periods ended March 31, 2003 are not necessarily indicative of the results that may be expected for the year ended December 31, 2002. These financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2002.

### ITEM 2MANAGEMENTS DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Our independent accountant included an explanatory paragraph in their report, stating that the audited financial statements of Group Management Corp. for the year ending December 31, 2002 have been prepared assuming the company will continue as a going concern. They note that the Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis. We have continued losses from operations, negative cash flow and liquidity problems. These conditions raise substantial doubt about our ability to continue as a going concern. The accompanying financial statements do not include any adjustments relating to the recoverability of reported assets or liabilities should we be unable to continue as a going concern.

We have been able to continue based upon our service providers accepting shares of our common stock as compensation. However, there can be no assurances our services will continue to accept our common stock as compensation. If the services providers refuse to accept our common stock as compensation, this could have a negative affect on the company's ability to continue as a going concern. Management believes that actions presently being taken to revise our operating and financial requirements provide the opportunity for us to continue as a going concern.

Management is presently investigating acquisitions that management believes can rebuild operations that can be profitable in the long-term. Although management believes that these efforts will enable us to meet our liquidity needs in the future, there can be no assurance that these efforts will be successful.

Management is currently attempting to restructure the operations of Group Management Corp. However, there can be no assurances that the restructuring will be successful, management is of the opinion and of the business judgment, that a restructuring will fundamentally assists the operations of Group Management Corp.

During the quarter management substantially decreased operations of Group Management Corp. to attempt to restructure the company. In the restructuring, management moved the principal place of business from 12503 EXCHANGE BOULEVARD, SUITE 554 STAFFORD, TEXAS, to 101 Marietta St., Suite 1070, Atlanta, GA 30303. Management in its business judgment, settled outstanding obligations of the company for equipment, office furniture and the leasehold improvement was terminated in agreement with its landlord.

## Edgar Filing: GROUP MANAGEMENT CORP - Form 10QSB

Management currently is of the opinion that its restructuring activities will have a net positive affect on the company. The restructuring activities are currently ongoing during the period.

Management in its restructuring and in its business judgment reduced the deferred revenue of \$2,500,000 in a note receivable from Lumar Worldwide to zero on the balance sheet.

### RESULTS OF OPERATIONS

#### Revenue

Total revenues for the three months ended March 31, 2003 were \$0.0 as compared to \$49,013 for the three months ended March 31, 2001. This decrease was due to primarily to the restructuring of the company's operations and as a result of management's decision to restructure Group Management Corp.'s operation and seek acquisition candidates.

#### Costs and Expenses

Cost of goods sold was \$0.0, or approximately 0.0% of sales, for the three months ended March 31, 2003, as compared to \$23,412 or approximately 91.83% of sales, for the three months ended March 31, 2002. The decrease in cost of goods sold reflects lower sales for the period, and is a direct result of the company's restructuring of its operations.

General and administrative expenses were \$200,000 for the three months ended March 31, 2003, a decrease of approximately 86% as compared to \$1,344,508 for the period ending on the three months ended March 31, 2002. This decrease is attributable to a decrease of over \$7,310,952 in stock based compensation, and our overall decreased sales activity and the restructuring activities of the company.

Total costs and expenses were \$200,000 for the three months ended March 31, 2003, as compared to \$1,417,480 for the three months ended March 31, 2002. This decrease of over 86% reflects a decreased in general and administrative expenses and cost of goods sold, as discussed above.

#### Net Losses

The net loss for the three months ended March 31, 2003 was \$200,000 as compared to \$1,373,138 for the three months ended March 31, 2002. The primary cause of this approximately 99% decrease is the decrease in total costs and expenses, discussed above and the restructuring activities of the company.

### LIQUIDITY AND CAPITAL REQUIREMENTS

Net cash provided in operating activities was (\$200,000) for the three months ended March 31, 2003, as compared to net cash used of (\$253,608) for the three months ended March 31, 2002, a decrease of over 5%. We had \$0.0 in cash at March 31, 2003, a decrease of \$0.0 during the quarter.

Our net cash used by financing activities was \$0.0 for the three

## Edgar Filing: GROUP MANAGEMENT CORP - Form 10QSB

months ended March 31, 2003 as compared to net cash provided of \$263,622 for the period ending March 31, 2002.

At March 31, 2003, our current assets were \$0.0, while our current liabilities were \$1,100,000. Total current liabilities consists of \$1,100,000 in notes payable.

If we are not able to obtain alternative financing and the note holders are successful in their action to collect on the notes, we would be unable to make payment in full on the notes and would consider all strategic alternatives available to us, possibly including a bankruptcy, insolvency, reorganization or liquidation proceeding or other proceeding under bankruptcy law or laws providing for relief of debtors. It is also possible that one of these types of proceedings could be instituted against us.

Management has taken steps to revise our operating and financial requirements to accommodate our available cash flow, including the temporary suspension of management and certain employee salaries. As a result of these efforts, management believes funds on hand, cash flow from operations and additional issuance of common equity will enable us to meet our liquidity needs for at least the short-term foreseeable future.

We need to raise additional cash, however, in order to satisfy our proposed restructuring plan, to meet obligations, and expand our operations. Management is presently investigating transactions and mergers and acquisitions that management believes can provide additional cash for our operations and be profitable long-term. In the future management also intends to attempt to raise funds through private sales of our common stock. Although management believes that these efforts will enable us to meet our liquidity needs in the future, there can be no assurance that these efforts will be successful.

In the opinion of the Company's management, lawsuits currently pending or threatened against the Company, unless dismissed or settled within a short period of time, will have a material adverse effect on the financial position and results of operations of the Company because the Company does not have the cash flow to continue to fund defense costs. Such strategies may include acquiring one or more businesses with positive cash flow, or filing for bankruptcy protection. No decisions have been made as of this time.

### PART II

#### ITEM 1 LEGAL PROCEEDINGS

There have been the following material developments to the legal proceedings described in our Form 10-QSB for the quarter ended September 30, 2002, filed with the Commission on December 13, 2002. The company filed a Chapter 11 reorganization on March 18, 2003 in the Northern District of Georgia, Atlanta division. The Chapter 11 case was officially dismissed on May 11, 2003.

In the ordinary course of business, the Company is from time to time involved in various pending or threatened legal

## Edgar Filing: GROUP MANAGEMENT CORP - Form 10QSB

actions. The litigation process is inherently uncertain and it is possible that the resolution of such matters might have a material adverse effect upon the financial condition and/or results of operations of the Company.

In the opinion of the Company's management, matters currently pending or threatened against the Company, unless dismissed or settled within a short period of time, will have a material adverse effect on the financial position and results of operations of the Company because the Company does not have the cash flow to continue to fund defense costs. Management is currently reviewing several strategies for continuing to fund defense costs while at the same time funding the development of the Company. No decisions have been made as of this time.
