**Strategic issues facing CIB**

Deployment of assets in non-core markets - focus on capital, risk-weighted assets consumed, and returns generated.

Earnings decline in transaction driven business - relationship driven business held up

Impact of currency options restrictions.

Clients waiting for full product suite.

External research indicates:

Corporate Banking: % of lead relationships down from 41% to 37% (1)

Transactional Banking: 1.5% improvement in market share but still 4<sup>th</sup> (2)

Markets: Remain strong in the corporate bond market. However, overall league table ranking has slipped from top 3 position (1)
