**Item 2.05**

Costs Associated With Exit or Disposal Activities.

On February 9, 2005, Exact Sciences Corporation (the Company), notified ten employees of their termination from the Company, effective February 15, 2005, under a plan of termination described in paragraph 8 of FASB Statement of Financial Accounting Standards No. 146

Accounting For Costs Associated With Exit or Disposal Activities, under which charges will be incurred under generally accepted accounting principles. Of these employees, the majority were within the Company's clinical development function. With the completion of its 5,500-patient multi-center clinical study in 2003, and with no large clinical studies anticipated in the near term, the Company determined that a reduction in force was warranted to reduce costs. **This workforce reduction reflects the Company's intention to validate product improvements through smaller, less expensive research studies that leverage the results of its prior studies including its large-scale multi-center study that was published in the New England Journal of Medicine in December 2004.** As of the date of this filing, the Company estimates that the total charges for the reduction in force will be \$230,000 for one-time termination benefits, which will be recorded over the first and second fiscal quarters of 2005. All of the charges will result in future cash expenditures.

In addition to historical information, this Current Report on Form 8-K contains forward-looking statements within the meaning of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended.
