(Unaudited)

1.) **ORGANIZATION, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES**

Organization

MFIC Corporation (MFIC or the Company), through its wholly-owned subsidiary, Microfluidics Corporation (Microfluidics), operates in one segment, producing and marketing a broad line of proprietary fluid materials processing systems used for a variety of mixing, microemulsion, nanosuspension, encapsulation and cell disruption applications.

The consolidated financial statements of the Company include the accounts of the Company and its wholly owned subsidiary, Microfluidics. All significant intercompany transactions and balances have been eliminated in consolidation.

Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The Company believes, however, that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's latest annual report on Form 10-K.

The condensed consolidated financial statements, in the opinion of management, include all adjustments necessary to present fairly the Company's financial position and the results of operations. These results are not necessarily indicative of the results to be expected for the entire year.

Significant Accounting Policies

The significant accounting policies followed by the Company and its subsidiary in preparing its consolidated financial statements are set forth in Note 1 to the consolidated financial statements included in its Form 10-K for the year ended December 31, 2004. The Company has made no changes to these policies during this quarter.

Stock Based Compensation

As allowed by Statement of Financial Accounting Standard (SFAS) No. 123, *Accounting for Stock-Based Compensation*, (SFAS No. 123), the Company has elected to account for stock-based compensation at intrinsic value with disclosure of the effects of fair value accounting on net income and earnings per share on a pro forma basis. At June 30, 2005, the Company had one stock incentive plan. The Company accounts for awards issued to employees under the plan under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. Accordingly, no compensation expense has been recognized for its stock option plans. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123:

	Three Months Ended June 30		Six Months Ended June 30	
	2005	2004	2005	2004

On November 17, 2004, the Company entered into a twelve month general financial and advisory services agreement with Maxim Group LLC pursuant to which Maxim Group LLC was granted a three (3) year warrant to purchase 100,000 shares of the Company's common stock at an exercise price of \$3.20 per share. The estimated value of these warrants is being amortized to expense pursuant to the term of the agreement. The Company has recognized \$59,500 in expenses for the six months ended June 30, 2005.

2.) **INVENTORIES**

The components of inventories are as follows at:

3.) **RESULTS OF DISCONTINUED OPERATIONS**

The following summarizes operating results of the discontinued operations of the Company's Morehouse-COWLES Division (the Division)

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2004	Three Months Ended June 30, 2005	Six Months Ended June 30, 2004

On February 9, 2004, pursuant to an Asset Purchase Agreement (the "Asset Purchase Agreement") dated February 5, 2004 between the Company and a wholly owned subsidiary of NuSil Corporation ("NuSil"), the Company sold substantially all of the assets and selected liabilities of the Division to NuSil. Other than NuSil's prior purchases of products from the Division, there were no preexisting relationships between MFIC and NuSil.

The assets of the Division that were sold included accounts receivable, furniture, fixtures and equipment, inventory and supplies, books and records, bids, contracts, prepaid expenses, leases, intellectual property, goodwill, domain names and claims, all as described in the Asset Purchase Agreement (collectively, the "Assets") in the amount of approximately \$2,850,000. In addition, certain rights and obligations arising after February 9, 2004 under the Division's PacifiCare Group Health Insurance Policy were assigned. The Division's cash or cash equivalents on hand on February 9, 2004 were excluded from the assets being sold. Under the Asset Purchase Agreement, the Division's executory obligations under certain contracts and bids, and the Division's accounts payable as of February 9, 2004 in the amount of \$623,240, were assumed by NuSil.

The purchase price (other than the assumption of accounts payable described in the preceding paragraph) paid under the Asset Purchase Agreement was \$918,238. Of the purchase price, \$768,238 (the "Closing Cash") was paid in cash, \$100,000 was paid in the form of a promissory note (the "Purchase Note") and \$50,000 (the "Holdback Payment") was withheld for payment at a future date subject to any purchase price adjustments and offsets, as provided for in the Asset Purchase Agreement. The Holdback Payment was paid in full on March 26, 2004 without adjustment or offset.

The sale generated a loss of approximately \$1,400,000 which includes approximately \$130,000 of selling costs. In addition, due to the sale of the Division, goodwill associated with the 1998 purchase of this Division in the amount of \$2,100,000 was impaired in 2003.

The aforementioned Purchase Note bore interest at five percent (5%) per annum, and was secured by the Assets pursuant to a security agreement dated February 5, 2004 (the "Security Agreement") between the parties and was subject to certain offsets as provided in the Asset Purchase Agreement. Principal and interest on the Purchase Note were payable on February 9, 2005. NuSil forwarded a payment to the Company on that date which, in conjunction

with allowable offsets paid by NuSil for the benefit of the Company, satisfied the claim.

Pursuant to the Asset Purchase Agreement, MFIC entered into a noncompetition and nonsolicitation agreement, dated February 5, 2004, which limits MFIC's ability to compete with the business of the Division for a period of five years.

4.) **EARNINGS (LOSS) PER SHARE**

Basic and diluted net (loss) earnings per share are presented in conformity with SFAS No. 128, "Earnings per Share" (SFAS No. 128), for all periods presented. In accordance with SFAS No. 128, basic net income per common share was determined by dividing net income applicable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income per share (EPS) reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock, unless the effects of dilution would be anti-dilutive.

	Three months ended		Six months ended

Shares for computation of diluted net income per share	9,708,663	10,579,796	9,693,478	10,176,675

5.) **CREDIT FACILITY**

On February 6, 2004 the Company and PNC Bank, N.A. (PNC) entered into a Fourth Amendment and Waiver to Revolving Credit and Term Loan Agreement permitting the sale of the assets of the Company's Division in exchange for payment to PNC of all monies received by the Company in connection with such sale and assignment to PNC of deferred payments and a promissory note from the purchase issued as part of the purchase price. On March 3, 2004, the outstanding loan balance was repaid from the proceeds of a new senior debt financing from Banknorth, N.A.

On March 3, 2004, the Company and its Microfluidics Corporation subsidiary, as co-borrowers, entered into a revolving credit and term loan agreement with Banknorth, N.A. (the Lender) providing the Company with a \$2,000,000 demand revolving credit and four year term loan facility (the Credit Facility). The Credit Facility is comprised of (i) a \$1 million demand revolving line of credit (Revolving Credit Line) with advances thereunder bearing interest at an interest rate equal to the prime rate (the Prime Rate for United States borrowings from Banknorth, N.A. as publicly announced from time to time). All borrowings under the Revolving Credit Line are evidenced by a \$1 million demand promissory note (the Revolving Note), and (ii) a \$1,000,000 term promissory note, amortized over a four year period and having a maturity date of March 3, 2008 and bearing interest at an interest rate equal to the Federal Home Loan Bank Classic Rate at March 4, 2004 plus two and one-half percent (2.50%). Loans under the Credit Facility are secured by a collateral pledge to the Lender of substantially all the assets of the Company and its subsidiary. The Company is required to meet two covenants on an annual (calendar) basis as of December 31 of each year: (i) the Company's senior debt may not be more than four times the amount of its tangible capital base, and (ii) its debt service coverage ratio may not be less than 1.20 to 1.

Due to the subjective acceleration clause, and the lock-box arrangement, the Revolving Credit Line is classified as a current liability in the condensed consolidated balance sheet. At June 30, 2005, the outstanding balance on the Revolving Credit Line was \$372,000 having an interest rate of 6.00%. The balance outstanding on the term loan was \$687,505, at an interest rate of 5.67%.

6.) PRIVATE PLACEMENT OFFERING

On March 31, 2004, the Company completed a private placement offering of investment units (each unit consisting of one share of common stock and a 3-year warrant to purchase an additional one half share of common stock). A total of 1,426,616 units were sold, yielding gross proceeds of \$3,566,540. The units were priced at \$2.50 and the associated warrants are exercisable at \$3.05. Additionally, the placement agent for the offering received 5-year warrants to purchase 213,992 shares of common stock at an exercise price of \$3.20 per share. The value of the warrants granted to the placement agent is approximately \$351,000, and was accounted for as a non cash financing activity.

7.) DEBT

Debt consisted of the following as of:

	June 30, 2005 (Unaudited)	December 31, 2004
Line of credit	\$ 372,000	\$
10% subordinated note payable to related party		6,250
Term note payable	687,505	812,503
Capital lease notes payable	69,800	
	1,129,305	818,753
Less current portion	(660,507)	(256,250)
Long term debt, net of current portion	\$ 468,798	\$ 562,503

The capital lease notes payable consist of three capitalized leases with bargain purchase options that the Company is obligated to pay over a three year period.

8.) INCOME TAXES

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate for the full fiscal year. Cumulative adjustments to the tax provision are recorded in the interim period in which a change in the estimated annual effective rate is determined. Changes to the valuation allowance are recorded on the date for which circumstances have changed whereby it becomes more likely than not that deferred tax assets will be realized. Accordingly, no change to the account occurred for the three months ended June 30, 2005. The Company will review a possible change to the account as of September 30, 2005.

MFIC CORPORATION

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

BACKGROUND

In 1998, the Company purchased the assets and liabilities of Morehouse-COWLES, Inc. (the Division). This was done to complete a strategic combination with the Microfluidics Division, in order to enhance the Company's position in the coatings market, which, at the time, was the dominant part of the Company's business.

Since that time, the direction of the core business of the Company changed significantly from coatings to other areas, (in particular the Health Care sector). The Company determined that it could no longer support the previous strategic plan and the Company, therefore, prepared a plan to divest the Division.

It was expected that the sale would positively impact the Company's cash flow, and would allow the Company to focus on the core business, and expand its sales and marketing resources for the Company's Microfluidizer® processor systems line, and promote its new MMR nanoparticle production systems.

During the fourth quarter of 2003, management committed to a plan to sell substantially all the assets and associated liabilities of the Division. Accordingly, at year end, the Company reported the division as discontinued operations and reclassified the assets and associated liabilities as available for sale. The search for a buyer resulted in NuSil Corporation, a California corporation (NuSil) making an offer in December 2003 to purchase the Division's assets and selected liabilities at a price that was acceptable to the Company.

On February 9, 2004, pursuant to an asset purchase agreement (the Asset Purchase Agreement) dated February 5, 2004 between MFIC and a wholly owned subsidiary of NuSil, MFIC sold substantially all of the assets and selected liabilities of the Division to NuSil. Other than NuSil's prior purchases of products from the Division, there were no preexisting relationships between MFIC and NuSil.

The assets of the Division that were sold included accounts receivable, furniture, fixtures and equipment, inventory and supplies, books and records, bids, contracts, prepaid expenses, leases, intellectual property, goodwill, domain names and claims, all as described in the Asset Purchase Agreement (collectively, the Assets). In addition, certain rights and obligations arising after February 9, 2004 under the Division's PacifiCare Group Health Insurance Policy were assigned. The Division's cash or cash equivalents on hand on February 9, 2004 were excluded from the assets being sold. Under the Asset Purchase Agreement, the Division's executory obligations under certain contracts and bids, and the Division's accounts payable as of February 9, 2004 in the amount of \$623,240, were assumed by NuSil.

The purchase price (other than the assumption of accounts payable described in the preceding paragraph) paid under the Asset Purchase Agreement was \$918,238. Of the purchase price, \$768,238 (the Closing Cash) was paid in cash, \$100,000 was paid in the form of a promissory note (the Purchase Note) and \$50,000 (the Holdback Payment) was withheld for payment at a future date subject to any purchase price adjustments and offsets, as provided for in the Asset Purchase Agreement. The Holdback Payment was paid in full on March 26, 2004 without adjustment or offset.

The Closing Cash was paid directly to PNC Bank, National Association (PNC), to be applied to MFIC's outstanding balance under MFIC's Revolving Credit Loan with PNC (the Revolving Credit Loan).

The aforementioned Purchase Note bore interest at five percent (5%) per annum, and was secured by the Assets pursuant to a Security Agreement dated February 5, 2004 (the Security Agreement) between the parties and was subject to certain offsets as provided in the Asset Purchase Agreement. Principal and interest on the Purchase Note were payable on February 9, 2005. NuSil forwarded a payment to the Company on that date which, in conjunction with allowable offsets paid by NuSil for the benefit of the Company, satisfied the claim.

Pursuant to the Asset Purchase Agreement, MFIC entered into a Noncompetition and Nonsolicitation Agreement, dated February 5, 2004, which limits MFIC's ability to compete with the business of the Division for a period of five years.

The sale generated a loss of approximately \$1,400,000. Due to the sale of the Division, goodwill associated with the 1998 purchase of the Division in the amount of \$2,100,000 was impaired in 2003.

RESULTS OF CONTINUING OPERATIONS

Total Company revenues for the quarter ended June 30, 2005 were \$3,163,645, as compared to revenues of \$3,081,977 in the corresponding period in 2004, representing an increase of \$81,668, or 3%. For the six month period ended June 30, 2005 revenues increased \$366,685 or 7%, to \$5,700,114 from \$5,333,429 for the first six months of 2004. The increase in revenue for the three months ended June 30, 2005 is due primarily to an increase in sales of machines of approximately \$98,000. The increase in revenue for the six month period ended June 30, 2005 versus June 30, 2004 is due to an increase in the sales of spare parts of approximately \$394,000, and a decrease in the sale of machines of approximately \$28,000.

Cost of goods sold for the three months ended June 30, 2005 was \$1,607,279 or 51% of revenue, compared to \$1,406,003 or 46% of revenue, for the same period last year. For the six month period ended June 30, 2005, cost of goods sold was \$2,756,208, or 48% of revenue, compared to \$2,418,876 or 45% of revenue, for the comparable period in 2004. The increase in cost of goods sold in absolute dollars for both the three and six months ended June 30, 2005 reflects both the increase in sales for the respective periods and the writeoff for inventory components damaged in production. The Company's major product lines have different profit margins, as well as multiple profit margins within each product line. In the course of the periods compared, there may be significant changes in the cost of revenues as a percentage of revenue depending on the mix of product sold.

Total operating expenses for the three months ended June 30, 2005 were \$1,578,977 or 50% of revenue, as compared to \$1,411,053 or 46% of revenue for the same period last year, which is an increase of \$167,924 or 12%. Operating expenses for the six months ended June 30, 2005 were \$3,152,165 or 55% of revenue, as compared to \$2,688,782 or 50% of revenue, for the same period last year, an increase of \$463,383 or 17%.

Research and development expenses for the three months ended June 30, 2005 were \$384,528 compared to \$207,183 for the three months ended June 30, 2004, an increase of

\$177,345 or 86%. The increase in research and development expenses is primarily due to planned increases in payroll and related costs of approximately \$143,000, and an increase in consultants costs of approximately \$25,000.

Research and development expenses for the six month period ended June 30, 2005 were \$805,603 compared to \$406,312 for the six months ended June 30, 2004, an increase of approximately \$399,000, or 98%. The increase is principally due to planned increases in payroll and related costs of approximately \$266,000, and an increase in consultants costs of approximately \$96,000.

Selling expenses for the three months ended June 30, 2005 increased \$69,804, or 12%, compared to the three months ended June 30, 2004, from \$588,417 to \$658,221. The principal increases in selling expenses were due to an increase in payroll and related costs of approximately \$79,000, an increase in commission expenses of approximately \$9,000, partially offset by a decrease in advertising costs of approximately \$70,000.

Selling expenses for the six months ended June 30, 2005 increased approximately \$138,000, or 12%, compared to the six months ended June 30, 2004, from \$1,134,041 to \$1,272,316. The increases were due to an increase in payroll and related expenses of approximately \$155,000, partially offset by a decrease in advertising costs of approximately \$19,000 and decrease in commission costs of approximately \$24,000.

For the three months ended June 30, 2005, general and administrative expenses decreased by approximately \$79,000, or 13%, from \$615,453 to \$536,228. The decrease in general and administrative expenses is principally due to a decrease in payroll and related costs of approximately \$47,000, and a decrease in general overhead costs of approximately \$26,000.

For the six months ended June 30, 2005, general and administrative expenses decreased by approximately \$74,000, or 6%, from \$1,148,429 to \$1,074,246. The decrease in general and administrative expenses is principally due to a decrease in salaries and related costs of approximately \$75,000, a decrease in professional fees of approximately \$33,000, partially offset by an increase in investor relation expenses of approximately \$24,000. The general and administrative expenses include a non-cash charge for warrants issued in connection with a consulting agreement of \$59,500.

Interest expense for the three months ended June 30, 2005 decreased approximately \$3,500, or 18%, to \$16,543 from \$20,097 for the three months ended June 30, 2004. The overall decrease is due to the reduction of the term debt.

Interest expense for the six months ended June 30, 2005 decreased approximately \$5,000 or 13%, to \$32,013 from \$36,960 for the six months ended June 30, 2004. The decrease is due to the reduction of the term debt.

RESULTS OF DISCONTINUED OPERATIONS

During the three months ended both for June 30, 2005, and March 31, 2005, the Company had no discontinued operations, thus all items of discontinued operations decreased 100% when compared to the comparable periods for the prior year.

Cost of goods sold for the quarters ended June 30, and March 31, 2005 was \$0, compared to \$0 and \$308,548 for the periods ended June 30, and March 31, 2004. The decrease in cost of goods sold is attributable to the sale of the Division to NuSil on February 9, 2004.

Total operating expenses for the quarters ended June 30, and March 31, 2005 was \$0, as compared to \$0 and \$238,760 for the periods ended June 30 and March 31, 2004.

The Company generated cash of \$1,773,019 for the six months ended June 30, 2004, consisting of proceeds from the private placement, the issuance of common stock for options exercised, proceeds from stock issued from the employee stock purchase plan, and proceeds from a new term loan and line of credit from a new lender, Banknorth, offset by payments on the previous line of credit, the term note, and subordinated debt.

3. FORWARD-LOOKING INFORMATION

This report may contain forward-looking statements that are subject to certain risks and uncertainties including statements relating to the Company's plan to achieve revenue growth, to maintain and/or increase operating profitability, and to attain net income profitability. Such statements are based on the Company's current expectations and are subject to a number of factors and uncertainties that could cause actual results achieved by the Company to differ materially from those described in the forward-looking statements. The Company cautions investors that there can be no assurance that the actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors, including but not limited to, the following risks and uncertainties: (i) whether the performance advantages of the Company's Microfluidizer® materials processing equipment will be

realized commercially or that a commercial market for the equipment will continue to develop, (ii) whether the timing of orders will significantly affect the size of quarter to quarter revenues and resulting net income results for a particular quarter, which may cause increased volatility in the Company's stock price (iii) whether the Company will have access to sufficient working capital through continued and improving cash flow from sales and ongoing borrowing availability, the latter being subject to the Company's ability to maintain compliance with the covenants and terms of the Company's loan agreement with its senior lender, (iv) whether the Company's expectation that the benefits of nanotechnology will, in part, be realized by the ability of the MMR to produce innovative materials in large quantities, and (v) whether the Company is able to increase the number of prototype MMR placements and then manufacture and introduce commercial production MMR equipment.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's fixed rate debt is not exposed to cash flow or interest rate changes but it is exposed to fair market value changes in the event of refinancing this fixed rate debt.

As of June 30, 2005, the Company had approximately \$372,000 of variable rate borrowings outstanding under its revolving credit agreement and equipment loans. A hypothetical 10% adverse change in interest rates for this variable rate debt would have an approximate \$1,700 negative effect on the Company's earnings and cash flows on a quarterly basis.

within the time periods specified in Securities and Exchange Commission rules and forms.

(b) **Changes in internal control over financial reporting.** There were no significant changes in the Company's internal control over financial reporting during the fiscal quarter ended June 30, 2005 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
