## Edgar Filing: ACTIVISION INC /NY - Form NT 10-Q

Activision, Inc. (the Company) does not currently expect that it will be in a position to file its Quarterly Report on Form 10-Q for the quarter ended September 30, 2006 (the Form 10-Q) on or before the fifth calendar day following the required filing date as prescribed by Rule 12b-25.

As announced on July 28, 2006, the Company has appointed a special sub-committee of independent members of the Company's board of directors to conduct a review of the Company's historical stock option grant practices. The committee has retained outside legal counsel and is working to complete its review of the company's historical stock option grant practices in a timely manner. However, at this time, the sub-committee has not finished its work and has not reached any final conclusions.

As announced on October 25, 2006, in the course of furnishing information to the sub-committee, the Company determined that it appears likely that actual measurement dates for certain historical stock option grants will be found to differ from the recorded grant dates for such awards. As a result, it is possible that the Company will be required to record additional non-cash stock-based compensation expense related to stock option grants. However, the review of option grants has not yet been completed and the Company is not yet able to quantify the accounting and tax effects that may result from any errors in the determination of measurement dates. The Company is therefore unable to state with certainty at this time whether the impact of any such errors on its current and historical financial statements will be material, or what, if any, historical periods will require restatement. Nor is the Company currently able to determine what, if any, impact the results of the investigation will have on management's assessment of the effectiveness of the Company's internal controls over financial reporting or disclosure controls and procedures.

Accordingly, the Company is delaying the filing of the Form 10-Q until the Company can conclude what impact, if any, its historical stock option grant practices will have on the Company's financial statements.

### **PART IV OTHER INFORMATION**

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).

Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company's consolidated net revenues decreased 15% from \$222.5 million for the three months ended September 30, 2005 to \$188.2 million for the three months ended September 30, 2006. Further, net revenues for the six-month period ended September 30, 2006 were \$376.2 million, as compared to net revenues of \$463.6 million reported for the six-month period of last fiscal year.

However, as described above, the review of the Company's historical stock option grant practices has not yet been completed and the Company is not yet able to quantify the accounting and tax effects that may result from any errors in the determination of measurement dates and, therefore, is currently unable to state with certainty at this time whether the impact of any such errors on its financial statements will be material, or what, if any, historical periods will require restatement.

Therefore, the Company is not yet able to quantify all of its costs and expenses for the three or six months ended September 30, 2006 or confirm that the costs and expenses for the three and six months ended September 30, 2005 previously reported by the Company in its filings with the Securities and Exchange Commission will not require restatement.

As a consequence, the Company is not currently able to reasonably estimate whether any significant change in results of operations from the three or six months ended September 30, 2005 will be reflected by the earnings statements included in this Form 10-Q when it is filed.
