end:

Date of reporting period: June 30, 2007

Item 1. Reports to Stockholders.

COHEN & STEERS SELECT UTILITY FUND, INC.

August 9, 2007

To Our Shareholders:

We are pleased to submit to you our report for the six months ended June 30, 2007. The net asset value at that date was \$30.09 per common share. The fund's common stock is traded on the New York Stock Exchange and its share price can differ from its net asset value; at period end, the fund's closing price on the NYSE was \$26.25. The total return, including income, for Cohen & Steers Select Utility Fund and the comparative benchmarks were:

	Six Months Ended June 30, 2007
Cohen & Steers Select Utility Fund at Market Value ^a	9.80%
Cohen & Steers Select Utility Fund at Net Asset Value ^a	8.30%
S&P 1500 Utilities Index ^b	7.50%
S&P 500 Index ^b	6.96%
Blend 80% S&P 1500 Utilities Index, 20% Merrill Lynch	
Fixed Rate Preferred Index ^b	6.02%

The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effects of leverage, resulting from the issuance of preferred shares.

Three monthly dividends of \$0.1325 per common share were declared and will be paid to common shareholders on July 31, 2007, August 31, 2007 and September 28, 2007.

- ^a As a closed-end investment company, the price of the fund's New York Stock Exchange-traded shares will be set by market forces and at times may deviate from the net asset value per share of the fund.
- ^b S&P 1500 Utilities Index is an unmanaged market capitalization weighted index of 78 companies whose primary business involves the generation, transmission and/or distribution of electricity and/or natural gas. The S&P 500 Index is an unmanaged index of common stocks that is frequently used as a general measure of stock market performance. The Merrill Lynch Fixed Rate Preferred Index is an unmanaged index of preferred securities.
- ^c Please note that distributions paid by the fund to shareholders are subject to recharacterization for tax purposes. The final tax treatment of these distributions is reported to shareholders after the close of each fiscal year on form 1099-DIV.

COHEN & STEERS SELECT UTILITY FUND, INC.

Investment Review

Following strong absolute and relative performance in 2006, utilities performed well in the first half of 2007, despite a late-period decline amid rising bond yields. Utility stocks generally continued to benefit from a confluence of positive factors: economic and market uncertainty, which led investors to favor the group for its relatively high dividends and perceived defensive nature; strong fundamentals for long-term energy prices, with steady demand and limited supply growth; upward revisions in valuations for power generation assets; and earnings growth projections that remained well above utilities' historical average.

We believe that utilities are also increasingly benefiting from recognition of the growth potential of the competitive wholesale power market. This was highlighted in February, when a KKR-led consortium announced plans to purchase TXU Corp. at a 16% premium to the stock's previous closing day price (while there is some risk the deal may not be completed, we believe this development underscores the attractiveness of power generation). TXU is a Texas-based energy provider with a focus on unregulated power generation and supply. At the time, the \$45 billion transaction was the largest announced LBO in history.

Preferred securities hindered by rising yields

The Merrill Lynch Fixed Rate Preferred Index had a total return of 0.1% for the period. After a positive first quarter, preferreds were buffeted by rising bond yields and widening credit spreads late in the second quarter. The yield on the 10-year Treasury rose from 4.68% to 5.26% before declining somewhat to end the period at 5.03%. The fund maintained a roughly 20% allocation to preferred securities, in order to enhance potential income and dampen volatility. We continue to believe that quality is a primary criterion for investment selection in the preferred market. In general, we find little value in moving down the credit scale at this point in the cycle.

The fund's leveraged capital structure contributed to its outperformance of its unleveraged benchmark. On a pre-leverage basis, stock selection in the oil and gas storage and transportation and gas utilities sectors contributed positively to the fund's performance, while stock selection in the electric utilities sector hindered relative performance. The fund's preferred securities holdings contributed positively to performance in both absolute and relative terms, as security selection was favorable.

Investment Outlook

Our outlook for utility fundamentals is generally favorable. We believe that the group should continue to benefit from improving fundamentals, in part due to rising replacement costs and environmental concerns that are driving resistance to the construction of new power generation facilities. If demand continues to outstrip supply, many utilities with unregulated generation should grow earnings as they re-price below-market contracts at higher levels. We further believe that significant restrictions on carbon dioxide emissions will be introduced over time, which could potentially increase the value of carbon-free energy sources such as unregulated nuclear and wind power. Our holdings include companies that are among the largest owners of such assets.

COHEN & STEERS SELECT UTILITY FUND, INC.

We also note the emergence of formal, structured capacity markets in several regions of the country. Capacity markets are designed to encourage new power plant construction by compensating plant owners solely for having the physical plant available to produce power. This earnings stream is separate from, and is designed to supplement, the earnings that companies make from selling the actual electricity produced. Successful capacity markets should support the economics of new power plant construction and eventually lead to more plants being built.

There remain risks of course, including potential for volatility during periods of rising interest rates (as occurred in early June) as well as political risks, due to utilities' quasi-regulated nature. But given increasing energy prices, strong potential earnings and stock valuations that are not excessive in historical terms, we believe utilities continue to have potential for attractive total returns. We will continue to invest in companies that we believe have attractive valuations and strong earnings and dividend growth potential.

Our Leverage Strategy (Unaudited)

While we do not attempt to predict what future interest rates will be, it has been our philosophy to utilize interest rate swap transactions to seek to reduce the interest rate risk inherent in our utilization of leverage. Our leverage strategy involves issuing auction market preferred shares (AMPS) to raise additional capital for the fund, with an objective of increasing the net income available for shareholders. As of June 30, 2007, AMPS represented 33% of the fund's managed assets. Considering that AMPS have variable dividend rates, we seek to lock in the rate on a significant portion of this additional capital through interest rate swap agreements (where we effectively convert our variable rate obligation to a fixed rate obligation for the term of the swap agreements). Specifically, we have fixed the rate on 44% of our borrowings at an average interest rate of 4.1% for an average remaining period of 1.8 years (when we first entered into the swaps, the average term was 4.6 years). By locking in a significant portion or our leveraging costs, we have endeavored to adequately protect the dividend-paying ability of the fund. The use of leverage increases the volatility of the fund's net asset value in both up and down markets. However, we believe that locking in a portion of the fund's leveraging costs for the term of the swap agreements partially protects the fund from any impact that an increase in short-term interest rates may have as a result of the use of leverage.

Average market value per sharei	\$ 25,000	\$ 25,000	\$ 25,000	\$	25,000

^a Commencement of operations.

^b Calculation based on average shares outstanding.

^c Amount is less than \$0.005.

^d Total market value return is computed based upon the New York Stock Exchange market price of the fund's shares and excludes the effects of brokerage commissions. Total net asset value return measures the changes in value over the period indicated, taking into account dividends as reinvested. Dividends and distributions, if any, are assumed for purposes of these calculations, to be reinvested at prices obtained under the fund's dividend reinvestment plan.

e Not annualized.

f Annualized.

g Ratios do not reflect dividend payments to preferred shareholders.

^h Average daily managed assets represents net assets applicable to common shares plus liquidation preference of preferred shares.

See accompanying notes to financial statements.

i Based on weekly prices.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1. Significant Accounting Policies

Cohen & Steers Select Utility Fund, Inc. (the fund) was incorporated under the laws of the State of Maryland on January 8, 2004 and is registered under the Investment Company Act of 1940, as amended, as a nondiversified closed-end management investment company. The fund's investment objective is a high level of after-tax total return.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Portfolio Valuation: Investments in securities that are listed on the New York Stock Exchange are valued, except as indicated below, at the last sale price reflected at the close of the New York Stock Exchange on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day or, if no asked price is available, at the bid price.

Securities not listed on the New York Stock Exchange but listed on other domestic or foreign securities exchanges or admitted to trading on the National Association of Securities Dealers Automated Quotations, Inc. (Nasdaq) national market system are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined as reflected on the tape at the close of the exchange representing the principal market for such securities.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the investment manager) to be over-the-counter, but excluding securities admitted to trading on the Nasdaq National List, are valued at the official closing prices as reported by Nasdaq, the National Quotation Bureau, or such other comparable sources as the Board of Directors deem appropriate to reflect their fair market value. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day, or if no asked price is available, at the bid price. However, certain fixed-income securities may be valued on the basis of prices provided by a pricing service when such prices are believed by the Board of Directors to reflect the fair market value of such securities. Where securities are traded on more than one exchange and also over-the-counter, the securities will generally be valued using the quotations the Board of Directors believes most closely reflect the value of such securities.

Securities for which market prices are unavailable, or securities for which the investment manager determines that bid and/or asked price does not reflect market value, will be valued at fair value pursuant to procedures approved by the fund's Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

is principally traded. In these circumstances, the fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include recent transactions in comparable securities, information relating to the specific security and developments in the markets.

The fund's use of fair value pricing may cause the net asset value of fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Short-term debt securities, which have a maturity date of 60 days or less, are valued at amortized cost, which approximates value.

Security Transactions and Investment Income: Security transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of identified cost. Interest income is recorded on the accrual basis. Discounts are accreted and premiums are amortized over the life of the respective securities. Dividend income is recorded on the ex-dividend date except for certain dividends on foreign securities, which are recorded as soon as the fund is informed after the ex-dividend date. The fund records distributions received in excess of income from underlying investments as a reduction of cost of investments and/or realized gain. Such amounts are based on estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from the estimated amounts. The fund adjusts the estimated amounts of the components of distributions (and consequently its net investment income) as an increase to unrealized appreciation/(depreciation) and realized gain/(loss) on investments as necessary once the issuers provide information about the actual composition of the distributions.

Foreign Currency Translation and Forward Foreign Currency Contracts: The books and records of the fund are maintained in U.S. dollars as follows: (1) the foreign currency market value of investment securities, other assets and liabilities and forward foreign currency contracts (forward contracts) are translated at the exchange rates prevailing at the end of the period; and (2) purchases, sales, income and expenses are translated at the exchange rates prevailing on the respective dates of such transactions. The resultant exchange gains and losses are recorded as realized and unrealized gain/loss on foreign exchange transactions. Pursuant to U.S. federal income tax regulations, certain foreign exchange gains/losses included in realized and unrealized gain/loss are included in or are a reduction of ordinary income for federal income tax purposes. The fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the changes in the market prices of the securities. Forward contracts are valued daily at the appropriate exchange rates. The resultant unrealized exchange gains and losses are recorded as unrealized foreign currency gain or loss. The fund records realized gains or losses on delivery of the currency or at the time the forward contract is extinguished (compensated) by entering into a closing transaction prior to delivery.

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Foreign Securities: The fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the ability to repatriate funds, less complete financial information about companies and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

Interest Rate Swaps: The fund uses interest rate swaps in connection with the sale of preferred shares. The interest rate swaps are intended to reduce the risk that an increase in short-term interest rates could have on the performance of the fund's common shares as a result of the floating rate structure of the preferred shares. In these interest rate swaps, the fund agrees to pay the other party to the interest rate swap (which is known as the counterparty) a fixed rate payment in exchange for the counterparty agreeing to pay the fund a variable rate payment that is intended to approximate the fund's variable rate payment obligation on the preferred shares. The payment obligation is based on the notional amount of the swap. Depending on the state of interest rates in general, the use of interest rate swaps could enhance or harm the overall performance of the common shares. The market value of interest rate swaps is based on pricing models that consider the time value of money, volatility, the current market and contractual prices of the underlying financial instrument. Unrealized gains are reported as an asset and unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps, is reported as unrealized gains or losses in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of swap agreements. Swap agreements involve, to varying degrees, elements of market and counterparty risk, and exposure to loss in excess of the related amounts reflected in the Statement of Assets and Liabilities.

Dividends and Distributions to Shareholders: Dividends from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. Dividends from net investment income are declared and paid monthly. Net realized capital gains, unless offset by any available capital loss carryforward, are distributed to shareholders annually. Dividends and distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the fund unless the shareholder has elected to have them paid in cash.

Distributions paid by the fund are subject to recharacterization for tax purposes. Based upon the results of operations for the six months ended June 30, 2007, the investment manager considers it likely that a portion of the dividends will be reclassified to return of capital and distributions of net realized capital gains upon the final determination of the fund's taxable income for the year.

Series M7, Series T7-2, Series W7, Series TH7 and Series F7 preferred shares pay dividends based on a variable interest rate set at auctions, normally held every seven days. The dividends are declared and recorded for

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

the subsequent seven day period on the auction date. In most instances, dividends are payable every seven days, on the first business day following the end of the dividend period.

Series T28 and Series TH28 preferred shares pay dividends based on a variable interest rate set at auctions, normally held every 28 days. The dividends are declared and recorded for the subsequent 28 day period on the auction date. In most instances, dividends are payable every 28 days, on the first business day following the end of the dividend period.

Federal Income Taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interest of the shareholders, by complying with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies, and by distributing substantially all of its taxable earnings to its shareholders. Accordingly, no provision for federal income or excise tax is necessary.

Note 2. Investment Management Fees, Administration Fees And Other Transactions With Affiliates

Investment Management Fees: The investment manager serves as the fund's investment manager pursuant to an investment management agreement (the management agreement). Under the terms of the management agreement, the investment manager provides the fund with day-to-day investment decisions and generally manages the fund's investments in accordance with the stated polices of the fund, subject to the supervision of the Board of Directors

For the services under the management agreement, the fund pays the investment manager a management fee, accrued daily and paid monthly, at an annual rate of 0.85% of the fund's average daily managed asset value. Managed asset value is the net asset value of the common shares plus the liquidation preference of the preferred shares.

The investment manager has contractually agreed to waive its investment management fee in the amount of 0.20% of average daily managed asset value for the first five years of the fund's operations, 0.15% of average daily managed asset value in year six, 0.10% of average daily managed asset value in year seven and 0.05% of average daily managed asset value in year eight. During the six months ended June 30, 2007, the investment manager waived its fee at the annual rate of 0.20%.

Administration Fees: The fund has entered into an administration agreement with the investment manager under which the investment manager performs certain administrative functions for the fund and receives a fee, accrued daily and paid monthly, at the annual rate of 0.06% of the fund's average daily managed assets up to \$1 billion, 0.04% of the fund's average daily managed assets in excess of \$1 billion up to \$1.5 billion and 0.02% of the fund's average daily managed assets in excess of \$1.5 billion. For the six months ended June 30, 2007, the fund incurred \$440,138 in administration fees. Additionally, the fund has retained State Street Bank and Trust Company as sub-administrator under a fund accounting and administration agreement.

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Directors' and Officers' Fees: Certain directors and officers of the fund are also directors, officers, and/or employees of the investment manager. The fund does not pay compensation to any affiliated directors and officers except for the Chief Compliance Officer, who received \$6,217 from the fund for the six months ended June 30, 2007.

Note 3. Purchases and Sales of Securities

Purchases and sales of securities, excluding short-term investments, for the six months ended June 30, 2007, totaled \$276,197,395 and \$192,754,539, respectively.

Note 4. Income Tax Information

As of June 30, 2007, the federal tax cost and net unrealized appreciation on securities were as follows:

Cost for federal income tax purposes	\$ 1,455,733,235
Gross unrealized appreciation	\$ 491,274,674
Gross unrealized depreciation	(3,837,466)
Net unrealized appreciation	\$ 487,437,208

Note 5. Capital Stock

The fund is authorized to issue 100 million shares of common stock at a par value of \$0.001 per share.

During the six months ended June 30, 2007 and the year ended December 31, 2006, the fund issued no shares of common stock for the reinvestment of dividends.

The fund's articles of incorporation authorize the issuance of fund preferred shares, par value \$0.001 per share, in one or more classes or series, with rights as determined by the Board of Directors, by action of the Board of Directors without the approval of the common shareholders.

On February 14, 2007, the fund issued 3,400 auction market preferred shares, Series T7-2 (par value \$0.001). Proceeds paid to the fund amounted to \$83,925,000 after deduction of underwriting commissions and offering expenses of \$1,075,000. This issue has received a "AAA/Aaa" rating from Standard & Poor's and Moody's.

During the year ended December 31, 2006, an adjustment of \$76,625 was credited to common stock for differences between estimated and actual preferred offering costs.

Preferred shares are senior to the fund's common shares and will rank on a parity with shares of any other series of preferred shares, and with shares of any other series of preferred stock of the fund, as to the payment of dividends and the distribution of assets upon liquidation. If the fund does not timely cure a failure to (1) maintain a discounted value of its portfolio equal to the preferred shares basic maintenance amount, (2) maintain the

COHEN & STEERS SELECT UTILITY FUND, INC.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

1940 Act preferred shares asset coverage, or (3) file a required certificate related to asset coverage on time, the preferred shares will be subject to a mandatory redemption at the redemption price of \$25,000 per share plus an amount equal to accumulated but unpaid dividends thereon to the date fixed for redemption. To the extent permitted under the 1940 Act and Maryland Law, the fund at its option may without consent of the holders of preferred shares, redeem preferred shares having a dividend period of one year or less, in whole, or in part, on the business day after the last day of such dividend period upon not less than 15 calendar days and not more than 40 calendar days prior to notice The optional redemption price is \$25,000 per share plus an amount equal to accumulated but unpaid dividends thereon to the date fixed for redemption.

The fund's common shares and preferred shares have equal voting rights of one vote per share and vote together as a single class, except in certain circumstances regarding the election of directors. In addition, the affirmative vote of the holders of a majority, as defined in the 1940 Act, of the outstanding preferred shares shall be required to (1) approve any plan of reorganization that would adversely affect the preferred shares and (2) approve any matter that materially and adversely affects the rights, preferences, or powers of that series.

Note 6. Other

In the normal course of business, the fund enters into contracts that provide general indemnifications. The fund's maximum exposure under these arrangements is dependent on claims that may be made against the fund in the future and, therefore, cannot be estimated; however, based on experience, the risk of material loss from such claims is considered remote.

Note 7. New Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position must meet before being recognized in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. An assessment of the fund's tax positions has been made and it has been determined that there is no impact to the fund's financial statements.

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 will have on the fund's financial statements.

COHEN & STEERS SELECT UTILITY FUND, INC.

PROXY RESULTS (Unaudited)

During the six months ended June 30, 2007, Cohen & Steers Select Utility Fund, Inc. shareholders voted on the following proposals at the annual meeting held on April 19, 2007. The description of each proposal and number of shares voted are as follows:

Common Shares

	Shares Voted For	Authority Withheld
To Elect Directors		
Richard J. Norman	40,419,942	993,446
Frank K. Ross	40,429,320	984,068

Preferred Shares

	Shares Voted	Authority
	For	Withheld
To Elect Directors		
Martin Cohen	20,291	361
Richard J. Norman	20,287	365
Frank K. Ross	20,291	361

COHEN & STEERS SELECT UTILITY FUND, INC.

AVERAGE ANNUAL TOTAL RETURNS

(periods ended June 30, 2007) (Unaudited)

Based on Net Asset Value		Based on Market Value		
		Since Inception		Since Inception
	One Year	(3/30/04)	One Year	(3/30/04)
	30.23%	21.77%	35.32%	15.12%

The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return will vary and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effect of leverage resulting from the issuance of preferred shares.

REINVESTMENT PLAN

We urge shareholders who want to take advantage of this plan and whose shares are held in 'Street Name' to consult your broker as soon as possible to determine if you must change registration into your own name to participate.

OTHER INFORMATION

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the fund may purchase, from time to time, shares of its common stock in the open market.

A description of the policies and procedures that the fund uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 800-330-7348, (ii) on our Web site at cohenandsteers.com or (iii) on the Securities and Exchange Commission's Web site at http://www.sec.gov. In addition, the fund's proxy voting record for the most recent 12-month period ended June 30 is available (i) without charge, upon request, by calling 800-330-7348 or (ii) on the SEC's Web site at http://www.sec.gov.

The fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's Forms N-Q are available (i) without charge, upon request by calling 800-330-7348, or (ii) on the SEC's Web site at http://www.sec.gov. In addition, the Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

Please note that the distributions paid by the fund to shareholders are subject to recharacterization for tax purposes. The fund may also pay distributions in excess of the fund's net investment company taxable income and this excess would be a tax-free return of capital distributed from the fund's assets. To the extent this occurs, the fund's shareholders of record will be notified of the estimated amount of capital returned to shareholders for each

COHEN & STEERS SELECT UTILITY FUND, INC.

such distribution and this information will also be available at cohenandsteers.com. The final tax treatment of all distributions is reported to shareholders on their 1099-DIV forms, which are mailed after the close of each calendar year. Distributions of capital decrease the fund's total assets and, therefore, could have the effect of increasing the fund's expense ratio. In addition, in order to make these distributions, the fund may have to sell portfolio securities at a less than opportune time.
