ARCADIS GETS DESIGN-BUILD FOR FLORIADE 2012

ARNHEM, THE NETHERLANDS November 29, 2007 ARCADIS (EURONEXT: ARCAD), the international consultancy, design and engineering company, today signs the contract with Region Venlo Floriade 2012 for the design and construction of the Floriade park for the world horticultural fair that is organized in the Netherlands every ten years. The amount associated with this assignment totals EUR 40 million. For this sum, ARCADIS will provide project management, design, engineering and contracting services for the Floriade Park. ARCADIS-subsiary Copijn is a member of the project team and will make the functional, esthetical, horticultural and civil design.

Floriade is held in 2012 in the Dutch town of Venlo. The central theme for the meeting will be *Living nature*. From the perspective that horticulture is a key factor in the creation of quality of life, the Floriade Park will consist of five thematic *fields*. The theme field *Relax & Heal* will focus on the importance of horticulture for a health life style. Horticulture as economic engine and provider of green energy is reflected in the *Green Engine*. A third thematic field, *Education & Innovation* shows the interaction between horticulture on the one hand and education and innovation on the other. The theme field *Environment* emphasizes the importance of a green (work) environment and gardens for our wellbeing. And finally in the World Show Stage horticulture is showcased as an inspiration for art, culture and entertainment. These steps should lead to the creation of an attractive, high value and especially sustainable Floriade Park.

Once the Floriade exposition is over in 2013, the Park will be transferred to business park organization Greenpark Venlo. This will develop the Park into a green business area, mainly aimed at regional agricultural business activity. ARCADIS has been involved in the development of Floriade 2012 since the spring of 2004. This involvement is based in part on its prior experience with these types of exhibitions. ARCADIS also contributed its expertise in land development to the project.

Michiel Jaski, member of the Executive Board of ARCADIS says: This project is an excellent fit with ARCADIS. We want to use this Floriade Park project to demonstrate our ambitions in the area of sustainable design and building methods. The application of sustainable principles is very much in line with the ambitions of the Floriade 2012 exhibition itself, the future users from Greenpark Venlo and with our own policy in the area of sustainable development and business.

ARCADIS is an international company providing consultancy, engineering and management services in infrastructure, environment and facilities, to enhance mobility, sustainability and quality of life. ARCADIS develops, designs, implements, maintains and operates projects for companies and
