2Q 2008 Highlights
Enterprise/TDS Corporate

•	7 percent increase in operating revenues, to \$1,274.4 million.
•	3 percent decrease in operating income, to \$149.7 million.
• 2007 (\$38	Repurchased 1,015,650 TDS special common shares using \$39.6 million of a \$250 million stock repurchase program authorized in 3.7 million remains).
Wireless/	U.S. Cellular®
•	9 percent increase in service revenues, to \$987.4 million.
•	45 percent increase in data revenues, to \$123.7 million.
•	5.7 percent increase in ARPU (average monthly revenue per unit), to \$53.27.
•	Retail postpay churn remained flat at 1.4 percent; postpay customers comprised 95 percent of retail customers.
Wireline/	TDS Telecom
•	7 percent increase in operating income, to \$35.2 million, despite a 4 percent decrease in operating revenues.
•	29 percent increase in ILEC DSL (digital subscriber line) customers, to 164,100; CLEC DSL customers totaled 42,500.
•	24 percent increase in ILEC data revenue, to \$21.7 million.
•	Acquired Mosinee Telephone Company, LLC in May; 4,900 physical access lines in Wisconsin.

ILEC equivalent access lines grew nearly 2 percent to 774,300; ILEC physical access lines declined to 577,000.

CHICAGO Aug. 7, 2008 Telephone and Data Systems, Inc. [AMEX:TDS, TDS.S] reported operating revenues of \$1,274.4 million for the second quarter of 2008, an increase of seven percent from \$1,192.8 million in the comparable period one year ago. The company recorded operating income of \$149.7 million, down from \$154 million in the second quarter of 2007. Net income available to common and diluted earnings per share were \$87.7 million and \$0.75, respectively, for the second quarter of 2008, compared to a net loss available to common and diluted loss per share of \$8.6 million and \$.08, respectively, in the comparable period one year ago.

We continue to experience steady gains in service and data revenues and in average revenue per customer at our wireless business, U.S. Cellular®, and improved operating margins through cost controls at TDS Telecom, our wireline business, said LeRoy T. Carlson, Jr., TDS president and CEO. The company overall increased its year-over-year operating revenues, and at the corporate level we continued the share repurchase program begun in 2007.

Both businesses have challenges, as well as opportunities. The market for wireless voice services continues to mature, and the wireline sector has ongoing competition from cable and wireless companies. Consumer anxieties related to the slow economy might also be having an impact. At U.S. Cellular, however, the low churn rate for retail postpay customers, together with continued increases in data revenues and sales of high-ARPU plans and smartphones, demonstrate that customers believe in U.S. Cellular s commitment to excellent network quality, customer service, and product and service selection. As wireless voice penetration increases, customer loyalty and demand for data services are critical to ongoing wireless growth and profitability.

TDS Telecom achieved double-digit increases in DSL customers and related revenues, and added equivalent access lines in its ILEC operation, although physical access lines continued to decline. The company also increased its operating income through effective cost controls, despite a decline in operating revenues.

As part of its goal to be the preferred broadband provider in its markets, TDS Telecom continues to increase the broadband speeds offered to its residential and commercial customers, and to develop new broadband services. The company s Triple Play bundles of voice, high-speed data, and Dish Network TV services enable it to compete effectively with cable offerings. In the second quarter, TDS Telecom exceeded sales targets for both Triple Play bundles and DISH Network services.

#### Settlement of variable prepaid forward contracts

During the second quarter of 2008, the company settled all of its outstanding Deutsche Telekom (DT) forward contracts and disposed of its remaining DT shares. In the quarter, interest and dividend income decreased \$130.3 million primarily due to a \$118 million decrease in DT dividend income as a result of the disposition of DT shares prior to the 2008 dividend by DT. Additionally, interest expense decreased \$19.7 million due to the settlement of the variable prepaid forward contracts. In the second quarter of 2007, the company recorded a \$220.2 million loss related to its DT, Vodafone Group Plc and VeriSign marketable equity securities and related variable prepaid forward contracts.
