CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements for the interim periods have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the financial information and footnotes required by GAAP for complete financial statements, although we believe the disclosures are adequate to make the information presented not misleading. These statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2007. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year or for any other interim period. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these consolidated financial statements, we have made our best estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results, since actual results could differ from those estimates.

Summary of Significant Accounting Policies

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States, we must make decisions which impact the reported amounts and related disclosures. Such decisions include the selection of the appropriate principles to be applied and the assumptions on which to base accounting estimates. In reaching such decisions, we apply judgment based on our understanding and analysis of the relevant circumstances.

The accounting principles followed in the preparation of the consolidated financial information contained on Form 10-Q are the same as those described in our Annual Report on Form 10-K for the year ended December 31, 2007, some of which have been included herein as follows.

Revenue Recognition

We recognize revenue upon shipment of manufactured products to customers, when title has passed, all contractual obligations have been satisfied and collection of the resulting receivable is reasonably assured. We also provide engineering services separate from the manufacture of a product. Revenue for engineering services is recognized upon completion of the engineering process, providing standalone fair value to our customers. Our engineering services are short-term in nature. In addition, we have another separate source of revenue that comes from short-term repair services, which are recognized upon completion of the repairs, and the repaired products are shipped back to the customer. Shipping and handling costs charged to our customers are included in net sales, while the corresponding shipping expenses are included in cost of goods sold.

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

Stock-Based Compensation

We have two types of stock-based compensation awards consisting of restricted stock and stock options. Following is a summary of the key terms and methods of valuation for our stock-based compensation awards.

Restricted Stock

On March 7, 2006, 28,500 shares of restricted common stock were granted to our management and directors. This benefit was valued at the market price of the stock on the date of grant. These awards vest over a three-year term and are expensed ratably over the same period. We recorded compensation expense of \$17,475 and \$52,425 for the three and nine months ended September 30, 2008 and 2007, respectively. The following is the status of our restricted shares as of September 30, 2008:

	Restricted Shares		Weighted- Average Grant Date Fair Value
Outstanding - January 1, 2008 through September 30, 2008	28,500	\$	7.44
Vested - September 30, 2008	19,000	\$	7.44

As of September 30, 2008 and 2007, there was approximately \$17,000 and \$87,000 of unrecognized compensation expense related to unvested restricted stock awards to be recognized over a weighted-average period of 0.25 and 1.25 years, respectively.

Stock Options

On May 3, 2005, the shareholders approved the 2005 Incentive Compensation Plan (the 2005 Plan). The total number of shares of common stock that may be granted under the 2005 Plan is 200,000, of which 39,500 remain available for grant at September 30, 2008. The 2005 Plan provides that option shares granted come from our authorized but unissued common stock. The price of the option shares granted under the plan will not be less than 100% of the fair market value of the common shares on the date of grant. Options are generally exercisable after one or more years and expire no later than 10 years from the date of grant.

On July 11, 2007, the Board of Directors approved the adoption of the FOCUS Incentive Plan (the 2007 Plan). The total number of shares of common stock that may be granted under the 2007 Plan is 490,000 of which 27,950 remain available for grant at September 30, 2008. The 2007

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Plan also provides that option shares granted come from our authorized but unissued common stock. The purpose of the 2007 Plan is to provide incentives to our employees to increase our return on sales (ROS) performance measurement. The price of the option shares granted under the plan will not be less than 100% of the fair market value of the common shares on the date of grant. Options expire no later than 10 years from the date of grant. However, the FOCUS plan is unique from the preceding Plan in that vesting of options is conditional upon our achievement of established performance measurements as follows:

- If we achieve 1.95% ROS for any of the three years ending 2007, 2008, or 2009, one-third of the options will vest.

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

- If we achieve 3% ROS for either of the two calendar years 2008 or 2009, one-third of the options will vest.
- If we achieve 4% ROS for the calendar year 2009, the remaining one-third of the options will vest.

Following is the status of our stock option plan as of September 30, 2008, including changes during the three-month period then ended:

	Shares	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding - January 1, 2008	809,500	\$ 7.30		
Granted	17,050	8.50		
Exercised	(24,000)	5.70		
Forfeited	(15,000)	7.50		
Outstanding - September 30, 2008	787,550	7.37	7.65	\$ 44,450
Exercisable - September 30, 2008	256,330	\$ 7.00	5.49	\$ 44,450

The total intrinsic value of options exercised during the nine months ended September 30, 2008 was \$56,960. There were no options exercised during the three months ended September 30, 2008.

A summary of the status of our nonvested shares pursuant to all plans as of September 30, 2008 and changes during the nine months ended September 30, 2008, is presented below:

Nonvested Shares	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2008	551,500	\$ 4.38
Granted	17,050	4.47
Vested	(22,330)	4.27
Forfeited	(15,000)	4.40
Nonvested at September 30, 2008	531,220	\$ 4.39

To calculate the fair value of option-based awards under Statement of Financial Accounting Standard No. 123R (SFAS 123R), we used the Black-Scholes option-pricing model. Our determination of fair value of option-based awards on the date of grant using the Black-Scholes model is affected by our stock price as well as assumptions regarding a number of subjective variables. These variables include, but are not limited to, our expected stock price volatility over the term of the awards, risk-free interest rate, and the expected life of the options. The risk-free interest

rate is based on a treasury

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

instrument whose term is consistent with the expected life of our stock options. The expected volatility and holding period of options are based on our historical experience. For all grants, the amount of compensation expense to be recognized is adjusted for an estimated forfeiture rate, which is also based on historical data. The variables used in the Black-Sholes pricing model for the three months ended September 30, 2008 are below. There were no grants during the three months ended September 30, 2007.

- Expected volatility of 48%
- Risk-free interest rate of 3.5%
- Expected life of 7 years
- Expected dividend yield 0%

Stock Options with Time-Based Vesting

Total compensation expense related to stock options with time-based vesting for the three months ended September 30, 2008 and 2007 was \$49,615 and \$46,278, respectively. Total compensation expense related to stock options with time-based vesting for the nine months ended September 30, 2008 and 2007 as \$148,845 and \$138,834, respectively. At September 30, 2008 we had 325,500 time-based options outstanding.

As of September 30, 2008, there was approximately \$143,000 of unrecognized compensation expense related to unvested option awards that we expect to recognize over a weighted-average period of 0.73 years.

Stock Options with Performance-Based Vesting

As mentioned previously, the vesting of options granted in July 2007, March 2008 and May 2008 are conditional upon our achievement of established performance measurements. At September 30, 2008, management has estimated the probability of achieving any of the performance goals is less than 50%, thus in accordance with provisions of SFAS 123R, no compensation expense has been recorded for the three months ended September 30, 2008 for these awards.

As of September 30, 2008 we have 462,050 performance-based options outstanding. There was approximately \$1,969,000 of unrecognized compensation expense available to be earned and expensed in future periods up through December 2009 on performance-based stock options.

Segment Reporting Information

Our results of operations for the three and nine months ended September 30, 2008 and 2007 represent a single business segment referred to as Contract Manufacturing. Export sales represented 5% and 4% of consolidated net sales for the three-month and nine-month periods ended September 30, 2008, respectively. Export sales represented 4% and 3% of consolidated net sales for the three-month and nine-month periods ended September 30, 2007, respectively.

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

NOTE 2. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Nortech Systems Incorporated (Nortech) and its wholly owned subsidiary, Manufacturing Assembly Solutions of Monterrey, Inc. All significant intercompany accounts and transactions have been eliminated.

NOTE 3. MAJOR CUSTOMERS AND CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash and accounts receivable. With regard to cash, we maintain our excess cash balances in checking accounts at three financial institutions. We do not require collateral on our accounts receivable. Historically, we have not suffered significant losses with respect to accounts receivable.

Two customers accounted for 10% or more of our net sales for the three-month and nine-month periods ended September 30, 2008 and 2007. Northrop Grumman Corp. accounted for 15% and 16% of net sales for the three-month periods ended September 30, 2008 and 2007, respectively. For the nine-month periods ended September 30, 2008 and 2007, Northrop Grumman Corp. accounted for 20% and 15% of net sales, respectively. Accounts receivable from Northrop Grumman Corp. represented 15% of total accounts receivable at September 30, 2008. Additionally, G.E.'s Medical and Transportation Divisions together accounted for 19% and 15% of net sales for the three-month periods ended September 30, 2008 and 2007, respectively. For the nine-month periods ended September 30, 2008 and 2007, G.E.'s Medical and Transportation Divisions together accounted for 18% and 17% of net sales, respectively. Accounts receivable from G.E.'s Medical and Transportation Divisions represented 15% of total accounts receivable at September 30, 2008.

NOTE 4. FINANCING ARRANGEMENTS

On August 15, 2008 we entered into an 8th amendment to our credit agreement with Wells Fargo Bank (WFB), which provides for a line of credit arrangement of \$15 million, which expires if not renewed, on June 30, 2010. The credit arrangement also has a real estate term note with a maturity date of May 31, 2012. Both the line of credit and real estate term note are subject to variations in LIBOR rates. The line of credit and other installment debt with WFB contain certain covenants, which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial ratios, and limit the amount of annual capital expenditures. As of September 30, 2008, we were in compliance with all covenants. On September 30, 2008, we had an outstanding balance of \$8.2 million under the line of credit and unused availability of \$6.8 million supported by the borrowing base level. The line of credit is secured by substantially all of our assets.

On June 28, 2006, we received \$1.4 million in exchange for an industrial revenue bond with WFB, where the City of Blue Earth, Minnesota is the issuer of the bond. The bond, which matures on June 1, 2021, bears a variable interest rate. The bond is payable in annual installments per the agreement with WFB. Our bond principal payment of \$130,000 was made on June 1, 2008 and will be \$130,000 on June 1, 2009. The proceeds of the bond were used to purchase the facility in Blue Earth, Minnesota as well as facility upgrades and equipment to support the Blue

Earth operations.

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

With WFB, we entered into an interest rate swap agreement with a notional amount of \$1.4 million to effectively convert our industrial revenue bond debt from a variable rate to a fixed rate of 4.07% for five years, maturing on June 28, 2011. The fair value of the swap at September 30, 2008 was recorded as a long-term liability of \$33,066.

Effective January 1, 2008, we adopted SFAS No. 157 (SFAS 157), *Fair Value Measurements* for our financial instruments. The estimated fair values of our short-term financial instruments, including receivables and payables arising in the ordinary course of business, approximate their individual carrying amounts due to the relatively short period of time between their origination and expected realization. The fair value of our interest rate swap (used for purposes other than trading) is the estimated amount we would pay to terminate the agreement at September 30, 2008, taking into account current interest rates and our creditworthiness. The adoption of SFAS 157 for financial instruments did not have a material impact on our financial statements. SFAS 157 is effective for non-financial instruments for fiscal years beginning after November 15, 2008.

NOTE 5. EARNINGS PER COMMON SHARE

The following is a reconciliation of the numerators and the denominators of the basic and diluted earnings per common share computations.

	Three Months Ended September 30		Nine Months Ended September 30	
	2008	2007	2008	2007
<u>Basic Earnings Per Common Share</u>				
Net income, as reported	\$ 499,261	\$ 420,506	\$ 1,676,879	\$ 1,074,900
Weighted average common shares outstanding	2,729,455	2,695,815	2,715,789	2,688,955
Basic earnings per common share	\$ 0.18	\$ 0.16	\$ 0.62	\$ 0.40
<u>Diluted Earnings Per Common Share</u>				
Net income, as reported	\$ 499,261	\$ 420,506	\$ 1,676,879	\$ 1,074,900
Weighted average common shares outstanding	2,729,455	2,695,815	2,715,789	2,688,955
Effect of Stock Options	40,536	26,837	26,024	31,458
Effect of Restricted Stock	4,284	7,327	7,434	6,147
Weighted average common shares for diluted earnings per common share	2,774,275	2,729,979	2,749,247	2,726,560
Diluted earnings per common share	\$ 0.18	\$ 0.15	\$ 0.61	\$ 0.39

For the nine-month periods ended September 30, 2008 and 2007, 15,744 and 69,756 shares, respectively were excluded from the computation of diluted earnings per share because to include them would be antidilutive.

For the nine-month periods ended September 30, 2008 and 2007, 15,744 and 69,756 shares, respectively, were ex

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

NOTE 6. INCOME TAXES

On a quarterly basis, we estimate what our effective tax rate will be for the full fiscal year and record a quarterly income tax provision based on the anticipated rate. As the year progresses, we refine our estimate based on the facts and circumstances by each tax jurisdiction. The effective tax rates for the quarters ended September 30, 2008 and 2007 were 40% and 39%, respectively. The year to date effective tax rates for the three quarters ended September 30, 2008 and September 30, 2007 were 39% and 36%, respectively. The increase in the tax rate from 2007 is primarily due to the timing/realization of federal research and experimentation credits. The law allowing such credits for 2008 and 2009 was enacted on October 2, 2008, and the impact of the 2008 credits will be recognized in our fourth quarter of 2008.

Effective January 1, 2007, we adopted FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. On adoption, we recognized a \$32,000 income tax liability for unrecognized tax benefits, which was accounted for as a cumulative change to opening retained earnings. At September 30, 2008 we had \$72,000 of net uncertain tax benefit positions that would reduce our effective income tax rate if recognized. Due to statute expiration, a decrease could occur with respect to this FIN 48 reserve of less than \$20,000 during fiscal year 2008. This reserve, including associated interest, relates primarily to federal research tax credits taken in prior years.

NOTE 7. COMPREHENSIVE INCOME

Comprehensive income is comprised of net income and other comprehensive loss. Other comprehensive loss includes losses resulting from foreign currency translations. The details of comprehensive income are as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2008	2007	2008	2007
Net Income, as reported	\$ 499,261	\$ 420,506	\$ 1,676,879	\$ 1,074,900
Other Comprehensive Loss:				
Currency Translation Adjustment	(36,411)	(6,207)	(4,258)	(5,223)
Comprehensive Income	\$ 462,850	\$ 414,299	\$ 1,672,621	\$ 1,069,677

NOTE 8. RECENTLY ISSUED ACCOUNTING STANDARDS

In February 2007, the FASB issued SFAS No. 159 (SFAS 159), *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115*. SFAS 159 allows organizations to measure and report the fair market value of many financial instruments and certain other items. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The adoption of SFAS 159 did not have an impact on our financial statements.

For the nine-month periods ended September 30, 2008 and 2007, 15,744 and 69,756 shares, respectively, were ex

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141R), which replaces FASB Statement No. 141, and SFAS No 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51 (SFAS 160)*. SFAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS 160 will change the accounting and reporting for minority interests, reporting them as equity separate from the parent entity's equity, as well as requiring expanded disclosures. SFAS 141R and SFAS 160 are effective as of the beginning of an entity's fiscal year beginning after December 15, 2008.

In March 2008, the FASB issued SFAS 161, *Disclosures about Derivative Instruments and Hedging Activities* (SFAS 161). The new standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, results of operations and cash flows. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with earlier application encouraged. We are currently investigating the impact, if any, of adopting SFAS 161 on our financial statements.

In May 2008, the FASB issued SFAS 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). The new standard identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This Statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. We do not anticipate any significant changes as a result of adopting SFAS 162.

NOTE 9. ACQUISITION

On February 4, 2007, we purchased substantially all of the assets and assumed certain liabilities of Suntron's Midwest Operations located in Garner, Iowa. This operation is an Electronics Manufacturer Service (EMS) provider of printed circuit board assemblies, box build assemblies and repair services. This acquisition strengthened our capabilities in printed circuit board assemblies and high level complete box build assemblies while opening new market segments in the agriculture and oil and gas industries.

The purchase agreement called for a contingent earn-out if certain revenue levels were achieved in 2007. Based on actual revenue levels, an earn-out payment of \$200,000 was made in February 2008.

The table below reflects our unaudited pro forma consolidated results of operations for the nine months ended September 30, 2007 as if the acquisition had taken place as of January 1, 2007:

Table of Contents

NORTECH SYSTEMS INCORPORATED AND SUBSIDIARY

	Pro Forma Nine Months Ended September 30, 2007 (unaudited)	
Net Sales	\$	89,926,000
Net Income	\$	1,051,000
Basic earnings per common share	\$	0.39
Diluted earnings per common share	\$	0.39

The pro forma unaudited results do not purport to be indicative of the results which would have been obtained had the acquisition been completed as of January 1, 2007.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview:

We are a Wayzata, Minnesota based full-service Electronics Manufacturing Services (EMS) contract manufacturer of wire and cable assemblies, printed circuit board assemblies, higher-level assemblies and box builds for a wide range of industries. Major markets served include industrial equipment and transportation, medical and military/defense. We have operating facilities in Baxter, Bemidji, Blue Earth, Fairmont and Merrifield, Minnesota, Garner, Iowa, Augusta, Wisconsin, and Monterrey, Mexico.

Summary:

For the quarter ended September 30, 2008, we reported net sales of \$31.7 million, up 7% over the \$29.6 million we reported in the same quarter of 2007. For the nine months ended September 30, 2008, we reported net sales of \$94.9 million, up 7% over the \$88.8 million we reported for the first nine months of 2007. The gross profit percentage was 13.6% and 13.7% for the third quarters of 2008 and 2007, respectively. For the first nine months of 2008 and 2007, the gross profit percentage was 14.3% and 13.5%, respectively. Income from operations for the third quarter of 2008 totaled \$0.9 million, a decrease of 8% over the \$1.0 reported in the third quarter of 2007. Income from operations for the first nine months of 2008 totaled \$3.3 million, an increase of 31% above the \$2.5 million reported in the first nine months of 2007. Net income for the third quarter of 2008 totaled \$0.5 million, or \$0.18 per diluted common share which is up 19% compared to \$0.4 million, or \$0.15 per diluted common share, reported in the third quarter of 2007. Net income for the first nine months of 2008 totaled \$1.7 million, or \$0.61 per diluted common share, and was 56% higher than the \$1.1 million, or \$0.39 per diluted common share, reported in the first nine months of 2007.

(1.) Results of Operations:

The following table presents statement of operations data as percentages of total revenues for the periods indicated:

	Three Months Ended September 30		Nine Months Ended September 30	
	2008	2007	2008	2007
Net Sales	100.0%	100.0%	100.0%	100.0%
Cost of Goods Sold	86.4%	86.3%	85.7%	86.5%
Gross Profit	13.6%	13.7%	14.3%	13.5%
Selling Expenses	4.7%	3.8%	4.5%	4.2%
General and Administrative Expenses	5.8%	6.5%	6.3%	6.5%
Income from Operations	3.1%	3.4%	3.5%	2.8%
Other Expenses, Net	0.4%	1.1%	0.6%	1.0%
Income Tax Expense	1.1%	0.9%	1.1%	0.7%
Net Income	1.6%	1.4%	1.8%	1.1%

Net Sales:

We reported net sales of \$31.7 million and \$29.6 million for the third quarters ended September 30, 2008 and 2007, respectively, a 7% increase year over year. Our Aerospace Systems product line operations were up 21% and our Commercial Cable and Wire product line operations were up 19% as compared to the third quarter of 2007. These increases were offset by a 16% sales decline in our

Table of Contents

Commercial Electronic Board Assembly product line operations. We reported net sales of \$94.9 million and \$88.8 million for the nine months ended September 30, 2008 and 2007, respectively. The increase in net sales of \$6.1 million for the first nine months is primarily due to sales increases in our Aerospace Systems product line operations. Our 90-day order backlog as of September 30, 2008 was approximately \$26.2 million, compared to approximately \$27.3 million at the beginning of the quarter.

Gross Profit:

Our gross profit for the third quarter of 2008 was \$4.3 million or 13.6% of net sales, relatively flat when compared to gross profit of \$4.1 million or 13.7% of net sales for the third quarter of 2007. Our gross profit for the first nine months of 2008 was \$13.6 million or 14.3% of net sales compared to gross profit of \$11.9 million or 13.5% of net sales for the first nine months of 2007. Favorable product mix, process improvements, and leveraging of our manufacturing costs accounted for the majority of margin improvements for the nine months.

Selling Expense:

We had selling expenses of \$1.5 million or 4.7% of net sales for the third quarter of 2008 and \$1.1 million or 3.8% of net sales for the third quarter of 2007. The increase in selling expenses of \$0.4 million for the quarter was due to an increase in commissions and other related personnel costs. For the first nine months ended September 30, 2008 we had selling expenses of \$4.3 million or 4.5% of net sales compared to selling expense of \$3.7 million or 4.2% of net sales for the first nine months of 2007. The \$0.6 million increase in selling expense was the result of our continued investment in sales programs and systems in order to maintain a high level of customer service and support.

General and Administrative Expense:

Our general and administrative expenses were flat at \$1.9 million or 5.8% of net sales for the third quarter of 2008, compared to \$1.9 million or 6.5% of net sales reported for the third quarter of 2007. For the first nine months ended September 30, 2008, we had general and administrative expenses of \$6.0 million or 6.3% of net sales compared to general and administrative expenses of \$5.7 million, or 6.5% of net sales for the first nine months ended September 30, 2007. The increase in general and administrative expenses for the first nine months of \$0.3 million was the result of increased personnel and related costs, as well as increased consulting fees to support our Focus Lean initiatives and compliance related items.

Other Expense:

Other expenses, net were \$116,000 for the quarter ended September 30, 2008 compared to \$339,000 for the third quarter of 2007. Other expenses, net were \$528,000 for the nine months ended September 30, 2008 compared to \$852,000 for the nine months ended September 30, 2007. The decrease in other expenses was the result of a decrease in interest expense due to lower debt levels and lower interest rates.

Overview:

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Income Tax:

Income tax expense for the three months ended September 30, 2008 was \$331,000 compared to an income tax expense of \$272,000 for the three months ended September 30, 2007. Income tax expense for the nine months ended September 30, 2008 was \$1,091,000 compared to an income tax expense of \$596,000 for the nine months ended September 30, 2007. The annual effective tax rate for 2008 is expected to be approximately 39% while the annual effective tax rate for 2007 was 36%. The increase in the tax rate from 2007 is primarily due to the timing/realization of federal research and experimentation credits. The law allowing such credits for 2008 and 2009 was enacted on October 2, 2008, and the impact of the 2008 credits will be recognized in our fourth quarter of 2008.

Table of Contents(2.) Liquidity and Capital Resources:

We have satisfied our liquidity needs over the past several years through revenue generated from operations and an operating line of credit through Wells Fargo Bank, N.A. (WFB). Both the line of credit and real estate term note are subject to variations in the LIBOR rates. The line of credit and other installment debt with WFB contain certain covenants, which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial ratios, and limit the amount of annual capital expenditures. The availability under the line is subject to borrowing base requirements, and advances are at the discretion of the lender. The line is secured by substantially all of our assets. On September 30, 2008, we had an outstanding balance of \$8.2 million under the line of credit and unused availability of \$6.8 million supported by our borrowing base level.

The following unaudited ratios are not required under the SEC guidelines or accounting principles generally accepted in the United States of America, however, we believe they are meaningful measures and are useful to readers of our financial statements.

	September 30, 2008	December 31, 2007	December 31, 2006	December 31, 2005
Current Ratio (Current Assets / Current Liabilities)	1.67	1.68	1.63	1.60
Working Capital	\$ 16,311,000	\$ 14,813,000	\$ 12,711,000	\$ 12,214,000
(Current Assets / Current Liabilities)				
Quick Ratio (Cash + Accounts Receivable / Current Liabilities)	0.73	0.75	0.75	0.77
Accounts Receivable to Working Capital (Average Accounts Receivable/ Working Capital)	1.10	1.01	1.14	1.14
Inventory to Working Capital (Average Inventory/ Working Capital)	1.30	1.18	1.25	1.23

Our working capital of \$16.3 million as of September 30, 2008 increased from \$14.8 million at December 31, 2007. The working capital increase can be attributed to increases in Accounts Receivable and Inventory, which were partially offset by an increase in debt levels. We are increasing our efforts to lower inventory levels and collect accounts receivable within terms in order to further strengthen our working capital position.

Net cash used in operating activities for the nine months ended September 30, 2008 was \$1.1 million compared to \$1.8 million of net cash used in operating activities for the nine months ended September 30, 2007. The cash flow from operations for the nine months ended September 30, 2008 is the result of net income of \$1.7 million, adjusted for noncash depreciation, amortization, gain on the disposal of assets, stock-based compensation expense, foreign currency transaction loss, deferred taxes, and the

Table of Contents

interest on swap valuation, which combined totaled \$1.6 million in net positive adjustments, less the net change in operating assets and liabilities of \$4.3 million. Our working capital saw increases in Accounts Receivable of \$2.0 million and Inventories of \$2.5 million to support the growth and additional customer service requirements in the first nine months of 2008, and was offset by an increase in accruals.

Net cash used in investing activities of \$1.3 million for the nine months ended September 30, 2008 is primarily comprised of equipment purchases.

Net cash provided by financing activities for the nine months ended September 30, 2008 was \$1.8 million, consisting primarily of drawing on the line of credit by \$2.6 million, and offset by principal payments on notes payable.

We believe that our future financing requirements can be met with funds generated from our operating activities and our operating line of credit.

(3.) Critical Accounting Policies and Estimates

Our significant accounting policies and estimates are summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2007. There have been no significant changes in these critical accounting policies since December 31, 2007, other than the adoption of SFAS 157 and 159 as discussed in Notes 4 and 8, respectively, of the Notes to the Condensed Consolidated Financial Statements in this Form 10-Q. Some of our accounting policies require us to exercise significant judgment in selecting the appropriate assumptions for calculating financial estimates. Such judgments are subject to an inherent degree of uncertainty. These judgments are based on our historical experience, known trends in our industry, terms of existing contracts and other information from outside sources, as appropriate. Actual results could differ from these estimates.

(4.) Forward-Looking Statements:

Those statements in the foregoing report that are not historical facts are forward-looking statements made pursuant to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements generally will be accompanied by words such as anticipate, believe, estimate, expect, forecast, intend, possible, potential, predict, project, or other similar words that convey the uncertainty of future outcomes. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions concerning future conditions, any or all of which may ultimately prove to be inaccurate. Forward-looking statements involve a number of risks and uncertainties. Important factors that could cause actual results to differ materially from the forward-looking statements include, without limitation:

- **Volatility in the marketplace which may affect market supply and demand for our products;**

- **Volatility in the marketplace which may affect market supply and demand for our products;** 61

- **Increased competition;**

- **Changes in the reliability and efficiency of operating facilities or those of third parties;**

- Risks related to availability of labor;
- Increase in certain raw material costs such as copper;
- Commodity and energy cost instability;
- General economic, financial and business conditions that could affect our financial condition and results of operations.

Table of Contents

The factors identified above are believed to be important factors (but not necessarily all of the important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us. Unpredictable or unknown factors not discussed herein could also have material adverse effects on forward-looking statements. All forward-looking statements included in this Form 10-Q are expressly qualified in their entirety by the forgoing cautionary statements. We undertake no obligations to update publicly any forward-looking statement (or its associated cautionary language) whether as a result of new information or future events.

ITEM 3. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures:

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q, our management evaluated, with the participation of our Chief Executive Officer and Executive Vice President and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based upon their evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of the date of such evaluation in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting:

There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
