NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(dollars in thousands, except per share data)

Note 1. Basis of Presentation

The accompanying consolidated financial statements of HRPT Properties Trust and its subsidiaries have been prepared without audit. Certain information and footnote disclosures required by accounting principles generally accepted in the United States for complete financial statements have been condensed or omitted. We believe the disclosures made are adequate to make the information presented not misleading. However, the accompanying financial statements should be read in conjunction with the financial statements and notes contained in our Annual Report on Form 10-K for the year ended December 31, 2007, and in our Current Report on Form 8-K dated October 21, 2008. In the opinion of management, all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation, have been included. All intercompany transactions and balances between HRPT Properties Trust and its subsidiaries have been eliminated. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. Reclassifications have been made to the prior years' financial statements to conform to the current year's presentation.

In September 2006, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurement", or SFAS No. 157, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. As required, we adopted SFAS No. 157 on January 1, 2008 and have concluded that the effect is not material to our consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), "Business Combinations", or SFAS 141(R). SFAS 141(R) establishes principles and requirements for how the acquirer shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any noncontrolling interest in the acquiree and goodwill acquired in a business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008. We are currently evaluating the effect that the adoption of SFAS 141(R) will have on our consolidated financial statements.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162, "The Hierarchy of Generally Accepted Accounting Principles", or SFAS 162. SFAS 162 identifies sources of accounting principles and a framework for selecting principles to be used in preparation of financial statements of nongovernmental entities that are prepared in conformity with generally accepted accounting principles in the United States (the GAAP Hierarchy). SFAS 162 is effective 60 days following the Security and Exchange Commission's, or SEC's, approval of the Public Company Accounting Oversight Board amendments to auditing standard AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles". We do not expect this standard will result in any change to our current accounting principles.

Note 2. Real Estate Properties

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

During the nine months ended September 30, 2008, we funded \$47,969 of improvements to our owned properties and we acquired 47 office and industrial properties for approximately \$336,938, excluding closing costs, using cash on hand, borrowings under our revolving credit facility, the assumption of \$39,554 of secured mortgage debt and the issuance of 2,153,941 shares of our common stock.

On May 5, 2008, we entered into a series of purchase and sale agreements with Senior Housing Properties Trust, or SNH, for the sale of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565,000. We sold 28 of these properties during the nine months ended September 30, 2008 for \$232,742, excluding closing costs, and recognized gains totaling \$97,625. We expect the sales of the remaining 20 properties to be completed by April 30, 2009, however, these sales are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, third party consents and financing contingencies relating to certain properties. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur.

In June 2008, we also agreed to sell one additional office property for \$15,000. All properties under contract for sale as of September 30, 2008, are classified as held for sale on our consolidated balance sheet. Results of operations for properties under contract for sale or sold as of September 30, 2008, are included in discontinued operations in our consolidated statements of income. Summarized balance sheet and income statement information for properties under contract for sale or sold as of September 30, 2008, is as follows:

Note 3. Indebtedness

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

In January 2008, we prepaid, at par, \$28,600 of 8.50% mortgage debt due in 2028, using cash on hand and borrowings under our revolving credit facility. In addition, the buyer of two of our properties sold in July 2008 assumed \$4,491 of 6.5% mortgage debt due in 2013 and \$6,291 of 7.5% mortgage debt due in 2022.

In June 2008, we assumed \$30,639 of secured mortgage debt in connection with an acquisition. This mortgage debt bears interest at 7.435%, requires monthly principal and interest payments and matures in 2011. In July 2008, we assumed \$8,915 of secured mortgage debt in connection with another acquisition. This mortgage debt bears interest at 5.76%, requires monthly principal and interest payments and matures in 2016.

We have a \$750,000 unsecured revolving credit facility that we use for acquisitions, working capital and general business purposes. The interest rate on this facility averaged 3.3% and 5.9% per annum for the nine months ended September 30, 2008 and 2007, respectively. As of September 30, 2008, we had \$303,000 outstanding and \$447,000 available under our revolving credit facility.

Our public debt indentures and credit facility agreement contain a number of financial and other covenants, including a credit facility covenant which limits the amount of aggregate distributions on common shares to 90% of operating cash flow available for shareholder distributions as defined in the credit facility agreement. We believe that we are in compliance with these financial and other covenants.

Note 4. Earnings per Common Share

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

Earnings per common share, or EPS, is computed pursuant to the provisions of Statement of Financial Accounting Standards No. 128. The effect of our convertible preferred shares on income from continuing operations available for common shareholders per share is anti-dilutive for the periods presented. The following table provides a reconciliation of both net income and the number of common shares used in the computations of basic and diluted EPS (shares in thousands):

Note 5. Segment Information

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

As of September 30, 2008, we owned 346 office properties and 187 industrial and other properties, excluding properties held for sale. We account for all of these properties in geographic operating segments for financial reporting purposes based on our method of internal reporting. We define these individual geographic segments as those which currently, or during either of the last two quarters, represent or generate 5% or more of our total square feet, revenues or property net operating income. Property level information by geographic segment and property type, excluding properties held for sale or sold, as of and for the three and nine months ended September 30, 2008 and 2007 is as follows:

The table below reconciles our calculation of property net operating income, or NOI, to net income, the most directly comparable financial measure under generally accepted accounting principles, or GAAP, reported in our consolidated financial statements for the three and nine months ended September 30, 2008 and 2007. We consider NOI to be appropriate supplemental information to net income because it helps both investors and management to understand the operations of our properties. We use NOI internally as a performance measure and believe NOI provides useful information to investors regarding our results of operations because it reflects only those income and expense items that are incurred at the property level. Our management also uses NOI to evaluate individual, regional and company wide property level performance. NOI excludes certain components from net income in order to provide results that are more closely related to our properties' results of operations. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance. A reconciliation of NOI to net income for the three and nine months ended September 30, 2008 and 2007 is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

The following discussion and tables should be read in conjunction with our consolidated financial statements and notes thereto included in this quarterly report and our Annual Report on Form 10-K for the year ended December 31, 2007, and in our Current Report on Form 8-K dated October 21, 2008.

OVERVIEW

We primarily own office buildings located throughout the United States. We also own approximately 17 million square feet of leased industrial and commercial lands located in Oahu, Hawaii.

Property Operations

As of September 30, 2008, 90.6% of our total square feet was leased, compared to 92.6% leased as of September 30, 2007. These results exclude properties under contract for sale and primarily reflect the 2.1 percentage point decrease in occupancy at properties we owned continuously since January 1, 2007. Occupancy data for 2008 and 2007 is as follows (square feet in thousands):

	All Properties (1) As of September 30,		Comparable Properties (1)(2) As of September 30,	
	2008	2007	2008	2007
Total properties	533	480	455	455
Total square feet	66,087	61,645	57,467	57,467
Percent leased (3)	90.6%	92.6%	90.2%	92.3%

(1) Excludes properties under contract for sale as of September 30, 2008.

(2) Based on properties owned continuously since January 1, 2007.

(3) Percent leased includes (i) space being fitted out for occupancy pursuant to signed leases and (ii) space which is leased, but is not occupied or is being offered for sublease by tenants.

During the three months ended September 30, 2008, we signed lease renewals for 559,000 square feet and new leases for 395,000 square feet, at weighted average rental rates that were 16% above rents previously charged for the same space. Average lease terms for leases signed during the three months ended September 30, 2008 were 5.6 years. Commitments for tenant improvement and leasing costs for leases signed during the three months ended September 30, 2008 totaled \$9.4 million, or \$9.82 per square foot (approximately \$1.75/sq. ft. per year of the lease term).

During the past twelve months, leasing market conditions in the majority of our markets have begun to show some weakness. The pace of new leasing activity and the leasing of currently vacant space within our portfolio has slowed and completion of newly constructed office properties in certain markets has increased, causing our occupancy to decline. Required landlord funded tenant build outs and leasing commissions payable to tenant brokers for new leases and lease renewals have generally remained unchanged over the past twelve months, but are starting to increase in certain markets in the third quarter of 2008. These build out costs and leasing commissions are generally amortized as a reduction of our income during the terms of the affected leases. Also, some tenants and prospective tenants have demonstrated reluctance to enter lease renewals or new leases for extended terms. We believe that some decreases in occupancy and effective rents may further reduce the financial results at some of our currently owned properties. However, there are too many variables for us to reasonably project what the financial impact of market conditions will be on our results for future periods.

Approximately 9.0% of our leased square feet and 11.2% of our rents are included in leases scheduled to expire through December 31, 2009. Lease renewals and rental rates at which available space may be relet in the future will depend on prevailing market conditions at that time. Lease expirations by year, as of September 30, 2008, are as follows (square feet and dollars in thousands):

Investment Activities

During the nine months ended September 30, 2008, we acquired 47 office and industrial properties with 3,899,000 square feet of space for \$336.9 million, excluding closing costs and allocated intangibles. At the time of acquisition, these properties were 92.2% leased and yielded approximately 10.1% of the aggregate gross purchase price, based on estimated annual net operating income, or NOI, which we define as property rental income less property operating expenses on the date of closing. During the nine months ended September 30, 2008, we sold 28 office properties containing 1,121,000 square feet of space subject to \$10.8 million of mortgage debt for \$232.7 million and recognized gains totaling \$97.6 million.

Financing Activities

In January 2008, we prepaid, at par, \$28.6 million of 8.50% mortgage debt due in 2028, using cash on hand and borrowings under our revolving credit facility. In addition, the buyer of two of our properties sold in July 2008 assumed \$4.5 million of 6.5% mortgage debt due in 2013 and \$6.3 million of 7.5% mortgage debt due in 2022. In June 2008, we assumed \$30.6 million of secured mortgage debt in connection with an acquisition. This mortgage debt bears interest at 7.435%, requires monthly principal and interest payments and matures in 2011. In July 2008, we assumed \$8.9 million of secured mortgage debt in connection with another acquisition. This mortgage debt bears interest at 5.76%, requires monthly principal and interest payments and matures in 2016.

Rental income. Rental income increased for the three months ended September 30, 2008, compared to the same period in 2007, primarily due to an increase in rental income from our Other Markets segment, as described in the segment information footnote to our consolidated financial statements. Rental income from our Other Markets segment increased \$15.7 million, or 16%, primarily because of our acquisition of 56 properties since June 2007. Rental income includes non-cash straight line rent adjustments totaling \$6.8 million in 2008 and \$5.7 million in 2007 and amortization of acquired real estate leases and obligations totaling (\$2.3) million in 2008 and (\$2.2) million in 2007. Rental income also includes lease termination fees totaling \$108,000 in 2008 and \$569,000 in 2007.

Total expenses. The increase in total expenses primarily reflects our acquisition of properties since June 2007. The increase in depreciation and amortization expense also reflects building and tenant improvement costs incurred throughout our portfolio since June 2007.

Interest expense. The increase in interest expense in 2008 reflects an increase in average total debt outstanding which was used primarily to finance acquisitions in 2008 and 2007, partially offset by a decrease in floating interest rates.

Income from continuing operations. The decrease in income from continuing operations is due primarily to the increase in depreciation and amortization expense and a decrease in occupancy, partially offset by income from acquisitions in 2008 and 2007.

Income from discontinued operations. Income from discontinued operations represents operating results from 28 office properties sold during the nine months ended September 30, 2008, 21 properties under contract to be sold and one office property sold in 2007.

Gain on sale of properties. We recognized gains totaling \$57.7 million from the sale of 23 office properties for \$149.0 million, excluding closing costs, during the three months ended September 30, 2008.

Net income and net income available for common shareholders. The increase in net income and net income available for common shareholders is due primarily to the gain on sale of properties recognized in 2008 and income from acquisitions in 2008 and 2007, offset by an increase in depreciation and amortization expense and a decrease in occupancy. Net income available for common shareholders is net income reduced by preferred distributions. The decrease in preferred distributions reflects the partial redemption of our 8 $\frac{3}{4}$ % series B preferred shares in November 2007.

Rental income. Rental income increased for the nine months ended September 30, 2008, compared to the same period in 2007, primarily due to increases in rental income from our Oahu, HI and Other Markets segments, offset by a decrease in rental income from our Metro Boston, MA segment, as described in the segment information footnote to our consolidated financial statements. Rental income from our Oahu, HI market increased by \$1.9 million, or 4%, due to an increase in weighted average rental rates for new leases and lease renewals signed during 2007 and 2008. Rental income from our Other Markets segment increased \$32.3 million, or 11%, primarily because of the acquisition of 74 properties since December 2006. Rental income from our Metro Boston, MA market decreased \$2.7 million, or 7%, primarily due to the decrease in occupancy in 2008, partially offset by rental income from property acquisitions since December 2006. Rental income includes non-cash straight line rent adjustments totaling \$11.7 million in 2008 and \$12.8 million in 2007 and amortization of acquired real estate leases and obligations totaling (\$7.0) million in 2008 and (\$7.3) million in 2007. Rental income also includes lease termination fees totaling \$2.3 million in 2008 and \$925,000 in 2007.

Total expenses. The increase in total expenses primarily reflects our acquisition of properties since December 2006. The increase in depreciation and amortization expense also reflects building and tenant improvement costs incurred throughout our portfolio since December 2006.

Interest expense. The increase in interest expense in 2008 reflects an increase in average total debt outstanding which was used primarily to finance acquisitions in 2008 and 2007, partially offset by a decrease in floating interest rates.

Loss on early extinguishment of debt. The loss on early extinguishment of debt in 2007 relates to the write-off of deferred financing fees associated with the repayment of \$200 million of our floating rate senior notes in June 2007.

Income from continuing operations. The decrease in income from continuing operations is due primarily to the increase in depreciation and amortization expense and a decrease in occupancy, partially offset by income from acquisitions in 2008 and 2007.

Income from discontinued operations. Income from discontinued operations represents operating results from 28 office properties sold during the nine months ended September 30, 2008, 21 properties under contract to be sold and one office property sold in 2007.

Gain on sale of properties. We recognized gains totaling \$97.6 million on the sale of 28 office properties during the nine months ended September 30, 2008 for \$232.7 million, excluding closing costs.

Net income and net income available for common shareholders. The increase in net income and net income available for common shareholders is due primarily to the gain on sale of properties recognized in 2008 and income from acquisitions in 2008 and 2007, offset by an increase in depreciation and amortization expense and a decrease in occupancy. Net income available for common shareholders is net income reduced by preferred distributions. The

decrease in preferred distributions reflects the partial redemption of our 8 ¾% series B preferred shares in November 2007.

LIQUIDITY AND CAPITAL RESOURCES

Our Operating Liquidity and Resources

Our principal sources of funds for current expenses and distributions to shareholders are rents from our properties. This flow of funds has historically been sufficient for us to pay our operating expenses, debt service and distributions. We believe that our operating cash flow will be sufficient to meet our operating expenses, debt service and distribution payments for the foreseeable future. Our future cash flows from operating activities will depend primarily upon the following factors:

- our ability to maintain or improve occupancies and effective rental rates at our properties;
- our ability to restrain operating cost increases at our properties; and
- our ability to purchase new properties which produce positive cash flows from operations.

We believe that present leasing market conditions in the majority of areas where our properties are located may result in decreases in occupancies and effective rents, or gross rents less amortization of landlord funded tenant improvements and leasing costs. The continued volatility in energy costs may cause our future operating costs to increase; however, the impact of these increases is expected to be partially offset by the pass-through of operating cost increases to our tenants pursuant to lease terms. We generally do not purchase turnaround properties or properties which do not generate positive cash flows. Our future purchases of properties which generate positive cash flows can not be accurately projected because such purchases depend upon available opportunities which come to our attention.

Cash flows provided by (used for) operating, investing and financing activities were \$240.5 million, (\$182.2) million and (\$53.3) million, respectively, for the nine months ended September 30, 2008, and \$198.1 million, (\$305.4) million and \$115.2 million, respectively, for the nine months ended September 30, 2007. Changes in all three categories between 2008 and 2007 are primarily related to property acquisitions and sales in 2008 and 2007, and repayments and issuances of debt obligations.

Our Investment and Financing Liquidity and Resources

In order to fund acquisitions and to accommodate cash needs that may result from timing differences between our receipt of rents and our desire or need to make distributions or pay operating or capital expenses, we maintain an unsecured revolving credit facility with a group of institutional lenders. At September 30, 2008, there was \$303 million outstanding and \$447 million available under our revolving credit facility, and we had cash and cash equivalents of \$24.9 million. We expect to use cash balances, borrowings under our credit facility, proceeds from the sale of properties and net proceeds of offerings of equity or debt securities to fund our continuing operations and future property acquisitions.

When significant amounts are outstanding under our revolving credit facility or as the maturity dates of our revolving credit facility and term debts approach, we explore alternatives for the repayment of amounts due. Such alternatives may include incurring additional debt and issuing new equity securities. We have an effective shelf registration statement that allows us to issue public securities on an expedited basis, but it does not assure that there will be buyers for such securities.

Recent capital markets conditions have been challenging. The availability and cost of credit have been and may continue to be adversely affected by illiquid capital markets and wide credit spreads, and equity markets have been extremely volatile. While we believe we will have access to various types of financings, including debt or equity offerings, to fund our future acquisitions and to pay our debts and other obligations, there can be no assurance that we will be able to complete any debt or equity offerings or that our cost of any future public or private financings will be reasonable. If current market conditions continue or worsen, one or more lenders under our revolving credit facility may be unable or unwilling to fund advances which we request or we may not be able to access additional capital. Impacts such as these would impair our ability to make future acquisitions and make our current growth plans unachievable. Also, the current market conditions have led to materially increased credit spreads which, if they continue, may result in material increase in indexes, such as LIBOR, which determine the interest rate under our floating rate debts and our costs when we refinance our fixed rate debts may materially increase. These interest cost increases could have material and adverse impact on our results of operations and financial condition.

The completion and the costs of our future debt transactions will depend primarily upon market conditions and our credit ratings. We have no control over market conditions. Our credit ratings depend upon evaluations by credit rating agencies of our business practices and plans and, in particular, whether we appear to have the ability to maintain our earnings, to space our debt maturities and to balance our use of debt and equity capital so that our financial performance and leverage ratios afford us flexibility to withstand any reasonably anticipatable adverse changes. We

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

intend to conduct our business activities in a manner which will continue to afford us reasonable access to capital for investment and financing activities.

During the nine months ended September 30, 2008, we funded improvements to our owned properties totaling \$48.0 million and we purchased 47 office and industrial properties for \$336.9 million, excluding closing costs using cash on hand, borrowings under our revolving credit facility, the assumption of \$39.6 million of mortgage debt, and the issuance of 2,153,941 shares of our common stock.

In October 2008, we acquired one property containing 10,000 square feet of space for approximately \$760,000, excluding closing costs. This acquisition was funded with cash on hand. As of November 6, 2008, we have executed purchase agreements for two additional properties with an aggregate of approximately 630,000 square feet of space for total purchase prices of \$117.2 million, excluding closing costs. These potential purchase transactions are subject to completion of diligence and other customary conditions; because of these contingencies we can provide no assurances that we will purchase these properties.

On May 5, 2008, we entered into a series of purchase and sale agreements for the sale of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565 million. We sold 28 of these properties during the nine months ended September 30, 2008 for \$232.7 million, excluding closing costs, and recognized gains totaling \$97.6 million. The buyer of two of these properties assumed \$4.5 million of 6.5% mortgage debt due in 2013 and \$6.3 million of 7.5% mortgage debt due in 2022. In October 2008, we sold an additional one of these properties with 79,000 square feet for \$29.8 million, excluding closing costs. We used the net proceeds from this sale to repay amounts outstanding under our revolving credit facility. Because a third party consent was not received, one of the purchase and sale agreements was amended so that one of the properties is no longer subject to such purchase and sale agreement. Nonetheless, we may receive such third party consent and may ultimately sell that property. We expect the sales of the remaining 19 properties to be completed by April 30, 2009, however, these sales are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, third party consents and financing contingencies relating to certain properties. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur. In June 2008, we also agreed to sell one additional office property for \$15.0 million, excluding closing costs.

During the three and nine months ended September 30, 2008 and 2007, cash expenditures made and capitalized for tenant improvements, leasing costs, building improvements and development and redevelopment activities were as follows (amounts in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Tenant improvements	\$ 15,853	\$ 9,651	\$ 30,632	\$ 38,295

Development, redevelopment and other activities (2)	3,882	5,568	10,328	28,753

(1) Building improvements generally include construction costs, expenditures to replace obsolete building components, and expenditures that extend the useful life of existing assets.

(2) Development, redevelopment and other activities generally include non-recurring expenditures or expenditures that we believe increase the value of our existing properties.

Commitments made for expenditures in connection with leasing space during the three months ended September 30, 2008, are as follows (amounts in thousands, except as noted):

	New Leases (1)	Renewals (1)	Total (1)

HRPT PROPERTIES TRUST

In January 2008, we prepaid at par, \$28.6 million of 8.50% mortgage debt due in 2028, using cash on hand and borrowings under our revolving credit facility.

We have no commercial paper, swaps, hedges, or off balance sheet arrangements as of September 30, 2008.

Debt Covenants

Our principal debt obligations at September 30, 2008, were our unsecured revolving credit facility and our \$2.25 billion of publicly issued unsecured term debt. Our publicly issued debt is governed by an indenture. Our public debt indenture and related supplements and our revolving credit facility agreement contain a number of financial ratio covenants which generally restrict our ability to incur debts, including debts secured by mortgages on our properties, in excess of calculated amounts, require us to maintain a minimum net worth, restrict our ability to make distributions under certain circumstances and require us to maintain other financial ratios. At September 30, 2008, we believe we were in compliance with all of our covenants under our indenture and related supplements and our revolving credit facility agreement.

In addition to our unsecured debt obligations, we had \$387.4 million, excluding unamortized premiums and discounts, of mortgage notes outstanding at September 30, 2008.

None of our indenture and related supplements, our revolving credit facility or our mortgage notes contain provisions for acceleration or require us to provide collateral security which could be triggered by our debt ratings. However, our senior debt rating is used to determine the interest rate and the fees payable under our revolving credit facility.

Our public debt indenture and related supplements contain cross default provisions to any other debts of \$20 million or more. Similarly, a default on our public debt indenture would be a default under our revolving credit facility.

Related Person Transactions

On May 5, 2008, we entered into a series of purchase and sale agreements with Senior Housing Properties Trust, or SNH, for the sale by us to SNH, or certain of its subsidiaries, of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565 million. We sold 28 of these properties to SNH during the nine months ended September 30, 2008 for \$232.7 million and recognized gains of \$97.6 million. In connection with the sales of two of these properties, SNH assumed \$4.5 million of 6.5% mortgage debt due in 2013 and \$6.3 million of 7.5% mortgage debt due in 2022. In October 2008, we sold an additional one of these properties to SNH for \$29.8 million. Because a third party consent was not received, one of the purchase and sale agreements was amended so that one of the properties is no longer subject to such

purchase and sale agreement. Nonetheless, we may receive such third party consent and may ultimately sell that property. We expect the sales of the remaining 19 properties to be completed by April 30, 2009, however, the sales under the purchase agreements to SNH are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, third party consents and financing contingencies relating to certain properties; accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur.

SNH was formerly our 100% owned subsidiary. It was spun off to our shareholders in 1999 and, at the time of this spin off, we and SNH entered into a Transaction Agreement which, among other things, prohibited SNH from purchasing medical office, clinic and biotech laboratory buildings. Concurrently with the execution and delivery of the purchase agreements described above, we and SNH entered into an amendment to the Transaction Agreement, or the first amendment agreement, to permit SNH, rather than us, to invest in medical office, clinic and biomedical, pharmaceutical and laboratory buildings. The first amendment agreement is subject, in the case of mixed use buildings, to our retaining the right to invest in any mixed use building for which the rentable square footage is less than 50% medical office, clinic and biomedical, pharmaceutical and laboratory use. Also, concurrently with the execution and delivery of the purchase agreements, we entered into a right of first refusal agreement under which we granted SNH a right of first refusal to purchase up to 45 additional identified other properties we own which are leased to tenants in medical related businesses in the event we determine to sell such properties or in the event of an indirect sale as a result of our change of control or a change of control of our subsidiary which owns such properties.

We and SNH are both managed by Reit Management & Research LLC and, as a result, the transactions described above were negotiated by special committees of each company's board of trustees comprised solely of independent trustees. For more information about our relationships with Reit Management & Research, LLC and SNH, please refer to our Annual Report on Form 10-K for the year ended December 31, 2007, our definitive Proxy Statement relating to the Annual Meeting of Shareholders held on June 12, 2008, as filed with the U.S. Securities and Exchange Commission on April 21, 2008, and our Current Report on Form 8-K, dated October 21, 2008. For more information about the terms of the purchase agreements, the first amendment agreement and the right of first refusal agreement between us and SNH, please read these agreements, copies of which were filed as exhibits to our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008.

Item 4. Controls and Procedures

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our Managing Trustees, President and Chief Investment Officer and Treasurer and Chief Financial Officer of the effectiveness of our disclosure controls and procedures pursuant to the Securities Exchange Act of 1934, as amended, or the Exchange Act, Rules 13a-15 and 15d-15. Based upon that evaluation, our Managing Trustees, President and Chief Investment Officer and Treasurer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2008, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 5. Other Information

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

On November 6, 2008, our Board of Trustees approved amended and restated bylaws, which reflect various revisions to our previous bylaws. The Amended and Restated Bylaws are effective as of November 6, 2008.

The changes reflected in the Amended and Restated Bylaws from our previous bylaws include, among other things:

- A number of revisions to the provisions regarding meetings of our shareholders contained in Article II, including among other things:
- Requiring any shareholder of record seeking to have shareholders request a special meeting of shareholders to provide us with additional information required by Section 2.14 of the Amended and Restated Bylaws, which includes the information required to be provided to us by shareholders seeking to nominate Trustees or propose other business at an annual meeting of shareholders, that the information required to be provided by shareholders requesting a special meeting be received by our secretary within 10 days after the date set by the Board of Trustees as the record date for determining shareholders entitled to request a special meeting of shareholders, and that the meeting date for such special

meeting not be more 60 days after that record date and, if the Board of Trustees fails to designate, within 10 days after the date that a valid request for a special meeting is actually received by the secretary, a date and time for the special meeting of shareholders, then the special meeting shall be held at 2:00 p.m. local time on the 60th day after the record date for the meeting;

- Expressly providing that notice of shareholders meetings may be made by electronic transmission;

- Eliminating the prescribed time that a notice for a shareholders meeting must be given in advance of the meeting (previously between 15 and 60 days prior to the annual meeting and effectively between not less than 10 days or more than 60 days for a special meeting);

- Eliminating any express bylaw requirement to provide notice of an adjourned shareholders meeting or for setting a new record date for an adjourned meeting;

- Expressly authorizing the chairperson of a shareholders meeting to adjourn the meeting for any reason deemed necessary by the chairperson, including if (i) no quorum is present for the transaction of the business, (ii) the Board of Trustees or the chairperson of the meeting determines that adjournment is necessary or appropriate to enable the shareholders to consider fully information that the Board of Trustees or the chairperson of the meeting determines has not been made sufficiently or timely available to shareholders or (iii) the Board of Trustees or the chairperson of the meeting determines that adjournment is otherwise in our best interests;

- Enumerating additional specific actions the chairperson of a shareholders meeting is entitled to take at the meeting for the proper conduct of the meeting, including concluding the meeting and complying with any state and local laws concerning safety and security;

- Providing that shareholders present, either in person or by proxy, at a meeting which has been duly called and convened and at which a quorum was established may continue to transact business until adjournment, notwithstanding the withdrawal of enough votes to leave less than a quorum then being present at the meeting;

- Amending the voting standard for approval of matters to be voted upon by shareholders, other than for the election of Trustees or other matters for which our Declaration of Trust, applicable law or the listing requirements of

the principal exchange on which our common shares are listed require otherwise, to require the affirmative vote of 75% of the votes entitled to be cast for each such matter unless the Board of Trustees has previously approved a matter, in which case, the vote required for approval shall be a majority of votes cast at a meeting of shareholders duly called and at which a quorum is present;

- Removing the bylaw expressly providing that the Board of Trustees may adopt by resolution a procedure by which a shareholder may certify in writing to us that any shares registered in the name of the shareholder are held for the account of a specified person other than the shareholder, resulting in the person specified in the certification being regarded as, for the purposes set forth in the certification, the shareholder of record of the specified shares;
- Removing the bylaw requirement that we deliver an annual report to shareholders at or before the annual meeting of shareholders, as we are separately subject to the reporting requirements of the Securities Exchange Act of 1934, as amended, as well as reporting requirements under Maryland law and the rules of the New York Stock Exchange (the stock exchange on which our shares are listed), which requirements obligate us to provide annual reports to our shareholders;
- Revising the procedures for submission of nominations for Trustee elections and other proposals by shareholders for consideration at an annual meeting of shareholders, including,

among other things:

- Requiring a shareholder wishing to make a nomination or proposal of other business to be a shareholder of record at the time of submitting its notice of a nomination or other proposal through and including the time of the meeting;
- Providing that the advance notice provisions in Section 2.14.1(a)(ii) are the exclusive means for a shareholder to submit such business for consideration at an annual meeting of shareholders, except to the extent of matters which are required to be presented to shareholders by applicable law which have been properly presented in accordance with the requirements of such law;
- Revising the deadline for submitting a notice of a nomination or proposal of other business for consideration at an annual meeting of our shareholders to not later than 5:00 p.m. (Eastern Time) on the 120th day nor earlier than the 150th day prior to the first anniversary of the date of our preceding year's proxy statement; and if the date of the proxy statement for the annual meeting is more than 30 days earlier than the first anniversary of the date of the proxy statement for the preceding year's annual meeting, the notice shall be delivered by not later than 5:00 p.m. (Eastern Time) on the 10th day following the earlier of the day on which (i) notice of the annual meeting is mailed or otherwise made available or (ii) public announcement (as defined in the Amended and Restated Bylaws) of the date of such meeting is first made by us; and corresponding changes were made to the deadline for nominations for Trustee elections where we increase the number of Trustees to be elected at the meeting but only with respect to nominees for any new positions created by such increase and for special meetings of shareholders if the Board of Trustees has determined that Trustees shall be elected at that special meeting;
- For purposes of our 2009 annual meeting of shareholders, the amendments provide that, to be timely, a notice shall be delivered to our secretary at our principal executive offices not later than 5:00 p.m. (Eastern Time) on January 21, 2009 nor earlier than December 22, 2008;
- Expanding the information required to be provided regarding any proposed nominee or certain associates of the proposed nominee by the proposing shareholder, including, among other things:
- Requiring information as to the proposed nominee's qualifications to be a Trustee pursuant to the criteria set forth in Section 3.1 of the Amended and Restated Bylaws;

- Requiring disclosure of any proportionate interest in our shares or instrument or arrangement of the type contemplated within the definition

- Requiring that, if the shareholder fails or is otherwise unable to promptly take such actions so as to satisfy such requirements or regulations, then the shareholder shall promptly divest a sufficient number of our shares necessary to cause the application of such requirement or regulation to not apply to us or any subsidiary of ours; and, if the shareholder fails to cause such satisfaction or divest itself of such sufficient number of our shares by not later than the 10th day after triggering such requirement or regulation, then any shares of ours beneficially owned by such shareholder at and in excess of the level triggering the application of such requirement or regulation shall, to the fullest extent permitted by law, be deemed to constitute shares held in violation of the ownership limitations set forth in Article VIII of the Amended and Restated Bylaws and be subject to the provisions of Article VIII of the Amended and Restated Bylaws and any actions triggering the application of such requirements or regulations may be deemed by us to be of no force or effect;

- Requiring that if the shareholder fails to satisfy the requirements or regulations or to take curative actions within such 10 day period, we may take all other actions which the Board of Trustees deems appropriate to require compliance or to preserve the value of our assets; and we may charge the offending shareholder for our costs and expenses as well as any damages which may result to us;
- Requiring that shareholders comply with all applicable requirements of federal and state laws, including all rules and regulations promulgated thereunder, in connection with such shareholder's ownership interest in us and all other laws which apply to us or any subsidiary of ours or their respective businesses, assets or operations and which require action or inaction on the part of the shareholder;

- Various other amendments and modifications to address various administrative matters, clarify certain provisions, eliminate certain matters already addressed in the Declaration of Trust and update some outdated provisions.

To the extent that the amendments to our bylaws, as well as the preexisting provisions of our bylaws, contain provisions which limit the ability of a shareholder to remove management or Trustees or restrict the ability to own or transfer our shares, those provisions may have anti-takeover effects.

The foregoing summary of the amendments to the existing bylaws is qualified in its entirety by reference to the text of the amendments and the Amended and Restated Bylaws. The Amended and Restated Bylaws, and a copy marked to show changes from the prior bylaws, are attached hereto as Exhibits 3.1 and 3.2, respectively, and are incorporated by reference herein.
