-

Item 7.01. Regulation FD Disclosure.

On May 25, 2011, Atlantic Power Corporation (the Company) hosted an analyst site visit and presentation at its renewable energy facility in Cadillac, Michigan. A copy of the presentation slides from that meeting is attached hereto as Exhibit 99.1 and incorporated by reference. Such slides are also posted on the Company's website at www.atlanticpower.com under Media & Events Presentations.

The information in this Item 7.01, including Exhibit 99.1, is being furnished and shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liability of that Section, nor shall such information be deemed to be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933 or the Exchange Act, except as otherwise stated in that filing.

Forward-Looking Statements

Certain statements in Exhibit 99.1 may constitute forward-looking statements, which reflect the expectations of management regarding the future growth, results of operations, performance and business prospects and opportunities of the Company and its projects. These statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, can generally be identified by the use of the words may, will, project, continue, believe, intend, anticipate, expect or similar expressions that are predictions of or indications of future events or trends and which do not relate solely to present or historical matters.

Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. Please refer to the factors discussed under Risk Factors in the Company's periodic reports as filed with the Securities and Exchange Commission from time to time for a detailed discussion of the risks and uncertainties affecting the Company.

Although the forward-looking statements contained in the exhibit are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of the presentation and, except as expressly required by applicable law, the Company assumes no obligation to update or revise them to reflect new events or circumstances.

Project Adjusted EBITDA as used in the exhibit is a non-GAAP measure. Project Adjusted EBITDA is defined as project income less interest, taxes, depreciation and amortization (including non-cash impairment charges) and changes in fair value of derivative instruments. Project Adjusted EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP and is therefore unlikely to be comparable to similar measures presented by other companies. The Company uses unaudited Project Adjusted EBITDA to provide comparative information about project performance without considering how projects are capitalized or whether they contain derivative contracts that are required to be recorded at fair value. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Item 9.01. Financial Statements and Exhibits.
