1 ORGANIZATION AND BASIS OF PRESENTATION

Organization

Home Properties, Inc. (the Company) was formed in November 1993, as a Maryland corporation and is engaged in the ownership, management, acquisition, rehabilitation and development of residential apartment communities primarily in selected Northeast and Mid-Atlantic regions of the United States. The Company completed an initial public offering of 5,408,000 shares of common stock on August 4, 1994 and is traded on the New York Stock Exchange (NYSE) under the symbol HME . The Company is included in Standard & Poor's MidCap 400 Index.

The Company conducts its business through Home Properties, L.P. (the Operating Partnership), a New York limited partnership. As of September 30, 2013, the Company owned and operated 118 apartment communities with 41,967 apartments.

The Company has elected to be taxed as a real estate investment trust (REIT) under the Internal Revenue Code of 1986, as amended, commencing with the taxable year ended December 31, 1994. As a result, the Company generally is not subject to federal or state income taxation at the corporate level to the extent it distributes annually at least 90% of its REIT taxable income to its shareholders and satisfies certain other requirements. For all periods presented, the Company distributed in excess of 100% of its taxable income; accordingly, no provision has been made for federal income taxes in the accompanying consolidated financial statements.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company and its ownership of 84.7% of the limited partnership units in the Operating Partnership (UPREIT Units) at September 30, 2013 (83.2% at December 31, 2012). The remaining 15.3% is included as noncontrolling interest in these consolidated financial statements at September 30, 2013 (16.8% at December 31, 2012). The Company periodically adjusts the carrying value of noncontrolling interest to reflect its share of the book value of the Operating Partnership. Such adjustments are recorded to additional paid in capital as a reallocation of noncontrolling interest in the accompanying consolidated statements of equity. The Company owns a 1.0% general partner interest in the Operating Partnership and the remainder indirectly as a limited partner through its wholly owned subsidiary, Home Properties I, LLC, which owns 100% of Home Properties Trust, which is the limited partner. Home Properties Trust was formed in September 1997, as a Maryland real estate trust and as a qualified REIT subsidiary (QRS), and owns the

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

Company's share of the limited partner interests in the Operating Partnership.

The accompanying consolidated financial statements include the accounts of Home Properties Resident Services, Inc. which is a wholly owned subsidiary of the Company. All significant inter-company balances and transactions have been eliminated in these consolidated financial statements.

The accompanying consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the applicable rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, certain disclosures that would accompany annual financial statements prepared in accordance with GAAP are omitted. The year-end December 31, 2012 balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. In the opinion of management, all adjustments, consisting solely of normal recurring adjustments, necessary for the fair statement of the consolidated financial statements for the interim periods have been included. The results of operations for the interim periods are not necessarily indicative of results which ultimately may be achieved for the full year. These interim consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended December 31, 2012. Certain reclassifications have been made to the 2012 financial statements to conform to the 2013 presentation as a result of discontinued operations.

2 RECENTLY ADOPTED AND RECENTLY ISSUED ACCOUNTING STANDARDS

In February 2013, the FASB issued ASU 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*, which requires an entity to present information about reclassification adjustments from accumulated other comprehensive income in their interim and annual financial statements in a single note or on the face of the financial statements. ASU 2013-02 became effective for the Company on January 1, 2013. The Company's adoption of this authoritative guidance did not have a material impact on its operating results or financial position.

3 DEVELOPMENT

Development

During the fourth quarter of 2011, the Company started construction on Eleven55 Ripley, located in Silver Spring, Maryland, consisting of two buildings, a 21 story high-rise and a 5 story mid-rise, for a total of 379 apartment units. Construction is expected to be completed in the first half of 2014 with initial occupancy in the fourth quarter of 2013. The construction in progress for this development was \$94,144 as of September 30, 2013.

During the second quarter of 2012, the Company started construction on The Courts at Spring Mill Station, located in Conshohocken, Pennsylvania, a suburb of Philadelphia. The mid-rise project, consisting of two buildings, will have a total of 385 apartment units. Construction is expected to be completed in the second half of 2014 with initial occupancy in the first quarter of 2014. The construction in progress for this development was \$36,565 as of September 30, 2013.

During the first quarter of 2013, the Company purchased a land parcel located in Tysons Corner, Virginia. The Company intends to develop approximately 694 units in a residential community on this entitled parcel for approximately \$232,000. The construction in progress for this development, consisting primarily of land value, was \$32,825 as of September 30, 2013.

Redevelopment

The Company has one project under redevelopment. Arbor Park, located in Alexandria, Virginia, has 851 garden apartments in fifty-two buildings built in 1967. The Company plans to extensively renovate all of the units over several years on a building by building basis. As of September 30, 2013, there was one building with 36 units under renovation and thirty-five buildings with 559 units completed and 528 of those units occupied. As of September 30, 2013, the Company has incurred costs of \$20,084 for the renovation which is included in buildings, improvements and equipment. The entire project is expected to be completed in 2015.

4 UNSECURED NOTES PAYABLE

Unsecured Term Loans

In December 2011, the Company entered into a five-year unsecured term loan for \$250,000 with M&T Bank as lead bank, and ten other participating lenders, which was set to mature on December 8, 2016. On August 19, 2013, the Company amended the loan agreement to extend the maturity date to August 18, 2018. No other changes were made to the terms of the unsecured term loan. The loan bears monthly interest at a variable rate based on LIBOR, plus a spread from 1.00% to 2.00% based on the Company's leverage ratio. On July 19, 2012, the Company entered into interest rate swap agreements that effectively convert the variable LIBOR portion of this loan to a fixed rate of 0.685%, as more fully described in Note 7. As of September 30, 2013, based on the Company's leverage ratio, the spread was 1.15%, and the one-month LIBOR was swapped at 0.685%; resulting in an effective rate of 1.84% for the Company. The unsecured term loan has covenants that align with the unsecured line of credit facility described in Note 5. The Company was in compliance with these financial covenants for all periods presented.

On June 28, 2013, the Company entered into an unsecured loan agreement with M&T Bank with a September 30, 2013 maturity date. The note had a maximum principal amount of \$75,000, with monthly interest at a variable rate based on LIBOR, plus a spread from 1.00% to 2.00% based on the Company's leverage ratio. On June 28, 2013, the Company borrowed \$25,000 which was repaid in its entirety on July 12, 2013. Proceeds from this term loan were utilized to partially fund the repayment of secured debt. On August 19, 2013, the loan commitment was terminated in connection with an amendment to the unsecured line of credit, as more fully described in Note 5.

Unsecured Senior Notes

In December 2011, the Company issued \$150,000 of unsecured senior notes. The notes were offered in a private placement in two series: Series A: \$90,000 with a seven-year term due December 19, 2018 at a fixed interest rate of 4.46% (Series A); and, Series B: \$60,000 with a ten-year term due December 19, 2021 at a fixed interest rate of 5.00% (Series B).

On June 27, 2012, the Company issued another private placement note in the amount of \$50,000 with a seven-year term, a fixed interest rate of 4.16% and a June 27, 2019 due date.

The unsecured senior notes are subject to various covenants and maintenance of certain financial ratios. Although the covenants of the notes do not duplicate all the covenants of the unsecured line of credit facility, any covenants applicable to both the notes and the line are identical. The Company was in compliance with these financial covenants for all periods presented.

5 UNSECURED LINE OF CREDIT

On August 19, 2013, the Company entered into a First Amendment to the Amended and Restated Credit Agreement (the "Credit Agreement"), which provides for a \$450,000 revolving credit facility with an initial maturity date of August 18, 2017 and a one-year extension at the Company's option. The Credit Agreement amended the Company's prior \$275,000 facility, which was scheduled to expire on December 8, 2015, not including a one-year extension at the Company's option. The Credit Agreement is with M&T Bank and U.S. Bank National Association as joint lead arrangers, M&T Bank as administrative agent and nine other commercial banks as participants. The Company had \$106,500 outstanding under the credit facility as of September 30, 2013. Borrowings under the line of credit bear interest at a variable rate based on LIBOR, plus a spread from 1.00% to 2.00% based on the Company's leverage ratio. As of September 30, 2013, based on the Company's leverage ratio, the spread was 1.15%, and the one-month LIBOR was 0.19%; resulting in an effective rate of 1.34% for the Company.

The Credit Agreement requires the Company to maintain certain financial ratios and measurements including a limitation on outstanding indebtedness and a minimum interest coverage ratio. The Company was in compliance with these financial covenants for all periods presented.

The Credit Agreement also provides the ability to issue up to \$20,000 in letters of credit. While the issuance of letters of credit does not increase borrowings outstanding under the line of credit, it does reduce the amount available. At September 30, 2013, the Company had outstanding letters of credit of \$5,319 and the amount available on the credit facility was \$338,181.

6 FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Instruments Carried at Fair Value

The fair value of interest rate swaps, which are more fully described in Note 7, are determined using the market standard of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rate forward curves derived from observable market interest rate curves (level 2 inputs, as defined by the authoritative guidance). The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. The Company has determined that the significant inputs used in this model are observable in active markets, therefore considers the interest rate swap asset

valuation of \$474 at September 30, 2013 classified in level 2 of the fair value hierarchy.

Financial Instruments Not Carried at Fair Value

The Company follows the authoritative guidance for fair value measurements when valuing its financial instruments for disclosure purposes. The valuation of financial instruments requires the Company to make estimates and judgments that affect the fair value of the instruments.

Cash and cash equivalents, cash in escrows, accounts receivable, other assets, accounts payable, accrued interest payable, accrued expenses and other liabilities, except for interest rate swaps, are all carried at their face amounts, which approximate their fair values due to their relatively short-term nature and high probability of realization.

6 FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Financial Instruments Not Carried at Fair Value (continued)

The Company determined the fair value of its mortgage notes payable, unsecured term loan, unsecured senior notes and unsecured line of credit facility using a discounted future cash flow technique that incorporates observable market-based inputs, including a market interest yield curve with adjustments for duration, loan to value (level 2 inputs), and risk profile (level 3 inputs). In determining the market interest yield curve, the Company considered its BBB credit rating (level 2 inputs). The Company has determined that the significant inputs used in this model are observable in active markets, therefore considers the valuation classified in level 2 of the fair value hierarchy. At September 30, 2013 and December 31, 2012, the fair value of the Company's total debt, consisting of the mortgage notes, unsecured term loans, unsecured senior notes and unsecured line of credit, amounted to a liability of \$2,555,030 and \$2,968,865, respectively, compared to its carrying amount of \$2,435,590 and \$2,777,527, respectively.

7 DERIVATIVE AND HEDGING ACTIVITIES

Risk Management Objective of Using Derivatives

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. The Company does not utilize these arrangements for trading or speculative purposes.

Cash Flow Hedges of Interest Rate Risk

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

On July 19, 2012, the Company entered into interest rate swap agreements that effectively convert the one-month LIBOR portion of a \$250,000 five-year variable rate unsecured term loan, due on December 8, 2016, from a variable rate of one-month LIBOR plus a spread of 1.00% to 2.00% based on the Company's leverage ratio to a fixed rate of 0.685% plus the applicable spread. As further described in Note 4, the \$250,000 unsecured term loan was amended to extend the maturity date to August 18, 2018. The Company has not entered into any additional interest rate swap agreements for the period of December 9, 2016 through August 18, 2018.

As of September 30, 2013, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk:

<u>Interest Rate Derivative</u>	<u>Notional Amount</u>	<u>Fixed Interest Rate</u>	<u>Variable Interest Rate</u>	<u>Maturity Date</u>
Interest rate swap	\$150,000	0.6800%	One-month LIBOR	December 8, 2016
Interest rate swap	\$100,000	0.6925%	One-month LIBOR	December 8, 2016

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the balance sheets as of September 30, 2013 and December 31, 2012:

	Fair Value of Derivative Instruments					
	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Fair Value at 9/30/2013	Fair Value at 12/31/2012	Balance Sheet Location	Fair Value at 9/30/2013	Fair Value at 12/31/2012

7 DERIVATIVE AND HEDGING ACTIVITIES (continued)*Cash Flow Hedges of Interest Rate Risk (continued)*

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges are recorded in accumulated other comprehensive income and are subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During 2013 and 2012, such derivatives were used to hedge the variable cash flows associated with certain variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the three and nine months ended September 30, 2013 and 2012, the Company did not record any hedge ineffectiveness.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. The Company estimates that an additional \$1,112 will be reclassified from accumulated other comprehensive income as an increase to interest expense over the next twelve months.

The table below details the location in the financial statements of the gain or loss recognized on interest rate derivatives designated as cash flow hedges for the three and nine months ended September 30, 2013 and 2012, respectively:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	<u>2013</u>	<u>2012</u>	<u>2013</u>	<u>2012</u>
Amount of gain (loss) recognized in accumulated other comprehensive income on interest rate derivatives (effective portion)	\$ (1,519)	\$ (1,616)	\$ 923	\$ (1,616)
Amount of gain (loss) reclassified from accumulated other comprehensive income into income as interest expense (effective portion)	\$ (300)	\$ (148)	\$ (847)	\$ (148)
Amount of gain (loss) recognized in income on derivative (ineffective portion and amount excluded from effectiveness testing)	\$ -	\$ -	\$ -	\$ -

Disclosure of Offsetting Derivatives

As of September 30, 2013 and December 31, 2012, the gross amount of derivative assets classified on the balance sheet in other assets was \$474 and \$0, respectively. As of September 30, 2013 and December 31, 2012, the gross amount of derivative liabilities classified on the balance sheet in accrued expenses and other liabilities was \$0 and \$1,296, respectively. The Company does not have any derivative instruments offset on the balance sheet or subject to master netting arrangements or similar agreements.

Credit-risk-related Contingent Features

The Company is exposed to credit risk in the event of non-performance by the counterparties to the swaps. The Company minimizes this risk exposure by limiting counterparties to major banks who meet established credit and capital guidelines.

The Company has agreements with each of its derivative counterparties that provide, among other defaults, that if the Company defaults on indebtedness having an aggregate principal amount in excess of \$20,000, including default where repayment of the indebtedness has not been accelerated by the lender, the counterparty could declare the Company in default on its derivative obligations.

As of September 30, 2013, the Company had no derivatives in a net liability position, has not posted any collateral related to these agreements and was not in breach of any agreement provisions.

8 STOCKHOLDERS EQUITY*At-The-Market Equity Offering Programs*

On September 17, 2010, the Company initiated an At-The-Market (ATM) equity offering program through which it was authorized to sell up to 3,600,000 shares of common stock from time to time in ATM offerings or negotiated transactions. There were no shares issued from this program during 2010 or during the fourth quarter of 2011. The following summarizes issuances of common stock from this program since inception through the completion of the program on May 11, 2012:

8 STOCKHOLDERS EQUITY (continued)

Public Equity Offering Program

On July 9, 2013, the Company issued a prospectus supplement offering 4,427,500 shares of its common stock at a price of \$63.00 per share, including 577,500 shares issued pursuant to the exercise in full of an underwriters' option to purchase additional shares. Net proceeds were \$267,633 after underwriting discounts, commissions and offering expenses and were used to pay off outstanding indebtedness. All of the 4,427,500 shares offered were purchased and subsequently delivered on July 12, 2013.

Dividends and Distributions

On August 23, 2013, the Company paid a dividend in the amount of \$0.70 per share of common stock to stockholders of record and a distribution of \$0.70 per UPREIT Unit to unitholders of record as of the close of business on August 13, 2013.

Stock-based Compensation

The Company's Board of Directors has approved a performance-based equity program for administering awards under the Company's 2011 Stock Benefit Plan for the executive officers (the "2011 Executive Performance-Based Equity Program"). It is a subplan of the 2011 Stock Benefit Plan, approved by the stockholders at their 2011 Annual Meeting. On January 2, 2013, awards in connection with the 2011 Executive Performance-Based Equity Program, with an estimated fair value of \$3,653, were granted to executive officers of the Company. Awards are in the form of restricted stock units with a service condition and three market conditions. The measurement period for these awards began on January 1, 2013 and will end on December 31, 2015. Expense attributed to the awards will be recognized based on the underlying vesting conditions of the awards, which substantially vest during the measurement period, taking into account retirement eligibility. During the three and nine months ended September 30, 2013, the Company recognized stock-based compensation expense of \$170 and \$2,988, respectively, for the January 2, 2013 awards.

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

On May 7, 2013, the Company granted awards of stock options and restricted stock under the 2011 Plan. Stock options and restricted stock with an estimated fair value of \$492 and \$2,312 respectively, were granted to eligible employees of the Company and restricted stock with an estimated fair value of \$500 was granted to directors. The Company recognizes stock-based compensation cost as expense ratably on a straight-line basis over the requisite service period. In determining the service period, the Company considers service requirements, the vesting period and retirement eligibility of the grantee. During the three and nine months ended September 30, 2013, the Company recognized stock-based compensation expense of \$27 and \$105 related to the May 7, 2013 stock options, respectively. During the three and nine months ended September 30, 2013, the Company recognized stock-based compensation expense of \$185 and \$519 related to the May 7, 2013 restricted stock grants, respectively.

Earnings Per Share

Basic earnings per share (EPS) is computed as net income attributable to common stockholders divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock-based compensation (using the treasury stock method). The exchange of an UPREIT Unit for a share of common stock has no effect on diluted EPS as unitholders and stockholders effectively share equally in the net income of the Operating Partnership.

9 SEGMENT REPORTING

The Company is engaged in the ownership and management of market rate apartment communities. Each apartment community is considered a separate operating segment. Each segment on a standalone basis is less than 10% of the revenues, net operating income and assets of the combined reported operating segment and meets a majority of the aggregation criteria under authoritative guidance. The operating segments are aggregated as Core and Non-core properties.

Non-segment revenue to reconcile to total revenue consists of other income. Non-segment assets to reconcile to total assets consists of cash and cash equivalents, cash in escrows, accounts receivable, prepaid expenses, deferred charges and other assets.

Core properties consist of apartment communities which have been owned more than one full calendar year. Therefore, the Core properties represent communities owned as of January 1, 2012. Non-core properties consist of apartment communities acquired, developed or redeveloped during 2012 and 2013, such that comparable operating results are not available.

The Company assesses and measures segment operating results based on a performance measure referred to as net operating income. Net operating income is defined as total revenues less operating and maintenance expenses. The accounting policies of the segments are the same as those described in Notes 1, 2 and 3 to the Consolidated Financial Statements contained in the Company's Form 10-K for the year ended December 31, 2012.

The revenues and net operating income for each of the reportable segments are summarized as follows for the three and nine months ended September 30, 2013 and 2012:

10 DISPOSITION OF PROPERTY AND DISCONTINUED OPERATIONS

The Company reports its property dispositions as discontinued operations as prescribed by the authoritative guidance. Pursuant to the definition of a component of an entity, assuming no significant continuing involvement by the former owner after the sale, the sale of an apartment community is considered a discontinued operation. In addition, apartment communities classified as held for sale are also considered discontinued operations. The Company generally considers assets to be held for sale when all significant contingencies surrounding the closing have been resolved, which often corresponds with the actual closing date.

Included in discontinued operations for the three and nine months ended September 30, 2013 are the operating results of three apartment communities sold in separate transactions during the nine months ended September 30, 2013 (the 2013 Disposed Communities). Included in discontinued operations for the three and nine months ended September 30, 2012 are the operating results of six apartment communities sold in separate transactions during the year ended December 31, 2012 (2012 Disposed Communities) and the 2013 Disposed Communities. For purposes of the discontinued operations presentation, the Company only includes interest expense and losses from early extinguishment of debt associated with specific mortgage indebtedness of the properties that are sold or held for sale.

A summary of 2013 community dispositions is as follows:

<u>Apartment Community</u>	<u>Region</u>	<u>Date Sold</u>	Number of <u>Units</u>	<u>Sales Price</u>	<u>Gain on Sale</u>

11 COMMITMENTS AND CONTINGENCIES

Letters of Credit

As of September 30, 2013, the Company had issued \$5,319 in letters of credit, which were provided under the Company's \$450,000 unsecured Credit Agreement. The letters of credit were required to be issued under certain construction projects, workers' compensation and health insurance policies.

Debt Covenants

The unsecured notes payable and unsecured Credit Agreement require the Company to maintain certain financial ratios and measurements including a limitation on outstanding indebtedness and a minimum interest coverage ratio. The Company was in compliance with these financial ratios for all periods presented.

Included in the Company's consolidated balance sheet at September 30, 2013 and December 31, 2012 are assets of its subsidiary Home Properties Fair Oaks, LLC, owner of The Courts at Fair Oaks, Fairfax County, VA, that are pledged as collateral for specific indebtedness and are not available to satisfy any other obligations of the Company.

Tax Protection Obligations

In connection with various UPREIT transactions, the Company agreed to maintain certain levels of nonrecourse debt for a period of 7 to 10 years associated with the contributed properties acquired. In addition, the Company restricted its ability to sell certain contributed properties (8% of the owned portfolio at September 30, 2013) for a contract period of 7 to 10 years except through a tax deferred Internal Revenue Code Section 1031 like-kind exchange. The remaining terms on the levels of nonrecourse debt and sale restrictions range from 4 months to 3.75 years.

Limited Partnership

For periods before October 13, 2010, the Company, through its general partnership interest in an affordable property limited partnership, had guaranteed certain low income housing tax credits to limited partners in this partnership through 2015 totaling approximately \$3,000. The Company's general partner interest in this entity was sold on October 13, 2010. The tax credit guarantee was reduced to a \$3,000 secondary guarantee. As of September 30, 2013, there were no known conditions that would make such payments necessary relating to the secondary tax credit guarantee; therefore, no liability has been recorded in the financial statements.

Contingencies

The Company is not a party to any legal proceedings that are expected to have a material adverse effect on the Company's liquidity, financial position or results of operations. The Company is subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by liability insurance. Various claims of employment and resident discrimination are also periodically brought, most of which also are covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the accompanying consolidated financial statements and notes thereto.

Forward-Looking Statements

This discussion contains forward-looking statements. Historical results and percentage relationships set forth in the consolidated financial statements, including trends which might appear, should not be taken as indicative of future operations. The Company considers portions of the information to be forward-looking statements within the meaning of Section 27A of the Securities Exchange Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, with respect to the Company's expectations for future periods. Some examples of forward-looking statements include statements related to acquisitions (including any related pro forma financial information), future capital expenditures, potential development and redevelopment opportunities, projected costs and rental rates for development and redevelopment projects, financing sources and availability, and the effects of environmental and other regulations. Although the Company believes that the expectations reflected in those forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. Factors that may cause actual results to differ include general economic and local real estate conditions, the weather and other conditions that might affect operating expenses, the timely completion of repositioning activities and development within anticipated budgets, the actual pace of future development, acquisitions and sales, and continued access to capital to fund growth. For this purpose, any statements contained in this Form 10-Q that are not statements of historical fact should be considered to be forward-looking statements. Some of the words used to identify forward-looking statements include believes, anticipates, plans, expects, seeks, estimates, intends, and any other similar expressions. Readers should exercise caution in interpreting and relying on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond the Company's control and could materially affect the Company's actual results, performance or achievements.

Liquidity and Capital Resources

General

The Company's principal liquidity demands are expected to be distributions to the common stockholders and holders of UPREIT Units, capital improvements and repairs and maintenance for its properties, acquisition and development of additional properties and debt repayments. The Company may also acquire equity ownership in other public or private companies that own and manage portfolios of apartment communities.

The Company intends to meet its short-term liquidity requirements through net cash flows provided by operating activities and its existing bank unsecured line of credit, described below. The Company considers its ability to generate cash to be adequate to meet all operating requirements, including availability to pay dividends to its stockholders and make distributions to its Unit holders in accordance with the provisions of the Internal Revenue Code, as amended, applicable to REITs.

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

To the extent that the Company does not satisfy its short-term liquidity requirements through net cash flows provided by operating activities and its existing bank unsecured line of credit, it intends to satisfy such requirements through proceeds from the sale of properties, from the issuance of unsecured senior notes and from the issuance of its common stock through its equity offering programs, described below.

In 2000, the Company obtained an investment grade rating from Fitch, Inc. The rating in effect at September 30, 2013 is a corporate credit rating of BBB (Triple B), which was reaffirmed on June 25, 2013.

Cash Flow Summary

The Company's cash flow activities for the nine months ended September 30, 2013 and 2012, respectively, are summarized as follows (in millions):

	<u>2013</u>	<u>2012</u>
Net cash provided by operating activities	\$ 220	\$ 198
Net cash used in investing activities	(62)	(450)
Net cash provided by (used in) financing activities	(167)	252

The Company's net cash flow from operating activities was \$220 million in the first nine months of 2013 compared to \$198 million in the first nine months of 2012. The \$22 million increase was primarily due to more profitable operations and the full period impact of properties acquired during 2012, as more fully described under the heading "Results of Operations" below.

Cash used in investing activities was \$62 million during 2013. Cash used in investing activities was \$450 million in 2012. The cash outflow for a purchase of a land parcel for development was \$28 million in 2013 including predevelopment and closing costs of \$1 million, which is further described under the heading "Development" below. Cash outflows for capital improvements to properties including redevelopment were \$108 million in 2013 compared to \$121 million in 2012. The investments in both periods reflect management's strategy to continually reposition and perform selective rehabilitation in markets that are able to support rent increases. Cash outflows for additions to construction in progress were \$48 million in 2013 for on-going construction activities at Eleven55 Ripley, The Courts at Spring Mill Station, and a land parcel located in Tysons Corner, Virginia as compared to \$39 million in 2012 for The Apartments at Cobblestone Square, Eleven55 Ripley, and The Courts at Spring Mill Station. Proceeds from the disposition of properties during 2013 were \$121 million. Proceeds from the disposition of properties during the third quarter 2012 were held in escrow as of September 30, 2012 pending the completion of a tax-free exchange. Current year dispositions are further described under the heading "Dispositions" below. During 2012, the Company had cash outflows of \$290 million for the purchase of three properties with a total 2,018 units.

Net cash used in financing activities totaled \$167 million in 2013. Cash flows from the sale of common stock under the public offering of \$268 million, the ATM offerings of \$28 million and proceeds from stock option exercises of \$16 million combined with proceeds from unsecured notes payable of \$25 million during the period were used for payoff of mortgages of \$260 million, scheduled payments of mortgages of \$26 million, repayment on the line of credit of \$56 million, repayment of unsecured notes payable of \$25 million and distributions paid to stockholders and UPREIT unitholders of \$135 million. Net cash provided by financing activities totaled \$252 million in 2012. Cash flows from the sale of common stock under the ATM offerings of \$144 million and proceeds from stock option exercises of \$16 million combined with line of credit proceeds of \$126 million and proceeds from unsecured notes payable of \$150 million during the period were used for payoff of mortgages of \$33 million, scheduled payments of mortgages of \$27 million, and distributions paid to stockholders and UPREIT unitholders of \$118 million.

Unsecured Line of Credit

As of September 30, 2013, the Company had a \$450 million unsecured line of credit agreement with M&T Bank and U.S. Bank National Association, as joint lead banks, and nine other participating commercial banks, with an initial maturity date of August 18, 2017 and a one-year extension at the Company's option. The Company had \$106.5 million outstanding under the credit facility as of September 30, 2013. The line of credit agreement provides the ability to issue up to \$20 million in letters of credit. While the issuance of letters of credit does not increase the borrowings outstanding under the line of credit, it does reduce the amount available. At September 30, 2013, the Company had outstanding letters of credit of \$5.3 million resulting in the amount available on the credit facility of \$338.2 million. Borrowings under the line of credit bear interest at a variable rate based on LIBOR, plus a spread from 1.00% to 2.00% based on the Company's leverage ratio. As of September 30, 2013, based on the Company's leverage ratio, the spread was 1.15%, and the one-month LIBOR was 0.19%; resulting in an effective rate of 1.34% for the Company.

Unsecured Line of Credit (continued)

The unsecured line of credit has not been used for long-term financing but adds a certain amount of flexibility, especially in meeting the Company's acquisition goals. Many times it is easier to temporarily finance an acquisition, development or stock repurchases by short-term use of the line of credit, with long-term secured and unsecured financing or other sources of capital replenishing the line of credit availability.

Unsecured Term Loans

On December 9, 2011, the Company entered into a \$250 million five-year unsecured term loan with M&T Bank as lead bank, and ten other participating lenders. The term loan generated net proceeds of \$248 million, after fees and closing costs, which were used to pay off an unsecured term loan, purchase an unencumbered property and acquire land for future development. The loan bears monthly interest at a variable rate based on LIBOR, plus a spread from 1.00% to 2.00% based on the Company's leverage ratio. On July 19, 2012, the Company entered into interest rate swap agreements with major financial institutions that effectively convert the variable LIBOR portion of this loan to a fixed rate of 0.685% through December 8, 2016. As of September 30, 2013, based on the Company's leverage ratio, the spread was 1.15%, and the swapped one-month LIBOR was 0.685%; resulting in an effective rate of 1.84% for the Company. On August 19, 2013, the Company amended the term loan agreement to extend the maturity date to August 18, 2018. No other changes were made to the terms of the unsecured term loan. The Company has not entered into any additional interest rate swap agreements for the period of December 9, 2016 through August 18, 2018, although may do so in the future. The loan has covenants that align with the unsecured line of credit facility.

On June 28, 2013, the Company entered into an unsecured loan agreement with M&T Bank with a September 30, 2013 maturity date. The note had a maximum principal amount of \$75 million with monthly interest at a variable rate based on LIBOR, plus a spread from 1.00% to 2.00% based on the Company's leverage ratio. On June 28, 2013, the Company borrowed \$25 million which was repaid in its entirety on July 12, 2013. Proceeds from this term loan were utilized to partially fund the repayment of secured debt. On August 19, 2013, the loan commitment was terminated in connection with an amendment to the unsecured line of credit, as more fully described in Note 5 to Consolidated Financial Statements of this Form 10-Q.

Unsecured Senior Notes

On December 19, 2011, the Company issued \$150 million of unsecured senior notes. The notes were offered in a private placement in two series: Series A: \$90 million with a seven-year term due December 19, 2018 at a fixed interest rate of 4.46% (Series A); and, Series B: \$60 million with a ten-year term due December 19, 2021 at a fixed interest rate of 5.00% (Series B). The net proceeds of \$89 million and \$60 million for Series A and Series B, respectively, after fees and closing costs, were used to purchase an unencumbered property and pay off a maturing mortgage note. The notes require semiannual interest payments on June 19 and December 19 of each year until maturity and are subject to various covenants and maintenance of certain financial ratios. Although the covenants of the notes do not duplicate all the covenants of the unsecured line of credit facility, any covenants applicable to both the notes and the line are identical.

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

On June 27, 2012, the Company issued a private placement note in the amount of \$50 million with a seven-year term, a fixed interest rate of 4.16% and a June 27, 2019 due date. The note requires semiannual interest payments on June 27 and December 27 of each year until maturity and is subject to various covenants and maintenance of certain financial ratios. Although the covenants of the note do not duplicate all the covenants of the unsecured line of credit facility, any covenants applicable to both the note and the line are identical.

Indebtedness

As of September 30, 2013, the weighted average interest rate on the Company's total indebtedness of \$2.4 billion was 4.54% with staggered maturities ranging from 6 months to 15.3 years and averaging approximately 4.7 years. Approximately 91% of total indebtedness is at fixed rates, including the \$250 million unsecured term loan subject to interest rate swap agreements. This limits the exposure to changes in interest rates, minimizing the effect of interest rate fluctuations on the Company's results of operations and cash flows.

Unencumbered Assets

The value of the unencumbered asset pool (as calculated pursuant to the covenants of the line of credit agreement) was increased to 46% as of September 30, 2013 compared to 38% at the end of 2012. Higher levels of unsecured assets add borrowing flexibility because more capacity is available for unsecured debt under the terms of the Company's unsecured line of credit agreement, and/or for the issuance of additional unsecured senior notes. It also permits the Company to place secured financing on unencumbered assets if desired.

UPREIT Units

The Company believes that the issuance of UPREIT Units for property acquisitions will continue to be a potential source of capital for the Company. During 2012 and continuing through September 30, 2013, there were no UPREIT Units issued for property acquisitions.

Universal Shelf Registration

On February 28, 2013, the Company filed a Form S-3 universal shelf registration statement with the SEC that registers the issuance, from time to time, of common stock, preferred stock or debt securities. The Company may offer and sell securities issued pursuant to the universal shelf registration statement after a prospectus supplement, describing the type of security and amount being offered, is filed with the SEC. Sales of common stock under the Company's equity offerings on or after February 28, 2013 described below were made under this registration statement.

On March 3, 2010, the Company filed a Form S-3 universal shelf registration statement with the SEC having substantially the same provisions and purposes as the February 2013 registration statement. The registration statement was set to expire in March 2013. Sales of common stock under the Company's equity offerings from September 2010 to February 27, 2013 as described below were made under this registration statement.

At-the-Market Equity Offering Programs

On September 17, 2010, the Company initiated an At-the-Market (ATM) equity offering program through which it was authorized to sell up to 3.6 million shares of common stock from time to time in ATM offerings or negotiated transactions. From September 2010 through completion of the offering in May 2012, the Company issued 3.6 million shares of common stock at an average price per share of \$60.71, for aggregate gross proceeds of \$218.5 million and aggregate net proceeds of \$214.0 million after deducting commissions and other transaction costs of \$4.5 million.

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

On May 14, 2012, the Company filed a prospectus supplement with respect to another ATM equity offering program, with similar terms and conditions as the September 2010 program, through which it is authorized to sell up to 4.4 million shares of common stock, from time to time in ATM offerings or negotiated transactions. As of September 30, 2013, the Company issued 2,430,233 shares of common stock at an average price per share of \$62.81, for aggregate gross proceeds of \$152.6 million and aggregate net proceeds of \$149.4 million after deducting commissions and other transaction costs of \$3.2 million and approximately 2.0 million shares remain available.

The Company used the net proceeds from the ATM offerings primarily for general corporate purposes including acquisitions, development and redevelopment of apartment communities.

Public Equity Offering Program

On July 9, 2013, the Company issued a prospectus supplement offering 4.4 million shares of its common stock at a price of \$63.00 per share, including 0.6 million shares issued pursuant to the exercise in full of an underwriters' option to purchase additional shares. Net proceeds were \$267.6 million after underwriting discounts, commissions and offering expenses. All of the 4.4 million shares offered were purchased and subsequently delivered on July 12, 2013. The net proceeds were used to pay off outstanding indebtedness.

Dividend Reinvestment and Direct Stock Purchase Plan (DRIP)

The Company's DRIP provides the stockholders of the Company an opportunity to automatically invest their cash dividends in additional shares of common stock. In addition, eligible participants may make monthly payments or other voluntary cash investments in shares of common stock. The maximum monthly investment permitted without prior Company approval is currently \$10,000. The Company can meet share demand under the DRIP through stock repurchases by the transfer agent in the open market on the Company's behalf or new stock issuances. Management monitors the relationship between the Company's stock price and its estimated net asset value (NAV). During times when the difference between these two values is small, resulting in little dilution of NAV by common stock issuances, the Company can choose to issue new shares. At times when the gap between NAV and stock price is greater, the Company has the flexibility to satisfy the demand for DRIP shares with stock repurchased by the transfer agent in the open market. In addition, the Company can issue waivers to DRIP participants to provide for investments in excess of the \$10,000 maximum monthly investment. No such waivers were granted during 2012 or 2013.

Stock Repurchase Program

The Company has a stock repurchase program, approved by its Board of Directors (the Board), under which it may repurchase shares of its common stock or UPREIT Units (the Company Program). The shares and units may be repurchased through open market or privately negotiated transactions at the discretion of Company management. The Board's action did not establish a target stock price or a specific timetable for repurchase. There were no repurchases under the Company Program during 2012 and through September 30, 2013. The remaining authorization level as of September 30, 2013 is 2.3 million shares and UPREIT Units, collectively. The Company will continue to monitor stock prices relative to the NAV to determine the current best use of capital among our major uses of capital: stock buybacks, debt paydown to increase the pool of unencumbered properties, acquisitions, rehabilitation and redevelopment of existing properties and development of new properties.

Dispositions

On March 14, 2013, the Company sold an apartment community located in the Long Island region with a total of 61 units for \$11.1 million. A gain on sale of \$5.2 million was recorded in the first quarter of 2013 related to this sale.

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

On March 29, 2013, the Company sold an apartment community located in the Washington, D.C. region with a total of 450 units for \$98.0 million. A gain on sale of \$35.2 million was recorded in the first quarter of 2013 related to this sale. An additional gain of \$1.35 million, which was deferred at March 31, 2013 pending certain approvals, was recorded in the second quarter of 2013 upon obtaining of the approvals and the release of the proceeds held in escrow, for a total gain of \$36.5 million.

On April 10, 2013, the Company sold an apartment community located in the Philadelphia region with a total of 158 units for \$15.0 million. A gain on sale of \$3.3 million was recorded in the second quarter of 2013 related to this sale.

On October 15, 2013, the Company sold a property located in the Washington, D.C. region with a total of 344 units for \$68.0 million. A gain on sale of approximately \$36.0 million will be recorded in the fourth quarter of 2013 related to this sale.

Development

Current Development Projects

Eleven55 Ripley, a 379 unit high rise development consisting of two buildings, a 21 story high-rise and a 5 story mid-rise, is located in Silver Spring, Maryland. Construction commenced in the fourth quarter of 2011, and is expected to continue through mid-2014 with initial occupancy in the fourth quarter of 2013. The construction in progress for this development was \$94.1 million as of September 30, 2013 and the total estimated cost is \$111 million.

The Courts at Spring Mill Station, a 385 unit development consisting of two buildings, being built in a combination donut/podium style, is located in Conshohocken, Pennsylvania. Construction commenced in the second quarter of 2012, and is expected to continue through 2014 with initial occupancy in the first quarter of 2014. The construction in progress for this development was \$36.6 million as of September 30, 2013 and the total estimated cost is \$89 million.

During the first quarter of 2013, the Company purchased a land parcel located in Tysons Corner, Virginia within a development known as Arbor Row. This project, referred to as Westpark Tysons, involves development in two phases of a residential community with wood-framed mid-rise and concrete high-rise buildings containing a combined 694 units with a total projected cost of \$232 million. The construction in progress for this development, consisting primarily of land value, was \$32.8 million as of September 30, 2013.

Redevelopment

The Company has one project under redevelopment. Arbor Park, located in Alexandria, Virginia, has 851 garden apartments in fifty-two buildings built in 1967. The Company plans to extensively renovate all of the units over several years on a building by building basis. As of September 30, 2013, there was one building with 36 units under renovation and thirty-six buildings with 559 units completed and 528 units occupied. As of September 30, 2013, rents in the renovated units were averaging \$1,681 compared to \$1,374 for the existing non-renovated units. The Company has incurred costs of \$20 million for the renovation as of September 30, 2013, which is included in buildings, improvements and equipment. The entire project is expected to be completed in 2015 for a total estimated cost of \$30 million.

Contractual Obligations and Other Commitments

The primary obligations of the Company relate to its borrowings under the unsecured line of credit, unsecured notes and mortgage notes. The Company's line of credit matures in August 2017 (not including a one-year extension at the option of the Company), and had \$107 million in loans and letters of credit totaling \$5.3 million outstanding at September 30, 2013. The \$450 million in unsecured notes have maturities ranging from 5.2 years to 8.2 years. The \$1.9 billion in mortgage notes payable have varying maturities ranging from 6 months to 15.3 years. The weighted average interest rate of the Company's secured debt was 5.08% at September 30, 2013. The weighted average rate of interest on the Company's total indebtedness of \$2.4 billion at September 30, 2013 was 4.54%.

The Company leases its corporate and regional office space from non-affiliated third parties. The rent for the corporate office space is a gross rent that includes real estate taxes and common area maintenance. The regional office leases are net leases which require an annual base rent plus a pro-rata portion of real estate taxes.

The Company has a secondary guarantee through 2015 on certain low income housing tax credits to limited partners in a partnership in which it previously was a general partner totaling approximately \$3 million. With respect to the guarantee of the low income housing tax credits, the new unrelated general partner assumed operating deficit guarantee and primary tax credit guarantee positions. The Company believes the property's operations conform to the applicable requirements and does not anticipate any payment on the guarantee; therefore, no liability has been recorded in the financial statements.

Table of Contents

Capital Improvements (dollars in thousands, except unit and per unit data)

The Company's policy is to capitalize costs related to the acquisition, development, rehabilitation, construction and improvement of properties. Capital improvements are costs that increase the value and extend the useful life of an asset. Ordinary repair and maintenance costs that do not extend the useful life of the asset are expensed as incurred. Costs incurred on a lease turnover due to normal wear and tear by the resident are expensed on the turn. Recurring capital improvements typically include appliances, carpeting and flooring, HVAC equipment, kitchen and bath cabinets, new roofs, site improvements and various exterior building improvements. Non-recurring revenue generating upgrades include community centers, new windows, and kitchen and bath apartment upgrades. Revenue generating capital improvements are expected to directly result in increased rental earnings or expense savings. The Company capitalizes interest and certain internal personnel costs related to the communities under rehabilitation and construction.

The Company estimates, that on an annual basis, \$848 per apartment unit is spent on recurring capital expenditures. During the three months ended September 30, 2013 and 2012, approximately \$212 per apartment unit was estimated to be spent on recurring capital expenditures. For the nine months ended September 30, 2013 and 2012, approximately \$636 per apartment unit was estimated to be spent on recurring capital expenditures.

Results of Operations (dollars in thousands, except unit and per unit data)

Net operating income (NOI) falls within the definition of non-GAAP financial measure set forth in Item 10(e) of Regulation S-K and, as a result, the Company is required to include in this report a statement disclosing the reasons why management believes that presentation of this measure provides useful information to investors. The Company believes that NOI is helpful to investors as a supplemental measure of the operating performance of a real estate company because it is a direct measure of the actual operating results of the Company's apartment communities. In addition, the apartment communities are valued and sold in the market by using a multiple of NOI. The Company uses this measure to compare its performance to that of its peer group. For a reconciliation of NOI to income from continuing operations, please refer to Note 9 to Consolidated Financial Statements of this Form 10-Q.

Summary of Core Properties

The Company had 113 apartment communities with 38,784 units which were owned during the three and nine months ended September 30, 2013 and 2012 (the Core Properties). The Company has one property with 851 units undergoing significant renovations that began in 2011; therefore, the operating results for 2013 are not comparable to 2012 due to those units being taken out of service during the redevelopment period (the Redevelopment Property). The Company acquired three apartment communities with 2,018 units and had another 314 units become available to rent at one development community during 2012 (the Acquisition Communities). The inclusion of these acquired and developed communities generally accounted for the significant changes in operating results for the three and nine months ended September 30, 2013 as compared to the operating results for the three and nine months ended September 30, 2012.

A summary of the net operating income for Core Properties is as follows:

Results of Operations (continued)

Comparison of three months ended September 30, 2013 to the same period in 2012

Of the \$4,538 increase in rental income, \$536 is attributable to the Acquisition Communities and \$371 is attributable to the Redevelopment Property. The balance, an increase of \$3,631, relates to a 2.6% increase from the Core Properties as the result of an increase of 3.2% in weighted average rental rates from \$1,265 to \$1,306 per apartment unit, partially offset by a 0.6% decrease in economic occupancy from 94.4% to 93.8%. Economic occupancy is defined as total possible rental income, net of vacancy and bad debt expense, as a percentage of total possible rental income. Total possible rental income is determined by valuing occupied units at contract rents and vacant units at market rents. Of the \$7 increase in utility recovery revenue, \$36 is attributable to the Acquisition Communities and Redevelopment Property, partially offset by a \$29 decrease to the Core Properties.

Property other income, which consists primarily of income from operation of laundry facilities, late charges, administrative fees, garage and carport rentals, revenue from corporate apartments, cable revenue, pet charges, and miscellaneous charges to residents, increased by \$328. Of the increase, \$310 is attributable to the Core Properties, and \$18 is attributable to the Acquisition Communities and Redevelopment Property. The increase in Core Properties is primarily from increases in laundry, cable revenue, renters insurance fees, pet charges, corporate rent, damages, remarketing fees, and other miscellaneous charges.

Of the \$1,129 increase in operating and maintenance expenses, \$353 is attributable to the Acquisition Communities and Redevelopment Property and \$776 is attributable to the Core Properties. The increase in Core Properties is primarily due to increases in personnel expense, property insurance and real estate taxes, partially offset by lower repairs and maintenance costs.

Repairs and maintenance expenses were down \$1,002, or 10.7%, from 2012 due to expected proceeds from an insurance claim exceeding the cost basis of destroyed assets, related to a significant fire of \$1,227. Without the impact of these amounts related to the significant fire, repairs and maintenance increased \$225, or 2.4%.

Personnel costs increased \$710, or 5.9%, primarily due to the favorable impact in 2012 of \$500 in reductions to health insurance and workers compensation insurance costs. The reduction in costs were driven by the success of the Company's safety in the workplace initiatives and settlement of prior year claims earlier in their life cycle, compared to a reduction of \$180 for 2013. Without the impacts of the favorable insurance reserve reductions, personnel costs increased \$390, or 3.1%, reflecting the annual wage increase.

Property insurance increased \$720, or 44.4%, due mainly to higher property losses of \$1,023 in 2013, primarily from a July 2013 significant fire at one of the Company's communities, partially offset by \$420 lower general liability expense in 2013 reflecting favorable close-outs of prior year self insured claims. Without the impact of these major items, insurance increased \$117, or 7.2%.

Real estate taxes increased \$420, or 2.9%, primarily due to annual tax assessment increases, some of which are triggered by our investments in apartment upgrades and repositioning. If not for successful tax assessment challenges and tax incentive programs which resulted in savings of

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

\$608 and \$288 in 2013 and 2012, respectively, property taxes increased \$740, or 5.0%. The Company continues to challenge tax assessments on existing properties and apply for tax incentive programs for newly developed properties where appropriate.

General and administrative expenses decreased in 2013 by \$1,866, or 23.3%. General and administrative expenses as a percentage of total revenues were 3.7% for 2013 as compared to 4.7% for 2012. The 2012 costs included \$1,580 in connection with the departure of an executive and represent acceleration of previously granted stock-based compensation as well as payments for salary continuation. Current quarter stock-based compensation costs were \$325 lower than the same period of 2012 due primarily to the restricted stock grants and stock option grants to non-executives (which are granted in the second quarter of each period) at or near official retirement age resulting in these grants being expensed immediately, or one year less based on age. All other general and administrative costs were up \$39 compared to 2012.

Results of Operations (continued)

Interest expense decreased by \$3,713, or 11.6%, in 2013 primarily as a result of paying off \$230,000 in maturing loans on several Core Properties over the past year and only one 2012 Acquisition Community acquired with assumed secured mortgage debt of \$7,284. Refer to the information under the heading Liquidity and Capital Resources above for specific discussion of debt transactions impacting the average rate and overall interest expense.

Depreciation and amortization expense increased \$2,285, or 5.5%, due to the depreciation on the Acquisition Communities and the capital additions to the Core Properties and Redevelopment Property.

Other expenses of \$16 in 2013 and \$15 in 2012 are property acquisition costs of the Acquisition Communities.

Comparison of nine months ended September 30, 2013 to the same period in 2012

Of the \$28,555 increase in rental income, \$14,079 is attributable to the Acquisition Communities and \$704 is attributable to the Redevelopment Property. The balance, an increase of \$13,772, relates to a 3.3% increase from the Core Properties as the result of an increase of 3.3% in weighted average rental rates from \$1,249 to \$1,291 per apartment unit, and no change in economic occupancy from 2012 at 94.5%. Of the \$1,144 increase in utility recovery revenue, \$637 is attributable to the Core Properties and \$507 is attributable to the Acquisition Communities and Redevelopment Property. The higher Core Properties utility recovery revenue is due to higher energy consumption in the 2013 period compared to the unseasonably warm weather experienced during the 2012 period and increased water and sewer cost recovery from residents.

Property other income, which consists primarily of income from operation of laundry facilities, late charges, administrative fees, garage and carport rentals, revenue from corporate apartments, cable revenue, pet charges, and miscellaneous charges to residents, increased by \$965. Of the increase, \$568 is attributable to the Core Properties, and \$397 is attributable to the Acquisition Communities and Redevelopment Property. The increase in Core Properties is primarily from increases in renters insurance fees, pet charges, corporate apartments, late charges, damages and other miscellaneous charges, partially offset by a decrease in cable revenue due to the 2012 period containing items as a result of signing new enhanced contracts with cable providers.

Of the \$8,055 increase in operating and maintenance expenses, \$5,250 is attributable to the Acquisition Communities, \$87 is attributable to the Redevelopment Property and \$2,718 is attributable to the Core Properties. The increase in Core Properties is primarily due to increases in natural gas heating costs, personnel expense, real estate taxes and snow removal costs, partially offset by lower repairs and maintenance and property insurance expense.

Natural gas heating costs increased \$480, or 5.1%, from a year ago due to an increase in consumption due to our markets experiencing normal temperatures during 2013 compared to the warmest spring on record in 2012, which was partially offset by lower commodity rates. For 2013, our natural gas weighted average cost, including transportation of \$3.00 per decatherm, was \$7.80 per decatherm, compared to \$8.42 per decatherm for the 2012 period, a 7.4% decrease.

Repairs and maintenance costs decreased \$876, or 3.6%, due to expected proceeds from an insurance claim exceeding the cost basis of destroyed assets, related to a significant fire, of \$1,112. Without the impact of these amounts related to the significant fire, repairs and maintenance increased \$236, or 1.0%.

Personnel costs increased \$1,905, or 5.1%, primarily due to the favorable impact in 2012 of \$1,875 in reductions to health insurance and workers compensation insurance costs. The reduction in costs were driven by the success of the Company's safety in the workplace initiatives and settlement of prior year claims earlier in their life cycle, compared to a reduction of \$275 for 2013. In addition, incentive compensation for property management personnel was \$244 lower than the same period a year ago. Without the impacts of the favorable insurance reserve reductions and lower incentive compensation, personnel costs increased \$549, or 1.5%.

Table of Contents

Results of Operations (continued)

Property insurance decreased \$866, or 15.7%, primarily due to continued favorable close-outs of prior year self insured general liability claims which yielded \$1,200 in savings in 2013 compared to \$100 in 2012. In addition, 2013 experienced \$150 higher subrogation receipts and \$400 in favorable close-outs of prior year property claims. These savings were offset by increased property losses in 2013 of \$2,400 compared to \$1,200 in 2012 with the \$1,200 increase in 2013 attributable to a significant fire at one of the Company's communities that occurred in July 2013. Without the impact of these major items, recurring property insurance costs were down \$416, or 9.5%.

Real estate taxes increased \$2,360, or 5.5%, primarily due to annual tax assessment increases some of which are triggered by our investments in apartment upgrades and repositioning, partially offset by one-time assessment refunds and tax incentive programs of \$608 in 2013 compared to \$197 in 2012. The Company continues to challenge tax assessments on existing properties and apply for tax incentive programs for newly developed properties where appropriate.

Snow removal costs increased \$635, or 220.5%, which is a direct reflection of the record mild winter experienced in the 2012 period and the return to a normal winter in 2013.

General and administrative expenses decreased in 2013 by \$4,795, or 17.5%. General and administrative expenses as a percentage of total revenues were 4.5% for 2013 as compared to 5.6% for 2012. Stock-based compensation costs recognized during 2013 were down \$3,288, or 29.5%, of which \$3,813 was due to the 2012 period including restricted stock and stock option grants to executives, which did not occur in 2013 as the executive equity compensation switched primarily to a three year performance restricted stock unit program in 2012. The cost of the performance based equity program was \$769 higher in 2013 due primarily to executives at, or near retirement age being expensed immediately or over a one year shorter period in 2013. In addition, the 2012 costs included \$1,580 in connection with the departure of an executive and represent acceleration of previously granted stock-based compensation as well as payments for salary continuation.

Interest expense decreased by \$4,718, or 5.1%, in 2013 primarily as a result of paying off \$230,000 in maturing loans on several Core Properties over the past year and only one 2012 Acquisition Community was acquired with assumed secured mortgage debt of \$7,284. Refer to the information under the heading "Liquidity and Capital Resources" above for specific discussion of debt transactions impacting the average rate and overall interest expense.

Depreciation and amortization expense increased \$9,626, or 8.0%, due to the depreciation on the Acquisition Communities and the capital additions to the Core Properties and Redevelopment Property.

Other expenses of \$48 in 2013 and \$2,726 in 2012 are property acquisition costs of the Acquisition Communities. The 2012 costs, which are primarily transfer taxes and title fees, represent 0.91% of the total purchase price of the 2012 Acquisition Communities.

Funds From Operations

Pursuant to the updated guidance for Funds From Operations (FFO) provided by the Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT), FFO is defined as net income (computed in accordance with accounting principles generally accepted in the United States of America (GAAP)) excluding gains or losses from sales of property, impairment write-downs of depreciable real estate, noncontrolling interest, extraordinary items and cumulative effect of change in accounting principle plus depreciation from real property including adjustments for unconsolidated partnerships and joint ventures less dividends from non-convertible preferred shares. Because of the limitations of the FFO definition as published by NAREIT as set forth above, the Company has made certain interpretations in applying the definition. The Company believes all adjustments not specifically provided for are consistent with the definition.

In addition to presenting FFO in accordance with the NAREIT definition, we also disclose FFO after a specific and defined supplemental adjustment to exclude losses from early extinguishments of debt associated with the sales of real estate (FFO as adjusted). The adjustment to exclude losses from early extinguishments of debt results when the sale of real estate encumbered by debt requires us to pay the extinguishment and other one-time costs prior to the debt's stated maturity and to write-off unamortized loan costs at the date of the extinguishment. Such costs are excluded from the gains on sales of real estate reported in accordance with GAAP. However, we view the losses from early extinguishments of debt associated with the sales of real estate as an incremental cost of the sale transactions because we extinguished the debt in connection with the consummation of the sale transactions and we had no intent to extinguish the debt absent such transactions. We believe that this supplemental adjustment more appropriately reflects the results of our operations exclusive of the impact of our sale transactions.

Although our FFO as adjusted clearly differs from NAREIT's definition of FFO, and may not be comparable to that of other REITs and real estate companies, we believe it provides a meaningful supplemental measure of our operating performance because we believe that, by excluding the effects of the losses from early extinguishments of debt associated with the sales of real estate, management and investors are presented with an indicator of our operating performance that more closely achieves the objectives of the real estate industry in presenting FFO.

Neither FFO, nor FFO as adjusted, should be considered as an alternative to net income (determined in accordance with GAAP) as an indication of our performance. Neither FFO, nor FFO as adjusted, represents cash generated from operating activities determined in accordance with GAAP, and neither is a measure of liquidity or an indicator of our ability to make cash distributions. We believe that to further understand our performance, FFO, and FFO as adjusted, should be compared with our reported net income and considered in addition to cash flows in accordance with GAAP, as presented in our consolidated financial statements.

FFO, and FFO as adjusted, fall within the definition of non-GAAP financial measure set forth in Item 10(e) of Regulation S-K and as a result the Company is required to include in this report a statement disclosing the reasons why management believes that presentation of this measure provides useful information to investors. Management believes that in order to facilitate a clear understanding of the combined historical operating results of the Company, FFO, and FFO as adjusted, should be considered in conjunction with net income as presented in the consolidated financial statements included herein. Management believes that by excluding gains or losses related to dispositions of property and excluding real estate depreciation (which can vary among owners of similar assets in similar condition based on historical cost accounting and useful life estimates), FFO, and FFO as adjusted, can help one compare the operating performance of a company's real estate between periods or as compared to different companies. In addition, FFO as adjusted ties the losses on early extinguishment of debt to the real estate which was sold triggering the extinguishment. The Company also uses these measures to compare its performance to that of its peer group.

(1) Basic includes common stock outstanding plus UPREIT Units which can be converted into shares of common stock. Diluted includes additional common stock equivalents.

All REITs may not be using the same definition for FFO. Accordingly, the above presentation may not be comparable to other similarly titled measures of FFO of other REITs.

Covenants

The unsecured notes payable agreements and Credit Agreement provide for the Company to maintain certain financial ratios and measurements including a limitation on outstanding indebtedness and a minimum interest coverage ratio. The Company was in compliance with these financial covenants for all periods presented.

Economic Conditions

Substantially all of the leases at the communities are for a term of one year or less, which enables the Company to seek increased rents upon renewal of existing leases or commencement of new leases. These short-term leases minimize the potential adverse effect of inflation on rental income, although residents may leave without penalty at the end of their lease terms and may do so if rents are increased significantly.

Dividends and Distributions

On October 30, 2013, the Board of Directors declared a dividend of \$0.70 per share on the Company's common stock and approved a distribution of \$0.70 per UPREIT Unit for the quarter ended September 30, 2013. This is the equivalent of an annual dividend/distribution of \$2.80 per share/unit. The dividend and distribution are payable November 22, 2013, to stockholders and unitholders of record on November 12, 2013.

Contingencies

The Company is not a party to any legal proceedings which are expected to have a material adverse effect on the Company's liquidity, financial position or results of operations. The Company is subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by general liability and property insurance. Various claims of employment and resident discrimination are also periodically brought, most of which also are covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

Fixed rate unsecured debt(a)	450	5.49	3.04%	18.4%	450	5.30	3.12%	16.2%
Variable rate unsecured debt	107	3.88	1.34%	4.4%	163	2.94	1.55%	5.9%
Total	\$ 2,436	4.67	4.54%	100.0%	\$ 2,778	4.92	4.55%	100.0%

(a) Includes \$250 million of variable rate debt that the one-month LIBOR was swapped to a fixed rate of 0.685% at September 30, 2013 and December 31, 2012.

The Company uses a combination of fixed and variable rate secured and unsecured debt. The Company intends to use net cash flow provided by operating activities and its existing bank line of credit to repay indebtedness and fund capital expenditures. On occasion, the Company may use its unsecured line of credit in connection with a property acquisition with the intention to refinance at a later date. The Company believes that increases in interest expense as a result of inflation would not significantly impact the Company's distributable cash flow.

On July 19, 2012, the Company entered into interest rate swap agreements that effectively convert the one-month LIBOR portion of a \$250 million five-year variable rate unsecured term loan, due on December 8, 2016, from a variable rate of one-month LIBOR plus a spread of 1.00% to 2.00% based on the Company's leverage ratio to a fixed rate of 0.685% plus the applicable spread. On August 19, 2013, the Company amended the five-year variable rate unsecured term loan agreement to extend the maturity date to August 18, 2018. The Company has not entered into any additional interest rate swap agreements for the period of December 9, 2016 through August 18, 2018, although may do so in the future. The Company is exposed to credit risk in the event of non-performance by the counterparties to the swaps. The Company minimizes this risk exposure by limiting counterparties to major banks who meet established credit and capital guidelines.

At September 30, 2013 and December 31, 2012, the fair value of the Company's total debt, including the unsecured notes payable and line of credit, amounted to a liability of \$2.56 billion and \$2.97 billion, respectively, compared to its carrying amount of \$2.44 billion and \$2.78 billion, respectively. The Company estimates that a 100 basis point increase in market interest rates at September 30, 2013 would have changed the fair value of the Company's total debt to a liability of \$2.46 billion and would result in \$2.2 million higher interest expense on the variable rate debt on an annualized basis.

The Company intends to continuously monitor and actively manage interest costs on its variable rate debt portfolio and may enter into swap positions based upon market fluctuations. Accordingly, the cost of obtaining such interest rate protection agreements in relation to the Company's access to capital markets will continue to be evaluated. The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes. In addition, the Company believes that it has the ability to obtain funds through additional debt and equity offerings and the issuance of UPREIT Units. As of September 30, 2013, the Company had no other material exposure to market risk.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted by the Company under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the officers who certify the Company's financial reports and to the other members of senior management and the Board.

The principal executive officer and principal financial officer evaluated, as of September 30, 2013, the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) and have determined that such disclosure controls and procedures are effective.

There have been no changes in the internal controls over financial reporting identified in connection with that evaluation, or that occurred during the third quarter of the year ending December 31, 2013 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Issuer Purchases of Equity Securities

The Company has a stock repurchase program, approved by its Board of Directors (the Board), under which it may repurchase shares of its common stock or UPREIT Units (the Company Program). The shares and units may be repurchased through open market or privately negotiated transactions at the discretion of Company management. The Board's action did not establish a specific target stock price or a specific timetable for share repurchase. At September 30, 2013, the Company had authorization to repurchase 2,291,160 shares of common stock and UPREIT Units under the Company Program. During the nine months ended September 30, 2013, the Company did not repurchase any shares under the Company Program.

Participants in the Company's Stock Benefit Plan can use common stock of the Company that they already own to pay: 1) all or a portion of the exercise price payable to the Company upon the exercise of an option; and, 2) the taxes associated with the vesting of restricted stock and stock option exercises. In such event, the common stock used to pay the exercise price or taxes is returned to authorized but unissued status, and for purposes of this table is deemed to have been repurchased by the Company, but does not represent repurchases under the Company Program.

The following table summarizes the total number of shares (units) repurchased by the Company during the quarter ended September 30, 2013:

Edgar Filing: HOME PROPERTIES INC - Form 10-Q

<u>Period</u>	Total shares/units <u>Purchased (1)(2)</u>	Average price per <u>share/unit</u>	Maximum shares/units available under the <u>Company Program</u>
Balance June 30, 2013:			2,291,160
July 2013	114	\$ 64.65	2,291,160
August 2013	324	61.79	2,291,160
September 2013	779	60.27	2,291,160
Balance September 30, 2013:	1,217	\$ 61.09	2,291,160

(1) 114 shares of common stock already owned by option holders were used by those holders to pay the exercise price associated with their option exercise; and 324 shares of common stock already owned by restricted stock award holders were used by those holders to pay the taxes associated with their award vesting.

(2) The Company repurchased 779 shares of common stock through share repurchases by the transfer agent in the open market in connection with the Company's 401(k) Savings Plan employee deferral and Company matching elections.
