January 22, 2014

Nokia provides historical results information for its continuing operations reflecting the new financial reporting structure

Nokia Corporation
Stock Exchange Release
January 22, 2014 at 12.40 (CET +1)

Espoo, Finland As announced on January 16, 2014, Nokia will publish its fourth quarter 2013 and full year 2013 results report on Thursday January 23, 2014 at approximately 1pm Finnish time in a new reporting format.

After receiving shareholder approval of the pending sale of substantially all of its Devices & Services business at our Extraordinary General Meeting in November last year, Nokia is reporting substantially all of its Devices & Services business as discontinued operations in its fourth quarter 2013 and full year 2013 results report.

Nokia's continuing operations consist of three businesses: Nokia Solutions and Networks (NSN), HERE and Advanced Technologies. Nokia will report financial information for a total of four reportable segments - Mobile Broadband and Global Services within NSN, HERE, and Advanced Technologies - and, additionally, separate information for the discontinued operations.

Nokia provides below, for comparability purposes, certain historical results (on an unaudited basis) for its continuing operations reflecting the new reporting structure on a reported and non-IFRS* basis. Quarterly information is provided for the fourth quarter 2012 through the third quarter 2013, while annual information is provided for the full year 2012.

It should be noted that this information for past periods is provided for historical comparative purposes. As is customary, certain judgments have been made when regrouping historical results information and allocating items in the regrouped

results. It should also be noted that the information provided herein is historical and therefore does not indicate future performance.

NOKIA CONTINUING OPERATIONS Q4 2012, FULL YEAR 2012, Q1, Q2 AND Q3 2013 (REPORTED)

*In addition to information on Nokia's reported IFRS results, Nokia provides certain information on a non-IFRS, or underlying business performance, basis. Non-IFRS results exclude all material special items for all periods. In addition, non-IFRS results exclude intangible asset amortization, other purchase price accounting related items and inventory value adjustments arising from (1) the formation of Nokia Siemens Networks and (2) all business acquisitions completed after June 30, 2008. Nokia believes that its non-IFRS results provide meaningful supplemental information to both management and investors regarding Nokia and its underlying business performance by excluding the above-described items that may not be indicative of Nokia's business operating results. In this pro forma information Nokia's non-IFRS results as described above are also presented on a pro forma basis.

These non-IFRS financial measures should not be viewed in isolation or as substitutes to the equivalent IFRS measure(s), but should be used in conjunction with the most directly comparable IFRS measure(s) in the reported results. We provide more information in the non-IFRS measures in the respective results reports.

About Nokia
