Press release

**Mobile TeleSystems Announces Financial Results for the Fourth Quarter and Full Year Ended December 31, 2013**

March 18, 2014

**Moscow, Russian Federation** Mobile TeleSystems OJSC ( MTS - NYSE: MBT), the leading telecommunications provider in Russia and the CIS, today announces its unaudited US GAAP financial results for the three months and full year ended December 31, 2013.

**Key Financial Highlights of Q4 2013 and FY 2013**

- Consolidated Group revenues increased 5% y-o-y to RUB 398 billion
- Mobile service revenue in Russia rose 7% y-o-y to RUB 273 billion
- Data traffic revenue in Russia grew 43% y-o-y to RUB 47 billion
- Consolidated OIBDA1 of RUB 45 billion increased 8% y-o-y to RUB 175 billion with 43.9% OIBDA margin
- Consolidated net income<sup>2</sup> of RUB 20 billion in Q4 2013 and a net income of RUB 80 billion in FY 2013
- Free cash-flow from continuing operations<sup>3</sup> grew 52% to RUB 69 billion for FY 2013

**Key Corporate and Industry Highlights**

- Launched LTE networks in Pskov Region, Kirov Region, North Ossetia-Alania, Khabarovsk Krai, Udmurtia, Zabaikalsky Krai, Amur Krai, Rostov region, Kaluga region, Novosibirsk region, Tatarstan and St. Petersburg
- Launched sales of iPhone 5s/5c in the MTS retail network
- Through its MGTS subsidiary, MTS divests non-core real estate assets through sale of 51% stake in Business Nedvizhimost CJSC for RUB 3.2 billion
- Changed the terms of credit agreements with Sberbank for two non-revolving lines of credit in the amount of RUB 80 billion
- Redeemed remaining amount of Series 01 ruble-denominated bond
- Repurchased Series 03 ruble-denominated bonds in the amount of approximately RUB 3.9 billion
- Paid out semi-annual dividends of RUB 5.22 per ordinary MTS share (RUB 10.44 per ADR) amounting to the total of RUB 10.8 billion on the basis of the Company's H1 2013 financial and operating results
- Announced new 3D Strategy: Data, Differentiation, Dividends

---

1 See Attachment A for definitions and reconciliation of OIBDA and OIBDA margin to their most directly comparable US GAAP financial measures.

2 Attributable to the Group.

3 See Attachment B for reconciliation of free cash-flow to net cash provided by operating activity. Free Cash Flow from continuing operations excluding one-offs from settlement of proceedings over Bitel LLC in the amount of RUB 4.1 billion

- Concluded a credit facility with Citibank Europe PLC and Swedish Export Credit Corporation for up to \$300 million<sup>4</sup> supported by Sweden's Exportkreditnämnden (EKN)

**Outlook for FY2014**

MTS expects revenue growth for the Group of 3-5% for 2014; key factors may include:

- Growth in data revenues through higher penetration of smartphones and data-enabled devices
- Development of retail product platform and sales of tablets and handsets
- Growth in broadband/pay TV markets in Russia

MTS sees above 2% OIBDA growth for 2014; key factors expected to influence MTS's OIBDA dynamics:

- Revenue growth in core markets
- Adoption rate of data plans for smartphones and tablets
- Sales trends of handsets and accessories
- Competitive factors
- Increasing share of inflation-based expenses

CAPEX spending for 2014 is expected to be 21% of revenue. The investments include network enhancement and key projects:

- On-going roll out of LTE networks throughout Russia
- Enhancements to 3G networks
- Continued deployment of GPON in Moscow and Moscow region

## Edgar Filing: MOBILE TELESYSTEMS OJSC - Form 6-K

- Network improvements and equipment swaps in Ukraine
- Maintenance CAPEX in Armenia
- Build out of 3G networks in Turkmenistan

MTS sees significant macroeconomic uncertainty and volatility across its markets of operation, which may cause MTS to revisit its market guidance and, in turn, impact its financial and operating results

### Commentary

Mr. Andrei Dubovskov, President and CEO of MTS, commented, "Overall in 2013, revenue for the Group grew by 5% to over 398 billion rubles. In all of our markets we see rising usage of voice and strong data adoption in virtually all customer segments. In Russia, we continue to realize benefits through data adoption from our focus in retail on sales of low-cost devices as we lead the market in data penetration through smartphones. Both internal data and independent sources confirm MTS's leadership in network speed, customer service, brand and other important factors that create our leading customer experience. Unfortunately, we also see macroeconomic factors that have hurt our ability to grow; in particular in Ukraine, macroeconomic uncertainty combined with the absence of 3G likely means that this market may lag the Group's pace of growth. In spite of these developments, we feel confident in our ability to further grow in our core markets, execute our strategy of differentiation and continue to generate value for our shareholders."

---

4 RUB 10.9 billion at the date of conclusion

Mr. Vasyl Latsanych, MTS Vice President for Marketing, said, "In Q4 2013, in our Russian business, we grew 7% year-over-year. Driving this growth was our mobile business, which grew over 8% year-over-year which, we believe may be the fastest organic rate of growth in the market based on the publicly available data. One of the key drivers of growth was greater adoption of data plans as smartphone penetration among our active subscribers reached 34%, and our data attach rate increased to over 42%. In Q4 2013, this contributed to an increase in data traffic of 49% year-over-year. Revenue was also aided by a strong holiday performance in our retail chain, where sales improved by 9% quarter-on-quarter. We also registered high-value subscriber additions for the period. Our sales of SIM-cards continue to be both consistent and sustainable; churn fell slightly to 9.0% for the quarter, a 200 bps reduction from 2012, and MOU increased to 345 minutes. For the year, churn fell to 36.3%, which is a level we haven't seen since 2009 and a marked improvement versus our competitors. Our fixed business recorded 5% growth year-on-year and 9% quarter-on-quarter aided by contributions from MGTS.

Mr. Alexey Kornya, MTS Vice President and Chief Financial Officer, said, "For the year OIBDA grew 8% to 175 billion rubles, which translated to a rate of growth roughly 300 bps faster than topline growth. Overall we showed over 100 bps in improvement in our OIBDA margin through a mix of high-margin revenue growth and sustained improvement in our cost efficiencies. In Q4, OIBDA grew 11% year-over-year to 45 billion rubles for an OIBDA margin of nearly 43.0% or our highest Q4 margin in recent memory. Reflecting these trends, for the year OIBDA of MTS Russia increased 7% to 157.7 billion rubles.

#### **Additional Information**

The Company has received a voluntary request for documents and information regarding MTS's business in Uzbekistan from the United States Securities and Exchange Commission (SEC) regarding investigations into the activities of unaffiliated parties.

*This press release provides a summary of some of the key financial and operating indicators for the period ended December 31, 2013. For full disclosure materials, please visit <http://www.mtsgsm.com/resources/reports/>.*

## Attachments to the Fourth Quarter and Full Year 2013

## Earnings Press Release

## Attachment A

Non-GAAP financial measures. This press release includes financial information prepared in accordance with accounting principles generally accepted in the United States of America, or US GAAP, as well as other financial measures referred to as non-GAAP. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP. Due to the rounding and translation practices, Russian ruble and functional currency margins, as well as other non-GAAP financial measures, may differ.

Operating Income Before Depreciation and Amortization (OIBDA) and OIBDA margin. OIBDA represents operating income before depreciation and amortization. OIBDA margin is defined as OIBDA as a percentage of our net revenues. OIBDA may not be similar to OIBDA measures of other companies, is not a measurement under accounting principles generally accepted in the United States and should be considered in addition to, but not as a substitute for, the information contained in our consolidated statement of operations and comprehensive income. We believe that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our ongoing business operations, including our ability to fund discretionary spending such as capital expenditures, acquisitions of mobile operators and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under generally accepted accounting principles, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the wireless telecommunications industry. OIBDA can be reconciled to our consolidated statements of operations as follows:

**Attachment B**

Net debt represents total debt less cash and cash equivalents and short-term investments. Our net debt calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare our periodic and future liquidity within the wireless telecommunications industry. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP.

Net debt can be reconciled to our consolidated statements of financial position as follows:

<b>RUB mln</b>	<b>As of Dec 31, 2012</b>	<b>As of Dec 31, 2013</b>
Current portion of debt and of capital lease obligations	27,624.3	25,063.7
Long-term debt	204,432.3	194,073.2
Capital lease obligations	48.5	10.0
Total debt	232,105.1	219,146.9
Less:		
Cash and cash equivalents	22,014.2	30,611.7
Short-term investments	4,034.4	14,632.6
Net debt	206,056.5	173,902.6

Free cash-flow can be reconciled to our consolidated statements of cash flow as follows:

<b>RUB mln</b>	<b>For the year ended Dec 31, 2012</b>	<b>For the year ended Dec 31, 2013</b>
Net cash provided by operating activities	134,855.8	159,924.4
Less:		
Purchases of property, plant and equipment	(79,835.9)	(67,146.2)
Purchases of intangible assets	(7,947.1)	(14,428.7)
Proceeds from sale of property, plant and equipment	394.8	418.0
Proceeds from sale of other investments	2,028.9	
Purchases of other investments	(2,100.0)	(702.9)
Investments in and advances to associates		(5,088.9)
Acquisition of subsidiaries, net of cash acquired	(1,936.8)	
Free cash flow	45,459.7	72,975.8

Definitions

*Subscriber.* We define a subscriber as an individual or organization whose account shows chargeable activity within sixty one days in the case of post-paid tariffs, or one hundred and eighty three days in the case of our pre-paid tariffs, or whose account does not have a negative balance for more than this period.

*Average monthly service revenue per subscriber (ARPU).* We calculate our ARPU by dividing our service revenues for a given period, including interconnect, guest roaming fees and connection fees, by the average number of our subscribers during that period and dividing by the number of months in that period.

*Average monthly minutes of usage per subscriber (MOU).* MOU is calculated by dividing the total number of minutes of usage during a given period by the average number of our subscribers during the period and dividing by the number of months in that period.

*Churn.* We define our churn as the total number of subscribers who cease to be a subscriber as defined above during the period (whether involuntarily due to non-payment or voluntarily, at such subscriber's request), expressed as a percentage of the average number of our subscribers during that period.

*Subscriber acquisition cost (SAC).* We define SAC as total sales and marketing expenses and handset subsidies for a given period. Sales and marketing expenses include advertising expenses and commissions to dealers. SAC per gross additional subscriber is calculated by dividing SAC during a given period by the total number of gross subscribers added by us during the period.
