 - ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 2.02 Results of Operations and Financial Condition

In July, 2014, Abbott Laboratories (Abbott) announced it had entered into an agreement to sell its developed markets branded generics pharmaceuticals business to Mylan Inc. In November 2014, Abbott entered into an agreement to sell its animal health business to Zoetis. As a result of the planned disposition of these businesses, the results of these businesses are being reported as discontinued operations.

Furnished as Exhibit 99.1 is Abbott's unaudited non-GAAP financial information for the first three quarters of 2014 reflecting the presentation of the developed markets branded generics pharmaceutical business and the animal health business as discontinued operations and other adjustments to provide a historical baseline of Abbott's standalone operating results from continuing operations and excluding specified items. Abbott plans to evaluate its future results from continuing operations against this historical baseline. Exhibit 99.1 also provides a reconciliation of this non-GAAP information to Abbott's historical consolidated results in accordance with U.S. GAAP.

Abbott uses various non-GAAP financial measures including, among others, net earnings excluding specified items. These non-GAAP financial measures adjust for factors that are unusual or unpredictable, such as cost reduction initiatives; integration and separation-related costs; transaction-related costs; a philanthropic contribution to the Abbott Fund; benefits of U.S. tax law changes; tax expense associated with a one-time repatriation of ex-U.S. earnings; and tax expense adjustments for resolution of various tax positions from previous years. These non-GAAP financial measures also exclude intangible amortization expense to provide greater visibility on the results of operations excluding these costs, similar to how Abbott's management internally assesses performance. Abbott's management believes the presentation of these non-GAAP financial measures provides useful information to investors regarding Abbott's results of operations as these non-GAAP financial measures allow investors to better evaluate ongoing business performance. Abbott's management also uses these non-GAAP financial measures internally to monitor performance of the businesses. Abbott, however, cautions investors to consider these non-GAAP financial measures in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP.

The financial information is intended for informational purposes only and does not purport to project Abbott's financial performance or cost structure for any future period. The financial information should be read in conjunction with the audited consolidated financial statements and accompanying notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included in Abbott's Form 10K for the year ended December 31, 2013.

Item 9.01 Financial Statements and Exhibits
