Services revenues amounted to \$16,174 (+20.7% vs. 1H14) and represented 87.4% of consolidated revenues (vs. 86.0% in 1H14). Equipment revenues increased 6.4%, amounting to \$2,322 and represented 12.6% of consolidated revenues (vs. 14.0% in 1H14).

Fixed Services

During 1H15, services revenues generated by this segment amounted to \$4,926 (+\$901 or 22.4% vs. 1H14), where Internet revenues have grown the most (+\$572 or +38.1% vs. 1H14), followed by data transmission services (+\$156 or +22.8% vs. 1H14) and voice retail services (+\$147 or +10.6% vs. 1H14).

Ø Voice

Voice retail revenues reached \$1,533 in 1H15 (+10.6% vs. 1H14). These revenues are still affected by frozen tariffs of regulated services since 2002. Revenues from regulated services reached approximately 26% of the segment services revenues in 1H15 (vs. 29% in 1H14).

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Monthly Charges and Supplementary Services increased \$36 or +6.1% vs. 1H14, reaching \$628, as a consequence of an increase in supplementary services (not regulated), mainly due to an increase of their prices and, to a lesser extent, to the increase in the subscriber base.

Revenues generated by measured services (Local Measured Service, Domestic Long Distance and International Long Distance services) amounted to \$856 (+\$116 or 15.7% vs. 1H14). The increase was mainly due to the increase in plans prices (both in local and long national distance), while customers remain stable. According to this, local measured service revenues increased 24.1% vs. 1H14 and DLD revenues increased 11.6% vs. 1H14. The Average Monthly Revenue per User (ARBU) amounted to \$62.5 pesos per month in 1H15 vs. \$55.7 pesos per month amounted in 1H14, representing an increase of 12.2%. The remaining retail voice revenues amounted to \$49 in 1H15 (-9.3% vs. 1H14). The decrease was mainly due to a decrease in customers and consumption of public telecommunication services and a decrease in customers' rehabilitation charges.

Voice wholesale revenues (including fixed and mobile interconnection revenues and lease of circuits, together with the revenues generated by the subsidiary Telecom USA amounting to \$66) amounted to \$479 in 1H15 (+5.7% vs. 1H14). Interconnection fixed and mobile revenues amounted to \$314 and the other wholesale revenues amounted to \$165 in 1H15 (+9.3% vs. 1H14), mainly due to higher prices related to cell sites rentals due to the variation of the \$/US\$ exchange rate.

Ø ***Data***

Data revenues (including the revenues generated by the subsidiary Telecom USA amounting to \$3) amounted to \$839 (+\$156 or +22.8% vs. 1H14). These revenues were generated focusing on the Company's position as an integrated TICs provider (Datacenter, VPN, among others) for wholesale and government segments. The increase was primarily due to higher prices of these services related to the variation of the \$/US\$ exchange rate and to the increase in the number of customers of these services.

Table of Contents

TELECOM ARGENTINA S.A.

Ø **Internet**

Internet revenues amounted to \$2,075 (+\$572 or +38.1% vs. 1H14) mainly due to the expansion of the Broadband customers (+3.5% vs. 1H14) and an increase in average prices resulting in an improvement in the Average Monthly Revenue per User (ARPU), that amounted to \$190.1 pesos per month in 1H15 vs. \$143.0 pesos per month in 1H14 (+32.9% vs. 1H14). As of June 30, 2015, Telecom Argentina reached approximately 1,786,000 ADSL customers. These connections represent approximately 43.9% of Telecom Argentina s fixed lines in service (vs. 42.1% in 1H14).

Internet revenues represent 11.2% of consolidated revenues (vs. 9.6% 1H14) and 42.1% of Fixed Services segment revenues (vs. 37.3% in 1H14).

Personal Mobile Services

During 1H15, total services revenues amounted to \$10,490 (+\$1,817 or 21.0% vs. 1H14), being the principal business segment in revenues terms (64.9% and 64.7% of services consolidated revenues in 1H15 and 1H14, respectively). Personal reached 19.4 million subscribers in Argentina (-1.8% vs. 1H14). Approximately 68% of the subscriber base is prepaid subscribers and 32% is postpaid subscribers (including Cuentas claras plans and Mobile Internet dongles). The churn rate per month amounted to 3.1% in 1H15 (vs. 2.9% in 1H14).

Ø **Voice**

Voice retail revenues amounted to \$3,259 in 1H15 (+25.6% vs. 1H14). The increase was mainly due to the increase in monthly charges prices in the postpaid and Cuentas claras subscriber base and prepaid services, offset by the net variation of the subscriber base showing an increase in Cuentas claras and a decrease in postpaid and prepaid subscribers as compared to 1H14.

Voice wholesale revenues amounted to \$929 in 1H15 (-4.8% vs. 1H14), mainly due to the decrease in interconnection traffic volume (especially Roaming and CPP).

Ø **Data**

Mobile data services revenues amounted to \$3,613 (-\$64 or -1.7% vs. 1H14). The decrease was due to lower revenues from the principal item of VAS revenues, SMS consumption, which decreased \$330 as compared to 1H14 (-14.1%), showing a decrease in TOU (-44.4% vs. 1H14) and an increase in such services prices for Cuentas claras and postpaid subscribers. Notwithstanding, this effect was partially offset with a constant increase of the SMS with content sales, as a result of several campaigns launched by Personal, which represented an inter-annual increase of \$286 or +23.0%.

Ø **Internet**

Mobile Internet revenues amounted to \$2,689 (+\$1,264 or +88.7% vs. 1H14). This increase is mainly explained by the increase in browsing services consumption of Personal s subscribers, which was mainly fueled by the increase in the offer of services, plans and packs (including VAS) launched by Personal. This growth was fueled by new subscribers, the migration of the existing ones to higher-value plans and the increase of subscribers that acquired 3G handsets, which facilitate Internet browsing in all subscribers segments. Internet flat rate services revenues have decreased mainly due to the decrease of Mobile Internet dongles subscribers (-38% vs. 1H14).

As a consequence of the increase in monthly charges tariffs and Internet consumption, ARPU increased to \$86.4 pesos per month in 1H15 (vs. \$70.0 pesos per month in 1H14), which represents an increase of 23.5%.

VAS revenues (data and Internet) amounted to \$6,302 (+23.5% vs. 1H14) and represented 60.1% of Personal Mobile Services services revenues (vs. 58.8% in 1H14).

Núcleo Mobile Services

This segment generated services revenues equivalent to \$758 during 1H15 (+\$53 or 7.5% vs. 1H14) mainly due to the Internet revenues increase (+26.1% vs. 1H14), mainly related to the increase of browsing generated by subscribers with mobile equipment prepared for that purpose. As of June 30, 2015, Núcleo s subscriber base reached 2.5 million customers. Prepaid and postpaid subscribers (including Plan Control subscribers and mobile Internet subscribers) represented 80% and 20% in 1H15, respectively.

VAS revenues (data and Internet) amounted to \$409 (+10.2% vs. 1H14) and represented 54.0% of Núcleo Mobile Services segment services revenues (vs. 52.6% in 1H14).

Table of Contents**TELECOM ARGENTINA S.A.**

The Telecom Group's services revenues increased 20.7% showing a 60.0% increase of Internet revenues in all segments vs. 1H14, increasing its margin over total services revenues according to the following table:

	<u>Six-month periods ended</u>				<u>1H15 vs.</u>

Equipment

Revenues from equipment amounted to \$2,322, +\$140 or +6.4% vs. 1H14. This increase is mainly related to the Personal Mobile Services segment with an increase of \$118 vs. 1H14 due to lower handsets sold (-33% vs. 1H14) but with an increase in handset's average sale prices (+58% vs. 1H14), resulting in a higher operating margin of handsets (+\$298 or +103.1% vs. 1H14).

- Operating costs**

Consolidated operating costs including depreciations, amortizations and gain on disposal of PP&E and impairment of PP&E totaled \$15,359 in 1H15, which represents an increase of \$2,362 or +18.2% vs. 1H14. The increase in costs is mainly a consequence of a higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure of the Telecom Group in Argentina, the increase in fees for services related to higher supplier prices, the increase in taxes and fees with the Regulatory Authority, the increase of VAS costs, the increase in bad debt expenses, higher provisions costs and higher agent commissions, which were mitigated by the lower cost of equipment and handsets of \$173.

The costs breakdown is as follows:

Employee benefit expenses and severance payments

Employee benefit expenses and severance payments amounted to \$3,258 (+\$721 or +28.4% vs. 1H14). The increase was mainly due to increases in salaries agreed by Telecom Argentina with several trade unions for the unionized employees and also to non-unionized employees, together with related social security charges. With a total headcount of 16,286 by the end of 1H15 (vs. 16,549 employees in 1H14), lines in service per employee reached 375 in the Fixed Services segment (+1.1% vs. 1H14), subscribers per employee reached 3,854 in the Personal Mobile Services segment (slightly lower than 1H14) and subscribers per employee reached 6,220 (+10.7% vs. 1H14) in the Núcleo Mobile Services segment.

Employee benefit expenses and severance payments represents in 1H15 17.6% of revenues (vs. 16.3% in 1H14).

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF JUNE 30, 2015

Table of Contents

TELECOM ARGENTINA S.A.

Interconnection costs and other telecommunication charges

Interconnection costs and other telecommunication charges (including charges for TLRD, Roaming, Interconnection costs, cost of international outbound calls and lease of circuits) amounted to \$1,001 (-\$19 or -1.9% vs. 1H14). The decrease was mainly due to a lower traffic volume in roaming vs. 1H14.

Fees for services, maintenance, materials and supplies

Fees for services, maintenance, materials and supplies amounted to \$1,869, +\$270 or +16.9% vs. 1H14. The increase was mainly due to higher maintenance costs of radio bases and buildings in the mobile services segments, as a result of the variation in the \$/US\$ exchange rate, an increase in technical assistance cost of radio bases, higher costs of building maintenance, higher costs of sites location and storage costs.

There were also increases in other maintenance costs and fees for services, mainly due to higher costs recognized to suppliers in all segments.

Taxes and fees with the Regulatory Authority

Taxes and fees with the Regulatory Authority (including turnover tax, fees with the Regulatory Authority, IDC, municipal and other taxes) amounted to \$1,853 (+18.5% vs. 1H14), influenced mainly by the increase in revenues of fixed and mobile services and by the increase of the IDC related to higher collections and payments to suppliers in 1H15 vs. 1H14.

Commissions

Commissions (including Agent, distribution of prepaid cards and other commissions) amounted to \$1,909 (+\$429 or +29.0% vs. 1H14). The increase was mainly due to the increase in Agents' commissions (associated to higher revenues) as a result of higher customer's acquisition and retention costs recognized to them and the increase of outsourced sales commissions and collection commissions.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

On the other hand, agent commissions capitalized as SAC amounted to \$513, +\$151 or +41.7% vs. 1H14, and it is directly related to the increase in the Cuentas claras subscribers base in the Personal Mobile Services segment and the increase in the commissions prices related to higher cash flow as compared to 1H14.

Cost of equipment and handsets

Cost of equipments and handsets amounted to \$1,777 (-\$173 or -8.9% vs. 1H14) mainly due to a decrease in the units of handsets sold (-33% vs. 1H14), partially offset by an increase in the average unit cost of sales (+31% vs. 1H14) in the Personal Mobile Services segment.

On the other hand, SAC deferred costs from handsets sold amounted to \$42, -\$15 or -26.3% vs. 1H14. The lower capitalized amount was mainly due to the significant reduction of subsidies provided to customers in the Personal Mobile Services segment, especially in the Cuentas claras and postpaid segments.

Advertising

Advertising amounted to \$370 (+\$29 or +8.5% vs. 1H14), mainly due to higher commercial campaigns of Personal related to the launching of the 4G services throughout the whole country as compared to 1H14.

Cost of VAS

Cost of VAS amounted to \$597 (+\$191 or +47.0% vs. 1H14). The increase was mainly due to the increase of VAS sales in the Personal Mobile Services segment, especially the SMS with content service, which grew as a consequence of several campaigns launched by Personal. Cost of VAS over its related revenues increased 30.0% in 1H14 vs. 35.0% in 1H15.

Provisions

Provisions amounted to \$167, +\$65 or +63.7% vs. 1H14. The increase was mainly due to higher labor claims (+\$51 vs. 1H14) and higher civil and commercial claims (+\$31 vs. 1H14), partially offset by lower regulatory and municipal contingencies (-\$17 vs. 1H14).

Table of Contents

TELECOM ARGENTINA S.A.

Bad debt expenses

Bad debt expenses amounted to \$281 (+\$48 or +20.6% vs. 1H14), representing approximately 1.5% of the consolidated revenues in 1H15 and 1H14, respectively. The major increase is observed in the Personal Mobile Services segment as a consequence of higher aging of the accounts receivables and higher incidence of handsets sales directly financed by Personal to its postpaid and Cuentas claras subscribers. The mentioned increase was partially offset by a \$22 decrease of these expenses in the Government and Corporate segment in Telecom Argentina in 2Q15 as a consequence of the collections from some governmental entities.

Other operating costs

Other operating costs amounted to \$845 (+\$162 or +23.7% vs. 1H14). The increase was mainly due to higher prices on related services, especially in transportation, freight and travel expenses (+\$54 or +20.5% vs. 1H14), among others, in the operations in Argentina; the increase of rent prices (+\$58 or +30.1% vs. 1H14), as a result of new agreements and the renegotiation of some of the existing ones and the increase of the consumption of electricity (+\$50 or +40.7% vs. 1H14).

- **Operating income before depreciation and amortization**

Operating income before depreciation and amortization amounted to \$5,135 (+\$1,016 or 24.7% vs. 1H14), representing 27.8% of consolidated revenues in 1H15 (vs. 26.4% in 1H14). This growth was mainly fueled by the Fixed Services segment (+\$366 or +38.2% vs. 1H14) and Personal Mobile Services segment (+\$645 or +22.4% vs. 1H14).

Operating income before depreciation and amortization generated by equipment and handset sales (including SAC capitalization) amounted to \$587 in 1H15 vs. \$289 in 1H14 (+\$298 or 103.1% vs. 1H14), while operating income before depreciation and amortization generated by services sales amounted to \$4,548 in 1H15 vs. \$3,830 in 1H14 (+\$718 or +18.7% vs. 1H14).

Depreciation and amortization

Depreciation and amortization amounted to \$1,990 (+\$479 or +31.7% vs. 1H14). The increase in depreciation and amortization includes \$285 from PP&E depreciation, \$130 from amortization of intangible assets without SAC (mainly 3G/4G Licenses which

started their amortization in December 2014 and June 2015 and generated \$131 in 1H15) and \$64 from amortization of SAC and service connection costs. The increase in depreciation and amortization corresponds 27% to the Fixed Services segment and 73% to the mobile services segments.

Gain on disposal of PP&E and impairment of PP&E

Gain on disposal of PP&E increased \$3 vs. 1H14 and an impairment of \$10 related to work in progress was recorded in 1H15.

- **Operating income**

Operating income amounted to \$3,148 in 1H15 (+\$530 or 20.2% vs. 1H14). The margin over consolidated revenues represented 17.0% in 1H15 (vs. 16.8% in 1H14). This growth was mainly fueled by the Personal Mobile Services segment (+\$294 or +13.9% vs. 1H14) and the Fixed Services segment (+\$245 or +63.1% vs. 1H14).

- **Financial results, net**

Financial results, net resulted in a net loss of \$119, representing an increase of \$273 vs. 1H14. This net loss is related to the net financial position, which turned into a net financial debt for the first time since September 2009. The increase was mainly due to higher interests on provisions (-\$19 vs. 1H14), higher interests on loans (-\$71 vs. 1H14), lower net gains on NDF (-\$41 vs. 1H14) and lower financial interest on time deposits and other investments (-\$270 vs. 1H14), partially offset by higher interests on receivables (+\$10 vs. 1H14) and lower net foreign currency exchange losses (+\$127 vs. 1H14).

- **Net income**

Telecom Argentina reached a net income of \$1,978 in 1H15, +\$142 or +7.7% as compared to 1H14, representing 10.7% of the consolidated revenues in 1H15 (vs. 11.8% in 1H14). Net income attributable to Telecom Argentina amounted to \$1,956 in 1H15, +\$151 or +8.4% as compared to 1H14.

TELECOM ARGENTINA S.A.

8. Outlook

In 2015, the evolution of the fixed services segment is expected to continue in line with the trend experienced over the past years and shall be influenced by the level of maturity of the market with focus on increasing the value of the customers' base. In the Broadband business, Arnet continued capturing the growth opportunities the market offers, extending the offer of services with higher speeds and with proposals of overall integrated offers for customers (Internet, the fixed services segment and cellular mobile calls).

As regards pricing in the Fixed Services segment, the Company will continue the correspondent proceedings pursuant the new rules proposed by the LAD to reach the readjustment of the prices of the regulated services, and with them, of the economic-financial equation of Telecom Argentina (Note 10.i to the consolidated financial statements). The growing pressures over the cost structure of the Company and its investment plans seeking to modernize its infrastructure to provide next-generation services emphasize this need.

During fiscal year 2015, Personal's leadership strengths shall be consolidated by means of new added value added services especially in mobile broadband, based on the deployment of the new 4G networks which multiply tenfold the speed of mobile Internet speed in mobility. In this way, as the LTE infrastructure deploys on a national level, it is expected that our customers increase their access to content, among others, of the Personal Play platform (music, games and videos), the latter being one of the highest factors for revenue growth.

At the same time, and following with the commitment with quality, the Company expects to continue working to optimize the experience of customers who use the 3G/HSPA+ network, by means of improvements in the network infrastructure made possible as from December 2014 with the acquisition of additional spectrum. In this way, the third generation services will also expand, continuing with the technological reconversion and extension of the capacity of the network.

The infrastructure improvements and the availability of a wide portfolio of advanced devices within the offer will continue to be drivers of higher revenues based on innovative and convenient commercial proposals for those who choose Personal as mobile operator. This assumes favorable conditions for foreign trading, access to the exchange market and financing of LTE equipment, 4G handsets, hardware and software by the Telecom Group and its technological suppliers.

It is foreseen that the expansion of the subscribers' base will develop at lower rates due to the level of maturity and the high penetration of mobile services in the market.

The recent Telecom Argentina's corporate purpose change authorized by the AFTIC, by adapting it to the LAD provisions (Note 10.g to the consolidated financial statements) will allow the Company to expand its products and services offer and provides the Company with a better background to improve its position in ICTs and Audiovisual Communication markets.

The strategy implemented by the Management of the Company lays out the basic necessary fundamentals for the Telecom Group to pursue its objectives of continuous improvement of the quality of its services, to strengthen its market position and to improve its operating efficiency in order to satisfy the growing needs of the dynamic telecommunications market, all in compliance with the correspondent laws and regulations. The ambitious investment plans of the Telecom Group are based on this forward-looking vision and on the commitment of the Telecom Group with our country and its people.

Table of Contents**TELECOM ARGENTINA S.A.****NOTE 1 BASIS OF PREPARATION OF THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES****a) Basis of preparation and significant accounting policies**

As required by the CNV for most of public companies, these consolidated financial statements have been prepared in accordance with RT 26 of FACPCE (as amended by RT 29) and in accordance with IFRS as issued by the IASB, as adopted by the CPCECABA.

For the preparation of these consolidated financial statements, the Company has elected to make use of the option provided by IAS 34, so, these consolidated financial statements do not include all the information required in an annual financial statement, and must be read jointly with the 2014 annual consolidated financial statements which can be consulted at the Company's website (www.telecom.com.ar/inversores).

As of June 30, 2015, entities included in the consolidation process and the respective equity interest owned by Telecom Argentina is presented as follows:

Subsidiaries	Percentage of capital stock owned and voting rights (i)	Indirect control through	Date of acquisition	Segment that consolidates (Note 4)

Micro Sistemas (ii)	99.99%		12.31.97	Fixed Services
Personal	99.99%		07.06.94	Personal Mobile Services
Núcleo (iii)	67.50%	Personal	02.03.98	Núcleo Mobile Services
Personal Envíos (iii)	67.50%	Núcleo	07.24.14	Núcleo Mobile Services

(i) Percentage of equity interest owned has been rounded.

(ii) Dormant entity as of June 30, 2015 and December 31, 2014 and for the six-month periods ended June 30, 2015 and 2014.

(iii) Non-controlling interest of 32.50% is owned by the Paraguayan company ABC Telecomunicaciones S.A.

For the preparation of these consolidated financial statements, the Company followed the same accounting policies applied in the most recent annual consolidated financial statements except for Government bonds acquired during 1H15 which are valued at fair

value (Note 2.b)).

The preparation of these consolidated financial statements in conformity with IFRS requires the Company's Management to use certain critical accounting estimates. Actual results could differ from those estimates.

These consolidated financial statements (except for cash flow information) are prepared on an accrual basis of accounting. Under this basis, the effects of transactions and other events are recognized when they occur. Therefore income and expenses are recognized at fair value on an accrual basis regardless of when they are perceived or paid. When significant, the difference between the fair value and the nominal amount of income and expenses is recognized as finance income or expense using the effective interest method over the relevant period.

These consolidated financial statements have also been prepared on a going concern basis, as there is a reasonable expectation that Telecom Argentina and its subsidiaries will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

Publication of these consolidated financial statements for the period ended June 30, 2015 was approved by resolution of the Board of Directors' meeting held on August 3, 2015.

b) Financial statement formats

The financial statement formats adopted are consistent with IAS 1, In particular:

- the consolidated statements of financial position have been prepared by classifying assets and liabilities according to current and non-current criterion. Current assets and liabilities are those that are expected to be realized within twelve months after the period-end;
- the consolidated income statements have been prepared by classifying operating expenses by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Telecom Group as evaluated by the Management, and are in line with the industrial sector of telecommunications;

Table of Contents

TELECOM ARGENTINA S.A.

- the consolidated statements of comprehensive income include the profit or (loss) for the period as shown in the consolidated income statement and all components of other comprehensive income;
- the consolidated statements of changes in equity have been prepared showing separately (i) profit (loss) for the period, (ii) other comprehensive income (loss) for the period, and (iii) transactions with shareholders (controlling and non-controlling);
- the consolidated statements of cash flows have been prepared by presenting cash flows from operating activities according to the indirect method, as permitted by IAS 7.

These consolidated financial statements contain all material disclosures required under IAS 34. Some additional disclosures required by the LSC and/or by the CNV have been also included, among them, complementary information required in the last paragraph of Article 1 Chapter III Title IV of the CNV General Resolution No. 622/13. Such information is disclosed in Notes 2 and 6 to these consolidated financial statements, as admitted by IFRS.

c) Segment reporting

An operating segment is defined as a component of an entity that engages in business activities from which it may earn revenues and incur expenses, and whose financial information is available, held separately, and evaluated regularly by the Telecom Group's Chief Executive Officer (CEO).

Operating segments are reported in a consistent manner with the internal reporting provided to the CEO, who is responsible for allocating resources and assessing performance of the operating segments at the net income (loss) level and under the accounting principles effective (IFRS as issued by the IASB) at each time for reporting to the Regulatory Bodies. The accounting policies applied for segment information are the same for all operating segments.

Information regarding segment reporting is included in Note 4.

d) Net income per share

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

The Company computes net income per common share by dividing net income for the period attributable to Telecom Argentina (Controlling Company) by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares then outstanding during the period. Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts.

For the six-month periods ended June 30, 2015 and 2014, the weighted average number of shares outstanding totaled 969,159,605 shares, respectively.

On October 25, 2014, Telecom Italia S.p.A. announced the acceptance of an offer by the Fintech Group to amend and restate the agreement announced on November 14, 2013. Within the frame of this amendment agreement: 1) on October 29, 2014 Telecom Italia International N.V. agreed the transfer of 17% of the capital stock of Sofora to the Fintech Group; 2) it was confirmed that the transfer of the 51% controlling interest in Sofora is subject to the prior regulatory approval of the SC and closing of the transaction will not occur until such approval is obtained. No material changes in Sofora and its subsidiaries' corporate governance are expected.

It was also informed that: *if the sale of 51% of Sofora to Fintech is not completed within two and one-half years, Telecom Italia may then elect to either (i) terminate the agreement with Fintech and receive a six-month call option to purchase (or designate a Telecom Italia Group company to purchase) the 17% minority interest in Sofora previously sold to Fintech pursuant to an agreed formulation or (ii) pursue a sale of its 51% controlling interest in Sofora to a third party purchaser, subject to applicable regulatory approval and as to which Fintech has agreed to guarantee that Telecom Italia will receive an overall amount of at least US\$ 630.6 million. After such third party sale is consummated, if the overall amount received in connection with such approved sale exceeds the purchase price amount guaranteed by Fintech, any excess will be allocated between the parties according to an agreed formula.*

If it was not possible for Telecom Italia to sell to a third party within a period of two and one-half years, the agreement with Fintech will be terminated, Fintech will pay to Telecom Italia an amount of US\$ 175 million and Telecom Italia will have an option to purchase (or designate a Telecom Italia Group company to purchase) within a period of six months the 17% minority interest in Sofora previously transferred to Fintech, pursuant to a formula agreed by the parties.

The Telecom Group has entered into various purchase orders amounting in the aggregate to approximately \$6,030 as of June 30, 2015 (of which \$2,829 corresponds to PP&E commitments), primarily related to the supply of switching equipment, external wiring, infrastructure agreements, inventory and other service agreements.

b) Contingencies

The Telecom Group is a party to several civil, tax, commercial, labor and regulatory proceedings and claims that have arisen in the ordinary course of business. In order to determine the proper level of provisions, Management of the Company, based on the opinion of its internal and external legal counsel, assesses the likelihood of any adverse judgments or outcomes related to these matters as well as the range of probable losses that may result from the potential outcomes. A determination of the amount of provisions required, if any, is determined after an analysis of each individual case.

The determination of the required provisions may change in the future due to new developments or unknown facts at the time of the evaluation of the claims or changes as a matter of law or legal interpretation. Consequently, as of June 30, 2015, the Telecom Group has recorded provisions in an aggregate amount of \$1,553 to cover potential losses under these claims (\$84 for regulatory contingencies deducted from assets and \$1,469 included under provisions) and certain amounts deposited in the Company's bank accounts have been restricted as to their use due to some judicial proceedings. In connection with the above mentioned, on May 22, 2013, the Board of Directors approved a Company's Treasury Shares Acquisition Program in the market in Argentine pesos (the Treasury Shares Acquisition Program) so as to avoid any possible damages to the Company and its shareholders derived from fluctuations and unbalances between the shares' price and the Company's solvency, for the following maximum amount and deadline:

- Deadline for the acquisitions: until April 30, 2014.

According to the offer made on November 7, 2013 by the Fintech Group for the acquisition of the controlling interest of the Telecom Italia Group in Telecom Argentina (see Note 5.a to these consolidated financial statements), Telecom Argentina suspended the acquisition of treasury shares and its Board of Directors considered appropriate to request the opinion of the CNV on the applicability of the new provisions contained in the rules issued by that entity (Title II, Chapter I, Art.13 and concurring) with respect to the continuation of the Treasury Shares Acquisition Program.

The CNV did not answer the Company's request and the Telecom Argentina's Board of Directors, at its meeting held on May 8, 2014, decided to conclude the request considering that the Treasury Shares Acquisition Program finished on April 30, 2014, which had been approved by Telecom Argentina's Board of Directors Meeting held on May 22, 2013.

NOTE 10 RECENT DEVELOPMENTS CORRESPONDING TO THE SIX-MONTH PERIOD ENDED JUNE 30, 2015 FOR THE TELECOM GROUP

(a) Personal's bank loan

On January 28, 2015, Personal entered into a loan with a foreign bank for a total amount of US\$ 40.8 million (equivalent to \$353 at that date). This new loan is a 27-months bullet loan with three-month interest payment at a weighted average rate of three-month LIBO plus 8.75% (a financial cost of 9.0288% in 1H15). The debt amounted to \$362 as of June 30, 2015 (including a principal of \$354 disclosed in Non-current financial debt and accrued interests amounting to \$8 disclosed in Current financial debt).

The terms and conditions of the loan include covenants and events of default that are usual for this type of transaction, among those the limitation that Personal will not incur new indebtedness other than the permitted indebtedness if, as a result of the incurrence thereof, its consolidated total leverage ratio (consolidated debt to consolidated operating profit/loss before depreciation and amortization, including gain/loss on disposal of PP&E and impairment of PP&E, as defined in the terms and conditions of the loan) is greater than 3.0 to 1.0 or its consolidated interest coverage ratio (consolidated operating profit/loss before depreciation and amortization, including gain/loss on disposal of PP&E and impairment of PP&E and impairment of PP&E, as defined in the terms and conditions of the loan, to consolidated net interest) is lower than 3.0 to 1.0.

The funds were totally used for the acquisition of inventories.

(b) Financial transactions to mitigate foreign exchange risk

Due to the existence of commitments denominated in US Dollars as of June 30, 2015 Personal entered into several NDF agreements during 1H15 to purchase a total amount of US\$75 million which will mature between January 2016 and June 2016. The purpose of these NDF is to eliminate the risks associated to the fluctuation of the future exchange rate and to align the payment currency of Personal's commitments (item covered) to its functional currency. As the effect of the fluctuation of the exchange rate over the hedged items is recognized in the Income Statement, changes in the fair value of NDF in 1H15 (net loss of approximately \$25 million) have also been recognized in the Income Statement, within Finance income and expenses - NDF. The Telecom Group recognizes the hedging instruments results, distinguishing between gains and losses of such agreements that generate assets and liabilities, as appropriate, without offsetting balances with different counterparties. As of June 30, 2015, Personal has a current asset amounting to \$4 and a current liability amounting to \$29 related to the US\$75 million outstanding NDF to such date.

During 1Q15, Personal also realized the remaining NDF entered as of December 31, 2014 for US\$149 million, recording a net loss of \$22 which was recognized in the Income Statement, within Finance income and expenses - NDF in 1Q15. The purpose of these NDF was also to eliminate the risks associated to the fluctuation of the future exchange rate and to align the payment currency of Personal's commercial commitments (item covered) to its functional currency.

As part of their financial risk management and reduction of exchange rate risk policies, during 1H15 Telecom Argentina and Personal acquired Government bonds denominated in U.S. dollars (Bonar X 2017), at a cost of \$429, with an annual interest rate of 7%, also in U.S. dollars. These bonds were valued at fair value and generated a gain of \$45 million which was recognized in Financial results - Gains on investments .

(c) Profit sharing bonds

The *Ramollino Silvana v. Telecom Argentina S.A.* case was pending to be solved by the Supreme Court as a result of a complaint introduced by certain co-plaintiffs whose claim related to the profit sharing bonds had been left ineffective because they were not part of the Share Ownership Plan (the PPP).

The Labor Chamber of Appeals had rejected this action as it considered that such employees joined Telecom Argentina following the transfer of staff to the privatized entity and the only beneficiaries who could collect bonds were employees who participated in the PPP during the privatization.

On March 16, 2015, the Attorney General's Office ruled that the issue to be solved is to determine if recurrent co-plaintiffs who were employed by the Company after its privatization and the implementation of the PPP- have the right to participate in profit sharing programs created under Law No. 23,696. In this regard the Attorney General's Office ruled that the profit sharing bonds are a necessary consequence of the implementation of the PPP, so if the plaintiffs were not entitled to the profit sharing bonds they would not be entitled to the PPP.

He noted that *the legislative design of these programs does not constitute harm to the plaintiffs and cannot be considered discriminatory. The difference in treatment between those who joined the ex-Entel and employees of the entity once it was privatized seems a reasonable regulation of different situations.*

On June 9, 2015 the Argentine Supreme Court issued a final sentence adhering to the opinion of the Attorney General's Office, ratifying that every employee hired by the Company after November 8, 1990 do not have the right to participate in the profit sharing bond as they were excluded of the PPP.

This judicial precedent endorse the criteria used by the Company and based on its legal advisors opinion (who considered remote the chances of compensation to employees not included in the PPP) to estimate the provisions recorded for these claims.

(d) Legal Procedures relating to the Definition of the Scope of Fixed and Mobile Telephone Services under Broadcasting Law No. 22,285, repealed by Law No. 26,522 of Audiovisual Communication Services

Within the context of a claim filed by Supercanal S.A., on June 16, 2014 Telecom Argentina had filed before the Courts a request to terminate the injunction, arguing among other reasons that new Law No. 26,522 of Audiovisual Communication Services repealed the former law, under which the injunction had been ordered. Alternatively, Telecom Argentina had also requested that the injunction be adjusted between the limits of the new law, thus removing from it the VAS, Internet and/or video on demand services. In December 2014, Supercanal alleged that Telecom Argentina's request is based on unconstitutional grounds.

In March 2015, Telecom Argentina reported in the case the enactment of Law No. 27,078 (LAD) and requested that it be considered at the time of the Judge's ruling. As of the date of issuance of these consolidated financial statements, the allegations of both parties are pending before the Courts.

(i) Presentations of the Company within the LAD

On July 23, 2014, the Company made a filing before the SC pursuant to which it requested, among others: (i) adjustment of the monthly basic charges of all the SBT categories set forth in the Tariffs General Structure; (ii) the determination of a social tariff; (iii) the adjustment of the telephonic pulse value; (iv) the adaptation of the international long distance tariff to the current value of the gold franc; and (v) the tariff deregulation of the commercial service category. In addition, and until such adjustments are made, it was also requested that the SBT become excluded from the sanctioning regime provided by Decree No. 1,185/90, Decree No.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

62/90, SC Resolution No.10,059/99 and SC Resolution No. 5/13. It is worth mentioning that such adjustments would have relevant effects on Telecom Argentina's ability to finance the technological updating of its networks and infrastructure, which would in the end result in the provision of better services to the Company's customers.

Following this presentation, on December 19, 2014 the LAD came in force setting a new legal framework in this matter. According to this, among its provisions, under Title (VI) Prices, rates and levies established a general rule (Article 48) with certain exceptions.

Under these provisions, on April 16, 2015, the Company made two presentations to the CNC through which reported new installation rates for the business, professional and government segment (that will apply from April 23, 2015 and which value is \$690 Argentine pesos) and also the new monthly charges tariff for this segment (that will apply from July 15, 2015 and which value is \$77.28 Argentine pesos). The presentation was rejected by the CNC, through note received on April 29, 2015, which requests the Company to refrain from engaging in unilateral conducts as the informed, under penalty to initiate a sanction process.

Likewise, on June 2, 2015, the Company filed another presentation to the CNC informing new tariffs for the price per minute for calls made by our customers to certain international destinations, being effective from October 15, 2015. The Company also informed through the mentioned presentation the prices applying to public telephony service in the South Region and the prices applying to the assisted call service, being effective from July 1, 2015.

On June 16, 2015 the Company was notified of the CNC GC Note No. 364/15 through which the CNC urged the Company to apply the maximum rates approved by the General Tariff Structure in effect as of that date to the international calls made to the mentioned countries, according to the provisions of CNT Resolution No. 127/91, as amended. The Company was also refrained from engaging in unilateral conducts, under penalty to initiate the corresponding sanction process.

The Company filed on May 27, 2015 and July 2, 2015, respectively, two claims against the injunctions received from the CNC.

TELECOM ARGENTINA S.A.

However, on July 17, 2015, the AFTIC notified the Company the initiation of a sanction process related to a presumed violation of the General Tariff Structure and of CNT Resolution No. 127/91, as amended, with respect to the increase of the installation charges prices and the monthly charges tariffs for the business, professional and government segment informed on April 16, 2015.

As the date of issuance of these consolidated financial statements, the Company, with the assistance of its legal counsel, is analyzing the disclaimer to be filed against the mentioned sanction process.

(j) Demerger of Telco S.p.A. and Telefónica, S.A. (of Spain) indirect stake

Telefónica, S.A. (of Spain) has reported that, having obtained the approval of CADE (the Brazilian antitrust authority), ANATEL (Brazilian regulatory authority); CNDC (Argentinean antitrust authority) and Istituto per la Vigilanza sulle Assicurazioni IVASS (Italian insurance regulatory authority), the demerger of Telco S.p.A. has been formalized and its shareholders has assumed, through its subsidiaries, the direct stakes in Telecom Italia S.p.A. The Telco S.p.A. Shareholders Agreement has also become ineffective.

Regarding the Telefónica, S.A. (of Spain) stake, on June 24, 2015 such company informed to the CNV and the BCBA the *divesting of its entire stake in Telecom Italia S.p.A.* .

(k) Telco and TI-W Commitments

In Telecom Argentina's 2014 Annual Report, Note B.4.2, a reference was made to the commitment accepted through Resolution No. 148/10 of the Secretariat of Economic Policy (*Telco Commitment*) and the commitment accepted through Resolution No. 149/10 of the Secretariat of Economic Policy (*TI-W Commitment*) (the *Telco Commitment* and the *TI-W Commitment* , together, the *Commitments*), both presented through the CNDC with the purpose of ensuring the segregation and independence between the activities in the Argentine market of (a) Telefónica, S.A. (of Spain) and its subsidiaries, on one side and (b) the Telecom Italia Group, certain subsidiaries of Telecom Italia and the Telecom Group, on the other side, aimed to preserve and encourage the level of competition of their activities in the Argentine market.

On June 24, 2015 Telefónica, S.A. (of Spain) informed to the CNV and the BCBA the *divesting of its entire stake in Telecom Italia S.p.A.* .

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

According to the provisions of Clause 9.2 from the Telco Commitment and to Clause 3 of the TI-W Commitment, the mentioned Telefónica, S.A. (of Spain) divestment and the end of the validity of the Telco S.p.A Shareholders Agreement also represents the end of the validity of the Commitments.

For that reason, on July 6, 2015, Telecom Italia S.p.A. submitted a note to the CNDC informing that the end of the validity of the Commitments had been configured, according to that contemplated in Clause 9.2 from the Telco Commitment and Clause 3 of the TI-W Commitment.

On July 7, 2015, the Chairmen of the Board of Directors of Telecom Argentina and Personal submitted a note to the CNDC adhering to the presentation made by Telecom Italia S.p.A. and requiring the extinction of the validity of the Commitments for the same reasons exposed by Telecom Italia S.p.A on its note.
