**Item 8.01. Other Events.**

On June 30, 2016, Steel Dynamics, Inc. issued a press release titled *Steel Dynamics to Acquire Vulcan Threaded Products to Expand SBQ Finishing Capabilities*. A copy of that press release is attached hereto as Exhibit 99.1 and incorporated herein by reference.

**Forward-Looking Statement**

This Current Report on Form 8-K contains some predictive statements about future events, including statements related to the operation of new or existing facilities. These statements, which we generally precede or accompany by such typical conditional words as *anticipate, intend, believe, estimate, plan, seek, project or expect, or by the words may, will, or should*, are intended to be made as *forward-looking* and are subject to many risks and uncertainties, within the safe harbor protections of the Private Securities Litigation Reform Act of 1995. These statements speak only as of this date and are based upon information and assumptions, which we consider reasonable as of this date, concerning our businesses and the environments in which they operate. Such predictive statements are not guarantees of future performance, and we undertake no duty to update or revise any such statements. Some factors that could cause such forward-looking statements to turn out differently than anticipated include: (1) the effects of uncertain economic conditions; (2) cyclical and changing industrial demand; (3) changes in conditions in any of the steel or scrap-consuming sectors of the economy which affect demand for our products, including the strength of the non-residential and residential construction, automotive, appliance, pipe and tube, and other steel-consuming industries; (4) fluctuations in the cost of key raw materials (including steel scrap, iron units, and energy costs) and our ability to pass-on any cost increases; (5) the impact of domestic and foreign import price competition; (6) unanticipated difficulties in integrating or starting up new or acquired businesses; (7) risks and uncertainties involving product and/or technology development; and (8) occurrences of unexpected plant outages or equipment failures.

More specifically, we refer you to Steel Dynamics' more detailed explanation of these and other factors and risks that may cause such predictive statements to turn out differently, as set forth in our most recent Annual Report on Form 10-K under the headings *Special Note Regarding Forward-Looking Statements and Risk Factors*, in our quarterly reports on Form 10-Q or in other reports which we from time to time file with the Securities and Exchange Commission. These are available publicly on the SEC website, [www.sec.gov](http://www.sec.gov), and on the Steel Dynamics website, [www.steeldynamics.com](http://www.steeldynamics.com).
