BANCO DE CHILE AND SUBSIDIARIES

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Free translation of interim consolidated financial statements originally issued in Spanish)

1. Company information:

Banco de Chile is authorized to operate as a commercial bank since September 17, 1996, being, in conformity with the stipulations of article 25 of Law No. 19,396, the legal continuation of Banco de Chile resulting from the merger of the Banco Nacional de Chile, Banco Agrícola and Banco de Valparaiso, which was constituted by public deed dated October 28, 1893, granted before the Notary Public of Santiago, Mr. Eduardo Reyes Lavalle, authorized by Supreme Decree of November 28, 1893.

Banco de Chile (or the Bank) is a Corporation organized under the laws of the Republic of Chile, regulated by the Superintendency of Banks and Financial Institutions (SBIF or Superintendency). Since 2001, it is subject to the supervision of the Securities and Exchange Commission of the United States of America (SEC), in consideration of the fact that the Bank is registered on the New York Stock Exchange (NYSE), through a program of American Depositary Receipt (ADR).

Banco de Chile offers a broad range of banking services to its customers, ranging from individuals to large corporations. The services are managed in the areas of corporations and large companies, medium and small companies and personal and consumer banking. Additionally, the Bank offers international as well as treasury banking services, in addition to those offered by subsidiaries that include securities brokerage, mutual fund and investment management, insurance brokerage, financial advisory services and securitization.

Banco de Chile's legal address is Ahumada 251, Santiago, Chile and its website is www.bancochile.cl.

The Interim Consolidated Financial Statements of Banco de Chile, for the period ended March 31, 2019 were approved by the Directors on April 25, 2019.

Table of Contents**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued**

(Free translation of interim consolidated financial statements originally issued in Spanish)

2. Legal regulations, basis of preparation and other information:**(a) Legal regulations:**

The General Banking Law empowers the Chilean Superintendency of Banks and Financial Institutions (SBIF) to issue accounting standards of general application for entities it supervises. The Corporations Law, in turn, requires following the generally accepted accounting principles.

Based on the aforementioned laws, banks should use the criteria provided by the Superintendency in accordance with the Compendium of Accounting Standards (Compendium), and any matter not addressed therein, as long as it does not contradict its instructions, should adhere to generally accepted accounting principles in technical standards issued by the Chilean Association of Accountants, that coincide with international accounting standards and international financial reporting standards agreed upon by the International Accounting Standards Board (IASB). Should there be discrepancies between these generally accepted accounting principles and the accounting criteria issued by the SBIF, the latter shall prevail.

(b) Basis of preparation:

(b.1) These Interim Consolidated Financial Statements are presented according to Chapter C-2 of the Compendium of Accounting Standards, issued by the Superintendency of Banks and Financial Institutions (SBIF).

(b.2) The following table details the entities in which the Bank has control and are part of this consolidated financial statements:

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

2. Legal regulations, basis of preparation and other information, continued:

(c) Use of estimates and judgments:

Preparing the Interim Consolidated Financial Statements requires the Bank's Management to make judgments, estimations and assumptions that affect the application of accounting policies and the valuation of assets, liabilities, income and expenses presented. Actual results could differ from these estimated amounts. These estimates refer to:

1. Provision for loan losses (Notes No. 11, No. 12 and No. 32);
2. Useful life of intangible and property and equipment (Notes No.15 and No.16);
3. Income taxes and deferred taxes (Note No. 17);
4. Provisions (Note No. 24);
5. Contingencies and Commitments (Note No. 26);
6. Fair value of financial assets and liabilities (Note No. 39).

Estimates and relevant assumptions are regularly reviewed by the management of the Bank, according to quantify certain assets, liabilities, gains, loss and commitments. Estimates reviewed are registered in income in the period that the estimate is reviewed.

As of March 31, there have been no significant changes in the estimates made.

(d) Seasonality or Cyclical Character of the Transactions of the Intermediate Period:

Given the activities to which the Bank and its subsidiaries are engaged, the transactions of the Bank do not have a cyclical or seasonal nature. For this reason, specific breakdowns in these notes to the Interim Consolidated Financial Statements for the three-month period ended March 31, 2019 are not included.

(e) **Relative Importance:**

In determining the information to be disclosed on the different items of the financial statements or other matters, the relative importance in relation to the financial statements of the period has been taken into account.

(f) **Leases:**

The Bank acts as a lessor

Assets that are leased to clients under contracts that substantially transfer all risks and property recognition, with or without legal title, are classified as a financial lease. When the retained assets are subject to a financial lease, the leased assets are no longer recognized in the financials instead an account receivable is recorded, which is equal to the minimum value of the lease payment, discounted at the interest rate of the lease. The initial negotiation expenses in a financial lease are incorporated into the account receivable through the discount rate applied to the lease. Lease income is recognized on lease terms based on a model that consistently reflects a periodic rate of return on the net investment of the lease.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

2. Legal regulations, basis of preparation and other information, continued:

Assets that are leased to customers under contracts that do not transfer substantially all the risks and benefits of the property are classified as an operating lease.

The leased investment properties, under the operating lease modality, are included in Other assets in the statement of financial position and depreciation is determined on the book value of these assets, applying a proportion of the value in a systematic way on the economic use of the estimated useful life. Lease income is recognized on a straight-line basis over the lease period.

The Bank acts as a lessee

A contract is or contains a lease if it has the right to control the use of an identified asset for a period of time in exchange for a consideration.

At the start date of a lease, an asset is determined by right of use of the leased asset at cost, which comprises the amount of the initial measurement of the lease liability plus other disbursements made, except lease payments in the short term and those in which the underlying asset is of low value, which are recognized directly in results.

The amount of the lease liability is measured at the present value of future lease payments that have not been paid on that date, which are discounted using the incremental interest rate for loans received.

The right-of-use asset is measured using the cost model less accumulated depreciation and accumulated impairment losses. The depreciation of the right-of-use asset is recognized in the Income Statement based on the straight-line method of depreciation from the start date and until the end of the term of the lease.

After the start date, the lease liability is measured by reducing the carrying amount to reflect the lease payments made and the lease contract modifications.

(g) **Reclassifications:**

There have not been significant reclassifications at the end of this period 2019.

3. New Accounting Pronouncements:

3.1 Standards approved and/or modified by the International Accounting Standards Board (IASB) and by the Superintendency of Banks and Financial Institutions (SBIF):

3.1.1 Standards and interpretations that have been adopted in these Consolidated Financial Statements.

As of the date of issuance of these Interim Consolidated Financial Statements, the new accounting pronouncements issued by both the International Accounting Standards Board and the Superintendency of Banks and Financial Institutions, which have been adopted by the Bank and its subsidiaries, are detailed below:

Accounting standards issued by IASB.

IFRS 16 Leases.

On January 2016 was issued IFRS 16, which has as purpose to establish principles to the recognition, measurement, presentation and disclosure of lease contracts from the point of view of the lessee and lessor.

This new rule does not differ significantly from IAS 17 Leases that precedes it, related to the accounting treatment for the lessor. However, related to the lessee, the new rule requires the recognition of assets and liabilities for most lease contracts.

The Bank and its subsidiaries, for purposes of the initial application of the standard, took the option to recognize the cumulative effect on the initial adoption date (January 1, 2019), not expressing comparative information, recording an asset for right of use for an amount equal to the lease liability for an amount of Ch\$144,529 million, this amount was determined according to the present value of the remaining lease payments, discounted using the financing rate.

IFRIC 23 Uncertainty over Income Tax Treatments.

In June 2017, the IASB published IFRIC 23, which clarifies the application of the recognition and measurement criteria required by IAS 12 Income Taxes when there is uncertainty about tax treatments.

This modification had no impact on the Banco de Chile and its subsidiaries.

IAS 28 Investments in associates and joint ventures and IFRS 9 Financial instruments.

On October 2017, the IASB published the amendments to IFRS 9 Financial Instruments and IAS 28 Investments in Associated Entities and Joint Ventures.

The amendments to IFRS 9 allow entities to measure financial assets, prepaid with negative compensation at amortized cost or fair value, through other comprehensive income if a specific condition is met, instead of at fair value with effect on results.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

3. New Accounting Pronouncements, continued:

Regarding IAS 28, the amendments clarify that entities must account for long-term results in an associate or joint venture, to which the equity method is not applied, using IFRS 9.

The IASB also released an example that illustrates how companies should apply the requirements of IFRS 9 and IAS 28 to long-term interests in an associated entity or joint venture.

This modification had no impact for Banco de Chile and its subsidiaries.

Annual improvements to IFRS.

On December 2017, the IASB issued the Annual Improvements to IFRS Cycle 2015-2017, which includes amendments to the following regulations:

• IFRS 3 Business Combinations. Interests previously held in a joint operation.

The amendment provides additional guidance for applying the procurement method to particular types of business combinations.

The amendment states that when a party to a joint arrangement obtains control of a business, which is a joint arrangement and had rights over the assets and liabilities for the liabilities related to this joint arrangement, immediately before the acquisition date, the transaction it is a business combination achieved in stages.

Therefore, the acquirer will apply the requirements for a business combination achieved in stages, including re-measuring its previously held interest in the joint operation. By doing so, the acquirer will re-measure its total value that it previously had in the joint operation.

This modification had no impact for Banco de Chile and its subsidiaries.

• **IFRS 11 Joint Arrangements.**

The amendments to IFRS 11 relate to the accounting for acquisitions of interests in Joint Agreements.

The amendment establishes that a party that participates, but does not have control, in a joint agreement, can obtain control of the joint agreement. Given the above, the activity of the joint agreement would constitute a Business Combination as defined in IFRS 3, in such cases; the interests previously held in the joint agreement are not remeasured.

This modification had no impact for Banco de Chile and its subsidiaries.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

3. New Accounting Pronouncements, continued:

• IAS 23 Costs for loans. Costs for loans that can be capitalized.

The amendment to the standard is intended to clarify that, when an asset is available for use or sale, an entity will treat any outstanding loan taken specifically to obtain said asset, as part of the funds it has taken as current loans, from that moment on the interest will not be included as part of the cost of the asset.

This modification had no impact for Banco de Chile and its subsidiaries.

• IAS 19 Employee Benefits.

On February 2018 the IASB issued amendments to IAS 19 Employee Benefits , which relate to:

- If there is a modification, reduction or liquidation of a plan, it is now mandatory that the current service cost and net interest for the period after the new measurement be determined using the assumptions used for the new measurement.
- In addition, amendments have been included to clarify the effect of a modification, reduction or liquidation of a plan on the requirements with respect to the asset roof.

This modification had no impact for Banco de Chile and its subsidiaries.

Accounting standards issued by the Superintendency of Banks and Financial Institutions.

• **Circular No.3,645.**

On January 31, 2019, the SBIF published this circular, which introduces changes to the Compendium of Accounting Standards in order to apply the criteria defined in IFRS 16.

The main changes are for the valuation for the right to use of assets under lease being applied as a measurement after initial recognition, the cost methodology less accumulated depreciation / amortization and accumulated impairment.

In the statement of financial position are introduced the items **Leased assets** and **lease liabilities** , which also modify the Notes **Fixed assets** and **Leased assets and lease liabilities** .

Additionally, banks and their subsidiaries must record any effect due to the first application of this standard in the equity item **Retained earnings** from previous periods .

Banco de Chile and its subsidiaries have incorporated the amendments established in these Consolidated Interim Financial Statements.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

3. New Accounting Pronouncements, continued:

3.1.2 New standards and interpretations that have been issued but its date of application have not yet come into force:

The following is a summary of new standards, interpretations and improvements to the International Financial Reporting Standards issued by the International Accounting Standards Board and Superintendency of Banks and Financial Institutions that are not yet effective as of March 31, 2019, are detailed below:

IAS 28 Investments in Associates and Joint Venture and IFRS 10 - Consolidated Financial Statements.

In September 2014, the IASB issued this amendment, which clarifies the scope of recognized gains and losses in a transaction involving an associate or joint venture, and this depends on whether the asset sold or contribution is a business. Therefore, IASB concluded that all of the profit or loss should be recognized against loss of control of a business. Likewise, gains or losses resulting from the sale or contribution of a subsidiary that is not a business (definition of IFRS 3) to an associate or joint venture should be recognized only to the extent of unrelated interests in the associate or joint venture.

During December 2015 the IASB agreed that the amendments should apply in the future, allowing its immediate application.

This amendment will not impact on the Interim Consolidated Financial Statements of Banco de Chile and its subsidiaries.

Conceptual Framework.

On March 29, 2018, the IASB issued a Reviewed Conceptual Framework. Changes to the Conceptual Framework may affect the application of IFRS when no rule applies to a particular transaction or event.

Edgar Filing: BANK OF CHILE - Form 6-K

The Conceptual Framework introduces mainly the following improvements:

- It incorporates some new concepts of measurement, presentation and disclosure and derecognition of assets and liabilities in the Financial Statements.
- Provides updated definitions of assets, liabilities and includes criteria for the recognition of assets and liabilities in the financial statements.
- Clarifies some important concepts such as background on form, prudential criteria and measurement of uncertainty.

The Conceptual Framework enters into force for periods beginning on *January 1, 2020*. Early adoption is permitted.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

3. New Accounting Pronouncements, continued:

• IFRS 3 Business Combinations. Definition of a Business.

The amendments clarify the definition of business, with the objective of helping entities determine whether a transaction should be accounted for as a business combination or as the acquisition of an asset.

- (a) clarify that, to be considered a business, an acquired set of activities and assets must include, as a minimum, an input and a substantive process that together contribute significantly to the ability to produce outputs;
- (b) eliminate the assessment of whether market participants can substitute missing processes or inputs and continue to produce outputs;
- (c) add guides and illustrative examples to help entities assess whether a substantial process has been acquired;
- (d) restrict definitions of a business or products by focusing on goods and services provided to clients and eliminate reference to the ability of reducing costs; and
- (e) add an optional concentration test that allows a simplified assessment of whether an acquired set of activities and businesses acquired are not business.

Companies are required to apply the modified definition of a business to acquisitions made from *January 1, 2020*. Early application is allowed.

This amendment has no impact on the Interim Consolidated Financial Statements of Banco de Chile and its subsidiaries.

• **IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. Definition of Materiality or relative importance.**

The IASB issued changes to IAS 1, Presentation of Financial Statements, and IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, to clarify the definition of materiality and align these standards with the Revised Conceptual Framework issued in March 2018, to facilitate companies to make materiality judgments.

Under the old definition omissions or misrepresentations of elements are important if they could, individually or collectively, influence the economic decisions that users make on the basis of financial statements (IAS 1 Presentation of Financial Statements).

The new definition states that information is material if the omission, distortion or concealment of the information can reasonably be expected to influence decisions that primary users of financial statements of general purpose make on the basis of those financial statements, which provide financial information about a specific reporting entity.

The date of application of these amendments is *January 1, 2020*. Early application is allowed.

This amendment has no impact on the Interim Consolidated Financial Statements of Banco de Chile and its subsidiaries.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

3. New Accounting Pronouncements, continued:

Accounting standards issued by the Superintendency of Banks and Financial Institutions.

• Circular N°3,638.

On July 6, 2018, the SBIF published amendments to the standards contained in Chapter B-1 Provisions for Credit Risk of the Compendium of Accounting Standards, which incorporates a standard model for the estimation of provisions for credit risk of the commercial portfolio of group analysis.

The proposed methods and risk factors considered are the following:

- **Commercial Leasing Portfolio:** considers default, the type of asset in leasing (real estate or non-real estate) and the current value over value of the asset of the operation.
- **Student Portfolio:** considers the type of loan granted, the enforceability of the payment and the default that it presents, in case the loan is required.
- **Generic Commercial Portfolio:** considers default and the existence of real guarantees that guarantee the placement. In the case of guarantees, the relationship between the placement and the value of the security right that covers it is considered.

According to the SBIF, the three standardized methods included in the model will constitute a prudential floor for internal methods currently used by the industry.

On January 31, 2019, the SBIF supplemented said instructions with the publication of Circular No. 3,647, with the purpose of recognizing the mitigating effect of the credit risk represented by the assignor's responsibility in the factoring operations, a particular factor is introduced for the component Loss Given Default (hereinafter LGD) of the standard method for the commercial portfolio of group analysis, for factoring provisions.

The new standards will come into force in *July 2019*.

The adoption of this standard will not have material impacts on the Consolidated Financial Statements of Banco de Chile and its subsidiaries.

4. Changes in Accounting policies and Disclosures:

The accounting policies adopted in the preparation of this Consolidated Interim Financial Statements are consistent with those used in the preparation of the annual Consolidated Financial Statements for the year ended December 31, 2018, except for the adoption of new regulations in force at 1 January 2019. See Note No. 3 Recent Accounting Pronouncements .

5. Relevant Events:

(a) On January 18, 2019, the subsidiary Banchile Corredores de Bolsa S.A. informed that in the Ordinary Session held that day, the Board became aware and accepted the resignation presented by Mr. Roberto Serwaczak Slowinski to his position as Director of the company.

(b) On January 24, 2019 in the Ordinary Session No. BCH 2,895, the Board of Directors of Banco de Chile agreed to convene an Ordinary Meeting of Shareholders for March 28, 2019, with the purpose of proposing, among other matters, the distribution of the dividend No. 207 of \$ 3.52723589646 for each share, corresponding to 70% of the distributable liquid profit, retaining the remaining 30%.

(c) On January 28, 2019, Banco de Chile (the Bank) and its subsidiary Banchile Corredores de Seguros Ltda. (Banchile) informed that they have entered into a strategic alliance with the insurance companies Chubb Seguros Chile S.A. and Chubb Seguros de Vida Chile S.A. (together the Companies). The framework of the strategic alliance establishes the general terms and conditions pursuant to which the Bank will grant, for a period of 15 years, exclusive access to the Companies to provide insurances to clients via face-to-face and digital channels of the Bank, through Banchile (the Agreement), subject to the exceptions agreed upon by the parties.

The amounts involved include a payment to the Bank of UF 5,367,057 on the date of the signing of the contracts listed below, in accordance with the terms and conditions thereof, and annual payments subject to compliance with insurance sales objectives during the agreement lifetime.

The subscription of the contracts referred in the Agreement is subject to the condition that the National Economic Prosecutor's Office approve the execution of all of them, for which purpose the parties have proceeded to notify the operation in accordance with Chapter IV of the Decree Law No. 211.

(d) On March 14, 2019 in the Ordinary session No. 2,897, the Board of Directors of Banco de Chile agreed to establish a provision for minimum dividends of 60% of the net distributable profit that will be generated during the course of the year. For these purposes, the net distributable profit is defined as net income for the corresponding period minus the value effect of the monetary unit of paid capital and reserves, as a result of any change in the Consumer Price Index (CPI) between to the month prior to the current month and the month of November of the

previous year.

(e) On March 28, 2019 at the Ordinary Shareholder s Meeting, our shareholders approved the distribution of the dividend No. 207 of \$3.52723589646 per share, to be charged to the net distributable income obtained during the fiscal year 2018. Additionally, the shareholders agreed to withhold of 30% of the distributable net profit for the year 2018.

Additionally, the shareholders approved the definite appointment of Mr. Julio Santiago Figueroa as Director of Banco de Chile, a position which he will hold until the next renewal of the Board of Directors.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

6. Business Segments:

For management purposes, the Bank is organized into four segments, which are defined based on the types of products and services offered, and the type of client in which focuses as described below:

Retail: This segment focuses on individuals and small and medium-sized companies (SMEs) with annual sales up to UF 70,000, where the product offering focuses primarily on consumer loans, commercial loans, checking accounts, credit cards, credit lines and mortgage loans.

Wholesale: This segment focused on corporate clients and large companies, whose annual revenue exceed UF 70,000, where the product offering focuses primarily on commercial loans, checking accounts and liquidity management services, debt instruments, foreign trade, derivative contracts and leases.

Treasury: This segment includes the associated revenues to the management of the investment portfolio and the business of financial transactions and currency trading.

Transactions with customers carried out by the Treasury are reflected in the respective aforementioned segments. These products are highly transaction-focused and include foreign exchange transactions, derivatives and financial instruments in general, among others.

Subsidiaries: Corresponds to companies and corporations controlled by the Bank, though its management is related to the segments mentioned previously, the income is obtained individually by the respective subsidiary. The companies that comprise this segment are:

Entity

- Banchile Administradora General de Fondos S.A.

- Banchile Asesoría Financiera S.A.
- Banchile Corredores de Seguros Ltda.
- Banchile Corredores de Bolsa S.A.
- Banchile Securitizadora S.A.
- Socofin S.A.

6. Business Segments, continued:

The financial information used to measure the performance of the Bank's business segments is not comparable with similar information from other financial institutions because each institution relies on its own definitions. The accounting policies applied to the segments is the same as those described in the summary of accounting principles. The Bank obtains the majority of the results for: interest, indexation and commissions and financial operations and changes, discounting provisions for credit risk and operating expenses. Management is mainly based on these concepts to evaluate the performance of the segments and make decisions about the goals and allocations of resources of each unit. Although the results of the segments reconcile with those of the Bank at the total level, this is not necessarily the case in terms of the different concepts, given that management is measured and controlled individually and not on a consolidated basis, applying the following criteria:

- The net interest margin of loans and deposits is obtained aggregating the net financial margins of each individual operation of credit and uptake made by the bank. For these purposes, the volume of each operation and its contribution margin are considered, which in turn corresponds to the difference between the effective rate of the customer and the internal transfer price established according to the term and currency of each operation. Additionally, the net margin includes the result of interest and indexation from the accounting hedges.
- The capital and its financial impacts on outcome have been assigned to each segment based on the risk-weighted assets.
- Operational expenses are reflected at the level of the different functional areas of the Bank. The allocation of expenses from functional areas to business segments is done using different allocation criteria, at the level of the different concepts and expense items.

Taxes are managed at a corporate level and are not allocated to business segments.

For the periods ended March 31, 2019 and 2018, there was no income from transactions with a customer or counterparty that accounted for 10% or more of the Bank's total revenues.

10. Derivative Instruments and Accounting Hedges, continued:**(b) Fair value Hedges:**

The Bank uses cross-currency swaps and interest rate swaps to hedge its exposure to changes in the fair value of the hedged elements attributable to interest rates in financial instruments. The aforementioned hedge instruments change the effective cost of long-term assets from a fixed interest rate to a floating rate, decreasing the duration and modifying the sensitivity to the shortest segments of the curve.

Below is a detail of the hedged elements and instruments under fair value hedges as of March 31, 2019 and 2018:

	March 2019 MCh\$	December 2018 MCh\$
Hedge element		
Commercial loans	11,132	11,132
Corporate bonds	216,782	226,954
Hedge instrument		
Cross currency swap	11,132	11,132
Interest rate swap	216,782	226,954

(c) Cash flow Hedges:

(c.1) The Bank uses cross currency swaps to hedge the risk from variability of cash flows attributable to changes in the interest rates and foreign exchange of foreign banks obligations and bonds issued abroad in US Dollars, Hong Kong dollars, Swiss Franc, Japanese Yens and Euros. The cash flows of the cross currency swaps equal the cash flows of the hedged items, which modify uncertain cash flows to known cash flows derived from a fixed interest rate.

Additionally, these cross currency swap contracts used to hedge the risk from variability of the Unidad de Fomento (CLF) in assets flows denominated in CLF until a nominal amount equal to the portion notional of the hedging instrument CLF, whose readjustment daily impact the item Interest Revenue of the Income Financial Statements.

10. Derivative Instruments and Accounting Hedges, continued:

(c) Cash flow Hedges, continued:

With respect to CLF assets hedged; these are revalued monthly according to the variation of the UF, which is equivalent to monthly reinvest the assets until maturity of the relationship hedging.

(c.3) The unrealized results generated during the period 2019 by those derivative contracts that conform the hedging instruments in this cash flow hedging strategy, have been recorded with credit to equity amounting to Ch\$889 million (charge to equity of Ch\$15,249 million in March 31, 2018). The net effect of taxes credit to equity amounts to Ch\$649 million (net charge to equity of Ch\$11,132 million credit to equity during the period March 2018).

The accumulated balance for this concept as of March 31, 2019 corresponds to a charge in equity amounted to Ch\$42,605 million (charge to equity of Ch\$43,494 million as of December 31, 2018).

(c.4) The net effect in income of derivatives cash flow hedges amount to Ch\$34,714 million charge to income during the period 2019 (Ch\$11,982 million charge to income during the period March 2018).

(c.5) As of March 31, 2019 and 2018, it not exist inefficiency in cash flow hedge, because both, hedge item and hedge instruments, are mirrors of each other, it means that all variation of value attributable to rate and revaluation components are netted totally.

(c.6) As of March 31, 2019 and 2018, the Bank does not have hedges of net investments in foreign business.

17. Current Taxes and Deferred Taxes:**(a) Current Taxes:**

The Bank and its subsidiaries at the end of each period, have constituted a First Category Income Tax Provision, which was determined based on current tax regulations, and has been reflected in the statement of financial position net of taxes to be recovered or payable, as applicable, as of March 31, 2019 and December 31, 2018, according to the following detail:

	March 2019 MCh\$	December 2018 MCh\$
Income tax	37,449	150,798
Tax Previous year	23,638	
Less:		
Monthly prepaid taxes	(30,883)	(126,917)
Credit for training expenses		(2,224)
Others	(58)	(1,410)
Total	30,146	20,247
Tax rate	27.0%	27.0%

	March 2019 MCh\$	December 2018 MCh\$
Current tax assets	524	677
Current tax liabilities	(30,670)	(20,924)
Total tax (payable)	(30,146)	(20,247)

(b) Income Tax:

The effect of the tax expense during the periods between January 1 and March 31, 2019 and 2018, broken down as follows:

Edgar Filing: BANK OF CHILE - Form 6-K

	March 2019 MCh\$	March 2018 MCh\$
Income tax expense:		
Current year tax	37,209	26,261
Subtotal	37,209	26,261
(Credit) Charge for deferred taxes:		
Origin and reversal of temporary differences	(1,019)	2,545
Subtotal	(1,019)	2,545
Others	(2,001)	(573)
Net charge to income for income taxes	34,189	28,233

Table of Contents**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued**

(Free translation of interim consolidated financial statements originally issued in Spanish)

17. Current and Deferred Taxes, continued:

(c) Reconciliation of effective tax rate:

The following is a reconciliation of the income tax rate to the effective rate applied to determine the Bank's income tax expense as of March 31, 2019 and 2018:

	March 2019		March 2018	
	Tax rate %	MCh\$	Tax rate %	MCh\$
Income tax calculated on net income before tax	27.00	36,646	27.00	46,139
Additions or deductions	(0.64)	(872)	(0.51)	(875)
Subordinated debt (*)			(5.60)	(9,572)
Price-level restatement			(4.57)	(7,813)
Other	(1.17)	(1,585)	0.21	354
Effective rate and income tax expense	25.19	34,189	16.53	28,233

(*) The tax expense related to the subordinated debt held by SAOS S.A, it ended during the current fiscal year, as a result of the generation of sufficient resources to pay off the total debt.

The effective rate for income tax for the period 2019 is 25.19% (16.53% in March 2018).

18. Other Assets:

(a) Item composition:

At the end of each period, the item is composed as follows:

	March 2019 MCh\$	December 2018 MCh\$
Assets held for leasing (*)	95,259	101,848
Assets received or awarded as payment (**)		
Assets awarded at judicial sale	13,343	14,171
Assets received in lieu of payment	3,097	3,623
Provision for assets received in lieu of payment or awarded	(478)	(806)
Subtotal	15,962	16,988
Other Assets		
Deposits by derivatives margin	248,036	336,548
Recoverable income taxes	44,717	44,665
Prepaid expenses	42,433	37,394
Other accounts and notes receivable	32,090	29,080
Trading and brokerage (***)	17,920	28,478
Commissions receivable	14,511	12,155
Investment properties	13,457	13,938
VAT receivable	12,402	15,021
Servipag available funds	10,020	13,991
Pending transactions	1,988	2,070
Rental guarantees	1,888	1,895
Accounts receivable for sale of assets received in lieu of payment	907	4,816
Assets recovered from leasing for sale	845	1,064
Materials and supplies	725	745
Others	12,652	12,684
Subtotal	454,591	554,544
Total	565,812	673,380

(*) These correspond to property and equipment to be given under finance lease.

(**) Assets received in lieu of payment are assets received as payment of customers' past-due debts. The assets acquired must not exceed the aggregate 20% of the Bank's effective equity. These assets currently represent 0.0753% (0.0877% as of December 31, 2018) of the Bank's effective equity.

The assets awarded at judicial sale are not subject to the aforementioned margin. These properties are assets available for sale and is expected to be completed the sale within one year from the date the asset is received or acquired. In the event that said assets are not sold within one year, it must be written off.

The provision for assets received in lieu of payment or awarded is recorded as indicated in the Compendium of Accounting Standards, Chapter B-5 No.3, which indicates to recognize a provision for the difference between the initial value plus any additions and its realizable value, when the initial is greater.

(***) This item mainly includes simultaneous operations carried out by the subsidiary Banchile Corredores de Bolsa S.A.

26. Contingencies and Commitments:

(a) Commitments and responsibilities accounted for in off-balance-sheet accounts:

In order to satisfy its customers' needs, the Bank entered into several irrevocable commitments and contingent obligations. Although these obligations are not recognized in the Statement of Financial Position, they entail credit risks and, therefore, form part of the Bank's overall risk.

The Bank and its subsidiaries keep recorded in off-balance sheet accounts the main balances related to commitments or with responsibilities inherent to the course of its normal business:

	March 2019 MCh\$	December 2018 MCh\$
Contingent loans		
Guarantees and sureties	312,438	341,676
Confirmed foreign letters of credit	57,670	56,764
Issued letters of credit	363,057	388,396
Bank guarantees	2,233,552	2,232,682
Undrawn credit lines	7,744,121	7,769,325
Other credit commitments	43,621	46,561
Transactions on behalf of third parties		
Documents in collections	167,308	160,367
Third-party resources managed by the Bank:		
Financial assets managed on behalf of third parties	27,158	27,334
Other assets managed on behalf of third parties		
Financial assets acquired on its own behalf	73,264	103,319
Other assets acquired on its own behalf		
Custody of securities		
Securities held in safe custody in the Bank and subsidiaries	6,028,607	6,930,293
Securities held in safe custody in other entities	14,174,482	13,783,748
Total	31,225,278	31,840,465

Table of Contents**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued**

(Free translation of interim consolidated financial statements originally issued in Spanish)

26. Contingencies and Commitments, continued:

(b) Lawsuits and legal proceedings:

(b.1) Normal judicial contingencies in the industry:

At the date of issuance of these Interim Consolidated Financial Statements, there are legal actions filed against the Bank related with the ordinary course operations. As of March 31, 2018 the Bank maintain provisions for judicial contingencies amounting to Ch\$233 million (Ch\$204 million as of December 31, 2018) (*)), which are part of the item Provisions in the Statement of Financial Position.

The estimated end dates of the respective legal contingencies are as follows:

	2019 MCh\$	2020 MCh\$	As of March 31, 2019 2021 MCh\$	2022 MCh\$	Total MCh\$
Legal contingencies		139	94		233

(b.2) Contingencies for significant lawsuits in courts:

As of March 31, 2019 and December 31, 2018 there are not significant lawsuits in court that affect or may affect these Interim Consolidated Financial Statements.

26. Contingencies and Commitments, continued:

(c) Guarantees granted by operations:

i. In subsidiary Banchile Administradora General de Fondos S.A.:

In compliance with Article No. 12 of Law No. 20,712, Banchile Administradora General de Fondos S.A., has designated Banco de Chile as the representative of the beneficiaries of the guarantees it has established, and in such role the Bank has issued bank guarantees totaling UF 2,958,700, maturing January 10, 2020 (UF 2,977,300, maturing on January 10, 2019 as of December 31, 2018). The subsidiary took a policy with Mapfre Seguros Generales S.A. for the Real State Funds by a guaranteed amount of UF 695,800.

As of March 31, 2019 and December 31, 2018 the Bank has not guaranteed mutual funds.

In compliance with the rules established by the Chilean Commission for the Financial Market (CMF) in letter f) of Circular No. 1,894 of September 24, 2008, the entity has constituted guarantees, by management portfolio, in benefit of investors. Such guarantee corresponds to a bank guarantee for UF 401,800, with maturity on January 10, 2020.

ii. In subsidiary Banchile Corredores de Bolsa S.A.:

For the purposes of ensuring correct and complete compliance with all of its obligations as broker-dealer entity, in conformity with the provisions from Article No. 30 and subsequent of Law No. 18,045 on Securities Markets, the subsidiary established a guarantee in an insurance policy for UF 20,000, insured by Mapfre Seguros, that matures April 22, 2020, whereby the Securities Exchange of the Santiago Stock Exchange was appointed as the subsidiary s creditor representative.

(c) Guarantees granted, continued:

ii. In subsidiary Banchile Corredores de Bolsa S.A., continued:

In conformity with the internal regulation of the stock exchange in which this subsidiary participates, and for the purpose of securing the broker's correct performance, the Company established a pledge over 1,000,000 shares of the Santiago Stock Exchange, in favor of that institution, as stated in the Public Deed dated September 13, 1990 before the notary of Santiago Mr. Raul Perry Pefaur, and over 100,000 shares of the Electronic Chilean Stock Exchange, in favor of that Institution, as stated in a contract signed between both entities dated May 16, 1990.

Banchile Corredores de Bolsa S.A. keeps an insurance policy current with Southbridge Compañía de Seguros Generales S.A. that expires January 2, 2020, this considers matters of employee fidelity, physical losses, falsification or adulteration, and currency fraud with a coverage amount equivalent to US\$10,000,000.

According to disposition of Chilean Central Bank, it provided a bank guarantee corresponding to UF 10,500, with purposes to comply with the requirements of the SOMA contract (Contract for Service of System Open Market Operations) of the Chilean Central Bank. This bank guarantee is readjustable in UF to fixed term, non-endorsable and has a maturity date of July 22, 2019.

It also provided a bank guarantee No. 350329-3 in the amount of UF 251,400 for the benefits of investors in portfolio management contracts. This bank guarantee is revaluated in UF to fixed term, non-endorsable and has a maturity date of January 10, 2020.

It also provided a cash guarantee in the amount of US\$122,494.32 for the purpose of complying with the obligations to Pershing, for any operations conducted through that broker.

iii. In subsidiary Banchile Corredores de Seguros Ltda.:

Edgar Filing: BANK OF CHILE - Form 6-K

According to established in article No. 58, letter D of D.F.L. 251, as of March 31, 2019 the entity maintains two insurance policies with effect from April 15, 2018 to April 14, 2019 which protect it against of potential damages caused by infractions of the law, regulations and complementary rules that regulate insurance brokers, especially when the non-compliance comes from acts, errors or omissions of the broker, its representatives, agents or dependents that participate in the intermediation.

The policies contracted are:

Matter insured	Amount Insured (UF)
Errors and omissions liability policy	60,000
Civil liability policy	500

26. Contingencies and Commitments, continued:

(d) Provisions for contingencies loans:

Established provisions for credit risk from contingencies operations are the followings:

	March 2019 MCh\$	December 2018 MCh\$
Undrawn credit lines	30,103	29,255
Bank guarantees provision	22,698	22,806
Guarantees and sureties provision	3,050	2,891
Letters of credit provision	484	494
Other credit commitments	79	84
Total	56,414	55,530

(e) On January 30, 2014, the SVS (now the CMF) brought administrative charges against Banchile Corredores de Bolsa S.A. for the alleged infringement of the second paragraph of Article 53 of Security Market Law in relation to certain specific transactions performed during the years 2009, 2010 and 2011 related to Sociedad Química y Minera de Chile S.A.'s shares (SQM). In relation with the preceding, the second paragraph of Article 53 of Security Market Law states that no person may engage in transactions or induce or attempt to induce the purchase or sale of securities, whether or not governed by this Act, by means of any misleading or deceptive act, practice, mechanism or artifice .

On October 30, 2014, the SVS (now the Chilean Commission for the Financial Market) imposed a fine of UF 50,000 on Banchile Corredores de Bolsa S.A., for violation to the second paragraph of Article 53 of the Securities Market Law in relation to certain transaction of SQM-A's shares intermediated by the Company in 2011.

Banchile Corredores de Bolsa S.A., filed a claim in the 11th Civil Court of Santiago against Exempt Resolution N°270 of October 30, 2014 of the SVS (now the Chilean Commission for the Financial Market), requesting the annulment of the fine. This claim was consolidated with the trial due No. 25,795-2014, of the 22nd Civil Court of Santiago. On December 10, 2018, the

aforementioned Court summoned the parties to hear the sentence, which to date has not yet been dictated.

On January 16, 2019, Banchile Corredores de Bolsa S.A. filed before the Constitutional Court an appeal of inapplicability for unconstitutionality for the purpose of declaring that subsection 1 of article 29 of Decree Law No. 3,538, Organic Law of the Superintendency of Securities and Insurance, prior to its amendment by Law No. 21,000 of February 23, 2017, is inapplicable in this process for violating the rules of the Republic Political Constitution. On March 28, 2019, said Court declared admissible the requirement of inapplicability, suspending the proceedings before the 22nd Civil Court of Santiago.

According to the provisions policy of Banchile Corredores de Bolsa S.A., the company has not made provisions because in this judicial proceeding no judgment has yet been issued, as well as considering that the legal advisors estimate that there are solid grounds for dismissal.

27. Equity:

(a) Capital:

(i) Authorized, subscribed and paid shares:

As of March 31, 2019, the paid-in capital of Banco de Chile is represented by 101,017,081,114 registered shares (101,017,081,114 shares as of December 31, 2018), with no par value, subscribed and fully paid.

(ii) Shares:

The following table shows the changes in share from December 31, 2017 to March 31, 2019:

	Total Ordinary Shares
Total shares as of December 31, 2017	99,444,132,192
Capitalization of earning Issue fully paid-in shares	1,572,948,922
Total shares as of December 31, 2018	101,017,081,114
Total shares as March 31, 2019	101,017,081,114

(b) Approval and payment of dividends:

At the Bank Ordinary Shareholders Meeting held on March 28, 2019 it was approved the distribution and payment of dividend No. 207 of Ch\$3.52723589646 per share of the Banco de Chile, with charged to the net distributable income for the year ended as of December 31, 2018.

Edgar Filing: BANK OF CHILE - Form 6-K

The amount of the dividend paid in year 2019 amounts to Ch\$356,311 million.

At the Bank Ordinary Shareholders Meeting held on March 22, 2018 it was approved the distribution and payment of dividend No. 206 of Ch\$3.14655951692 per share of the Banco de Chile, with charged to the net distributable income for the year ended as of December 31, 2017. The amount of the dividend paid in year 2018 amounts to Ch\$374,079 million.

27. Equity, continued:

(c) **Provision for minimum dividends:**

In 2019, the Board of Directors of Banco de Chile agreed to establish a provision for minimum dividends of 60% of the net distributable profit that will be generated during the course of the year, being understood as net distributable profit as net income for the corresponding period minus the value effect of the monetary unit of paid capital and reserves, as a result of any change in the Consumer Price Index (CPI) between to the month prior to the current month and the month of November of the previous year. This, maintains the criteria adopted at the Extraordinary Shareholders Meeting held on March 25, 2010, which agreed the withholding of the equivalent to change in the CPI of the paid-in capital and reserves, which was materialized with a transitory article of the bylaws which is in force until the termination of the subordinated debt that will occur on April 30, 2019.

As indicated above, the retained earnings for the year ended December 31, 2018 in March 2019 amounted to Ch\$85,856 million (the retained earnings for the year ended December 31, 2017 in March 2018 amounted to Ch\$54,501 million).

The amount of net distributable profit as of March 31, 2019 amounts to Ch\$101,537 million (Ch\$509,015 million as of December 31, 2018). In accordance with the foregoing, the Bank recorded a provision for minimum dividends under Provisions as of March 31 for an amount of Ch\$60,922 million (Ch\$305,409 million in December 2018), reflecting as a counterpart a capital reduction for the same amount in the item Retained earnings .

Table of Contents**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued**

(Free translation of interim consolidated financial statements originally issued in Spanish)

27. Equity, continued:

(d) Earnings per share:

(i) Basic earnings per share:

Basic earnings per share are determined by dividing the net income attributable to the Bank ordinary equity holders in a period between the weighted average number of shares outstanding during that period, excluding the average number of own shares held throughout the period.

(ii) Diluted earnings per share:

In order to calculate the diluted earnings per share, both the amount of income attributable to common shareholders and the weighted average number of shares outstanding, net of own shares, must be adjusted for all the inherent dilutive effects to the potential common shares (stock options, warrants and convertible debt).

Accordingly, the basic and diluted earnings per share as of March 31, 2019 and 2018 were determined as follows:

	March 2019	March 2018
Basic earnings per share:		
Net profits attributable to ordinary equity holders of the bank (in million Chilean pesos)	101,537	142,651
Weighted average number of ordinary shares (*)	101,017,081,114	101,017,081,114
Earning per shares (in Chilean pesos)	1.01	1.41
Diluted earnings per share:		
Net profits attributable to ordinary equity holders of the bank (in million Chilean pesos)	101,537	142,651
Weighted average number of ordinary shares (*)	101,017,081,114	101,017,081,114
Assumed conversion of convertible debt		
Adjusted number of shares	101,017,081,114	101,017,081,114
Diluted earnings per share (in Chilean pesos)	1.01	1.41

(*) March 2018 considers the number of fully paid-in shares issued on July 26, 2018.

As of March 31, 2019 and 2018, the Bank does not have instruments that generate dilutive effects.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

27. Equity, continued:

(e) **Other comprehensive income:**

This item includes the following concepts:

The adjustment of cash flow hedge derivatives comprises the portion of income recorded in equity resulting from changes in fair value due to changes in market factors. During the period 2019 it was made a credit to equity for Ch\$889 million (charge to equity of Ch\$15,249 million in 2018). The income tax effect presented a charge to equity of Ch\$240 million (credit of Ch\$4,117 million in March 2018).

The valuation adjustment of investments available for sale originates from fluctuations in the fair value of such portfolio, with a charge or credit to equity. During the period 2019, it was made a credit to equity for Ch\$8,836 million (charge of Ch\$1,206 million during the year 2018). The deferred tax effect meant a charge to equity of Ch\$2,403 million (credit to equity of Ch\$672 million in March 2018).

Table of Contents**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued**

35. Depreciation, Amortization and Impairment:

(a) The amounts corresponding to charges to results for depreciation and amortization during the periods 2019 and 2018, are detailed as follows:

	March 2019 MCh\$	March 2018 MCh\$
Depreciation and amortization		
Amortization of intangibles assets (Note No. 15 (b))	2,835	2,466
Depreciation of property and equipment (Note No. 16 (b))	7,117	6,705
Depreciation of rights over leased assets (Note No. 16 letter (d))(*)	7,251	
Total	17,203	9,171

(*) See Note No. 3 Adoption of IFRS 16 Leases .

(b) As of March 31, 2019 and 2018 the impairment expenses is composed as follows:

	March 2019 MCh\$	March 2018 MCh\$
Impairment		
Impairment of intangible assets (Note No. 15 (b))		
Impairment of properties and equipment (Note No. 16 (b))	6	11
Impairment of rights over leased assets (Note No. 16 letter (d))		
Total	6	11

38. Related Party Transactions:

Related parties are considered to be those natural or legal persons who are in positions to directly or indirectly have significant influence through their ownership or management of the Bank and its subsidiaries, as set out in the Compendium of Accounting Standards and Chapter 12-4 of the current Compilation of Standards issued by the Chilean Superintendency of Banks and Financial Institutions (SBIF).

According to the above, the Bank has considered as related parties those natural or legal persons who have a direct participation or through third parties on Bank ownership, where such participation exceeds 5% of the shares, and also people who, regardless of ownership, have authority and responsibility for planning, management and control of the activities of the entity or its subsidiaries. There also are considered as related the companies in which the parties related by ownership or management of the Bank have a share which reaches or exceeds 5%, or has the position of director, general manager or equivalent.

39. Fair Value of Financial Assets and Liabilities:

Banco de Chile and its subsidiaries have defined a corporate framework for valuation and control related with the process to the fair value measurement.

Within the established framework includes the Product Control Unit, which is independent of the business areas and reports to the Financial Management and Control Division Manager. The Financial Control and Treasury Area, through the Financial Risk Information and Control Section, is responsible for independent verification of price and results of trading (including derivatives) and investment operations and all fair value measurements.

To achieve the appropriate measurements and controls, the Bank and its subsidiaries, take into account at least the following aspects:

(i) Industry standard valuation.

To value financial instruments, Banco de Chile uses industry standard modeling; quota value, share price, discounted cash flows and valuation of options through Black-Scholes-Merton, according to the case. The input parameters for the valuation correspond to rates, prices and levels of volatility for different terms and market factors that are traded in the national and international market and that are provided by the main sources of the market.

(ii) Quoted prices in active markets.

The fair value for instruments with quoted prices in active markets is determined using daily quotes from electronic systems information (such as Bolsa de Comercio de Santiago, Bloomberg, LVA and Risk America, etc). This quote represents the price at which these instruments are regularly traded in the financial markets.

(iii) Valuation techniques.

Edgar Filing: BANK OF CHILE - Form 6-K

If no specific quotes are available for the instrument to be valued, valuation techniques will be used to determine the fair value.

Due to, in general, the valuation models require a set of market parameters as inputs, the aim is to maximize information based on observable or price-related quotations for similar instruments in active markets. To the extent there is no information in direct from the markets, data from external suppliers of information, prices of similar instruments and historical information are used to validate the valuation parameters.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

39. Fair Value of Financial Assets and Liabilities, continued:

(iv) Fair value adjustments.

Part of the fair value process considers three adjustments to the market value of each instrument calculated based on the market parameters, including; a liquidity adjustment, a Bid/Offer adjustment and an adjustment is made for credit risk of derivatives (CVA and DVA). The calculation of the liquidity adjustment considers the size of the position in each factor, the particular liquidity of each factor, the relative size of Banco de Chile with respect to the market, and the liquidity observed in transactions recently carried out in the market. In turn, the Bid/Offer adjustment, represents the impact on the valuation of an instrument depending on whether the position corresponds to a long (bought) or a short (sold). To calculate this adjustment is used the direct quotes from active markets or indicative prices or derivatives of similar assets depending on the instrument, considering the Bid, Mid and Offer, respectively. Finally, the adjustment made for CVA and DVA for derivatives corresponds to the credit risk recognition of the issuer, either of the counterparty (CVA) or of Banco de Chile (DVA).

Liquidity value adjustments are made to trading instruments (including derivatives) only, while Bid / Offer adjustments are made for trading instruments and available for sale. Adjustments for CVA / DVA are carried out only for derivatives.

(v) Fair value control.

A process of independent verification of prices and rates is executed daily, in order to control that the market parameters used by Banco de Chile in the valuation of the financial instruments relating to the current state of the market and from them the best estimate derived of the fair value. The objective of this process is to control that the official market parameters provided by the respective business area, before being entered into the valuation, are within acceptable ranges of differences when compared to the same set of parameters prepared independently by the Financial Risk Information and Control Section. As a result, value differences are obtained at the level of currency, product and portfolio. In the event significant differences exist, these differences are scaled according to the amount of individual materiality of each market factor and aggregated at the portfolio level, according to the grouping levels within previously defined ranges. These ranges are approved by the Finance, International and Financial Risk Committee.

Complementary and in parallel, the Financial Risk Information and Control Section generates and reports on a daily basis Profit and Loss (P&L) and Exposure to Market Risks, which allow for proper control and consistency of the parameters used in the valuation.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

39. Fair Value of Financial Assets and Liabilities, continued:

(vi) Judgmental analysis and information to Management.

In particular cases, where there are no market quotations for the instrument to be valued and there are no prices for similar transactions instruments or indicative parameters, a specific control and a reasoned analysis must be carried out in order to estimate the fair value of the operation. Within the valuation framework described in the Reasonable Value Policy approved by the Board of Directors of Banco de Chile, a required level of approval is set in order to carry out transactions where market information is not available or it is not possible to infer prices or rates from it.

(a) Hierarchy of instrument valued at Fair value:

Banco de Chile and its subsidiaries, classify all the financial instruments among the following levels:

Level 1: These are financial instruments whose fair value is calculated at quoted prices (unadjusted) in extracted from active markets for identical assets or liabilities. For these instruments there are quotes or prices (return internal rates, quote value, price) the observable market, so that assumptions are not required to determine the value.

In this level, the following instruments are considered: currency futures, debt instruments issued Chilean Central Bank and Treasury, mutual fund investments and equity shares.

For the instruments of the Central Bank of Chile and the General Treasury of the Republic, all those mnemonics belonging to a Benchmark, in other words corresponding to one of the following categories published by the Santiago Stock Exchange, will be considered as Level 1: Pesos-02, Pesos-03, Pesos-04, Pesos-05, Pesos-07, Pesos-10, UF-02, UF-04, UF-05, UF-07, UF-10, UF-20, UF-30. A Benchmark corresponds to a group of mnemonics that are similar in duration and are traded in an equivalent way, i.e., the price (return internal rates in this case) obtained is the same for all the instruments that make up a Benchmark. This feature defines a greater depth of market, with daily quotations that allow classifying these instruments as Level 1.

Edgar Filing: BANK OF CHILE - Form 6-K

In the case of debt issued by the Government, the internal rate of return of the market is used to discount all flows to present value. In the case of mutual funds and equity shares, the current market price per share, which multiplied by the number of instruments results in the fair value.

The preceding described valuation methodology is equivalent to the one used by the Bolsa de Comercio de Santiago (Santiago Stock Exchange) and correspond to the standard methodology used in the market.

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

39. Fair Value of Financial Assets and Liabilities, continued:

Level 2: They are financial instruments whose fair value is calculated based on variables other than prices quoted in Level 1 that are observable for the asset or liability, directly (that is, as prices or internal rates of return) or indirectly (that is, derived from prices or internal rates of return from similar instruments). These categories include:

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
- c) Inputs data other than quoted prices that are observable for the asset or liability.
- d) Inputs data corroborated by the market.

At this level there are mainly derivatives instruments, debt issued by banks, debt issues of Chilean and foreign companies, issued in Chile or abroad, mortgage claims, financial brokerage instruments and some issuances by the Central Bank of Chile and the General Treasury of the Republic.

To value derivatives, depends on whether they are impacted by volatility as a relevant market factor in standard valuation methodologies; for options the Black-Scholes-Merton formula is used; for the rest of the derivatives, forwards and swaps, net present value through discounted cash flows is used.

For the remaining instruments at this level, as for debt issues of level 1, the valuation is done through cash flows model by using an internal rate of return that can be derived or estimated from internal rates of return of similar securities as mentioned above.

In the event that there is no observable price for an instrument in a specific term, the price will be inferred from the interpolation between periods that have observable quoted price in active markets. These models incorporate various market variables, including the credit quality of counterparties, exchange rates and interest rate curves.

Table of Contents**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued**

(Free translation of interim consolidated financial statements originally issued in Spanish)

39. Fair Value of Financial Assets and Liabilities, continued:

Valuation Techniques and Inputs for Level 2 Instrument:

Type of Financial Instrument	Valuation Method	Description: Inputs and Sources
Local Bank and Corporate Bonds	Discounted cash flows model	Prices (internal rates of return) are provided by third party price providers that are widely used in the Chilean market. Model is based on a Base Yield (Central Bank Bonds) and issuer spread. The model is based on daily prices and risk/maturity similarities between Instruments.
Offshore Bank and Corporate Bonds		Prices are provided by third party price providers that are widely used in the Chilean market. Model is based on daily prices.
Local Central Bank and Treasury Bonds		Prices (internal rates of return) are provided by third party price providers that are widely used in the Chilean market. Model is based on daily prices.
Mortgage Notes		Prices (internal rates of return) are provided by third party price providers that are widely used in the Chilean market. Model is based on a Base Yield (Central Bank Bonds) and issuer spread. The model takes into consideration daily prices and risk/maturity similarities between instruments.
Time Deposits		Prices (internal rates of return) are provided by third party price providers that are widely used in the Chilean market. Model is based on daily prices and considers risk/maturity similarities between instruments.
Cross Currency Swaps, Interest Rate Swaps, FX Forwards, Inflation Forwards		Forward Points, Inflation forecast and local swap rates are provided by market brokers that are widely used in the Chilean market. Offshore rates and spreads are obtained from third party price providers that are widely used in the Chilean market.

Edgar Filing: BANK OF CHILE - Form 6-K

Zero Coupon rates are calculated by using the bootstrapping method over swap rates.

FX Options	Black-Scholes Model	Prices for volatility surface estimates are obtained from market brokers that are widely used in the Chilean market.
------------	---------------------	--

Table of Contents

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

39. Fair Value of Financial Assets and Liabilities, continued:

Level 3: These are financial instruments whose fair value is determined using non-observable inputs data neither for the assets or liabilities under analysis nor for similar instruments. An adjustment to an input that is significant to the entire measurement can result in a fair value measurement classified within Level 3 of the fair value hierarchy, if the adjustment uses significant non-observable data entry.

The instruments likely to be classified as level 3 are mainly Corporate Debt by Chilean and foreign companies, issued both in Chile and abroad.

Valuation Techniques and Inputs for Level 3 Instrument:

Type of Financial Instrument	Valuation Method	Description: Inputs and Sources
Local Bank and Corporate Bonds	Discounted cash flows model	Since inputs for these types of securities are not observable by the market, we model interest rate of returns for them based on a Base Yield (Central Bank Bonds) and issuer spread. These inputs (base yield and issuer spread) are provided on a daily basis by third party price providers that are widely used in the Chilean market.
Offshore Bank and Corporate Bonds	Discounted cash flows model	Since inputs for these types of securities are not observable by the market, we model interest rate of returns for them based on a Base Yield (US-Libor) and issuer spread. These inputs (base yield and issuer spread) are provided on a weekly basis by third party price providers that are widely used in the Chilean market.

With the purpose to determine the sensitivity of the financial investments to changes in significant market factors, the Bank has made alternative calculations at fair value, changing those key parameters for the valuation and which are not directly observable in screens. In the case of the financial assets listed in the table above, which correspond to Bank Bonds and Corporate Bonds, it was considered that, since there are no current observables prices, the input prices will be based on brokers' quotes. The prices are usually calculated as a base rate plus a spread. For Local Bonds it was determined to apply a 10% impact on the price, while for the Off Shore Bonds it was determined to apply a 10% impact only on the spread, since the base rate is covered by interest rate swaps instruments in the so-called accounting hedges. The 10% impact is considered a reasonable move taking into account the market performance of these instruments and comparing it against the bid / offer adjustment that is provisioned by these instruments.

Other financial assets and liabilities not measured at their fair value, but for which a fair value is estimated, even if not managed based on such value, include assets and liabilities such as placements, deposits and other time deposits, debt issued, and other financial assets and obligations with different maturities and characteristics. The fair value of these assets and liabilities is calculated using the Discounted Cash Flow model and the use of various data sources such as yield curves, credit risk spreads, etc. In addition, due to some of these assets and liabilities are not traded on the market, periodic reviews and analyzes are required to determine the suitability of the inputs and determined fair values.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued

(Free translation of interim consolidated financial statements originally issued in Spanish)

39. Fair Value of Financial Assets and Liabilities, continued:

(f) Levels of other assets and liabilities, continued:

The Bank determines the fair value of these assets and liabilities according to the following:

- **Short-term assets and liabilities:** For assets and liabilities with short-term maturity, it is assumed that the book values approximate to their fair value. This assumption is applied to the following assets and liabilities:

Assets:	Liabilities:
• Cash and deposits in banks	• Current accounts and other demand deposits
• Transactions in the course of collection	• Transactions in the course of payments
• Repurchase agreements and security lending	• Repurchase agreements and security lending
• Loans and advance to domestic banks	

- **Loans to Customers and Advance to foreign banks:** Fair value is determined by using the discounted cash flow model and internally generated discount rates, based on internal transfer rates derived from our internal transfer price policy. Once the present value is determined, we deduct the related loan loss allowances in order to incorporate the credit risk associated with each contract or loan. As we use internally generated parameters for valuation purposes, we categorize these instruments in Level 3.

- **Letters of Credit and Bonds:** In order to determine the present value of contractual cash flows, we apply the discounted cash flow model by using market interest rates that are available in the market, either for the instruments under valuation or instruments with similar features that fit valuation needs in terms of currency, maturities and liquidity. The market interest rates are obtained from third party price providers widely used by the market. As a result of the valuation technique and the quality of inputs (observable) used for valuation, we categorize these financial liabilities in Level 2.

- Saving Accounts, Time Deposits, Borrowings from Financial Institutions, Subordinated Bonds and Other borrowings financial: The discounted cash flow model is used to obtain the present value of committed cash flows by applying a bucket approach and average adjusted discount rates that derived from both market rates for instruments with similar features and our internal transfer price policy. As we use internally generated parameters and/or apply significant judgmental analysis for valuation purposes, we categorize these financial liabilities in Level 3.

Table of Contents**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS, continued**

(Free translation of interim consolidated financial statements originally issued in Spanish)

39. Fair Value of Financial Assets and Liabilities, continued:

(g) Offsetting of financial assets and liabilities:

The Bank trades financial derivatives with foreign counterparties using ISDA Master Agreement (International Swaps and Derivatives Association, Inc.), under legal jurisdiction of the City of New York USA or London United Kingdom. Legal framework in these jurisdictions, along with documentation mentioned, it allows Banco de Chile the right to anticipate the maturity of the transaction and then, offset the net value of those transactions in case of default of counterparty. Additionally, the Bank has negotiated with these counterparties an additional annex (CSA Credit Support Annex), that includes other credit mitigating, such as entering margins on a certain amount of net value of transactions, early termination (optional or mandatory) of transactions at certain dates in the future, coupon adjustment of transaction in exchange for payment of the debtor counterpart over a certain threshold amount, etc.

Below are detail the contracts susceptible to offset:

	Fair Value		Negative Fair Value of contracts with right to offset		Positive Fair Value of contracts with right to offset		Financial Collateral		Net Fair Value	
	March 2019	December 2018	March 2019	December 2018	March 2019	December 2018	March 2019	December 2018	March 2019	December 2018
