#### ITEM 8.01 Other Events

This Current Report on Form 8-K is filed to recast certain financial information included in the Annual Report on Form 10-K of Monsanto Company (the "Company") for the year ended Aug. 31, 2013, which was filed with the United States Securities and Exchange Commission on Oct. 23, 2013, to retrospectively reflect new accounting guidance adopted in fiscal year 2014. The Company formally adopted the guidance on Sept. 1, 2013.

The new accounting guidance requires entities to disclose both gross and net information about both derivatives and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting agreement. The objective of the disclosure is to facilitate comparison between entities that prepare their financial statements on the basis of U.S. GAAP and entities that prepare their financial statements on the basis of International Financial Reporting Standards. The impact of this guidance is reflected in Note 17 - Financial Instruments, with minor changes in Note 3 - New Accounting Standards, Note 16 - Fair Value Measurements, and Note 29 - Subsequent Events.

The new accounting guidance had no impact on the Company's historical consolidated financial position, results of operations or cash flows. The recast financial statements are presented for informational purposes only in connection with the reporting changes described above and do not represent an amendment to or restatement of the Company's 2013 Annual Report on Form 10-K.

Accordingly, the company has updated the presentation of 2013 and 2012 financial instrument disclosures included in the 2013 Annual Report on Form 10-K to be consistent with the accounting guidance adopted in the 2014 fiscal year. These updates are reflected in Exhibit 99.1 to this Current Report.

The information in Exhibit 99.1 does not reflect events occurring after we filed our 2013 Annual Report on Form 10-K and does not modify or update the disclosures therein in any way, including, without limitation, the Risk Factors or Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the 2013 Annual Report on Form 10-K for any information, uncertainties, transactions, risks, events or trends occurring, or known to management, other than to illustrate the retrospective application of newly adopted accounting guidance as described above. For significant developments which have occurred after the filing of the 2013 Annual Report on Form 10-K, refer to our subsequent Quarterly Reports on Form 10-Q, as well as other filings we file with the SEC. This Current Report on Form 8-K should be read in conjunction with our 2013 Annual Report on Form 10-K and such subsequent filings.
