PRESS RELEASE

**Source: Westsphere Asset Corporation, Inc. ( Westsphere )**

Calgary Alberta, Canada **Westsphere Asset Corporation, Inc. today** announces that after reviewing Westsphere s business operations at a meeting of the shareholders on December 6, 2008 the Board of Directors has approved the consolidation of its ATM processing and business operations with the assignment of ATM related processing agreements from Westsphere s wholly owned subsidiary Vencash Capital Corporation to Westsphere Systems and a net book value consolidation and transfer of the ATM related capital assets of Vencash Capital Corporation to Westsphere Systems Inc. under a purchase and sale agreement to be offset against receivables and payables to Westsphere s wholly owned subsidiary Westsphere Systems Inc.

WSI was incorporated in January 2002 to provide Westsphere and/or its joint venture relationships particularly its Card Management System held by its wholly owned subsidiary, E-Debit, in-house proprietary software and hardware development space and business support for system growth, enhancement, integration and/or expansion related to its business within the non-conventional banking business.

On March 15, 2007 WSI received approval by the Canadian Interac Association to participate as an acquirer in the Associations Shared Cash Dispensing Service (SCD Service) and as an Acquirer in the Associations Interac Direct Payment Service (IDP Service). The approval placed WSI as an Interac Indirect Connector and allowed for its development as a financial processing Switch.

The Development of WSI switch will provide connectivity between the Canadian Banking System, ATM and POS devises and E-Debit s card management system. The WSI switch is currently the point of entry for ATM and POS (debit and credit) transactions for users within white label market and with WSI s partnership selection of BASE24® operated in an ACI On Demand™ hosted services environment the Switch also enables major banking institutions the ability to process their customer s transactions directly in a best of class processing environment.

“This is the second stage of our restructuring in order to meet the new economic reality we are experiencing. Financial, administrative and operational consolidation of our business operations is required to maximize our opportunities. More is to come.” said Doug Mac Donald, President and CEO of Westsphere Asset Corporation.
