NEWS RELEASE

**SHAW BREAKS THE HOME PHONE MONOPOLY WITH LAUNCH OF
SHAW DIGITAL PHONE IN WINNIPEG**

A reliable, fully featured and affordable residential telephone service

CALGARY, AB (July 26, 2005) Shaw Communications announced today that Shaw Digital Phone is now available in Winnipeg. Shaw Digital Phone is a reliable, fully featured and affordable residential telephone service that will offer consumers a real alternative to their current telephone provider. Winnipeg represents Shaw's third major market launch for Digital Phone since February 2005.

The service includes a local residential line, unlimited anytime long distance calling within Canada and the entire U.S., and six convenient calling features: Voicemail, Call Display, Call Forwarding, 3-Way Calling, Call Return and Call Waiting. Professional installation, enhanced-911, directory and operator services, and 24/7/365 customer support are all part of the Shaw Digital Phone service at no additional cost. Customers also have the option of keeping their current home phone number and the service works with existing telephones in a customer's home, so no additional equipment is required.

Shaw Digital Phone is priced at \$55.00 per month. Winnipeg customers have the unique opportunity to save up to \$15 per month when they bundle Digital Phone with other Shaw services. For example, a customer who currently subscribes to Shaw Digital TV and High-Speed Internet can add Digital Phone for just \$40 per month.

The success of Shaw Digital Phone in Calgary and Edmonton is undeniable, said Jim Shaw, CEO of Shaw Communications Inc. More than 22,000 customers have chosen our Digital Phone as their primary telephone service and our customer satisfaction levels continue to exceed 95 per cent. We're delighted to offer our Winnipeg customers the same reliable and high quality alternative for their telephone services and bring a much-needed choice to this market. What we find our customers like the most is that every call in North America is a local call and that there are no hidden charges.

Shaw Digital Phone is a primary line telephone service that uses Shaw's managed broadband network, not the public Internet, allowing Shaw to offer a consistent level of quality and reliability to its telephone customers.

Shaw Communications Inc. is a diversified Canadian communications company whose core business is providing broadband cable television, Internet, Digital Phone, telecommunications services (through Big Pipe Inc.) and satellite direct-to-home services (through Star Choice Communications Inc.) to approximately 3.0 million customers. Shaw is traded on the Toronto and New York stock exchanges and is a member of the S&P/TSX 60 index (Symbol: TSX SJR.NV.B, NYSE SJR).
