10 YEAR SALES ARRANGEMENT BETWEEN ELK VALLEY COAL, NIPPON STEEL AND POSCO

Agreement Provides Long-Term Sales and Additional Capital for Elkview Expansion

CALGARY, December 20, 2004 Fording Canadian Coal Trust (Fording), Teck Cominco Limited (Teck Cominco), Nippon Steel Corporation (NSC) and POSCO today announced that they have entered into letters of intent which contemplate that NSC and POSCO will enter into 10 year sales contracts covering an aggregate of 4.85 million tonnes per annum of metallurgical coal for 2005 from the Elkview and other Elk Valley mines, increasing to 6.25 million tonnes per annum for the 2007 coal year onwards.

In addition, each of NSC and POSCO will acquire for U.S.\$25 million a 2.5% equity interest in a new entity which will own and operate the Elkview metallurgical coal mine in southeastern British Columbia. The Elkview mine is currently owned by Elk Valley Coal Partnership, a general partnership between Teck Cominco and Fording. The proceeds of the NSC and POSCO investment in Elkview will be used to increase the annual production capacity of the Elkview mine to seven million tonnes of coal from its current level of six million tonnes.

The long-term nature of this agreement is of great value to Elk Valley Coal and the unitholders of Fording Canadian Coal Trust, while providing capital necessary to accelerate expansion plans at the Elkview mine, said Jim Popowich, President of Fording and Chief Executive Officer of Elk Valley Coal. "We are also very pleased to be strengthening our long-term relationships with NSC and POSCO, who are important customers of Elk Valley Coal."

Completion of the transactions is subject to board approvals, due diligence, the negotiation and settlement of binding agreements and other customary conditions. The transactions are expected to be completed during the first quarter of

2005.
