#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1: Summary of Significant Accounting Policies

Principles of Consolidation: The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial reporting and with applicable quarterly reporting regulations of the Securities and Exchange Commission (the SEC). They do not include all of the information and notes required by U.S. GAAP for complete financial statements. Therefore, these consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the C&F Financial Corporation Annual Report on Form 10-K for the year ended December 31, 2011.

The unaudited consolidated financial statements include the accounts of C&F Financial Corporation (the Corporation) and its wholly-owned subsidiary, Citizens and Farmers Bank (the Bank or C&F Bank). All significant intercompany accounts and transactions have been eliminated in consolidation. In addition, C&F Financial Corporation owns C&F Financial Statutory Trust I and C&F Financial Statutory Trust II, which are unconsolidated subsidiaries. The subordinated debt owed to these trusts is reported as a liability of the Corporation.

Nature of Operations: The Corporation is a bank holding company incorporated under the laws of the Commonwealth of Virginia. The Corporation owns all of the stock of its subsidiary, C&F Bank, which is an independent commercial bank chartered under the laws of the Commonwealth of Virginia. The Bank and its subsidiaries offer a wide range of banking and related financial services to both individuals and businesses.

The Bank has five wholly-owned subsidiaries: C&F Mortgage Corporation and Subsidiaries (C&F Mortgage), C&F Finance Company (C&F Finance), C&F Title Agency, Inc., C&F Investment Services, Inc. and C&F Insurance Services, Inc., all incorporated under the laws of the Commonwealth of Virginia. C&F Mortgage, organized in September 1995, was formed to originate and sell residential mortgages and through its subsidiaries, Hometown Settlement Services LLC and Certified Appraisals LLC, provides ancillary mortgage loan production services, such as loan settlements, title searches and residential appraisals. C&F Finance, acquired on September 1, 2002, is a regional finance company providing automobile loans. C&F Title Agency, Inc., organized in October 1992, primarily sells title insurance to the mortgage loan customers of the Bank and C&F Mortgage. C&F Investment Services, Inc., organized in April 1995, is a full-service brokerage firm offering a comprehensive range of investment services. C&F Insurance Services, Inc., organized in July 1999, owns an equity interest in an insurance agency that sells insurance products to customers of the Bank, C&F Mortgage and other financial institutions that have an equity interest in the agency. Business segment data is presented in Note 8.

Basis of Presentation: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the allowance for indemnifications, impairment of loans, impairment of securities, the valuation of other real estate owned, the projected benefit obligation under the defined benefit pension plan, the valuation of deferred taxes, the valuation of derivative financial instruments and goodwill impairment. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the results of operations in these financial statements, have been made. Certain reclassifications have been made to prior period amounts to conform to the current period presentation.

Derivative Financial Instruments: The Corporation recognizes derivative financial instruments at fair value as either an other asset or other liability in the consolidated balance sheets. The derivative financial instruments have been designated as and qualify as cash flow hedges. The effective portion of the gain or loss on cash flow hedges is reported as a component of other comprehensive income, net of deferred income taxes, and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

Share-Based Compensation: Compensation expense for the second quarter and first six months of 2012 included net expense of \$122,000 (\$76,000 after tax) and \$242,000 (\$150,000 after tax), respectively, for restricted stock granted since 2007. As of June 30, 2012, there was \$1.35 million of total unrecognized compensation expense related to unvested restricted stock that will be recognized over the remaining requisite service periods.

Stock option activity during the six months ended June 30, 2012 and stock options outstanding as of June 30, 2012 are summarized below:

			Remaining Contractual	Intrinsic Value of Unexercised In-The Money

Recent Significant Accounting Pronouncements:

In April 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-03, Transfers and Servicing – Reconsideration of Effective Control for Repurchase Agreements. The amendments in this ASU remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in this ASU are effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption was not permitted. The adoption of the new guidance did not have a material effect on the Corporation's financial statements.

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This ASU is the result of joint efforts by the FASB and the International Accounting Standards Board to develop a single, converged fair value framework on how (not when) to measure fair value and what disclosures to provide about fair value measurements. The ASU is largely consistent with existing fair value measurement principles in U.S. GAAP (Topic 820), with many of the amendments made to eliminate unnecessary wording differences between U.S. GAAP and International Financial Reporting Standards. The amendments are effective for interim and annual periods beginning after December 15, 2011 with prospective application. Early application was not permitted. The Corporation has included the required

disclosures in its consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income – Presentation of Comprehensive Income. The objective of this ASU is to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income by eliminating the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments do not change the items that must be reported in other comprehensive income, the option for an entity to present components of other comprehensive income either net of related tax effects or before related tax effects, or the calculation or reporting of earnings per share. The amendments in this ASU should be applied retrospectively. The amendments are effective for fiscal years and interim periods within those years beginning after December 15, 2011. The amendments do not require transition disclosures. The Corporation has included the required disclosures in its consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, Intangible – Goodwill and Other – Testing Goodwill for Impairment. The amendments in this ASU permit an entity to first assess qualitative factors related to goodwill to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill test described in Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. Under the amendments in this ASU, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The amendments in this ASU are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests of a date before September 15, 2011, if an entity's financial statements for the most recent annual or interim period have not yet been issued. The adoption of the new guidance did not have a material effect on the Corporation's consolidated financial statements.

In December 2011, the FASB issued ASU 2011-12, Comprehensive Income - Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05. The amendments are being made to allow the FASB time to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented. While the FASB is considering the operational concerns about the presentation requirements for reclassification adjustments and the needs of financial statement users for additional information about reclassification adjustments, entities should continue to report reclassifications out of accumulated other comprehensive income in effect before ASU 2011-05. All other requirements in ASU 2011-05 are not affected by ASU 2011-12, including the requirement to report comprehensive income either in a single continuous financial statement or in two separate but consecutive financial statements. Public entities should apply these requirements for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Corporation has included the required disclosures in its consolidated financial statements.

### NOTE 2: Securities

Debt and equity securities, all of which were classified as available for sale, are summarized as follows:

		June 30, 2012			
		Gross	Gross

Due after ten years		25,002		27,539
Preferred stock		27		95
	\$	132,825	\$	141,289

Proceeds from the maturities, calls and sales of securities available for sale for the six months ended June 30, 2012 were \$21.07 million.

The Corporation pledges securities primarily as collateral for public deposits and repurchase agreements. Securities with an aggregate amortized cost of \$92.57 million and an aggregate fair value of \$99.39 million were pledged at June 30, 2012. Securities with an aggregate amortized cost of \$106.97 million and an aggregate fair value of \$112.66 million were pledged at December 31, 2011.

Securities in an unrealized loss position at June 30, 2012, by duration of the period of the unrealized loss, are shown below.

	Less Than 12 Months		12 Months or More		Total	
	Fair	Unrealized	Fair	Unrealized	Fair	Unrealized
(Dollars in thousands)	Value	Loss	Value	Loss	Value	Loss
U.S. government agencies and						
corporations	\$5,677	\$13	\$—	\$—	\$5,677	\$13
Mortgage-backed securities	910	1			910	1
Obligations of states and						
political subdivisions	4,309	37	675	33	4,984	70
Total temporarily impaired						
securities	\$10,896	\$51	\$675	\$33	\$11,571	\$84

There are 35 debt securities with fair values totaling \$11.57 million considered temporarily impaired at June 30, 2012. The primary cause of the temporary impairments in the Corporation's investments in debt securities was fluctuations in interest rates. During the second quarter of 2012, the municipal bond sector, which is included in the Corporation's obligations of states and political subdivisions category of securities, experienced rising securities prices due to declining interest rates over the quarter, gradual fundamental municipal credit improvement, and strong demand trends for municipal securities. The vast majority of the Corporation's municipal bond portfolio is made up of securities where the issuing municipalities have unlimited taxing authority to support their debt service obligations, as measured by market value, were rated "A" or better by Standard & Poor's or Moody's Investors Service. Of those in a net unrealized loss position, approximately 83 percent were rated, as measured by market value, "A" or better at June 30, 2012. Because the Corporation intends to hold these investments in debt securities to maturity and it is more likely than not that the Corporation will not be required to sell these investments before a recovery of unrealized losses, the

Corporation does not consider these investments to be other-than-temporarily impaired at June 30, 2012 and no other-then-temporary impairment has been recognized.

Securities in an unrealized loss position at December 31, 2011, by duration of the period of the unrealized loss, are shown below.

	Less Than 12 Months		12 Months or More		Total
