Common Stock Offering

Title of Securities	Common stock, par value \$1.25 per share, of the Company (the “Common Stock”)
Number of Shares of Common Stock Offered by the Company	4,237,288 (or 5,889,830 if the underwriters of the Common Stock Offering exercise their option to purchase up to 1,652,542 additional shares of Common Stock in full)

---

Number of  
Shares of  
Common Stock 6,779,661  
Offered by the  
Forward Seller

Common Stock  
Public Offering Price \$29.50 per share of Common Stock

Underwriting  
Discounts and  
Commissions \$1.0325 per share of Common Stock

Approximately \$11.4 million in aggregate (or approximately \$13.1 million if the underwriters of the Common Stock Offering exercise their option to purchase up to 1,652,542 additional shares of Common Stock in full)

The underwriters of the Common Stock Offering propose to offer the shares of Common Stock to dealers at the Common Stock Public Offering Price less a concession not in excess of \$0.6195 per share of Common Stock.

Estimated Net  
Proceeds to the  
Company from  
the Common  
Stock Offering

The Company estimates that it will receive net proceeds of approximately \$119.9 million from the sale of Common Stock offered and sold by the Company in the Common Stock Offering after deducting the Underwriting Discounts and Commissions and estimated offering expenses. The Company estimates that it will receive net proceeds of approximately \$167.0 million if the underwriters of the Common Stock Offering exercise their option to purchase additional shares of Common Stock in full. The Company will not initially receive any proceeds from the sale of Common Stock offered by the forward seller, unless an event occurs that requires the Company to sell the Common Stock to the underwriters of the Common Stock Offering. Assuming that the forward sale is physically settled, at an initial forward sale price of \$28.4675 per share, the Company expects to receive net proceeds of approximately \$193.0 million, subject to the price adjustment and other provisions of the forward sale agreement, in the event of full physical settlement of the forward sale agreement, which settlement must occur within approximately 12 months of the date of the Common Stock Preliminary Prospectus Supplement. The forward sale price that the Company expects to receive upon physical settlement of the forward sale agreement will be subject to adjustment on a daily basis based on a floating interest rate factor equal to the overnight bank funding rate less a spread and will be decreased on each of certain dates specified in the forward sale agreement during the term of the forward sale agreement. The forward sale price will also be subject to decrease if the cost to the forward seller of borrowing the number of shares of Common Stock underlying the forward sale agreement exceeds a specified amount. If the overnight bank funding rate is less than the spread on any day, the interest factor will result in a daily reduction of the forward sale price. As of the date of the Common Stock Preliminary Prospectus Supplement, the overnight bank funding rate was greater than the spread.

Allocation of  
the Purchase  
Price At the time of issuance, the fair market value of the applicable ownership interest in the RSNs will be \$50.00 (or 100% of the issue price of a Corporate Unit) and the fair market value of each purchase contract will be \$0 (or 0% of the issue price of a Corporate Unit).

Early  
Settlement Subject to certain conditions described under “Description of the Purchase Contracts—Early Settlement” in the Equity Units Preliminary Prospectus Supplement, a holder of Corporate Units or Treasury Units may settle the related purchase contracts at any time prior to 4:00 p.m., New York City time, on the second business day immediately preceding the Purchase Contract Settlement Date, other than during a blackout period (as described in the Equity Units Preliminary Prospectus Supplement) in the case of Corporate Units. An early settlement may be made only in integral multiples of 20 Corporate Units or 20 Treasury Units; however, if the Treasury portfolio has replaced the RSNs as a component of the Corporate Units following a successful optional remarketing, holders of Corporate Units may settle early only in integral multiples of 80,000 Corporate Units. If a purchase contract is settled early, the number of shares of Common Stock to be issued per purchase contract will be equal to the Minimum Settlement Rate (subject to adjustment, as described in the Equity Units Preliminary Prospectus Supplement).

Early  
Settlement  
Upon a  
Fundamental  
Change Subject to certain conditions described under “Description of the Purchase Contracts—Early Settlement Upon a Fundamental Change” in the Equity Units Preliminary Prospectus Supplement, following a “fundamental change” (as defined in the Equity Units Preliminary Prospectus Supplement) that occurs prior to the 20th business day preceding the Purchase Contract Settlement Date, each holder of a purchase contract will have the right to accelerate and settle the purchase contract early on the fundamental change early settlement date (as defined in the Equity Units Preliminary Prospectus Supplement) at the settlement rate determined as if the applicable market value equaled the stock price (as defined in the Equity Units Preliminary Prospectus Supplement), plus an additional make-whole amount of shares (such additional make-whole amount of shares being hereafter referred to as the “make-whole shares”). This right is referred to as the “fundamental change early settlement right.”

The number of make-whole shares per purchase contract applicable to a fundamental change early settlement will be determined by reference to the table below, based on the date on which the fundamental change occurs or becomes effective (the “effective date”) and the “stock price” (as defined in the Equity Units Preliminary Prospectus Supplement) for the fundamental change:

Effective Date	Stock Price on Effective Date											
	\$ 10.00	\$ 15.00	\$ 20.00	\$ 25.00	\$ 29.50	\$ 32.00	\$ 35.40	\$ 40.00	\$ 45.00	\$ 50.00	\$ 75.00	\$ 100.00
April 23, 2018	0.5412	0.3388	0.2161	0.0977	0.0000	0.0880	0.1913	0.1498	0.1241	0.1092	0.0742	0.0511
April 15, 2019	0.3556	0.2273	0.1485	0.0549	0.0000	0.0475	0.1492	0.1089	0.0870	0.0760	0.0511	0.0395
April 15, 2020	0.1747	0.1142	0.0800	0.0237	0.0000	0.0116	0.1038	0.0618	0.0456	0.0395	0.0263	0.0263
April 15, 2021	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	0.0003	0.0000	0.0000	0.0000	0.0000	0.0000

The stock prices set forth in the second row of the table above (i.e., the column headers) will be adjusted upon the occurrence of certain events requiring anti-dilution adjustments to the fixed settlement rates in a manner inversely proportional to the adjustments to the fixed settlement rates, as described in the Equity Units Preliminary Prospectus Supplement.

The exact stock price and effective date applicable to a fundamental change may not be set forth on the table, in which case:

if the stock price is between two stock prices on the table or the effective date is between two effective dates on the table, the amount of make-whole shares will be determined by straight line interpolation between the make-whole share amounts set forth for the higher and lower stock prices and the two effective dates based on a 365-day year, as applicable;

if the stock price is in excess of \$150.00 per share (subject to adjustment in the same manner as the stock prices set forth in the second row of the table, as described above), then the make-whole share amount will be zero; and

if the stock price is less than \$10.00 per share (subject to adjustment in the same manner as the stock prices set forth in the second row of the table, as described above) (the “minimum stock price”), then the make-whole share amount will be determined as if the stock price equaled the minimum stock price, using straight line interpolation, as described above in the first bullet, if the effective date is between two effective dates on the table.

Unless the Treasury portfolio has replaced the RSNs as a component of the Corporate Units as a result of a successful optional remarketing, holders of Corporate Units may exercise the fundamental change early settlement right only in integral multiples of 20 Corporate Units. If the Treasury portfolio has replaced the RSNs as a component of Corporate Units, holders of the Corporate Units may exercise the fundamental change early settlement right only in integral multiples of 80,000 Corporate Units. A holder of Treasury Units may exercise the fundamental change early settlement right only in integral multiples of 20 Treasury Units.
