PROSPECTUS SUPPLEMENT NO. 1
(To Prospectus Dated April 26, 2004)

Chiral Quest, Inc.

7,723,041 Shares

Common Stock

The information contained in this prospectus supplement amends and updates our prospectus dated April 26, 2004 (the Prospectus), and should be read in conjunction therewith. Please keep this Prospectus Supplement with your Prospectus for future reference.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this Prospectus Supplement is May 17, 2004

Forward-Looking Statements

Certain statements contained in this prospectus supplement that are forward-looking in nature are based on the current beliefs of our management as well as assumptions made by and information currently available to management, including statements related to the markets for our products, general trends in our operations or financial results, plans, expectations, estimates and beliefs. In addition, when used in this prospectus, the words may, could, should, anticipate, believe, estimate, expect, intend, plan, predict and similar expressions as they relate to us or our management, may identify forward-looking statements. These statements reflect our judgment as of the date of this prospectus supplement with respect to future events, the outcome of which are subject to risks, which may have a significant impact on our business, operating results or financial condition. You are cautioned that these forward-looking statements are inherently uncertain. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results or outcomes may vary materially from those described herein. We undertake no obligation to update forward-looking statements. The risks identified under the heading Risk Factors in the Prospectus, among others, may impact forward-looking statements contained in this prospectus supplement.

Interim Financial Statements Quarter Ended March 31, 2004

Included in this prospectus supplement beginning at page F-1 are our interim financial statements as of and for the three months ended March 31, 2004, included the accompanying footnotes thereto. These interim financial statements, which were included in our Quarterly Report on Form 10-QSB for the quarter ended March 31, 2004, should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2003 that were included in the Prospectus.

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations is derived from our Quarterly Report on Form 10-QSB for the quarter ended March 31, 2004. We have not attempted to update this discussion in any way. You should read the following discussion in conjunction with our condensed consolidated financial statements as of and for the three months ended March 31, 2004 included in this prospectus supplement, as well as our consolidated financial statements and related notes included in the Prospectus.

Overview

Since our inception in October 2000, we have focused our efforts and resources on the development of asymmetric catalysis technology, our primary intellectual property to which we hold an exclusive worldwide license from the Pennsylvania State Research Foundation (PSRF), the technology development arm of the Pennsylvania State University (Penn State). Our license from PSRF covers certain inventions discovered by our Chief Technology Officer (CTO) prior to November 8, 2002.

Since inception we have incurred an accumulated deficit of \$4,152,296 through March 31, 2004. We expect our operating losses to increase significantly over the next several years, primarily due to expansion of our research and development programs, the hiring of additional chemists, and the expansion of our manufacturing capabilities.

Our ability to achieve profitability depends upon, among other things, our ability to discover and develop products (specifically new ligands), and to develop our products on a commercial scale through a cost effective and efficient process. To the extent that we are unable to produce, directly or indirectly, ligands in quantities required for commercial use, we will not realize any significant revenues from our

Edgar Filing: CHIRAL QUEST INC - Form 424B3

technology. Moreover, there can be no assurance that we will ever achieve significant revenues or profitable operations from the sale of any of our products or technologies.

Since our inception, we have generated sales revenue but no net profits. Our management believes that our research and development (R&D) and manufacturing capacity will need to grow in order for us to be able to obtain significant licensing and manufacturing agreements with large fine chemical and pharmaceutical companies. We believe that our manufacturing capacity will continue to be enhanced with the expansion of our new office and laboratory space located in Monmouth Junction, New Jersey that was leased in June 2003.

On February 18, 2003, we acquired Surg II, Inc., a Minnesota corporation (Surg), in a reverse merger transaction (the Merger). Pursuant to the terms of the Merger, Chiral Quest, LLC merged with and into a wholly-owned subsidiary of Surg. In exchange for all of the outstanding membership interests of Chiral Quest, LLC, Surg issued to the former member of Chiral Quest, LLC a number of shares of Surg s common stock that resulted in the members of Chiral Quest, LLC owning two-thirds of Surg s outstanding shares following the Merger. In connection with the Merger, Surg changed its name to Chiral Quest, Inc., a Minnesota corporation, and adopted the business plan of Chiral Quest, LLC. Accordingly, when we refer to our business or financial information relating to periods prior to the Merger, we are referring to the business and financial information of Chiral Quest, LLC, unless the context indicates otherwise.

Results of Operations Three Months Ended March 31, 2004 vs. 2003

Our revenues for the three months ended March 31, 2004 were \$377,923 as compared to \$72,059 for the three months ended March 31, 2003. For the three months ended March 31, 2004, approximately 8% of total revenue was derived from the amortization of option fee income pertaining to the licensing of our intellectual property and 92% of total revenue was derived from sales of our ligands, feasibility screening and customized process development services sold to third parties. For the three months ended March 31, 2003, approximately 46% of total revenue was derived from the amortization of option fee income and 54% of total revenue was comprised of sales of our ligands. It is anticipated that sales of our ligands, molecular building blocks and customized chiral services will continue to comprise a greater percentage of our revenues in the future as we expand our manufacturing capabilities.

Cost of goods sold for three months ended March 31, 2004 was \$83,061 as compared to \$17,859 during the three months ended March 31, 2003. The increase in cost of goods sold is attributed to the materials used in production for projects completed and shipped along with allocation of direct labor and overhead expenses to finished goods.

Management and consulting expenses for the three months ended March 31, 2004 were \$113,232 as compared to \$54,674 during the three months ended March 31, 2003. The overall change for the three months ended March 31, 2004 vs. March 31, 2003 was primarily caused by an increase in consulting expense. Consulting expense increased due to the new consultant agreement entered with our CTO at a rate of \$10,000 per month effective May 15, 2003. In addition, consulting expense increased due to the amortization of stock options issued to consultants, scientific advisory board members, during the second, third and fourth quarters of 2003.

Our R&D expenses for the three months ended March 31, 2004 were \$252,104 as compared to \$96,233 during the three months ended March 31, 2003. This increase was primarily caused by increased utilization of the Penn State research resources in connection with the development of new ligands. The agreement with Penn State which has been extended to October 14, 2004, provides for the Company to fund services of four post-doctorate fellows who, under the supervision of the CTO, conduct research and

Edgar Filing: CHIRAL QUEST INC - Form 424B3

provide research quantities of chiral ligands to the Company. The future obligation payable by the Company through October 14, 2004 as of the end of the agreement is approximately \$146,000. This amount consists principally of four post-doctorate salaries, fringe benefits, materials and supplies for the stated period. In addition, during the second quarter of 2003, we opened an additional laboratory facility in New Jersey that enabled us to produce both research and commercial quantities of our ligands. In connection with the new facility, numerous lab supplies and chemicals were purchased. Accordingly, we incurred increased expenses in the first quarter due to the opening of the New Jersey facility, along with the increased costs of using the facility and chemists at Penn State.

Selling, general and administrative (SG&A) expenses for the three months ended March 31, 2004 were \$415,742 as compared to \$163,484 during the three months ended March 31, 2003. This increase in SG&A expenses was due in part to establishing contract reserves, higher temporary contractor fees, higher legal and accounting fees, increased rent expense for the New Jersey facility, additional spending on advertising and promotion expenses, increased travel expenses for new business development opportunities and higher administrative expenses associated with having more employees such as insurance and employer payroll taxes.

Compensation expense was \$229,585 for the three months ended March 31, 2004 as compared to \$71,125 for the three months ended March 31, 2003. This increase was caused primarily by the new CEO (hired in November 2002) receiving an annual base salary of \$205,000 effective at the date of the Merger with Surg II, Inc., as provided for in his employment agreement. In addition, compensation expense increased due to the hiring of a vice president of business development, a controller, and several chemists to work at the new laboratory facility in New Jersey. Compensation expense as it relates to direct labor for ongoing and completed projects, has been capitalized as part of inventory work in process and finished goods as these cost components relate directly to cost of goods sold.

Depreciation and amortization expenses for the three months ended March 31, 2004 were \$29,997 as compared to \$9,924 during the three months ended March 31, 2003. This increase was primarily related to fixed asset purchases for office equipment, computer equipment, laboratory equipment and leasehold improvements for the newly leased facility in New Jersey.

Our net loss for the three months ended March 31, 2004 was \$741,091 as compared to \$338,290 for the three months ended March 31, 2003. The increased net loss for the three months ended March 31, 2004 as compared to March 31, 2003 was primarily due to higher R&D expenses incurred with funding Penn State s research services provided to the Company, increased operational expenditures comprised of higher total rent expense due to the newly leased New Jersey facility in June 2003, higher legal and accounting expenses, higher payroll expenses associated with having more employees along with higher temporary agency fees, along with the establishment of contract reserves. We expect losses to continue and increase in the next year as we attempt to expand our laboratory space.

Liquidity and Capital Resources

As of March 31, 2004, we had working capital of \$6,144,548 and cash and cash equivalents of \$6,427,609. If we are unable to significantly increase our revenues, we may require additional financing as early as of the second quarter of 2005 in order to continue operations. The most likely source of financing includes private placements of our equity or debt securities or bridge loans to the Company from third party lenders.

The Company s net cash used in operating activities for the three months ended March 31, 2004 was \$911,379, which was primarily attributable to the Company s net loss of \$741,091, along with

inventory purchases of \$71,883, the decreases in accounts payable and accrued expenses of \$164,550, and an increase of accounts receivable of \$57,647.

The Company's net cash used in investing activities for the three months ended March 31, 2004 totaled \$61,760, which consisted of purchases of property and equipment primarily used in the New Jersey facility.

The Company's net cash provided by financing activities for the three months ended March 31, 2004 was \$6,741,631, which was the result of funding provided through the private placement of the Company's common stock.

Management believes that the capital resulting from the private placement will provide sufficient resources to fund our continued operational expansion and corporate development for at least the next twelve months. Our long term liquidity is contingent upon achieving increased sales and/or obtaining additional financing.

Our working capital requirements will depend upon numerous factors, including, without limitation, the progress of our R&D programs, the resources we devote to developing manufacturing and marketing capabilities, technological advances, the status of competitors, and our ability to establish sales arrangements with new customers. Working capital will also be affected by the expansion of office and laboratory space lease agreements that were entered into during the second quarter of 2003 and first quarter of 2004, along with the hiring of additional employees.

We have formed two China subsidiaries through which we intend to open a laboratory facility in the People's Republic of China. We expect to provide at least \$65,000 of capital to the China subsidiary during the second quarter of 2004. Our management believes that by opening a facility in China to produce non-proprietary chemical building blocks and related compounds, we will be able to significantly decrease our manufacturing costs and expenses, enabling us to cost-effectively produce our ligands and end products and make our products substantially more competitive and even more attractive to current and potential customers. We expect operations to commence on a limited basis by June 2004.

Edgar Filing: CHIRAL QUEST INC - Form 424B3

CHIRAL QUEST, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2004

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND LIQUIDITY

(A) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, the financial statements do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete annual financial statements. In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of only normal recurring adjustments, considered necessary for a fair presentation. Interim operating results are not necessarily indicative of results that may be expected for the year ending December 31, 2004 or for any subsequent period. These unaudited condensed consolidated financial statements should be read in conjunction with the Annual Report on Form 10-KSB of Chiral Quest Inc. and its subsidiary (the "Company" or "Chiral Quest") as of and for the year ended December 31, 2003.

(B) Nature of Operations and Liquidity

Since the Company's inception, it has generated sales revenue but no net profits. Management believes that the Company's research and development ("R&D") and manufacturing capacity will need to grow in order for the Company to be able to obtain significant licensing and manufacturing agreements with large fine chemical and pharmaceutical companies. Management believes that the Company's manufacturing capacity will continue to be enhanced with its new office and laboratory space located in Monmouth Junction, New Jersey that was leased in June 2003.

Since inception, the Company has incurred an accumulated deficit of \$4,152,296 through March 31, 2004. For the three months ended March 31, 2004 the Company had a net loss of \$741,091. Management expects the Company's operating losses to increase significantly over the next several years, primarily due to the expansion of its R&D programs, the hiring of additional chemists, and the expansion of its manufacturing capabilities. There can be no assurance that the Company will ever be able to operate profitably.

As of March 31, 2004, the Company had working capital of \$6,144,548 and cash and cash equivalents of \$6,427,609. If the Company is unable to significantly increase its revenues, it will most likely require additional financing perhaps as early as of the second quarter of 2005 in order to continue operations. The most likely sources of financing include private placements of the Company's equity or debt securities or bridge loans to the Company from third party lenders.

The Company's net cash used in operating activities for the three months ended March 31, 2004 was \$911,379. The Company's net cash used in operating activities primarily consisted of a net loss of \$741,091 and a decrease in accounts payable and accrued expenses of \$164,550, an inventory increase of \$71,883 and an increase in accounts receivable of \$57,647.

The Company's net cash used in investing activities for the three months ended March 31, 2004 totaled \$61,760, which consisted of purchases of property and equipment.

The Company's net cash provided by financing activities for the three months ended March 31, 2004 was \$6,741,631. Financing activities consisted of the cash received in the private placement of the Company's common stock on February 25, 2004.

CHIRAL QUEST, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2004

Management anticipates that the Company's capital resources will be adequate to fund its operations through at least March 31, 2005. However, changes may occur that would consume available capital resources before that time. The Company's combined capital requirements will depend on numerous factors, including: competing technological and market developments, changes in our existing collaborative relationships, the cost of filing, prosecuting, defending and enforcing patent claims and other intellectual property rights and the outcome of any potentially related litigation or other dispute, the purchase of additional capital equipment, acquisition of technologies, and the development and regulatory approval progress of its customers' product candidates into which the Company's technology will be incorporated.

Additional capital that may be needed by the Company in the future may not be available on reasonable terms, or at all. If adequate financing is not available, the Company may be required to terminate or significantly curtail its operations, or enter into arrangements with collaborative partners or others that may require the Company to relinquish rights to certain of its technologies, or potential markets that the Company would not otherwise relinquish.

The Company's ability to achieve profitability depends upon, among other things, its ability to discover and develop products (specifically new "ligands"), and to develop its products on a commercial scale through a cost effective and efficient process. To the extent that the Company is unable to produce, directly or indirectly, ligands in quantities required for commercial use, it will not realize any significant revenues from its technology. Moreover, there can be no assurance that it will ever achieve significant revenues or profitable operations from the sale of any of its products or technologies.

(C) Stock-Based Compensation

The Company accounts for its employee and director stock option plans using the intrinsic value method in accordance with APB Opinion No. 25, "*Accounting For Stock Issued To Employees*," and related interpretations. The Company measures compensation expense for employee and director stock options as the aggregate difference between the market value of its common stock and exercise prices of the options on the date that both the number of shares the grantee is entitled to receive and the exercise prices are known. For pro forma disclosure purposes, the Company values option issuances using the Black-Scholes option pricing model, with the following assumptions for the three months ended March 31, 2004: risk-free interest rate of 2% to 4%, volatility of 70% to 130%, lives of 5 to 10 years, and an assumed dividend yield of 0%. If the Company had elected to recognize compensation cost for all outstanding options granted by the Company to employees by applying the fair value recognition provisions of SFAS No. 123 "*Accounting for Stock Based Compensation*," to employee stock options, net loss and loss per share would have been increased to the pro forma amounts indicated below:

CHIRAL QUEST, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2004

	Three months ended March 31, 2004
Net loss as reported	\$ (741,091)
Total stock-based employee compensation expense using the fair value based method for all awards, net of related tax effects	(213,247)
Net loss, pro forma	\$ (954,338)
Basic and diluted net loss per common share:	
As reported	\$ (0.05)
Pro forma	\$ (0.06)

In addition, options are issued to non-employees such as consultants, scientific advisory board members and directors. Any options issued to non-employees are recorded in the consolidated financial statements as deferred expenses in the stockholders' equity section using the fair value method and then amortized to expense over the applicable service periods.

(D) Loss Per Share

Basic net loss per share is calculated by dividing net loss by the weighted-average number of shares outstanding for each period presented. Diluted net loss per share is the same as basic net loss per share, since potentially dilutive securities from the assumed exercise of stock options and stock warrants would have had an antidilutive effect because the Company incurred a net loss during each period presented. The amount of potentially dilutive securities excluded from the calculation was 2,846,607 at March 31, 2004. There were 1,547,855 potentially dilutive securities at March 31, 2003.

NOTE 2 INVENTORY

The principal components of inventory are as follows:

	March 31, 2004 (Unaudited)	December 31, 2003
Raw material compounds	\$ 42,831	\$ 25,796
Work in process	101,620	42,251
Finished goods	4,324	8,845
Total Inventory	\$ 148,775	\$ 76,892

NOTE 3 STOCKHOLDERS' EQUITY

On February 25, 2004, the Company completed the sale of its securities in a private placement to accredited investors for gross proceeds of approximately \$7.2 million. Investors in the private placement purchased an aggregate of approximately 4.8 million shares of the Company's common stock at a price per share of \$1.50. Additionally, investors received 5-year warrants to purchase one share of common stock at \$1.65 per share for every two common shares purchased in the offering. ThinkEquity Partners LLC, Paramount BioCapital, Inc. and Casimir Capital L.P. acted as the placement agents for this offering and received fees of approximately \$500,000 of which Paramount BioCapital, Inc., a related party, received \$300,000. Net proceeds to the Company, after deducting placement agent fees and other expenses relating to the private placement, were approximately \$6.7 million.

NOTE 4 COMMITMENTS AND CONTINGENCIES

In April 2004, the Company appointed Ronald Brandt to be its interim Chief Executive Officer. See "Note 5 Subsequent Events." Mr. Brandt will also continue to serve as the Company's Vice President of Business Development. Mr. Brandt's employment with the Company is governed pursuant to a three-year employment agreement entered into in October 2003, pursuant to which he is entitled to an annual base salary of \$165,000. Mr. Brandt is also entitled to receive bonuses based on the Company's gross revenues, as follows:

(i) A one time payment of \$50,000 upon the completion of the first two consecutive fiscal quarters in which the Company has gross revenue in excess of \$1,000,000;

(ii) A one time payment of \$75,000 upon the completion of the first two consecutive fiscal quarters in which the Company has gross revenue in excess of \$2,500,000;

(iii) For each fiscal quarter in which the Company has gross revenue in excess of \$2,500,000 following the first two consecutive fiscal quarters described in (ii) above, the Company will remit to the Executive a payment of \$10,000.

(iv) A one time payment of \$100,000 upon the completion of the first two consecutive fiscal quarters in which the Company has gross revenue in excess of \$5,000,000;

(v) For each fiscal quarter in which the Company has gross revenue in excess of \$5,000,000 following the first two consecutive fiscal quarters described in (iv) above, the Company will remit to the Executive a payment of \$10,000 (in addition to the \$10,000 payment in (iv) above);

In the event Mr. Brandt's employment is terminated by the Company upon a "change of control" (as defined in the employment agreement), or for a reason other than "disability" or "cause" (as those terms are defined in the employment agreement), the Company has agreed to pay Mr. Brandt his base salary for 6 months, plus accrued bonuses, provided, that the Company's obligation to continue paying his base salary for a 6-month period will be reduced by the amount Mr. Brandt earns from other employment during that period.

In connection with his employment agreement, the Company also granted to Mr. Brandt an option to purchase 175,000 shares of common stock at a price of \$1.67 per share, which vests in three equal annual installments beginning October 2004. Further, following his appointment as interim chief executive officer in April 2004, Mr. Brandt received an option to purchase an additional 25,000 shares at \$1.40 per share, which vests in 3 equal installments beginning April 2005.

NOTE 5 SUBSEQUENT EVENTS

In April 2004, Alan D. Roth, Ph.D., the Company's President, Chief Executive Officer and Chief Financial Officer, resigned from those positions. Dr. Roth also resigned from the Company's board of directors. Dr. Roth will continue to be employed by the Company until June 30, 2004, or such earlier date as Dr. Roth determines, in order to assist the Company as it transitions to a new chief executive officer. During this transition period, Dr. Roth will continue to receive his annualized base salary of \$240,000. In connection with his separation, the Company has agreed to pay Dr. Roth a severance fee of \$375,000, less the amount of salary paid to him during the remaining period of his employment. The severance will be expensed in the second quarter of 2004. Dr. Roth has also agreed to terminate all of his outstanding 865,230 stock options.
