The preparation of these financial statements requires the Company to make

## Edgar Filing: MULTI TECH INTERNATIONAL CORP - Form 10QSB

estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to bad debts, income taxes and contingencies and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

### RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

#### Recent Accounting Pronouncements Affecting The Company:

In December 2004, the FASB issued SFAS No. 123 (revised 2004), or SFAS 123R, "Share-Based Payment." This statement replaces SFAS 123, "Accounting for Stock-Based Compensation" and supersedes Accounting Principles Board's Opinion No. 25 (ABP 25), "Accounting for Stock Issued to Employees." SFAS 123R will require us to measure the cost our employee stock-based compensation awards granted after the effective date based on the grant date fair value of those awards and to record that cost as compensation expense over the period during which the employee is required to perform services in exchange for the award (generally over the vesting period of the award). SFAS 123R addresses all forms of share-based payments awards, including shares issued under employee stock purchase plans, stock option, restricted stock and stock appreciation rights. In addition, we will be required to record compensation expense (as previous awards continue to vest) for the unvested portion of previously granted awards that remain outstanding at the date of adoption. SFAS 123R is effective for fiscal periods beginning after September 15, 2005. Therefore, we are required to implement the standard no later than our third fiscal quarter which begins on July 1, 2005. SFAS 123R permits public companies to adopt its requirements using the following methods: (1) a "modified prospective" method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS 123R for all share-based payments granted after the effective date and (b) based on the requirements of SFAS 123 for all awards granted to employees prior to the effective date of SFAS 123R that remain unvested on the effective date; or (2) a "modified retrospective" method which includes the requirements of the modified prospective method described above, but also permits entities to restate their financial statements based on the amounts previously recognized under SFAS 123 for purposes of pro forma disclosures for either (a) all prior periods presented or (b) prior interim periods of the year of adoption.
