EAGLE BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with instructions for Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, such information reflects all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of results for the unaudited interim periods.

The results of operations for the three and nine month periods ended March 31, 2007 are not necessarily indicative of the results to be expected for the fiscal year ending June 30, 2007 or any other period. The unaudited consolidated financial statements and notes presented herein should be read in conjunction with the audited consolidated financial statements and related notes thereto included in Eagle's Form 10-KSB dated June 30, 2006.

NOTE 2: INVESTMENT SECURITIES

NOTE 4: DEPOSITS

Deposits are summarized as follows:

	March 31, 2007	June 30, 2006
	(Unaudited)	(Audited)
<i>(Dollars in Thousands)</i>		
Noninterest checking	\$ 13,552	\$ 12,575
Interest-bearing checking	32,227	29,571
Passbook	23,545	24,438
Money market	24,294	29,129
Time certificates of deposit	87,740	78,629
Total	\$ 181,358	\$ 174,342

NOTE 5: EARNINGS PER SHARE

Basic earnings per share for the three months ended March 31, 2007 is computed using 1,072,347 weighted average shares outstanding. Earnings per share for the nine months ended March 31, 2007 is computed using 1,072,849 weighted average shares outstanding. Basic earnings per share for the three months ended March 31, 2006 is computed using 1,077,376 weighted average shares outstanding. Earnings per share for the nine months ended March 31, 2006 is computed using 1,078,540 weighted average shares outstanding. Diluted earnings per share is computed using the treasury stock method by adjusting the number of shares outstanding by the shares purchased. The weighted average shares outstanding for the diluted earnings per share calculations are 1,210,162 for the three months ended March 31, 2007 and 1,209,011 for the nine months ended March 31, 2007. Diluted earnings per share for the three months and nine months ended March 31, 2006 is computed using 1,205,562 and 1,204,411 weighted average shares outstanding, respectively.

NOTE 6: DIVIDENDS AND STOCK REPURCHASE PROGRAM

This fiscal year Eagle has paid three dividends of \$0.22 per share, on August 25, 2006, November 17, 2006 and February 9, 2007. A dividend of \$0.22 per share was declared on April 19, 2007, payable May 18, 2007 to stockholders of record on May 4, 2007. Eagle Financial MHC, Eagle's mutual holding company, has waived the receipt of dividends on its 648,493 shares.

At their regular meeting of July 21, 2005, the Company's Board of Directors approved a stock repurchase program for up to 28,750 shares. This represents approximately 6% of the outstanding common stock held by the public. The repurchased shares will be held as treasury stock and will be held for general corporate purposes and/or issuance pursuant to Eagle's benefit plans. As of May 5, 2007, 23,215 shares have been purchased under this program.

EAGLE BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 7: MORTGAGE SERVICING RIGHTS

The Bank allocates its total cost in mortgage loans between mortgage servicing rights and loans, based upon their relative fair values, when loans are subsequently sold or securitized, with the servicing rights retained. Fair values are generally obtained from an independent third party. Impairment of mortgage servicing rights is measured based upon the characteristics of the individual loans, including note rate, term, underlying collateral, current market conditions, and estimates of net servicing income. If the carrying value of the mortgage servicing rights exceeds the estimated fair market value, a valuation allowance is established for any decline, which is viewed to be temporary. Charges to the valuation allowance are charged against or credited to mortgage servicing income. Periodic independent valuations of the mortgage servicing rights are performed. As a result of the most recent valuation, no temporary decline in the fair value was determined to have occurred, and no valuation allowance has been established. The following schedules show the activity in the mortgage servicing rights and the valuation allowance.

ITEM 2: MANAGEMENT'S DISCUSSIONS AND ANALYSIS OR PLAN OF OPERATION

Note Regarding Forward-Looking Statements

This report contains certain “forward-looking statements.” Eagle Bancorp (“Eagle” or the “Company”) desires to take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 and is including this statement for the express purpose of availing itself of the protections of the safe harbor with respect to all such forward-looking statements. These forward-looking statements, which are included in Management’s Discussion and Analysis, describe future plans or strategies and include Eagle’s expectations of future financial results. The words “believe,” “expect,” “anticipate,” “estimate,” “project”, and similar expressions identify forward-looking statements. Eagle’s ability to predict results or the effect of future plans or strategies or qualitative or quantitative changes based on market risk is inherently uncertain. Factors which could affect actual results but are not limited to include (i) change in general market interest rates, (ii) general economic conditions, (iii) local economic conditions, (iv) legislative/regulatory changes, (v) monetary and fiscal policies of the U.S. Treasury and Federal Reserve, (vi) changes in the quality or composition of Eagle’s loan and investment portfolios, (vii) demand for loan products, (viii) deposit flows, (ix) competition, and (x) demand for financial services in Eagle’s markets. These factors should be considered in evaluating the forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements which speak only as of their dates.

Overview

The Company’s primary activity is its ownership of its wholly owned subsidiary, American Federal Savings Bank (the “Bank”). The Bank is a federally chartered savings bank, engaging in typical banking activities: acquiring deposits from local markets and investing in loans and investment securities. The Bank’s primary component of earnings is its net interest margin (also called spread or margin), the difference between interest income and interest expense. The net interest margin is managed by management (through the pricing of its products and by the types of products offered and kept in portfolio), and is affected by moves in interest rates. Noninterest income in the form of fee income and gain on sale of loans adds to the Bank’s income.

The Bank has a strong mortgage lending focus, with the majority of its loans in single-family residential mortgages. This has led to successfully marketing home equity loans to its customers, as well as a wide range of shorter term consumer loans for various personal needs (automobiles, recreational vehicles, etc.). In recent years the Bank has focused on adding commercial loans to its portfolio, both real estate and non-real estate. The purpose of this diversification is to mitigate the Bank’s dependence on the mortgage market, as well as to improve its ability to manage its spread. The Bank’s management recognizes the need for sources of fee income to complement its margin, and the Bank now maintains a significant loan serviced portfolio, which provides a steady source of fee income. The gain on sale of loans also provides significant fee income in periods of high mortgage loan origination volumes. Fee income is also supplemented with fees generated from the Bank’s deposit accounts. The Bank has a high percentage of non-maturity deposits, such as checking accounts and savings accounts, which allows management flexibility in managing its spread. Non-maturity deposits do not automatically reprice as interest rates rise, as do certificates of deposit.

For the past two years, management’s focus has been on improving the Bank’s core earnings. Core earnings can be described as income before taxes, with the exclusion of gain on sale of loans and adjustments to the market value of the Bank’s loan serviced portfolio. Management believes that the Bank will need to continue to focus on increasing net interest margin, other areas of fee income, and control operating expenses to achieve earnings growth going forward. Management’s strategy of growing the bank’s loan portfolio and deposit base is expected to help achieve these goals:

loans typically earn higher rates of return than investments; a larger deposit base will yield higher fee income; increasing the asset base will reduce the relative impact of fixed operating costs. The biggest challenge to the strategy is funding the growth of the Bank's balance sheet in an efficient manner. Deposit growth will be difficult to maintain due to fierce competition and wholesale funding (which is usually more expensive than retail deposits) will likely be needed to supplement deposit growth.

The level and movement of interest rates impacts the Bank's earnings as well. The yield curve continues to be flat, i.e. short-term interest rates are approximately at the same level as long-term interest rates. This can have a negative impact on the Bank's net interest margin as its deposits are typically priced relative to short-term rates, while the majority of its loan products are priced relative to long-term rates. The Bank has been able to partially offset this effect by reinvesting investment proceeds in the loan portfolio, because as noted earlier, loans typically earn higher rates of return than investments. Additionally, many of the Bank's investments which mature in the coming year are at low (below current market) interest rates, affording an opportunity to reinvest the proceeds at the current higher rates and increasing interest income in the coming quarters.

Financial Condition

Comparisons of results in this section are between the nine months ended March 31, 2007 and June 30, 2006.

EAGLE BANCORP AND SUBSIDIARY

Total assets increased by \$15.47 million, or 6.84%, to \$241.65 million at March 31, 2007, from \$226.18 million at June 30, 2006. Total liabilities increased by \$13.64 million to \$217.27 million at March 31, 2007, from \$203.63 million at June 30, 2006. Total equity increased \$1.83 million to \$24.38 million at March 31, 2007 from \$22.55 million at June 30, 2006.

Loans receivable increased \$10.40 million, or 7.38%, to \$151.26 million at March 31, 2007 from \$140.86 million at June 30, 2006. The commercial real estate and land loan category showed the largest increase of \$5.64 million in the nine month period (see Note 3 to the financial statements on page 9 for more details). Total loan originations were \$90.80 million for the nine months ended March 31, 2007, with single family mortgages accounting for \$47.14 million of the total. Construction loan originations (including those for commercial real estate and land development loans) totaled \$15.66 million. Home equity and commercial real estate and land loan originations totaled \$12.92 million and \$9.26 million, respectively, for the same period. Consumer loan originations totaled \$3.85 million. Loans held for sale increased to \$1.77 million at March 31, 2007 from \$918,000 at June 30, 2006. Investment securities available-for-sale (AFS) increased \$3.12 million, or 4.86%, to \$67.32 million at March 31, 2007 from \$64.20 million at June 30, 2006. The investment category with the largest increase was collateralized mortgage obligations, which increased \$2.81 million.

Deposits increased \$7.02 million, or 4.03%, to \$181.36 million at March 31, 2007 from \$174.34 million at June 30, 2006. Certificates of deposit (CDs) had the largest increase, primarily due to the issuance of \$4.4 million in brokered CDs. Checking accounts also increased, while money market accounts decreased. Advances and other borrowings increased \$6.33 million, to \$28.70 million from \$22.37 million.

Total equity increased as a result of earnings for the nine months of \$1.34 million, and a decrease in other comprehensive loss of \$881,000 (due to a decrease in net unrealized loss on securities available-for-sale) offset by purchases of treasury stock and the payment of three quarterly \$0.22 per share regular cash dividends.

Results of Operations for the Three Months Ended March 31, 2007 and 2006

Net Income. Eagle's net income was \$453,000 and \$403,000 for the three months ended March 31, 2007, and 2006, respectively. The increase in net income of \$50,000, or 12.41%, was due to an increase in noninterest income of \$70,000 and net interest income of \$48,000, offset by an increase in noninterest expense of \$26,000. Eagle's tax provision was \$42,000 higher in the current quarter. Basic earnings per share were \$0.42 for the current period, compared to \$0.37 for the previous year's period.

Net Interest Income. Net interest income increased \$48,000 for the current quarter. Total interest and dividend income increased \$599,000, which was partially offset by the increase in interest expense of \$551,000.

Interest and Dividend Income. Total interest and dividend income was \$3.260 million for the quarter ended March 31, 2007, compared to \$2.661 million for the quarter ended March 31, 2006, representing an increase of \$599,000, or 22.51%. Interest and fees on loans increased to \$2.509 million for the three months ended March 31, 2007 from \$1.978 million for the same period ended March 31, 2006. This increase of \$531,000, or 26.85%, was due primarily to the increase in the average balances. Average balances for loans receivable, net, increased for the quarter ended March 31, 2007 to \$150.83 million, compared to \$127.07 million for the previous year. This represents an increase of \$23.76 million, or 18.70%. The average interest rate earned on loans receivable increased by 42 basis points, from 6.23% to 6.65%. The collection of interest on a large commercial loan which had previously been on non-accrual also contributed to the increase in interest income on loans.

Interest and dividends on investment securities available-for-sale (AFS) increased to \$726,000 for the quarter ended March 31, 2007 from \$665,000 for the same quarter last year. Average balances on investments decreased slightly to \$67.47 million for the quarter ended March 31, 2007, compared to \$67.96 million for the quarter ended March 31, 2006. The average interest rate earned on investments increased to 4.37% from 3.99%.

EAGLE BANCORP AND SUBSIDIARY

Results of Operations for the Three Months Ended March 31, 2007 and 2006 - continued

Interest Expense. Total interest expense increased to \$1.532 million for the quarter ended March 31, 2007, from \$981,000 for the quarter ended March 31, 2006, an increase of \$551,000, or 56.17%, as interest paid on both borrowings and deposits increased. Interest on deposits increased to \$1.072 million for the quarter ended March 31, 2007. This increase of \$302,000, or 39.22%, was primarily due to increases in average rates paid, as average balances increased slightly. The average rate paid on deposits increased 70 basis points from the quarter ended March 31, 2006 to the quarter ended March 31, 2007. Money market accounts and certificates of deposit had increases in average rates paid, while rates on passbook savings and checking accounts were unchanged. A significant increase in the average balance of borrowings, as well as an increase in the average rate paid, resulted in an increase in interest paid on borrowings to \$460,000 in the current quarter compared to \$211,000 in the previous year's quarter.

Provision for Loan Losses. Provisions for loan losses are charged to earnings to maintain the total allowance for loan losses at a level considered adequate by the Bank, to provide for probable loan losses based on prior loss experience, volume and type of lending conducted by the Bank, available peer group information, and past due loans in portfolio. The Bank's policies require the review of assets on a quarterly basis. The Bank classifies loans as well as other assets if warranted. While the Bank believes it uses the best information available to make a determination with respect to the allowance for loan losses, it recognizes that future adjustments may be necessary. No provision was made for loan losses for either the quarter ended March 31, 2007 or the quarter ended March 31, 2006. This is a reflection of the continued strong asset quality of the Bank's loan portfolio. Total classified assets decreased from \$700,000 at June 30, 2006 to \$278,000 at March 31, 2007. The Bank currently has no foreclosed real estate.

Noninterest Income. Total noninterest income increased to \$544,000 for the quarter ended March 31, 2007, from \$474,000 for the quarter ended March 31, 2006, an increase of \$70,000 or 14.77%. This was primarily due to an increase in net gain on sale of loans of \$83,000. Management has chosen to sell a larger percentage of residential mortgage originations to provide for additional fee income. The other categories of noninterest income had small changes.

Noninterest Expense. Noninterest expense increased by \$26,000 or 1.59% to \$1.660 million for the quarter ended March 31, 2007, from \$1.634 million for the quarter ended March 31, 2006. This increase was primarily due to increases in salaries and benefits of \$25,000 and legal and accounting fees of \$15,000, partially offset by decreases in "other" noninterest expense of \$10,000 (lower credit card expenses) and furniture and fixtures depreciation of \$9,000 (items becoming fully depreciated). The increase in salaries and benefits was due to normal merit increases. The increase in legal and accounting fees was due to outsourcing the Bank's internal audit function and higher legal fees at the holding company level. Other expense categories showed minor changes.

Income Tax Expense. Eagle's income tax expense was \$159,000 for the quarter ended March 31, 2007, compared to \$117,000 for the quarter ended March 31, 2006. The effective tax rate for the quarter ended March 31, 2007 was 25.98% and was 22.50% for the quarter ended March 31, 2006.

Results of Operations for the Nine Months Ended March 31, 2007 and 2006

Net Income. Eagle's net income was \$1.336 million and \$1.347 million for the nine months ended March 31, 2007 and 2006, respectively. The decrease of \$11,000, or 0.82%, was due to an increase in noninterest expense of \$74,000 and a decrease in net interest income of \$28,000, partially offset by an increase in noninterest income of \$39,000. Eagle's tax provision was \$52,000 lower in the current nine month period. Basic earnings per share were \$1.25 in each nine month period.

Net Interest Income. Net interest income decreased to \$5.012 million for the nine months ended March 31, 2007 from \$5.040 million for the nine months ended March 31, 2006. This decrease of \$28,000 was the result of an increase in interest expense of \$1.699 million, partially offset by an increase in interest and dividend income of \$1.671 million.

EAGLE BANCORP AND SUBSIDIARY

Results of Operations for the Nine Months Ended March 31, 2007 and 2006 - continued

Interest and Dividend Income. Total interest and dividend income was \$9.356 million for the nine months ended March 31, 2007, compared to \$7.685 million for the same period ended March 31, 2006, representing an increase of \$1.671 million, or 21.74%. Interest and fees on loans increased to \$7.198 million for 2007 from \$5.665 million for 2006. This increase of \$1.533 million, or 27.06%, was due primarily to an increase in the average balances of loans receivable for the nine months ended March 31, 2007. Average balances for loans receivable, net, for this period were \$147.68 million, compared to \$120.44 million for the previous year's period. This is an increase of \$27.24 million, or 22.62%. The average interest rate earned on loans receivable increased by 23 basis points, to 6.50%. Interest and dividends on investment securities available-for-sale (AFS) increased to \$2.082 million for the nine months ended March 31, 2007 from \$1.928 million for the nine months ended March 31, 2006. Interest on securities held-to-maturity (HTM) decreased to \$33,000 from \$40,000. Average balances on investment securities decreased to \$66.65 million for the nine months ended March 31, 2007 compared to \$70.73 million for the same period ended March 31, 2006. The average interest rate earned on investments increased 52 basis points, to 4.23% from 3.71%.

Interest Expense. Total interest expense increased to \$4.344 million for the nine months ended March 31, 2007 from \$2.645 million for the nine months ended March 31, 2006, an increase of \$1.699 million, or 64.23%. Interest on deposits increased to \$3.048 million for the nine months ended March 31, 2007 from \$2.153 million for the nine months ended March 31, 2006. This increase of \$895,000, or 41.57%, was the result of an increase in average rates paid on deposit accounts accompanied by a small increase in average balances in deposit accounts. Average rates paid on deposits increased 71 basis points from 2006 to 2007. Money market accounts and certificates of deposit had increases in average rates paid, while checking accounts and passbook savings rates were unchanged. Average balances in interest-bearing deposits increased to \$162.53 million for the nine month period ended March 31, 2007 compared to \$160.76 million for the same period in the previous year. Interest paid on borrowings increased to \$1.296 million for the nine months ended March 31, 2007 from \$492,000 for the same period ended March 31, 2006. The increase was due to increases in the average balances of borrowings from \$14.58 million in 2006 to \$33.28 million in 2007. The average rate paid on borrowings increased 69 basis points from 2006 to 2007.

Provision for Loan Losses. Provisions for loan losses are charged to earnings to maintain the total allowance for loan losses at a level considered adequate by the Bank, to provide for probable loan losses based on prior loss experience, volume and type of lending conducted by the Bank, available peer group information, and past due loans in portfolio. The Bank's policies require the review of assets on a quarterly basis. The Bank classifies loans as well as other assets if warranted. While the Bank believes it uses the best information available to make a determination with respect to the allowance for loan losses, it recognizes that future adjustments may be necessary. No provision was made for loan losses for either of the nine month periods ended March 31, 2007 or March 31, 2006. This is a reflection of the continued strong asset quality of the Bank's loan portfolio. Total classified assets decreased to \$278,000 at March 31, 2007 from \$700,000 at June 30, 2006. The Bank currently has no foreclosed real estate.

Noninterest Income. Total noninterest income increased to \$1.673 million for the nine months ended March 31, 2007, from \$1.634 million for the nine months ended March 31, 2006, an increase of \$39,000, or 2.39%. This was due to increases in net gain on sale of loans and other noninterest income, offset by smaller declines in the other categories of noninterest income. Net gain on sale of loans was higher due to selling a higher percentage of mortgage originations. The increase in other noninterest income was due primarily to increased fee income on electronic payments.

Noninterest Expense. Noninterest expense increased by \$74,000, or 1.52% to \$4.937 million for the nine months ended March 31, 2007, from \$4.863 million for the nine months ended March 31, 2006. This increase was primarily due to increases in legal and accounting fees of \$44,000, advertising expense of \$40,000 and salaries and benefits of \$39,000. Legal and accounting fees were higher due to the outsourcing of the Bank's internal audit function and higher

legal fees at the holding company level. Advertising expenses were higher due to increased promotion of deposit products. The increase in salaries and benefits was primarily due to normal raises. These were partially offset by a decrease in the amortization of mortgage servicing fees of \$50,000, due to a slowdown in mortgage loan prepayments. Other categories of noninterest expense showed modest changes.

Income Tax Expense. Eagle's income tax expense was \$412,000 for the nine months ended March 31, 2007, compared to \$464,000 for the nine months ended March 31, 2006. The effective tax rate for the nine months ended March 31, 2007 was 23.57% and was 25.62% for the nine months ended March 31, 2006.

EAGLE BANCORP AND SUBSIDIARY

Liquidity, Interest Rate Sensitivity and Capital Resources

The company's subsidiary, American Federal Savings Bank (the Bank), is required to maintain minimum levels of liquid assets as defined by the Office of Thrift Supervision (OTS) regulations. The OTS has eliminated the statutory requirement based upon a percentage of deposits and short-term borrowings. The OTS states that the liquidity requirement is retained for safety and soundness purposes, and that appropriate levels of liquidity will depend upon the types of activities in which the company engages. For internal reporting purposes, the Bank uses the previous regulatory definitions of liquidity. The Bank's average liquidity ratio was 15.05% and 15.94% for the months ended March 31, 2007 and March 31, 2006, respectively.

The Bank's primary sources of funds are deposits, repayment of loans and mortgage-backed securities, maturities of investments, funds provided from operations, and advances from the Federal Home Loan Bank of Seattle. Scheduled repayments of loans and mortgage-backed securities and maturities of investment securities are generally predictable. However, other sources of funds, such as deposit flows and loan prepayments, can be greatly influenced by the general level of interest rates, economic conditions and competition. The Bank uses liquidity resources principally to fund existing and future loan commitments. It also uses them to fund maturing certificates of deposit, demand deposit withdrawals and to invest in other loans and investments, maintain liquidity, and meet operating expenses.

Liquidity may be adversely affected by unexpected deposit outflows, higher interest rates paid by competitors, and similar matters. Management monitors projected liquidity needs and determines the level desirable, based in part on commitments to make loans and management's assessment of the bank's ability to generate funds.

At December 31, 2006 (the most recent report available), the Bank's measure of sensitivity to interest rate movements, as measured by the OTS, improved from the previous quarter. The Bank's capital ratio as measured by the OTS decreased slightly during the same period. The Bank is well within the guidelines set forth by the Board of Directors for interest rate risk sensitivity. During the current quarter, the Bank purchased an interest rate cap in the nominal amount of \$15 million. The cap is tied to the London Interbank Borrowing Rate (LIBOR) and is intended to offset potential increases in interest rate expenses to the Bank's retail certificate of deposit base. Management has determined that the interest rate cap does not qualify for hedge accounting, and that it will be carried at fair value, with any subsequent changes in its value shown in the income statement. As of March 31, 2007 the interest rate cap had declined in value by approximately \$17,000 (from a purchase price of \$32,000).

As of March 31, 2007, the Bank's regulatory capital was in excess of all applicable regulatory requirements. At March 31, 2007, the Bank's tangible, core, and risk-based capital ratios amounted to 10.65%, 10.65%, and 14.89%, respectively, compared to regulatory requirements of 1.5%, 3.0%, and 8.0%, respectively. See the following table (amounts in thousands):

	(Unaudited) At March 31, 2007	
	Dollar Amount	For Capital Adequacy Purposes % of Assets
Tangible capital:		
Capital level	\$ 25,330	10.65%
Requirement	3,567	1.50
Excess	\$ 21,763	9.15%
Core capital:		

Edgar Filing: EAGLE BANCORP/MT - Form 10QSB

Capital level	\$	25,330	10.65%
Requirement		7,134	3.00
Excess	\$	18,196	7.65%
Risk-based capital:			
Capital level	\$	25,816	14.89%
Requirement		13,868	8.00
Excess	\$	11,948	6.89%

EAGLE BANCORP AND SUBSIDIARY

Impact of Inflation and Changing Prices

Our financial statements and the accompanying notes have been prepared in accordance with generally accepted accounting principles, which require the measurement of financial position and operating results in terms of historical dollars without considering the change in the relative purchasing power of money over time and due to inflation. The impact of inflation is reflected in the increased cost of our operations. Interest rates have a greater impact on our performance than do the general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.

Application of Critical Accounting Policies

There are a number of accounting estimates performed by the Company in preparing its financial statements. Some of the estimates are developed internally, while others are obtained from independent third parties. Examples of estimates using external sources are the fair market value of investment securities, fair value of mortgage servicing rights, deferred compensation, and appraised value of foreclosed properties. It is management's assertion that the external sources have access to resources, methodologies, and markets that provide adequate assurances that no material impact would occur due to changes in assumptions. The following accounting estimates are performed internally:

Allowance for Loan and Lease Losses (ALLL)- Management applies its knowledge of current local economic and real estate market conditions, historical experience, loan portfolio composition, and the assessment of delinquent borrowers' situations, to determine the adequacy of its ALLL reserve. These factors are reviewed by the Bank's federal banking regulator and the Company's external auditors on a regular basis. The current level of the ALLL reserve is deemed to be more than adequate given the above factors, with no material impact expected due to a difference in the assumptions.

Deferred Loan Fees - Management applies time study and statistical analysis to determine loan origination costs to be capitalized under FAS 91. The analysis is reviewed by the Company's external auditors for reasonableness. No material impact is expected if different assumptions are used, as many of our loans have a short duration.

Deferred Tax Assets - Management expects to realize the deferred tax assets due to the continued profitability of the Company.

Fair Value of Other Financial Instruments - Management uses an internal model to determine fair value for its loan portfolio and certificates of deposit. The assumptions entail spreads over the Treasury yield curve at appropriate maturity benchmarks. Assumptions incorporating different spreads would naturally deliver varying results, however due to short-term nature of the loan portfolio and certificates of deposit, changes in the results would be mitigated. Currently, the fair value is only presented as footnote information, and changes due to new assumptions would not, in management's opinion, affect the reader's opinion of the Company's financial condition.

Economic Life of Fixed Assets - Management determines the useful life of its buildings, furniture, and equipment for depreciation purposes. These estimates are reviewed by the Company's external auditors for reasonableness. No material impact is expected if different assumptions were to be used.

EAGLE BANCORP AND SUBSIDIARY

ITEM 3: CONTROLS AND PROCEDURES

Based on their evaluation, the Company's Chief Executive Officer, Larry A. Dreyer, and Chief Financial Officer, Peter J. Johnson, have concluded the Company's disclosure controls and procedures are effective as of March 31, 2007 to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. During the last fiscal quarter, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

EAGLE BANCORP AND SUBSIDIARY

Part II - OTHER INFORMATION

Item 1. Legal Proceedings.

Neither the Company nor the Bank is involved in any pending legal proceedings other than non-material legal proceedings occurring in the ordinary course of business.

Item 2. Unregistered Sales of Equity Securities Use of Proceeds.

c) Small Business Issuer Purchases of Equity Securities.

The following table summarizes the Company's purchases of its common stock for the three months ended March 31, 2007.

Period	(a) Total Number of Shares Purchased*	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 2007 1-1-07 to 1-31-07	1,200	\$ 33.00	1,200	5,535
February 2007 2-1-07 to 2-28-07	None	N/A	N/A	N/A
March 2007 3-1-07 to 3-31-7	None	N/A	N/A	N/A
Total	1,200	\$ 33.00	1,200	N/A

*The Company publicly announced a stock repurchase program on July 21, 2005. The Company is authorized to acquire up to 28,750 shares of common stock with the price subject to market conditions. No expiration date was set for the repurchase program. As of May 5, 2007, 23,215 shares had been repurchased.

Item 3. Defaults Upon Senior Securities.

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders.

Non applicable.

Item 5. Other Information.

None.
