Industrias Bachoco Announces First Quarter 2009
Results

Celaya, Gto., Mexico, - April 20, 2008 - Industrias Bachoco S.A.B. de C.V. (“Bachoco” or “the Company”) (NYSE: IBA; BMV: Bachoco), Mexico’s leading producer and processor of poultry products, announced today its unaudited results corresponding to the first quarter ended March 31, 2009. All figures have been prepared in accordance with Mexican GAAP. In line with the Mexican Accounting Principles, data is presented in nominal Mexican pesos.

Highlights:

- The Company recorded, once again, the highest sales level for a quarter in the Company’s history, with total sales increasing 23.7% when compared with the same quarter of 2008.
- Bachoco sales rose across its main business lines: 28.2% in chicken, 11.0% in table eggs and 45.9% in swine, as supply conditions improved in the market.
- Operating profit increased 102.5% during the quarter, while EBITDA was 66.3% higher at Ps. 654.3 million in 1Q09 from Ps. 393.3 million in 1Q08.
- EPS was Ps. 0.46 (US\$ 0.39 per ADS) versus Ps. 0.38 (US\$ 0.32 per ADS) in 1Q08.

CEO’s Comments:

Cristóbal Mondragon, Bachoco’s CEO, stated, “During the quarter, the Mexican economy continued slowing down following the global trend, and we continued to experience a further depreciation of the Mexican peso against the U.S. dollar.

“In our industry, however, there was a favorable balance between supply and demand that allowed us to transfer part of our past cost increases to our prices in our main product lines. This, combined with our internal efforts to serve our clients properly by optimizing the product mix (we made adjustments to our supply relative to the same quarter of 2008), and improved efficiency, allowed us to increase total sales to a new historical record and achieve positive results in terms of operating and net income.

“In terms of EBITDA, we achieved a positive margin of 11.2%, larger than the 8.3% margin registered in 1Q08.

“As we reported last quarter, our comprehensive financial cost continued to be affected by the depreciation of the Mexican peso against the U.S. dollar given our hedging position. However, we have already restructured most of our derivative portfolio to mitigate this effect and expect minor effects in the second half of the year.

“We expect to continue delivering positive results in the second quarter of the year,” concluded Mr. Mondragón.

FIRST QUARTER 2009 RESULTS

Net Sales

Net sales for the first quarter were Ps. 5,866.8 million, 23.7% above the Ps. 4,743.3 million reported in 1Q08. This increase was mainly driven by higher sales in the main business lines: chicken sales rose 28.2%, while table eggs sales increased 11.0%, and swine sales rose 45.9%.

Net Sales	1Q09 (%)	1Q08 (%)
CHICKEN	79.0	76.2
EGGS	10.2	11.4
BALANCED FEED	5.8	7.8
SWINE	1.0	0.9
OTHER LINES	4.0	3.7
TOTAL COMPANY	100.0	100.0

Operating Results

Bachoco's first quarter gross margin was 18.8%, higher than the 17.4% reached in the same quarter of 2008. The increase in the gross margin is attributed to a 34.2% increase in sales prices, which partially offset the 21.6% increase in our cost of sales, mainly driven by higher cost inventories of corn and soy bean meal.

The Company had an operating profit of Ps. 494.8 million, compared to an operating profit of Ps. 244.4 million in the same quarter 2008. Said result represents an operating margin of 8.4% for the first quarter 2009, compared to an operating margin of 5.2% in the same period of 2008.

Operating expenses amounted to Ps. 606.8 million. Even when operating expenses increased by 4.5% during the first quarter, operating expenses as a percentage of sales decreased when compared to the same period of 2008.

EBITDA was positive and amounted to Ps. 654.3 million, 66.3% above the Ps. 393.3 million recorded in the same period of 2008.

Taxes

Total taxes recognized by the Company during the quarter were Ps. 67.1 million.

Comprehensive Financial Income (Cost)

The Company's financial comprehensive cost amounted to Ps. 119.8 million during the quarter, compared to a financial comprehensive income of Ps. 30.6 million reported in the same quarter last year.

Net Income

Net majority income for the first quarter was Ps. 273.9 million, or Ps. 0.46 per share (US\$0.39 per ADS), compared to a net majority income of Ps. 230.8 million, or Ps. 0.38 per share (US\$0.32 per ADS) reported in the same period 2008.

Balance Sheet

Cash and cash equivalents were Ps. 2,448.8 million as of March 31, 2009, compared with Ps. 3,162.0 million reported on the same date of 2008. Said decrease was mainly driven by larger inventories. The total debt outstanding as of March 31, 2009 amounted to Ps. 616.8 million.

RESULTS BY BUSINESS SEGMENT

Chicken

Results for the chicken business line were strong during the first quarter. Sales of chicken products increased 28.2% as chicken prices rose 30.0%; however, this result was partially offset by a 1.3% decrease in volume from the previous year. During this quarter the Company was able to transfer part of its cost increases to chicken prices.

Table Eggs

Sales of eggs increased by 11.0% during the first quarter as egg prices rose 17.3% from the previous year, but were partially offset by a 5.4% decrease in volume mainly driven by the adjustment in the production level of the company.

Balanced Feed

The balanced feed business line remained affected by higher costs in the inventories of raw materials. Sales of balanced feed decreased by 8.0%, while balanced feed prices increased by 19.6%, but were offset by a strong decrease in volume sold of 23.1%, as demand in the sector declined.

Swine

Demand and supply were stable during this quarter. Swine sales significantly increased by 45.9% from 1Q08, and were driven by a 50.3% increase in swine prices, partially offset by a 2.9% decrease in volume.

Other Lines

Sales of other lines increased 30.1% mainly due to higher by-product sales, such as poultry manure.

Outlook

- The Company expects the peso-USD exchange rate to remain volatile.
- The worldwide decrease in the costs of raw material will benefit the Company's cost of sales during 2009.
- We expect a good balance between supply and demand in 2009's second quarter.

Company Description

Industrias Bachoco S.A.B. de C.V. (also referred to in this report as Bachoco or the Company) is the largest poultry company in Mexico, with over 700 production and distribution facilities currently organized in nine complexes throughout the country. Bachoco's main business lines are: chicken, eggs, and balanced feed, among others. The Company is also present in other businesses like swine, beef, margarine and turkey in Mexico. The Company's headquarters are in Celaya, Guanajuato, located in Mexico's central region. For more information, please visit Bachoco's website at <http://www.bachoco.com.mx> or contact our IR department.

This press release contains certain forward-looking statements that are subject to a number of uncertainties, assumptions and risk factors that may influence its accuracy. Actual results may differ. Factors that could cause these projections to differ, include, but are not limited to: supply and demand, industry competition, environmental risks, economic and financial market conditions in Mexico and operating cost estimates. For more information regarding Bachoco and its outlook, please contact the Company's Investor Relations Department.
