Notes to the Consolidated Financial Statements
(unaudited)

Note 1: Organization and Basis of Presentation

Background

On December 14, 2009, America's Suppliers, Inc., a Delaware corporation ("ASI" or the "Company"), became the holding company of Insignia Solutions plc, a public limited company incorporated in England and Wales ("Insignia"), pursuant to a scheme of arrangement under Section 897 of the UK Companies Act of 2006 that was approved by the Insignia stockholders on November 30, 2009 and the High Court of Justice in England and Wales on December 14, 2009 (the "Scheme of Arrangement"). Pursuant to the Scheme of Arrangement, every ordinary share, 1 pence par value per share, of Insignia (the "Ordinary Shares") was exchanged and cancelled at a ratio of ten Ordinary Shares for one share of common stock, \$0.001 par value per share (the "Common Stock"), of ASI (the "Exchange Ratio"). All data for common stock, options and warrants have been adjusted to reflect the one-for-ten reverse split for all periods presented. In addition, all common stock prices and per share data for all periods presented have been adjusted to reflect the one-for-ten reverse stock split. Insignia is now a wholly-owned subsidiary of ASI. The securities issued in the transaction were issued in reliance on an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to Section 3(a)(10) promulgated thereunder.

DollarDays International, Inc. ("DDI Inc."), our wholly owned subsidiary, is an Internet based wholesaler of general merchandise to small independent resellers through its website www.DollarDays.com. Orders are placed by customers through the website where, upon successful payment, the merchandise is shipped directly from the vendors' warehouses.

Basis of Presentation

In the opinion of management, the accompanying unaudited consolidated financial statements include all adjustments, consisting of only normal recurring accruals, necessary for a fair statement of financial position, results of operations, and cash flows. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the consolidated financial statements and the accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2009. The accounting policies are described in the "Notes to the Consolidated Financial Statements" in the 2009 Annual Report on Form 10-K and updated, as necessary, in this Form 10-Q. The year end consolidated balance sheet data presented for comparative purposes was derived from audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States. The results of operations for the three and six months ended June 30, 2010 are not necessarily indicative of the operating results for the full year or for any other subsequent interim period.

In the fourth quarter of fiscal 2009, the Company conducted a 1 for 10 reverse stock split. All share and per share amounts have been retroactively restated to reflect this change.

Certain reclassifications have been made to prior period reported amounts to conform to current year presentation.

Noncontrolling Interest and Investment in Business Calcium

In December 2009, the Company entered into a series of agreements to develop WowMyUniverse.com, Inc. ("Wow"), a retail online business to sell directly to consumers, and Business Calcium, Inc. ("Business Calcium"), a website-development company. Under these agreements, the Company is obligated to pay an aggregate of \$260,000 beginning in January 2010, consisting of \$60,000 for consulting fees and \$200,000 for a 25% equity interest in Business Calcium and a 90% interest in Wow. These entities are each newly formed and had no assets or liabilities as of the date of the agreements. An aggregate of \$230,000 has been paid as of June 30, 2010, of which \$30,000 was for consulting fees.

As part of these agreements, Business Calcium owns the remaining 10% interest in Wow. Business Calcium has a put option which, if exercised, would require the Company to repurchase this 10% interest in Wow in exchange for a cash payment equal to 5.7 times Wow's trailing twelve month EBITDA. This put option is exercisable in December 2011. At June 30, 2010, the Company has assigned a fair value of \$0 to this instrument based on the current operating performance of Wow.

The Company has accounted for its investment in Business Calcium using the equity method of accounting for investments. The Company contributed an aggregate of \$109,582 for its investment in Business Calcium, (which includes \$9,187 that Business Calcium invested in Wow for its 10% ownership stake). Because the other shareholder is not obligated to contribute any funding to Business Calcium, the Company had a difference between its investment and its proportionate interest in the net assets of Business Calcium of \$82,187, which is accounted for as equity-method goodwill and carried as part of the investment in Business Calcium on the accompanying consolidated balance sheet at June 30, 2010.

The Company is accounting for Wow as a consolidated subsidiary and is reflecting Business Calcium's ownership interest in Wow as a noncontrolling interest in the accompanying consolidated financial statements as of and for the three and six months ended June 30, 2010. During the three and six months ended June 30, 2010, Wow incurred net operating losses of \$43,526 and \$81,433, respectively, which reflect operating activities which began in January 2010. No revenues were generated by Wow during the three or six months ended June 30, 2009. At June 30, 2010, Wow had assets of \$94,900 consisting of \$804 of cash and \$94,096 of capitalized website development costs which are included as part of the consolidated balance sheets. At June 30, 2010, the noncontrolling interest balance was \$1,044 which consisted of \$9,187 of the original 10% investment from Business Calcium and partially offset by an allocated loss of \$8,143 from Wow's operation to Business Calcium for the six months ended June 30, 2010.

Note 2: Going Concern

The accompanying unaudited consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has a recent history of operating losses and negative operating cash flows. These factors raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from this uncertainty.

The Company intends to generate operating cash flows through the growth of its existing business, the improvement of operating margins and by growth through acquisitions. Although there can be no assurance, management believes that such measures will provide it with enough liquidity to operate its current business and continue as a going concern in the short term.

Note 3: Restricted Stock

On February 25, 2009, the Company granted of an aggregate of 1,475,636 common shares with a fair value of \$47,220 vesting as follows:

- 20% vest immediately.
- 20% of shares granted vest on or after February 25, 2010 if price per share equals or exceeds \$0.60 and trading volume is at least 5,000 shares per day for 25 of 30 consecutive days in a trading period.
- 30% of shares granted vest on or after February 25, 2011 if price per share equals or exceeds \$1.00 and trading volume is at least 5,000 shares per day for 25 of 30 consecutive days in a trading period.
- 30% of shares granted vest on or after February 25, 2012 if price per share equals or exceeds \$1.50 and trading volume is at least 5,000 shares per day for 25 of 30 consecutive days in a trading period

During the quarter ended June 30, 2010, all 1,475,636 shares were issued although 1,180,509 shares remain unvested at June 30, 2010 as they have not met the vesting criteria. The unvested shares are included in shares outstanding at June 30, 2010 but are excluded from the weighted average shares outstanding computation for basic earnings per share in accordance with ASC 260. The Company recognized stock based compensation of \$1,845 and \$3,320, for the three months ended June 30, 2010 and 2009, respectively and \$4,673 and \$28,037 for the six months ended June 30, 2010 and 2009, respectively, based on the vesting schedule and requisite service period.

Note 4: Recently Adopted Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, Improving Disclosures about Fair Value Measurements (ASU 2010-06). This update provides amendments to Subtopic 820-10 and requires new disclosures for 1) significant transfers in and out of Level 1 and Level 2 and the reasons for such transfers and 2) activity in Level 3 fair value measurements to show separate information about purchases, sales, issuances and settlements. In addition, this update amends Subtopic 820-10 to clarify existing disclosures around the disaggregation level of fair value measurements and disclosures for the valuation techniques and inputs utilized (for Level 2 and Level 3 fair value measurements). The provisions in ASU 2010-06 are applicable to interim and annual reporting periods beginning subsequent to December 15, 2009, with the exception of Level 3 disclosures of purchases, sales, issuances and settlements, which will be required in reporting periods beginning after December 15, 2010. The adoption of ASU 2010-06 did not impact the Company's operating results, financial position or cash flows.

In February 2010, FASB issued ASU No. 2010-09, Amendments to Certain Recognition and Disclosure Requirements (ASU 2010-09). This update amends Subtopic 855-10 and gives a definition to SEC filer, and requires SEC filers to assess for subsequent events through the issuance date of the financial statements. This amendment states that an SEC filer is not required to disclose the date through which subsequent events have been evaluated for a reporting period. ASU 2010-09 becomes effective upon issuance of the final update. The Company adopted the provisions of ASU 2010-09 for the period ended June 30, 2010.

In April 2010, the FASB issued ASU No. 2010-12, Accounting for Certain Tax Effects of the 2010 Health Care Reform Acts (ASU 2010-12). This update clarifies questions surrounding the accounting implications of the different signing dates of the Health Care and Education Reconciliation Act (signed March 30, 2010) and the Patient Protection and Affordable Care Act (signed March 23, 2010). ASU 2010-12 states that the FASB and the Office of the Chief Accountant at the SEC would not be opposed to view the two Acts together for accounting purposes. The Company is currently assessing the impact, if any, the adoption of ASU 2010-12 will have on the Company's disclosures, operating results, financial position and cash flows.

Note 5: Net Income (Loss) Per Share

Basic income (loss) per share is computed based on the weighted average number of common shares outstanding and excludes any potential dilution. Diluted loss per share reflects potential dilution from the exercise or conversion of securities into common stock. The effects of certain stock options and warrants are excluded from the determination of the weighted average common shares outstanding for diluted income per share in each of the periods presented as the effects were antidilutive, as the exercise price for the outstanding instruments exceeded the average market price for the Company's common stock.

Computation of net income (loss) per share is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Net income (loss) attributable to America's Supplier	\$ 13,479	\$ (49,642)	\$ 35,732	\$ (151,694)
Basic weighted average common shares outstanding	12,925,348	12,925,348	12,925,348	12,852,912
Add incremental shares for:				
Stock options	-	-	-	-
Warrants	283,261	-	101,298	-
Diluted weighted average common shares outstanding	13,208,609	12,925,348	13,026,646	12,852,912
Net income (loss) per share:				
Basic	\$ -	\$ -	\$ -	\$ (0.01)
Diluted	\$ -	\$ -	\$ -	\$ (0.01)

The following potentially dilutive securities were excluded from the computation of diluted net income (loss) per share because their effect would have been anti-dilutive:

	Six Months Ended June 30,	
	2010	2009
Stock options	426,090	575,051
Warrants	537,328	1,707,447

Additionally, an aggregate of 1,180,509 shares of unvested restricted stock were excluded from the computation of diluted earnings per share as these shares are subject to market performance conditions that were not met as of June 30, 2010.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information that management believes is relevant for an assessment and understanding of our results of operations and financial condition. The following selected financial information is derived from our historical consolidated financial statements and should be read in conjunction with such consolidated financial statements and notes thereto set forth elsewhere herein and the "Forward-Looking Statements" explanation included herein. This information should also be read in conjunction with our audited historical consolidated financial statements which are included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, filed with the Securities and Exchange Commission on June 30, 2010.

Overview

We develop software programs that allow us to provide general merchandise for resale to businesses through our website at www.DollarDays.com. We have been recognized as a leader in the Internet wholesale market of discounted merchandise by a leading business periodical and trade associations. Our objective is to provide a one-stop discount shopping destination for general merchandise to smaller distributors, retailers and non-profits nationwide seeking single and small case-sized lots at bulk prices. We launched our first website in October 2001. The site offers customers an opportunity to shop for bargains conveniently, while offering our suppliers an alternative sales channel. We believe our website offers a unique benefit to smaller businesses in that they are able to purchase goods from wholesalers and importers in single and small case lots, with no minimum purchase requirements at discounted prices. We believe the prevailing reason our business has been able to obtain bulk pricing for single case lots is our ability to reach smaller distributors, retailers and non-profits that most general merchandise suppliers cannot economically reach. We provide all the logistics and customer support to serve this sales channel and grow our customer base.

We continually add new, limited inventory products to our website in order to create an atmosphere that encourages customers to visit frequently and purchase products before the inventory sells out. Through our Internet catalog, we offer approximately 85,000 products, including up to 10,000 closeout items at further discounted prices. Closeout merchandise is typically available in inconsistent quantities and prices.

We accept orders, either online or via telephone sales staff, collect payment in the form of credit or debit card, PayPal or similar means, and coordinate with manufacturers, importers and close-out specialists regarding delivery particulars. PayPal refers to the online payment platform located at www.paypal.com and its localized counterparts. Our proprietary software and service procedures allow us to sell merchandise to a single customer, and bill as a single order, items purchased and delivered from multiple suppliers. We do not take possession of inventory, but we are responsible for processing customer claims and returns.

Our website has a registered base of approximately 1.5 million small businesses and receives approximately 2 million monthly page views. We receive an average of approximately 3,000 orders per month. Our target audience is smaller businesses.

America's Suppliers, Inc. becomes Parent of Insignia Solutions plc

On December 14, 2009, ASI became the holding company of Insignia pursuant to a Scheme of Arrangement under Section 897 of the UK Companies Act of 2006 that was approved by the Insignia stockholders on November 30, 2009 and the High Court of Justice in England and Wales on December 14, 2009. Pursuant to the Scheme of Arrangement, every Ordinary Share of Insignia was exchanged at a ratio of ten Ordinary Shares for one share of Common Stock of ASI. All outstanding Insignia options and warrants were assumed by ASI, adjusted as per the Exchange Ratio, and such options and warrants are now exercisable for shares of ASI common stock. New Business Ventures

In December 2009, we entered into a series of agreements to develop WowMyUniverse.com, Inc. ("Wow"), a retail online business to sell directly to consumers, and Business Calcium, Inc. ("Business Calcium"), a website development company. Under these agreements, we are obligated to pay an aggregate of \$260,000 beginning in January 2010, consisting of \$60,000 for consulting fees and \$200,000 in exchange for a 25% equity interest in Business Calcium and a 90% interest in Wow. An aggregate of \$230,000 has been paid as of June 30, 2010.

As part of these agreements, Business Calcium owns the remaining 10% interest in Wow. Business Calcium has a put option which, if exercised, would require us to repurchase this 10% interest in Wow in exchange for a cash payment equal to 5.7 times Wow's trailing twelve month EBITDA. This put option is exercisable at December 2011. At June 30, 2010, we assigned a fair value of \$0 to this instrument based on the current operating performance of Wow.

During the six months ended June 30, 2010, Business Calcium and Wow incurred net operating losses of \$35,214 and \$81,433, respectively, as these entities were in the development stage and have yet to generate revenues. Business Calcium is accounted for as an equity-method investment and our proportionate share of their losses were \$8,804 which is reflected in other income (expense) in the accompanying consolidated income statement. Wow is accounted for as a consolidated subsidiary, and the noncontrolling interest in Wow's losses were \$8,143 for the six months ended June 30, 2010.

Recent Operating Performance

During the first six months of 2010, we have generated net income totaling \$109,024 from our primary operating subsidiary, DollarDays. We have recently made investments in new business ventures as outline above which has reduced our profitability, yet we have generated net income on a consolidated basis for two consecutive quarters. While there can be no assurance that we will continue to generate profits in the future, we are excited about the growth of our core business and the potential of our new investments.

Liquidity and Capital Resources

Our operating cash inflows were \$250,486 for the six months ended June 30, 2010, as compared to outflows of \$460,498 for the six months ended June 30, 2009, constituting an increase in cash provided by operations of \$710,984. The change in net operating cash inflows is attributable to an improvement in net income of \$187,426, an increase in changes in working capital and other operating assets and liabilities of \$521,625, plus fewer non-cash charges of \$1,933.

Investing cash outflows for the six months ended June 30, 2010 consisted of \$85,000 of cash received from the sale of short-term investments, offset by a net cash outlay of \$100,395 for our investment in Business Calcium (consisting of an aggregate investment of \$109,582, of which \$9,187 was used for Business Calcium's investment in Wow, a consolidated entity) and \$125,731 of investments in equipment and website development costs to support our business operations and expansion into the consumer marketplace. Investing cash inflows for the six months ended June 30, 2009 consisted of \$689,123 of cash from the sale of short-term investments, partially offset by \$46,492 of investments in equipment.

Financing cash outflows were \$0 for the six months ended June 30, 2010. We had financing outflows of \$65,212 for the six months ended June 30, 2009 due to the repurchase of shares from certain debtholders.

Our consolidated financial statements have been prepared assuming we will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We have a recent history of operating losses and operating cash outflows. These factors raise substantial doubt about our ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from this uncertainty.

We intend to generate operating cash flows through the growth of our existing business, the improvement of operating margins and by growth through acquisitions. Although there can be no assurance, management believes such measures will provide enough liquidity to operate our current business and continue as a going concern in the short term.

Off-balance sheet arrangements

We did not have any off-balance sheet arrangements at June 30, 2010.
