- Non-GAAP diluted EPS was \$0.26, compared to \$0.24 per diluted share for the same period last year.

Roni Al Dor, President & CEO of Sapiens International, commented, “Q3 was a strong quarter for Sapiens. We were extremely pleased with the opportunity to partner with new customers, further establishing Sapiens as a market leader. Sapiens client base is rapidly growing, and our market recognition in the global market is further enhanced, with the adoption of our Property & Casualty, Life & Annuity and Decision Management solutions. We are growing rapidly, profitably and we are expanding margins. To meet our growth plans, we are also growing our team of insurance and technology experts, globally. Sapiens continues to execute and is well positioned to accelerate profitable growth as a leading global provider of innovative software solutions and services.”

Increased 2012 Guidance

Mr. Al Dor continued, “As a result of the year-to-date progress, and our strengthening sales pipeline, we are increasing our 2012 revenue guidance. We now expect to exceed \$113 million in revenue for the year.”

Non-GAAP Financial Measures

Non-GAAP financial measures consist of GAAP financial measures adjusted to exclude: amortization of acquired intangible assets, share-based compensation expenses and certain business combination accounting entries. The purpose of such adjustments is to give an indication of our performance exclusive of non-cash charges and other items that are considered by management to be outside of our core operating results. Our non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. We believe that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP measures. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods.
