**Item 8.01. Other Events**

While working for Cobalt International Energy, Inc. (“Cobalt”) in the Gulf of Mexico, the *Rowan Reliance* drillship experienced a loss of seal in the riser connection system. The drillship commenced operations on the well on February 1, and the well has since been plugged and abandoned on April 6, 2015.

Cobalt is currently permitting a new well approximately 200 feet from the surface location of the original well. Rowan is working with Cobalt and regulatory authorities in order to be able to commence drilling within the next two weeks, assuming timely receipt of permit approval.

Rowan continues to evaluate the potential financial impact of these events.

**SIGNATURES**
